Of the total amount subscribed to the Young Women's Christian Association building, less than $400 now remains to be paid. Already $21,224.25 has been handed in, and the committee would take this opportunity of thanking the contributors for the promptness with which they responded to the appeal. The treasurer of the Building Fund would be glad to receive any subscriptions yet unpaid during the next two days in order that the amount to be borrowed may be reduced as much as possible.

Miss Roger Resigned

Mrs. W. M. Roger, who so generously offered to take charge of the boarding department of the Y.W.C.A. for six months, has been compelled to abandon the idea of doing so through ill health, consequently a new superintendent has been appointed in the person of Miss Haycock of Montreal. Miss Haycock comes very highly recommended by the Dominion Council of Young Women's Christian Associations and others. She is also competent to teach Domestic Science, having been engaged in the Domestic Science Department of the Montreal Association for the past two years. Miss Haycock will arrive in Peterborough to-day and will be glad to meet at once with the young women, who wish to interview her regarding accommodation.

DUTTON'S MARKET.

All kinds of Fresh Fish and New Vegetables for Good Friday.

R. A. DUTTON
Phone 304. 418-420 George street.

Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. ...

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. Vernon McGill of Toronto, is in town.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—To-day, Easter Monday, will be a Bank holiday.

—The street railway did a good business on Good Friday.

—Many visitors from out of town spent the holiday in Peterborough.

—One of the new gates at the locks was placed in position Saturday.

—A meeting of the Manufacturers Committee of the Town Council, will be held this evening at 8 o'clock.

—The Peterborough Business College closed for the Easter holidays. It will re-open to-morrow, April 25th.

—The Norwood Register says; Mrs. Burch and son, of Peterborough, are spending a few days with Mrs. Rutherford.

—The Tweed News says; A. Robinson, Belleville, proposes an electric line to connect northern towns with Belleville.

—Those who back the tiger in our local stockbrokers' offices did not listen to the ticker on Saturday. No quotations.

—The trains during Thursday and Friday were all late and crowded as well. The ticket agents report that the Easter traffic was heavy.

—Mr. George Paxman has leased the Webber property in Smith township and intends branching out in the chicken business on a large scale.

—Easter Saturday was observed in St. Peter's Cathedral. Service began at seven o'clock with the blessing of the baptismal water, which was followed by the celebration of the mass.

—The Norwood Register says; Messrs. Buck & Walsh shipped a car load of logs to the Matthews Company of Peterborough, the price paid being $6 per cwt.

—The steamer Sovereign is being thoroughly remodelled and transformed into a tug. The hurricane deck has been taken off and other changes are being made.

—The business men of Havelock have presented Mr. R. A. Williams, formerly of the Sovereign Bank there, with a handsome silver service, on the occasion of his being removed to a similar position in Stirling.

—The Havelock Standard says; Mr. Joseph Bell, of Peterborough, conducted the services in St. John's church on Sunday. Miss Fanny Boswell of Peterborough, was the guest of the Misses Reazzin on Sunday and Monday.

—Mr. Adam Davidson, the popular wire clerk has recovered from his recent illness and is again at work. Adam has accepted a position in the Oxford House, where he will doubtless be called on by a host of old friends.

—It is a good thing that our Canadian birds do not talk like parrots. Could they express their sentiments in good Canadian cuss words, the past days' weather would be provocative of strong language among black birds and robins.

—The Brass Workers will to-morrow evening hold another of their very enjoyable at homes in the Foresters' Hall, Simcoe street. Invitations have been issued for this event and a most enjoyable evening is anticipated.

—The Lindsay Post says; Miss Lewis Major, of Peterborough, spent a few days with Mrs. John Pearson, Melbourne street, recently. Miss Maggie Pearson, Melbourne street, is spending her Easter holidays with friends in Peterborough.

—The Millbrook Reporter says; Mr. J. D. Farr left for Sundridge on Monday to manage a new hardware business being opened out there. That Dawson will manage it well and faithfully, all who know him will guarantee. Mrs. Farr will remain in Millbrook for a while.

—Mr. Matt. McDonald, of Lindsay, one of the oldest employes of the well-known firm of Dundas & Flavelle Bros., was in town on Good Friday visiting his mother, whom he took back with him to Lindsay on Saturday morning.

—On Thursday night a Cleveland bicycle with coaster brake and cushion frame, was stolen from a verandah on George street. The police are looking for it, and would receive with thanks any information leading to its recovery.

—Mr. William Bellegham, Fenelon Falls, formerly of this town, is visiting with his family on Bethune street. Mr. Bellegham is foreman in the table department of the well known furniture manufacturers, The Sanford Manufacturing Company.

—The Norwood Register says; Mr. T. Fraser, local agent, has sold the double house on Victoria street, nearly opposite the Presbyterian church, owned by Mr. J. B. McWilliams of Peterborough, to Mr. D. A. Oakley, of this place, the consideration being $900.

—The Woman's Missionary Society of George street church, will hold their annual Thanksoffering meeting this (Monday) afternoon at 3.30 o'clock. The meeting will be addressed by Rev. Dr. Crothers and special music will be a feature of the meeting. All are cordially invited to attend.

—Yesterday morning at 10.30 an alarm of fire brought out the brigade. The fire was at the corner of Rubidge and Dalhousie streets, and no damage was done as it was only a pile of rubbish and weeds. A few pails of water thrown by the neighbors would have saved the brigade a run on Easter Sunday.

—The Port Hope Guide complains that peripatetic pedlars are quite too plenty in that town. They recommend that ladies greet these gentlemen, when too previous in pressing their wares, with a rolling pin. An aggravated housewife, at the business end of a maple rolling pin, is able to cope with any insistent agent.

—Mr. George F. Smith, a large shareholder in the Star of the East gold mine, and who has been on a tour of inspection in Colorado and other States for the purpose of investigating several mining propositions, writes as follows to the president of the Company at Peterborough: Mr. M. Smith:—"I did not see any propositions that I thought equal to ours (the Star of the East), and unless our property turns into a bare ore, containing mostly copper, like it does out west, I think we have one of the best mines in the world, with its facilities."

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

RATES—$1.00 per day

Special cheap rates by the week.
A share of public patronage solicited. Courtesy to guests is our motto.

D McIlhargey, Rickerby Bros.
Manager. Proprietors.

ADVERTISE IN THE TIMES.

For over a third of a century Dr. Pierce's Golden Medical Discovery has sold more largely than any other blood purifier or stomach tonic. Bigger sales to-day than ever before. Is that not the true test? Cures others, why not you? Makes rich red blood. An imitation of nature's method of restoring waste of tissue and impoverished blood and nervous force is used when you take an alterative extract of herbs and roots, without the use of alcohol, like Dr. Pierce's Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutriment the blood requires.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It thus cures scrofula, eczema, erysipelas, boils, pimples, and other eruptions that mar and scar the skin. Pure blood is essential to good health. The weak, rundown, debilitated condition which so many people experience is commonly the effect of impure blood. Dr. Pierce's Golden Medical Discovery not only cleanses the blood of impurities, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood.

No matter how powerful the intellect or the resources of intellectual power, it must be backed up by physical force. Every day the youth or man must manufacture a pint of rich, arterial blood, that is pure, stimulating to the brain, and that can rebuild the tissues that were destroyed in yesterday's work.

Dr. Pierce's Pellets cure biliousness.

IT PAYS TO PAY FOR THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale. During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out!

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

Endorses the Autonomy Bills

Would Never Have Been Any Manitoba School Question Had Province Had Schools Like Territories, Says Hon. T. Greenway.

Winnipeg, April 25.—Hon. Thomas Greenway, M.P., addressed a large meeting at Pilot Mound in the interests of Mr. Baird, the Liberal candidate in Mountain. Mr. Greenway said that Hon. Colin Campbell had been telling the people that he (Greenway), had been trying to force Separate Schools upon the Northwest Territories. He was afraid that Mr. Campbell had been misinformed and that he did not know what he was talking about. What the Government at Ottawa were doing was to perpetuate the system of schools in the new Provinces in existence before the Autonomy Bills were brought down. If Manitoba had such a system as is at present in existence in the Northwest Territories there would never have been any Manitoba school question.

Reports from Mountain are that a large majority of Independents will vote for the Government candidate, largely on the ground of opposition to Ottawa's interference with the new Provinces.

BOER OFFICER'S FALL

Man Once Prisoner of Col. Sam Hughes, M.P.

IS JAILED IN CHICAGO

Pathetic Story of a Boer General—Arrested For Forgery

Chicago, April 25.—Roaming the country to evade his wife and resorting to strong drink to help him forget the past, William John de Jongh, once a general in the Boer forces, resorted to the forging of checks to get money with which to prolong his debauch, and has been sentenced to eighteen months in the house of correction on a charge of forgery.

De Jongh was arrested under the name of Henry Marshall, but his true name was revealed in court yesterday through the pleas for mercy intervened by British army officers against whom the man had campaigned in South Africa. The officers declared that De Jongh was a zealous patriot, a daring fighter and a thorough gentleman when they knew him.

Assistant State's Attorney Robert Holt astonished Judge Barnes when the prisoner appeared for sentence by stating both Colonel Sam Hughes and Major Mackie, of the British army, stationed in Canada, had proclaimed "Henry Marshall" to be General de Jongh, whom they had feared as an enemy and respected as a friend. De Jongh admitted the truth, and at the request of the judge retold the romantic story of his battles, his wanderings and his fall. But with the evidence of forgery before him, the judge sentenced the man to the house of correction.

TALES OF ADVENTURE.

In the office of Jailer Whitman, De Jongh narrated his adventures in a manner which was conclusive evidence of his education and breeding. For generations his family has been prominent in the Transvaal. He became a lawyer, and was public prosecutor of Krugersdorp at the outbreak of the war with Great Britain. He first served the Boer cause as a secret service agent in Cape Colony, and then joined Cronje's army, seeing active service in many battles. When he was 24 years old De Jongh was sent into Griqualand West, which the Boers hoped to annex, as military governor and commander of the British forces. He carried on a desperate warfare against the invaders, but when convinced that there was no hope he used his offices to persuade the Boer commanders, who were then conducting a mere guerrilla warfare, to accept terms of surrender. He himself yielded under honorable terms, to Colonel Sam Hughes, at Maga-ga-Phiri.

FINDS WIFE'S LOVE COOLED.

But upon his return to his home he discovered that his wife, whom he had married in Griqua Town, had transferred her affections to a British army officer. Broken-hearted, he left South Africa in April, 1902, determined that he would never see her again. He came to Canada, but his wife followed him there, and when he learned of her arrival he left Ottawa at once, coming to the United States.

He roamed restlessly from State to State, lavishly spending the allowance sent him by a rich uncle in the Transvaal, for pleasures which would help him forget his misfortunes. He came to Chicago last September, bought a Wabash avenue saloon and for two days served free drinks and cigars to all who entered. But finally the allowance, which often amounted to $1,000 a month, stopped coming, and De Jongh, his moral sense dimmed by drink and drugs, resorted to the forgery of checks for small amounts. He was arrested Jan. 21, and has been in jail since that time.

De Jongh is short and slight of stature and dark of complexion, his face still showing traces of the tan of the veldt. He is short-sighted and wears heavy spectacles, in spite of which the British found him an expert rifle shot.

MANY ISLANDS VOLCANIC ORIGIN

Japan's New Accession of Territory Has Many Parallels

HAVE BRIEF DURATION

One Island in the Azores Arose and Vanished Within a Day

London, April 25.—A member of the Royal Geographical Society, speaking of the new born island in Japan, says there have been many such occurrences in the world's history.

"Ages ago," he said, "the sudden upheaval of land was a common occurrence, and many of these volcanically-fashioned places today support life and are the scenes of human activity. The Azores, in the North Atlantic Ocean, are typical of the island whose existence is due to subterranean volcanic eruptions. St. Michael, St. Mary, and the seven smaller islands of the group, although fertile and lovely, in this way sprung unexpectedly into being. So recently as 1811 a new island rose suddenly among the Azores to a height of 300 feet, then as suddenly disappeared.

"Upon his return from a voyage across the Indian Ocean the captain of a trader reported the presence of an island unmarked upon the chart. Investigators, unbale to discover any sign of the new island, made facetious reference to whiskey and the sea serpent. Yet, it was pointed out, the phenomenon of an island of a day was by no means beyond the bounds of possibility. In this self-same ocean, and 2,000 miles from the nearest land, is the small island of St. Paul. Its existence is due to the presence of submerged volcanoes. Instances of this sort might be multiplied indefinitely. The raised beaches of the Isles of Man and Arynhire and some of the rocky islands round our own coasts are due to submarine volcanoes.

"Whether or not Japan's new island has come to stay it is impossible now to suggest. It certainly is not a safe foothold at present. Japan is preeminently the land of earthquakes. I do not think, though, that the country is in serious danger from this cause. One might compare Italy with its Vesuvius to Japan with its volcanic system, only the latter is more active and energetic."

THE SIN OF ENGLAND

The Bishop of Southwell Says Society is Honeycombed With Evil

London, April 25.—The new bishop of Southwell, in conducting his first confirmation service at St. Cuthbert's College, Worksop, and addressing the boys, said that although England was called a Christian country, they would find that the sin of England was very great. Society, he said was honeycombed with cheating and lying and defrauding, and there was a quarrelsome spirit which separated and divided it.

FRANCE TO ARM IN FAR EAST

Results in War Cause Alarm Regarding Condition of Defenses

Paris, April 25.—Admiral Fournier, who was president of the North Sea commission, and General Voyron, who commanded the French forces which operated against the Boxers, expect to accompany Colonial Minister Clementel on a voyage of naval and military inspection to French Indo-China. This results from the apprehensions growing out of the Russo-Japanese war over the insecurity of the French defences in the Far East. The trip is expected to result in a general plan for the construction of strong defenses at Saigon and other points in Indo-China.

A REMARKABLE GRAMOPHONE

New Invention That Can Be Heard for Miles

London, April 25.—The Hon. C. A. Parsons, of turbine fame, has invented a gramophone that can be heard under favourable weather conditions, at a distance of three miles. The instrument which has been exhibited privately at Metaler Hall is named the auxetophone, and is worked by means of compressed air. This is pumped in by a small engine at a pressure which can be adjusted up to over eight pounds, through a small valve, which takes the place of the ordinary diaphragm into the trumpet. The valve consists of a number of small slots, covered with a fine comb, not unlike a mouth organ, and the vibration of the comb produces the sound.

OUR FIRST MAYOR

Mr. Charles Hudson, Uncle of Mr. B. Hudson, Artist, Peterborough's First Mayor.

In the very interesting account, given by one of our esteemed evening contemporaries, of a barbecue held in honor of Peterborough's assuming the dignity of a town, we see that the name of our first Mayor, presiding at the festivities was Mr. Benson. After interviewing several of our older citizens on the subject, we find that the first Mayor of Peterborough was Thomas Benson; but that the barbecue, at which an ox was roasted whole, in anticipation of a general feast, was given under the regime of Mr. Charles Hudson, who succeeded Mr. Benson as Mayor. In fact, the ox was presented gratis by Mr. Hudson. Sad to relate, human frailty, leavened by a generous spice of frolic and mischief, caused the ox to disappear before it could contribute its intended part towards the feast. It was stolen just after the culinary proceedings were completed, and hustled out of town by some local contemporaries with a large bump of humor. When the purloiners of the roasted carcase commenced their operations they tried to take the ox on the iron spit thrust through it, and on which it revolved during the roasting, however, the spit was too hot and heavy to handle, so a wooden pole was poked through the ox and on it was borne away. A joker fastened a black squirrel on the denuded spit and had it roasted. When, next morning, people found a diminutive roasted squirrel in place of an ox, there was much amusement and regret. Mr. P. White, who then had a shoe store in town, father of the late Mr. Thos. White, remarked: "How small that ox has grown!"

Mr. Charles Hudson was uncle to Mr. B. Hudson, the well known Brock street artist. Mr. Hudson has, in his studio, a fine oil painting of his venerated uncle.

FRENCH THRONE BELGIAN BRIDE

Prince Louis Napoleon Engaged in Two High Intrigues

THEIR LINES ARE CROSSED

Prince's Marriage With Princess Clementine is Likely to be Marred by Conspiracy

Berlin, April 25.—Diplomatic quarters here have learned that the military conspiracy, engineered in Paris by Capt. Tamburini, of the French army, with a view to placing Prince Victor Napoleon on the Throne of France, conflicts with the piquant contest for the possession of the heart and hand of Princess Clementine, the favorite daughter of King Leopold, with King Frederic Augustus, of Saxony, and Prince Victor Napoleon, of France, as rival suitors. The conspiracy is declared to have succeeded in compromising Napoleon to a degree that makes his marriage with Princess Clementine an impossibility. King Leopold has tried in vain, however, to stop communication between the lovers, who are genuinely fond of each other.

Although Clementine is the only daughter who remained loyal to Leopold, she lately has broken with him and now declines to return to Brussels until the King approves her betrothal to Napoleon. Leopold opposes the union for two reasons. He fears complications with France and the loss of French support in the Congo; secondly, because Prince Napoleon is said to cherish designs on the Congo Free State as soon as he becomes Leopold's son-in-law. It is asserted that he purposes claiming the regency of the Free State and then, if Belgium still resists the conversion of the Congo into a colony or if the powers intervene, he intends to set himself up as a pretender to the Throne of the Congo.

King Frederic Augustus is exerting tremendous pressure to break up Clementine's affection for Napoleon. He is determined to win her for himself, because there are so few marriageable Catholic Princesses sufficiently exalted to become Queen of Saxony. The King asked his mother, Dowager Queen Carola, of Belgium, to plead with Clementine, but the Princess declined to see her. Carola thereupon went to England to secure the influence of Clementine's sister, Princess Stephanie formerly Crown Princess of Austria, but now Countess Lonyay.

There are many who believe that the Separate school system is wrong in principle; is an evil to the country inasmuch as it tends to widen the gulf that separates Roman Catholics from those of all other faiths, and puts them in a distinct class by themselves, thus preventing them from working harmoniously together for the good of their country; is a combination of church and state, which is, we believe, bad for any country, and is in the nature of a special privilege—special privileges of all sorts being wrong, unjust and unfair.

OBJECTION TO DATE OF INAUGURATION CELEBRATION.

(To the Editor of The Times.)

Sir,—Will you kindly allow me, as an old subscriber, to give my opinion about the selection recently made of Labor Day, as the day to celebrate our becoming a city. Now sir, I believe, being a worker myself, in making Labor Day one of our local festivals and in having the best Trades and Labor procession and celebration the town can afford or inaugurate. But the event in question, the celebration of our emancipation from the stage of being a "town, although indirectly dependent on the results of labor and industry which have so helped the town's development, is of a wider interest. It concerns labor, professions, science, capital, trade and every class of the community. The celebration should be an endeavor to bring thousands of people to the young city, amuse them, interest them, show them our opportunities and chances for investment, and incidentally gather in their dollars whilst here. This would not interfere in the day's enjoyment with the local taxpayers who put up the work and money for the celebration. In the no matter how great our efforts or our enthusiasm, to begin to compete with the Toronto Fair in competitive attraction! How many people will divert their trip, to Peterborough, before going to the greater attraction in Toronto!

The date, as now proposed, directly clashes with the Toronto Fair. The thousands of possible "Trippers," who have saved up money, or a day or two, will not visit Peterborough) to Toronto, when both attractions come on the same date. So late in the summer, thousands of possible visitors to Peterborough will have had their outing. We are not going to have a village maypole dance and a greasy stick, to be climbed by local people only. If it is finally decided that the fall is the only time for such a celebration, better far to have it before or after the Toronto Fair, but preferably long before and secure the attendance of some outsiders.

Yours Truly,

LABOR.

THE LOCK COMPANY

Shareholders to Meet Directors Saturday.

There are good prospects for a speedy beginning of the new buildings for the Peterborough Lock Company, as a meeting of the shareholders of the Peterborough Lock Manufacturing Company has been called for Saturday next to confer with the directors on the question of the erection of new buildings. Plans and specifications have been prepared which will be submitted to the shareholders for their consideration, at that meeting, when it is expected a decision on the matter will be arrived at.

FEAST OF PASSOVER

Began Last Wednesday and Will Conclude To-morrow.

Many people in Peterborough are not aware that we have a number of Jews in our midst, and that these "Chosen people of the Lord," in connection with Jews all over the world, are just now engaged in celebrating the "Feast of the Passover." The feast began on Wednesday night last, and will continue seven days. The first and last days are particularly impressive, and are known as the time of the "Holy Convocation."

During the period of the "Passover" no bread in which yeast is used is permitted to be used. This is in remembrance of the inability of the Jews, at the time they left Egypt, to bake the dough they had prepared.

The "Passover" is so called by the Jews for three reasons: The first, because the angel of death passed over the houses of the Israelites while the first-born of every Egyptian family was destroyed; second, because the path of the Jews over the Red sea was dry shod, and third, because it is a spring festival symbolizing the transition or passing over of winter to summer.

FOUND IRON.

Lucky Strike of a Former Peterborough Man Who Has Found Iron.

Mr. T. H. Crowley, a former resident of Peterborough county, now living at Steelton, Ont., was in town yesterday, and in conversation with old friends, related his good fortune since leaving the township of Harvey 13 years ago.

After Mr. Crowley left this vicinity he lived for eleven years in the Canadian Soo, and two years ago went to the Rainy River and Thunder Bay Districts, where he has been engaged in prospecting work, although he considers Steelton, the new suburb of the Soo, as his home.

At the time of the collapse at the Soo a couple of years ago, Mr. Crowley went to the part of New Ontario, as above noted, and in his search for minerals he has been most successful. He has discovered what he considers to be one of the most valuable deposits of Bessemer iron ore in the province, and if Mr. Crowley's expectations are realised he should be made a wealthy man by reason of his discovery. There are in sight at the present time in this deposit 2,000,000 tons of ore, which assays 63 per cent. pure Bessemer, and in its Bessemer qualities lies its peculiar value.

He has been offered already $150,000 for his find, but will not accept that sum, and in view of the apparent richness of the discovery, that sum seems ridiculously small, since Mr. Crowley says the Government bounty for Bessemer ore is $1 per ton. He has also discovered rich deposits of gold ore.

This is Mr. Crowley's first trip home since he left thirteen years ago.

ST. JOHN'S VESTRY.

Easter Meeting Last Night—A Satisfactory Financial Statement—Officers Elected.

The Easter vestry meeting of St. John's church was held in the school house last night. The financial statement showed a balance on hand of $318.38, and this was considered highly satisfactory in the face of an exceptional expenditure last year of $300 for concrete walks. The retiring Wardens, Col. Rogers and Mr. Harold Clurton were heartily congratulated on the efficiency with which they had attended to the business of the church the past year.

Messrs. Hollingshead and H. Morgist were appointed auditors for the ensuing year.

The vestry were unanimous in endorsing the engagement of Rev. Mr. Tandy as the rector's assistant, and fixed his salary at $100 more than agreed upon between him and the wardens.

The following officers were elected for the ensuing year:—Rector's Warden, Mr. E. Eardley-Wilmott; People's Warden, Mr. Harold Clurton (re-elected); Vestry Clerk, Mr. W. H. Walkey.

Sidesmen and Ushers will be appointed at the adjourned meeting two weeks hence.

The Easter offertory for the rectory fund amounted to $201.22.

The site for the new rectory will be decided on at next meeting.

LAND OPERATIONS IN MANCHURIA ARE SUSPENDED

Rumor That Fleets Had Already Been Engaged Not Credited at St. Petersburg---Jap Fleet Assembling at Manilla.

Kamranh Bay, Indo-China, via Saigon, April 25.—The Russian squadron consisting of fifty-two ships, including transports, left here at noon on April 22, and the main portion soon disappeared in a northerly direction. Sixteen vessels; the Russian cruiser, Svietlana, the Russian hospital ship Orel, four German transports, seven Danish transports, and three Russian transports remain in the offing.

FIFTEEN MILES OUT.

Saigon, April 25.—According to the last news received here, the Russian Squadron was fifteen miles from the coast. The vessels were steering northward.

This report would seem to nullify previous reports that heavy firing was heard at Kamranh on Saturday night.

OYAMA WAITING.

St. Petersburg, April 25. — The news from Manchuria indicates that Field Marshal Oyama's plans await the result of the naval battle, it being too risky for the Japanese army to undertake serious operations while the outcome of the sea fight is in the balance. Should Admiral Rojestvensky resist Vladivostock and Admiral Togo still be able to protect the Japanese lines of communications, the general belief at the War Office is that the Japanese will forthwith attempt to cut off and invest Vladivostock and make of the place another Port Arthur.

CLOSING EXHIBITION

Y.M.C.A. Physical Department Gives Its Closing Exhibition This Evening

Parents who like a good clean form of entertainment of a superior kind, or those having boys, who like to spend an evening of amusement with profit to themselves, can be accommodated to the King's taste by attending the closing exhibition of the Y.M.C.A. physical department tonight. The program, as given below, is a particularly good one, and should ensure a good attendance;

Selection—Y.M.C.A. orchestra.

Piano Duett—Miss Campbell and Miss Jolliffe.

Maize run—All of the boys.

Mass Calisthenic Drill—All of the boys.

Piano and Drum — Messrs. McCoy and Beach.

Military marching — Junior school boys.

Selection—Y.M.C.A. orchestra.

Fat Wrestlers.

Mass Apparatus work—All boys.

Three legged race—Sr. school boys.

Special high bar work—Sr. school boys, leaders' corps.

Fat Wrestlers.

Selection—Orchestra.

Three legged race—Sr. school boys.

Vocal solo—Miss Bellegham.

Special Parallel Bar work—Sr. Leaders' corps.

Pyramid tumbling—Sr. school boys.

Selection—Orchestra.

God Save the King.

To-night at 8 o'clock.

Police Court

OFFICIALS

Chief of Police, G.I. Hunt
Magistrate, D.W. Dumble

Saturday's session of the Court hardly paid expenses, let alone affording relaxation for an audience. The only case before his Worship was that of Mr. R. H. Eastwood who, after a too free indulgence in stingo, was found lying on an Ashburnham sidewalk, unable to waddle or navigate. Officer Stewart managed to get him to the station with some difficulty. His little fun and temporary slumber on town property, cost Mr. Eastwood the sum of $7—$2 fun and $5 costs.

On Saturday morning Officer Stewart sallied forth with a nice little bunch, some 25 or 30, summonses, issued by the tax collector, against as many parties in town who have neglected to pay their poll tax of $1.00 each. This bunch only represents about one quarter of the summonses, still to be issued for this same infraction of the revenue laws of Peterborough. Every one must contribute some little aid towards payment of Municipal expenses, even those who are only walking around to save funeral expenses and succession duties.

Three summonses, all for dwellers in our new 6th Ward, were also taken by the officer, and will be, or have been, served on parties accused of owning dogs; poor Fido or Prinney must pay a yearly tax or get off this mundane sphere.

MONDAY'S POLICE COURT.

Yesterday was a blank at the Court. His Worship having been out of town for Easter did not return in time to hold court. The only case that was to have come off, was that of the young Englishman, arrested last Friday for having sampled too generously our blooming Canadian Beer. The Englishman, who had been allowed to go on his own recognizance, had his lawyer on hand to represent him. His trial will likely come off this morning.

A RARE INVESTMENT

Good Opportunity Now Presented for Safe and Paying Investment

The Times was yesterday somewhat impelled to break the 10th commandment when shown some unique specimens of gold ores taken from the Big Cammo gold mine, of Tuolumne Co., California. Mr. George L. Porter, representative of the mine, who is at present stopping at the Oriental Hotel, showed this journal a sample of ore specimens, taken at random from the 250,000 tons already blocked out. In these, the virgin gold is very much in evidence; in some of the pieces, the gold actually outweighs and out-bulks the quartz. Mr. Porter is endeavoring to interest local capital, with a view towards obtaining enough money to carry to completion the work already well developed. The company has already one 20 stamp mill in operation, of which he has several photographs.

They intend, as soon as sufficient capital is subscribed, to build more mills so as to work the ores now in sight and in mine. This mine contains the cheapest kinds of ore to work, the "Free Milling" ore, which does away with the expensive extraction by chemical process. Mr. Porter is endorsed as a reliable and responsible gentleman, by personal letters of introduction from many banking and mercantile institutions in the United States, including letters from Clinton Bank, Clinton, Ky.; First National Bank, Martin, Texas; Commercial Bank, of Union City, Tenn.; First National Bank of Union City, Tenn.; Farmers and Merchants Bank, Hickman, Tenn.; and many others. Anyone seeking, what seems to us as, a sound and profitable investment, would do well to call personally on Mr. Porter at the Oriental.

TOWN BOARDS

Meetings Held by Charity Board, Manufacturers' Committee and Board of Works.

Last night the different Boards as noted above met, and for want of a quorum were considerably delayed in getting to work.

The Charity Committee was represented by Messrs. H. Rush, chairman, Aldridge, Yelland, Collins, Patten, Miller, Braund.

The following accounts were presented;

N. Routley	$6.00
A. Allison	3.00
Mrs. Wainwright	4.00
H. Edmonson	1.75
H. P. Kennedy	8.20
R. C. Braund	3.00
S. Brown & Co.	6.00
Jas. E. Henderson	4.00
H. H. Edmonson	2.00
R. Gibbs	1.25
W. H. Hamilton	8.00
T. H. Malone	4.00
Jas. R. Bell	10.00

Moved by Mr. Batten, seconded by Mr. Braund that the accounts presented be paid, except that of H. H. Edmonson, which is not certified.

Messrs. Mullens, Stoddard, Carton and Matchett, for the Central Milling Company, appeared before the Manufacturers' Committee and asked that their assessment be fixed at $10,000. It was pointed out that under the new assessment act their assessment would probably be reduced from its present figure of $14,000.

Councillor Adams moved that the Solicitor be notified to form an agreement with the Ottonabee Power, and Auburn Companies for transmission of power along the streets.

The Secretary and Reeve of Douro appeared before the Board of Works with reference to the boundary line between the town and the township. The Douro delegates represented that they had in three years spent $200 on this road, in statute labor and cash, and that the town had only spent $24 in 1901, and nothing since. They were somewhat put out when a contra expenditure of $127 by the town, on the cinder path along the boundary line, was presented in which they had not shared the expenditure. The old accounts were called a "saw-off," and an amicable arrangement made to divide the expense in future.

The Mayor explained in answer to a question as to his not signing the pay list, that the pay sheets had not been certified by the Inspector and contended that the Inspector should sign pay sheets to make some one responsible. Each Inspector must sign the sheet for his own men.

The Mayor firmly declined to sign any pay sheets until properly made out. It was claimed on the contrary that Mr. Hay signing the pay sheets should be sufficient.

The Board of Works recommended in 1901 that the Treasurer should pay all cheques on signature and certificate of the Town Engineer.

Mayor Best contended that the Street Commissioners do as they want and practically ignore the Board of Works.

It was contended by several members that the Mayor should, until the present system be changed by the Council, sign the pay sheets as of old, under the present by-law. It was contended by Mr. Ricks that if Mr. Hay made out and signed the sheets and the Commissioners certified them that it should be sufficient.

Mr. A. Hall, moved that the Street Commissioners report their pay sheets, certify to them, and hand them in to Mr. Hay, who shall sign them and that each Commissioner furnish the Mayor with a certified copy.

The rest of the proceedings were crowded out, and will appear in to-morrow's issue.

THE absolute purity of the ROYAL BAKING POWDER makes it pre-eminently the most useful and wholesome leavening agent known. It contains no lime, alum, phosphate or ammonia, leaves no acid or alkaline residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake which are perfectly digestible and wholesome, whether hot or cold, fresh or stale.

Royal Baking Powder has been analyzed by the Chief Health Officers of Great Britain, Canada and the United States who recommend it for its wholesome and economic qualities.

ROYAL BAKING POWDER CO., NEW YORK.

THE NAVAL SITUATION

The world is again on tiptoe with excitement on receipt of the news that Rojestvensky, with the entire Russian fleet, left Kamranh Bay at Saturday noon. How near a conflict with the Japanese squadron may be, depends entirely on the tactics pursued by Togo, but it is worth while noting that even should Rojestvensky's armada steam steadily onwards, without further delay or interruption, he would not reach Formosa, the present base of the Japanese fleet, in less than three days' steaming, or until Thursday, as Kamranh is a good thousand miles from that island. The channel through which he might pass into the Pacific lies between Formosa and the Philippines, and almost an equal distance from Kamranh. If the Japanese plan is to fight in the vicinity of Formosa, as is likely, a naval engagement, preceded by torpedo attacks, might be fought by Saturday, and the fate of empires decided. The rumors of a naval engagement on Saturday night and of the presence of the Russian fleet off the Island of Hainan, may be dismissed as untrue, the latter being utterly impossible. The fact that the fleet left the hospital ship, a cruiser, and other vessels behind makes it more doubtful that Rojestvensky has gone very far away, but that may be a blind.

SANTAL-MIDY

Awful Palpitation, Dizzy, Faint, Weak

You Have a Weak Heart and Poor Nerves — Instant Death May Overtake You.

With weak heart and exhausted nerves, you are living in the very shadow of death.

Think what it would mean to your family if you were to be taken today!

You can't afford to risk it any longer. Get Ferrozone at once and make your heart strong and well.

Ferrozone has helped many a man to live a strong, useful life, and will do likewise for you.

Mrs. E. J. Brooks, of Berlin, says: "My nerves were weak and I was irritable and cross.

"My heart palpitated, also my engine and everything faded away.

"I was subject to dizziness and fainting.

"After using Ferrozone I gained strength. My appetite improved. I slept well. The heart trouble disappeared.

"Ferrozone made me well."

You will never know what real good health means until you take Ferrozone. It gives strength, endurance and energy to every organ of the body; try Ferrozone, 50 cents per box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, APRIL 25 1905

THE RUSSIANS AND PEACE

The fact in the situation that tells most for peace between Russia and Japan in the near future is the known feeling of the people, or a great part of the people of Russia. The desire for peace in Russia is not confined to any one class. It is most earnest among the common people because they suffer most directly and cruelly from war. It is shared by the mercantile and manufacturing classes because they know the terrible burden of actual cost and of indirect confusion and disturbance the war imposes. It is felt among the more thoughtful and liberal of the educated class because they regard the objects of the war as unworthy and success hopeless. But even the aristocratic and bureaucratic classes are not without members who dread the continuance of war because it may involve economic and political disturbances quite beyond their power to deal with.

These classes have been deeply disappointed and dismayed by the effect of the fall of Mukden, the disastrous defeat and retreat of Kuropatkin, and the almost total collapse of the tremendous machinery of war which has with extreme effort been put in motion in Manchuria. Their feeling is indicated sharply in the curious statement put out by the War Office, showing that over three-quarters of a million of men have been sent out to Kuropatkin since he took command a year ago. Clearly the men who made this amazing statement feared more the resentment of the people at their not having done all they could more than they feared to discourage the nation by a revelation of how futile their utmost endeavor had been. It was natural for the actual rulers of Russia to expect that the humiliating defeats in Manchuria would arouse in the Russian people a sort of desperate rage and a determination to wipe out the disgrace at any cost. It was natural for them to suppose that the people would accept any sacrifice rather than submit to the final disgrace of practical surrender to an Asiatic nation to whom ten years ago Russia had aided in dictating the most mortifying terms with not a thought of the consequences. These expectations have been bitterly disappointed. The sentiment of the Russian people is far more one of anger at their own Government than of anger toward the Japanese. Instead of being moved to further sacrifice, they are indignant at the recklessness with which they have themselves been sacrificed in the past. For the first time in their long history the Russian people fail to be united by defeat and peril, and the rulers not only call on them in vain to rally to the support of the Emperor, but look with deep apprehension on the possible danger to the autocracy from the actual sentiment of his subjects.

If we add to the effect of these facts on the minds of the Czar and his advisers the undoubted effect of the great pressure directly exerted by the financiers of the world, and especially of France, and indirectly by the Governments of the world and particularly the royal relatives of the Czar, we can see that the expectation of peace is by no means unreasonable. That it is entirely justified it is too early to say. We know less of the internal affairs, of the real spirit of the Russian people than we know of any other civilized people, but nearly all that we do know encourages the hope that the awful slaughter that has raged in Eastern China for the past year—slaughter more vast and reckless than any recorded in the authentic history of the world's wars—will not be renewed.

POLITICAL POLTROONS

The Weekly Sun says: One political poltroon after another is owning that in the school question he is surrendering principle to party or to fear of the Catholic vote. The latter motive has in several cases been very frankly avowed. If this were a surrender to the power of a native Canadian church, it would be degrading enough. It is far more degrading as a surrender practically to a foreign power interfering through its emissary with [illegible]. The papacy, in its Syllabus openly claims temporal power, and asserts its right to call upon governments to aid it in coercing opinion. It denies the sanctity of our marriages as wanting the sacramental form. We have been submitting to its dictates in going without the divorce courts, which is a regular institution of modern civilization, and forcing our people to resort to the divorce courts of the United States. We are now submitting to its dictates in providing it with separate schools for the propagation of its anti-national creed and sentiments.

TERRIBLE PRACTICAL JOKE

Wife in Asylum and Husband Has Committed Suicide

Paris, April 25.—A pathetic sequel was the result of a silly joke perpetrated last Thursday night. Mr. Edmond Lelouse, wishing to frighten his wife, dressed up a wax figure, the head of which and one of the hands he lightly attached to the body by means of gum, and placed it in bed. While Lelouse was watching the proceedings from behind some draperies, his wife, about to retire, grasped what she supposed in the semi-darkness, to be her husband's hand, but which was in reality that of the wax figure. The hand, cold and clammy, detached itself from the limb and remained in her grasp.

With a cry of terror Madame Lelouse let the head drop to the ground, and flung her arms around the figure's neck. When the head also became detached and rolled down upon the the floor.

The terror-stricken woman, uttering piercing shrieks, ran down the stairs, where she was stopped by some neighbors and detained. When the police arrived it was found that she had become raving mad. Later she was conveyed to the asylum.

When the husband was apprised yesterday morning of the hopelessness of his wife's condition he poisoned himself by swallowing a dose of nitric acid.

A GOOD INVESTMENT

Grand Opportunity for Conservative Investment in a Reliable Company

Parties with money to invest in what gives every promise of being a paying concern would do well to study carefully the advertisement in another column of the Richmond and Drummond Fire Insurance Co. Fire insurance companies recently have suffered severe reverses, owing to their concentration of large amounts of risks in small and crowded areas. The rates in the past have been altogether inadequate in comparison with the risk involved.

The Richmond and Drummond Fire Insurance Company have taken over the business of an already old established business; hence they will save a great proportion of the initial expenses involved in placing a new company. They will also start business under much more favorable auspices on account of the already raised schedule of premiums.

The proposition they offer of shares at $100 each, with 25 per cent. payable on allotment and a further call of five per cent. annually for three years, making only 40 per cent. demanded on the investment, coupled with their unique prospects for economical business seems to present a most favorable chance for investment of capital.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

JALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists

No Breakfast Table complete without

EPPS'S

An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. It is a valuable diet for children.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Additions and alterations, Drill hall, Toronto, Ont.," will be received at this office until Friday, April 28, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender,

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 14, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Performance
Not Promises

There is all the difference in the world between expectation and realization. There is even a greater difference between promise and performance. In the former case you form your own opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take some one's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case in a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless
(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since midsummer.

The Canadian Company has already completed a net work of successful stations along the St. Lawrence Gulf and there are on Canadian soil thirteen stations already in operation. The Company has already been authorized to build four more stations as promises points during the coming summer. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation at that point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises—they are performances. Compare what Marconi has DONE with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they?" The answer suggests itself. Can you not foresee the great future this Company has before it? Do you not wish to become a sharer in the success which is at its door? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

ADVERTISE IN THE TIMES

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to break 15 acres under cultivation; but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Sport and Adventure with Rod and Gun

—THE—

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company, which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the [illegible] of the large cities. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Bromptonville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Cromble, Esq., Kingsbury, Que., of Williamson & Crombie, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. N. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent., in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 16, Victoria Arcade Bldgs., Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,000,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 8 full fised mining claims of 5 acres each, two mill sites of 5 acres each, the sunflower placer of 20 acres and the Ora tunnel site 2,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 20 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

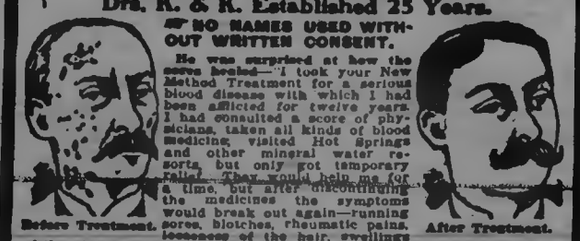
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.



Before Treatment. After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. IS THE KAISER BENT ON MISCHIEF

He Seems Determined to Humiliate the French Nation

THE ATTITUDE OF ROUVIER

Under Circumstances France Would Do Well not to Quarrel With Japan

Paris, April 24.—Premier Rouvier's speech in the French Chamber has intensified a collision of French and German sensified the uneasiness in England policies in Morocco should lead to war-like developments.

"It is useless to ignore the fact," said an ambassador of a great power to a correspondent, "that matter in North-West Africa are taking a disquieting course. Either France or Germany must give way if Europe is to be spared another nerve-racking imbroglio.

"Rouvier's remarks show us a mind deeply disturbed. The Prime Minister is plainly of opinion that Germany is bent on humiliating France. A more dangerous feeling could not exist in that country. The very abjectness of Rouvier's invitation to Germany to ask for any explanations of its desires is highly ominous. It is a short step from a frame of mind like this to a mood of passionate belligerency. It is a happy circumstance that England is standing firmly with France. Any yielding on England's part would draw Germany on to acts which the French would not endure. If Germany imagines it can overbear France in this matter without coming to the sharpest possible conflict with England, it is hugging a delusion. One would say at once that the Kaiser intended to keep within safe bounds were it not that Chancellor Von Buelow stated some months ago that when a great nation committed itself to a certain policy it must be ready to follow up that policy at all costs."

"It looks as if Germany has approached very near to committing itself to a policy in Morocco in which France will not acquiesce, and which England regards with profound displeasure.

"Under these circumstances the sooner France disabuses the minds of the Japanese that it is aiding Rojestvensky in the waters of French Indo-China the better it will be for the French position. If the Germans could induce France to offend the Japanese and at the same time alienate the English, the allies of the Japanese, there is scarcely anything the Berlin Government would not sacrifice to that end."

ZEMSTVOS FOR POLAND

Governor of Warsaw Calls Representatives to Arrange Details

London, April 24.—The St. Petersburg correspondent of the Times says that the Zemstvo system will be extended to the ten Polish and nine Western provinces. It is reported that M. Maximovich, Governor-General of Warsaw, has summoned a number of representative Poles to act as a consultative body regarding the details. This confirms the statement that the Government intends to make the Zemstvos the basis of an electoral system.

TO CANADIAN INVESTORS

Thomas Patterson & Co., Have a Fine Copy Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit on an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par Value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Representative.

Engineering Magazine

The Engineering Magazine for May is marked by peculiar timeliness of interest. The opening article, by Mr. A. W. Robinson, treats of the machinery available for the excavation of the Panama Canal, taking the several sections of the work separately and pointing out the types of apparatus and the methods of working most suitable to the conditions, and the difference between the results to be expected on the Isthmus and those secured in generally similar work elsewhere. Another huge engineering undertaking, just completed, is described in the finely illustrated account of the Simplon Tunnel, by Mr. Leon Monete, while a third matter of much current interest is treated in the description (also handsomely illustrated) which Mr. E. W. Parker gives of the Government coal-testing station at St. Louis and the results of their examinations of a large number of American coals.

Mr. R. Mathot describes the suction gas producer, destined to increase the convenience and economy of small gasoline installations; the many engravings add much to the interest of his article. Mr. A. W. Hena explains in full, with fac-simile reproductions of the cards, books, etc., the stores-room system of his company; Mr. R. M. Neilson discusses the increase of steam-engine efficiency secured by the use of the condenser; Mr. H. S. Knowlton makes a very instructive analysis of central-station costs and revenues, and Mr. A. W. Buel describes the cost-keeping methods of various successful contractors on outside work, with exact copies of their forms, sheets, etc. The Review of the Engineering Press and the Engineering Index are unusually full this month.—The Engineering Magazine, New York

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

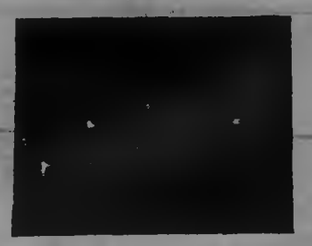
OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery on the mines; to install an electric power line; and install a large compressor and hoist capable of sinking the property at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.

CONCENTRATOR PURCHASED



We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st, 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay--West of winze, intermediate drift	3683.60	1197.	$74,406.20
No. 2 Assay--Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.80

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885 38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577 60 per ton, making a total valuation of this ore worth $17,551 74 per ton. This 112 pounds brought us $944 00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000 00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 500 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.

With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Marconi Wins Patent Decision

The United States Circuit Court in a sweeping decision has declared that Marconi's patents prohibit others from using the vital and essential parts of all wireless telegraph systems, viz.: The elevated conductors with ground connections. Marconi says that Wireless Telegraphy is impossible without these essentials Permanent injunction and judgement for an accounting and costs has issued against the defendant company under that decision

Remember the record of the Bell Telephone, how all other telephonic inventions were declared infringements and were compelled to pay tribute to Bell and finally to surrender to Bell and be swallowed up by him.

History Repeats Itself

WHAT WIRELESS IS WHY IT WORKS

(This is the fourth and last chapter covering the very interesting subject of wireless telegraphy.)

Synopsis of Preceding Chapters.—The first chapter showed that wireless telegraphy was made possible through Nature's gift of electricity in the air. It was only necessary for the inventive genius of man to control the direction of the force. The instruments which have been invented and perfected by Marconi and which made it possible to control this subtle power so that it does his bidding, are described. This is further explained by taking a sporadic message and following through the various steps from the sender to the receiver.

CHAPTER IV.

In the preceding chapters, we have learned that wireless telegraphy is exceedingly simple in theory and practice, because it involves nothing but basic principles and natural forces in almost unaltered form.

If we were on the top of a ten-story building and wished to get some worthless object down to the ground, we would not put it on our shoulder and carry it down, but would simply throw it over the edge of the roof and gravity would do the rest. It is likewise superfluous to use wires for the transmission of electric currents if nature has provided something which makes it possible to accomplish the same work without them. It requires no gift of prophecy to foresee that wires will be discarded just as printing presses worked by hand and sailing vessels for fast trips have been put aside.

Although Fulton gave us a steamboat which we now look upon as a very crude affair, and Howe constructed a cumbersome sewing machine, we cannot but be thankful for what they did. Suppose the ocean greyhound and the modern sewing machine had been perfected within a decade after their invention, it is impossible to imagine what other perfected and highly developed products would now be at our command. In the Marconi system the developments already parallel those of the steamship and sewing machine, which have required from fifty to one hundred years of mechanical experimenting. In other words, Marconi has given us a perfected wireless telegraph within less than ten years of the time when he became convinced that his theories were borne out by facts. It would be the height of absurdity to assume that he has attained the limit of possible development. One cannot but marvel that he should have accomplished so much in so short a time.

A realization that wireless telegraphy is based upon a simple, free-given force of Nature makes a deep study of the science immensely interesting. One cannot refrain from entering the realms of fancy and wondering what will become of the telephone and telegraph wires, the cables and the instruments which are adapted to their use. The future of shipping, of all forms of communication, and, in fact, of every detail of our daily life in times of peace and war may be forced to pass through a stage of complete change because of the simple discovery of the possibility of sending messages from point to point without any visible connection between them. We have at our command a newer, simpler and better means of applying electricity to the transmission of messages than we ever had before. There is nothing more deserving of your serious thought than this latest product of science—wireless telegraphy.

MARVELOUS CANADIAN EXPANSION

Few residents of Canada fully realize the tremendous expansion which their own country is enjoying. In all lines of industry there is progress, and the last three or four years have seen a commercial growth far beyond the predictions of leading Canadian authorities.

The best evidence of this growth is shown in connection with the railroads and steamships and their allied interests. The Grand Trunk system is to be extended into a transcontinental line, in order to meet the demands of the central and far west, and other transcontinental roads are projected. The records of shipping show a steady increase in volume. The exports and imports are increasing so that they now total over $100,000,000 per annum. The rate of interest is on a par with that of any nation in the world. The interior of the country is becoming more and more densely populated, and a vast tract of fertile soil is rapidly being brought under cultivation. The report of the C. P. R. records over 28,000 acres of land sold to settlers west of Winnipeg. The four leading railroads of Canada weekly return an increase of earnings over a similar period in any previous year. Growth and development are to be expected in any new country, but the Canadian record stands almost alone for the rapidity with which this important progress has been made.

All this has been accomplished

WITHOUT A CANADIAN CABLE

linking this country to a European point. This may seem unimportant, but when one realizes that over $3,000,000 PER YEAR IS SPENT BY CANADIAN CITIZENS for cable messages, and, when it is further realized that this great expenditure passes into the receipt column of cable companies owned in the United States or Europe, the situation assumes a different aspect. Why should this great sum of money go as tribute to outsiders? OUGHT IT NOT TO REMAIN IN CANADA FOR REDISTRIBUTION in the country where it is expended and where it may be TURNED TO FURTHER PROFIT? It is surprising that this tremendous branch of industry is not served by a company owned and operated in Canada.

The Marconi Wireless Telegraph Co. of Canada, Ltd.

will supply this deficiency by the middle of the coming summer. It will TRANSMIT MESSAGES ACROSS THE ATLANTIC and it will do more, for it will also TRANSMIT MESSAGES TO ANY AND ALL SHIPS CROSSING THAT GREAT OCEAN. Signor Marconi is now busily engaged in installing the apparatus at the Glace Bay station which will forever replace any needed cable service

The great growth in every other line is being paralleled by the rapid development of the Marconi system. The increase in shipping is greatly benefitted by the added safety, due to the Marconi stations installed along the Atlantic waterways, which have made shipping in those waters free of former terrors.

The Marconi system CAN HANDLE MESSAGES MORE CHEAPLY THAN THE CABLE. Under present conditions, the cost of a cablegram is further increased by the cost of telegraphing it from a Canadian point to the nearest cable station in the United States. The Canadian Marconi station will practically monopolize the industry of transatlantic messages. It will do so because, when a given company can equal its competitors in the quality of service and can underbid them in the charge therefor, it inevitably gets all the business that is offered.

This is but one of MANY SOURCES OF INCOME for the Canadian Marconi Company. The transatlantic system is but one of the many remunerative Canadian opportunities under the Marconi erected patents. The shrewdest business men in Canada have recognized what this means, and have placed themselves in a position to SHARE THE PROFITS which this great enterprise is going to enjoy. They have become stockholders of The Marconi Wireless Telegraph Company of Canada, and we have yet to find any one of them who has kept track of the rapid development of the company and who is dissatisfied with its future outlook. The stock is now selling at $5 PER SHARE, and subscriptions will be accepted in any quantity from one share to two hundred shares. The time to invest in this great enterprise is, NOT WHEN IT HAS BEEN FULLY DEVELOPED and has reached a stationary stage. By that time the price of its stock will have so advanced that you can buy but one share for the same money with which you may now purchase hundreds of shares. On the same basis, the dividends will net you only about five per cent. on your investment instead of the FIFTY PER CENT. OR MORE PER YEAR which should be the return if you buy the stock at present prices. We therefore reiterate that sound and conservative judgment should urge you to make a purchase before the price of the stock has advanced, and when there is still an allotment which may be obtained at $5 per share. That means that YOU SHOULD IMMEDIATELY INVEST whatever funds you have in what promises to be a rival of the great Bell Telephone which has long since

MADE ITS STOCKHOLDERS WEALTHY

Or it may even exceed the brilliant record of that famous corporation.

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many veins, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $200 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

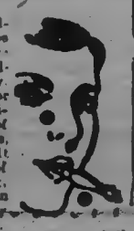
CATARRH

Don't Drug the Stomach — Breathe Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.



Catarrhozone always cures because it reaches the source of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't worry in the meantime about what's going through the stomach.

The antiseptics in Catarrhozone kill the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents droppings in the throat, allays inflammation. Catarrhozone now.

So certain is Catarrhozone to remove and cure that doctors, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure even the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes, "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No home should be without Catarrhozone."

Why not use Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Orders, trials sore eyes and running at the nose.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

The Concert To-morrow Night

The reserve-seat plan for the Bert Harvey concert, given under the auspices of the Peterborough Baseball club, is filling up fast. The management have secured excellent talent to assist Mr. Harvey, who is one of the best entertainers that have appeared before a Peterborough audience. A bumper house will no doubt greet Mr. Harvey.

The Shovel Company.

A meeting of the Board of Directors of the Peterborough Shovel Company, was held yesterday afternoon at two o'clock. It was decided to place under construction at once the erection of a storehouse and warehouse. Tenders will be asked for in a few days for the erection of these buildings, which will be used in connection with the company's factory now rapidly nearing completion, and which will in the course of a short time be in operation.

Y. W. C. A. Formal Opening

Tuesday, April 25th at 8 p.m. Hon. J. R. Stratton will preside, and the following will take part in the program:—Misses. Rogers, Davies, Gumprichi, Kendry and Moore, also Messrs. Morphet, Markle and Jolliffe. The Y. M.C.A. orchestra under the leadership of Mr. Griffin Jones, will be in attendance. Refreshments will be served and the guests will be shown through the entire building. Admission 25 cents.

—Miss Carey, Bobcaygeon, is down from Toronto for the Easter holidays.

—Mr. Basil Hall, of Kingston, R.M.C., is spending the holidays at home.

—Mr. Harry Halpin and Miss Maud Halpin spent Easter with their parents.

—Miss Nellie Lane, of Toronto, is spending a few days at her home here.

—Mr. Holland VanEvery is home from Quebec for the Easter vacation.

—Mr. and Mrs. Barkey, Rochester, are the guests of Mr. and Mrs. Jas. Lewis.

—Miss Emma Campbell, of Toronto, is spending a few days at her home here.

—Mr. A. E. Brundrette, Newmarket, spent Easter in town with friends.

—Miss Kate Graham went down to Port Hope yesterday for the Bachelors' dance.

—Mr. Harry Leahy, Lakefield, is visiting his uncle, Mr. Dan Sullivan, George street.

—Mrs. J. Simons, of Toronto, is spending Easter holidays with her sister Mrs. J. Halpin.

—Mr. H. Mason, of the G.T.R., Midland, was renewing old acquaintances in town on Sunday.

—Mrs William Abbott and daughter, of Lindsay, are visiting Mrs. W. D. Hall, Murray street.

—Miss Willence Miller, of Toronto, is the guest of Mr. and Mrs. T. J. Wallace, Homewood avenue.

—Mr. Bert Bolleghem, of the Ontario Bank, Cornwall, is spending the Easter holidays at his home here.

—Miss Bertha Porter, of Lindsay, and Miss May Needham, of Millbrook, were in town yesterday.

—Mr. E. R. Wood, of Toronto, spent Easter in town with his parents, Mr. and Mrs. John Wood, Fifth Ward.

—Mr R. R. Hall, M.P., was among those who had the honor of dining at Government House, Ottawa, last week.

—Mr. J. P. Hurley, formerly of Peterborough, is in town for a few days renewing acquaintance with old friends.

—Mr. Walter Reid, who was injured at the Cereal Works recently, has so far recovered as to be able to leave Nicholls Hospital yesterday.

—Mr. Percy Roberts, of Toronto, and Miss Pansy Roberts, of Port Hope, are the guests of the Misses Montgomery, London street.

—Mrs. McMaster and little daughter Gladys and Miss Speer of Toronto, are spending the Easter holidays with their sister, Mrs. R. A. Hamilton, Aylmer street.

—Mrs. (Dr.) McKinnon of Millbrook, was in town yesterday evening, the guest of Dr. Carmichael, Corner of Water and Brock streets. She returned home last night.

—Mrs. R. L. Smart, with her daughter, Edith, of Los Angeles, California, are in town, the guests of their father, Mr. Richard Mowry, 254 McDonnel street.

—Mrs. James McRoberts accompanied by her niece Miss Flossie McIndoe, of Millbrook, returned home last night after spending Sunday in town, the guests of Miss Chambers, Water street.

—Messrs. Willis Carrow, Bruce Hutchinson and Herb Gillespie went down to Port Hope yesterday to attend the dance being given by the Bachelors of that town in the Town Hall this evening.

—The music in St. Luke's on Easter Sunday was especially attractive, the anthem "King of Kings," was well rendered and solos were taken by Mrs. A. W. Turner, alto; Miss K. Philips, soprano, and Mr. A. O Sawyer, bass.

—Mr. J. G. Hardill, lately with Messrs. E. Brown & Co., the George street grocery firm, has accepted a position as traveller with the wholesale grocery firm T. Kinnear & Co., of Toronto and Peterborough. He will go on the road next Monday.

—The Lindsay Post says; Mr. Hugh O'Leary, K.C., transacted business in Peterborough on Wednesday. Messrs. H. C. Cameron and F. Mooney, of Peterborough, were in town yesterday for a few hours. Mr. Robt. Begley, of Peterborough, is visiting his brother, Mr. John Begley, Russel St., town.

HONEST CONFESSION

A Docter's Talk on Food.

There are no fairer set of men on earth than the doctors, and when they find they have been in error they are usually apt to make honest and manly confession of the fact.

A case in point is that of an eminent practitioner, one of the good old school, who lives in Texas. His plain, unvarnished tale needs no dressing up:

"I have always had an intense prejudice, which I can now see was unwarrantable and unreasonable, against all muchly advertised foods. Hence, I never read a line of the many 'ads,' of Grape-Nuts, nor tested the food until last winter.

"While in Corpus Christi for my health, and visiting my youngest son, who has four of the ruddiest, healthiest little boys I ever saw, I ate my first dish of Grape-Nuts food for supper with my little grandsons. I became exceedingly fond of it and have eaten a package of it every week since, and find it a delicious, refreshing and strengthening food, leaving no ill effects whatever, causing no eructations (with which I was frequently much troubled), no sense of fullness, nausea, nor distress of stomach in any way.

"There is no other food that agrees with me so well, or sits as lightly or pleasantly upon my stomach as this does. I am stronger and more active since I began the use of Grape-Nuts than I have been for 10 years, and am no longer troubled with nausea and indigestion." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Look in each pkg. for the famous little book, "The Road to Wellville."

—Among those who have been successful in obtaining the degree of B.A., at Queen's University, it is a pleasure to note the name of Mr. H. S. Wood, son of Mr. R. E. Wood. The Times tenders its congratulations to Him on his success.

—Miss A. D. Turner leaves this morning for Toronto to attend the wedding of her niece, Miss Hattie R. Junkin, to Mr. Jack Croft of Toronto, a well-known broker in that city. Mr. Robert Junkin and family resided in Peterborough some years ago, and have many friends in town who will offer their heartiest congratulations.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Labor Day Celebration Committee will meet to-night in the Town Council Chamber.

—The annual vestry meetings of St. John's, St. Luke's and All Saints' churches were held this evening.

—Mrs. Walker, George street, north, had her face painfully scalded yesterday morning by steam from a clothes boiler.

—The scholars of St. Luke's Sunday school gave $25 Lenten self denial offerings to the cause of missions Easter Sunday.

—Mr. J. W. Garvin, of Toronto, addressed the members of the Young Conservative Club on Saturday night on political questions of the day.

—The Easter offertory at St. John's on Sunday amounted to $251.57 and at the Sunday school children's Lenten boxes for Indian Missions totalled $30.05.

—The Nicholls homestead on Rubidge street, for some years occupied by Mr. E. G. Patterson, manager C. G. E. Co., has been sold to Mr. Alex. Hamilton.

—On Sunday night next the members of the local Oddfellows lodges will attend Divine service at George street church, when the sermon will be preached by Rev. Dr. Crothers.

—The death occurred on Friday of Patrick Doherty, aged two years, sons of Mr. and Mrs. John Doherty, Otonabee. The funeral took place on Friday morning at nine o'clock to St. Peter's cemetery.

—A meeting of the Committee appointed to take charge of the celebration of the inauguration of the City, will be held in the Town Council Chamber to-night, April 25th, at eight o'clock.

—The tenders put in for building a bridge over the Indian River, opened last Friday, were all considered too high by the Special Committee of the County Council. New tenders will be asked for.

—Mr. Walter Weasley was presented Sunday night with a handsome prayer book, on behalf of a few friends, who wished to show their appreciation of his services in the choir of St. John's church.

—The death occurred on Sunday at Millbrook of Robert Vance, aged 93 years. Deceased was an uncle of William Vance, postmaster at Millbrook, and he was widely known throughout the district.

—On the 21st day of April, 1892, Mr. R. J. Winsh states that he made his first trip for the season to Stony Lake, and on the 14th of May in the same year he started from Bridgenorth with a load of lumber to be used in the erection of his cottage.

—Four new and handsome pictures, illustrative of scenes on the route of the Grand Trunk Railway System, were this morning hung in the rotunda of the Oriental. Mr. William Bunton, City Passenger Agent of the company, superintended the work.

—Mr. Daniel Maloney, who about two weeks ago, suffered a painful injury to one eye at his home in Douro, was operated upon at St. Joseph's Hospital last week, by Dr. McCullough. The operation was quite successful, and the patient is doing as well as may be expected.

—Lindsay seems to have learned that there is "Something Doing" in Peterborough, as the Post of that burg says; It is stated that the population of Ontario is decreasing. They must be all going to Peterborough, judging from the present excitement there.

—Lindsay Post says; Mr. W White, of Peterborough, who succeeded the late Thomas Walters as superintendent of Provincial Works in the north country, has been dismissed by the Whitney Government. Mr. Wm Kennedy, of Bobcaygeon, has been appointed to the vacancy.

—Up to date exactly 80 dog tags have been issued, leaving about 920 to be issued during the next week. The Chief of Police wishes to again warn the public that anyone owning a dog after May 1st without having paid the necessary tax will be prosecuted.

—The formal opening of the new Y.W.C.A. building is not by invitation as some have supposed. The Board will be glad to welcome the general public, upon payment of the admission fee, the proceeds of which go to the furnishing fund. Will those sending cakes for the opening kindly have them at the building by 4 p.m.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography. Work. Studio, 134 Brock street, Peterborough.

—The careless practice of boys of throwing stones at random resulted painfully on Saturday to a gentleman, who while passing along Rubidge street between Charlotte and King streets, was struck upon the head by a stone thrown by some unknown party. A nasty cut was inflicted. The missle was evidently carelessly thrown by boys apparently from over a high board fence along the street. Such carelessness cannot be too strongly condemned and may result seriously if continued.

SERIOUS ACCIDENT

Christie Fagan Seriously Injured Yesterday Evening.

Last night, shortly before the employes of the Dickson company's mill, left their day's work, a man named Christie Fagan had the misfortune to be struck on the head and rendered incapable of continuing work. It appears that four men, employed by the company, were engaged in turning the spokes that winished in a boom, surrounding some logs, lying in the lake just in front of the mill. The men lost control of the winch and the flying spokes struck Christie Fagan, foreman of the gang, three or four violent blows on his head. The unfortunate man was knocked senseless and had to be taken to his home in the south end of the town, in a cab hurriedly telephoned for. Dr. Eastwood was immediately summoned and rendered such assistance as was possible. At a late hour last night, Fagan was in a precarious condition.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

No other medicine than Dr. Pierce's Favorite Prescription could possibly "win [illegible] on the laying [illegible] on such a proposition; but they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such unrivaled properties as to fully warrant its makers in publishing the remarkable offer above made in the utmost good faith.

"A short time ago I was almost dead with nervous prostration, general debility and female weakness," writes Mrs. Lorena Webster, of 317 Virginia Ave., Lexington, Ky., Worthy Treasurer, Independent Order of Good Templars. "Dr. Pierce's Favorite Prescription was recommended to me as a sure cure, and I found this to be true, for I obtained splendid results, securing fine health. Women ought to be grateful to think there is one safe and sure cure offered to them for their troubles. I advise every sick and suffering woman to stop spending money and wasting time with doctors' prescriptions, when a few bottles of your remedy is sure to cure. I am the happy mother of two children, boy aged sixteen, and girl, eight years."

Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself. Dr. Pierce's Favorite Prescription has stood the test of time and experience. Thousands speak well of it—because thousands have been cured by it.

A RICH PROPERTY

Safe Investment That Will Pay Large Returns.

We have a Gold Mine on the "Great Mother Lode" in Tuolumne County, California, not a prospect but a proven mine, we have more than 10,000 feet of underground work done, consisting of Tunnels, Shafts, Drifts, Winzes and Upraises. We have a very large amount of good milling ore blocked out that can be measured up like measuring up a cord of wood. We have a modern Twenty Stamp Mill completed. Will have electric power in June, then the mine will become a steady producer.

Our capital stock is small—only 1,500,000 shares par value $1.00 each. We have developed and proven such large bodies of ore that we do not believe they can be mined out in 100 years, and we want to increase our mill to One Hundred Stamps at the earliest possible date, and in order to raise the money quickly to hasten the enlargement of the mill we have decided to sell 100,000 shares of stock at 50c. par share.

With the present development and equipment of the mines this stock is well worth par value, and as an investment it is as safe as the stock of any Bank, Trust or Railroad Company in the world—safe as a Government Bond and should pay large returns on the par value.

We have spent a large amount of money to date developing and equipping this property, and no salaries have been paid to any of the officers, none will be paid until the mine is a steady dividend payer, then only the Superintendent in charge at the mine and the Secretary for the time he works will draw salaries.

The mine when equipped properly will rank with the large producing large mines of the State.

We want to interest some party or parties to take this stock and would like to have them select a representative to go with us to the mines, so that we may prove they are better than we have told you they are. To the parties taking this stock we will give a place on the Directorate so they may always be in the closest touch with what is going on. For further information apply to The Times office or to yours very truly.

VOL XXXIII NO 97 PETERBOROUGH ONTARIO, WEDNESDAY APRIL 26 1905. PRICE TWO CENTS

HON. FRANK OLIVER RE-TURNED BY ACCLAMATION

Premier Haultain Interviewed at Winnipeg on the Political Situation---No Significance in Mr. Oliver's Election.

Winnipeg, April 26.—Premier Haultain, in an interview here, en route home, said he would remain in Regina all next week, after which he will return to Ottawa and will remain in attendance while the Autonomy Bills are being discussed.

MR. OLIVER'S ELECTION.

Mr. Haultain said he attached no importance to the election of Hon. Frank Oliver by acclamation, as his constituency was of such a character it could easily be carried by Government influence. There seemed little doubt at Ottawa that Mr. Walter Scott was at first slated for the position of Minister of the Interior, and the failure of Sir Wilfrid Laurier to appoint him was doubtless due to the fear that the Autonomy Bills were so unpopular that the Government could not carry his constituency on them. When a new Minister of the Interior could not carry a Western constituency it did not argue greatly in favor of the Government's policy.

M.P.'s NOW REFLECTING.

Asked as to the probable result of the action of Parliament in regard to the Autonomy Bills, Mr. Haultain expressed the opinion that something would doubtless come of the Easter recess. Members would have an opportunity of ascertaining the feeling of their constituents and he was disposed to think the feeling would be found so strong that many members would alter the course which they now thought of following. The adjournment would also afford an opportune chance to consider the position and to determine the best course to pursue in order to defeat the bill.

NO NEW SESSION.

Asked if there was any probability of the Northwest Legislature being called together to pass a resolution on the question, Mr. Haultain replied in the negative. It was his view that the Legislature had met for the last time, as, after the passing of the bills, new Provinces would be in existence.

THE MANITOBA BY-ELECTION.

As to the contest in Mountain in this Province, he feared, if the Opposition carried the seat, it would be deemed as a pronouncement in favor of the Autonomy Bills. He hoped that the issue was understood, as he had no doubt that the feeling of the people of Manitoba was strongly in favor of Provincial Rights.

ANNUAL STATEMENT

Of The Metropolitan Life---A Showing of Stupendous Insurance Figures.

The Metropolitan Life Insurance Company which is peculiarly a company of the people—"Of the people, by the people, and for the people," to use its own expressive phrase—has issued its annual statement showing its present condition, and the volume of business done in 1904. The document is made unusually interesting by a number of graphic comparisons and illustrations employed to make its vast array of figures readily comprehensible. For example, the total amount of the company's outstanding insurance is given as $1,470,421,281—a row of numerals simply bewildering to the ordinary mind. When it is added, however, that the number of policies covered by this sum would give one policy to every man, woman and child in Greater New York, Chicago, Philadelphia, Boston, Cleveland, Quebec, Montreal, Ottawa and Toronto, one gets a tolerably clear idea of what the figures really mean.

Again as to the volume of new business for 1904. The total amount of insurance written during the year was $436,570,349—an average of $1,426,700.59 per day.

Policy holders appreciate the significance of figures showing claims paid, and perhaps the most impressive paragraph in the entire statement is the one in which claim-payments are reduced to the minute rate—one claim paid every minute and a quarter of every night hour day in the year—$102.54 paid to beneficiaries every minute. There can be no misunderstanding of figures given in that manner.

The assets of the Metropolitan Life at the close of 1904 were $128,094,315.24. Its income for 1904 was $65,985,756.91—greater by over six million dollars than the income for 1903. There were 8,029,906 policies in force on January 1. The total amount paid to policy holders and beneficiaries since the company's organization is $277,290,466.48.

An interesting item is the one showing Canadian securities deposited with that Government to secure Canadian policy holders. These aggregate $2,612,495.55.

The record of growth as shown for increase of assets from a little over two and a quarter million dollars in 1884, to more than one hundred and twenty-eight million in 1904 is astounding, as are all the other figures in this remarkable statement.

A very good illustration of the company's newly completed office building—the largest in the world—situated at Madison avenue, Fourth avenue, 23rd street and 24th street, accompanies the statement. This building, occupying the whole of a large city block, is notable not only for its massive proportions, but for great architectural beauty and solidity apparently designed to typify the Company itself.

The Metropolitan Life issues policies from $1,000 to $1,000,000 in its ordinary department, and Industrial policies for smaller amounts on all insurable persons. Its policies, in the words of the company, "are plain business contracts which tell their whole story upon their face, leave nothing to the imagination, borrow nothing from hope, require definite conditions and make definite promises in dollars and cents."

The complete statement from which the above random extracts are taken is commended to the public for careful reading. It is calculated to convince one that the Metropolitan Life deserves the confidence reposed in it by so many millions of people.

DUAL PRESENTATION

Messrs. J. Thornbeck and A. Blade Given Handsome Tokens of Appreciation.

An interesting event took place at the Examiner office on Saturday night when Mr. Jack Thornbeck, caretaker of the Brock street rink and his assistant, Mr. Arthur Blade, were made the recipients of handsome gifts from the Peterborough Hockey Club, Limited. The presentation was made by Messrs. M. J. Hutchinson and J. S. Knapman on behalf of the directors. Mr. Thornbeck was presented with a very handsome gold locket with the inscription, "Presented to Mr. Jack Thornbeck by Directors of P.H.C. Limited." Mr. Blade's gift was a pair of gold cuff links.

The two officials of the rink have given general satisfaction by the way in which they have performed their numerous and somewhat arduous duties and the directors felt that some evidence of appreciation of their efforts should be given.

SALVATION ARMY BAND

Has Returned From a Very Successful Visit to Lindsay

Many citizens on Easter Sunday asked the question, "Where is the Army Band this fine day?" They had gone with their fine new instruments and brave appearance to enlighten the citizens of Lindsay. They returned to town on Monday morning after a very successful and pleasant outing.

On Saturday evening and during Sunday special services were conducted in Lindsay, and as great an attraction did the band prove that many could not obtain admission. About 500 people attended the open air concert on Saturday evening. The services were conducted by Brigadier Howell, of Toronto, assisted by Adjt. Jennings, of town.

Bandmaster Packham, of Toronto, accompanied the band to Lindsay, and his execution of a cornet solo, "God Save the King," in five octaves, was a great attraction.

Ald. Batten and the Messrs. Sager conducted services in the barracks here on Sunday.

REAL ESTATE SALE

The Nicholls' Homestead Sold to Mr. Alex. Hamilton for $12,000.

One of the landmarks of Peterborough has changed ownership, the well known Nicholls Homestead. This massive looking stone structure, with its sombre, though impressive style of architecture, was originally erected by Otonabee Lodge, I.O.O.F., as an Oddfellows' Temple, but in later years was purchased by the late Robert Nicholls, and was occupied by Mrs. Nicholls, his widow, until her death as a residence. On the death of Mrs. Nicholls, the mansion passed to her relatives, who until a few years ago occupied it.

Mr. Alex. Hamilton, of Warren, Ont., who has been in town the past few days, combining business and pleasure, has become the possessor of one of the finest and best known residential properties in Peterborough. He has closed negotiations with the trustees of the Nicholls estate for the purchase of the Nicholls homestead, comprising the square bounded by Rubidge, Brock, Reid and Hall streets. It is understood that the purchase price was in the neighborhood of $12,000. It is Mr. Hamilton's intention to occupy the residence, temporarily, at least, and his family will arrive in town in a short time. He also contemplates utilizing the northern part of the square for the construction of a large apartment building, upon which work will be begun this autumn. According to present intentions it is Mr. Hamilton's design to surround a central court in the middle of the square, with apartment buildings to face the four streets enclosing it.

While making this important purchase as an investment, Mr. Hamilton will still retain his business interests and activities in Warren.

WEATHER NOTES.

Easterly winds and showers.

THE NEW SHOP

Mr. E. C. Westlake's New "City Meat Market" Doing a Roaring Trade.

That Mr. Westlake's new venture, the "City" Meat Market, corner of George and Brock streets, did not start with merely an inflated boom, but that it is getting a good trade in the city of Peterborough, a meat trade is very much in evidence. Mr. Fleetwood, the manager, yesterday showed The Times in this meat market, a 3-year-old calf that weighs 420 lbs., dressed with the hide on; this will make as marketable meat about 380 pounds. This exceptionally fine calf was raised by Mr. Bert McKee of Smith. The new market has quite a city look, as they have adopted the modern style of carrying a full line of canned goods, both fish and flesh. Messrs. J. J. Turner & Sons, have placed over the market one of the handsomest signs in town, which bears the legend "City Meat Market" and is illuminated by night by a cunningly devised system of electric lights and reflectors.

A BUSY FIRM.

Messrs. Curtis Bros. Kept Busy Supplying the Present Great Demand for Bricks.

Messrs. Curtis Bros., the well known Peterborough brick manufacturers, have now on the way to their already extensive plant, a new "Iron Quaker" brick machine. This machine has a capacity of over 10,000 bricks a day, and will be driven to its utmost limit to try and help meet the present immense demand for brick. This is the third machine of this kind that Curtis Bros. will have in operation. The present capacity of Messrs. Curtis Bros. is from 30,000 to 40,000 bricks a day. They are trying hard to have their output keep up with the greatly increased demand, and to do this constantly employ from 40 to 50 men. This firm uses about 2,000 cords of wood in the season in their operations.

The completion of the lift lock and the canal to Lakefield has been of great benefit to Curtis Bros., in the matter of obtaining the necessary wood. Last winter the firm took out 1,000 cords with their own men; this and the balance they need, will come from up north, some via the T. V.C. which makes it very handy, located as they are. This is one of the many benefits which the canal will confer on industries along its route.

The brick made by Messrs. Curtis Bros. is too well and favorably known in this neighborhood to need further comment. The outlook for business this season is very bright, and a large amount of brick has already been disposed of. Whilst Curtis Bros. ship immense numbers of bricks to other points, Peterborough market alone consumes a large percentage of this firm's output.

Yesterday's Fires

CAR OF OATS AFIRE.

Car of Oats for the Cereal Co. on Fire on C.P.R. Spur Line.

In this town when we have a fire it is almost always a case of repetition. When ever a fire occurs another follows the same day. Yesterday's procession of fires possibly took their cue from a car of oats consigned to the American Cereal Company. The car had not been placed in position at the company's works, but was lying on the C.P.R. Company's spur line along the river, when smoke was observed shooting from the top of the box car. In a very few moments men, armed with Babcock portable fire extinguishers, from the Cereal Company, arrived and fortunately succeeded in putting out all trace of fire before any damage was done to the oats. The cause of this blaze is not known, but is attributed to a spark from a passing engine.

OTHER FIRES.

Yesterday the brigade had two calls to answer, and fight well and promptly they responded. About 1.30 a call was sent in from the north end of town. A quantity of dry grass on the Park, at Barnardo avenue, had in some way, the small boy suspected, caught fire. Had it not been for promptness and intelligent work of brigade, this miniature prairie fire would have done, owing to the strong wind then blowing, incalculable harm, and probably have wiped out many surrounding residences.

Hardly had this blaze been put here de combat when another alarm rang out. This time it was due to the ubiquitous live wire, entering Jolly's Candy Works on George street. Here the firemen although promptly on hand, were not compelled to do any work, as the fire was put out by amateur process of a bucket of water. No particular damage done by either fire, more than a few cuss words by the men who have to clean the fire wagons and hose reels.

—A small blaze in a house in the rear of Peter Hamilton's Mfg. shops, shortly before six gave the brigade another run. Little damage was done.

A LOCAL HUSTLER.

Mr. John Rothwell of the Metropolitan Life Insurance Co. Making Things Hum.

Among the many underscored advertisements that Peterborough is now-a-days getting throughout the Dominion, not the least is that contained in statistical tables issued by the Metropolitan Life Insurance Co., which are sent broadcast throughout the U.S. and Canada. In the tables which give the monthly standing of all their offices, Peterborough now stands fourth on the list, leading many of our larger cities. Mr. John Rothwell, General Superintendent of a large section of country, extending from Toronto on the west, Midland City and Penetanguishene on the north, including Orillia and intervening towns, to Peterborough and Belleville, has been for some weeks now located in Peterborough. When this gentleman arrived here he found it impossible to rent a suitable house, so great did demand overcrowd supply; but with the faith he had in the town and its prospects for his business, he was impelled to purchase a house and lot on Antrim street. His faith was well founded as proved by an interview The Times held with him yesterday. He advised us that since he came to this district, he has about doubled his staff and has twice as many managers as previous to [illegible]. He stated that he has located two managers in Peterborough, to work this town and neighborhood; also one in Orillia, an old Peterborough boy, Mr. H. H. Gray, one in Oshawa and vicinity, one in Port Hope and Cobourg, also an old Peterborough boy, Mr. F. Whatley, with title of Assistant Superintendent; one in Belleville, another old Peterborough boy, Mr. W. A. Chisholm.

Mr. Rothwell has temporary offices in The Bank of Commerce Buildings, but will, on or about the 1st of May, move to new, and far more commodious quarters over the Bank of Toronto. The lease has been practically completed for this fine suite of offices, which will be thoroughly refitted and re-furnished. When this gentleman goes the way of all flesh, let his epitaph be, "He was a Hustler."

DEWEY TELLS OF TOGO'S DILEMMA

Says He Was In Same Box Himself, but Smashed Enemy Unexpectedly

PICKS LAIR OF THE JAPS

Says it is Probably Kelung, Which is a Veritable Gibraltar

Picks Togo's Lair.

I presume Togo's fleet is in a port at the northern end of the island of Formosa. There is a magnificent and strongly fortified harbor there, a veritable Gibraltar. No doubt Togo is in constant touch with the Russian fleet through his scouts and his wireless telegraph equipment, and is watching to see whether Rojestvensky will take the inner or outer channel.

Washington, April 26.—One of the most momentous naval battles that has been fought for years, says Admiral Dewey, of the United States navy, is impending in the Far East, and, like all the rest of the world, I am watching with the greatest interest.

The situation is one of almost thrilling intefest. I confess that I am up in the morning at 5 o'clock looking for the papers. All naval men are interested; but I have, possibly, an added interest, owing to the fact that I was myself at one time confronted by a dilemma not unlike that which is now faced by the Japanese Admiral Togo.

IS ANYBODY'S GUESS.

As to what will happen, it is anybody's guess. There are as many opinions as there are naval experts. My guess, perhaps, is no better than another's (except as I may have a little more familiarity with the complicating circumstances that must be taken into consideration.

But one thing on which all authorities seem agreed, and which is doubtless true, is that the Russian fleet is numerically and in tonnage and armament stronger than the force of the Japanese.

They have several more heavy fighting ships, according to reports, than the Japanese, and it is also to be remembered that there is a secondary fleet of three or more heavy ships which is on the way and will be due on the scene in about forty days.

Now the great questions are: Can Admiral Togo afford to meet the Russian forces, and risk all on the cast of a great naval battle in the open seas? Can he afford to risk the loss of his battleships? Suppose Rojestvensky wins?

What will be the effect on Japan then? How about communication between Japan and Manchuria? How about reinforcements to the land forces, and ammunition and supplies?

JAPAN MUST WIN.

Unless the Japanese can protect their transports and the commerce about their own island and in the vicinity of Port Arthur; of what avail will their land operations and their past victories be to them? Their fleet is confronted by a fleet outnumbering theirs. Now the question is what will Admiral Togo do?

Some naval authorities incline to the belief that Togo will avoid a direct engagement and will try to pick out the weak members of the Russian fleet, cutting them off in the night, using his torpedo boat destroyers, and following much the same tactics as were employed at Port Arthur.

I wondered at that time that the Japanese did not go right into the harbor and finish the work at once; but I have been informed since by a reliable authority, that the Japanese admiral had strict orders from the Mikado not to risk the loss of his battleships. The loss might at that juncture have been fatal. So they took the slower methods to the same end. It is not impossible that the same policy will be pursued now. We probably shall not know until events disclose what is the Japanese plan of campaign.

TOGO AT FORMOSA.

I presume Togo's fleet is in a port at the northern end of the island of Formosa. There is a magnificent and strongly fortified harbor there a veritable Gibraltar. No doubt Togo is in constant touch with the Russian fleet through his scouts and wireless telegraph equipment, and is watching to see whether Rojestvensky will take the inner or outer channel.

There is a possibility that the three battleships which the Russians have at Vladivostok will try to effect a junction, or will begin to prey on Japanese commerce and on general contraband of war in foreign ships. These are some of the possibilities which the situation involves.

HAS NOTHING TO LOSE.

Now, suppose the Russians should succeed in forcing a decisive battle. Suppose, for the sake of argument, that they should lose. The losing battle would not be so disastrous to them as a losing battle would be to the Japanese. It would not have the same effect of cutting off communications between their land forces and their base of supplies; and it would not to the same degree expose their shipping and their coast to the ravages of a hostile fleet. And they would still have the secondary force coming along in May.

You see, it is a problem not easy to decide. And there is almost everything at stake for the two countries whose navies are involved. It certainly looks as if a decisive engagement between the two fleets would decide the war.

IN SAME BOX HIMSELF.

When I was at Manila I was confronted by a similar problem for a short time. Not long after the battle of Manila information reached me from a friend in Paris of plans which Spain was making to fit out a fleet to raise the siege.

I was apprised of the names and number of the battleships which would be sent, and as my fleet had not then been reinforced by heavy fighting ships, the Spanish force would have been stronger than mine.

There would not be time for the Manoeuvre and Monterey to reach me, though they had started.

THREATENED SPANISH COAST.

I was not to thinking what I should do with this superior force. What happened was that, on my suggestion, a fleet was fitted out under Admiral Watson, which was to threaten the coast of Spain. This led to the abandonment of the purpose to send the fleet to Manila. But there was a time when I had to face a problem somethink like the one which confronts Admiral Togo.

I had my plan. I should not have waited in Manila. I had a despatch boat faster than anything in the Spanish fleet, and should have been in early touch with the Spanish fleet, and should, I hope, have met them when and where they did not expect me.

But every situation must be judged by itself. The Russo-Japanese problem is intensely interesting—intensely interesting.

THE NUPTIAL KNOT.

Miss Laura Edith Smith Married to Mr. Chas. Dixon.

A very quiet wedding took place yesterday afternoon at three o'clock, at the residence of Mr. Arthur Smith, Dublin street, when his eldest daughter, Laura, Edith, was united in marriage to Mr. Charles Dixon, of Toronto.

The ceremony was performed by the Rev. J. C. Davidson, in the presence of a few of the intimate friends of both parties.

The bride, who was attired in navy blue silk and carried a prayer book, was assisted by her sister Minnie, who wore brown cord-de-chene.

Mr. G. Gunn, of Toronto, supported the groom. After the ceremony a wedding dejeuner was served.

Mr. and Mrs. Dixon left on the 5.10 train for Toronto, where they will reside.

Among the presents received was a beautiful clock from Parker's Dye Works staff.

OUR VISITORS.

300 Ladies to Visit Here for Annual Meeting of W.F.M.S. of Presbyterian Church.

Our readers are reminded that the 29th annual meeting of the Women's Foreign Missionary Society of the Presbyterian Church in Canada, Western Division, will be held in St. Paul's church, Peterborough, on Tuesday, Wednesday and Thursday, May 2nd, 3rd and 4th.

A public meeting will be held on Wednesday evening, when Rev. Sidney L. Gulick, of Japan, will speak on the subject, "Japan's New Attitude Towards Christianity."

About three hundred delegates will be present. Any friend who could entertain one or two of these delegates may hand their names to Miss Alice Hall, secretary of the W.F.M.S., or to Miss Martha Dickson, secretary of the Billeting Committee, at as early a date as possible.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

BASEBALL.

All members of St. Paul's Young Men's Guild, who are interested in baseball, are asked to attend a important meeting, to be held to-night at the Y.M.C.A. at 9 o'clock.

* * * *

Port Hope, April 24.—At the annual meeting of the Midland Baseball League it was decided to draw up a double schedule for the lake towns, Oshawa, Bowmanville, Port Hope, and Cobourg, and a single schedule for Lindsay and Peterborough. The umpires are to receive $5 ap game and total expenses. The election of officers resulted; President, F. C. Pethick, Bowmanville; First Vice-President, R. Menzies, Lindsay; Second Vice-President, A. Hambly, Oshawa; Secretary, S. Lockington, Port Hope; Treasurer, H. McGuire, Cobourg. Many rules were drawn up. Each club must have an official scorer. Protest, $10.

The schedule;

May 24—Port Hope at Bowmanville, Peterborough at Lindsay, Oshawa at Cobourg.

June 3—Cobourg at Port Hope, Lindsay at Oshawa, Bowmanville at Peterborough.

June 10—Port Hope at Lindsay, Oshawa at Bowmanville, Peterborough at Cobourg.

June 17—Oshawa at Port Hope, Lindsay at Bowmanville, Cobourg at Peterborough.

June 24—Port Hope at Cobourg, Bowmanville at Oshawa.

June 1—Bowmanville at Port Hope, Cobourg at Oshawa, Lindsay at Peterborough.

July 8—Oshawa at Port Hope, Cobourg at Bowmanville.

July 15—Port Hope at Oshawa, Bowmanville at Cobourg.

July 22—Port Hope at Peterborough, Oshawa at Lindsay, Cobourg at Bowmanville.

July 29—Peterborough at Port Hope, Bowmanville at Oshawa, Lindsay at Cobourg.

August 5—Port Hope at Cobourg, Oshawa at Bowmanville.

August 12—Bowmanville at Port Hope, Oshawa at Peterborough, Cobourg at Lindsay.

August 19—Lindsay at Port Hope, Peterborough at Oshawa, Bowmanville at Cobourg.

August 26—Port Hope at Bowmanville, Cobourg at Oshawa.

September 2—Cobourg at Port Hope, Bowmanville at Lindsay.

September 4—Oshawa at Cobourg.

September 9—Port Hope at Oshawa, Peterborough at Bowmanville.

City's First Birthday Celebration On Labor Day.

An Enthusiastic Meeting of the Joint Committee in Charge Last Night--Ald. Hicks the Unaminous Choice for Chairman--Active Steps Already Taken to Make This Event a Memorable One.

The Joint Aldermanic and Citizens Committee, formed to take charge of the celebration of the inauguration of the town as a "city," met in the Council Chamber last night. Ald. Hicks took the Chair at 8.20, and opened the proceedings.

The question of the best possible day on which to hold this civic birthday demonstration was again gone into. Labor Day was strongly advocated by Rev. J. C. Davidson, T. H. G. Denne, Ald. Tovey and J. H. Larmouth.

Mayor Henry first remarked that he found a large number of citizens did not favor Labor Day, not only on account of its late date, but also owing to a counter attraction in the Toronto Exhibition. He suggested that we celebrate early in July, not necessarily the first or Monday following.

Ald. Hall thought July 1st the best day in every respect, even though the band and regiment will be out of town. There are other bands that may be engaged.

Ald. Crowe thought difficulty would be experienced in engaging another band. Besides, the 57th Regiment and its band wished to be present at the celebration.

After considerable discussion on this question, Labor Day was the committee's unanimous choice.

OFFICERS ELECTED.

The following officers were elected;—

Ald. Hicks—Chairman.
S. R. Armstrong—Secretary.
P. Campbell—Treasurer.

Secretary S. R. Armstrong was authorized to engage a salaried assistant.

NATURE OF CELEBRATION.

The following suggestions for a program of events were offered;

Procession of school children at 9 o'clock through the streets, and terminating at the Central Park, where an address will be made by the Mayor; following this a trades and labor and military parade. Sports and games in the afternoon on the Driving Park, and fireworks at night. It was also suggested that the athletic program be free to all. Mr. K. Hardley-Wilmott thought a visiting regiment should be present, and as many bands engaged as the funds set apart for this event will allow.

As to how much money the Council is going to appropriate, for the celebration, the Mayor said that matter will be settled at a special meeting Friday night.

Ald. Tovey suggested that outside fire brigades be invited to be present and compete for a trophy. This met with favor.

The officers of the committee were instructed to appoint Standing Committees and report at next meeting.

The question of the sports and games being free of charge caused some little discussion, pro and con. Eventually this was referred to the Finance Committee for decision.

Ald. Adam Hall remarked that if every ratepayer votes for the new fire hall by-law, enough will be saved the town in the way of reductions in mercantile insurance to pay for the city's first birthday celebration many times over.

The committee adjourned till Tuesday evening next. Last night's meeting was well attended, and the proceedings marked by an enthusiasm which bespeaks the largest and most successful demonstration next Labor Day the town has ever witnessed.

Grand Opening

Y. W. C. A. Opened by Hon. J. R. Stratton in Presence of Immense Crowd.

Last night's ceremony crowned the splendid efforts so nobly put forth by many of our Peterborough and other ladies, when the beautiful new home of the Y.W.C.A. was formally opened by Hon. J. R. Stratton. In previous issues of this journal we have given so many descriptions of this superb edifice and so many of our citizens have looked through the building that a description of this new addition to Peterborough's architectural gems is superfluous. Suffice to say that it is a noble and standing monument erected in a good cause, to the memory and for the useful use of the Christian women of Peterborough and the world. Sufficient is it to say that the Y.W.C.A. building is a fixed ray of light shed and located by the glorious star of Christian endeavor and human charity. It is also an honor to the home of those for whom and by whom it was inaugurated and carried to its splendid completion.

It is also not only a matter of pride and admiration for everyone seeing or using it but it reflects great credit on Mr. Blackwell, the architect and those who under his supervision did the work.

It is an investment for those whose kindly gifts enabled the Y.W.C.A. to obtain their home, that will bear eternal interest, in gratitude and the knowledge of having forwarded Christ's work and helped along his fellowers.

Long before the time set for the opening, throngs of people crowded into the massive doorway, and were welcomed by Miss Lough and her assistants. As one entered the first scene that presented itself, was a cosy open grate fire burning merrily, in front of which was spread a beautiful mat. Everywhere flowers abounded, and lulled the observer to recall that the institution was in the care of the fair sex.

In the main hall were hundreds of chairs accommodating a portion of those present. On an elevated stage, covered with carpet were the piano, and tables embellished with flowers. About this stage were rare ferns, palms and other floral beauties.

The actual ceremony of formal opening was pretty and suggestive. The Hon. J. R. Stratton, chairman for the occasion, gave a well timed and congratulatory address, after Mr. Blackwell, architect of the building, had handed the keys to Mrs. W. Walsh, who in turn gave them to Mr. Stratton, thus bearing testimony to the fact that the good work accomplished. Excellent speeches were made by Dr. Morrison, who is a member of the Advisory Board, and Mr. E. B. Edwards, President of the Y.M.C.A. and were enthusiastically received.

The program of proceedings was divided into two parts, viz.;

PART I.

Miss Roger ... ...Piano Solo
Mr. Jolliffe ... ...Solo
Chairman's Address.

A letter of regret from Major B. Best was read. He was prevented from participating in the pleasure by pressing public work.

Mrs. Walsh, Mrs. Fairburn, and Mrs. Nicholls were the three chartered members in 1891, and are still members.

57TH REG'T MARCH OUT.

A Good Turn Out Last Night, with the Bands.

Last night the 57th Regiment, accompanied by the Regimental and fife and drum bands, both in full force, had a good parade. As they marched down George streets, the pavements were filled with admiring spectators, whose remarks were most complimentary, and had some of them been audible to the boys in red, many a scarlet covered chest would have strained to the bursting point, and many a back would have emulated the stiffness of a ramrod.

Whilst marching down George St. to where they wheeled at the Market Square, two street cars followed them close, and apparently the leading driver was contemplating whether to "butt in" and risk a command to "Fix bayonets," supplemented by "Prepare to receive cavalry," or delay the schedule; he wisely chose the latter.

BOILED BY TAR.

Painful Accident Befalls Mr. W Punchard at G. G. E. Works.

Yesterday morning one of those regrettable, but unaccountable accidents happened at the Canadian General Electric Company's Works, that neither employers nor employed can foresee or prevent.

Mr. Punchard, who is employed in No. 2 building, was working around a pot of boiling compound, used in the works for insulating preparations, and in which there is a quantity of tar.

He slipped into the pot of boiling liquid, his right leg being immersed, and in trying to extricate himself he scalded very badly both arms. Mr. D. Bellegham was at once notified to hurry down the ambulance, which he had there in a very few minutes. The unfortunate man was conveyed to his home, corner of Rubidge and Dalhousie streets, where his burns were attended to by Dr. Young, the company's physician. He suffered much pain and will be laid up for some time.

Toiled to Hard and Broke Down

Nerves Went to Smash—Could not Sleep—Work was Impossible

FERROZONE

Gave Me New Vital Energy—Nourished Me Back to Good Health

Perhaps you are in poor health? But work must be done, and there is no chance to take it easy.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. No medicine in the world is so powerful in restoring health writes C. P. Sommerville, of Weymouth.

"I was weak and miserable.

"I toiled too hard at my business and broke down.

"My nerves went to smash. I couldn't sleep, and simply had to give up everything.

"Did Ferrozone help me?

"Well, I think it saved my life! It gave me new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone."

All physicians recommend Ferrozone because it is absolutely certain to give strength to those that use it. 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

MINING IS SAFE AND PROFITABLE

The Prejudice Against Mining is Being Removed by Better Knowledge

MINES PAY LARGE PROFITS

The Mining Industry Has Paid Dividends Greater Than All the Banks of the Country—Many Mines Pay Regularly but Never Published.

The wonderful fortunes made in mining stocks, and the startling success of such a vast number of mines, make this form of investment most enticing. Lack of information, ignorance or malice has, however, raised against mining a prejudice which is one of the greatest obstacles in the successful promotion of a mining company.

This prejudice is steadily being removed by the wider and better knowledge among investors and the immense improvements in the mining methods. Another potent factor in removing this prejudice has been the researches of mercantile agencies, which show that mining is not only the most profitable business known, but the safest as well.

As a matter of fact, the losses sustained in the ordinary business transactions of every person are usually far greater than any loss suffered by failure of a mining investment. Backed up by authentic statistics which prove that the failures in mining are much fewer than in other lines of business, it seems strange that investors cannot go about the purchase of stock in a more businesslike way, and take such losses as they may sustain in the same manner in which they would take losses in any other line of business.

In ordinary business every failure or loss has a cause, and it is usually not very difficult to find, and every loss in stocks is predicted upon a more or less definite and discernible cause. By careful investigation and by the exercise of a small amount of business acumen, investors will be able to eliminate the primary causes of loss in mining stocks.

Statistics have proved beyond all question of doubt that mining is safer than any other form of industry, and when profits are compared it will be found to excel any other form of investment.

Mining stocks paid more in dividends than all the banks of the country or the manufactories of the country. It paid many times more than the railroads of the country, and the amount of money invested is considerably less than the amount tied up in any other industry.

The mines of the Rand, in South Africa, one year paid 45 per cent in dividends on the amount invested there. Some individual mines paid as high as 150 per cent. Cripple Creek mines paid in one year an average of 100 per cent on the original price of every share of stock of all its mines. A mine in India, the Mysore, last year paid 136 per cent on the amount invested in its equipment and development.

There are several mines in Nevada and the southwest that paid tremendous dividends, and one in particular that paid dividends monthly equal to many thousands per cent on the amount invested.

Michigan has wonderful dividend payers, and so has Montana, Utah, Arizona, Mexico, Oregon and Washington.

There are scores of California mines whose annual returns to stockholders is many times greater than the amount invested in the stock. California, too, has mines owned by individuals or close corporations whose exact output will never be known. It is certain, however, that an immense amount of wealth is regularly flowing into the coffers of the fortunate owners.

The advance in value and the profits thereby gained to holders of the stock is astounding and bewildering. Instances are numerous where an insignificant amount invested in mining stock has made millionaires of the fortunate investors. In fact, so numerous are such occurrences that wonderful advances are expected of mining stocks, and the ordinary dividend payers are never heard of. There are hosts of mines which pay moderate dividends year in and year out which are rarely mentioned, yet the stockholders are perfectly satisfied.

It may be stated that eastern investors are beginning to fully appreciate the advantages offered by the great southwest and Mexico, and now companies are investing in those sections weekly. In addition to the comparatively small expense attached to mining in the southwest and Mexico, there is an absence of climatic hardships and labor difficulties, two facts which appeal to the investor. Then, too, there is probably no other district in the United States where the operator can conduct operations and at the same time reside in such a metropolitan city as El Paso.

Performance

Not Promises

There is all the difference in the world between expectation and realization. There is even a greater difference between promise and performance. In the former case you form your own opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take someone's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case is a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE, and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless

(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since midsummer.

The Canadian Company has already completed a net work of successful stations along the St. Lawrence Gulf and there are on Canadian soil thirteen stations already in operation. The Company has already been authorized to build four more stations at prominent points during the coming summer. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation at that point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises—they are performances. Compare what Marconi has DONE with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they?" The answer suggests itself. Can you not foresee the great future this Company has before it? Do you not wish to become a sharer in the success which is all its due? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,000,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 3 full fized mining claims of 5 acres each, two mill sites of 2 acres each, the sunflower placer of 28 acres and the Ora tunnel site 3,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 30 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

The Charter-Raton Mining & Milling Co.

—THE—

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company), which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Bromptonville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Cromble, Esq., Kingsbury, Que., of Williamson & Cromble, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. M. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$250,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., or RICHMOND & TEMPLETON,
Richmond, Que. Room 10, Victoria Arcade Bldgs., Toronto.

FRENCH THRONE BELGIAN BRIDE

Prince Louis Napoleon Engaged in Two High Intrigues

THEIR LINES ARE CROSSED

Prince's Marriage With Princess Clementine is Likely to be Marred by Conspiracy

Berlin, April 25.—Diplomatic quarters here have learned that the military conspiracy, engineered in Paris by Capt. Tamburini, of the French army, with a view to placing Prince Victor Napoleon on the Throne of France, enflicts with the piquant contest for the possession of the heart and hand of Princess Clementine, the favorite daughter of King Leopold, with King Frederic Augustus, of Saxony, and Prince Victor Napoleon, of France, as rival suitors. The conspiracy is declared to have succeeded in compromising Napoleon to a degree that makes his marriage with Princess Clementine an impossibility. King Leopold has tried in vain, however, to stop communication between the lovers, who are genuinely fond of each other.

Although Clementine is the only daughter who remained loyal to Leopold, she lately has broken with him and now declines to return to Brussels until the King approves her bethrothal to Napoleon. Leopold opposes the union for two reasons. He fears complications with France and the loss of French support in the Congo; secondly, because Prince Napoleon is said to cherish designs on the Congo Free State as soon as he becomes Leopold's son-in-law. It is asserted that he purposes claiming the regency of the Free State and then, if Belgium still resists the conversion of the Congo into a colony or if the powers intervene, he intends to set himself up as a pretender to the Throne of the Congo.

King Frederic Augustus is exerting tremendous pressure to break up Clementine's affection for Napoleon. He is determined to win her for himself, because there are so few marriageable Catholic Princesses sufficiently exalted to become Queen of Saxony. The King asked his mother, Dowager Queen Carola, of Belgium, to plead with Clementine, but the Princess declined to see her. Carola thereupon went to England to secure the influence of Clementine's sister, Princess Stephanie formerly Crown Princess of Austria, but now Countess Lonyay.

TO CANADIAN INVESTORS

Thomas Potter & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 50 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. A REMARKABLE GRAMOPHONE

New Invention That Can Be Heard for Miles

London, April 25.—The Hon C. A. Parsons, of turbine fame, has invented a gramophone that can be heard under favorable weather conditions, at a distance of three miles. The instrument which has been exhibited privately at Metaler Hall is named the auxetphone, and is worked by means of compressed air. This is pumped in by a small engine at a pressure which can be adjusted up to over eight pounds, through a small valve, which takes the place of the ordinary diaphragm into the trumpet. The valve consists of a number of small slots, covered with a fine comb, not unlike a mouth organ, and the vibration of the comb produces the sound.

—The Lindsay Post says: Mr. Hugh O'Leary, K.C., transacted business in Peterborough on Wednesday. Messrs. H. C. Cameron and F. Mooney, of Peterborough, were in town yesterday for a few hours. Mr. Robt. Bagley, of Peterborough, is visiting his brother, Mr. John Bagley, Russel St., town.

FRANCE TO ARM IN FAR EAST

Results in War Cause Alarm Regarding Condition of Defenses.

Paris, April 25.—Admiral Fournier, who was president of the North Sea commission, and General Voyron, who commanded the French forces which operated against the Boxers, expect to accompany Colonial Minister Clementel on a voyage of naval and military inspection to French Indo-China. This results from the apprehensions growing out of the insecurity of the French defences in the Far East. The trip is expected to result in a general plan for the construction of strong defenses at Saigon and other points in Indo-China.

THE SIN OF ENGLAND

The Bishop of Southwell Says Society is Honeycombed With Evil

London, April 25.—The new bishop of Southwell, in conducting his first confirmation service at St. Cuthbert's College, Worksop, and addressing the boys, said that although England was called a Christian country, they would find that the sin of England was very great. Society, he said was honeycombed with cheating and lying and defrauding, and there was a quarrelsome spirit which separated and divided it.

Davis & Lawrence Co., Ltd., Montreal.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Additions and alterations, Drill hall, Toronto, Ont.," will be received at this office until Friday, April 28, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

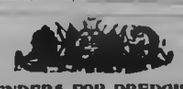
An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender,

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 10, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.



TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a *modern concentration mill of not* less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1860 to 1893 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4300 feet on Arapahoe dyke 22 feet wide	18.3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20.4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost	$15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value	$6,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000 00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.
No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	8
Number of tons concentrated per day	8

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 8 tons mill ore of value of $12 00 allowing 10 per cent loss in saving	96.00
Net value after deducting expense of mining and milling per day	80.00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	$60.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	120,000 00

DIVIDENDS

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends (estimated 1,700 000 shares in treasury reserve fund which draws no dividend	$120,000 00

RETURN ON PRINCIPAL

Purchase of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$60 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 the energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Address all communications to THOS. PATTERSON & CO., Fiscal Agents, Peterborough, Ontario.

The Twentieth Century Mining & Power Co.

LIMITED

Owns a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 30 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

Tonopah-Crow Mining Stock 18c.

The property of the Tonopah-Crow Company is at Crow Springs, near Tonopah, Nevada; six mining claims and one mill site, 125 acres, crossed by more than 100 ledges; average value of ore so far opened about $54 a ton; 500 feet of development added to the principal workings on this property would expose 10,000 tons of ore worth $500,000. Its mining and reduction would leave a profit of more than $200,000. A hoisting plant of 500 foot capacity will soon be installed. This will soon be one of the best dividend payers in the section. An absolutely safe investment; selling at 18c. a share. Par value of stock $1.00. Send in your order now.

Fine Weather Gives Relief from Catarrh

But Never Cures It Because the Germs are Still Alive Though Inactive. First Kill the Germs Then You'll be Really Cured.

Catarrh germs are carried into the throat and lungs by the air we breathe. In the same way the remedy must be applied. To be effectual the cure must be breathed, for otherwise it can't get where the germs really are.

Mix your germ-killing medicine with air, breathe it right into all the little air cells where the catarrh really is, then you'll get cured quickly. This is exactly the way Catarrhozone acts. You inhale its medicated vapor to the very source of the disease. It destroys the cause of the inflammation, kills all the microbes that develop when the lining membranes become diseased. Besides this Catarrhozone is a wonderful healer. Every sore spot is rebuilt with new, healthy tissue. All the poisonous secretions that have been putrifying the system are driven out. No trace of catarrh remains after Catarrhozone has been used.

Why don't you use Catarrhozone? Its the simplest thing in the world to use, and so sure to cure permanently that you really can't afford to be without it.

MISS E. M. PETERS is known by every resident in the pretty town of Highland Grove. She was cured by Catarrhozone of systematic catarrh and says; "For three years before I commenced using Catarrhozone I was continually bothered by a congested condition of my nose and throat. I was sneezing and coughing all the time and really never felt well. I preserved with Catarrhozone and was rewarded by being entirely cured. My recovery prompted others in this locality to use Catarrhozone, and many of them have had remarkable cures from using it."

MISS LOUISE MURPHY a well known society belle residing at 28 Monument St., Medford, writes; "Kindly forward me three outfits of Catarrhozone which I have found most valuable for catarrhal affections of the nose and throat. Catarrhozone cured me of weak lungs and really saved me from consumption. I am recommending Catarrhozone above all other treatments, knowing what great curative powers it possesses. I know others who have also benefitted by Catarrhozone."

Catarrhozone is perfectly harmless and may be used with perfect safety by the most delicate infant. Instead of deadening the stomach with drugs, it sends the healing vapor along with the air you breathe into every air cell and passage of the nose, throat, lungs and bronchial tubes. Catarrhozone can't fail, it's sure to cure. If not satisfied you can have your money back for the asking. Two months' treatment, hard rubber inhaler and extra bottle of inhalant costs $1.00, sample size 25c. By mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont., Can.

The Misses Edwards, of Peterborough, spent their Easter holidays in town. Mr. Karl Waller, of Peterborough, was in town for a few hours on Saturday.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Labor Day Celebration Committee met last night.

—Last Sunday had a triple anniversary character, Easter day, St. George's Day and Shakespeare's birthday.

—The Barbers' Union meeting, to have been held Monday night, was postponed till the next regular meeting night.

—Mr. J. W. Quinlan, of Port Hope, and for six years mayor of that town died yesterday morning suddenly from pneumonia.

—All desiring to join the 57th Regiment must do so before May 9th as after that date all service rolls must be returned.

—Murray street between George and Water streets is being levelled. The grade is too high and will be lowered several inches.

—Our report of the opening of the Assizes, by Hon. Justice Mr. Anglin yesterday, was unfortunately crowded out, and will appear in to-morrow's issue.

—Cobourg and Northumberland County Old Boys will meet each other and exchange old-time anecdotes and elect officers, etc., at St. George's Hall, Toronto, on Thursday evening.

—A curiosity in Mr. W. J. Morgan's cigar store window is a cigar about eight inches in length, which sells at $1.50, and is said to be of the brand used by His Majesty King Edward VII.

A DANGEROUS DRINK is impure water. It brings on diarrhoea, cramps and piercing pain in the bowels. Counteract the effect of bad water with Perry Davis' Painkiller. Take it in your grip when you travel.

—Mr. F. W. Dean, local manager of the Bell Telephone Company, sent a large force of men out yesterday morning to erect the poles in connection with the telephone line to Hunt's station. The line will soon be in operation.

—Mr. Robert Dobie, Mechanical Superintendent of the C.G.E. Works, has purchased an automobile and it made its first appearance at the Works on Monday. It was the object of considerable curiosity among the men.

—Mr. Kivas Tully, the famous engineer of Toronto, formerly of Peterborough, has passed away. He was one of the best known scientific men in Canada, and was, in 1903 decorated by the King with the Imperial Service Order. In 1852 he married a daughter of the late Lt.-Col. Strickland, of Lakefield.

—At the regular meeting of Otonabee Lodge, No. 13, I.O.O.F., held Monday evening, four candidates received their third degree. On Monday night next the initiatory degree will be put on by the new Past Grands' team.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

Bloidgett, Downie street, was Monday night struck on the forehead with a stone, which was fired by a small boy. It required six stitches to close the wound. It appears a noisy game of lads were playing on a vacant lot at the corner of Smith and Downie streets. An effort is being made to find the culprit.

—Messrs. W. G. Ferguson, W. H. Hill, and Wm. Pringle, representing the Board of Education, went to Toronto yesterday evening to attend the annual meeting of Provincial Trustees and Teachers, which lasts for three days. Mr. Duncan Walker, Public School Inspector, went to Toronto yesterday morning with that object in view.

—On the 1st of May, the Peterborough Street Railway Company, are going to add still another car to the Jackson Park system. In the summer season the company will put one more motor car and several trailers on the George street line. The company certainly mean to have every facility for encouraging and accommodating the large traffic that is anticipated.

—Dr. Frank C. Neal is the latest addition to the medical guild of the town. Dr. Neal who is a graduate of Toronto University, member of the Royal College of Surgeons, England and licentiate of the Royal College of Physicians, London, has opened an office for the practice of his profession in connection with his residence, 290 King street. Dr. Neal is a native of Huron county and has just returned from Europe.

A WIDOW'S PATHETIC LETTER.

One of Hundreds of Letters Received at Muskoka Free Hospital for Consumptives—Pleads for the Life of an Only Son.

The following is one of hundreds of letters received at the office of the National Sanitarium Association:—

COOKSHIRE, QUE., June 3rd, 1904.

DEAR SIR,—I hope you will pardon my writing to you. I am Charles Brown's poor mother, that is heart-broken about my one and only son, and longing for your kind letter to arrive to say you can find a place for him soon in the Muskoka Free Hospital for Consumptives. He is the only son I have and I am depending on him for support, and he has a wife and one baby depending on him also for their support. . . . He is the Charles Brown that Judge Britton's daughter spoke to you about. . . . Dear Sir, for God's sake hasten the time for him to get there, as the longer it runs on him the harder it will be for him to get well and back to his former health and strength again. . . .

MARG'T BROWN.

COOKSHIRE, QUE., June 6th, 1904.

DEAR SIR,—I received your kind and most welcome letter to-day. Very glad I was to hear the good news that my dear son can go to the Hospital any time this week. Thank God for the good news. He will leave Montreal on Monday, the 13th, or Tuesday, 14th, at the latest. . . . It has given him new life to hear the glad news that you have sent to me, his mother.

MARG'T BROWN.

It is to meet just such cases as this that the Free Hospital for Consumptives has been built. Less than three years opened, nearly 400 patients have been cared for, and not a single patient has ever been refused admission because of his or her poverty.

Sir Wm. R. Meredith, Kt., Chief Justice, 4 Lamport avenue, Toronto, or W. J. Gage, Esq., 54 Front street, will receive and acknowledge any subscriptions our readers will send.

ACROSS COUNTRY.

The signs of the times point to an enormous increase of intelligent public interest in health; to a new generation with purer, stronger blood and therefore more active, braver brains and body. No physically robust, healthy person ever succumbed to grip, consumption, malaria or any other germ disease. But with a weakened system we all have to fight the germs of disease. Our blood is often in a fertile condition for the growth of bacteria—germs of disease—because our stomach is disordered or our liver is torpid—in either case our blood does not get the proper nourishment. A torpid liver means a stagnation of the blood and an accumulation of poisons which furnishes a weak spot for bacteria to enter.

To enrich the blood and increase the red blood corpuscles, Dr. Pierce years ago found a vegetable compound, which he called Dr. Pierce's Golden Medical Discovery, that would quickly cure the bad symptoms by increasing the red blood corpuscles and thereby feeding the nerves on rich blood. This "Medical Discovery" also acts upon the digestion and assimilation of food, so that the blood gets its proper elements from the products of digestion. Feed the lungs, stomach and heart on rich red blood and you have surely a healthy body which will throw off the germs of disease which lurk everywhere. Get as near nature's way as you can. A medicine made entirely from botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains neither alcohol nor narcotics.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 98 PETERBOROUGH ONTARIO, THURSDAY APRIL 27 1905 PRICE TWO CENTS

SPRING CAMPAIGN IS ON RUSSIAN ATTACKS FAIL

Russian Plans Miscarried and They Fled to the Northward Leaving 200 Dead on the Field--Jap Casualities were 38.

Tokio, April 27.—The following official announcement was made yesterday;

"On April 25 a Russian force, consisting of five battalions of infantry, sixteen sotnias of cavalry, and one battery of artillery, in pressing our advanced cavalry, attacked them in the vicinity of K...man. Our Kaiyuan force attacked the Russians in return, defeated and pursued them north to Miemhuazhieh. Our casualities were thirty-eight. The enemy left about 200 dead on the field.

"Two other Russian forces, one consisting of six battalions of infantry and 16 sotnias of cavalry, the other of 12 sotnias of cavalry, and one battery of artillery, attacked Changtu and Sisotatzu, respectively, but retreated north when the other Russian force was defeated at Kaiyuan."

FROM CABBY TO BARONET

Inheritor of Irish Title Has Had a Varied Career

London, April 27.—Sir George Augustus Jarvis Meredyth, baronet, cabdriver, of Hobart Town, and follower of many other trades, has arrived in London on his way to Ireland to take possession of the estate of his ancestors. On the death of Sir Edward Meredyth, last October, the present Sir George, after nearly seventy-three years of globe trotting and rough living, succeeded to the title and to the family seat. The fortune attached to the title is not a great one, but the farms and tenacies are said to be wroth about £400 per annum. The baronet is a little man with a thin, clean-shaved face and a nervous manner. His voyage to England on the steamship Ortona was a honeymoon trip, for the day before the boat left Melbourne he married his second wife, who is very much younger than himself.

His arrival at St. Pancras was a pathetic sight. He stood on the platform, surrounded by a rampart of baggage and dazed by the busy scene around him. He turned a look of comradeship on a cabman who hailed him, but was too excited to reply.

The new baronet's callings have included shoemaking, gold mining, wool pressing, the settlers life, border ruffianism, driving and other ways of earning a living. "I have got my living in twenty different ways," concluded the baronet, "but it has always been by work. Now I am going to live without work, and I think I deserve it."

Sir George, whose title is recognized in the current issue of Burke's Peerage, was born in Stepney, on December 11, 1832, and was the son of Major C. B. Meredyth, of the Royal Marines. He has two sons and three daughters. The name of the estate to which he is entitled is described by Burke as "Greenhills, County Kildare."

SCENES IN WARSAW

How Russian Soldiers Shoot Down the People

Warsaw, April 27. — In a letter received from a resident of Skarzyke, Russian Poland, the writer relates how, under the command of an intoxicated officer, soldiers deliberately shot down a party of strikers during the recent labor troubles at that place. He says:

"Some eight hundred strikers, who were visiting the factories in the vicinity, simply using moral suasion to influence the workers to join them, were at one place confronted by a company of soldiers, whose commanding officer was drunk, and ordered to halt, which they did, and the leaders went forward to meet the officer, who came towards them with a loaded revolver, which he fired at them, but was too drunk to hit them. He then gave orders to the soldiers to fire, and five volleys were discharged into the crowd, who were running away, frightened by the revolver shots. Twenty-five men were killed and forty-four wounded. After that the soldiers were ordered to search the bodies, whilst they did to some purpose. Not a single arm was found; but the wages, which many of them were known to have received a few hours previously, had disappeared when the bodies were given up to the families, as well as all their private belongings. The officer and prefect, who was the person responsible, retired to dinner when this work was ended, and the prefect, in reply to some one, said: 'Oh! Polish cattle! I can kill as many as I please.'"

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

AWFUL SCENES ARE PREDICTED

Specimens of Literature Threatening Jews on Russian Easter

SEASON OF MURDER ON

Czar's Government Doing Nothing to Prevent Massacres

While walking in the streets today not less than three circulars demanding wholesale murder of Jews were pushed in your correspondents hand. He showed one of them to a police lieutenant, expressing indignation and astonishment, but the official only smiled.

"You and I are not Jews, so what does it matter?" he asked.

The circulars are signed by the "Nationalist Committees" of Odessa, Kief, Kishenev and a dozen other places. The first circular your correspondent received was marked "Thirty-third thousand," the last "Fifty-seventh thousand," which shows in what great numbers these murder-advocating pamphlets are distributed—in Russia, where every piece of printed and written paper is scanned by the police. Undoubtedly the authorities sympathize with the slaughter plot, if it be not instigated by them.

"We have been negligent long enough in the duty of extermination," say the circulars, "let it be remembered in the approaching holy season, Russians, make an end of the Jews, the bloodsuckers. The fall of France and of Poland is due to the Jews, and the Jews are now plotting to make an end of Russia. But that day shall never come. On the other hand, the day is near when there shall not be a single Jew alive in holy Russia. Remember, every Christian Russian's motto must be:

"Down with the Jews!

"Down with the shouters for a constitution!

"Long live our little father, the Czar."

The most prominent Jews of Odessa, backed by many well-meaning Christians, scientists, teachers and other people of worth, called upon the authorities to stop the distribution of this incendiary literature, but the otherwise almighty master of police replied that he had no authority since the Imperial censor allowed the pamphlets. When the Jews asked binding promises of protection for women and children, at least, during the Russian Easter festival, the master of police replied he could not bind "himself himself in advance, as he was subject to instructions from St. Petersburg."

As similar answers were given to protection-seeking Jews in Schitemir, Elisavetgard, Balta, Cherson, Kishenev, Bendary, Inkermann, etc., it is evident that the central government, that is, the Czar and the holy synod, have a hand in this agitation for mass-murder. To win over the fanatic mobs to their own plans, they intend to give them opportunity for plunder and for wading in blood knee deep. As a great Jewish merchant put it to your correspondent:

"The conspiracy of the government with the lowest instincts will bear bloody fruit during the Easter holidays in all the great cities of Russia after approved Kishenev and Baku fashion, unless the foreign world comes to our rescue and so intimidates the Czar and his dastardly advisers that, for their own sake, they dare not permit the prearranged slaughter of men, women and children."

If anything was needed to corroborate the above, read the following warning that appears in today's Odessa "Official Gazette":

"To the Jews: It is high time that those that are sending deputations to the authorities, praying for protection against future attacks, must instantly desist from such disloyal practices, and they are admonished that they might employ their time better by advising their children and friends not to engage in strikes and other acts of public disorder.

"Whosoever, in future, dares open his mouth about projected excesses and preparations for attacks upon the Jews will be subject to a heavy fine, imprisonment and corporal punishment."

"Our lives and that of our wives and children depend upon the good will and friendship of the foreign world," said the rabbi of Odessa to your correspondent. "Unless the foreign world comes to our rescue we will be lost." (The Russian Easter is 13 days after Easter in Canada.)

POPE FOR SEPARATE SCHOOLS

Roman Catholic Bishop Delivers Message From Rome

Vancouver, B. C., April 27.—At the close of mass in the Roman Catholic church here Bishop Dontenwell said that the pope had sent a message by him from Rome, where he had seen him, to ask his people to stand up for separate schools and to have their children educated in separate schools. The statement caused much comment owing to the heated controversy for and against government support of separate schools in Canada.

GERMANY AND ALCOHOL

Inroads Among Working Classes Described as Appalling

Berlin, April 27.—Prof. Stadelman, principal physician of the great hospital at Friedrichstain, a suburb of Berlin, in his latest report, says that the inroads of alcohol among large sections of the working classes in Berlin are appalling. He reckons that seven per cent. of all the cases admitted to his hospital are cases of delirium tremens, and that this in no way covers all the forms of disease brought on by intemperance. Roughly, he says, between one quarter and one-third of the diseases afflicting men in the great districts in Berlin inhabited by workmen are caused by the improper use of alcohol.

SWEDEN AND NORWAY

The Former Country Most Distressed Over Prospects of a Rupture

Stockholm, April 27.—The contrast in the trend of opinion in Sweden and Norway with regard to the question at issue between the two countries is becoming more and more marked. The Norwegian press now lays less stress on Norway's claim to perfect equality within the union, and more on her aspirations towards absolute independence, admitting more or less openly that the consular question is a means to this end. On the other hand, in the Swedish press and the public meetings which have been held regarding the matter all over the country emphasis is laid on the necessity of maintaining the union in the interests of both countries, and it is urged that every concession should be made to Norway, which is compatible with a common dynasty and unity in foreign policy. The dangers of a rupture seem more keenly felt here, while they are minimized in Norway, where the warnings of the foreign press are attributed to a misconception of Norwegian aspirations.

C. P. R. AUTOMOBILES

The Use of Observation Motor Cars in the Mountains

Montreal, April 27.—An official of the C. P. R. is authority for the statement that the company will this season have in operation in the mountain districts of British Columbia twenty-five automobile motor cars. These will be run between Glacier and Field, which takes in all the famous mountain resorts along the line of the C. P. R. Many rich tourists, who visit the West each year, will find the automobiles of immense benefit, in that they will obviate the necessity of waiting for the next train, when the run to be made is only one of comparatively short duration. The cars will be built after the models of the very best automobiles, except that the wheels will be light to operate on the rails. There will be no roofs to these cars and only a glass front, thus affording the passenger a better opportunity than is afforded in the regular trains of viewing the magnificent scenery which abounds on every hand. The distance between the two points covered by the new system is only seventy-three miles.

THE ARMY BAND.

Lindsay Post Speaks Well of Salvation Army Band.

Referring to the recent visit of our local Salvation Army Band, the Lindsay Post says:

The Peterborough Army Band was the chief attraction, and it deserves a special mention. They are a clever lot of musicians, and their concert in the barracks Saturday night, as well as their open air selections on Sunday, were simply magnificent.

Bandmaster Packham, Toronto, who was with the Peterborough corps on a visit, rendered a couple of very fine cornet solos. Sunday afternoon and evening dozens of citizens were turned away from the barracks, not being able to gain admittance. The main speakers were Adjutant Jennings, of the Peterborough corps, and Brigadier Bowell and wife (nee Miss Lack, town), of Toronto, Mr. Bowell is the officer in charge of the immigrants to Canada, and spoke on his work. Sixteen converts were led to the front on Sunday. About $65 was realized in all. Special thanks is due to the citizens who billeted the band.

A GERMAN INDULGES IN SOME BIG TALK

Thinks England Would Be Defeated in Event of War

LONDON WOULD BE TAKEN

Thinks That England's Navy Would Not Have Influence on Final Result

Berlin, April 27.—In an interview this week a member of the general staff discussed in an outspoken manner the chances of Great Britain if she were attacked by Germany.

"A conflict with England," he said, "must be considered by Germany, for a powerful, progressive German trade forms for the power of England at least as grave a danger as the progress of Russia towards India. England's weakness lies in that factor which constitutes our strength—the army. The English army corresponds neither in quantity or quality with England's position as a great power, and does not even correspond with the size of the country. For England feels convinced that invasion of her territory can be prevented by the fleet. That conviction is, however, not at all justified.

"Therefore in case a war with England should be threatening Germany should endeavor to throw part of her army on the English coast, and thus to shift the decision from the sea on to the enemy's country. As our troops are far superior to the English troops, England's enormous naval power would not have the slightest influence upon the final decision."

His opinion of the English volunteers is shown in the following statement: "The first object to be aimed at in invading England would be the English field army, the second would be London. However, in all probability both objects would be attained simultaneously, as in view of the small value of the volunteers the whole field army would be required for the defence of the fortifications of London."

MASSACRE OF PRISONERS

TURKISH OFFICER YIELDS THEM UP TO THE MOB

Are Slaughtered With Knives, Sticks and Stones, and the Corpses Horribly Mutilated--Orders of the Sultan of Turkey Literally Carried out.

London, April 27.—The Daily Chronicle publishes the following. Reuter's correspondent at Uskub states that seven members of a Servian band who had been captured by Turkish troops were brought to the latter to Kumanovo. The officer was bitterly reproached by the Secretary-General for having made prisoners. "How dare you," said the Secretary, "bring in living Comitajs, when you know that an order of his Majesty directs all such prisoners to be made away with en route?"

The officer, fearing that he had gravely compromised himself, then made a sign to one of the captains, who immediately plunged his bayonet into the body of the prisoner nearest him. Taking this as a signal, the Turkish rabble of Kumanovo threw themselves on the remaining six prisoners, did them to death with knives, sticks and stones, and horribly mutilated the corpses. The soldiers then stripped the dead bodies and threw them into the court of the Servian church.

THE AFGHAN MISSION

Details as to Proposals Made by Great Britain

London, April 27.—Four months have elapsed since the mission left India for the Afghan capital.

Though no official statement has, for obvious reasons, been made as to the objects of the mission, it is understood that the proposals made to the Ameer include the extension of the railways and telegraphs across the frontier into Afghanistan and the purchase of arms from England alone.

There is also an understanding that Great Britain will assist the Ameer to repel foreign aggression so long as he follows British advice in external affairs. This has probably been reduced to a formal arrangement. The proposals made by the Ameer are said to be the appointment of an Afghan representative in London and the grant of a strip of Baluchistan territory, terminating on the Arabian Sea, for the construction of an Afghan seaport. Russia has made repeated overtures to establish direct relations with the Ameer, but has on each occasion been given to understand that Afghanistan was outside the sphere of her influence. The conclusion of an agreement with Great Britain is a severe blow to Russian diplomacy.

Floods in the Southwest

Gallup, N.M., April 26.—No through trains have run in either direction on the Santa Fe Railway for the past 12 hours, and the prospects for immediate repairing of the break in the line between Bluewater and Granite are very poor. The track for nearly half a mile is washed out. It has been raining almost continuously for sixty hours. Overland train No. 2, which left Los Angeles on Saturday night, is held at Gallup, and other eastbound trains are at Stigmas on account of a wreck at Crookton early to-day, caused by soft track. The engineer and fireman of passenger train No. 8 were killed in the wreck.

INTEREST AWAKENED

Several Peterborough Gentlemen Are Securing Big Casino Stock

Mr. Geo. L. Porter, who is stopping at the Oriental reports that in his efforts to interest Peterborough capital in his great mining proposition, as noted in yesterday's issue. The Big Casino Mine, California, he is meeting with great encouragement. He says one of the best and most open to inspection mining investments we have seen. His credentials, from leading U.S. bankers, banks and prominent men, place his representations above even a shadow of doubt. The gentleman is not only enthusiastic about the prospects of his already proven mine, but has succeeded in making several local capitalists put the surest stamp of their approval on the matter, by taking stock in the mine.

TWIN BROTHERS.

Messrs. J. C. and Matthew Smith Celebrate Their Natal Day.

Yesterday a very interesting family reunion was held in Peterborough when our branch of the Smith family held a fraternal gathering. Messrs. J. C. Smith, Principal of our Public School, and his twin-brother Matthew, President of Star of the East Mining Company, celebrated the 57th anniversary of their birth, at the residence of the latter. Other brothers were also present, viz., Messrs. Robert, of Lindsay, Jas. C., well known in town, and Jonathan Robert is an ex-Mayor of Lindsay. The remaining brother, John now resides and is doing well in Seattle, W.T., and he, by reason of the great distance, was prevented from participating in the pleasure of this unique family gathering. The Times would wish the twins every success and many happy returns of the day.

Police Court

OFFICIALS

Chief of Police, G.I. Hazel
Magistrate, D.W. Dumble

Yesterday morning the Sunfish Club that always awaits the opening of the Police Court public entrance, smiled and then they frowned. The doors flew open, the rumor flew out, that Magistrate D. W. Dumble was still out of town and consequently no court. However, the Chief phoned to Magistrate H. Rusk, and requested him to act. His Worship attended the duty, and Justice balanced her scales. The case was a charge brought against Mr. Sam Mulligan, of keeping a vicious dog. His Worship enlarged the case until Friday. During the interval between the message to Mr. Rush, and his arrival, a lady waiting as a coming witness, in the police station, became very impatient and wanted "To go home right away, as she was in the middle of house-cleaning." However, a policeman present, who evidently has known what it is to eat his meals on the sawhorse, and sleep down cellar during this annual period of feminine frenzy, did not sympathise with the lady and insisted on her remaining. Perchance her husband may get off this year and the house-cleaning be postponed 12 months.

Yesterday's Fires

This town is conservative not only in politics but in the matter of fires. There seems to be a band of Fate directing the matter of fires in Peterborough; it is almost a by-word here, that when there is an alarm of fire heard that more will follow in the same day. At noon yesterday the fire brigade were called to the north end to a fire, which proved to be only a grass blaze at the corner of Edinburg and Rubidge streets.

Another grass fire later on called them to Belmont avenue, which run might have been saved them by a few pails of water put on in time. As they returned from this fire they stopped over long enough to extinguish a third grass fire behind the Priests' House.

$1,200 DAMAGES

Substantial Damages Awarded to L.B. Doble Against Peterborough Canoe Company.

It was about one o'clock yesterday morning when the jury in the case of Doble v. The Peterborough Canoe Company, in the High Court of Justice announced that they had come to a decision and that they had awarded damages to the plaintiff, Louis B. Doble, of Sunderland for $1,200. The amount claimed was $5,000, for injuries received on September 20, last, while in the employ of the defendant company. It will be remembered that Doble was working at a planing machine when in some manner his right hand was caught and lacerated to such an extent as to lose theuse of the member. Negligence on the part of the defendants in not having guards on their machinery was charged and also that Doble did not have proper instructions as to how to run the machine. After some deliberation the jury failed to arrive at a conclusion, and his Lordship put to them the following questions which were answered as stated, some quite favorably to the defendants' side of the case.

Was there any defect in the planing machine of the defendant's which caused the injury to the plaintiff? No.

If so, in what did the defect consist. Not answered.

Were the rollers of the planing machine dangerous? No.

Were they guarded? No.

If not, was it practicable to have had them effectively guarded? Yes.

Did the want of such guard cause or help to cause the injury to the plaintiff? Yes.

Was the plaintiff injured while carrying out, and because of carrying out the order of a person in the employment of the defendants to whose orders he was bound to conform? Yes.

If so, to whose order was he accustomed? Foreman Tremain.

Was the person who gave the order which plaintiff was carrying out negligent in giving it? Yes.

If so, of what did his negligence consist? Should have given instructions how to run it.

Was the plaintiff himself guilty of negligence which caused or helped to cause the occurrence in question? No.

If so in what did his negligence consist? Not answered.

At what sum do you assess the plaintiff's damages? $1,200.

Judgment was given accordingly with thirty days' stay to enable the defendants to appeal if they so desire. Solicitors for plaintiff, DuVernet, Jones, Ross and Ardagh, Toronto, for defendants, Denniston, Peck, Kerr and Stevenson, Peterborough.

After all these months spent in Castle Nesbitt, the chief actor, or alleged to be such, in the now mere grown, Italian stabbing fray, of some months ago, will have to possess his soul in patience and await another trial in his present boarding house. It is possible, however that bail may now be allowed if sufficiently responsible bondsmen can be procured. After hearing many witnesses and the Lordship's charge, the jury, after three hours deliberation, failed to agree on a verdict. Thus, Leonardo will have to wait until the next session for trial again.

A BUMPER HOUSE

Enjoys Program of Entertainment Given Under Auspices of Peterborough Base Ball Club.

The Peterborough Base Ball Club know how to get there whether on the diamond, or when arranging program for an entertainment. That the latter is true, as well as that the ball twirlers are popular in town, was demonstrated last night, by the crowd that enjoyed their annual concert in the opera house. It would be invidious to particularize or say which numbers received the greatest applause. The Harmony Quartette were especially well received, as, in fact were all the performers.

Mr. Bert Harvey, comic entertainer, of Toronto, is the best seen in Peterborough for a long time. Last night he was in excellent form, and brought rounds of applause from those present.

The stage and boxes were tastefully decorated with the National flags, and presented a very attractive appearance. A handsome Heintzman piano occupied a place at the right of the stage, the balance of which was filled with comfortable chairs. The piano was sent down specially for this occasion.

PROGRAM.

Quartette—"Old Black Joe," ...Foster
Harmony Male Quartette.

Song—"The Poor Chinee," ... McCue
Mr. Bert Harvey.

Solo—"Enchantment" ... ...Mascheroni
Miss Helen Davies.

Quartette—Selected... ... ...
Harmony Male Quartette.

Song—"The Man Hater," ... Randall
Mr. Bert Harvey.

Solo—"Where'er St. George's Banner Waves" ... ...Fitzgerald
Mr. Mark Wilson.

Duett—"The Battle Eve," ... ...Bonheur
Messrs. Jos. Legge and R. N. Jolliffe.

Song—"Perhaps You've Seen the Pictures" ... ... Lee
Mr. Bert Harvey.

Quartette—"The City Choir" ..Parks
Harmony Male Quartette.

Solo—"Awake" ... ... Pelissier
Miss Helen Davies.

Song—"The Mounted Foot" ... Brooks
Mr. Bert Harvey.

Quartette—"Good Night" ... ...Parks
Harmony Male Quartette.

Heroic Teller Shot Burglar.

Awakened from Sleep, Makes a Desperate Fight and Kills One Robber Three Other Escape--Left Lancaster With No Booty.

Cornwall, April 26.—Burglars broke into the Merchants' Bank at Lancaster, thirteen miles east of Cornwall, last night, and made a murderous assault on the teller, H. Von Metzke, who slept in a room at the rear. Von Metzke killed one of the gang, and the burglars decamped without any booty. The affair took place this morning about half-past one o'clock.

HELD PISTOL CLOSE.

Von Metzke was sleeping alone in his room, when he awakened by the glare of a torch near his face. Four or five men were standing around his head. When he attempted to rise he was struck on the head by the butt of a revolver, and two of the gang pounced upon him. He squirmed around and got hold of his revolver from under the pillow. This he pressed against the body of one of his assailants under the end of the short ribs and fired. The whole gang then attacked him, and although he fired again the bullet went wild and lodged in the wall. They showered blows on his head and wrenched the revolver from him. He kicked over the lamp, which went out as he fell unconscious on the floor.

When he regained his senses he nine wounds on the head and forehead. Weak and almost speechless, he staggered to Dr. Harkness' house, nearby, and gave the alarm before collapsing. Several villagers, who were at once aroused by the doctor's family, rushed to the bank and found that a torch had set fire to the bedding and bed clothing. This was quickly extinguished. Half an hour later the body of the dead burglar was found a few yards west of the G.T.R. depot, whither it had been dragged by the rest of the gang, and left on the platform after all the pockets had been emptied, so as to leave no clue to their identity.

From the nature of the wound the burglar was evidently shot dead. The dead man is about thirty years of age, and was staying at the Ledue House, Lancaster, since last Saturday, having registered as J. Dickson, St. John's, N.B. On Monday night he was joined by another young man, who came from Valleyfield, and registered as S. R. Tully. Needless to remark, Tully is missing to-day. The deceased was fairly well dressed in dark clothes. He had small soft hands, and his teeth were heavily filled with gold. He was clean-shaven, and had dark brown hair.

April Weddings

On Tuesday evening at 8.30 o'clock a very pretty wedding took place at the home of Mr. and Mrs. Booth, 62 Chamberlain street, the occasion being the marriage of their daughter, Miss Sarah E., to Mr. Samuel L. Thomas, of Liverpool, England. Rev. A. H. Brace, pastor of the Park street Baptist church, performed the ceremony. The bride was given away by her father, and the groom was supported by Mr. Bert Stevens, of Birmingham, England. The bride's dress was of white silk, trimmed with shirred chiffon, and the bridesmaid, Miss Stimer of Uxbridge, was gowned in champagne silk, trimmed with pleated crepe-de-chine. Miss Eva Booth, the flower girl, was in white silk, with chiffon trimmings, and carried roses and carnations.

Mr. Burton, accompanied by Mr. Ramsey, played the wedding march, Mendelssohn's. The residence was appropriately decorated for the occasion.

BELL--JONES.

The Toronto Star of Tuesday says—"The marriage of Miss Alice Jones daughter of the late Thomas Foulkes Jones, to Mr. Clarence W. Bell, of the Ontario Bank, Montreal, son of Mr. F. E. Bell, of Peterborough, was solemnized early this morning at the Church of St. Mary Magdalene, the rector, Rev. Charles Darling, officiating. The bride, who was unattended, was given away by her brother-in-law, Mr. H. M. Bourne, and was attired in a golden-brown silk suit, richly trimmed with champagne silk lace and hat to match.

"Mr. and Mrs. Bell left immediately afterwards for Ottawa and other eastern points, and will make their future home in Montreal. Only the immediate relatives witnessed the ceremony."

Mr. and Mrs. F. E. Bell, who were in Toronto on Tuesday attending the wedding of their son, returned home the same evening.

BRODIGAN--WILLOUGHBY

Wednesday morning at 10 o'clock in St. George's Anglican church, Toronto, Miss Florence Willoughby, daughter of Mr. William Willoughby, of that city, was united in marriage to Mr. Charles Arthur Brodigan. The wedding was very quiet, and bride and groom were unattended. The groom who is a resident of Toronto, formerly lived here, receiving his education in the Collegiate Institute here. Friends will learn with interest of the pleasurable event in which he was one of the principals. Mr. and Mrs. J. E. Olea, of town, attended the wedding.

BASEBALL.

The report has reached town that the Port Hope team had dropped out of the Midland League. It seems to have been correct as the following extract from Tuesday evening's Guide would indicate:

"The secretary of the League has written the teams in the Midland League informing them that according to the present double schedule it will be impossible for the Port Hope team to remain in the League. The management of the Port Hope team meets to-morrow night when replies from the Midland League teams will be received, and the matter decided upon.

In the opening game of the Eastern League Toronto defeated Rochester at the latter place by a score of 4—2.

ROYAL BAKING POWDER CO., NEW YORK.

No News of Either Fleet.

There is no news to-day of the whereabouts of the Russian and Japanese fleets other than a brief despatch from Penang, Straits Settlements, stating that the fourth division of the Russian second Pacific squadron, commanded by Vice-Admiral Nebogatoff, is expected to pass Penang and enter the Straits of Malacca to-night, and that the British authorities are on the alert. There is no confirmation of a report sent to Chicago yesterday from Hong Kong to the effect that the Russians had seized the Island of Hainan, belonging to China, and situated between the Chinese Sea and the Gulf of Tonkin.

Weary Shop Girls Pale, Tired Women

You Feel "Draggy," Lifeless, Nervous, Never Rested

FERROZONE

Will Make You Feel Like New—It Vitalizes, Tones and Strengthens

The best medicine for restoring vitality and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvelous—it makes you feel strong and sturdy, brings health that outlasts old age. Mrs. Mary Molong, of Harbor Bouche, Nova Scotia, writes:

"Ferrozone built me up.

"Before using it I scarcely knew what good health meant.

"I was just as miserable and weak as any woman could be.

"Tired from morning till night, bothered by trifles, unceasingly nervous.

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, APRIL 27 1905

LORD NELSON'S CENTENARY

Among the various centenary celebrations due or about due there is one which is sure of being warmly approved by people of British affiliations wherever they may be residing, and that is the commemoration of the death of Nelson and his famous victory of Trafalgar. The battle was fought Oct. 21, 1805, consequently the hundredth anniversary will occur next October. As the ordinary anniversaries of the battle are observed to some extent each year in England, it is to be expected that the centenary celebration will be on a much larger scale. That the event is of interest outside England is shown by the fact that Hon. Mr. Domville of the Canadian Senate, has offered a resolution in favor of a general observance of the day by the Dominion. Nelson himself has some direct connection with Canada, since when he was a midshipman on a British frigate visiting Quebec he fell in love with a pretty Canadian maid and would fain have married her, and settled in the country. money and known how to farm scientifpersuaded to remain with his ship, and his great career resulted. But it is not to any one part of the British Empire that the desire to commemorate the great admiral will be restricted. Perhaps in no country more than this is Nelson's heroic and patriotic career more highly appreciated. Canadians especially will join with enthusiasm in a tribute to the hero.

C.P.R'S. PROGRESS

As an indication of the rapid development of the Canadian North-West, William Whyte, second vice president of the Canadian Pacific Railroad, who has just returned from Winnipeg to Montreal, says his road is preparing to double track the line between Fort William and Winnipeg, a distance of 478 miles. Mr. Whyte is also enthusiastic as to the number and quality of the immigrants who are seeking homes in the Canadian West, and is particularly pleased with the American farmers who have crossed the border. These, he says, make ideal settlers. They have money and know how to farm scientifically. The heavier immigration from the United States is from Washington, Montana and Oregon, the number of intending settlers from Montana alone during March being 265 men and 160 women and children, whose effects and cash in hand were estimated to amount to $481,200.

CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY, CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share--Full Paid--Non-assessable

THE RUSSELL MINING COMPANY Was organized under the laws of Arizona with a capital stock of $500,000, divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado.

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was taken at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,200 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 450 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 oz. gold and 12.25 oz. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 0.9 oz. gold and 5.95 oz. silver, or a value of twenty-one ($21.00) dollars per ton. The average of eight assays over 25 feet in the west drift gave $46.53 per ton, and from over 40 feet in the east drift, nine assays averaged $123.77 per ton. It is proposed to sink the main shaft to the 600 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 181 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 2. The drift from the Old Town shaft, referred to above, was run nearly 200 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,500 feet. Taking the 1,500 feet along the vein from the 600 to 1,500 foot levels with the average width of three feet for the vein, and we have a product of 267,243 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $5,-567,289.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 20 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russel Claim would be nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developments in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 2,000 feet by 50 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $100,000 per year for the past three years, and is now working at a depth of 1,500 feet and has just completed the installation of larger machinery preparatory to increasing its output this year. The Topeka, which has produced over $2,000,000, and the Wautoga, which has a production credited to it of over $1,500,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 100 feet of the drift, run at the 200 foot level, from the Old Town shaft, ranged in value from $2.64 to $275.52 per ton, the average being $50.72 per ton. The development of other mines in this district has shown the veins to be strong and persistent to great depths, the California mine near Central City is now producing from a depth of 2,200 feet.

TRANSPORTATION.

The Tram Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 300 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,000 to 2,200 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stoping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date, the predecessors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best-paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Mine stock to investors in order that they ing Company is therefore offering its may participate in this enterprise which bids fair to become one of the best mining propositions in the West.

The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in this proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to complete payments of the original bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

Performance
Not Promises

There is all the difference in the world between expectation and realization. There is even a greater difference between promise and performance. In the former case you form your own opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take some one's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case is a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless

(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since midsummer.

The Canadian Company has already completed a net work of successful stations along the St. Lawrence Gulf and there are on Canadian soil thirteen stations already in operation. The Company has already been authorized to build four more stations at prominent points during the coming summer. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation on their point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises—they are performances. Compare what Marconi has DONE with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they?" The answer suggests itself. Can you not foresee the great future that Company has before it? Do you not wish to become a sharer in the success which is at its door? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

The Canadian Northwest
HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry; and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

—THE—

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company), which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new strong company. That fire business during the last few years has yielded profitable returns is shown by the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Brompton ville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Crombie, Esq., Kingsbury, Que., of Williamson & Crombie, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. M. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 14, Victoria Arcade Bldgs., Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 50 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 75 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. BAILSBURY,
PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,500,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 8 full fised mining claims of 5 acres each, two mill sites of 5 acres each, the sunflower placer of 20 acres and the Ora tunnel site 1,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Merris, a mining engineer of 20 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

Don't waste your time and money on cheap, dangerous, experimental treatment. Don't increase at your own cost your sufferings by being experimented on with remedies which they claim to have just discovered. They give but temporary relief. But come to us in confidence. We will treat you conscientiously, honestly and skillfully, and restore you to health in the shortest possible time with the least medicine, discomfort and expense practicable. Each case is treated as the symptoms indicate. Our New Method is original and has stood the test for twenty-five years.

DRS. KENNEDY & KERGAN

148 Shelby Street, - DETROIT, MICH.

MARK FREIGHT PROPERLY

C.P.R. Issues Circulars for Information of Shippers

A circular has been issued by the C.P.R. calling attention to the necessity of the proper addressing and marking of freight. Each separate piece should be marked, and all old marks must be effaced. Stencils should be used instead of tags wherever possible, and the address on the package must correspond with that on the bill of lading. It will also facilitate correct handling if shippers will also show on packages their name or trade-mark. Where there is more than one route, shippers must specify by what route the goods are to be forwarded.

The Canadian Freight Association also desires to call attention to the legal penalties for false representation of contents of weight of freight packages. A minimum fine of $100 and a maximum of $1,000 may be imposed upon any railway official allowing shipments under false pretences, and the shipper is liable to the same penalty.

NON-UNION G.T.R. MEN

Assure the Superintendent That They are Quite Satisfied

Upon their own initiative, a committee of 25 non-union machinists of the Grand Trunk Railway system met in Toronto to assure their employers that they did not share in the dissatisfaction expressed by a committee of union machinists which interviewed the railway authorities a week ago with certain requests for increases.

At their solicitation, they were met here by Mr. John D. Robb, Superintendent of Motive Power, and to him they declared that they were satisfied with the treatment the railway had meted out to them. They said that the dissatisfaction arose among the newer in the service. They themselves represented men who had been with the company from five to 35 years.

MAYOR AND EDITOR CLASH

They Struggle on the Floor of the Council Chamber at Moncton N. B.

John T. Hawke, editor and proprietor of the Moncton, New Brunswick Transcript, caused a writ to be issued Saturday against Mayor Ryan, of Moncton, whom he charged with assault. The Mayor, who says that he has been grossly slandered by the Transcript, had ordered Transcript reporters to be excluded from council meetings. Hawke went to a meeting himself on Friday, and was ordered from his seat at the clerk's table.

He refused to go, and no constable responded to the Mayor's call, whereupon Ryan himself seized Hawke, and the two fell on the floor together. The action is the result of the collision. Ryan and Hawke are both active Liberals.

A RICH PROPERTY

afe Investment That Will Pay Large Returns.

We Have a Gold Mine on the "Great Mother Lode" in Tuolumne County, California, not a prospect but a proven mine, we have more than 10,000 feet of underground work done, consisting of Tunnels, Shafts, Drifts, Winzes' and Upraises.' We have a very large amount of good milling ore blocked out that can be measured up like measuring up a cord of wood. We have a modern Twenty Stamp Mill completed. Will have electric power in June, then the mine will become a steady producer.

Our capital stock is small—only 1,500,000 shares par value $1.00 each. We have developed and proven such large bodies of ore that we do not believe they can be mined out in 100 years, and we want to increase our mill to One Hundred Stamps at the earliest possible date, and in order to raise the money quickly to hasten the enlargement of the mill we have decided to sell 100,000 shares of stock at 50c. par share.

With the present development and equipment of the mines this stock is well worth par value, and as an investment it is as safe as the stock of any Bank, Trust or Railroad Company in the world—safe as a Government Bond and should pay large returns on the par value.

We have spent a large amount of money to date developing and equipping this property, and no salaries have been paid to any of the officers, none will be paid until the mine is a steady dividend payer, then only the Superintendent in charge at the mine and the Secretary for the time he works will draw salaries.

This mine when equipped properly will rank with the large producing large mines of the State.

We want to interest some party or parties to take this stock and would like to have them select a representative to go with us to the mines, so that we may prove they are better than we have told you they are. To the parties taking this stock we will give a place on the Directorate so they may always be in the closest touch with what is going on. For further information apply to The Times office or to yours very truly.

GEO. L. PORTER,
At Oriental Hotel.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One Hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 90 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal

BETTER THAN GOLDFIELDS NEVADA

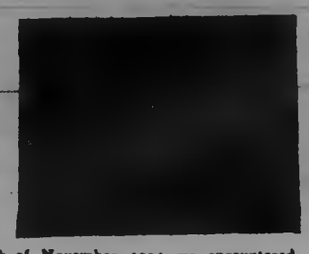
The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; and install a large compressor and hoist capable of sinking the property at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.



CONCENTRATOR PURCHASED

We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th. Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st, 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay--West of winze, intermediate drift	3685.60	1197.	$74,406.20
No. 2 Assay--Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.50

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885 38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577 60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944 00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000.00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 400 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.

With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dune, Bradstreet, or any bank or business house in Helena.

Marconi Wins Patent Decision

The United States Circuit Court in a sweeping decision has declared that Marconi's patent prohibit others from using the vital and essential parts of all wireless telegraph systems, viz. The elevated conductors with ground connections. Marconi says that Wireless Telegraphy is impossible without these essentials. Permanent injunction and judgment for an account. ing and costs has issued against the defendant company under that decision.

Remember the record of the Bell Telephone, how all other telephonic inventions were declared infringements and were compelled to pay tribute to Bell and finally to surrender to Bell and be swallowed up by him.

History Repeats Itself

WHAT WIRELESS IS WHY IT WORKS

(This is the fourth and last chapter covering the very interesting subject of wireless telegraphy.)

Synopsis of Preceding Chapters—The first chapter showed that wireless telegraphy was made possible through Nature's gift of electricity in the air. It was only necessary for the inventive genius of man to control the direction of this force. The instruments which have been invented and perfected by Marconi and which made it possible to control this subtle power as that it does his bidding, are described. This is further explained by taking a specific message and following through the various steps from the sender to the receiver.

CHAPTER IV.

In the preceding chapters, we have learned that wireless telegraphy is exceedingly simple in theory and practice, because it involves nothing but basic principles and natural forces in almost unaltered form.

If we were on the top of a ten-story building and wished to get some worthless object down to the ground, we would not put it on our shoulder and carry it down, but would simply throw it over the edge of the roof and gravity would do the rest. It is likewise superfluous to use wires for the transmission of electric currents if nature has provided something which makes it possible to accomplish the same work without them. It requires no gift of prophecy to foresee that wires will be discarded just as printing presses worked by hand and sailing vessels for fast trips have been put aside.

Although Fulton gave us a steamboat, which we now look upon as a very crude affair, and Howe constructed a cumbersome sewing machine, we cannot but be thankful for what they did. Suppose the ocean greyhound and the modern sewing machine had been perfected within a decade after their invention, it is impossible to imagine what other perfected and highly developed products would now be at our command. In the Marconi system the developments already parallel those of the steamship and sewing machine, which have required from fifty to one hundred years of mechanical experimenting. In other words, Marconi has given us a perfected wireless telegraph within less than ten years of the time when he became convinced that his theories were borne out by facts. It would be the height of absurdity to assume that he has attained the limit of possible development. One cannot but marvel that he should have accomplished so much in so short a time.

A realization that wireless telegraphy is based upon a simple, free-given force of Nature makes a deep study of the science immensely interesting. One cannot refrain from entering the realms of fancy and wondering what will become of the telephone and telegraph wires, the cables and the instruments which are adapted to their use. The future of shipping, of all forms of communication, and, in fact, of every detail of our daily life in times of peace and war may be forced to pass through a stage of complete change because of the simple discovery of the possibility of sending messages from point to point without any visible connection between them. We have at our command a newer, simpler and better means of applying electricity to the transmission of messages than we ever had before. There is nothing more deserving of your serious thought than this latest product of science—wireless telegraphy.

MARVELOUS CANADIAN EXPANSION

Few residents of Canada fully realize the tremendous expansion which their own country is enjoying. In all lines of industry there is progress, and the last three or four years have seen a commercial growth far beyond the predictions of leading Canadian authorities.

The best evidence of this growth is shown in connection with the railroads and steamships and their allied interests. The Grand Trunk system is to be extended into a transcontinental line, in order to meet the demands of the central and far west, and other transcontinental roads are projected. The records of shipping show a steady increase in volume. The exports and imports are increasing so that they now total over $100,000,000 per annum. The rate of interest is on a par with that of any nation in the world. The interior of the country is becoming more and more densely populated, and a vast tract of fertile soil is rapidly being brought under cultivation. The report of the C. P. R. records over 20,000 acres of land sold to settlers west of Winnipeg. The four leading railroads of Canada weekly return an increase of earnings over a similar period in any previous year. Growth and development are to be expected in any new country, but the Canadian record stands almost alone for the rapidity with which this important progress has been made.

All this has been accomplished

WITHOUT A CANADIAN CABLE

linking this country to a European point. This may seem unimportant, but when one realizes that over $3,000,000 PER YEAR IS SENT BY CANADIAN CITIZENS for cable messages, and, when it is further realized that this great expenditure comes into the receipt column of cable companies owned in the United States or Europe, the situation assumes a different aspect. Why should this great sum of money go as tribute to outsiders? OUGHT IT NOT TO REMAIN IN CANADA FOR REDISTRIBUTION in the country where it is expended and where it may be TURNED TO FURTHER PROFIT? It is surprising that this tremendous branch of industry is not served by a company owned and operated in Canada.

The Marconi Wireless Telegraph Co. of Canada, Ltd.

will supply this deficiency by the middle of the coming summer. It will TRANSMIT MESSAGES ACROSS THE ATLANTIC and it will do more, for it will also TRANSMIT MESSAGES TO ANY AND ALL SHIPS CROSSING THAT GREAT OCEAN. Signor Marconi is now busily engaged in installing the apparatus at the Glace Bay station which will forever replace any needed cable service.

The great growth in every other line is being paralleled by the rapid development of the Marconi system. The increase in shipping is greatly benefitted by the added safety, due to the Marconi stations installed along the Atlantic waterways, which have made shipping in those waters free of former terrors.

The Marconi system CAN HANDLE MESSAGES MORE CHEAPLY THAN THE CABLE. Under present conditions, the cost of a cablegram is further increased by the cost of telegraphing it from a Canadian point to the nearest cable station in the United States. The Canadian Marconi station will practically monopolize the industry of transatlantic messages. It will do so because, when a given company can equal its competitors in the quality of service and can underbid them in the charge therefor, it inevitably gets all the business that is offered.

This is but one of MANY SOURCES OF INCOME for the Canadian Marconi Company. The transatlantic system is but one of the many remunerative Canadian opportunities under the Marconi erected patents. The shrewdest business men in Canada have recognized what this means, and have placed themselves in a position to SHARE THE PROFITS which this great enterprise is going to enjoy. They have become stockholders of The Marconi Wireless Telegraph Company of Canada, and we have yet to find any one of them who has kept track of the rapid development of the company and who is dissatisfied with its future outlook. The stock is now selling at $5 PER SHARE, and subscriptions will be accepted in any quantity from one share to two hundred shares. The time to invest in this great enterprise is, NOT WHEN IT HAS BEEN FULLY DEVELOPED and has reached a stationary stage. By that time the price of its stock will have so advanced that you can buy but one share for the same money with which you may now purchase hundreds of shares. On the same basis, the dividends will net you only about five per cent. on your investment instead of the FIFTY PER CENT. OR MORE PER YEAR which should be the return if you buy the stock at present prices. We therefore reiterate that sound and conservative judgment should urge you to make a purchase before the price of the stock has advanced, and when there is still an allotment which may be obtained at $5 per share. That means that YOU SHOULD IMMEDIATELY INVEST whatever funds you have in what promises to be a rival of the great Bell Telephone which has long since

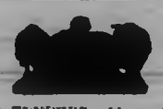
ADVERTISING IN THE TIMES PAYS



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Additions and alterations, Drill hall, Toronto, Ont.," will be received at this office until Friday, April 28, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

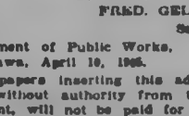
An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender,

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 10, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.



TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 20, 1905.

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 600 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

Consumption Can Be Cured

A Powerful and Effective Destroyer o Disease Germs Discovered Which Cures Consumption.

The ravages of consumption which for years have terrorized the modern world will no longer continue to cut off our population by thousands. Science has at last produced a remedy which not only can be readily applied to the lungs, but also kills every trace of bacilli in the throat, bronchial tubes, and air passages of all the breathing organs.

The name of this marvellous antiseptic about which the doctors are talking so much is Catarrhozone, the greatest lung cure. The vapor it distils is soothing than the air of pine woods, and its healing properties are without limit.

Through a skilfully devised inhaler the sufferer is enabled to breathe this fragrant medicated vapor into the most minute air cells of the lungs. It is so destructive to microbic life that the tubercular germs are rapidly killed and prevented from ever returning. Congestion and inflammation are relieved, coughing stops, all disagreeable symptoms are quickly cured by Catarrhozone.

So simple is Catarrhozone that anyone can use it. So certain to cure lung and throat troubles that it is prescribed by not less than twenty thousand doctors in United States and Canada. One well known authority who has made a life long study of consumption, has the following to say; "Catarrhozone is certainly a true specific for white plague. I find that its healing vapor readily spreads all through all the breathing organs passing over probably not less than one thousand square feet of mucous surface at a single inhalation. It is a perfect germicide and destroys tubercular germs with wonderful certainty. Catarrhozone is entitled to rank among the great medical discoveries of the age."

No matter how often you have been disappointed with other remedies you must not be discouraged. In Catarrhozone you will find new hope. What it has done before it can do again. Your case is not worse than others it has cured. Therefore if properly used you can also be cured by Catarrhozone. Two months' treatment $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont. Refuse any substitute for Catarrhozone—only the genuine can cure.

ADVERTISE IN THE TIMES

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. William Anderson, M.P.P., was in town yesterday.

—Mr. Wm. Andrews of Havelock, was in town yesterday.

—Rev. W. Barrett, of Warkworth, was in town yesterday.

—Mr. R. J. Munro, of the Munro House, is in Toronto on business.

—Mr. J. H. Brandon, Fenelon Falls, was in town yesterday on business.

—Mrs. W. E. Matthews, Ottawa, is the guest of Mr. and Mrs. T. F. Matthews, Water street.

—Mr. W. J. McBurney, of Havelock, is visiting his friend, Mr. Bert Howson for a few days.

—Mrs. (Dr.) Young, and Master Herbert Young have returned after a week's visit in Toronto.

—Mr. J. H. Burnham is in Toronto attending the meetings of the Ontario Library Association.

—Miss Nellie Murphy, of Lindsay, is the guest of her sister, Mrs. T. J. Begley, Victoria avenue.

—Mr. A. H. Stratton returned Tuesday night from New York, where he spent the last few days on business.

—Rev. W. MacD. Mackay, the new assistant pastor of St. Paul's church, has taken up his residence at 231 Dublin street.

—The Port Hope Guide says; Mrs. Robinson and Mrs. Richard Nimo, of Peterborough, are visiting Mrs. J. A. Barker, Ontario street.

—Mrs. Sager and Master Gau have returned from a few days' visit to her son, who is at the Institute for the Blind at Brantford.

—Rev. Dr. Perry, who lectures this evening in Murray street Baptist church, will be the guest of Mr. and Mrs. T. F. Matthews while in town.

—Miss L. Harkins, Miss Felion and Miss Alice Tivey went to Toronto yesterday morning to attend the production of Parsifal in the Princess Theatre.

—Mr. Joe Glass has returned to Peterborough, after serving in the army three years in the Philipine Islands, and three years in different parts of the United States.

—Mrs. Dark and Miss Fanning, of Lindsay, Mrs. Runnals, of Port Hope, and Miss Thompson, of Newcastle, were at Mrs. J. Fanning's, London street, for a few days.

—Mr. George Early, photographer, of Cannington, formerly of Peterborough, was in town yesterday, after a nine years' absence. He was surprised to find such remarkable progress since he left.

—Mr. and Mrs. C. B. McAllister attended the Royal Canadian Yacht Club ball held Tuesday night at the King Edward Hotel, Toronto. The affair is described as having been an unusually brilliant function.

—Miss Paisley and Miss Grierson, of Cressman's millinery department, spent yesterday visiting the wholesale markets and attending the summer openings, collecting materials and ideas for their department.

—The Lindsay Post says; Mr. Connell is transacting business in Peterborough to-day. Miss Annie Rickaby spent Good Friday with Peterborough friends. Mr. Stephenson, of Horn Bros., Woollen Mills, spent Good Friday with Peterborough friends. Miss Gertie Davey, of the Fitzwilliam Milling Company, spent Good Friday and Easter Sunday under the parental roof, Peterborough. Mr. James Galvin, of Peterborough, was in town yesterday for a few hours.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—In all probability there will be a meeting of the Town Council to-morrow evening.

—The Peterborough Baseball Club held its annual concert in the opera house yesterday evening.

—The Y.M.C.A. field hockey team practiced at the exhibition grounds at 6.30 o'clock yesterday evening.

—Mr. R. Dobie, mechanical superintendent of the Canadian General Electric Company's Works has purchased an automobile.

—The Mission Band of St. Luke's church is making preparations for an entertainment to be held in Ashburnham town hall on May 19th.

—The hyacinths are now out in full bloom and yesterday many children went weary miles to gather in their spring harvest of those delicate little blossoms.

—Rev. W. J. Jolliffe will be the special speaker at the last popular men's meeting for the season at the Y.M.C.A. on Sunday. The music will be of an exceptional character.

—Riverside Park, in the Fifth Ward, will be cleaned up and used as a baseball ground. Tenders will be received up to Saturday, April 29th, for levelling, grading and seeding the grounds.

—Instead of the usual prayer service in George street Methodist church yesterday evening a temperance meeting was held. Addresses were delivered by Col. Miller and Mr. Percy Might.

—Mr. R. M. Roy has completed a handsome and artistic group photograph of the Council of 1904, which will be hung in the Town Council Chamber. The picture is a decidedly attractive and admirably arranged one.

—The Snow Shoe Club ball, which takes place this evening, will be held in the National Hotel instead of the Foresters' Hall, Simcoe St. This has been rendered necessary to accommodate the large number who will attend.

—A grand closing banquet for all the senior men of the physical department will be held in the Y.M.C.A. to-morrow night. There will be a good musical program and toasts will be responded to by several of the best speakers in town.

—Nathan Stabler & Sons have contracted to purchase the whey of the Buckhorn Cheese Factory for the next three years. They intend going into an extensive hog raising enterprise and are prepared to purchase animals weighing from 80 to 130 lbs.

—While raising a barn in Dummer township last week Mr. H. F. Peterson was raising a large beetle for driving in the pins which hold the frame together, when the head flew off the mallet and struck a young man named Hattierly, who was standing down below, in the face, inflicting some deep gashes which will disfigure his countenance for some time.

—A few days ago Miss Bella Tedford, of Burleigh, met with a severe accident. Whilst driving a spirited horse from Oregon, it became frightened and ran away, upsetting the buggy and throwing Miss Tedford out. The young lady was rendered unconscious for over half an hour by the fall, and was also severely bruised and shaken up. The rig was also damaged considerably.

A GOOD TOWN vs. A POOR CITY

(To the Editor of The Times.)

Dear Sir,—There has been quite an interest raised over the celebration that will, supposedly, commemorate the emergence of Peterborough from the chrysalis state of town to where it will assume the full fledged wings and, incidentally, municipal expense of becoming a city. Now sir, a day we all, as loyal descendants or advocates for the connection with our glorious Mother Country, celebrate is the birthday of our late lamented and revered Queen Victoria. Prior to the birth of our recent queen, we did not celebrate the 24th of May as a public holiday. Is it not time enough to celebrate the birth of the City of Peterborough when the accouchement has been accomplished? Who is it that has or should have the say in one of the most, if not the most important historical facts in the annals of this good town of ours? Are not the people, the good common people that grind and slave to support the maintenance of Peterborough, to be consulted in this essential detail? Are we, as a population approximating some 14,800, to be simply ignored in that which will effect our future and that of our progeny? Is this most important step to be taken by a few. I will not say, of irresponsible, but of merely temporarily responsible people, without the bone and sinews of the town guiding the step?

In case of a grant of a comparitively trifling sum of money to any object, the people must be consulted. In FACT, NO VITAL MATTER, affecting not only our nomenclature, but our future finance and prospects and expenditures, will any body of men, no matter how honest their intentions be, ignore blandly the rights of citizens to say whether, like Belleville, Kingston and other half-class cities, we shall exchange a good town for a poor little two-penny-half-penny city I state sir, and do it most emphatically, that should the common people of Peterborough, be asked by a popular vote, which would not cost a fraction of our additional expense for managing a city, the answer will be in the negative by a sweeping majority. It is not too late to trythe test. The Ontario Government must now smile in their sleeves, at our change of date from 1st of July to September. Let them have the cheap pleasure of one more smile, and ask them to wait until the people meet and express their opinion. If those who are taking this matter into their own control will not let the people be heard, let us send up a rousing deputation to Toronto and show that, so far from there being unanimity in this matter, the proposal is shaved on a people, good natured, but too much inclined to "laissez-aller" when they are not as individuals directly touched in pocket. I venture to say, sir, that of every 100 men asked on the street his opinion on this subject 75 will oppose this city will of the wish. Those who might reap a temporary glory in chasing the movers towards making this good town a demi-city, will, ten years from now, harvest a greater glory from either acting in conjunction with the expressed will of the people, or withdrawing the application to the Legislature. I hope that some of our citizens will take this matter up in the local press as did "A Native Born," in last night's Examiner. I am sir,

Yours Truly,
PETERBOROUGH.

STILL MORE

Peterborough Builders Busy--Dr. Scott Erecting a Handsome Residence.

Among the many new buildings in process of erection, or contemplated, described lately in this journal, we might include the handsome brick house that Dr. Scott is erecting, Cor. of Hunter and Stewart streets. H. Sherwood will do the stone work, while the remainder of the contract has been awarded to Mr. Thomas Wilson. The residence will be of solid brick and an ornament to that part of the town.

A unique feature of this fine house is the way in which the plans, drawn by Architect W. Blackwell, provide for absolute secrecy and isolation for the patients whilst in consultation, operation or treatment. His dispensary is between the waiting and consultation rooms, and a speedy way of entrance or exit is provided for.

Mr. Blackwell has prepared plans for a solid brick dwelling which Mr. J. J. McBain will erect on the east side of Water street, near London, and also for another solid brick house on what was formerly the Ullyott property on Stewart Street, which will be built for Mrs. (Rev.) Campbell.

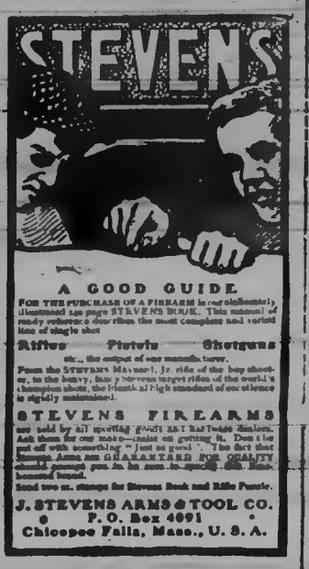
Shade Trees.

I am prepared to take orders for the planting of shade trees of every description. My trees are of the best and are sure livers. For terms, etc., apply to Thomas Trennum, Hall's Bridge. ld-1w

The crown of womanhood is motherhood. But uneasy lies the head that wears the crown or anticipates this coronation, when there is a lack of womanly strength to bear the burdens of maternal dignity and duty. The reason why so many women sink under the strain of motherhood is because they are unprepared.

"I unhesitatingly advise expectant mothers to use Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, of Mila, Northumberland Co., Va. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of "Favorite Prescription." For one thing its use makes the baby's advent practically painless. It has in many cases reduced days of suffering to a few brief hours. It has changed the period of anxiety and struggle into a time of ease and comfort.

The proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All the World's Dispensary Medical Association, Proprietors, of Buffalo, N. Y., ask is a fair and reasonable trial of their means of cure.



FOR THE PURCHASE OF A FIREARM in our elaborately illustrated 140 page STEVENS BOOK. This manual of handy reference describes all the most complete and varied line of single shot

etc., the output of our manufactory.

From the STEVENS Muzzle Loader, Jr. rifle of the boy shooting, to the heavy, long range sporting rifles of the world's champion shots, the friendly high standard of excellence is rigidly maintained.

STEVENS FIREARMS are sold by all sporting goods and hardware dealers. Ask them for our make—insist on getting it. Don't be put off with something "just as good." The fact that Stevens Arms are CHALLENGED FOR QUALITY should prompt you to ask them to show you. Write immediately.

HOW TO AVOID GERM DISEASES

Strengthen the Stomach and Digestion, and You Will Keep Well

When there is an epidemic of germ disease, and most diseases are caused by germs, it is the person with a weak stomach who succumbs first.

People with healthy digestion are ordinarily not subject to sickness, and can throw off readily any disease germs that enter the system.

Strengthen the stomach and digestive organs with a Mi-o-na tablet before each meal, and every atom of food taken into the stomach will be digested and assimilated, and the whole digestive system made so healthy, clean and sweet that there will be no chance for disease germs to breed.

If you suffer with pains or distress after eating, headache, belching of gases, sour food, a bad taste in the mouth, dizziness, pains in the heart, specks before the eyes, and a general feeling of despondency and weakness, you should get well at once by strengthening the stomach with Mi-o-na. Just one small tablet out of a fifty cent box before eating, and your digestive system will become so strong that you will be the embodiment of good health and spirits, and need fear no germ diseases.

Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na; it costs nothing unless it cures.

TORPEDO ONSLAUGHT IS EXPECTED HOURLY

Civilized World are Awaiting News of Bold Attack by Togo's Wasps

MEN IN DESPERATE MOOD

Expert Says Craft Are Regarded Only as Human Projectiles, to Be Destroyed

London, April 28.—Naval officers are expecting to receive at any hour news of Japanese naval attacks on the Russian fleet in the China Sea. And they believe that when the news does come it will tell of the most desperate and heroic torpedo boat fighting the world ever saw.

"The Japanese regard a torpedo boat as simply a human projectile. In the Japanese naval tactics a torpedo boat is merely a weapon of destruction that in destroying the enemy is to destroy itself. It is expected to be destroyed exactly as a shell is destroyed when it hits its target and is splintered to pieces. The fact that the torpedo boat projectile contains human beings, stationed there to manoeuvre it and make it effective, does not count for anything in Japanese reckoning. It is to be fired at the enemy just the same. If by a rare stroke of good fortune the projectile is not destroyed and the men are able to get out alive so much the better. But nothing of the sort is counted on. The loss of the projectile and its crew is a matter of course; in Japanese philosophy it is one of the things that has to happen."

This was the statement made today by a naval officer of high rank who has had an abundant opportunity to study naval tactics. He was discussing the torpedo boat attacks which Admiral Togo is expected to make upon Rojestvensky's fleet with in a few days or hours, and which already may have begun.

"Not only are the Japanese the greatest torpedo experts in the world beyond doubt," added this officer, "but they are actuated by the most desperate patriotism. They realize that their country faces a great crisis. Nippon is to make or break during the next few weeks. Every man and officer is stirred by the impulse to do his part in saving the nation. According to Japanese philosophy there can be no happier fate than to fall on the national fighting line. For this reason, if for no other, we naval men who know the Japanese characteristics and skill are looking for the fiercest, most desperate, most deadly and destructive work ever heard of in the history of naval warfare.

"The Japanese are now generally regarded as the best torpedo fighters in the world. They are superior to the British, who have given a great deal of attention to torpedo tactics, and far superior to the Americans, who have somewhat neglected the torpedo as an effective weapon. The Japanese have developed the morale of torpedoing to its highest possible limit; that is to say, they regard the torpedo craft precisely as we regard a shell. Boat, crew and torpedoes are simply parts of the mechanism of destruction. The human element is of no greater consequence in their eyes than the purely material elements. When a torpedo boat is ordered into action against an enemy it is with the supposition that neither the boat nor the men ever will return. I do not mean by this to imply that the Japanese are utterly without regard for human life or that they recklessly squander it. Normally the Japanese look upon life as about as sweet a possession as we of the western world do, but in war they are taught to forget that and to take long odds. In their estimation the playing of long odds pays. It pays to take the chance of losing a torpedo boat and sending one of the enemy's battle ships to the bottom. If the torpedo craft is lucky enough to torpedo the enemy and come back, so much the better, but no one expects it any more than a gunner when he puts a shell in his gun expects ever to see the shell again. As I say, the torpedo boat, like the torpedo itself, is looked upon as a projectile.

"The Japanese early recognized the importance of the torpedo boat," continued the officer. "They have spent years in making themselves its master. Their manoeuvers in practice have approached actual conditions of war as nearly as it was possible to make them. In practice they have spared neither men nor boats. They have lost both, how many I would not like to say; but they have proceeded with their work of developing that sort of fighting tactics upon the theory that if you are going to have an omelet you must not be chary about breaking an egg or two. Men who would be expert with their ships must take risks, and the Japanese do not hesitate to run the hazards.

"Torpedo work seems particularly to appeal to the Japanese. In both of their modern wars they have made excellent use of these craft. At the outbreak of the war with China they attempted to do in Wei-Hai-Wei exactly what ten years later they succeeded in doing at Port Arthur. They sent a flotilla of torpedo boats into the harbor to destroy the Chinese fleet, and would have succeeded had not the captain of an English man-of-war in the harbor warned the Chinese of their peril by firing a salute and turning on his flashlights, fearing as he afterward explained, that in the darkness his own ship might be attacked by mistake.

"At the battle of the Yalu, the first naval battle under modern conditions, the Japanese torpedo gave a good account of themselves and at Wei-Hai-Wei the following year the torpedo boats dashed in repeatedly and disabled several Chinese ships of war. This was in January, with the thermometer far below zero. The little boats were ice-coated, and the officers and men suffered severely from the cold and the difficulty of handling their craft under such conditions with the ice [illegible] breaking over them every minute. Some of the men were frozen to death. But nothing stopped the valiant Japanese. They did their work, no matter at what cost.

"Peculiar qualities are required if the most is to be made of the torpedo arm of the service. These qualities the Japanese possess to a marked degree. Men in such work must be cautious as well as reckless, brave to desperation when the decisive moment comes, yet not foolhardy. The Japanese torpedo boat commander knows that he runs, coolly calculates the chances, avails himself of everything in his favor, and then, when the supreme moment is at hand, he launches his bolt without thought of the future. His only thought is of destroying the foe.

"The training of the Japanese cadets undoubtedly has something to do with it. When a cadet is sitting at dinner in the messroom at the naval academy he is likely to have his nerves shaken by a gun being fired without warning immediately behind him. I am unable to vouch for this story, but I have been told on pretty good authority that the Japanese occasionally and deliberately fire six-pounders through the windows of the naval messroom, taking care, of course, not to hit anyone, simply for the purpose of testing the nerves of their future commanders and torpedoists. The youngster who drops his knife and jumps from the table in alarm has to do a good deal to rehabilitate himself in the eyes of his superiors, while the man who goes placidly on with his dinner, as if nothing had happened, is noted as one of whom big things are expected later on and who may be assigned to the favorite and most dangerous branch of the service, the torpedo branch.

"These are some of the reasons why naval officers are looking for greater news from the Far East. I must confess we shall all be disappointed if Togo's mosquito flotilla does not work havoc among the big ships flying the Russian flag in the China Sea. Boats and men may be sacrificed in the effort, but that is what they are for. And the war may be pretty well over before we learn how many torpedo craft and crews the Japanese have lost in this work. Then the names of the lost men will be placed on the scroll of honor by the patriotic Japanese. But nothing can restore to Russia the battle ships and cruisers to which they may have dealt the death blow."

MAN HANGED BUT STILL LIVES

Said to Have Escaped Gallows and Became a Rich Mine Owner

WERE OFFICIALS BRIBED?

Hangman's Noose Said to Have Been Attached to Steel Brace

Parkersburg, April 28.—For nearly half a century the people of South-West Virginia believed that Baxter Pate, alias McDaniel Rhea, paid the penalty for the murder of John Littrell, one of his most intimate young men friends, and Pate was hanged on a gallows erected in a hollow of the mountain south-west of Gate City, in Scott County, Va.

The murder was committed in a room of the Central Hotel here 47 years ago. Pate and Littrell played cards, and Littrell won all of Pate's money, amounting to $750. Pate implored Littrell to return part of the money, alleging that he had secured it unfairly. Littrell refused, and in the fight which followed Littrell was killed.

Pate escaped to North Carolina, his former home, but after a few months he was secured and brought back, and was tried, convicted and executed under the name of McDaniel Rhea. Soon after the execution it was learned that his real name was Baxter Pate.

Pate's body, immediately after the execution, was turned over to his two brothers, who departed with it for their home in North Carolina.

Now comes a strange and very remarkable story in connection with the affair, related by Elya Lawton, who was born 35 years ago near Gate City, but who moved to Colorado about 20 years ago. He claims that Baxter Pate still lives, and is a rich mine owner in Colorado. He says that he has been in the employ of Pate for the last 10 years. He says, too, that before going to Colorado he had often heard of the Littrell murder, but that he had always understood that the murderer of Littrell was McDaniel Rhea.

Lawson arrived in Scott County, his former home, recently, and was discussing the Littrell tragedy with some friends when some of them spoke of the murderer as Baxter Pate, a name answered to by his western employer. Lawton then, he says, recalled the fact that Pate had once confided in him that when a young man he had killed one of his friends over a card game. He also remembered that Pate had told him all the particulars regarding the murder, except the place where it was committed and also how cleverly he had managed to evade justice.

Pate, according to Lawton, said that his brothers had manufactured for him a small steel frame, which was secretly conveyed to his cell a few days before he was executed. It was worn under his clothing the day he was supposed to have been executed, and contained hooks which fitted into his clothing at the collar, and was attached to bands around his body. The hooks, he said, caught the ropes just in time to prevent his neck from being broken.

Simulating death, he was immediately placed in a coffin by his brothers, who started with him to their home in another state. When going through the breaks in the mountain, about 20 miles from the scene of the execution, he was released from his coffin and made his escape into the mountain wilderness.

As if in substantiation of the story told by Lawton is the fact that the jailer who executed Pate, in a dying statement, said that Pate still lived, and, further, the doctor who pronounced Pate dead soon after the execution disappeared. If true, this would indicate that they both were bribed by Pate's rich brothers and were connected with the sham execution.

Police Court

OFFICIALS

Chief of Police, G.I. Rozel
Magistrate, D.W. Dumble

Yesterday morning, his Worship, D. W. Dumble, occupied the seat of Justice for the first time in several days, as he has been out of town.

[illegible] before him was that of a local hotel keeper, who was charged by Inspector Cochrane with selling liquor during prohibited hours, Saturday night.

The hotel keeper was defended by Mr. Haverson, K.C., who is employed as counsel by the Ontario Licensed Victuallers' Association, at a salary of $3,000 a year to defend members of the association when in trouble.

Inspector Cochrane, the complainant, swore that he entered the defendant's hotel about 10 p.m. Saturday night; saw a light under the bar door, which opens on to the hall. He next described the topography of the premises. He said he heard a noise, as of persons moving in the bar. Knocked on the hall door entering the bar, with his stick two or three times. Went into the dining room. Tried all doors opening off the room, and found the door between the dining and bar rooms locked. Saw three men, one whom he identified (and who followed as witness for the prosecution), and one he did not know, [illegible] third man being the hotelkeeper. He called the hotelkeeper to him, and caused him to admit him. the Inspector, into the bar, where he found no one, but saw about a dozen glasses, evidently recently used, standing in the bar.

Cross-examined said he had known the house for 25 years, and that the ground plan of the hotel had not changed.

The proceedings were here arrested for some time to prepare a rough sketch of the building.

Mr. Cochran then said that the only persons he saw in the house were the hotelman, the prosecution's witness, and the mysterious unknown.

The prosecution's witness swore that he had come into the hotel with a relative of the proprietor, preparatory to going for a walk with him. That he waited for about three minutes in the dining room whilst his friend got his overcoat. That the inspector entered the dining room, when he went to the kitchen to avoid being seen in the hotel. That he neither was in the bar, nor did he drink anything nor see anyone else drink. That he had seen only the Inspector, hotelman and the stranger, whom he neither knew or spoke to.

Mr. Haverson gave Inspector Cochrane some friendly and well timed advice as to his duties, which the inspector apparently resented, although his Worship quite disagreed with Mr. Haverson's contention, said the advice was good and advised the Inspector to comply with Mr. Haverson's suggestions. His Worship contended that the onus of proof in connection with the mysterious unknown should rest with the hotelman. He reserved judgment for one week.

CARNEGIE GIVES TEN MILLIONS.

Puts Aside Vast Fund to Provide Annuities to Worn Out Professors in Canada and the United States—A Montreal Man One of the Trustees —State Universities Excluded.

New York, April 28.—A gift of $10,000,000 by Andrew Carnegie, to provide annuities for college professors who are not able to continue in active service, was announced to-day by Frank A. Vanderlip, Vice-President of the National City Bank of New York. Professors in the United States, Canada and Newfoundland will share in the distribution of the income of the fund.

United States Steel Corporation five per cent. mortgage bonds for $10,000,000 have been transferred to a board of trustees, and steps will be taken at once to organize a corporation to receive the donation. Dr. Pritchett President of the Massachusetts Institute of Technology, and Mr. Vanderlip, have been selected by Mr. Carnegie to obtain data on the subject, to be presented at the first meeting of the trustees which will take place on November 15.

THE LORD MAYOR'S LAMENT.

Called to Say God-Speed to Salvation Army Emigrants, Liverpool's Chief Magistrate Regrets the Loss by Britain of the Flower of Her People, England Can Ill Spare Them.

London, April 28.—The Lord Mayor of Liverpool, addressing the 1,045 Salvation Army emigrants on board the Venezuela, said he noticed that there were six hundred wage-earners among the emigrants. He spoke only for himself and quite realized the importance of what he was saying when he said that he personally "regretted the leaving of our shores by so many wage-earners and so many of the class who were to make up a nation." He could not help feeling that England was distinctly poorer by reason of that venture. They were taking away a number of those upon whom the country depended, and by whose industry the country alone could keep its position in the world.

'Never mind, Canada. Canada could take care of itself." He was concerned with what effected England and could not help feeling that it was sad that so many of the respectable artisan class and so many who ought to be a source of strength to England by reason of their industry and their families were going away. They could have found a thousand people they could have spared, but they could not spare such as those wage-earners who were now going out.

TO SUCCEED LESSAR

New Russian Minister to China Appointed

Pekin, April 28.—M. Pokotiloff, one of the directors of the Russo-Chinese Bank, has been appointed Russian Minister to China, to succeed M. Paul Lessar, who died recently. M. Pokotiloff has had many years' experience in Chinese affairs, and is considered very suitable for the position. His selection, however, created some surprise, as he has hitherto held no diplomatic appointment.

WILL MAKE ANNUAL TRIPS

Steamer Arctic to Return in Fall From Hudson's Bay

Ottawa, April 27.—The Minister of Marine and Fisheries has decided to have the steamer Arctic make an annual trip to Hudson Bay, instead of remaining in the north for a period of years and cruising from point to point. By this means it is believed a better idea can be got of the navigable conditions and characteristics of Hudson Strait and Hudson Bay. The Arctic will, therefore, come out in the Fall and undergo repairs and then start for northern waters early next summer.

U. S. STEEL AND CANADA

Will be Some Time Yet Before Big Trust Will Build Here

Montreal, April 27.—A well informed steel man told The Star today that, while there was little doubt but that the U. S. Steel Co. would ultimately erect a plant in Ontario, it was extremely unlikely that anything would be done in the matter this year.

"As a matter of fact," he said, "I don't think that the Steel Trust is in a position to spend $10,000,000 or $12,000,000 just now on a Canadian plant. A good many of their own mills in the States are not in operation, and need extensive repairs and the expenditure of large sums of money."

It would probably take about two years to build a plant on this side and put it in running order, so on the whole, the Canadian steel mills will be at least three years without competition from this source.

Odessa, April 28.—White terror is stalking abroad and every Jew able to leave prepares to fly, or tries at least, to put his loved ones beyond the reach of murder, for a great universal Jew slaughter is billed to take place during the great Russian Easter festival unless the nations of the world can prevail upon the Czar and his advisers to prevent a repetition of the Kishineff and Baku horrors on a giant scale heretofore thought impossible.

IMPORTANT SUIT WITHDRAWN

DeForest Wireless Telegraph Company Take Back Water

In August, 1902, the DeForest Wireless Telegraph Company entered suit for $1,000,000 damages against the Marconi Wireless Telegraph Company of America.

The allegations upon which this suit was based, were that the DeForest Wireless Telegraph Company had suffered damages to the extent named by reason of an alleged libel claimed to have been promulgated by the Marconi Company, to the effect that it had sued the DeForest Company for infringement of Marconi's patents. It was set down for trial in the U. S. Circuit Court for the Southern District of New York on April 24th, before Judge Ray. Upon the call of the calendar in that court, the case having been reached, the Attorney for the DeForest Company, Francis X. Butler, requested a discontinuance of the same at the cost of the DeForest Company.

FIXED SUBSIDY A MISTAKE

Quebec Premier Demands Better Terms for the Provinces

Quebec, April 27.—Premier Gouin, who was banqueted here on the event of the reopening of the Quebec Legislature, in the course of a speech again made a demand for better terms for the Provinces. Premier Gouin said that the Fathers of Confederation committed an error when they divided up the Provincial revenues. In according all the Customs and excise revenues to the Federal Government, the authors of the British North America Act assured to the central power sufficient revenue to meet all the exigencies of the future, but in only according to the provinces as a compensation for the loss of their revenue a fixed subsidy, they forgot that the population would increase; that the expenses of the local administration would also swell with the increase in population, and that the wants of the Provinces would be more pressing as their commerce, agriculture, and industry developed.

Premier Gouin contended that the solution of this question of the readjustment of the Federal subsidies was necessary, and that there were necessities even stronger than the strongest Government, one of these being the increase in the subsidy which the Ottawa Government pays to the Provinces.

SANTAL-MIDY

Positively Cures any recent case in 48 hours without inconvenience, effective in whatever condition. Can be had of all Druggists, or mail

VICE-ADMIRAL NEBOGATOFF IS NOT PAST SINGAPORE

Should Reach There To-morrow and Could Not Unite His Division with Rojestvensky's in Tonquin Bay Until May 5th.

St. Petersburg, April 28.—According to the calculations of the naval staff, Vice-Admiral Nebogatoff, who left Jibutil, March 25, if he has been making 200 knots per day, should reach Singapore to-morrow, and could not unite his division with Vice-Admiral Rojestvensky's in Tonquin Bay until May 5.

The general opinion is that their juncture is assured on the theory that Admiral Togo would not dare to risk sailing south to meet Nebogatoff, as by so doing he would leave the way to Vladivostock open to Rojestvensky.

OYAMA'S CHRISTIAN WIFE

Came to see Centennial and Became a Christian

Norristown, Pa., April 27.—When the wife of Field Marshal Oyama, Japan's conquering hero, was a girl she embraced the Christian religion under the teaching of the Reverend Octavius Perenchief, the rector of Old Swedes church, across the river from this borough, and was baptized according to the rites of the Episcopal Church.

This was in 1876, when she, then Onamia Vonchita, came to this country with another damsel of the Flowery Kingdom, escorted by the Japanese Minister. Their mission was to visit the Centennial Exposition, and they accepted the Reverend Mr. Perenchief's invitation to make the factory their stopping place.

Naturally the Orientals attended the church of which their host was rector, and the young woman who was destined to become the wife of one of the greatest of war heroes in history embraced the faith and was baptized in the little old church. The church records have just been examined to verify these facts.

April Weddings

Nuptials of Miss Jean H. Gross and Mr. Geo. Matthews.

The Mail and Empire says; At St. Andrew's church, Lindsay, Tuesday afternoon, April 25th, the wedding was solemnized of Miss Jean Rebecca Gross and Mr. Albert J. Matthews, son of Mr. Geo. Matthews, of Lindsay. The ceremony was performed by the Rev. James Wallace, assisted by the Rev. G. R. Welch. The bride, who was given away by her father, wore a dress of Limerick lace over chiffon and silk tulle veil, with wreath of orange blossoms. She carried a large shower bouquet of lilies of the valley, and wore a pearl ornament, the gift of the bridegroom. Miss Ella Gross, sister of the bride, was maid of honor, and wore a cream lace gown over blue silk, with Charlotte Corday hat of pale blue straw and tulle, with crown of crush pink rose, and carried pink roses. The bridesmaids, Miss Isabel Matthews, sister of the bridegroom, and Miss Mabel Mellowell, of Toronto, wore gowns of pale blue eolienne, handsomely trimmed with rose point lace, and opalescent girdles, with hats in blue and pink. They carried pink roses. Mr. Jack Rankin, of Mattawa, was best man. Mr. W. S. Wood, of Ottawa, Mr. Geo. Boult, Mr. Fred Begg and Mr. Lonsmore, of Lindsay, were ushers. A reception was held after the wedding at the residence of the bride's mother, Ridout street. Mrs. Gross, mother of the bride, wore black brocaded silk, with violet bonnet, and carried violets. Mrs. Matthews, mother of the bridegroom, was gowned in black eolienne, handsomely trimmed with Irish point lace. Mrs. W. J. Matthews, Ottawa, a Paris lace gown of cream, with tulle toque. Miss Manning, of Bowmanville, was handsomely dressed in cream. Mrs. Charles Matthews, Toronto, pink silk, with overdress of cream chiffon and lace, with large cream lace hat. Mrs. F. Matthews, of Peterborough, white silk, with hat of pink roses. Mrs. G. S. Matthews, Brantford, black lace gown over white chiffon, and silk toque of black lace and violet. The gentlemen guests from a distance were Mr. Ogilvie, of Ottawa, and Mr. J. A. McFadyen, of Toronto.

Mr. and Mrs. Matthews left by the 4.20 train for Washington, Atlantic City, etc., the bride wearing a green silk skirt waist suit with hat en costume. Mr. and Mrs. Matthews' future home will be in Brantford.

RUMMINGS-SMITH

The residence of Mr. W. H. Smith, Concession street, was the scene of a pleasing event Wednesday night when his daughter, Miss Maggie Sophronia, and Mr. David Rummings were united in marriage by Rev. Mr. Abernethie of Bethany Tabernacle. The bride was assisted by Miss Jennie Robins of Roseneath, and was richly gowned in white silk. Mr. Wm. Pomeroy of Peterborough was best man. An enjoyable wedding dinner was served after the nuptial knot had been tied. The bride was the recipient of many beautiful wedding favors.

Mr. and Mrs. Rummings will reside on Monroe avenue.

DEATH OF CANON HARDING

Passed Away His Home in Apsley Yesterday Morning.

One of the oldest if not the oldest clergymen in the county, passed away yesterday morning. Canon Harding, whose demise occurred at Apsley yesterday morning, was widely known throughout the county, and especially so in the north country, where for many years he was stationed at Apsley, being superannuated two years ago. By the death of this esteemed clergyman, the Church of England loses a faithful and sincere worker, and his demise will be felt keenly.

The deceased gentleman was about 80 years of age. The funeral will take place on Saturday morning at Apsley.

A STRIKING LECTURE

Rev. Dr. Perry Delivers a Lecture with a Paradoxical Title.

A large audience gathered last night in the Murray street Baptist church to hear Rev. Dr. Perry, pastor of the Jarvis street Baptist church, Toronto, give his celebrated lecture on "Business is Not Business; Religion is not Religion."

Dr. Perry has the great advantage of a fine presence. His stalwart body is surmounted by a large, well-formed head, and a massive clean shaven face that, thought not greatly like that of Beecher, yet suggests it. It is a mobile face, and the play of the varied emotions of the soul behind it, is clearly mirrored on it.

The lecture was interesting and impressive. Dr. Perry's discourse was very largely marked—and increasingly so as it went on—by the exposition of scripture texts, the use of Bible illustrations, and the fidelity to theological teaching that is characteristic of the Baptist clergyman.

The paradox of the subject was quite as bold and sweeping as was justified by the arguments by which it was supported.

His lecture did not show that business is religion, so much as that a business man should attend to religious and church duties. It did not teach that religion is business so much as that church services and religious exercises should adopt some of the energetic and aggressive methods of modern business.

Dr. Perry said that it was impossible to separate a man's public from his private life. Business men should be as much the representatives of the Kingdom of Heaven as are clergymen. He said, "A minister who manages the business affairs of a modern church is capable of handling any other modern concern."

The emphasis of this part of the lecture was upon the fact that it was a man's duty not so much to make a living as to make a life. Hence the business men should pay attention to religion.

Turning to the second part of his subject, Dr. Perry said that present day religion should adopt the snap and aggressiveness of modern business. The speaker defined a vocation as a calling or occupation, and an avocation as a pastime. It was said that people who were fond of fancy work, did not fancy work. (Laughter). He said that with butter at 30c. a pound the man who does not look after his vocation would shortly learn what the inside of a jail looked like.

Christians should be less conventional. Christ had told his disciples to "salute no man by the way" —because the Jews had ridiculously overdone the saluting business. Nowadays Christ would say "Salute everybody you meet."

Dr. Perry closed with an earnest appeal for more religion in business, and more business methods in religion.

Those present were greatly interested and at times laughter was provoked by this eloquent and witty speaker. The chair was occupied by the Rev. Mr. Scott, Pastor.

SCHOOL SALARIES

Mr. H. P. Kennedy, Speaking in Toronto, Said School Salaries Are Too Low

As noted in a former issue of this journal, Mr. H. P. Kennedy, of the Board of Education here, is in Toronto attending a meeting of the Ontario Educational Association. When the subject of teachers' salaries was under discussion, Mr. Kennedy addressed the chair, and made a very good address. The Toronto News says:

"Mr. H. P. Kennedy thought a resolution in the Public School department in the proceedings last year should be endorsed by every Trustee Board and Public School Inspector. It was to the effect that the Minister of Education should make it as easy as possible for men and women holding "seconds" to improve their standing and scholarship by permitting candidates for the higher examination, if actually engaged in teaching, to write on two or more subjects in one year. It would be fair that these candidates should take, perhaps a higher percentage in their examination than if writing on the whole in one year. Cramming would thus be eliminated, and all the teachers encouraged to become lifelong students of their profession. At a time when all other professional and business men were receiving greater earnings than ever before, and when laborers, mechanics, servants and every salaried class of the community were profiting by the good times, it should be seen that those who were undertaking the training of the citizens of the future should be likewise made aware of the general prosperity, not only by liberal increases in the amount of their remuneration, but also by more rational methods of payment."

GRAVE FEARS FOR THE KAISER

The Cancerous Taint He has Inherited Aggravated by Other Complications

HAS GROWTH IN THROAT

Most Serious Danger Arises from Ear Trouble—In Constant Dread

Berlin, April 28.—Much anxiety has been felt recently among all classes of people with reference to the actual condition of the Kaiser's health, many sinister rumors having been circulated. A personal friend of the Kaiser, who knows his Majesty's condition thoroughly, gave the following information, coupled with the statement that upon its publication every man in authority, from the Cabinet Ministers and Imperial doctors to the very servants about the court, would be obliged strenuously and categorically to deny. But its absolute truth can be relied upon.

The Kaiser has a cancerous taint in his blood, inherited from his father and mother, both of whom died from cancer.

This has manifested itself in two ways, first, by a growth in his throat; second, by a discharge from its right ear. While the former strikes the world at large as the most alarming, this is only because the world remembers how his father, Emperor Frederick, died, and because the growth necessitated excision by the surgeon's knife; but as a matter of fact, it is the disease of the ear that the Emperor most dreads.

Those who have seen the Emperor will remember the mass of cotton which fills his ear, not only the inner tube, but the greater part of the convolutions of the outer organ. This is made necessary by the constant discharge which springs from the middle ear; the disease being known to the doctors as otitis media. This trouble is a common after-effect of scarlet fever, and children often outgrow it, but when it lasts through life, as it has done in the case of the Kaiser, it is to be dreaded for the many complications, some of which is its almost certain culmination.

The aural experts number among the more serious dangers of this polypus, disease of the matoid, facial paralysis, epilepsy, inflammation of the brain, and hemorrhage of the carotide artery.

All of this has been explained to the Kaiser and he knows that he is likely to be stricken at any moment with madness or a disease that would almost certainly prove fatal, for the suppuration has a tendency to spread to the inner ear and so to the membrane of the brain, in which case insanity and death are certain.

The Emperor lives in constant dread of this fate, and when the discharge is suppressed, as it is sometimes, he goes almost mad with pain and apprehension.

Fire-Hall By-law

The people of this town will some day, we fear, unless more adequate fire protection is provided, awake to find the blocks of property wiped out by fire, and this could not, with the present firefighting appliances, be laid to lack of energy, discipline or intelligence on the part of our volunteer fire brigade.

A citizen suggested to the Times that some provision should be made for the protection of the central districts while the fire brigade are busy with a fire in the outlying portion of the town. He pointed out that if a serious fire broke out in the business portion while the brigade were away, much damage might be done before the fire fighters could return.

The aforementioned citizen stated that there is always plenty of hose hanging in the tower at the hall, and he suggested that this should be coiled on a spare reel for use in an emergency case.

Letter on fire by-law held over.

MOTHERHOOD WEAKNESS

Is Promptly Overcome — Health and Vigor Permanently Restored

FERROZONE

Cures all Ailments From which Women Suffer.

Many women suffer untold torture from nervous debility caused by disorders of the feminine organs. Day by day they grow worse, but from a false sense of modesty they shrink from telling a good friend of their condition. And it would cure them.

Nothing renews weak women like Ferrozone. It brings back lost nerve force, supplies new vital energy, increases the blood supply.

No restorative so potent and prompt as Ferrozone has ever been discovered. You feel its uplifting effect at once. Your spirits rise, you gain in power and cheerfulness, feelings of weakness and despondency disappear.

No woman can remain sick or miserable if she uses Ferrozone. It goes direct to the seat of trouble, puts a stop to functional irregularities, and so establishes buoyant, robust health. Being free from alcohol, and dangerous drugs, Ferrozone can be used by young and old with absolute safety. Prepared in tablet form, fifty to the box; price 50c., or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

English Office—30 Fleet street, London, E.C.

TIMES PRINTING COMPANY, Publishers and Proprietors, Peterborough, Ontario.

PETERBOROUGH, APRIL 28 1905

WIRELESS TELEGRAPH LITIGATION

Appreciating the interest which is felt in the wireless telegraph suit recently decided in the United States Circuit Court for Southern New York, "The Electrical World and Engineer" prints a full abstract of Judge Townsend's recent decision. The original Marconi patent is dated July 13, 1897, but another, describing a slightly amended system, was issued in June, 1901. The second is known as a "reissue," and the suit tested its validity at a few points. Of the fifty-six claims of the patent the violation of six was imputed to the De Forest Company. Regarding four the complaint was not sustained. Claim 1 was overruled because its phraseology was broad enough to include forms of coherer used by Branly and Popoff, and was not limited to the one perfected by Marconi. Claims 3 and 10 also relate to a receiver of the same type—a tube in which solid particles are enclosed in "imperfect electrical contact." The De Forest Company satisfied the court that it employed a different kind of receiver, and it was decided that there was no infringement of the Marconi Company's rights. Claim 24 of the reissue describes a "tuned conductor," but the defendant showed that it did not employ such a thing, and the complainant on that point was also dismissed.

The claims which were upheld are numbered 3 and 5 in the patent, and cover the use of antennae, or upright wires. The language of the two is nearly identical, but one covers a combination that includes a device known as a choking coil. In the patent the word "insulated" appears before the words "elevated conductor"; and counsel for the De Forest Company are said to regard it as a big loophole, representing that it might permit the use of aerial wires that were not insulated. Judge Townsend, however, was satisfied that Marconi was the first person to devise and put in operation a practical system of wireless telegraphy. He held, therefore, that, however the word "insulated" might be interpreted, the infringement rested upon the fact that the Marconi apparatus is a "primary invention," and, "as such, is entitled to "a broader range of equivalents so "as to prevent the appropriation of "its substance by a mere change of "form."

The decision regarding the coherer will probably have little practical effect or cause much surprise. Several other forms of receiver have been invented, and a monopoly of the right to use devices in which there was an imperfect electrical contact would seem to be of little value. Marconi himself has secured much more satisfactory results from his magnetic detector than from the improved form of Branly's instrument. As for the vertical wire, that seems to be an essential feature of all systems. If Marconi and those to whom he has disposed of his rights in the United States are to enjoy the exclusive privilege of using the upright wire, they will have occasion for profound satisfaction. The public will now feel a little curiosity as to the course which the De Forest Company will pursue in reference to Claims 3 and 5 of the Marconi patent. Will it appeal, or will it seek to escape the injunction by substituting an uninsulated conductor for its other upright wire?

KEEPING MEN STRAIGHT

Although the church doesn't seem to be entirely clear about tainted money, it is working for the moral elevation of men. So are the railroads, but with no pretence of trying to save souls. What they are after is clear head and a steady hand are essentials to safety, and to secure these the managements insist that their employes when off duty, shall avoid all places where the conditions are likely to lead to an impairment of the faculties or waste the nervous energies. Under no circumstances is intemperance permitted, while some of the western roads prohibit their men from occupying buildings where intoxicants are sold. Reference is made more particularly to the operating department. Clerks are given a broader latitude but if it is known that their habits while away from their desks are not in conformity with the high standards set for engineers and other trainmen they need have no hope of promotion. The Alton Railroad has gone farther, perhaps, than any other in the country in laying down a code of moral rules for the government of its employes. Under these regulations no one attached to the operating department is permitted to visit a race track, or a dance hall, a saloon, bear garden or concert hall, or any resort where liquor is sold or where there is gambling or where any immoral or questionable practice is permitted. The penalty on detection is instant dismissal from the service of the company.

The railroad managers are doing much good in their way. They ought to have more votes of thanks than they get.

WESTWOOD

—Mr. John Breckenridge was in Peterborough last week.

—The maple syrup is not so plentiful this season on account of the fine nights.

—We are pleased to learn that Mrs. J. Humphries is rapidly recovering from her severe illness.

—The whoops of the football players have been heard again. We wonder if they intended organizing a team for the summer.

—The old saw mill is booming again. The proprietors have a larger number of logs to saw this season than they have had in previous seasons.

—Mr. P. Doris, who received treatment in the hospital for a broken limb, sustained while going to his work one morning last winter, is able to be out again.

—We extend our sincere sympathy to Mr. W. J. Douglas in the death of his son, William, who succumbed to an attack of la grippe and a lingering attack of diabetes.

—The farmers in this vicinity have commenced spring plowing. Judging from present indications, and relying on long standing rules, they are already looking forward to a great harvest.

—The cheese factory will soon be in full swing, and some of the routes have already been let. Mr. Ryan has secured a good staff for the season, and everything looks favorable for a prosperous season.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit as an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $100,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 20 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. TEN FELL DOWN 750 FOOT SHAFT

Miners Meet an Awful but Instant Death at Wilkesbarre--A Rope Broke

Wilkesbarre, Pa., April 28.—While ten miners were being lowered into the Conyngham mine to-day the rope broke, and the carriage fell to the bottom, a distance of 750 feet. All the men were instantly killed.

The bodies of the men are buried under a mass of wreckage in the sump at the bottom of the shaft, and it will be several hours before they can be recovered. Several hundred men were in the mine at the time of the accident, but they escaped from the shaft through other openings. The names of the victims are not known. There was a rush to enter the mine at the time of the accident, and because of the fact the men who were on the ill-fated carriage were not recognized as they entered the shaft.

Superintendent Foote says he is at a loss to account for the accident. An examination of the rope was made to-day before the first cage full of freight was low red into the mine, and it was found to be all right.

CATCHER DIDN'T WORK.

William Cunningham, who is said to be one of the most reliable men in the employ of the company, was the engineer in charge of the hoisting carriage. He says everything went well until the fatal trip. He got the signal to lower and to stop at the Hillman vein, which is 350 feet from the surface. When the Hillman was reached he showed up. Without any warning the rope snapped, and the carriage containing the ten men dropped like a shot to the bottom. The carriage had all the safety appliances and its speed should have been checked before it reached the bottom, but as far as can be learned the "catcher" did not work. Eight of the dead were Poles and two others English-speaking miners.

Performance

Not Promises

There is all the difference in the world between expectation and realization. There is even a greater difference between promise and performance. The latter is proof—the former is opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take some one's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case is a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless

(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since midsummer.

The Canadian Company has already completed a net work of successful stations along the St. Lawrence Gulf and there are on Canadian soil thirteen stations already in operation. The Company has already been authorized to build four more stations of prominent points during the coming summer. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation at that point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises—they are performances. Compare what Marconi has DONE with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they? The same way Marconi's friend, Can you not foresee the great future this Company has before it? Do you not wish to become a shareer in the success which is at its door? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to break 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1892.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

THE

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company, which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Deaville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Brompton ville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Cromble, Esq., Kingsbury, Que., of Williamson & Cromble, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. M. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 16, Victoria Arcade Bldg., Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

FRANCIS L. JUDD & CO., BANKERS AND BROKERS, CLEVELAND, OHIO.

W. SAILSBURY, PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,500,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 3 full fixed mining claims of 6 acres each, two mill sites of 5 acres each, the sunflower placer of 20 acres and the Ora tunnel site 2,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 30 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

The Charter-Raton Mining & Milling Co.

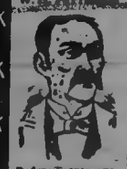
BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and potent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON



HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c. all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, eating in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by hundred they ought to be expert in curing them. I was afraid of advertising cures, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY, CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share--Full Paid--Non-assessable

THE RUSSELL MINING COMPANY Was organized under the laws of [illegible] with a capital stock of $500,000, divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado.

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was taken at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,300 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 480 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 oz. gold and 13.35 oz. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 0.9 oz. gold and 5.95 oz. silver, or a value of twenty-one ($21.00) dollars per ton. The average of eight assays over 25 feet in the west drift gave $65.53 per ton, and from over 40 feet in the east drift, nine assays averaged $163.7 per ton. It is proposed to sink the main shaft to the 500 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 151 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 1. The drift from the Old Town shaft, referred to above, was run nearly 200 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,500 feet. Taking the 500 to 1,500 foot levels with the average width of three feet for the vein, and we have a product of 337,348 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $5,060,220.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 30 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russel Claim would be nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developments in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 2,000 feet by 50 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $100,000 per year for the past three years, and is now working at a depth of 1,150 feet and has just completed the installation of larger machinery preparatory to increasing its output this year. The Topeka, which has produced over $2,000,000, and the Wanloga, which has a production credited to it of over $1,500,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 150 feet of the drift, run at the 200 foot level, from the Old Town shaft, ranged in value from $2.64 to $275.53 per ton, the average being $60.78 per ton. The development of other mines in this district has shown the veins to be strong and persistant to great depths, the California mine near Central City is now producing from a depth of 2,200 feet.

TRANSPORTATION.

The Tram Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 150 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,500 to 2,800 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stopping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date. The predecessors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best-paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Mining Company is therefore offering its stock to investors in order that they may participate in this enterprise which bids fair to become one of the best mining propositions in the West. The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in this proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

THOS. PATTERSON & CO.
Fiscal Agents, Peterboro.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado

OFFERING OF 750,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty-five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1879 to 1393 Twenty Million dollars, six miles from Colorado Northwestern R llway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10 2
4500 feet on Arapahoe dyke 22 feet wide	15 3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20 4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost $15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $8,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000 00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.

No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 50 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates is on ton	8
Number of tons concentrated per day	3

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 8 tons mill ore of value of $12 00 allowing 10 per cent loss in saving	88.00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 1 000 000 shares in treasury reserve fund which draws no dividend $120,000 00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$50 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 the energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Address all communications to THOS. PATTERSON & CO., Fiscal Agents, Peterborough, Ontario.

THE UNITED STATES GOLD CORPORATION
BOULDER, COLORADO

Marconi Wins Patent Decision

The United States Circuit Court in a sweeping decision has declared that Marconi's patent prohibit others from using the vital and essential parts of all wireless telegraph systems, viz. The elevated conductors with ground connections. Marconi says that Wireless Telegraphy is impossible without these essentials Permanent injunction and judgment for an accounting and costs has issued against the defendant company under that decision

Remember the record of the Bell Telephone, how all other telephonic inventions were declared infringements and were compelled to pay tribute to Bell and finally to surrender to Bell and be swallowed up by him.

History Repeats Itself

WHAT WIRELESS IS WHY IT WORKS

(This is the fourth and last chapter covering the very interesting subject of wireless telegraphy.)

Synopsis of Preceding Chapters—The first chapter showed that wireless telegraphy was made possible through Nature's gift of electricity in the air. It was only necessary for the inventive genius of man to control the direction of this force. The instruments which have been invented and perfected by Marconi and which made it possible to control this subtle power so that it does his bidding, are described. This is further explained by taking a specific message and following through the various steps from the sender to the receiver.

CHAPTER IV.

In the preceding chapters, we have learned that wireless telegraphy is exceedingly simple in theory and practice, because it involves nothing but basic principles and natural forces in almost unaltered form.

If we were on the top of a ten-story building and wished to get some worthless object down to the ground, we would not put it on our shoulder and carry it down, but would simply throw it over the edge of the roof and gravity would do the rest. It is likewise superfluous to use wires for the transmission of electric currents if nature has provided something which makes it possible to accomplish the same work without them. It requires no gift of prophecy to foresee that wires will be discarded just as printing presses worked by hand and sailing vessels for fast trips have been put aside.

Although Fulton gave us a steamboat which we now look upon as a very crude affair, and Howe constructed a cumbersome sewing machine, we cannot but be thankful for what they did. Suppose the ocean greyhound and the modern sewing machine had been perfected within a decade after their invention, it is impossible to imagine what other perfected and highly developed products would now be at our command. In the Marconi system the developments already parallel those of the steamship and sewing machine, which have required from fifty to one hundred years of mechanical experimenting. In other words, Marconi has given us a perfected wireless telegraph within less than ten years of the time when he became convinced that his theories were borne out by facts. It would be the height of absurdity to assume that he has attained the limit of possible development. One cannot but marvel that he should have accomplished so much in so short a time.

A realization that wireless telegraphy is based upon a simple, free-given force of Nature makes a deep study of the science immensely interesting. One cannot refrain from entering the realms of fancy and wondering what will become of the telephone and telegraph wires, the cables and the instruments which are adapted to their use. The future of shipping, of all forms of communication, and, in fact, of every detail of our daily life in times of peace and war may be forced to pass through a stage of complete change because of the simple discovery of the possibility of sending messages from point to point without any visible connection between them. We have at our command a newer, simpler and better means of applying electricity to the transmission of messages than we ever had before. There is nothing more deserving of your serious thought than this latest product of science—wireless telegraphy.

MARVELOUS CANADIAN EXPANSION

Few residents of Canada fully realize the tremendous expansion which their own country is enjoying. In all lines of industry there is progress, and the last three or four years have seen a commercial growth far beyond the predictions of leading Canadian authorities.

The best evidence of this growth is shown in connection with the railroads and steamships and their allied interests. The Grand Trunk system is to be extended into a transcontinental line, in order to meet the demands of the central and far west, and other transcontinental roads are projected. The records of shipping show a steady increase in volume. The exports and imports are increasing so that they now total over $100,000,000 per annum. The rate of interest is on a par with that of any nation in the world. The interior of the country is becoming more and more densely populated, and a vast tract of fertile soil is rapidly being brought under cultivation. The report of the C. P. R. records over 35,000 acres of land sold to settlers west of Winnipeg. The four leading railroads of Canada weekly return an increase of earnings over a similar period in any previous year. Growth and development are to be expected in any new country, but the Canadian record stands almost alone for the rapidity with which this important progress has been made.

All this has been accomplished

WITHOUT A CANADIAN CABLE

linking this country to a European point. This may seem unimportant, but when one realizes that over $3,000,000 PER YEAR IS SPENT BY CANADIAN CITIZENS for cable messages, and, when it is further realized that this great expenditure passes into the receipt column of cable companies owned in the United States or Europe, the situation assumes a different aspect. Why should this great sum of money go as tribute to outsiders? OUGHT IT NOT TO REMAIN IN CANADA FOR REDISTRIBUTION in the country where it is expended and where it may be TURNED TO FURTHER PROFIT? It is surprising that this tremendous branch of industry is not served by a company owned and operated in Canada.

The Marconi Wireless Telegraph Co. of Canada, Ltd.

will supply this deficiency by the middle of the coming summer. It will TRANSMIT MESSAGES ACROSS THE ATLANTIC and it will do more, for it will also TRANSMIT MESSAGES TO ANY AND ALL SHIPS CROSSING THAT GREAT OCEAN. Signor Marconi is now busily engaged in installing the apparatus at the Glace Bay station which will forever replace any needed cable service

The great growth in every other line is being paralleled by the rapid development of the Marconi system. The increase in shipping is greatly benefitted by the added safety, due to the Marconi stations installed along the Atlantic waterways, which have made shipping in those waters free of former terrors.

The Marconi system CAN HANDLE MESSAGES MORE CHEAPLY THAN THE CABLE. Under present conditions, the cost of a cablegram is further increased by the cost of telegraphing it from a Canadian point to the nearest cable station in the United States. The Canadian Marconi station will practically monopolize the industry of transatlantic messages. It will do so because, when a given company can equal its competitors in the quality of service and can underbid them in the charge therefor, it inevitably gets all the business that is offered.

This is but one of MANY SOURCES OF INCOME for the Canadian Marconi Company. The transatlantic system is but one of its many remunerative Canadian opportunities under the Marconi erected patents. The shrewdest business men in Canada have recognized what this means, and have placed themselves in a position to SHARE THE PROFITS which this great enterprise is going to enjoy. They have become stockholders of The Marconi Wireless Telegraph Company of Canada, and we have yet to find any one of them who has kept track of the rapid development of the company and who is dissatisfied with its future outlook. The stock is now selling at $5 PER SHARE, and subscriptions will be accepted in any quantity from one share to two hundred shares. The time to invest in this great enterprise is, NOT WHEN IT HAS BEEN FULLY DEVELOPED and has reached a stationary stage. By that time the price of its stock will have so advanced that you can buy but one share for the same money with which you may now purchase hundreds of shares. On the same basis, the dividends will not you only about five per cent. on your investment instead of the FIFTY PER CENT. OR MORE PER YEAR which should be the return if you buy the stock at present prices. We therefore reiterate that sound and conservative judgment should urge you to make a purchase before the price of the stock has advanced, and when there is still an allotment which may be obtained at $5 per share. That means that YOU SHOULD IMMEDIATELY INVEST whatever funds you have in what promises to be a rival of the great Bell Telephone which has long since

MADE ITS STOCKHOLDERS WEALTHY

Or it may even exceed the brilliant record of that famous corporation.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Additions and alterations, Drill hall, Toronto, Ont.," will be received at this office until Friday, April 28, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

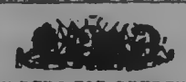
An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, April 10, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.



TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

The Twentieth Century Mining & Power Co.

LIMITED

Owns a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company in three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

CLEVELAND, OHIO

APPEARANCE

Is such an important feature on the table If makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

Tonopah-Crow Mining Stock 18c.

The property of the Tonopah-Crow Company is at Crow Springs, near Tonopah, Nevada; six mining claims and one mill site, 125 acres, crossed by more than 100 ledges; average value of ore so far opened about $54 a ton; 500 feet of development added to the principal workings on this property would expose 10,000 tons of ore worth $500,000. Its mining and reduction would leave a profit of more than $200,000. A hoisting plant of 500 foot capacity will soon be installed. This will soon be one of the best dividend payers in the section. An absolutely safe investment; selling at 18c. a share. Par value of stock $1.00. Send in your order now.

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite the trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhosone, and has obtained a footing never attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhosone is fragrant, healing, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhosone so quickly does.

MRS. BINY BROWN, of Tenecape, N.S., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomizer, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhosone. "I used Catarrhosone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhosone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhosone is used."

The complete Catarrhosone outfit contains a large bottle of Inhalant, sufficient to keep recharging the Inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size 25c. Sold by all druggists or sent direct to your home by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

ADVERTISE IN THE TIMES

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. and Mrs. R. A. Williams, of Stirling, are visiting in town.

—Mr. A. P. Pousette, K.C., was in Toronto Wednesday on business.

—Mr. George J. Sherry, barrister, of Norwood, is in town on business.

—Miss Glendenning, of New York, is the guest of Miss Edith Palmer.

—Miss Irene Noble is the guest of Miss Roberts, Denison Square, Toronto.

—Miss Clara Spry, of Barrie, is the guest of the Misses Ackerman, 222 Dalhousie street.

—Mr. S. S. Spence, of Lakefield, is in town, and is serving in the capacity of a grand juror.

—Mr. J. H. Metcalfe, of Kingston, a former warden of the Provincial penitentiary, is in town.

—Miss Fannie Robinson, of Rochester, N.Y., will spend the summer with her parents, 73 Albert street.

—Mr. A. Greig, of Almonte, arrived in town this week. He has accepted a position in the C.G.E. works.

—Mr. Geo. Gobell of Newmarket, a former proprietor of the Grand Central Hotel, is in town on business.

—Miss Maude and Jennie Titterton have gone to Toronto to spend a few days with their aunt, Mrs. R. Turner.

—Mr. F. D. Found went to Port Hope Wednesday to attend the funeral of the late Mrs. Walsh, of that place.

—Mr. A. A. Cooper, of Blenheim, has arrived in town to take a position on the staff of the Bank of Montreal.

—His Lordship, Bishop O'Connor, who has been spending a couple of days in Kingston, returned yesterday morning.

—Mr. Jack Cleary has returned after spending his Easter vacation with his sister, Mrs. M. F. Casey, of Syracuse, N.Y.

—Mr. Douglas Adams, of Port Perry was in town for a few days visiting at Mr. B. F. Ackerman's 222 Dalhousie street.

—Mr. Hugh Robinson, of Hamilton, a general organizer of the Journeymen Tailors Union of America, is in town for a day or two.

—Miss Eardley-Wilmot has returned after a visit to Toronto, where she was the guest of her aunt, Mrs. Walker, 378 Victoria avenue.

—Mr. John Sproule, a graduate of the Peterborough Business College has accepted a position in Winnipeg with the C.P.R., and left for that city yesterday.

—Mr. C. A. Tufe, Deputy Organizer K.O.T.M., is spending a couple of weeks with Mr. Titterson, 143 London street, in the interests of the K.O.T.M.

—Mrs. C. Barret is going to Geneva, N.Y., to join her husband there. Mrs. S. Holland of the American, accompanies her. They leave at 7.10 a.m. to-day by C.P.R.

—Mr. R. E. Wood has returned home from attending Queen's University Convocation for the conferring of degrees, his son Herbert being among the laureates in Art.

—Mr. Geo. J. Karly, of Cunningham, who some years ago was a well-known photographer here and president of the Y.M.C.A. was in town yesterday renewing old friendships.

—Miss Margery Brodie, who has been spending the Easter holidays with friends in town, returns to Toronto this morning to resume her studies at Branksome Hall.

—Messrs. William Croft, John Jayes, J. Rickerby, Archie Moore and T. Rutherford attended the opening of the Armstrong House in Havelock Wednesday night, and state that the affair was a most enjoyable one.

—Mr. E. M. Best returned Wednesday night after spending the holidays in Toronto, Hamilton and Whitby. He was accompanied by his brother, Mr. Ray. P. Best, who will in future have charge of the hardware department of the Best Stove Company.

—Miss Clara Bellegham, who has been visiting Miss Beasie Locke, Omemee, returned home yesterday. She sang at a parlor concert last night given by the W.F.M.S. of the Omemee Methodist church, at the residence of Mrs. McPherson. Her vocalism was much appreciated.

—The Lindsay Post says; Mr. Hugh O'Leary, K.C., returned this morning from a business trip to Peterborough. The Misses Lillian and Leah Rogers, of Peterborough, daughters of Mr. R. B. Rogers, Superintendent of the Trent Valley Canal are visiting their cousin, Miss Southeran, Lindsay St.

—The Lindsay Post says; Mrs. Jobbitt, wife of Conductor Jobbitt, and two daughters, Edna and Luella, left for their new home in Peterborough yesterday. Conductor Jobbitt having been transferred to the Peterborough-Lakefield run. The Misses Jobbitt will be greatly missed in town being well acquainted with a host of young people.

A New Leader.

At a meeting of St. Andrew's Musical Committee Wednesday night, Miss Margaret Bryce of Keene, was appointed soprano leader of the choir. She was selected from among a number of applicants for the position. She had been heard at St. Andrew's several times, and her singing has been very much enjoyed. By the way it is remarkable that the beautiful village of Keene should be so prolific of good vocalists. Miss Bryce will enter upon her duties on the anniversary of the church, May 14th. In the meantime, Mrs. Prust, (Miss Vina Bellegham) who held the position before her marriage, will take the duties of Miss Bryce's position.

SUICIDE.

Mrs. Lowery Solves the Great Mystery via Paris Green

Yesterday about noon a tragedy was enacted in a house at 222 King treet, just behind the Montreal House on Aylmer street. Mrs. Lowery, wife of Mr. Michael Lowery, a bricklayer's assistant, lately in the employ of Mr. Adam Dawson, has recently been suspected of being of unbalanced mind, a concomitant of prolonged illness and dispondency. Of late the unfortunate woman, realizing her failing facilities, has broached the subject to her husband of the possibility of her being confined somewhere to prevent the tragedy that occurred yesterday.

About nine o'clock yesterday she went to Tully's drug store, and purchased a package of paris green which, she told the clerk, was to be used as bed bug poison. Returning home it seems she mixed the entire package, containing about six ounces, in a small pitcher of water, and drank it. Shortly afterwards she was seized with violent vomitting, and thus apprised her son, who was in bed. He immediately telephoned for Dr. Scott. On his arrival he attempted to administer an emetic, but Mrs. Lowery declined to do anything to assist him and expressed a doubt as to whether she had taken sufficient. Dr. Scott immediately telephoned for a cab, and in the meantime did what he could with the object of relieving the unfortunate woman. She was removed to St. Joseph's hospital where Dr. McGrath and Dr. Amys endeavored to alleviate her condition. They succeeded to a certain extent, but a very serious turn developed about one o'clock and death ensued.

The late Mrs. Lowry was about fifty years of age. She had been twice married, her first husband being named Jeffrey. Besides her surviving husband are two boys, both grown up. To Dr. Scott the only explanation given was that she had had a good deal of trouble.

Dr. Gray, the corner was notified at once, but on investigating the circumstances considered an inquest unnecessary.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The House Committee of the Y.W.C.A. will meet this afternoon at 2.30.

—See the dolls the Times Bookstore are selling for 25 cents. Big bisque doll with real hair.

—A committee of the Whole Council will meet this evening at 7.30, and the Council meeting at 8 o'clock.

—The twenty-five cent. popular edition of the famous novels by Albert Ross are now on sale at Times Bookstore.

—On May 19th the Mission Band of St. Luke's church, will give an entertainment in the Fifth Ward Town Hall.

—The minstrel show by the young men's guild of St. Luke's church took place in Ashburnham town hall last evening and was a great success.

—Why be without a fountain pen when the Rival Fountain Pen, having with it a guarantee for one year, can be bought for 95 cents? For sale at Times Bookstore.

—Rev. W. J. Jolliffe will be the speaker at the last popular men's meeting for the season in the Y.M.C.A. on Sunday. The music will be of an exceptional character.

—The Bank of Commerce will accept subscriptions for the Toronto South African Monument Fund and also to the Dominion Fund, the donations to the latter being 25 cent subscriptions.

—Wednesday night, the Finance Committee of the Town Council met in the Town Clerk's office. A number of accounts were passed. It was decided to recommend that the auditor's report should be printed.

—A lawyer, who hangs his shingle out on George street, was heard yesterday evening, in a prominent hotel, to say he would wager $25 to $15 that a popular vote in Peterborough would swamp the city engine.

—Work has been started on the new Separate school on the property bounded by Reif, Brock and Downey streets. Mr. John Hayes has the contract for the stone and brick work; Carveth and Houlihan for the carpentering.

—There have been placed in Victoria Museum two pictures embroidered in silk, 120 years old, by Mario Wilson, afterwards Mrs. Page, mother of Mrs. Catherine E. Fowler, of Peterborough, who presents the pictures to the museum.

—The Trades and Labor Council held a regular meeting Wednesday night, President C. P. Murty in the chair. There was a fair attendance but no business of importance was transacted beyond the adoption of a couple of reports and passing certain routine matters.

—"You can't get men to do laborers' work for love or money," remarked a well known contractor yesterday. "Everybody appears to be busy and no one out of work. The demand for the laboring man is very great, and the supply is not generally equal to it."

—Several old Belleville boys residing in Peterborough, have received invitations to attend the big re-union of the sons and daughters of Belleville which will be held there on July 24th and 25th. Mr. Wm. Johnston is president of the association, and Mr. A. McGinnis, secretary.

—On Monday night next at the regular meeting of Otonabee Lodge, No. 13, I.O.O.F., Bro. John Mathieson, P.G., will be presented with a Past Grand's jewel. The initiatory degree will also be conferred upon several candidates by the Past Grands' team.

—We are soon to vote on the appropriation for a much needed addition to fire-fighting appliances. Why not, on the same day, take an expression of public opinion as to whether Peterborough remain for a time a good town or sink to the level of a half-city?

—That summer is upon us is evidenced by the handsome cards issued by Messrs. McCollum Bros., the Water street liverymen. The cards contain a schedule of their bus line to Otonabee. The bus leaves the barn at 8 a.m., 4 p.m., and 6 p.m., returning to town from Otonabee at 8 a.m., 9.30 a.m., and 6 p.m., on arrival of boats.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography. Work. Studio, 194 Brock street, Peterborough.

BLOOD WILL TELL.

It takes lots of healthy, nervous force and strength to win a race. Blood must be pure and good.

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anæmia, is common in men and young women, and all those who work indoors, who do not get enough good oxygen in their lungs, consequently have too many white blood corpuscles.

Keep the nerves nourished, the heart strong, the head cool, the stomach vigorous, the liver active with a tonic which has stood the test of time and has a wide reputation, such as Dr. Pierce's Golden Medical Discovery.

Tonics consisting of large portions of alcohol, iron or cod liver oil, do not bring the desired changes in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol, which shrivels up the red blood corpuscles when it *does* come in contact with them. Therefore do not allow the dealer to insult your intelligence by telling you he has something better than Dr. Pierce's Golden Medical Discovery.

The cost of mailing only. "The People's Common Sense Medical Adviser," 1008 large pages, is sent *free* on receipt of thirty-one one-cent stamps, for the paper-covered book, or fifty stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure. No other pill can compare with them.

Will Be Resisted.

(To the Editor of The Times)

Dear Sir,—Why do a few interested parties persist in applying to "Parliament for incorporation as a city at this inopportune time, when a large majority of ratepayers is against it? I might as well intimate to them that such an attempt will be resisted even if it is necessary to have recourse to the courts. Yours, etc.

TAXPAYER.

Oddfellows' Anniversary

Yesterday was the 86th birthday of the I.O.O.F. Over two million Oddfellows the world over celebrated the anniversary of the establishment of the great order in Baltimore, Md., in 1819. Since then the I.O.O.F. has grown amazingly and now its branches are to be found in Canada, the United States, Mexico, Germany, Australia, Cuba, South America, the Sandwich Islands, Sweden, Denmark, France and other foreign countries. In Ontario the I.O.O.F. is strong. There is a total membership of over 30,500. During the year great progress has been made in this Province, showing a net increase of 1,825 members, and a corresponding increase in all the work of benevolence and of charity. There are 296 subordinate lodges in active work.

BIRTH

Tuesday, April 25th, the wife of John Trotter, of a son, at the residence of Mrs. Geo. W. Lawson, 499 Bathurst street.

Shade Trees.

I am prepared to take orders for the planting of shade trees of every description. My trees are of the best and are sure livers. For terms, etc., apply to Thomas Trennum, Hall's Bridge. 1d-1w

ROJESTVENSKY MAY TRY TO REACH VLADIVOSTOK

Without a Fight But the Odds are All Against Him and Togo Can Probably Get His Foe Whenever He Desires.

Kamranh Bay, via Saigon, April 29.—The Russian squadron, with its transports, left its last stopping place Wednesday evening for an unknown destination. The warships were provisioned for six months, and it is thought here that they were bound for Vladivostock by way of the Pacific.

Four German colliers arrived at Kamranh Bay too late to proceed with the squadron but they subsequently sailed in the same direction in efforts to catch up with it.

Vice-Admiral Nebogatoff's division was expected to arrive yesterday in Indo-Chinese waters, where it is believed the Admiral will receive instructions regarding the place where he is to effect a junction with Admiral Rojestvensky whose squadron, besides twenty-five warships, include a repairing ship and a water tank ship.

Two Arrested for Murder.

Alexander Willis was Lodged in the County Jail at St. Thomas Charged with the Murder of Eliza Mowry at Rodney--Mrs. Benjamin Lowry Held as an Accessory.

Rodney, April 29.—Alexander Willis was lodged in the county jail at St. Thomas last night, charged with the murder of Eliza Lowry, Mrs. Benjamin Covell, whose contradictory stories have convinced the authorities that she is attempting to shield the guilty party, was also arrested, but owing to the condition of her health she will be allowed to remain at her home under guard of Constable Dugald Campbell until May 6th, when the preliminary hearing will take place before Magistrate Hunt.

The adjourned inquest was concluded yesterday afternoon, and the jury, after being out two hours and forty-five minutes, returned the following verdict;

"That Eliza Lowry was murdered at the house of Benjamin Covell, about one mile north of the village of Rodney, on the night of the 18th or the morning of the 19th of April, in the year of our Lord one thousand nine hundred and five. We strongly suspect that Alexander Willis committed the crime, and we believe Elizabeth Covell knows who committed the murder, and is shielding the party."

FLEEING FROM THE CITY

ST. PETERSBURG FEARS A SECOND ST. BARTHOLOMEW'S DAY

Suspicion and Hatred of the Enlightened Classes Fostered Among the Benighted of the Population.

London, April 29.—The correspondent of The Times at St. Petersburg cables: The newspapers are spreading alarmist rumors of an alleged reactionary plot to massacre the reformers on Easter Monday. The reactionaries undoubtedly have been fostering suspicion and hatred among the benighted majority of the population, directly inciting them to attack the enlightened classes, but the story of the organization of 15,000 roughs of St. Petersburg for a modern St. Bartholomew's Day is unworthy of serious attention. The story is believed to have been inspired by the police with the object of intimidating the partisans of form from the projected demonstrations. Great numbers of people are leaving the city. The Putiloff works are closed for a fortnight.

WORK OF BLACK SEA AGITATORS.

St. Petersburg, April 29.—Private despatches of an alarming nature have been received from cities and towns along the Volga, saying that all the dock laborers have struck. The ordinary accumulation of winter freight has been augmented by railroad blockades, and the failure now to move the freight with the opening of the river to navigation creates a most serious situation. The strike was organized by Black Sea agitators.

CLASS HATRED IS GROWING.

Borissoglebsk, European Russia, April 29.—The local Bourse has telegraphed to Interior Minister Bouligin as follows: "The situation in Russia is excessively strained. Besides the discontent in the towns Russia is confronted by a terrible agrarian movement and class hatred is growing. It is absolutely necessary to convoke representatives of the people."

Some Good People

still follow antiquated methods of raising cake, biscuit, bread and pastry with home-made mixtures of what they suppose to be cream of tartar and soda.

They do not know that these articles as now sold in the groceries are almost anything else but cream of tartar and soda.

The best housekeepers use the Royal Baking Powder instead. Its scientific composition insures uniform results. Only by its use can the finest flavored, most wholesome cake, biscuit and pastry be produced. To any housekeeper who has not used the Royal Baking Powder we would like to send our Cook Book, free. Mark your request "For instruction."

Fire-Hall By-law

ALD. HICKS SPEAKS

Strong Reasons Advanced Why Fire Hall By-law Should be Carried

[To the Editor of The Times.]

Dear Sir,—The new fire hall equipment is a matter which every ratepayer should carefully consider before the 4th of May, as on that date they will have the opportunity of expressing an opinion after carefully weighing the advantages to every class of citizens in the town.

It is a recognized fact that the fire fighting appliances at present in use is obsolete in a town the size of Peterborough, and there are other appliances which the town has never yet used, which are essential, not only for proper protection, but to meet the requirements of the Underwriters in the way of lower insurance rates. One of the most important of this list is a chemical engine. It is estimated that from 60 per cent. to 85 per cent. of fires in towns and cities (where modern equipments are kept) are extinguished by chemical engines. Since this is the case, is it not wise in the interests of all that we should have a chemical engine. It must also be remembered that a chemical engine is only efficient during the early stages of a fire, and when it can be successfully used the contents of the building, whether it be a store or private dwelling, are not drenched and damaged by water, which as completely destroys the usefulness of some articles as if they had been allowed to burn.

The present fire engine is too light and unreliable to cope with any emergency calling it into commission, and has been under repairs for more than half of the past year, which substantiates the fact that its useful days have passed.

Since all the cities with a pressure on mains equal to ours are equipped with fire engines of modern type, we should have a modern and stronger engine, which will not only do service connected with the main, when the pressure is low, but afford a complete protection to all property bordering on the water front or near the creek flowing through the town, in the event of any accident to our waterworks dam, mains or pumping station.

All will remember the fire at the American Cereal Co., over a year ago, when, by connecting the fire engine with a hydrant, at a stage when the building seemed doomed, the firemen were able to get sufficient force at the top of the building to get control and finally to extinguish the flames. If an engine, in this instance, saved the situation, can the town afford to be without a reliable engine for such an emergency? In my opinion, it can not, because by protecting the factories the whole town is protected, as the same equipment would be efficient in all cases. Should one of our large factories be destroyed the revenue of the employes would be at once cut off until other employment is secured. This would mean more labor than there was demand for and, consequently, the greater hardship would be on the laboring man.

The same equipment which protects the factories, protects the stores and dwelling houses, so that the expenditure of $25 000 for a fire hall and equipment is an expenditure that is a direct benefit to every citizen in Peterborough. It would be impossible to house the necessary appliances in the present fire hall even with the expenditure of half the cost of the new hall in repairs as the building is not suited for the purpose, and with a small expenditure could be made suitable for stores or offices and should produce a revenue of about $400.00 a year, which would be sufficient to pay the interest on the investment of a new hall costing, say $9,500, at a little over 4 per cent. When the matter is looked upon in this light, from a financial standpoint, while the liability would be created there would also be a revenue from the present hall which would about equal the interest on the cost of the new building.

The ordinary citizen, when a money bylaw is submitted, usually asks the question—"How much will it increase the taxes?" This can be arrived at in this way: the interest and sinking fund of $25,000, would amount to $1484.03 each year, take from this $400.00, the revenue from the rent of the present hall and you have $1484.03 to be paid each year, and on an assessment of $5,600,000 this amount would be 26-100 of one mill of 25 cents on each $1,000 of assessment.

The Underwriters have been interviewed in the matter and have stated that the proposed improvements in the fire department would reduce their rate about 10 cents for each $100.00; this would apply to the business risks only, which is estimated at $2,500,000, and the 10 cents reduction would be a saving to the policyholders of $2,500 per year.

While it is well to take all advantages that come from improved protection in the way of reduced insurance rates, it must be remembered that it is the town generally which receives the benefit of the protection, and not the Underwriters. The latter can adjust their rates corresponding with the conditions of the risk and regardless of the Underwriters it is the duty of the town to see the fire department is properly equipped to protect the homes and interests of its citizens. Yours, etc.,

R. HICKS.

HORSE CAUSES ACCIDENT

Mr. Albert Hamilton Injured by Excited Horse.

Mr. Albert Hamilton of the Fifth Ward, met with an accident at noon yesterday near the corner of George and Charlotte streets, as he was returning after dinner to his work at the Peter Hamilton Co's works.

A street car was standing on George street just below Charlotte, and Mr. Hamilton was going south and passed the car on the east side. At the same time a butcher wagon was coming up and passed the car also on the east side. Just as the horse reached the car the motorman rang his bgong, frightening the animal, which jumped upon Mr. Hamilton, knocking him off the wheel. The shaft struck him on the breast, and one of the wheels passed over his arm, bruising it badly.

He was picked up and rescued from what was a very dangerous position. Unless some internal injuries were sustained, it is not expected that he will be seriously hurt.

WEATHER NOTES

Mild and showery.

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

SOME CABINET CHANGES RUMORED

Will Hon. Charles Fitzpatrick Retire to Bench?

AYLESWORTH TO THE FORE

A Talked of Shuffle in Ontario Whereby Hon. Mr. Hyman Will Go to North Oxford

Ottawa, April 29.—With the return of the members after the Easter holiday, there is a resumption of political gossip respecting certain Cabinet changes. What is regarded as a central and pivotal factor is the alleged poor health of Hon. Charles Fitzpatrick, Minister of Justice. This gentleman has been subjected to a great strain since the introduction of the North-West Autonomy bill; he was not in good health when Parliament met, consequent upon the effects of exposure in the November campaign. Not long since, it is stated, on very good authority, he had an attack of a a rather puzzling nature in the region of his heart. The New York specialist, with whom he consulted, is said to have warned him against any unusual excitement, stating that the consequences might be most serious—if not fatal. Since that time Mr. Fitzpatrick has been taking matters as easily as possible. But with the legal aspect of the Autonomy bill constantly in mind, his trouble with Mr. Sifton—the worry of the whole situation, Mr. Fitzpatrick broke down. He experienced a severe seizure of heart trouble in his office recently. Those who claim to know state that the attack was in the nature of convulsive exhaustion, accompanied by violent vomiting. So ill was the Minister of Justice he was forced to cancel a dinner at his house for which invitations had been issued. Under such conditions Mr. Fitzpatrick's retirement from the Cabinet is not unlikely. The same authority that outlined to a press representative the details of his ill health also stated that the Minister of Justice would accept a Quebec judgeship within a measurable time.

WHO WOULD BE HIS SUCCESSOR?

The name of Mr. A. B. Aylesworth, K.C., of Toronto, has been mentioned in this connection. There is no seat open at present, but that difficulty would be bridged by the resignation from the Commons of Hon. James Sutherland, who is now lying very ill at Woodstock. In fact it is said that one of Mr. Sutherland's former colleagues paid the sick man a visit the other day and that he brought back to Ottawa with him the resignation of the Minister of Public Works as a member of Parliament.

Mr. Sutherland, of course, would be succeeded by Hon. Charles Hyman, who has been conducting the affairs of the Public Works Department for several months. It is on the tapis that when Mr. Hyman throws up his seat in London to seek re-election as a minister, he will go to North Oxford. This, of course, looks peculiar. But it must not be forgotten that Mr. Hyman narrowly escaped defeat in London at the general election. It is an open question just how that constituency is feeling over the school clauses of the North-West Autonomy bill. And, too, Mr. William Gray, his doubtly opponent, is not idle meanwhile. There is a Conservative organization in London, and it is alleged, that it "slumbers not nor sleeps." It is based on the municipal struggles and its effectiveness was strongly in evidence in November last. Of Mr. Hyman's election in North Oxford there is not the least doubt, though possibly a strong fight would be put up against him by the Conservatives of Ontario.

The arrangement would leave London for Mr. Aylesworth. He has no political aims to answer for; he has not been connected with the "recent unpleasantness"; he would be an extra Minister for Ontario, though possibly in adjustment would be made later to restore Quebec her full quota quota of Cabinet representatives.

REID WANTS TO SELL OUT

Millionaire Offers Government His Property for $3,000 000 No Smoking

St. John's, Nfld., April 29.—Contractor Reid, the railway magnate operating the Newfoundland railway and steamship systems has offered to sell to the colony his eight steamers and his leasehold interest in operating the railway for forty-six years for $3,000,000, claiming that the Bond ministry is unresponsive to his schemes for developing the country. He intimates that if the proposal is unanswered by tomorrow he holds himself open to make other arrangements. The Government in acknowledging the letter requests time to further consider the proposition. It is unknown yet what course the Government will adopt.

Within the past four years the colony has paid Reid $1 000,000 for relinquishing proprietary interests in the railway, $350 000 for relinquishing bonds; $854,000 by arbitration for railway improvements, and $1,500,000 by arbitration for the colony taking away his telegraph franchise. For fifty years Reid retains his lands throughout the colony and his dry dock and electric light concessions in St. John's.

A VALUABLE BARGAIN

Man Bought Safe With $28,000 Worth of Valuables at Auction

New York, April 29.—Carl Fraenkel, well known among old time bowlers as the proprietor for many years of alleys in the Bowery, in disposing of the fixtures of his establishment on Saturday let a safe containing $28,000 worth of jewellery and securities be knocked down to the highest bidder, and be carried away before he remembered the value of its contents. The same contained his stock certificates, amounting to $20,000 and jewellery worth $8,000 which belonged to his dead wife.

The discovery of a card with the half-obliterated name of a truckman led to the finding of the safe. Benjamin Blum, the purchaser, readily consented to let Fraenkel open it, and inside, undisturbed, were found the securities and the jewellery.

TRADE OPENINGS IN JAPAN

Canada Has no Tariff Treaty and is Handicapped

Ottawa, April 29.—Mr. Alex. McLead, Canadian commissarist agent to Japan, states that there is an excellent market in that country for a fertilizer which can be imported free of duty. The amount of this imported last year was $805,803.

In the way of leather goods, Mr. McLean thinks that Canada could compete so far as prices and quality are concerned, but she is handicapped by not having any tariff treaty with that country, and comes, therefore, under the Japanese ordinary tariff. The only British countries at present getting the benefit of the Japanese preference are India and New Zealand. In this connection, Mr. McLean forwards an extract from a Japanese paper, whose English name is The Times of Japan. The paper advocates tariff treaties with Canada and Australia on the ground that these countries are suitable for Japanese emigration, having vast tracts of land to be opened up.

MISTAKEN FOR BURGLAR

Pittsburg Millionaire Spends Night in the Cells

Pittsburg, Pa., April 29.—Mistaken by a policeman for a burglar, James B. Laughlin, treasurer of the Jones-Laughlin Steel Company, well-known in society, and worth $5,000,000, was placed under arrest early this morning by Policeman Philip Rimlinger, and taken to the station in a patrol waggon, where he passed the night in a cell with a pickpocket on one side and a "drunk" on the other. Although he offered to write a personal cheque for any amount up to a hundred thousand dollars and post it as a forfeit, he was told by the sergeant to "explain to the judge in the morning." Laughlin spent last evening at the Duquesne Club, and soon after midnight started for home in a carriage. He lives in a mansion at the corner of Centre avenue and Negley street, surrounded by several acres of ground. That his coachman might get to bed, he dismissed him near the stables. He was walking towards the house when he was arrested.

R. M. P. ASSOCIATION.

Merchants to Re-Organize--Mr. Jas. Eadie to Remain in Town for That Purpose.

At the Y.M.C.A. last night there was a meeting of the Retail Merchants' Protective Association with Mr. R. Fair, the President in the chair. Mr. Fair introduced Mr. E. M. Trowern and Mr. Jas. Eadie, the latter will remain in town for the purpose of getting merchants to organize Mr. Trowern gave an address to the merchants present about the objects obtained and to be obtained by organization, and recommended that a executive of five be appointed by the local association. There are now 71 branches of the Retail Merchants' Association. Mr. Fair moved that the merchants reorganize.

merchants reorganise and pay a yearly fee of $2 each, which was carried.

Mr. Nugent moved that the association make efforts to get better fire appliances.

ATTEMPTED COERCION

Attempt Made to Compel Mr. Calcutt to Join the Combine of Brewers' Association.

Yesterday a representative of the Ontario's Brewers' Association was in town, making still another attempt to gull the local hotelmen into signing contracts for a limited date, at cut-rate prices for beer. Fortunately the hotelmen of Peterborough have got sufficient horse sense to see that if they play into the hands of the association they will not only help to wipe an old established local business, but would have, on expiration of their contracts, to pay more than ever for beer.

The association is not selling cheap beer out of a purely philanthropic love for the hotel men; they are not sufficiently open-hearted to charge up their temporary reduction in price, to profit and loss. No, they intend, as every other combine in mercantile or industrial competition has done, to get their pound of flesh, and 16 ounces to the pound at that.

This emissary of the association met with very little success in his canvas; one hotelman remarked to The Times yesterday, that "sooner than hurt Harry Calcutt or the Calcutt Brewery, I will refuse their beer at 50 cents a barrel." The association seems strangely ignorant, in their Peterborough campaign, of the popularity of Calcutt's brewery and of Harry Neill its manager, and of the loyalty that actuates Peterborough people when a local industry is in jeopardy. No, Calcutta Brewery will not be forced into the combine, but will continue to do business in the same old spot, and Peterborough people will and should demand Peterborough produce when it can be supplied at fair prices. Mr. Harry Calcutt has spent his life and his money in this good town of ours, and as a gentleman remarked yesterday, "If he had a million he would spend it in Peterborough."

CITY INCORPORATION TO DATE JULY 1ST IF AT ALL

Town Council Will Not Ask the Legislature to Change It to Sept. 1st--Salaries of Police Increased--Deputation to Toronto re Conservation of Lake Waters.

The Town Council met in special session last night, when there were present; His Worship, Mayor Best, Aldermen Batten, Tovey, Adams, Leary, Mason, Hicks, Johnston, McIntyre, Crowe, Adams and Begley.

The minutes of last meeting were confirmed.

ASKED FOR MORE MONEY.

Mr. Edward Hickey, representing the teamsters, appeared before the Council asking that their request for adjustment of wages at $3.50 per day be acted upon at once. He held that their petition was a reasonable one. The teamsters desired to know exactly where they stood.

Mayor Best informed Mr. Hickey that the matter was referred to the Board of Works with power to act. The Board will meet early next week.

DEPUTATION OF FIREMEN.

A deputation of firemen was present consisting of Chief Rutherford, Assistant Chief Wm. Turner, Secretary Jos. Metheral, Wm. Adamson and John Gibbs. Chief Rutherford was heard, and stated that he understood the Council desired members of the Brigade to appear before them. The firemen, he said, requested an explanation of certain references that had been made to the Brigade at a committee meeting.

Ald. Hall pointed out that the firemen were to appear before the Fire, Water and Light Committee, and Chief Rutherford stated that he was agreeable.

PUBLIC MEETING.

A public meeting will be called for Monday night, in the Council Chamber, at eight o'clock, to discuss the by-law for a new fire hall and improved fire protection service.

CONSERVATION OF WATER.

His Worship pointed out that as the Lindsay Board of Trade had sent a deputation to the local Legislature, opposing the proposal that the dams and reservoirs on the Trent system of waters at present under the local Legislature's control be all taken over by the Dominion Government, in order to secure a better conservation of water in the Kawartha Lakes.

Ald. Leary thought that Peterborough should send a deputation to Toronto to meet the opposition from Lindsay. He suggested that a joint meeting of the Council and the Board of Trade be held to consider this important question. His suggestion will be acted upon.

The Mayor was authorized to arrange with the Minister of Public Works to meet this deputation.

The Town Clerk was instructed to invite the co-operation of municipalities and other persons interested in the Trent water way in securing the transfer of all dams and reservoirs on the lakes to the Dominion Government.

It is understood that the Provincial Government is willing that such trans fer be made.

The Committee of the Whole will name the necessary aldermen to co-operate with others interested in urging upon the local legislature the need of said transfer in the interests of maintaining along the Trent waterway route a sufficiency of water at all seasons for all purposes.

THE CELEBRATION.

In view of so much apparent opposition to celebrating the city's first birthday, and in fact to incorporate by special act of the Legislature, it was decided not to ask that the date of incorporation be changed from July 1st to September 1st.

Ald. Hall and Leary thought the proposed celebration should be held on the 1st of July, which would be the preferable date.

Some did not favor making a grant for this purpose till sure of incorporation being granted, but Ald. Hicks insisted that this matter be dealt with at once, and he gained his point.

Ald. Hall moved, seconded by Ald. Leary, that the Council guarantee a grant of not exceeding $1,000, providing a gate fee is charged. That is say, the town will contribute what is necessary over the gate receipts to meet expenses, $1,000 to be the limit of the town's liability. The Special Committee of the Council to have control of all monies connected with the celebration.—Carried.

SALARIES OF THE POLICE.

A by-law fixing the salaries of the police passed its several readings. The The Chief of Police will receive $1,150 a year; Constables Adams and Stewart, $700; Constable McGinity, $625.

Ald. Crowe said that considering the wages paid mechanics, the police are at present getting a very fair thing, considering the days they are on duty—not work—$1.05 a day, and two suits of clothing a year. Besides this, convictions for the county coming to each policeman amounts to $50 a year extra. The increase would mean $2,14 a day each man, outside the $50 each for county convictions. He considered $50 a year increase at present would have been ample.

Ald. Mason remarked that considering the hours a constable is on duty it took him considerable longer to earn his money than any mechanic. It frequently happens that a policeman is on duty 11-2 days out of two days.

Ald. Hall said the cheapest man on the Toronto police force gets $1.75 day for eight hours. The increase is not extravagant, our force are often called on duty at all hours.

Ald. Hicks remarked that the three years policemen in Brantford get $2.15 a day. They have a graded scale.

Ald. Crowe replied that when the town is incorporated we will require two extra constables perhaps. He would rather have given the present force an increase of $50 a year, and engaged two more policemen.

Ald. Leary thought the orderly condition of the town with but four policemen reflects considerable credit on our force; he considered a policeman's duty the hardest of work, and our constables well worthy the increase.

Ald. Crowe was the only one to oppose the measure, and the police will consequently get the increase provided for by the by-law.

BY-LAWS.

A by-law providing that not more than two gallons of crude oil, benzine etc., or any other combustible material shall be stored within any one place at the same time; passed its first and second readings. Any infringements of this by-law will be punishable by a fine of not more than $50 for the first offence.

A by-law to authorize the execution of an agreement with the Peterborough Hardware Company for the supply of 3,500 barrels of Portland cement for the year 1905 at $1.70 per barrel, passed its several readings.

Five cents of this price per barrel is for unloading, storage and inspection.

A by-law to authorize the execution of an agreement with Thos. Williams for refuse ground was passed.

Ald. Mason again introduced a by-law to appoint an inspector of plumbing.

Ald. Johnston said this question, with the plumbing by-law, should be referred to a Committee of the Whole Council. He did not know what is in the plumbing by-law.

Ald. Hall remarked that master plumbers are at present in an awkward position by reason of the Council's vacillation in these questions. The Council should either adopt the plumbing by-law and appoint an inspector, or turn both questions down definitely.

Both these questions will be threshed out in Committee of the Whole on Friday night next.

Ald. Hall thought the old building by-law should be modified with regard to certain streets in the town; two or three clauses are a real unwarrantable hardship for citizens to live up to. This was referred to the Fire, Water and Light Committee.

STREET WATERING.

A by-law to authorize the execution of the following street watering contracts passed its several readings; Northern district, Zimri Blodgett, $370; southern district, Thos. Williams, $350; western district, George McClellan, $324; eastern district, Albert Valois, $300.

A number of reports of committees are unavoidably held over till next issue.

DUTIES OF POLICE.

Ald. Hall submitted the following;

Gentlemen,—Your Supervision Committee beg leave to report and recommend as follows;

1. That it be made a duty of the police force to ascertain, so far as they can, any street lamps that may be out when they should be lighted, and to report the same to the Town Clerk, and that the sum or sums provided in the contract with the company furnishing the lights to be deducted from the company's account for each lamp not so lighted be deducted accordingly.

2. That a by-law be passed to prevent merchants or others opening boxes on the streets.

3. That the tender of T. Williams to furnish land and cart for a refuse ground for the year beginning May 1st, 1905, for $200 be accepted.

All of which is respectfully submitted.

Adopted as read.

QUESTION OF TAXES.

Ald. Hicks submitted the following;

Gentlemen,—Your Manufacturers Committee beg leave to report and recommend as follows;

1. In reference to the letter of the Peterborough Light and Power Company referring to their taxes in Ward Five, we recommend that they be informed that the $100 payment does not effect the payment of taxes and the assessment and payment of taxes are outside that arrangement.

2. We recommend that the Town Solicitor be requested to prepare agreements with the Auburn Power Company and the Otonabee Power Company for the use of the streets for transmission of electricity.

All of which is respectfully submitted.

Adopted as read.

Broken and Sad Weary of Life

Ground to the Dust With Weakness—Too Nervous to Sleep —A Pitiable Wreck

FERROZONE

Braced — Invigorated, Toned and Strengthened

Men and women, married or single, whether old or young, will find absolute relief in "Ferrozone." It completely vitalized Mrs. F. Levine, a well-known resident of Point Alexander, Ont., who writes:

"I was on the verge of nervous prostration. When I got up in the morning I had to force myself to go to work.

"I felt blue and depressed, took no real comfort out of life.

"Dragging weakness and lack of spirit seemed to be killing me.

"How I wished for strength!

"Kind Providence brought Ferrozone to my notice and I commenced to take it. The change was wonderful. I picked up every day. Strength developed, appetite increased. I grew cheerful and strong. Ferrozone made me feel like a woman. My cure is complete and I recommend it as an unsurpassed."

The one medicine that's sure to lift you from a weak, miserable condition is Ferrozone. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

PETERBOROUGH, APRIL 29 1905

THE ECONOMIC AFTERMATH OF THE WAR

Although the Czar has decided to "prosecute the war to the bitter end," the probability is that the "bitter end" has been already reached, or will be in a few days. So far as bitterness is concerned no gall or wormwood could be more so than the doses administered by the Japanese through their destruction of Russia's warships; the capture of Port Arthur; the victory at Mukden and the driving the Russian forces like a flock of sheep northward, where there seems every likelihood of the entire army having to surrender.

It is now just a year ago since Gen. Kuropatkin informed the Czar that he would shortly dictate terms of peace to the Japanese at their capital, Tokio. Between this anticipation and the situation today at Tie Pass there is one of the most dramatic contrasts ever presented for the wonder of mankind. When peace is proclaimed there will be a startling revelation of what disasters war has inflicted upon both combatants. What war materials has been destroyed, what debts incurred, will become fully known, and with this knowledge will come further knowledge of what both Russia and Japan will need to restore their military and naval resources to the position they severally occupied before the war.

For Russia it will be necessary to acquire a new fleet of warships, with all their costly auxiliaries and equipments. The Russian shipyards are wholly incapable of this task, save by years of work, during which period the crippled condition of the Imperial navy will be known to the world, the effect of which will be humiliating to Russia, as it will lower her prestige. The building of new men-of-war, torpedo boats, providing guns and munitions of war, will probably cause contracts to be entered into with British and German firms, so that following the war, there is a certainty of a boom in foreign shipbuilding yards and ordnance factories.

The re-equipment of a new army for Russia will cost millions of dollars, that will be spent partly at home and partly in Germany and France. These expenditures will necessitate new loans by Russia.

The destruction of fixed capital by the conflict has been prodigious, as well as the utter waste of floating capital. To replace fixed capital by fixed capital is impossible. To whatever extent the fixed capital that has been destroyed will have to be drawn from floating capital, that is, from the capital available for the active business of the world. Port Arthur, for example, represented covered millions of dollars of fixed capital, capital sunk beyond recovery in permanent works. When the work of restoring the fortifications of Port Arthur commences there will be a process begun of converting floating into fixed capital, and so on along the entire line affected by the war. There will be a diversion of the resources, and the needs of peace from their more useful and more honorable occupations to enterprises which have no justification except the preparation for future war. There will be scores, yea, hundreds of millions of dollars expended which are now sustaining industrial enterprises, or being accumulated from their profits, in the works and equipments deemed requisite for moral and military purposes, defensive and offensive, and business will become brisk as a result.

Japan, after the war, will be burthened with debt, will find her purchasing capacity reduced, will have a plethora of glory, but a depleted pocket-book. Her recuperative [illegible] she will expend to be to keep the Empire from drifting into financial troubles.

Russia will realise that her marvellous material resources are not boundless; the Czar will have his pride touched by finding his credit blown upon. If the Russian people are more heavily taxed to restore the armaments destroyed by the war, as they are likely to be, there may be much widespread discontent as will be another step towards revolution. It will be remembered by our readers that the great French revolution was heralded by such monetary troubles. On this continent the arts of peace will enable us all the more to reap the fruits of our labors.

Russia seems about to learn a needed financial lesson; that a nation's borrowing power is reduced by the proceeds of its loans having been wasted, or spent on some project, which, if secured, will not be worth the cost. French bankers are misreported as objecting to any more money being lent to Russia. This week, in London, the securities of Japan went up to a price equal to those of Russia, after being considerably lower since the war commenced. The economic situation then is decidedly unfavorable for Russia, and the aftermath of the war is likely to be a crop of financial disturbances and the creation of conditions that will not be for the general welfare of Europe.

Japan has a better outlook, the people are not civilised enough to squander their substance in extravagant display. Peace will be very welcome, but it will take long years of peace to heal the economic wounds inflicted by the war.

MR. POSTE RINGED

Presentation to Mr. F. Poste of C. G. E. Co., Made at a Banquet

Mr. Fred Poste, of the C.G.E. Company's test department will to-morrow leave for Atlanta, Georgia, where row leave for Atlanta, Georgia, where he has secured a lucrative position. Seventeen of his comrades, in the Test Department, could not allow a popular member of their department to leave without a fitting token of esteem, and regret for his departure, without marking the occasion in a fitting manner. The gathering was a very successful one, held in Long's Palm Parlors.

Mr. Poste was presented with a handsome gold ring with Masonic emblem by the members of the department with which he has recently been connected and accompanying it was an address expressing regret at his departure.

Those who gathered around the festive board last night were Messrs. W. Madill, L. Bolin, H. A. Hamilton, E. M. Hooker, L. B. Ramsden, W. E. Bell, W. G. Hall, A. R. Webster, T. J. Farman, W. Halton, J. Jardine, A. R. Laing, S. W. Canniff, J. Lowes, J. W. VanNorman, S. D. Coffin.

A dainty dinner was served, the progress of which was enlivened by a number of bright stories well told.

After dinner the duties of chairman were filled by Mr. W. Madill, who read an address indicative of their regret at his coming departure, and wishing him success in his new home. The presentation of the handsome ring was then made by Mr. Laing on behalf of those present.

A very pleasant evening interspersed with songs and music followed. Mr. Poste has been nine years in Peterborough. He and Mrs. Poste will leave to-morrow.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,000, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 50 cents a share; no certificate issued for less than 100 shares. SANTAL-MIDY

Performance Not Promises

There is all the difference in the world between expectation and realization. There is even a greater difference between promise and performance. In the former case you form your own opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take some one's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case is a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless

(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since midsummer.

The Canadian Company has already completed a net work of successful stations along the St. Lawrence Gulf and there are six Canadian stations situated already in operation. The Company has already been authorized to build four more stations at prominent points during the canal grain season. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation at that point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises—they are performances. Compare what Marconi has DONE with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they?" The answer suggests itself. Can you not foresee the great future this Company has before it? Do you not wish to become a sharer in the success which is at its door? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide [illegible] for settlers, or for other purposes, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1908.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

THE

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company), which has been established over a quarter of a century.

The increasing prosperity and progress of the Dominion, which is witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Brumptonville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jeackes, Esq., Sherbrooke, Que., President of Jeackes Machine Co.

M. G. Cromble, Esq., Kingsbury, Que., of Williamson & Cromble, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. N. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 16, Victoria Arcade Bldgs., Toronto.

CONSERVATIVE MINING

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,000,000, par value of shares $1.00 each; $600,000 in treasury stock. The company owns outright, free from debt, 2 full fixed mining claims of 5 acres each, two mill sites of 5 acres each, the sunflower placer of 20 acres and the Ora tunnel site 2,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 30 years' standing in Colorado.

Send for engineers report and free literature. We want you to investigate this enterprise. Address

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was so much run down and advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED-MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

WHERE BANKERS, BUSINESS AND PROFESSIONAL MEN INVEST IT IS SAFE TO FOLLOW

INVESTIGATE AND YOU WILL BUY

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 20 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

Tonopah-Crow Mining Stock 18c.

The property of the Tonopah-Crow Company is at Crow Springs, near Tonopah, Nevada; six mining claims and one mill site, 125 acres, crossed by more than 100 ledges; average value of ore so far opened about $54 a ton; 500 feet of development added to the principal workings on this property would expose 10,000 tons of ore worth $500,000. Its mining and reduction would leave a profit of more than $200,000. A hoisting plant of 500 foot capacity will soon be installed. This will soon be one of the best dividend payers in the section. An absolutely safe investment; selling at 18c. a share. Par value of stock $1 00. Send in your order now.

The Stubbs Investment Company,

Albuquerque, New Mexico.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Additions and alterations, Drill hall, Toronto, Ont.," will be received at this office until Friday, April 28, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. O. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

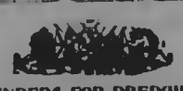
By order,

FRED. GELINAS,

Secretary

Department of Public Works,
Ottawa, April 16, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.



TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beavertos, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,

FRED. GELINAS,

Secretary.

Department of Public Works,
Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ADVERTISE IN THE TIMES.

CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY, CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share--Full Paid--Non-assessable

THE RUSSELL MINING COMPANY Was organized under the laws of Arizona with a capital stock of $500,000 divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado.

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was taken at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,200 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 410 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 oz. gold and 12.35 oz. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 0.9 oz. gold and 5.8% oz. silver, or a value of twenty-one ($21.00) dollars per ton. The average of eight assays over 25 feet in the west drift gave $65.52 per ton, and from over 40 feet in the east drift, nine assays averaged $103.77 per ton. It is proposed to sink the main shaft to the 500 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 150 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 2. The drift from the Old Town shaft, referred to above, was run nearly 200 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,500 feet. Taking the 1,500 feet along the vein from the 400 to 1,500 foot levels with the average width of three feet for the vein, and we have a product of 337,248 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $5,058,300.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 20 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russel Claim would be nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developments in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 3,000 feet by 50 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $100,000 per year for the past three years, and is now working at a depth of 1,500 feet and has just completed the installation of larger machinery preparatory to increasing its output this year. The Topeka, which has produced over $2,000,000, and the Wautoga, which has a production credited to it of over $1,500,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 180 feet of the drift, run at the 300 foot level, from the Old Town shaft, ranged in value from $2.64 to $278.53 per ton, the average being $60.78 per ton. The development of other mines in this district has shown the veins to be strong and persistent to great depths, the California mine near Central City is now producing from a depth of 2,300 feet.

TRANSPORTATION.

The Tram Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 300 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,000 to 2,200 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stopping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date. The predecessors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best-paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Minstock to investors in order that they ing Company is therefore offering its may participate in this enterprise which bids fair to become one of the best mining propositions in the West. The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in the proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to complete payments of the original bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

THOS. PATTERSON & CO.,
Fiscal Agents, Peterboro.

WISHING GOD-SPEED

Mr. T. H. Hutchinson Presented with Handsome Tokens of Regard on Eve of Departure.

On Wednesday evening, friends of Mr. T. H. Hutchinson, gathered in the Y.M.C.A. parlor to wish him God-speed on the occasion of his intended departure from Peterborough to Alliston. Mr. Hutchinson, who has been boys' secretary, in the Y.M.C.A., during the past year, has made many friends both in and out of the Y.M.C.A.

Mr. P. K. Holmes acted as master of ceremonies and there was a representative attendance of officers and members, the different classes being represented. Mr. Hutchinson was made the recipient of a handsome dress suit case and fountain pen. Short speeches were made by Messrs. G. H. Williamson, general secretary, P. K. Holmes, physical director; W. D. Campbell, Homer Herd. Mr. Wilson, caretaker of the building and others. All expressed their appreciation of Mr. Hutchinson's genial attributes and their regret that he is severing his connection with the local institution.

Mr. Hutchinson in reply thanked the members for their kind words and handsome gifts and expressed his sorrow at leaving Peterborough. He felt that his year here had done much to develop him physically and other ways. He referred to the very pleasant relations that had existed between him and the other officers of the Association.

Mr. Hutchinson will leave to-day for his home in Alliston. He intends to take a secretarial course at the Springfield, Mass. Training School.

BETTER THAN GOLDFIELDS NEVADA

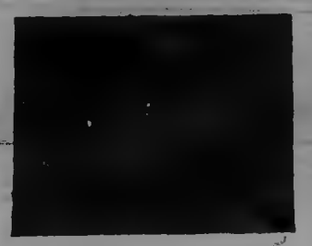
The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; and install a large compressor and hoist capable of sinking the property at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.



CONCENTRATOR PURCHASED

We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

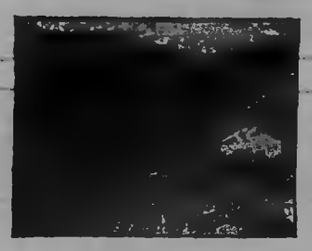
The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started un again July, 1904. Up to March 1st. 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay--West of winze, intermediate drift	3688.60	1197.	$74,406.20
No. 2 Assay--Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.80

In January we pulverised 112 pounds of rich ore, which gave us an average taken from four assays of 885 38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577 60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944 00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000.00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 500 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.



With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Marconi Wireless

How Great Fortunes Grow

On the American continent there is no more interesting story of fabulous wealth, built up from small capital, than that presented by those who had the foresight to become interested in such successful inventions as the **Edison Electric Light, Bell Telephone, Westinghouse Air-Brake** and the allied gifts of our great inventors' brains.

A few thousand dollars, in one instance after another, has grown to millions; even the man with a few hundreds wisely invested during the early stages of those things which satisfy a public demand stands to-day with unlimited wealth to gratify his every need. The

Marconi Wireless Telegraph Co., Ltd., of Canada

is an exact parallel to those previous inventions which brought affluence and comfort to their promoters. Its future will see a corresponding enhancement of value. Now is the time to identify yourself with this prosperous and rapidly growing enterprise, and in future years you will, without further effort, reap abundant reward in the growth of your money.

The growing demand for this stock, which can now be bought at par, will carry it to higher and higher levels. Do not wait until the Company has developed to its utmost and the price of its stock has risen to its highest level. You can purchase any amount of stock from one share to two hundred shares at $5.00 per share. That price will advance in the early future to an amount equal to hundreds per cent. in dividends and you should make an immediate purchase in order to take advantage of that increase.

DON'T DELAY BUY TO-DAY

ADVERTISING IN THE TIMES PAYS

Consumption is Not Hereditary

It is Not Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your LungsCured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If the disease passes through several members of the same family it is because the germs get into the clothing, bedding, furniture and carpets in general use.

These germs find their way into the air, are inhaled, lodge themselves securely in the throat and lungs were they rapidly increase, and soon claim another victim.

The only remedy that has cured a genuine case of Consumption is Catarrhozone. Its germ killing vapor is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway in the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and lends to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

—The Havelock Standard says; Mr. B. Huston, of Peterborough, is visiting with friends in town. Miss Beatrice Montgomery of Peterborough, is the guest of the Misses Bryans. Mr. and Mrs. James Henderson of Peterborough, were the guests of the latter's brother, Mr. Jas. Mark.

—Rev. Father Peter McGuire, who has been parish priest at Hastings for the past seven years, will be transferred to Downeyville, and will take charge of his new parish in two weeks' time. Rev. Father Bretherton who has been at Downeyville for ten years, will go to Hastings, succeeding Father McGuire.

—The Port Hope Times says; Mr. Caleb Brown of Peterborough, is spending the holidays at his home, Brown street. Miss Kate Graham, of Peterborough, is visiting friends here. Miss Belle Thompson, Pine street, is visiting her sister, Mrs. W. J. Nelson, Peterborough. Miss Pearl Haskill, of Peterborough, is visiting her cousin Miss Edna Adamson, Bramley street. Mr. Matthew Graham left last week for Peterborough, where he will reside in future. Miss Graham of Peterborough, is visiting Miss Storey, Bramley street.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Isaac Eastwood has purchased the Craig House Lakefield. It is said that the price was $14,000.

—A number of the Public School teachers of town are in Toronto this week, attending the convention.

—Division Court is being held before the Honor Judge Weller. There are about twenty cases to be disposed of.

—There will be a joint practice of St. Andrew's and St. Paul's baseball teams this afternoon on MacDonnel street grounds.

—The Baptist congregation of Stratford, have extended an unanimous call to Rev. O. C. Elliott of Belleville, formerly of Peterborough.

—The Rev. J. G. Lewis of Peterborough, will deliver a lecture on his trip to the old country in the Methodist church at Millbrook, on Monday evening next.

—Mr. John Watt, Fishery Inspector, has seized a net which he found in the river, and it is now at the police station. It looks as if some one is after the big fellows already.

—The town parks are looking particularly attractive. In Victoria park the grass is growing nicely, and soon the trees will be in leaf and nature in her loveliest mood.

—Mr. W. R. Tiffin, Divisional Superintendent of the G.T.R., was in Millbrook on Monday looking over the ground for the new station. Some changes are contemplated in the yard and tracks.

—The Bank of Commerce will accept subscriptions for the Toronto South African Monument Fund and also to the Dominion Fund, the donations to the latter being 25 cent subscriptions.

—It is probable that a pubic meeting will be held on Monday night to discuss the question of the new fire hall and equipment. Why not take up the matter of making the town a city at the same time?

—An important meeting of the merchants was held yesterday evening at the Y.M.C.A. Mr. E. M. Trowerh, Dominion Secretary, and Mr. James Eadie, provincial organizer, were present and delivered addresses.

—The Primary and Junior Union of Sabbath school teachers met yesterday evening at eight o'clock, at the Y.M.C.A., for the study of next Sunday school lesson. The teachers in charge were Miss Ivah Fisher, of Murray street Baptist church, and Rev. W. M. Mackay, of St. Paul's Presbyterian church.

—Messrs. R. H. Leary, and J. Duncan have returned from Prince Edward County where they purchased 22 fine horses which they will ship to Toronto. The horses were unloaded yesterday morning at the station and are a fine-looking lot some especially fine animals being in the bunch.

MAYOR AND COUNCIL INVITED

To See the Practical Working of the Latest Fire Extinguisher

Mr. Joseph Whaley, of Toronto, is in town in the interests of the Diamond Dry Powder Extinguisher Co., Toronto. This afternoon at three o'clock Mr. Whaley will give a practical demonstration of the working of the "Diamond" Fire Extinguisher. The Mayor, Council, School Board and the public are invited to be present free. Remember three o'clock sharp this afternoon on the Market Square.

THAT STANDING ARMY

Visible Proofs That the Ross Government Took Care of the Faithful.

In referring to a grant of $500 that Hamilton got from the Ontario Legislature towards a floricultural exhibition, the Examiner in commenting on Peterborough's chance for a grant towards the same purpose, as we send a Government supporter from this district says;

"If special favors are going, our local representative should see that Peterborough gets its share. That's what we send him to Toronto for!"

If any one doubts that under the Ross Government, Peterborough did not get its share out of the public purse, let him saunter down George street, any time, or any part of it, and try to throw a stone without hitting an employee of the late Ross Government.

Shade Trees.

I am prepared to take orders for the planting of shade trees of every description. My trees are of the best and are sure livers. For terms, etc., apply to Thomas Trennum; Hall's Bridge. 1d-1w

Stony Lake Season Has Opened

The Lakefield News says; The Stony Lake season has opened, Mr. and Mrs. G. Stubbs of Toronto, being the first to register at the Victoria House, McCracken's Landing. Mr. Stubbs is the secretary of the National Sporting Club of Toronto, and is visiting the lake with the intention of procuring a cottage or an island on which to build.

A Large Car.

Yesterday many citizens wondered what a solitary individual was doing on a tank car all day long at the foot of Simcoe street. The gas works got in a car of oil from Petrolia a day or two ago, and when they tried yesterday to connect it, as usual, with pipes running to their underground oil reservoirs on Simcoe St., it was found that the car did not have the proper attachments with which to connect it. A man had to pump it out by hand, and it being the largest car that ever came to Peterborough, both he and the gas authorities had their work cut out, as the reservoirs were filled long before the car was emptied. There was great hunting throughout the town to procure suitable barrels to hold the over-plus of oil.

TO SUCCEED LESSAR

New Russian Minister to China Appointed

Pekin, April 28.—M. Pokotiloff, one of the directors of the Russo-Chinese Bank, has been appointed Russian Minister to China, to succeed M. Paul Lessar, who died recently. M. Pokotiloff has had many years' experience in Chinese affairs, and is considered very suitable for the position. His selection, however, created surprise, as he has hitherto held no diplomatic appointment.

The American Girl.

WHAT MAKES HER POPULAR.

The American girl is admired and liked at home and abroad because she is the happiest, usually the healthiest and friendliest of girls. She is fond of life and is alive to everything beautiful and good in existence. Mrs. Langtry has said that the American woman has little to learn from her English sisters.

Dr. Pierce, the specialist in women's diseases, of Buffalo, N. Y., advises simple exercises for women, preferably in the outdoor air. But many women are confined to the house and their household duties or their business confines them to poorly ventilated rooms.

If a woman suffers from a headache, a backache, a sensation of irritability, or twitching and uncontrollable nervousness, something must be wrong with the head or back, she naturally says, but all the time the real trouble very often centers in the womanly organs. In 98 per cent. of cases the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure All they ask is a fair and reasonable trial of their means of cure.

Sport and Adventure with Rod and Gun

AND STREET IMPROVEMENTS FOR THE CITY

The Board of Works Have a Big Contract Before Them--Reports of the Finance Committee and Committee of the Whole.

(Continued from page two.)

Water street, from Smith to Argyle streets, to be watertabled and holes filled. From Auburn dam to North boundary mud holes to be scraped out, roadway to be laid with heavy gravel. This is close to gravel pit and can be done cheaply.

London street, between Reid and Donegal streets, to be watertabled and gravelled.

Lisburn and Moir streets are in bad condition, but being only 20 foot lanes it was not considered advisable to recommend any expenditure at present.

Carlisle avenue to be gravelled from Ward 5 gravel pit and culvert put in.

Rogers street, gravel at Meins's house to be taken in exchange for street scrapings. At corner of Douro street encroachment by D. McGregor and W. O'Brien to be removed off street.

Sophia street, between Rogers and Mark, to be watertabled and raised with gravel.

Concession street, north of Sophia street, to be water tabled and holes filled on face of hill. South of Sophia street, edges of embankment to be rounded off to allow of water running off road and holes to be filled.

Aylmer street, London to Edinburgh street, road to be watertabled.

Brock street, between Bethune and Rubidge street, to be graded, and watertabled. Stones in roadway to be removed or broken.

Downie street, at intersection of Brock street, culvert to be replaced with pipe drain across Brock street, ditch running north to Murray street to be deepened to carry water to creek. Roadway to be raised with gravel.

Homewood avenue, between Walton street and West boundary, to be graded, watertabled in part and rolled.

Dalhousie street, to be watertabled from George to Aylmer.

As the Canadian General Electric Company intends to extend the stores building 250 feet westward, they request that the road be watertabled to a distance of 5x0 feet west of Park street and the tile drain extended to that distance. Also that gravel be laid in part where the the ground is soft.

Park street, south of Albert, sides to be scraped off to allow water to run off road and holes filled with gravel. Sidewalk to be built over ditch on west side from Rink to Albert street.

Chamberlain street, to be graded, watertabled and gravelled and rolled, after new sidewalk is built.

Perry street, between Bethune and Stewart streets, to be graded and rolled.

Stewart street, between Rink and Perry streets, to be opened for traffic. Canadian Pacific Railway to be requested to plank crossings of tracks and provide waterways under them, and remove telegraph and pumpstore posts now in the way.

Townsend street, between Stewart and Aylmer streets, sidewalks to be continued across gaps in several places. Between Aylmer and George streets, rubbish dumps to be scraped down side slopes into water holes and roadway trimmed up.

Hunter street, east, sidewalk at Faint's factory to be levelled up, ariberwork below to be straightened and filled with stone, to prevent its being pushed out by roadway embankment.

Burnham street, between Hunter and James street, to be watertabled, holes in roadway filled and pipes laid under driveways on east side.

Maria street, between Hunter and Robinson street, to be watertabled and holes filled with gravel.

Hunter street, between raceway bridge and Burnham street, to be watertabled and stones broken.

21. That the horse roller be kept in Ward 5 for use on roads there.

22. That a petition for a granolithic sidewalk on the south side of Murray street from George street 70 feet east having been examined by us and found to be sufficiently signed be granted, and that it be built outside the tree line.

23. That Rubidge street, from Rink street to Charlotte street, be graded and rolled.

24. That tenders for the construction of the outfall sewer and sentification tank in Ward 5 be advertised for by posters and in the Contract Record, the tenders to be received up to May 15th.

All of which is respectfully submitted.

Adopted as read.

COMITTEE OF THE WHOLE.

Gentlemen.—Your Committee of the Whole Council beg leave to report and recommend as follows;

1. That the Finance Committee be requested to consider the matter of purchasing a map of the town owned by Mr. G. W. Ranney, and now in the possession of Mr. T. F. Matthews, and to report.

2. That the matter of hospital treatment of contagious diseases be referred to the Board of Health to make the best arrangements they can in regard to the matter.

3. That the Property Committee enquire into the cost of procuring illuminum street signs for street corners in the fire limits and report.

4. That a bylaw be passed to regulate the storage of benzine in accordance with the requirements of the Fire Underwriters Association.

5. That Mr. W. H. Thompson be engaged to assist the Town Engineer to make a valuation of the land that will be benefitted by the proposed diversion of the streets in Ward Five, and that the Treasurer be authorized to pay him on the certificate of the Town Engineer.

6. That the Town Solicitor be authorized to engage counsel in the case of Armour v. Peterborough.

7. That the taxes charged against lots 110 and 111 north of Maria St. be remitted.

8. That the Mayor and Town Solicitor be appointed to attend the Private Bills committee of the Legislature when the town's bill comes before that committee and that the Treasurer be authorized to pay their expenses.

9. That the Clerk procure a Corporation Seal for the City of Peterborough in accordance with a design made by the Town Engineer.

10. That the Chairman of the Board of Works be authorized to procure a bicycle for the use of the Street Commissioner.

All of which is respectfully submitted.

Adopted as read.

FINANCE REPORT.

Ald. Mason submitted the following;

Gentlemen.—Your Finance Committee beg leave to report and recommend as follows;

1. That the following accounts be paid;—

Gutta Percha & Rubber Co.	$502.70
R. Gibbs	3.50

2. That the Treasurer send an account to the Bank of Nova Scotia for four tons of coal at $7.50 a ton.

3. That the payment of $8 05 to R. W. Errett for inspecting scales on the market be approved.

4. That the Treasurer send an account to the Peterborough Radial Railway Company, for $6.00 for expenses incurred in flooding their skating rink.

5. That all employees of the town be paid by cheque, and that the foreman distribute the cheques to the men employed on street work.

6. That the printing required by the town be distributed among the printing offices in the same way as in recent years except that F. F. Garden be given a portion of the general job work.

7. That 200 copies of the Auditors report be printed.

8. That G. K. Martin and T. Q. Quartermaine, the auditors, be paid $135 each for their work this year.

9. That the request of I. Minicola for a refund of part of a pedlar's license fee paid by him be not granted.

All of which is respectfully submitted.

Adopted as read.

Delegates to W.F.M.S. Convention

MAY 2ND, 3RD AND 4TH

An index to the list of delegates to the W.F.M.S., to be held in Peterborough Wednesday, Thursday, and Friday, May 2nd, 3rd, and 4th, with the locations assigned to them during their visit is given below. SBARRETTI REPORTS TO POPE DENIES ANY UNDERSTANDING

Gives Most Detailed Particulars Along Lines of Statement Published From Ottawa, Denies Emphatically That He Had Any Understanding With Premier Laurier—Mer y Del Val and Pope Discuss It.

Rome, May 1.—The Vatican has received from Mons. Sbarretti, the apostolic delegate at Ottawa, a full report concerning his alleged interference in the Manitoba boundary extension.

Mons. Sbarretti gives the most detailed particulars of the whole affair, denying emphatically that he had any understanding with Premier Laurier or other members of the Canadian Government to have the Catholic school question connected with the extension of the boundaries of Manitoba.

He only admits that he met Attorney-General Campbell of Manitoba, and discussed with him the best means of ameliorating the educational system in connection with Catholics, and also in the interests of Manitoba, as otherwise the territories where the Catholics are entitled to Separate schools would be opposed to joining Manitoba.

Cardinal Merry del Val, the Papal secretary of state, took the report to the Pope, and they had a long discussion on the subject.

Police Court

OFFICIALS

Chief of Police, G.I. Rust
Magistrate, D.W. Dumble

At the opening of Saturday morning's Police Court, the Chief in stentorian voice called "David Kelly, David Kelly, David Kelly," but David did not answer "Present." He had been summoned for non-payment of last year's statute labor tax. Officer Adams testified that he had left the summons with Mr. Kelly's wife, and that the wife had since, told him David had received the polite invitation for the pleasure of his company at the Worship's daily "At Home." The Magistrate simply remarked $6, and then added that David would have saved money by appearing and whacking up his $1.05 tax on time.

The next case was that of a disturbance of the peace in a public place, preferred against Wm. Brown, the place, Aylmer street, the disturbance, a fight, or as his Worship described the incident "a scrap." Mr. Brown pleaded guilty but witnesses gave evidence, who said that Brown and a young maff named Davy had a dispute resulting in a scrap; but that the greater part of aforesaid scrap, occurred on private property. Brown was discharged.

Edward Davy, the young man, who held up the other end of this scrap, was also charged with the same offence. At the same time and place. The evidence seemed to show that he had in some way provoked the trouble, which set him back $2. It was a cash transaction.

The next case caused some sensation as a lady fair was the defendant. Mrs. Facey, a well dressed young woman, who lives on Waterford street has a tongue. As the good book says "The tongue is a little member, etc;" and the fair defendant knows, judging by the sworn testimony of several witnesses. How to misuse it. A man named Brown, who resides near Mrs. Facey, was a few days ago, sitting on his verandah, overlooking the Facey homestead, and hearing a disturbance arising from some children near by, tried to play the part of peace maker, with the usual result. Mrs. Facey, called him some names that broke the lead out of our reporter's pencil when he tried to render them phonetically, and were, to say the least, obscene and filthy. Brown said that he had become involved in the trouble by saving a small boy from being thrashed by a larger one. He further said that the defendant supplemented the tongue thrashing she gave him, by giving him a slap in the face. She also told him to take his red-headed brats into his own house. The altercation attracted the attention of passers by, who stopped to see the dispute.

The next witness, by name, Parker, said that he had seen one of those fighting before Brown interfered, made a motion as though to draw a knife from his pocket, and prevented this. He also testified to the filthy language used by Mrs. Facey. The defendant called her husband, William Facey, as witness for the defence. He had heard the woman use no bad language. His Worship assessed the woman in the sum of $4.00 to be paid in ten days, or ten days in jail. The lady produced her pocket book and justice smiled.

CHURCH LOAFERS

Ladies and Children Have to Run the Gauntlet Every Sunday Night

Every young man who knows how to behave himself decently, and puts his knowledge into practice, is heartily welcome in every church in Peterborough. Not only are they heartily welcome when they enter, but most of the churches cordially invite them to come. There are a great number of young men in this town, with the advent of warm weather, make a weekly practice of hanging about the entrances of our different churches just prior to commencement of the services, to ogle and pass audible remarks on ladies going into these sacred edifices to attend Divine service, and who, or at least a great majority of them, disband until about the time that the thirdly and lastly climax of the sermons, or final hymns and blessing denote that the congregation are about to disperse; then they again line up before the church portals, generally augmented by others who are really there for a legitimate purpose.

It is embarassing for ladies and children to have to twice run the gauntlet through this crowd of loafers. Last night a police officer had to make several gangs move on.

In front of All Saint's there was a crowd of perhaps 40 young men simply loafing about the door. In front of another church they actually lighted a bonfire to keep warm, until the second line up, when they could stare at and pass remarks upon those leaving the building.

MAKING DIRECT PROPOSAS TO END FIGHT WITH RIDER

Government Willing to Leave Educational Clauses Subject to Legal Opinion on Constitutional Phase, and Some Opposition.

Ottawa, May 1.—The Government has made up its mind not to force the Autonomy Bill through the House in its present form. It sees clearly that there is a great deal of doubt as to the legality of the educational clauses of the bill, and that to pass them would be to pave the way for endless litigation.

This view of the case is finding support among the party generally. It also appears to provide the Government with the means of relieving the crisis. There is every reason to believe that the Government now proposes to pass the bill with a rider declaring that the educational clauses shall come in force only when they have been found to be constitutional by a reference to the courts.

But this is not all the Government's game. It is trying to rope the Opposition into its plans. George Taylor's speech on the Autonomy Bill goes to show that approaches have been made to the Opposition along the lines of a reference of the educational clauses to the courts. The Government has asked the Opposition to abandon the fight in consideration of the insertion in the bill of this condition, and it looks very much as if some Conservatives were biting at the bait.

LARGE INCREASE

Customs Receipts for This Show a Gain of $23,242 for April.

A good barometer of the mercantile and industrial progress in any city is a statistical comparison of imports and exports. The customs receipts of this port, furnished by courtesy of the local officials in the Customs House shows an increase in collections for April, 1905, of $23,242, over the corresponding month of last year. The figures are;

Collections.	
April, 1905	$46,168.86
April, 1904	22,926.92
Increase	$23,241.94

EXTENSION ASSURED

C.G.E.Co. Buy More Land Indicating Surety of Enlargement.

That the C.G.E. Company will build a large addition to their works is now practically certain. Saturday morning a deal was closed by the Company for the purchase of a plot of land on the corner of Park and Albert streets, which will give the Company a frontage on the former street from Townsend to Albert streets.

The intention of the Company, it is understood, is to extend their buildings on Park street to the limit of the property recently acquired from the Theobold estate. The plot purchased is 200 x 160 feet in size.

This means that at least two large additions will be made to the works, as the company has already announced the intention to erect a 250 foot extension on Townsend street.

REMARKABLE DEMONSTRATION.

Mayor Best and Many Citizens Amazed to See Fire Extinguished Instantaneously.

At three o'clock Saturday afternoon, Mr. Whaley, representative of the Diamond Dry Powder Fire Extinguisher Company, of Toronto, gave, on the Market Square, an interesting exhibition of the practical working of the Diamond Extinguisher. The Mayor and many prominent citizens present, were greatly impressed with the results attainted.

A wooden structure, 10 feet high, 4 1-2 feet wide, and three feet deep, fitted with pine strips covered with pine tar and four gallons of coal-oil was set afire, and oil freely thrown over it until the flames roared furiously. Then Mr. Whaley threw a little of the Diamond Dry Powder over it which instantaneously extinguished every spark of fire. The Mayor and those present, expressed their complete approval of the marvellous way in which this caring blaze was in a moment killed out.

The Diamond Extinguisher, which certainly does its work thoroughly, is very simple, being a tube some two feet long and filled with dry powder.

SEEDING IN THE WEST

C.P.R. Reports Show That the Greater Part of It is Done

Winnipeg, Man., April 29. — The Canadian Pacific crop reports show that at many points along the line seeding has been almost finished. This applies more particularly on the Broadview section, where the majority of the stations report 90 per cent. of the work done. Taking the sections in detail, the average is high. On the Brandon section it is estimated that 40 per cent. of the seeding is finished. Of the total on the Broadview section 80 per cent. is done. The same percentage applies on the Moose Jaw section, where there is an increase of about 4 per cent. in acreage. Caron, the only point on the Swift Current section, reports 90 per cent. done. The Le Riviere section reports 40 per cent. The Napinka section reports 75 per cent. The Souris section reports 50 per cent. The Estevan section, 80 per cent. The Emerson branch and Teulon branch report seeding but nicely commenced. The Tilly Minedosa section reports 75 per cent.; the Portal section, 68 per cent.; the Prince Albert branch, 82 per cent.; the Yorkton section, 75 per cent.; the Lenore branch, 50 per cent.; Rapid City section, 75 per cent.; the Miniota branch, 70 per cent. done; Pleasant Hills branch, 70 per cent.; Arcola branch, 80 per cent.; Lyleton branch, 75 per cent.; Brookdale branch, 77 per cent.

The general feeling throughout the country is most hopeful, and, with sufficient rain, there should be a good crop, as the seed is in early enough and the land is in good shape.

INFLUENTIAL CONTINGENT OF RAILWAY MEN FROM ALL OVER THE WORLD TO VISIT CANADA.

The arrangements for the long tour of the delegates to the International Railway Congress, which is to be held at Washington, D. C., the early part of May, have been completed and include in the itinerary a trip through a portion of Canada. The party who will take advantage of this trip will be composed largely of over-sea delegates, who would naturally desire to travel over the Grand Trunk Railway System, the pioneer railway of Canada and of which they have for so many years heard a great deal—particularly now that the new trans-continental line—the Grand Trunk Pacific—is an assured fact, and that the Grand Trunk is the only double-track line between Chicago and Montreal and the principal points in Canada.

The party will leave Washington on the evening of May 14th and after visiting several of the principal cities in the West, will be taken by the Grand Trunk in a special train, leaving Chicago on the evening of May 22nd, reaching Niagara Falls early next morning, at which point they will be shown the attractions of Niagara and given an opportunity of inspecting the electrical developments which are now under way at this point. Leaving Niagara Falls at an early hour the next morning, the party will proceed over the double-track lines of the Grand Trunk en route to Montreal, arriving at Lachine Wharf at 4.00 p.m., the same day, taking special steamer there and running the Lachine Rapids arriving Montreal 5.00 p.m., where carriages will be in waiting to drive them around the city, ending up at "Montreal Hunt," where dinner will be served. On the morning of May 25th they will board their special train, which will leave Bonaventure Station at 9.00 a.m., en route to New York. The delegation will be a most influential one, comprising the heads of many foreign railroads in Great Britain and on the Continent and exceptional facilities will be arranged for them to inspect the improvements that have been completed in recent years on the Grand Trunk, and that have solved engineering problems entirely new in Canada and which have rendered the line equal, if not superior to any railroad in America. The progress of these huge undertakings have proved most interesting to those who have been familiar with them and a resume of the principal features of reconstruction and improvements that will be brought to their notice will be of paramount interest to the visitors.

NEWS THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists

—The William Hamilton Manufacturing Company has been awarded the contract by the Department of Railway and Canals, of equipping the new dredge "Emmerson" which will be used in connection with the Trent Valley Canal construction work. The company will furnish the engine, boiler, hoisting apparatus, etc., and will start work on the contract in a few days.

U. S. Colonel Cured of Rheumatism

So Crippled He Couldn't Walk—Absolutely Helpless Till He Took the One Sure Cure.

FERROZONE

Effect at Once—Cured Permanently—Well Ever Since

Colonel H. M. Ruse, of Edwards, St. Lawrence county, N.Y., is one of the fine old heroes of the Civil war.

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

No matter how long you have suffered Ferrozone will bring you prompt relief. It will increase your strength, renew your vitality, drive out every trace of rheumatic pain. Never known to fail; 50c. per box, or 6 for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock. The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 1 1905

SEWERS AND SIDEWALKS

AND STREET IMPROVEMENTS FOR THE CITY

The Board of Works Have a big Contract Before Them—Reports of the Finance Committee and Committee of the Whole.

At the special meeting of the Town Council, Friday night, the following reports of committees were submitted:

BOARD OF WORKS.

Ald. Adams submitted the following:

Gentlemen,—Your Board of Works beg leave to report and recommend as follows:

1. That the following tenders for street watering be accepted:

Northern district, Zimri Blodgett, $270.

Southern district, Thomas Williams, $350.

Western district, George McClennan, $324.

Eastern district, Albert Valois, $300.

2. That the construction of the proposed sewer on Weller street, from the end of the present sewer to the Monaghan road, be not proceeded with.

3. That notice be given of the intention of the Council to construct sewers as local improvements on the following parts of streets: Park street from King street to Sherbrooke street, and west on Sherbrooke street to Park street, and south on Park street to Rink street; on Reid street from Charlotte to King street; on Aylmer street, from Rink street to Lake street; on Lake street from Aylmer street to Crescent street, and on Barnardo avenue from George street to Church street.

4. That notice be given of the intention of the Council to construct granolithic sidewalks as local improvements under section 678 of the Consolidated Municipal Act, 1903, on the following streets or parts of streets: Hunter street, both sides, from Bethune to Rubidge streets; Simcoe street, both sides, from Bethune street to Rubidge street; London street, north side, from Aylmer to Reid streets; Antrim street, north side, from George street to the Grand Trunk Railway; Reid street, east side, from McDonnell to Hall street; Brock street, south side, from George to Water street; Brock street, north side, from Rubidge to Reid street; Queen street, west side, from Hunter to Simcoe street; Murray street, north side, from College to Dickson street; Bethune street, east side, from McDonnell to London streets; Simcoe street, north side, from Water to Queen streets; Water street, west side, Simcoe street to Market square; McDonnell street, north side, from Downie to Park streets; Argyle street, south side, from Water to Sunnyside streets; Hunter street, south side, Mark to Rogers streets; Rogers street, west side, Hunter to Robinson streets; Rogers street, west side, lot 5 plan 17 to Hazlitt street; Smith street, north side, Water to Harvey streets; Edinburgh street, north side, from George street to the Grand Trunk Railway; Edinburgh street, south side, from George to Union streets; Smith street, north side, from Reid to Downie streets; Downie street, east side, from Smith street to Victoria avenue; Sherbrooke street, north side, from the junction of Park and Reid streets to Monaghan road; Harvey street, west side, from Smith to Antrim streets; King street, north side, from George to Aylmer streets, except at the bridge; King street, south side, from Aylmer street to bridge over creek; Scott street, south side, from Rubidge street to Reid street; Bethune street, west side, from Edinburgh to Antrim streets; Aylmer street, east side, from McDonnell street to half way between London and Dublin streets, where the culvert interferes.

5. That the sidewalks on Brock and Murray streets, east of Water street, be built inside the trees.

6. That the Chairman of this Board be authorized to engage Alex. Fitzgerald to superintend work on the streets, when needed, at $2.00 a day, and that he be paid on the certificate of Town Engineer.

7. That the Street Commissioners be authorized to procure a plow suitable for street work.

8. That the Street Commissioners or foremen report their pay lists to the Town Engineer, and that both the Engineer and Commissioners or foremen sign the pay lists, and that each commissioner or foreman furnish the Mayor with a duplicate of the pay lists and where the work is done.

9. That two crossings on Perry street, asked for by W. Stocker and S. J. Augienye, be granted.

10. That the following petitions for the construction of granolithic sidewalks, as local improvements, having been examined by us and found to be sufficiently signed, be granted: On Rubidge street, west side, from Dalhousie to Wolfe streets; on Downie street, west side, from Charlotte to Simcoe streets; and on Weller street, north side, from Park street to Monaghan road.

11. That a petition for a sewer on Harvey street, from Smith street to Antrim street and on Antrim street from Harvey to Water streets not being sufficiently signed be not granted.

12. That the following petitions for sewers as local improvements having been examined by us and found to be sufficiently signed, be granted: On Brock street, from Park to Downie streets, and on Downie street, from Brock to Murray streets; on Homewood avenue, from eastern limit of lot 27 to Babb's lane.

13. That as a petition for a sewer on Simcoe street, from Bethune to Stewart streets, is not sufficiently signed it be not granted.

14. That requests for a crossing at Park and Romaine streets, at No. 595 Rubidge and 850 Water be granted.

15. That the Street Commissioner be authorized to build a shelter and tool house at the gravel pit.

16. That the Street Commissioner be authorized to sell street scrapings that the Town does not require and that the Treasurer be authorized to receive money paid for them as certified by the Town Engineer.

17. That the re-appointment of Wm. Downer as caretaker of the Locks bridge be approved and that he be paid $62.50 a year as the Town's share of his salary, payable quarterly, to date from January 1st, 1905.

18. That the purchase of lumber and nails required be left in the hands of the Chairman of this Board.

19. That the Chairman be authorized to order a car of cement from the Peterborough Hardware Co., subject to the specifications and inspection as in proposed contract, with the condition that if the contract is not adopted by the Council and executed by the Company this order will not commit the Town to the contract.

20. That the following improvements in the streets be made: Murray street, between George and Water streets, to be cut down to grade of George street, and between George and Aylmer gutters to be graded to allow of carrying water off Central Park. Gravel from this work to be laid on Murray street west of Aylmer and on Stewart street between Murray and McDonnell.

McDonnell street, between Bethune and Downie streets, to be water tabled, broken stone laid and rolled.

The culvert on Aylmer street to be temporarily repaired. Survey and estimate for diverting creek down Aylmer street direct, in lieu of present route by McDonnell and Bethune streets. If this diversion is practicable the present culvert on Bethune street, from McDonnell to Murray, to be replaced by pipe drain and the part on McDonnell street filled in.

Survey and estimate to be made for diversion of creek via Barnardo avenue, Inverlea street, and through the park to the river. Or as an alternative route, via Edinburgh street. It is contemplated that this will dispose of the heavy freshets and allow the watershed south of this point using carried by present route with a smaller culvert or pipe.

Smith street, at the corner of Benson street, culvert across Smith street, west of the railway, to be cleaned out and renewed if necessary. Between Reid and Dixon streets to be water tabled and holes filled with gravel.

Downie street, from Smith street south, to be watertabled and culvert put in across Smith street. Roadway rounded up and holes filled. North of Smith to be deepened.

(Concluded on page four.)

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 90 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Performance Not Promises

There is all the difference in the world between promise and performance. There is even a greater difference between promise and performance. In the former case you form your own opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take some one's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case is a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless

(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since mid-summer.

The Canadian Company has already completed a net work of successful stations along the St. Lawrence Gulf and there are on Canadian soil thirteen stations already in operation. The Company has already been authorized to build four more stations at prominent points during the coming summer. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation at that point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises—they are performances. Compare what Marconi has done with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they?" The same encouragement itself, can you not foresee the great future this Company has before it? Do you not wish to become a sharer in the success which is at its door? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide [illegible] for settlers, or for other purposes, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

THE

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company, which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, for preceding each year, the increase in agency insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

G. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Bromptonville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Crombie, Esq., Kingsbury, Que., of Williamson & Crombie, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. N. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 16, Victoria Arcade Bldgs., Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

Is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

W. BAILSBURY,
PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,000,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 3 full fized mining claims of 5 acres each, two mill sites of 5 acres each, the sunflower placer of 80 acres and the Ora tunnel site 3,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 700 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 20 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakers rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter B. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion, and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines. Had tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for

BEFORE TREATMENT baths, but received little benefit. While AFTER TREATMENT at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

INVESTIGATE AND YOU WILL BUY

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the B. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over 900,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 25c. per share. You cannot afford to miss this opportunity; investigate at once.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

Tonopah-Crow Mining Stock 18c.

The property of the Tonopah-Crow Company is at Crow Springs, near Tonopah, Nevada; six mining claims and one mill site, 125 acres, crossed by more than 100 ledges; average value of ore so far opened about $54 a ton; 500 feet of development added to the principal workings on this property would expose 10,000 tons of ore worth $500,000. Its mining and reduction would leave a profit of more than $200,000. A hoisting plant of 500 foot capacity will soon be installed. This will soon be one of the best dividend payers in the section. An absolutely safe investment; selling at 18c. a share. Par value of stock $1.00. Send in your order now.

The Stubbs Investment Company,

Albuquerque, New Mexico.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Additions and alterations. Drill hall, Toronto, Ont.," will be received at this office until Friday, April 28, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

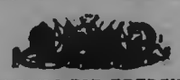
An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works.
Ottawa, April 18, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.



TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ADVERTISE IN THE TIMES

CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY,
CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share--Full Paid--Non-assessable

THE RUSSELL MINING COMPANY

Was organized under the laws of Arizona with a capital stock of $500,000, divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado.

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was taken at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,200 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 420 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 oz. gold and 13.35 oz. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 0.9 oz. gold and 5.95 oz. silver, or a value of twenty-one ($21.00) dollars per ton. The average of eight assays over 38 feet in the west drift gave $55.53 per ton, and from over 40 feet in the east drift, nine assays averaged $163.77 per ton. It is proposed to sink the main shaft to the 500 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 151 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 2. The drift from the Old Town shaft, referred to above, was run nearly 300 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,500 feet. Taking the 1,500 feet along the vein from the 600 to 1,500 foot levels with the average width of three feet for the vein, and we have a product of 337,343 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $5,057,250.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 30 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russel Claim would be nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developments in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 2,000 feet by 50 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $100,000 per year for the past three years, and is now working at a depth of 1,500 feet and has just completed the installation of larger machinery preparatory to increasing its output this year. The Topeka, which has produced over $2,000,000, and the Wauloga, which has a production credited to it of over $7,000,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 150 feet of the drift, run at the 200 foot level, from the Old Town shaft, ranged in value from $2.64 to $275.52 per ton, the average being $60.72 per ton. The development of other mines in this district has shown the veins to be strong and persistent to great depths, the California mine near Central City is now producing from a depth of 2,200 feet.

TRANSPORTATION.

The Tram Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 200 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,000 to 2,200 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stoping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date. The predecessors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best-paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Minstock to investors in order that they ing Company is therefore offering its may participate in this enterprise which bids fair to become one of the best mining propositions in the West. The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in this proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to complete payments of the original bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

THOS. PATTERSON & CO.,
Fiscal Agents, Peterboro.

MISTAKEN FOR BURGLAR

Pittsburg Millionaire Spends Night in the Cells

Pittsburg, Pa., April 29.—Mistaken by a policeman for a burglar, James B. Laughlin, treasurer of the Jones-Laughlin Steel Company, well-known in society, and worth $5,000,000, was placed under arrest early this morning by Policeman Philip Rimlinger, and taken to the station in a patrol waggon, where he passed the night in a cell with a pickpocket on one side and a "drunk" on the other. Although he offered to write a personal cheque for any amount up to a hundred thousand dollars and post it as a forfeit, he was told by the sergeant to "explain to the judge in the morning." Laughlin spent last evening at the Duquesne Club, and soon after midnight started for home in a carriage. He lives in a mansion at the corner of Centre avenue and Negley street, surrounded by several acres of ground. That his coachman might get to bed, he dismissed him near the stables. He was walking towards the house when he was arrested.

TRADE OPENINGS IN JAPAN

Canada Has no Tariff Treaty and is Handicapped

Ottawa, April 29.—Mr. Alex. McLeod, Canadian commissariat agent to Japan, states that there is an excellent market in that country for a fertiliser which can be imported free of duty. The amount of this imported last year was $905,803.

In the way of leather goods, Mr. McLean thinks that Canada could compete so far as prices and quality are concerned, but she is handicapped by not having any tariff treaty with that country, and comes, therefore, under the Japanese ordinary tariff. The only British countries at present getting the benefit of the Japanese preference are India and New Zealand. In this connection, Mr. McLean forwards an extract from a Japanese paper, whose English name is The Times of Japan. The paper advocates tariff treaties with Canada and Australia on the ground that these countries are suitable for Japanese emigration, having vast tracts of land to be opened up.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1859 to 1903 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
2000 feet on Monroe dyke 12 feet wide	10.3
4500 feet on Arapahoe dyke 22 feet wide	15.3
6000 feet on Klondyke ore channel 80 to 100 feet wide	20.4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost $15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and working tools; estimated value $6,000.00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000.00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.

No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	8
Number of tons concentrated per day	8

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 8 tons mill ore of value of $12 00 allowing 10 per cent loss in saving	88.00
Net value after deducting expense of mining and milling per day	80.00
Net revenue per day from 8 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6,000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	130,000 00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 600,000 shares in treasury reserve fund which draws no dividend $120,000.00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$50 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 the energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

BOULDER, COLORADO

Marconi Wireless

How Great Fortunes Grow

On the American continent there is no more interesting story of fabulous wealth, built up from small capital, than that presented by those who had the foresight to become interested in such successful inventions as the **Edison Electric Light, Bell Telephone, Westinghouse Air-Brake** and the allied gifts of our great inventors' brains.

A few thousand dollars, in one instance after another, has grown to millions; even the man with a few hundreds wisely invested during the early stages of those things which satisfy a public demand stands to-day with unlimited wealth to gratify his every need. The

Marconi Wireless Telegraph Co., Ltd., of Canada

is an exact parallel to these previous inventions which brought affluance and comfort to their promoters. Its future will see a corresponding enhancement of value. Now is the time to identify yourself with this prosperous and rapidly growing enterprise, and in future years you will, without further effort, reap abundant reward in the growth of your money.

The growing demand for this stock, which can now be bought at par, will carry it to higher and higher levels. Do not wait until the Company has developed to its utmost and the price of its stock has risen to its highest level. You can purchase any amount of stock from one share to two hundred shares at $5.00 per share. That price will advance in the early future to an amount equal to hundreds per cent. in dividends and you should make an immediate purchase in order to take advantage of that increase.

DON'T DELAY BUY TO-DAY

Address all communications and make all checks payable to

TURNED DOWN

Peterborough Hotel Men and Grocers Decline to Listen to the Charm of the Combine.

In Saturday's issue we noted that a representative of the Ontario Brewers' Association, was canvassing the town, trying to get the local license holders to sign contracts for cheap beer. The term cheap is ill-advised, as, although the association agree, for a limited time, to give a great cut in prices, the ultimate result, should they attain their object of freezing out the local brewery, would mean dear beer as soon as they got a monopoly of this territory.

The local hotel men, with only two or three exceptions, who were compelled by existing circumstances affecting their individual business, to buy some beer from the association, refused to go back on Peterborough made beer, and a Peterborough industry, or to play into the hands of outsiders. The new maister at the Calcutt Brewery, is stated to have said that although he has worked in other breweries, this is the first industry of its kind he has entered, where a regular chemical department was not a leading feature of the brewery. It surprised him to find a brewery where only the pure malt and hops is used.

HEAVY DAMAGES.

Miss Talbot Receives $2,500, and Miss Delaire $1,000 Damages.

In the long talked of suit entered by Miss Edith Talbot and Agnes Delaire, for damages for injuries sustained in the accidental falling of an elevator in Messrs. Richard Hall & Son's Dry Goods House, the jury on Saturday awarded Miss Talbot the large amount of $2,500 in partial compensation for the severe injury and consequent shock she received; Miss Delaire was given $1,000 for the same reason.

Whilst it is only fit and proper that these ladies should receive some tangible compensation for their weeks of illness, and possible permanent injuries received, through no fault of their own, it seems hard that Messrs. Hall and Son should suffer for an accident for which they were not distinctly responsible. This firm is one of the last who would knowingly allow either the public or their employees to run any danger of harm.

The jury had some difficulty in agreeing in the matter, and were in deliberation for four hours before an agreement was reached.

Judgment was Friday night reserved in regard to the application entered by defendants for a non-suit. An appeal will, it is understood, be entered against the finding of the jury today, by defendants.

The evidence given by Mr. Jas. Dolan was very largely responsible for obtaining this son of Italy his freedom once more. Mr. Dolan had happened to witness the affair which gave rise to this case, and his evidence tended to show that Gillionardo was justified in the course he took. The prisoner, who does not speak English was quite dazed when the jury rendered their verdict, and evidently misunderstood the purport of their decision, as he started to accompany the officer in charge to his former place of detention.

The action for damages entered by Thos. J. Ritchie against the Peterborough Canoe Company has, it is understood, been settled out of court, damages of $220 having been allowed plaintiff.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Miss Nellie Glass of Peterborough, who spent Easter in Toronto, has returned home.

—Mr. John Deyell's friends will hear with sorrow that he is not recovering as fast as they could wish.

—Mr. Walter Eastland has gone to Cobourg to take a position with the Crossen Car Works in that town. He has been employed here in the Peter Hamilton, Mfg. Co.

—Hon. George A. Cox, Mr. and Mrs. E. R. Wood, of Toronto, and Mr. W. G. Morrow, town, will leave to-morrow for the Old Country. They will be absent a couple of months.

—Mr. B. T. Hooper, who is on the staff of the General Superintendent of the C.P.R., Montreal, spent Sunday in town. He was on a visit to day in town. He was on a visit to his friend, Mr. W. A. Boom, of the Bank of Toronto, here.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The schools will re-open this morning.

—A new cottage is being erected on Mr. E. H. D. Hall's island, Stony Lake.

—To-morrow night, the committee to arrange for the city inauguration celebration will meet.

—The Ontario Bank now has a list open for the reception of subscriptions for Canada's new battleship, the "Dominion."

—A drowning accident occurred at Campbellford on Thursday, by which a boy 11 years of age, son of Moses Peeling, lost his life.

—A new lodge of the Canadian Benevolent Protective Order of Elks will be organized in Peterborough on Wednesday night next in the Foresters' Hall, Simcoe St.

—The regular Sunday afternoon meetings of the Y.M.C.A. were resumed yesterday afternoon and will continue every Sunday for a few weeks. Rev. J. G. Potter was the speaker yesterday, and Miss Annie Pedlar sang.

—The Bulgarians, who were so unwelcome in this town during their visit a few days since, are now in Enniskillen. The good farmers of that township do not take kindly to these itinerant beggars and fortune tellers, and want them to "keep amoving on."

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography. His Work. Studio, 134 Brock street, Peterborough.

NO COMPROMISE.

Ontario License Inspector Tells Grocers That Liquors Must Be Absolutely Necessary.

The Chief License Inspector from Toronto, was in town all day Saturday, and in the course of his duties visited many hotels and retail liquor stores. One result of his visit is that several of these grocers, to whom licenses had not yet been granted, will receive the coveted permission to sell liquors. They have been given, in no unmistakeable language, to understand that no compromise or nonsense will be winked at. They must have absolute and final separation between the two branches of the grocery and liquor trade.

They must have the necessary separations completed within three months or their licenses will be cancelled. It is understood that one head has fallen in the Fifth Ward.

The Queen's Hotel will in all probability get their license.

ODDFELLOWS AT CHURCH

Good Turn Out Last Night by Local I.O.O.F. to George St. Church.

Last night the members of Otonabee and Peterborough Lodges, I.O.O.F., went in procession, decorated with the usual badges, and officers with the regalia and emblems of their rank, to hear their annual sermon. About 200 of the brethren turned out, and a fine body of men they were. Rev. Dr. Crothers, who preached a splendid sermon, replete with reference to the Order, and the good accomplished by the I.O.O.F., took as his text, "No man liveth to himself alone, and no man dieth for himself." The eloquent divine in the course of an eloquent address, referred feelingly to the well known motto of the Order "F.L.T., Friendship, Love, and Truth," as well as the three links, showing conclusively how appropriate was the motto, judging by the purposes and deeds accomplished by the I.O.O.F. On conclusion of the service the brethren returned to their respective lodges and shortly dispersed.

FOOTBALL.

There will be a practice of the Quaker Football team to-night.

BASKBALL.

Toronto was defeated at Rochester on Saturday by 13 to 2.

The Toilers in Our Factories.

No workmen in the world can do so much or use the same intelligence that our own American workmen and women are capable of. That is why America is now beating the world in manufactures; all due to the brain and muscle of our Yankee men and women.

Unfortunately where there is smoke, dirt and dust and little sunlight there also can be found the germs of disease. Nature's great disinfectant is sunlight. It is in the factory, the workshop, the office, that men and women suffer from diseases which breed in the dust and the bad air. Such diseases germs enter into the blood in two ways either through the lungs or stomach.

After years of experience in an active practice, Dr. R. V. Pierce, of Buffalo, N. Y., discovered a remedy that is a blood-maker and tissue-builder, at the same time alleviates a cough. He called it Dr. Pierce's Golden Medical Discovery—an alterative extract that assists in the digestion and assimilation of the food—so that the blood gets its elements from the products of digestion, the liver at the same time is started into activity and there is perfect elimination of waste matter. The germs of grip, malaria, catarrh or consumption find a fertile field if the body is not kept in perfect order and the blood pure.

Because the stomach is diseased there is a diminution of the red corpuscles of the blood. This is why one is sleepless, languid, nervous and irritable. Sensitive stomachs groan aloud at the irritating cod liver oils, but they will get all the food elements the tissues require by using the "Golden Medical Discovery."

The "Discovery" is absolutely a non-alcoholic and non-narcotic medicine. There is nothing else "just as good."

Dr. Pierce's Pleasant Pellets, the best laxative for old and young people. They cure constipation and biliousness.

C. P. R. HOTEL
CHANGE OF OWNERSHIP

Rickerby Brothers have purchased the C. P. R. Hotel, on Simcoe Street. The new proprietors of this well known hotel are now making extensive alterations and improvements in both hotel and yards. Special attention and courtesy will be shown to farmers and others patronising the yards, sheds or hotel. Shedroom free with two men in attendance.

RATES—$1.00 per day

Special cheap rates by the week.
A share of public patronage solicited.
Courtesy to guests is our motto.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 102 PETERBOROUGH ONTARIO, TUESDAY MAY 2 1905. PRICE TWO CENTS

HUNDREDS OF POLICE STOPPED DEVLIN, M.P.

Canadian Member of British House Prevented From Holding a Meeting by Three Hundred of the Royal Irish Constabulary.

London, May 2.—Among the passengers sailing to-morrow by the Corona are Sir Charles Rivers Wilson and Sir Thomas Shaughnessy.

There was great excitement in Tuam Saturday, as 300 of the Royal Irish Constabulary had been drafted into town to prevent Charles Devlin, M.P., for Galway, from addressing two meetings which had been proclaimed by Dublin Castle. The police called at Devlin's Hotel, and wished to read a proclamation. Devlin declined to receive them. Devlin and Higgins attempted to hold a meeting at Carrow Keel, but, on arriving at the place, he found the road blocked by a cordon of police. Higgins attempted to break through, and was roughly handled by the police. Devlin asked would he be allowed to pass, but was refused permission. Finally Devlin advised the people to retire to Dunmore, where a meeting was held without interference.

Mr. Devlin was formerly a Canadian official in Britain, but he resigned office to take a seat in the Imperial Parliament for Galway. His brother is the sitting member for Wright County in the Canadian House of Commons, having been returned in the bye-election when Sir Wilfrid Laurier relinquished one of the two seats for which he was elected.

CONSERVING THE WATERS

Strong Letter From Mayor Best on the Subject.

(To the Editor of The Times.)

Sir,—It is a matter of very great regret that any misunderstanding or difference of opinion should arise respecting the transfer, from the Ontario Government to the Dominion Government of the dams erected upon the upper stretches of water tributary to the Trent Canal system.

The subject of the transfer of these waters has engaged the attention of the Ontario Government and the Dominion Government for upward of two years.

It is proposed that the Dominion Government should keep these dams in proper repair and that the waters in the upper lakes should be held back in the spring and not allowed to escape during the spring freshets. The waters in these reservoir lakes could then be let down gradually and accordingly as required to give a higher uniform level in the navigable waters of the Trent Canal system throughout the whole season of navigation.

In the past owing to the fact that these dams have not been kept in proper repair and owing to the fact that the Ontario Government is not interested in Navigation but simply in the flotation of logs, the stop logs in these dams have been allowed to be taken out and the water thereby escapes and runs out during the spring freshets. When the water is wanted most during July, August and September, especially during a dry season there is a great scarcity of water and quite an extremely low level is to be found in our lakes and rivers which is an inconvenience and annoyance to parties who have occasion to use the steam boats.

Moreover parties who inspect the Trent Canal system and finding this low level of water are naturally prejudiced against the utility of the Trent Canal as a national highway, because they do not know the cause which produces this low water and because they do not know how easily such cause could be remedied by the Dominion Government were it to have the regulation and control of the waters tributary to the entire system.

It is inconceivable why the Lindsay Board of Trade should raise any opposition to the transfer of these dams from the Ontario Government to the Dominion Government. In the first place the town of Lindsay enjoys a very large steam boat traffic during the season of navigation which is vitally and prejudicially affected by low water. Were a higher level of water kept up in Sturgeon Lake, the steam boats plying between Lindsay and Sturgeon Point, Fenelon Falls and Bobcaygeon and other points beyond would have no difficulty whatever in landing passengers and their cargoes at the upper wharf, right in the heart of the town of Lindsay. As it is however during the busiest season of navigation when the people of Lindsay are in a position to enjoy the greatest benefit of cheap transportation they are forced to go to the lower wharf which is outside of the limits of the town of Lindsay, upwards of a mile below the Town. The town of Lindsay is also interested in the transmission of electric power from Fenelon Falls to Lindsay. If a larger uniform flow were to obtain at Fenelon Falls a greater supply of cheap electric energy could be supplied to the town of Lindsay at an advantage to the manufacturers and the laboring men of Lindsay who would be assured of more steady and constant employment. If the Power Company has to shut off the supply of power to the manufacturers, it stands to reason that some one has to go out of employment or else the manufacturer is put to the extra expense of keeping up a steam plant to provde against low waters It is therefore inconceivable how any body of intelligent men such as the Board of Trade in Lindsay can advocate in the public interests that the transfer of these dams should not be made.

The Town of Peterborough is vitally interested in the transfer. A large number of boats ply all the way between Hastings and Balsam Lake. During low water these boats are greatly inconvenienced and injured from bumping on the rocks and having to lessen their ordinary speed in order to avoid bumping on the rocks.

Moreover the working men of Peterborough are greatly interested in the getting of a larger and more certain uniform flow so that a constant and continuous and uniform supply of electrical energy may be obtined for the benefit of our factories.

The American Cereal Company have expended upwards of a quarter of a million dollars in the development of water power in the central part of the town for the purpose of supplying power to their own works and for the purpose of supplying power to other manufacturers in the Town of Peterborough.

The Canadian General Electric Company have an investment of upwards of $150,000 in developing electric energy at Nassau for the purpose of supplying their works with electric power. It means a great deal to works of this kind if their power is cut down one-half through the needless and reckless wasting of these waters in the upper stretches during the spring when it would afterwards be of so much value to these waters.

The Otonabee Power Company have also made a large investment at Dam No. 5 in order to supply certain manufacturers in Peterborough with electric power which they must have in order to run their works, as many of them have not installed steam plants as a duplicate system. In the event of the shortage of water these manufacturing institutions have to close down their works and thereby throw out of employment a large number of hands.

Mr. R. R. Hall, M.P., for West Peterborough, assures me that the Dominion Government are quite content to take over these dams and maintain them in proper repair. I feel quite sure that if the Hon. J. P. Whitney and his colleagues had the facts properly laid before them that would readily consent to the transfer. The interests of no one would be prejudiced by the transfer and the interests of many would be better served.

Yours, etc.,
HENRY BEST.
Mayor of Peterborough.

ADDITIONAL LICENSES.

All Applicants But Mr. Collins of 5th Ward Granted Licenses, Subject to Conditions.

The adjourned meeting of the Board of License Commissioners for West Peterborough was held in the Secretary's office on Saturday evening, April 29th, at 8 o'clock, with following members in attendance; Dr. M. A. Morrison, chairman, H. LeBrun, J. Griffin, and the Licence Inspector.

The matter of the granting of tavern licenses laid over from the last meeting was dealt with as follows;—

James Dolan, granted.

Austin Dunn, granted, subject to inspection.

Michael Tooley, granted, subject to inspection.

The decision with regard to shop licenses was as follows;—

F. J. R. Mitchell, J. C. Sullivan, Lucy Brown, Chas. A. Kelly, extended three months. In the case of the shop license of William Collins, the commissioners refused it, but granted an extension of three months to dispose of stock.

The following resolution which was moved by H. LeBrun, seconded by J. Griffin, shall take effect on May 1st;

"Resolved and ordered that after the first day of May, 1905, the windows of bar rooms, taverns and shops, where liquor is sold within this license district, shall not be covered by blinds, shutters or artificial frosting of any kind that will obstruct or tend to obstruct the view of the public from such places, between the hours of 7 p.m. Saturday night, to 6 a.m. Monday, or during the hours prescribed by the Liquor License Act, in which liquors shall not be sold. It is hereby resolved, ordered and declared that any person or persons concerned in, or party to, any act, matter or thing, contrary to the same shall forfeit and pay to and for the use of His Majesty, the King, a penalty of not less than ten dollars and not exceeding twenty dollars, besides costs for every such offence to be recovered before two Justices of the Peace or Police Magistrate having jurisdiction in the said License District of West Peterborough."—Carried.

METROPOLITAN LIFE CO.

Will Move Immediately to Premises Vacated by Mr. W. H. Moore.

Some changes in office locations were made Saturday. Messrs. Nelson & Co., stock brokers, moved into the office on Water street, formerly occupied by N. B. Darrell, who moves to the old office of Mr. A. P. Poussette in the Oak Hall Block. Mr. W. H. Moore vacates his office above the Bank of Toronto, for the Metropolitan Life Co., and takes that vacated by Nelson & Co., at 134 1-2 Hunter street.

Mr. Rothwell, Superintendent of the Metropolitan Life Co., who now has temporary quarters in the Bank of Commerce Building is completing arrangements for his removal and intends to have a splendid suite of offices in the new premises he is just about to take.

GOOD WORK.

Handsome New Signs Erected by J. J. Turner & Sons.

Two handsome signs, the work of the firm of Messrs. J. J. Turner & Sons, have recently been erected and have attracted considerable attention. One of these is that erected for the new butcher firm of Fleetwood and Westlake, at the corner of George and Brock streets. The background of the sign is black with gold lettering, while a bull's head stands out in the centre in bold relief. The other sign has been erected over the White House on Charlotte street. It is a wire sign with gold letters, and like that mentioned above is a credit to the artists.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

LOWEST WATER ON RECORD

Rivers and Streams as Low as They Usually are in August

Montreal, May 2.—Never perhaps in the history of the Province of Quebec has the water been so low in the rivers and streams as it is this year. The St. Lawrence River in front of the city is now down to a level which would be considered low even for August, while the various other smaller streams have also reached a midsummer depth.

The lumbermen report that their logs are lying up, a very small proportion having come down this spring, owing to there not being sufficient water to float them over the shallow places. The snow melted with great rapidity in the upper stretches of country, but the water sank into the ground immediately, and failed to flush the streams to over the half usual height.

Farmers and lumbermen are all looking for a season of brisk rains, and if they do not appear shortly there is great danger of forest fires throughout the Province.

WEATHER NOTES.

Fair and mild.

GREAT BRITAIN WARNS RUSSIA

Tells Czar That He Must not Violate Chinese Territory

BRITAIN WILL BUTT IN

Should Russia Violate Neutral Zone by Seizing Chinese Territory

Washington, D. C., May 2.—Great Britain has given notice to Russia that if the fleet under Vice-Admiral Rojestvensky violates Chinese neutrality she will take into consideration the obligations imposed upon her by the treaty with Japan. This treaty requires her to give assistance to the latter in case a third power should be drawn into the present struggle.

Whether this has been done formally or informally is not known here, but it is the explanation of the activity of the British Asiatic squadron which has been patrolling the southern Chinese coast. The United States has been displaying similar activity, but has not devoted itself particularly to looking after China's neutrality. Its concern is to keep the Philippines neutral, though at the same time it has impressed upon China that the declarations of neutrality issued from Pekin three months ago should be strictly enforced.

CHINA WILL WARN RUSSIA.

Sir Chentung Liangcheng, Chinese minister at Washington, informed The Tribune correspondent this afternoon that under no circumstance would his government permit Rojestvensky to remain in its waters more than the twenty-four hours specified in the neutrality proclamation. If a longer stay occurs it is not at all improbable that Chinese warships will proceed at once to a point where the Russian ships are anchored and direct them to leave. Should they refuse to do so, the Chinese vessels will seek to enforce the neutrality of their government though they know their destruction will result.

It is not expected Rojestvensky will care to run the risk of embroiling his government just at this stage in the conflict with another power, especially as thereby Great Britain would feel that she is obliged to come to the support of Japan. There has been sharp criticism in Tokio of the luke-warm attitude of the British Government, but now it appears all this has been changed. Great Britain's unwillingness in the past to observe a firm policy with regard to the fleet of Vice-Admiral Rojestvensky is attributed to its indisposition to become involved in trouble with France. But if as a result of the Russian violation of Chinese neutrality China should be drawn into the conflict, Great Britain feels she should have to come forward as the champion of the Celestial Empire without perhaps involving herself in difficulties with France.

There is no desire on the part of the British Government, so far as known here, to take part in the present war, and if China remains perfectly neutral and France abstain from further assistance to the Russian fleet, no obstacles will be interposed in the way of battle between the fleets of Rojestvensky and Togo.

BRITAIN HAS POWERFUL FLEET.

If Great Britain were to determine to expel Rojestvensky from Chinese waters she would have no trouble in doing so. She has a formidable fleet in the East, the backbone of which is made up of five battleships. These battleships are all modern vessels and fit to give battle to any force in the world. At the last target practice competition the China battle fleet won the prize, making an average of 73 points out of a possible 100. The ship which made the best record in the whole British navy was the battleship Majestic of the Channel squadron, which totalled 86.449 points, and the second was the Albion of the China squadron. The record of battleships was equaled and even excelled by smaller ships, the gunboat Bramble of the China squadron making a total of 87.14 points.

All the British fighting ships in the China sea are within supporting distance of each other, but before they would take drastic action they undoubtedly would notify the home government in order that it might make proper representation to Russia with a view of having that power instruct Rojestvensky to leave Chinese waters or take the consequences. There is no doubt that Russia, having strained every nerve to launch this last, final bolt against Japan, will want nothing to develop to impede its flight. Rojestvensky undoubtedly understands from St. Petersburg what will happen if he enters Chinese waters.

DIPOMAT STATES ISSUE.

"China will not permit another incident such as occurred at Chefoo, when the Russian torpedo boat destroyer Reshitelny was cut out by the Japanese," said a Chinese diplomat today. "We will not permit our waters to be the scene of another battle, and we will expel the Japanese as well as the Russians, even though the cost will be to draw us into war."

Some irritation is shown by the Russians at the activity of the British and American squadrons. It is not conceived to be a friendly act for neutral warships to be patrolling the seas in order to ascertain the whereabouts of a belligerent whose operations for success depend to a considerable extent upon the secrecy with which he can veil his movements. The return of neutral warships to port is immediately followed by the publication of statements as to whether or not they sighted either of the opposing fleets. This information is far more harmful, it is claimed, to the Russians than to the Japanese, for the reason the latter are not in force in the China sea and are able with neutral assistance to complete the intelligence transmitted to Admiral Togo by scouts.

It is to prevent any such charge against American ships that the navy department has been particularly cautious about giving out dispatches received from Rear-Admiral Train, commander-in-chief of the American fleet in Asiatic waters. The department ever refuses to make an explanation of the mysterious cruise of the gunboat Villalobos from Shanghai a few days ago. It is known, however, that the Villalobos went to sea in accordance with instructions from Rear-Admiral Train to locate Rojestvensky's command and any Japanese ships that might be cruising in China sea, not out of idle curiosity, but for the purpose of ascertaining whether they were headed for the Philippine Islands.

MYSTERIOUS DEATH

Man Found Dead on a Farm in Otonabee. Coroner Investigating.

A sudden death occurred yesterday morning in Otonabee, and the circumstances surrounding it are such that Coroner Gray, to whom the case has been reported, went to the scene to investigate it, and, if the facts warrant it, an inquest will be held.

It appears that Christopher McBrian, a widower, about 65 years of age, who lives on lot 20, of the 15th concession of Otonabee, was found this morning on the farm of Mr. Robert Hanbidge, opposite whose farm he lived, by Mr. Hanbidge's two sons. The body was lifeless when found, and it was thought that the case was sufficiently mysterious to report to the coroner, which was done, and Dr. Gray went to the place at noon.

Deceased had been living alone in the house and was so far as has been learned, in good health up to the time of his death. He was a laborer, and had two daughters, one Bessie Amy, an unmarried girl, living in town, and the other, Mrs. J. Johnston, of Otonabee.

LATER.

Dr. Gray on returning to town stated that an inquest will be unnecessary, as he attributes death to the result of a fall.

The late Christopher McBrian is survived by two daughters, Mrs. John Johnston, of Otonabee, and Miss Bessie Ann McBrian of town.

MR. MORROW'S TRIP.

Mr. G. W. Morrow Leaves Today For London and Glasgow.

To-day Mr. G. W. Morrow, the well-known banker and secretary of the School Board, leaves for an extended trip. He will visit London, Glasgow and other cities in Great Britain, and will devote the greaterr part of the next two months to business abroad. The Times wishes him bon voyage and a safe return.

Mr. Morrow will not be lonely as he travels in company with Hon. Geo. A. Cox, E. R. Wood and others.

CONGRATULATIONS DUE.

To Mr. Fred Craig for Obtaining the Collegiate Institute Scholarship.

The matter of the scholarship given the senior leaving and honor matriculation examinations in the Collegiate Institute has been finally settled by a letter received by Mr. Fenerden, from Mr. John White, Deputy Minister of Education. In this letter the minister says that Mr. Fred Craig has given evidence of being the strongest candidate. The Times begs to congratulate Mr. Craig, who is on the Review staff on the successful winning of the $50 scholarship, Shakebrother Craig.

UNION SUED FOR $1,000,000

Cripple Creek Mine Companies Demand Damages

Denver, May 2.—Suits for damages aggregating $1,000,000 have been filed in the State and Federal Courts by Cripple Creek mining companies against the Western Federation of Miners and its officers. The complaints charge the defendants with unlawfully conspiring to injure the plaintiffs by preventing the mining and shipment of ore. The suits are the outcome of the strike which was ordered in the Cripple Creek district in August, 1903.

REASONED IT OUT

And Found a Change in Food Put Him Right.

A man does not count as wasted the time he spends in thinking over his business, but he seems loth to give the same sort of careful attention to himself and to his health.

And yet his business would be worth little without good health to care for it. A business man tells how he did himself good by carefully thinking over his physical condition, investigating to find out what was needed, and then changing to the right food.

"For some years I have been bothered a great deal after meals. My food seemed to lay like lead in my stomach, producing heaviness and dullness and sometimes positive pain. Of course this rendered me more or less unfit for business, and I made up my mind that something would have to be done.

"Reflection led me to the conclusion that over-eating, filling the stomach with indigestible food, was responsible for many of the ills that human flesh endures, and that I was punishing myself in that way—that was what was making me so dull, heavy and uncomfortable, and unfit for business after meals. I concluded to try Grape-Nuts food to see what it could do for me.

"I have been using it for some months now, and am glad to say that it has given me entire relief. I do not suffer any longer after meals; my food seems to assimilate easily and perfectly, and to do the work for which it was intended. I have regained my normal weight, and find that business is a pleasure once more—can take more interest in it, and my mind is clearer and more alert."

THE FIRE DEPARTMENT BY-LAW PUBLICLY DISCUSSED

At a Citizens' Meeting Last Night--The Attendance was not as Representative as it Should Have Been.

The attendance at the public meeting held in the Council Chambers last night, to discuss the Fire Department by-law, was disappointingly small, and the absence of merchants, who should be deeply interested in the scheme, was marked.

Ald. Johnston, chairman of the Fire, Water and Light Committee, presided, and opened the proceedings with a review of the conditions which call for the new fire hall, additional hose, new steam engine, chemical engine and telegraph alarm system. He then went on to say that the present stabling room, accommodating five horses, is only fit for two, and in any event it is not wise to stable horses in the town buildings. He considered the site selected for the new hall an excellent one, being centrally located on the west side of Aylmer street, between Simcoe and Hunter streets. Then we cannot very well do without a steam fire engine, as exemplified in the Cereal Company's fire; and a new one is needed as the present engine cannot be relied on.

Should the by-law be carried it would mean a reduction of 12c. on our present key rate for mercantile insurance, and have the effect of keeping residential insurance where it is, with a possible reduction in the near future. The expense of this whole scheme for improved fire protection would simply be 26c. on each $1,000 assessment.

Mr. R. J. Winch expressed himself in favor of the policy outlined. He thought the site picked out a good one, being central, and the premises now occupied by the fire hall could be rented to good advantage. The proposed hall and improved fire protection would certainly give the town a better standing, with a reduced rate of mercantile insurance.

Mr. C. Stapleton in a brief speech, did not give much encouragement to the scheme.

Mr. John Sawers declined to give his views; he would vote his opinion next Thursday.

Mr. W. H. Bradburn was favorably impressed with the by-law. He thought Peterborough had reached the stage when an up-to-date fire apparatus and brigade is absolutely imperative for the town's protection. We are now paying $400 a year more for fire insurance than four or five years ago. He hoped the ratepayers will do their duty next Thursday and vote for the by-law. He will do all in his power to help it through.

Ald. Hicks addressed the meeting on similar lines laid down in his letter published recently, and in addition pointed out that a revenue of $400 a year could be derived from the present fire hall for other purposes. This would pay the interest in the money invested in the new building. The Council does not propose this scheme before the people for the underwriters' benefit, but to protect the whole community. Then the matter of leaving two or three men always at the central station in case of a second alarm, in the brigade's absence at a fire might well be gone into. As to the utility of the new engine he thought basins might be provided here and there in the creek to furnish a supply of water if needed.

To Mr. J. Sawers, Ald. Johnston replied that the proposed site has a frontage of 90 feet, and would cost $23 a foot at most.

Mr. A. H. Stratton hoped the by-law would carry; he will do all in his power to aid the scheme, in the interests of the whole community.

Mayor Henry Best regretted very much to see so little interest manifested in this matter by the merchants. He considered the plan a reasonable up-to-date proposition, and if the by-law does not carry the merchants will be to blame. It is our duty to protect ourselves, and this question is one of vital interest to the whole community. He felt much disappointed at the lack of interest taken in this matter.

Ald. Hall concurred in the Mayor's remarks re lack of interest on the part of our merchants in important public questions. It certainly was not encouraging to the aldermen who are exerting their best efforts in the community's interests. The saving in insurance is a mere bagatelle; we want an up-to-date apparatus with which to protect ourselves.

Mr. C. Stapleton pointed out that a corner lot would be most adaptable to fire hall purposes in furnishing two sides for ready exit when an alarm is rung.

Mr. John Craig concurred in this view.

Ald. Johnston replied that the corner lot would cost two much; two or three estates would have to be dealt with, and the purchase price for such site would probably be $5,000.

Ald. Tovey said he hadn't seen such a wretched system of fire protection as ours in a long time. He regretted that representative men who are vitally interested in this matter would not co-operate with the Council in their efforts to put our fire-fighting system on a proper and substantial basis. If the merchants are not sufficiently interested to support this scheme now before the ratepayers, they will be to blame should the by-law be turned down, and not the Council.

He opined that should a big fire occur at any time and sweep away a large potion of the town—an occurrence not at all impossible with our present system—those merchants conspicuously absent from this important meeting, would be very ready to blame the Council. Ald. Tovey also pointed out that in Montreal there are many fire stations not on a corner, and the brigade there enjoys a reputation for turning out quickly.

Mr. A. H. Stratton said that as there appeared to be some differences as to the site, he would move that the site selected by the Council's committee be heartily endorsed. This was seconded by Mr. R. F. Winch, and carried.

The meeting then adjourned.

HOW FRANCE HELPED RUSSIA

International Complications May Result Therefrom

BRITAIN FULLY PREPARED

Without Aid From France Rojestvensky Could not Have Reached East

London, May 2.—It is only through French aid that the Russian fleet is able to appear in Eastern waters in condition to meet the Japanese in battle. Rojestvensky spent the winter in the vicinity of Madagascar, which is French territory, and sailed thence straight to port in French China, or Tonquin. After staying in one port until there was imminent danger of dragging both France and Great Britain into the great conflict, he is forced to put to sea, but is said to be already safely anchored in another port of the same province.

Thus the Russian admiral seems to be moving from one French port to another, obtaining supplies and equipping his ships for the decisive struggle. He could never have reached his present station except for the friendly aid of France, and it is admitted that he has been permitted to stay in port several days at a time, though the rule of international law is but a delay of twenty-four hours for warships in neutral harbors. If France were to admit her alliance with Russia in the struggle no question could be raised over the propriety of her conduct. But instead she protests with all her might that she is maintaining a strictly neutral attitude.

That pretension is false beyond any doubt, as the fact of the prolonged stay of Rojestvensky in French ports indicates too clearly for argument, but it is better to pass it over in silence than to involve two more nations in the awful scourge of war. France may take ample reprisal in due time, if she cares to do so, but it is well to remember that but for French aid the war would probably have been ended long ago. It prolonged the siege of Port Arthur in vain endeavor to hold out for the fleet, and is the hope of the armies of Linevitch at this moment.

TOGO TO LOSE FIGHT

Admiral Dewey Expects Japanese Defeat

PINS FAITH IN BIG SHIPS

Inferior Personnel of the Russians Declared to be Only Adverse Factor

Washington, May 2.—Admiral Dewey expects Admiral Rojestvensky's ships to defeat Admiral Togo's fleet unless the inferior personnel of the Russian navy completely offsets its superiority in battle ships. According to Admiral Dewey, the battle ships is the unit in naval warfare, and the nation which has the most in line wins the battle.

As America's highest naval expert, Admiral Dewey's conclusions, shared by many other prominent officers of the navy, have shaped the policy now being pursued by the government to develop the navy in the direction of strengthening its battle ship line. The torpedo boat has not been discarded, but has been relegated to a subordinate position, and while gunboats and cruisers are being added to the navy for service as policemen in time of peace, the real fighting strength is being developed by increasing the number of battle ships.

Admiral Dewey, like many of his fellow officers, does not think well of the Russian personnel, but calculating the probable outcome upon his theory of battle ship strength, the Russians have a decided advantage, and this advantage should bring them victory.

The Japanese may prove faulty Admiral Dewey's estimate of the value of torpedo boats, but his conclusions are based upon a careful investigation, and he is willing to stand upon his prediction that in battle the torpedo boats of Japan will not take a conspicuous part.

No School Board Last Night.

Last night the following members of the School Board met in the offices of Mr. G. W. Morrow, secretary of the Board. Messrs. Stevenson, Burnham, Hill, Fair, Pringle and Jamieson. As there were not sufficient to form a legal quorum, by 8.15, those present dispersed.

GET UP TIRED WEARY ALL DAY

Never Feel Refreshed — Always Played Out, Weak, Languid, Discontented.

FERROZONE

Will Infuse the Vim and Fire of Youth into Your Veins.

Quick permanent cure follows Ferrozone. It braces at once, makes you feel like new. You rejoice in new found strength, in vital energy, in power to act, to think, to do. No other medicine on earth so beneficial to the weak, the run-down and nervous.

Mr. George E. Mainsburg, of 179 Queen street, Toronto, was completely rebuilt by Ferrozone, and writes:

"I was subject to spells of dizziness and light feeling in the head.

"I broke out in cold sweats.

"My appetite was poor and I lived in perfect dread of a collapse.

"I improved at once by using Ferrozone.

"It braced up my nerves, gave me a good appetite, strengthened my blood, and made me feel young again. I am now in the best of health, just because I used Ferrozone."

It's a shame to live in a half-dead condition. Ferrozone will vitalize you. It will give you reserve strength, self-control, surplus vigor. It's the most strengthening medicine made. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

PETERBOROUGH, MAY 2 1905

ARE RUSSIAN FINANCES COLLAPSING?

The indefinite postponement of the Russian loan in Paris is a very bad sign for the Government of the Czar. It means that the only way heretofore open to obtain the increased funds needed for the war is closed or in great danger of being closed. Until the fall of Mukden Russia had always been able to get money in France; the terms have been higher and higher for the past year, but the money was to be had. In London and in Berlin the task was harder and the results less. The savings of the most saving people of Europe, under the guidance of the shrewdest bankers of Europe, have in the past been at the service of the Czar. If they cease to be at his service, he will be in sore straits.

For it must be remembered that Russia as a state has for many years lived on its loans. While it has apparently been growing rich, it has steadily added to its debt, and its revenues have been increased, not by the greater yield of uniform taxes, as happens in a prosperous land, but by heavy additions to the burden of taxation, with a pretty constant impoverishment of the taxpayers. In the March number of The Nineteenth Century, Dr. E. J. Dillon points out that the imperial revenue increased apparently in thirteen years before 1902 by some $450,000,000. But of this amount $260,000,000 was from such sources as the railways and the sale of alcohol taken over by the State, from crown forests, and from increased customs rates, while the increase in the internal revenue was but $190,000,000, and this was obtained by such increases as that of 100 per cent. in matches, and 106 per cent. in sugar. During the same period the public and guaranteed debt was increased by more than half a billion of dollars, from which the famous "free balance" was accumulated. For the heavy expenditure of a cumbrous and unintelligent administration, for the building of railways largely military, for the interest payments on loans made abroad, and for the large military and naval expenditures, Russia required, apart from her internal income, very great sums, and these she obtained chiefly by borrowing. In 1902, before the war, she could get money at 4 per cent. only by selling bonds to a German syndicate at 98 7-8. Last May she sold bonds to her French friends at a nominal interest of 5 per cent. of par, and the expenses deducted, she in reality had to pay for the five years the until in large districts famine has cost, which is the true measure of her credit at that time with the bankers that knew her best. Now she is offering better rates and the Frenchmen balk.

Well they may. It is not merely that the war upon Japan has been a dreadful failure and that enormous expenditures will be needed to replace the losses of men and material, if the war is to go on, but interest to foreign creditors must be met by an excess of exports over imports and by increased domestic taxes. Russia cannot achieve both. The latter must defeat the former. Eighty per cent. of her production is agricultural, and agriculture wanes until in large districts famine has prevailed during the past year. To swell the favorable balance of trade the Russian Government has imposed heavy import taxes and has paid premiums on exports in the shape of nominal railway freights to the frontiers. There is an obvious limit to that policy, and it is near. You cannot go on forever burdening the peasant and increasing the amount he will raise for export. In short, if poor, unskillful, backward people, with a costly, clumsy, and wasteful Government, facing disaster in foreign war and widespread discontent and disorder at home, cannot maintain credit with foreign money lenders. Nor must it be forgotten that the Government which has paid foreign interest punctually when foreign loans were its chief resource will not have the same inducement to punctuality when punctuality no longer induces new loans.

INFLUENTIAL CONTINGENT OF RAILWAY MEN FROM ALL OVER THE WORLD TO VISIT CANADA

The arrangements for the long tour of the delegates to the International Railway Congress, which is to be held at Washington, D. C., the early part of May, have been completed and include in the itinerary a trip through a portion of Canada. The party who will take advantage of this trip will be composed largely of over-sea delegates, who would naturally desire to travel over the Grand Trunk Railway System, the pioneer railway of Canada and of which they have for so many years heard a great deal—particularly now that the new trans-continental line—the Grand Trunk Pacific—is an assured fact, and that the Grand Trunk is the only double-track line between Chicago and Montreal and the principal points in Canada.

The party will leave Washington on the evening of May 14th and after visiting several of the principal cities in the West, will be taken by the Grand Trunk in a special train, leaving Chicago on the evening of May 22nd, reaching Niagara Falls early next morning, at which point they will be shown the attractions of Niagara and given an opportunity of inspecting the electrical developments which are now under way at this point. Leaving Niagara Falls at an early hour the next morning, the party will proceed over the double-track lines of the Grand Trunk en route to Montreal, arriving at Lachine Wharf at 4.00 p.m., the same day, taking special steamer there and running the Lachine Rapids arriving Montreal 5.00 p.m., where carriages will be in waiting to drive them around the city, ending up at "Montreal Hunt," where dinner will be served. On the morning of May 25th they will board their special train, which will leave Bonaventure Station at 9.00 a.m., en route to New York. The delegation will be a most influential one, comprising the heads of many foreign railroads in Great Britain and on the Continent and exceptional facilities will be arranged for them to inspect the improvements that have been completed in recent years on the Grand Trunk, and that have solved engineering problems entirely new in Canada and which have rendered the line equal, if not superior to any railroad in America. The progress of these huge undertakings have proved most interesting to those who have been familiar with them and a resume of the principal features of reconstruction and improvements that will be brought to their notice will be of paramount interest to the visitors.

ROBBED HIS BENEFACTOR

A Montreal Man's Unkind Act at Fort William, Ont.

Fort William, Ont., May 2. — One hour after having been got out of gaol by a chance acquaintance, George La Chants, of Montreal, robbed his benefactor of $100. After paying La Chants's fine, Arthur Caron, the good Samaritan in the case, left his bank book with the proprietor of a store at which he had been trading. Shortly afterwards La Chants called at the store and demanded the book, saying Caron had sent for it. At the bank he forged Caron's signature and secured $100. La Chants, who was taken into custody shortly after noon, does not deny having committed the crime.

TO CANADIAN INVESTORS

The Thos Patterson & Co. Have a Fine Copp Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 50 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Performance

Not Promises

There is all the difference in the world between expectation and realization. There is even a greater difference between promise and performance. In the former case you form your own opinion, and if it is in error, you have none but yourself to blame. In the latter case, you take some one's word or promise for what is to be done, and you place your confidence in them and their judgment. Failure in such a case is a double disappointment, for you have not reaped an expected reward, and your faith in your adviser is shaken.

The history of the wireless telegraph companies reveals that they fall in two classes—THOSE THAT PROMISE and THOSE THAT PERFORM.

The Marconi Companies have never foretold what they are GOING TO DO, but have steadfastly GONE ABOUT THEIR WORK, and when they had ACCOMPLISHED SOMETHING, have made a simple announcement of the fact and have gone on with the next step. Had you rather HEAR PROMISES OF FUTURE SUCCESS or SEE TANGIBLE RESULTS from day to day? MARCONI and his associates have AVOIDED PROMISES and have never made statements which did more than ANNOUNCE his latest ACHIEVEMENT or PERFORMANCE. These performances have succeeded each other with such rapidity that hardly a week passes without some important advance being heralded. THE

Marconi Wireless

(Tel. Co. of Canada Ltd.)

is governed by the same conservatism as the American and English Marconi Companies. It has not made futile PROMISES OF WHAT IT WAS GOING TO DO. IT WAS TOO BUSY IN DOING THINGS. It DOES ITS WORK and never even announces one ACCOMPLISHMENT until it is well on its way to the next ATTAINMENT. DOES NOT SUCH A POLICY APPEAL TO THE CONSERVATIVE INVESTOR? Few details of the tremendous progress made in connection with the installation of the highly successful stations along the Gulf of St. Lawrence were made public until the Commander of the Canadian Marine Service gave his report to the Deputy Commissioner of Fisheries late in the fall. The report showed that the perfect working of each station had been known since midsummer.

The Canadian Company has already completed a vast work of successful stations along the St. Lawrence Gulf and there are six Canadian and thirteen stations already in operation. The Company has already been authorized to build four more stations at prominent points during the coming summer. The transatlantic station at Cape Breton is nearly finished on its new site. The apparatus for installation at that point is constructed and on its way to Cape Breton, where Mr. Marconi is on hand to personally oversee the installation and the successful opening of this great service. These are not promises, but accomplishments. Compare what Marconi has DONE with what others PROMISE TO DO. Ask yourself a simple question: "If they can do so, why don't they?" The answer suggests itself. Can you not foresee the great future this Company has before it? Do you not wish to become a sharer in the success which is at its door? You can do so by becoming a stockholder in the Company. You can purchase any amount of stock from one share to two hundred shares at $5 per share. The time to invest is now, before the stock undergoes its certain rise.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

—THE—

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada. It is in connection with the Richmond, Drummond & Yamaska Fire Insurance Company, which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Bromptonville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,000,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 3 full fixed mining claims of 5 acres each, two mill sites of 5 acres each, the sunflower placer of 20 acres and the Ora tunnel site 2,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 20 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and old men are troubled with STRICTURE. If you have reason to believe you are troubled with it, don't neglect it. It will surely—perhaps suddenly—get worse. Treatment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning? Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: "I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

INVESTIGATE AND YOU WILL BUY

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 20 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

Tonopah-Crow Mining Stock 18c.

The property of the Tonopah-Crow Company is at Crow Springs, near Tonopah, Nevada; six mining claims and one mill site, 125 ac es, crossed by more than 100 ledges; average value of ore so far opened about $54 a ton; 500 feet of development added to the principal workings on this property would expose 10,000 tons of ore worth $500,000. Its mining and reduction would leave a profit of more than $200,000. A hoisting plant of 500 feet capacity will soon be installed. This will soon be one of the best dividend payers in the section. An absolutely safe investment; selling at 18c. a share. Par value of stock $1.00. Send in your order now.

Albuquerque, New Mexico.

TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 18th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,

CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY.
CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share--Full Paid--Non-assessable

THE RUSSELL MINING COMPANY Was organized under the laws of Arizona with a capital stock of $500,000, divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was taken at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,200 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 485 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 oz. gold and 12.35 oz. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 8.3 oz. gold and 8.95 oz. silver, or a value of twenty-one ($21.00) dollars per ton. The average of eight assays over 35 feet in the west drift gave $66.52 per ton, and from over 40 feet in the east drift, nine assays averaged $103.77 per ton. It is proposed to sink the main shaft to the 600 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 161 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 2. The drift from the Old Town shaft, referred to above, was run nearly 300 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable, a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,800 feet. Taking the 1,500 feet along the vein from the 600 to 1,500 foot levels with the average width of three feet for the vein, and we have a product of 337,345 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $5,-$37,200.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 20 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russell Claim would by nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developments in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 1,500 feet by 60 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $100,000 per year for the past three years, and is now working at a depth of 1,500 feet and has just completed the installation of larger machinery preparatory to increasing its output this year. The Topeka, which has produced over $2,000,000, and the Wautoga, which has a production credited to it of over $1,500,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 100 feet of the drift, run at the 300 foot level, from the Old Town shaft, ranged in value from $3.84 to $276.53 per ton, the average being $60.73 per ton. The development of other mines in this district has shown the veins to be strong and persistent to great depths, the California mine near Central City is now producing from a depth of 2,200 feet.

TRANSPORTATION.

The Trans Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 250 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,000 to 2,500 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stoping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date. The present directors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Minstock to investors in order that they ing Company is therefore offering its may participate in this enterprise which bids fair to become one of the best mining propositions in the West.

The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in this proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to complete payments of the original bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

THOS. PATTERSON & CO.,
Fiscal Agents, Peterboro.

DEATH OF CHAS. CASTLE

An Old and Respected Citizen Passed Away on Thursday Night Last

The many friends and acquaintances of Mr. Charles Castle, 115 Maria street, Fifth Ward, will greatly regret to hear of his death, at his residence on Thursday night. Mr. Castle was 81 years old, and had been in failing health for some time. He was born in Yorkshire, England, and came to Canada in 1830, and resided in Asburnham since 1863.

His wife survives him, as do six sons and five daughters. They are, George, of Hartney, Manitoba; Thomas, of Smith; Reuben, of Collingwood; Richard, Robert and Harry of Peterborough; Mrs. Jas. Graham, of Cavan; Mrs. Robert Graham, Mrs. Clark, Mrs. Wicker and Mrs. Smith, of Peterborough. There is one sister, Mrs. M. Harper, of Morrisburg, and several brothers left.

The funeral took place from the family residence, 115 Maria street, at 2 o'clock Monday afternoon to Little Lake Cemetery.

SUDDEN DEATH

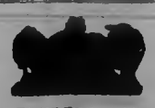
Ers. Rich. Gillespie Dies Suddenly in Hamilton

The death occurred in Hamilton on Friday of Sarah J. Welch, wife of Richard Gillespie.

The deceased was 34 years of age, and up to about 3 1-2 years ago had lived in Otonabee, just below the locks. She was the daughter of Mr. T. J Welch.

The late Mrs. Gillespie had been ill for about three weeks with stomach trouble, but the end came very suddenly. Her husband survives, as do her parents, Mrs. John Rickey, of Toronto, and Miss Emma Welch, of Otonabee, are sisters, and Thomas and Ernest, of Otonabee; William, of Ottawa, and Joseph of Peterborough, are brothers.

The funeral took place on Monday afternoon from the residence of her father, Otonabee, to Little Lake cemetery.



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Rondeau Breakwaters," will be received at this office until Monday, May 29, 1905, inclusively, for the construction of two breakwaters at Rondeau, Kent County, Ont., according to a plan and specification to be seen at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto. J. G. Sing, Esq., Resident Engineer, London, Ont., on application to the Postmaster at Rondeau, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 27, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; and install a large compressor and hoist capable of sinking the property at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.

CONCENTRATOR PURCHASED

We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

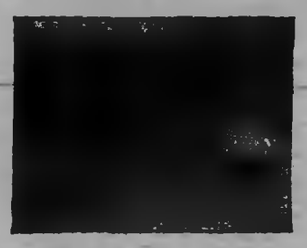
The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st. 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay--West of winze, intermediate drift	3685.60	1197.	$74,406.20
No. 2 Assay--Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.50

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885 38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577 60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944 00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000 00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 500 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.



With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Marconi Wireless

How Great Fortunes Grow

On the American continent there is no more interesting story of fabulous wealth, built up from small capital, than that presented by those who had the foresight to become interested in such successful inventions as the **Edison Electric Light, Bell Telephone, Westinghouse Air-Brake** and the allied gifts of our great inventors' brains.

A few thousand dollars, in one instance after another, has grown to millions; even the man with a few hundreds wisely invested during the early stages of those things which satisfy a public demand stands to-day with unlimited wealth to gratify his every need. The

Marconi Wireless Telegraph Co., Ltd., of Canada

is an exact parallel to those previous investions which brought affluance and comfort to their promoters. Its future will see a corresponding enhancement of value. Now is the time to identify yourself with this prosperous and rapidly growing enterprise, and in future years you will, without further effort, reap abundant reward in the growth of your money.

The growing demand for this stock, which can now be bought at par, will carry it to higher and higher levels. Do not wait until the Company has developed to its utmost and the price of its stock has risen to its highest level. You can purchase any amount of stock from one share to two hundred shares at $5.00 per share. That price will advance in the early future to an amount equal to hundreds per cent. in dividends and you should make an immediate purchase in order to take advantage of that increase.

DON'T DELAY BUY TO-DAY

Powerful Healing Effective Cure

FOR COLDS, COUGHS, CATARRH BRONCHITIS AND ASTHMA

Simply Inhale Catarrhozone; it Cures Because it Goes where the Disease Actually Is.

These diseases cannot be cured by stomach medicines; they must be treated locally. Catarrhozone is inhaled to the very source of the trouble, and gives the diseased membranes local treatment with the strongest, most-healing antiseptics known.

After one trial of Catarrhozone you will wonder how you ever lived without it. Nasty colds in the head it cures in an hour; coughs are stopped in two hours, and catarrh and bronchitis are relieved at once. Nothing could be simpler or more pleasant than to inhale the fragrant vapor of Catarrhozone. Nothing is half so certain to cure your trouble permanently.

Nor is proof of Catarrozone's merit lacking, for it is endorsed more strongly by the medical profession than any other remedy. Its superiority to-day is unquestioned, and its sale by far exceeds that of any other two remedies on the market. Why? Because it does what is claimed for it—cures permanently those who use it for any disease of the breathing organs.

Mr. A. E. MacAuley, the well-known attorney of Portland, endorses Catarrhozone in the following letter. "I am anxious to make known that after three years' suffering from weak throat and catarrh, I have been cured by Catarrhozone. I was treated by many doctors of wide reputation. I have used scores of different remedies. I have suffered everything catarrh entails, and I am convinced that no medicine is so sure to cure as Catarrhozone, which did me untold good and completely eradicated this awful disease from my system.'

Complete outfit, guaranteed to cure quite 'll, sample size 25c. At all druggists or N. C. Polson & Co. Kingston, Ont., or Hartford, Conn. U.S.A. Beware of substitutes and insist on getting Catarrhozone when you ask for it.

That Rubbish Pile.

It is now the thirty-third day since the attention of the sanitary authorities was brought to the accumulation of filth in the rear of buildings near the north-east corner of George and Hunter streets. The pile of dirt is growing larger as the result of contributions by the occupants of buildings in the vicinity. It is the intention of one gentleman to whom the rubbish has become obnoxious, because of the discouragement which it offers in his attempt to observe cleanliness, to bring the matter to the attention of the Provincial authorities, since neither the local medical health officer, the sanitary inspector or the members of the Board of Health appear the least inclined to pay any attention to what certainly is a dangerous condition of affairs.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

—Mr. P. K. Holmes, physical director of the Y.M.C.A., spent Saturday in Toronto.

—Miss Alice Hall, of Toronto, is the guest of Miss Florence Covey, Auburn street.

—Mr. and Mrs. Hugh Swanson are in Port Hope on a visit, and will return to-day.

—Mr. H. F. Kerr and Mr. R. E. Campbell, of Toronto, are guests at the Munro House.

—Mr. A. D. Munn, Chicago, is visiting his parents, Mr. and Mrs. Robt. Munn, Aylmer street.

—Mr. Theodore Crawford, and Mr. William Montgomery of Lakefield, spent Sunday in town.

—Mrs. Broadigan, Toronto, is the guest of her brother and sister, Dr. and Miss Caldwell, Brock street.

—Mrs. Vangleet and Miss Turner, of Brantford, are visiting Mrs. Dutton, Aylmer street.

—Miss Nellie Pilling, of Toronto, has returned after having spent a few days with her parents in town.

—Mrs. A. E. Leek, Montreal, is attending the W.F.M.S., convention, and is the guest of Mrs. Robert Innis.

—Mrs. A. Williamson, of Cayuga, is visiting with her son, Mr. G. H. Williamson, secretary of the Y.M.C.A.

—Mrs. J. E. Kavanagh and children, of New York, are the guests of Mr. and Mrs. D. Shortly.

—Mr Wm. Sallsbury leaves to-day for Toronto to resume his duties at the legislative buildings.

—Mrs. W. G. Botsford, returned yesterday morning to Toronto, after a visit with her parents, Mr. and Mrs. C. B. Routley.

—Rev. Prof. Clark of Toronto, who is to deliver the series of "Dante" lectures this week, arrived in town yesterday morning.

—His Lordship Bishop Sweatman, who recently underwent an operation, was removed from the General Hospital to his home on Saturday, and he is now convalescent.

—Mrs. R. I. Walker, who has been the guest of her sister, Mrs. W. J. Jolliffe, during the holidays, returned to Toronto yesterday.

—Mr. A. P. Poussette, K.C., left yesterday for Perth, where he will take charge of the criminal business at the Spring Assizes of Lanark County.

—Miss Mattie Robertson, who has been visiting Fenelon Falls, the guest of her aunt, Mrs. J. H. Brandon, "Brandonhurst," returned home yesterday morning.

—Mr. J. M. White and family have returned to their home 28 Manning avenue, after spending the winter on Hunter street. Mrs. White will be at home to her friends the 2nd and 4th Tuesdays of each month.

—Mr. Charles Sisson, of S.P.S., Toronto, has accepted a position in the engineering department of the C.G.E. works, arriving in town yesterday morning, and will enter upon his duties immediately.

—Miss Aura Caldwell, left yesterday left for Bowmanville where she will in future reside. Miss Caldwell was a member of George street church choir and made many friends during her stay in town.

—It is expected that Lord Aylmer, Inspector General of the militia in Canada, will arrive from Ottawa tomorrow night on a visit to Peterborough. While here Lord Aylmer will likely inspect the 57th Regiment.

—Mr. J. W. Kelly, principal of the Fifth Ward Public school, returned yesterday morning from Port Hope, where he spent the Easter holidays.

—Dr. W. J. Patterson, formerly medical health officer of Norwood, where he was located for two years, has gone to Barrie where he has taken over the practice of the late Dr. Vivian. Dr. Patterson is a graduate of Queen's and his friends expect that he will in Barrie, as in Norwood, meet with a large measure of success in his profession.

—The Lindsay Post says; Mr. G. L. Stevens, of Peterborough, transacted business in town yesterday. Mr. J. White, agent for the Massey Harris Co., at Peterborough, was in town Thursday on business. Mr. Thos. J. Tilley, the new manager of the Bell Telephone Exchange, arrived in town yesterday from Peterborough, accompanied by Mrs. Tilley and family.

VERDICT MISUNDERSTOOD.

No Final Judgment Was Given—Pending Disposition of Application of Non-suit.

There appears to be some misunderstanding in the general impression with reference to the verdict in the case Delsire and Talbot vs. Hall. While the jury returned a verdict for Miss Talbot for $2,500, and for Miss Delsire for $1,000, Hon. Mr. Justice Anglin did not deliver his judgment, as an application by the defendants had previously been made for nonsuit, and pending decision in that matter no final judgment was given. It is expected that it will be delivered in a few days.

Local Incidents

BY THE TIMES MAN ON THE BEAT

—No quorum at School Board last night.

—The subject of Prof. Clarke's lecture last night was "The Life and Times of Dante."

—Up-to-date pictures of the lift lock on glass mount with easel for 15 cents. Times Bookstore.

—The Sons of England will attend the George street Methodist church on Sunday, May 21st.

—Dr. Clarke's Sure Cure for Eczema for sale by Ormond & Walsh. Sample box only 40 cents.

—The Tennyson Club will meet this evening at the home of Miss Nellie Hall, Sherbrooke street.

—The first craft of the season to arrive in port was Wedlock's steam yacht, which came up the river Saturday.

—There will be a special meeting of the Lady Maccabees' Lodge at M. A. Pratt's store, corner of George and McDonel streets, to-night at eight o'clock.

—Japanese china, personal jelly dishes on bargain to-day for five cents each. Be sure and see them. Times Bookstore.

—The Ladies' Aid Society of George street church will hold their annual meeting this afternoon. Officers will be elected and reports presented.

—The first option held by the town on the Separate School grounds expired yesterday, and has been extended by his Lordship, Bishop O'Connor until June 1st.

—The Dante lecture for Friday will be held in the afternoon instead of the evening as the lecture by Dr. William Grenfell takes place in the evening.

—The concert under the auspices of the All Saints' Girls' Guild announced for next Wednesday, has been postponed until Friday evening, May 5th. The Harmony Male Quartette will assist in the program.

—The coal merchants booked a good many small orders for coal on Saturday. The weather clerk must have stock in some coal company.

—The Lindsay Post says; Miss Smith, of Peterborough, will open an up-to-date confectionery store in Mr. Ed. Robson's west end store on Monday. All pastry and confectionery goods will come from Toronto.

—Five or six cars consigned to the Peterborough Fuel and Cartage Company, are standing on the Bethune street siding between Hunter and Simcoe streets, showing badly battered sides. They were in a run-off at Port Hope in which their ribs were broken and abraided.

—The Sunday afternoon meeting of the Y.W.C.A. was unusually well attended. Rev. J. G. Potter gave a very interesting talk to the young women on their opportunities for work in the Association. Next Sunday Miss Alice Scott will give a talk on the work in the hospital at Gleichen, Alberta.

—The Lindsay Post says; A man by the name of Lathangue, who was arrested on a charge of collecting money in town without the permission of his employer, a Peterborough Jew, appeared before Police Magistrate Jackson yesterday, but was remanded for another week.

—Little Lake Cemetery is at present undergoing a thorough cleaning up. The grass has all been raked over and cut and is looking lovely, far greener than most lawns at present. The drives are all in perfect condition and is still up to its standard as one of the most beautiful burial grounds anywhere.

—One of the best attended Strangers' Teas was held in the Y.M.C.A. on Sunday afternoon. The guests included strangers who hail from North Wales; Wrexam, N.W.; Lancashire, Eng.; Cork, Ireland; Montreal; Worcestershire, Eng.; Munvers; Syracuse, N.Y.; Hastings and New Glasgow, N.S. The tea was furnished by the ladies of St. John's Church.

—Mr. R. M. Roy on Saturday afternoon took several fine photos on the market square of the crowd that surrounded the wooden building when the Diamond Dry Fire Extinguisher was used to put out the flames.

—The assessment roll for Port Hope has been returned to the town clerk and it shows an increase in the population and also in the assessment over last year. The population has taken a jump of 94, and the assessment is increased by $197,972.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

C. G. E. ANGLERS.

Annual Meeting of C. G. E. Angling Club to be Held this Evening.

The annual meeting of the C.G.E. Angling Club will be held this evening at 7.30, in the Y.M.C.A., when the election of officers, and other important business will be dealt with. All members are requested to attend.

Angler Brown has invented a new hook, which is something the shape of a grappler. He is very anxious to give a few illustrations to his brother anglers. The O.L. will give an assay on fishing, which will no doubt interest many of the fishermen. Commodore J. G. M. Wilson has very kindly offered to banquet the new fishery inspector. All members of the club wishing an introduction to the new Government officials are requested to be on hand this evening.

A NEW GERM THEORY

Explains Cause of Much of the Sickness in Peterborough

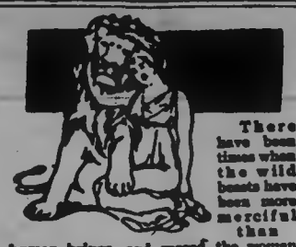
It is well known that everyone swallows countless germs every day, many of them being positive disease germs which under right conditions result in serious sickness.

Dame Nature kills most of these germs when they reach the stomach and digestive organs with the natural juices secreted by the healthy stomach. As a usual thing it is only the person with a weak stomach and poor digestion who should fear the germs of disease.

The most recent theory of scientists is that the bodily health depends upon the natural action of the stomach. This explains why those who use Mi-o-na tablets are rarely ill. Taken before each meal, Mi-o-na strengthens the stomach so that disease germs are either neutralized or else driven from the system. You can eat what you want and all you want without fear of indigestion, if you take a Mi-o-na tablet before each meal.

Thousands of people are wasting away, thinking that they have heart disease, liver complaint, or some kidney disorder, and that the resulting headache, dizziness, heartburn, and general despondency and weakness is a sign of serious illness, when in reality there is nothing the matter with them but a weak stomach, which a fifty cent box of Mi-o-na tablets will restore to health and strength.

Mi-o-na is a guaranteed cure for all diseases of the stomach, excepting cancer. Ask Wm. Madill to show you the guarantee he gives with every package.



There have been times when the wild beasts have been more merciful than human beings, and spared the woman cast to them in the arena. It is astonishing how little sympathy women have for women. In the home the mistress sees the maid with the signs of suffering she recognizes so well, but she does not lighten the sick girl's load by a touch of her finger. In the store the forewoman sees the pallor and exhaustion which mark womanly weakness, but allows nothing for them. It is work or quit.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

C. P. R. HOTEL

CHANGE OF OWNERSHIP

Rickerby Brothers have purchased the C. P. R. Hotel, on Simcoe Street. The new proprietors of this well known hotel are now making extensive alterations and improvements in both hotel and yards. THE CAUSE OF THE GENERAL STRIKE.

Social Democratic Party Calls Out All the Workmen in Consequence of Yesterday's Bloodshed.

BRUTAL COSSACKS ATTACK THE POPULACE.

Enter The Courtyards and Churches to Attack the People — Situation Very Grave.

Warsaw, May 3.—The committee of the Social Democratic party of Poland and Lithuania has issued a manifesto, proclaiming a general strike and calling out all the workmen immediately in consequence of yesterday's bloodshed.

THE DEBTS REMITTED.

St. Petersburg, May 3.—Expert calculation shows that the peasants' debts remitted by the recent Imperial decree amount to about $45,000,000.

Warsaw, May 3.—The city is apparently outwardly quiet this morning, but the situation is none the less grave. Workmen are going from factory to factory, compelling their comrades to strike, and the probability of further conflicts arouses the keenest apprehension. The bodies of the 30 odd persons killed by the troops on Zelasena street yesterday are still lying in the morgues awaiting identification. Ten of the wounded who were taken to hospitals died of their wounds.

TO REPEAL SETTLEMENT

Hon. Mr. Rogers Wants Manitoba Legislature Called

Winnipeg, May 2.—It is reported tonight that Hon. Robert Rogers, Manitoba Minister of Public Works, has demanded that a session of the Legislature be called at once to repeal the school settlement of 1897. Premier Roblin resists the demand, but all his colleagues are against him.

PEOPLE LIVE LONGER; DOCTORS ARE POORER

Milwaukee Physician Gathers Statistics to Prove Assertion and says Annual Saving Amounts to $50,000,000

Milwaukee, May 3. — People live longer now, and in consequence doctors are getting poorer. This is the statement of Dr. W. H. Washburn, who has a fad for collecting statistics. Dr. Washburn said to-day that there was not a physician in general practice in the city who was receiving within $1,000 of what he received as income in 1895. The average lengthening of life in the past ten years has been four years. In Milwaukee alone $300,000 less was paid for doctors' bills in 1902 than was paid in 1892. On the basis of the lengthening of life Dr. Washburn said the annual saving to the people of the United States yearly in doctors' bills was $50,000,000.

The stock of the Hansen Fur Company, valued at $140,000, was destroyed by fire to-day. During the fire the water tower was charged with electricity from a feed wire of the street railway company and four men were knocked down.

The club women of Neenah, tiring of picking up waste paper in the shape of circulars and dodgers from their lawns, will hereafter destroy such paper without reading and boycott stores using this method of advertising.

John L. Connors, the oldest employe in point of service of the St. Paul Road, died at his home to-day. Mr. Connors was 72 years of age, and had been with the company for fifty-two years. He started as a car cleaner, and was an employe of the original line when one old gray horse constituted the entire switch engine force of the road.

MR. CARNEGIE CHAIRMAN.

Mr. J. H. Carnegie Elected Chairman to Preside Over Public Accounts Committee.

Toronto, May 2.—Mr. J. H. Carnegie, of East Victoria, was elected this morning chairman of the Public Accounts Committee. The mover and seconder were; Hon. Mr. Matheson and Dr. Preston, of North Lanark. In taking his seat the chairman expressed his thanks for the honor done him, and trusted that the work of the committee would be carried out with credit to the members and with benefit to the Province.

WEATHER NOTES

Mostly fair and warmer.

ALLEN'S LUNG BALSAM

Cures Deep-seated Coughs, Chronic Bronchitis

BLOOD FLOWS IN POLAND THEIR SITUATION IS CRITICAL

General Strike May Be Precipated and Friday Likely to See Disturbances on a Huge Scale--Much Anxiety Over Events To Take Place May 5.

St. Petersburg, May 2.—During the afternoon free performances were given at all the theatres and in the parks great crowds were regaled with open-air performances, puppet shows, the music of military bands etc.

Beyond the usual drunken rows in the industrial sections absolute quiet prevailed. Reports from other parts of Russia, with the exception of Russian Poland, indicate that the day passed with the traditional observances and without disorders.

To-day's bloodshed at Warsaw, however, is likely to very seriously affect the situation there and may cause a general strike. The temper of the people is at white heat, and there is much apprehension regarding the possible events of May 5, the 114th anniversary of the proclamation of the Polish constitution, on which disturbances and demonstrations always occur.

All the ground that has been gained since the disturbances of last January has been lost.

Bride Stricken with Smallpox

And Now the Wedding Guests Are In a Panice--Whole Town Under Suspicion As the Result of the Illness of a Young Woman.

New York, May 3.—The Tribune says, Smallpox has stricken a bride, closed a church, quarantined its pastor, and greatly alarmed four stage loads of guests who attended the wedding of Miss Magdelan Fessler and John G. Gaub, on Easter Sunday at South River, N.Y., and kissed the bride. The town is greatly excited for fear the contagion will spread.

The wedding took place at the German Presbyterian Church at South River, and all rode to the church in the stages provided for that purpose. After the ceremony several of the guests kissed the bride, and the next day she was stricken with smallpox in a most virulent form.

Dr. Crandall, of Oldbridge, who is attending her, informed the officials of the borough at South River, and they at once had the church fumigated and closed for the usual time, to prevent the spread of the disease. There were no services there Sunday. The pastor is under quarantine in his room. At the time of the wedding the pastor says the bride wore a veil and asked that she might do so thoughout the ceremony, to which request he acquiesced. The guests may also have contracted the disease, and they are being closely watched.

CONVENTION OPEN

About Three Hundred Delegates of W.F.M.S. Assemble in St. Paul's Church.

Yesterday afternoon the 300 delegates to the Woman's Foreign Missionary Society of the Presbyterian church, met and organized for business. The main feature of yesterday afternoon's proceedings was the President's address, which was read by Mrs. Shortbread, of Toronto. A Bible reading was given by Mrs. Roger of town.

After the President's address, the Presbyterial reports were presented. They numbered 16 and were presented by the following.

Barrie, Brandon and Portage, Brockville, Bruce, Chatham, Gleuboro, Glengarry, Guelph, Hamilton, Huron, Kingston, Lanark and Renfrew, Lindsay, London, Maitland and Orangeville.

After the meeting the Nominating Committee met.

The officers of the society who are present for the convention are;

President—Mrs. Shortreed.

Vice-Presidents— Mrs. Maclaren, Mrs. Telfer, Mrs. G. H. Robinson, Mrs. Jeffrey.

Rec.-Secretary —Miss B. MacMurchy.

Cor.-Secretary—Miss Martin.

Home Secretary—Miss J. F. Caven.

Foreign Secretary—Mrs. J. J. Bell

Secretary of India and Chinese Missions in the N.W. and B.C.—Miss Craig.

Secretary of International Conference—Miss Thornton.

Sec.-Treasurer of Publications and Life Membership—Miss Parsons.

Treasurer—Miss George.

Editor of "Tidings"—Mrs. MacGillivray.

Last night there was a conference on the general work of the society, and this meeting was private.

This morning's session will be an important one. It will open with a hymn, after which the program will be;

Reading of Scripture — Mrs. Tait, Quebec.

Prayer—Mrs. Monroe, Ridgetown.

Hymn. 425.

Presentation of annual reports—Foreign, Mrs. Bell; Indian and China Missions, Miss Craig; Home Missions Miss Jean Caven.

Prayer — Mrs. Robertson, Walkerton.

Hymn 563.

Annual reports.

Travelling—Miss Jamieson.

Publication—Miss Parsons.

Finance—Miss George.

Ewart Missionary Training Home—Mrs. Robinson.

International—Miss Thornton.

Hymn. 563.

Prayer—Miss Bennett, Tweed.

Psalm, selection 107.

Greetings from sister societies.

Doxology.

The meetings promise to be most interesting and, no doubt they will be attended by a large number of persons interested in missionary work.

The following list of delegates to the annual meeting of the Women's Missionary Society, and their address while in town should be added to that published in Monday's Times;

Mr. Bowsley, Toronto, at Mrs. Meldrum's, 52 McDonel St.

Mrs. A. B. McKay, Winnipeg, Mrs E. F. Mason, 740 Water St.

Mrs. Ferguson, Chesley, Mrs. Crossman, 212 Brock St.

Mrs. (Rev.) Gracey, Gananoque, at Mrs. J. F. Denniston, Castleknock.

Mrs. Bain, Gananoque, at Mrs. J. F. Denniston, Castleknock.

Mrs. Campbell, Belleville, at Mrs. Val Best's, 290 Brock street.

Mrs. Frost, Smith's Falls, at Mrs. (Dr.) Bradd's, 305 Stewart St.

Miss B. McMurchy, Toronto, at Rev. E. F. Torrance, Rubidge St.

Mrs. McKay, Linden Valley, Mrs Oke, Waterford St.

Mrs. Murchison, Cambray, Mrs Oke, Waterford St.

Evening Session.

A very interesting session of the Women's Foreign Missionary convention was held last evening in St. Paul's church. The meeting opened with praise and reading of Scripture after which Mrs. McLaren of Toronto, led in prayer. It was decided that in the representation at the Annual Meeting the Presbyterial delegates will be dispensed with. After much discussion it was found that a Mission Band Secretary had done good work, and this would be tried for another year.

Mrs. MacKay, of Winnipeg, strongly advocated the appointment of a travelling secretary for another year.

The discussion was most interesting and was characterized by great earnestness in the cause of the Master. The meeting closed with the hymn. "To Him that loved the souls of men."

LANGFORT GETS CONTRACT

Lock Company will Build on Auburn Sight, Which Has Been Purchased for that Purpose.

At the meeting of the Board of Directors of the Peterborough Lock Co. on Monday, it was decided to purchase the site on North Water street, immediately south of the Lakefield track. This site contains two and three quarter acres, and was purchased from the Auburn Woollen Company, at a cost it is understood of $2,300.

It is understood that tenders for the construction of the new buildings have been practically accepted, although some details as to specifications have yet to be perfected, and the work will thereupon be proceeded with as speedily as possible. It is understood that Mr. Wm. Langford will be given the contract for the construction of the building the price being in the neighborhood of $30,000. The buildings will be of brick with stone foundation, and three storeys high. They will be located so a railway siding can easily be constructed into the premises. This will mean a great improvement in shipping facilities over the present location.

—The Lakefield Cement Company are, it is understood, having a lot of trouble in getting marl as easily as they would wish. They cannot at present land nearly as much at Lily Lake as is needed to keep the works going full blast. It is thought however, that a new vein or drift of the required article will be found.

THE NORTHWEST MESS

What a mess the North-West education controversy is! Here is Archbishop Langevin out with a declaration that the school clauses in the North-West bill are a wrong to Catholics because they give to Catholics not the territorial regulations of 1876, but only the much less satisfactory conditions prevailing under the territorial ordinances which modified the regulations of 1876.

And just a week or so ago Premier Haultain of the North-West declared that the school clauses are dangerous and an injustice to the new Provinces because they do practically revive the regulations of 1875!

Why is the Dominion torn up by this controversy?

Why should this not be a question of provincial home rule?—Ottawa Journal.

DANNY SIMONS HOME

Return Home of a Successful Comedian After a Good Season

Mr. Danny Simons, Peterborough's popular commedian, returned yesterday from Buffalo, after a prosperous season with "Himmelien's Ideals."

Danny's many friends in town have watched his successful theatrical career with great pleasure, and he will undoubtedly have "The Glad Hand" extended to him many times in the course of the next few days. The Times was pleased to see him when he dropped into the sanctum yesterday.

LORD AYLMER HERE

Inspector General, Lord Aylmer, Will Arrive in Town This Afternoon.

Our citizens will be pleased to learn that Lt.-Col. Miller, commanding the 57th Regiment, Peterborough Rangers, has received word, that Lord Aylmer, Inspector General of the militia force of Canada, will arrive from Ottawa this afternoon, and will inspect the regiment at the drill hall to-night at eight o'clock. The visit of the Inspector-General will be one of interest and a full attendance is requested of all the members of the regiment. Lord Aylmer will be tendered an informal reception by the officers. The Times is offering to bet a little that his Lordship's comment on our Boys-in-red will be commendatory.

OBITUARY

Miss Fidelia Branch Passes Away at Age of 51

Another life-long resident of Peterborough county has passed away in the person of Miss Fidelia Branch, Cedar street. The deceased was fifty-one years of age, and had been ill for a year and a half with rheumatism. The late Miss Branch lived in Smith township for the greater part of her life, but for some years has resided in Peterborough. Her parents are both dead, but three sisters survive, Mrs. Rowe, Sherbrooke street, and two unmarried sisters at home. The funeral will take place this afternoon from the late residence, Cedar St., and proceed to Ray's cemetery, Smith for burial.

INDIANS BREAK LAW

Game Warden Fitzgerald Deals Leisurely About Muskrat Skins, Law to be Enforced.

Yesterday a party of Indians from Chemong were in town, and brought with them a number of muskrat skins. Mr. G. W. Fitzgerald, the new game warden, who had his eagle eye on these future "plucked otter" pelts, and gave them a warning, and advised them that such pelts must be disposed of prior to 1st of May.

The Indians had brought the skins to town for the purpose of selling them, and since they were ignorant of the law, he saw the pelts so far as the hands of the dealer and then informed the Indians of their responsibility under the law. This they promised to observe. Enquiry of the dealers goes to show that quite a large number of skins of the muskrat have been disposed of this season.

Game Warden Fitzgerald would impress it upon the minds of the trappers and hunters that the law is very strick with regard to the sale of skins out of season, and that he is determined to see it enforced. The skins brought to town yesterday morning were all taken during the open season.

OLD SCENES RECALLED

Mr. Taylor, of New Zealand, An Old Peterborough Boy Speaks of the Antipodes.

Yesterday some of Peterborough's old boys, driven under cover by the inclement weather, had quite a series of old reminiscences under discussion. One of the old boys, was Mr. Taylor, who is now a wealthy citizen of New Zealand, here, for the first time in 36 years, on a visit. He has been down visiting his old friends, the Birdsalls at Rice Lake, and was yesterday renewing acquaintances with friends of his youth in town.

In a contemplative mood, Mr. Taylor told his auditors of the wonders of his adopted home, New Zealand. He speaks very highly of his country, regarding its climate, wealth, possibilities and other advantages in speaking of the wonderful natural curiosities of his distant home, Mr. Taylor described the terrific grandeur and sublime wonders of what is there locally known as "The Thermal District." This includes what used to be celebrated all over the globe as the colored terraces, but which in 1886 were almost completely destroyed by a volcanic eruption, the wonderful Pink Terrace being altogether covered by the floods of lava pouring over it. Mr Taylor told of the mountain, or volcano seldom in eruption, which destroyed this Pink Terrace.

He says that in this neighborhood there are vents where the boiling water bursts forth from the bowels of the earth, the greatest of these geysers being called the Tara Wara. There is a little lake three-quarters of an acre in extent, which is always boiling just beside it. Every now and again, this geyser spurts forth boiling water to a height of from 500 to 1,500 feet in a perpendicular jet, into the air, and this water carries with it mud and stones.

A few years ago, among the hundreds of tourists who weekly visit this appaling geyser, was a large party, among them a young lady from England. The young lady, despite warnings given her by the guide, that the geyser might, at any moment, spout, insisted on approaching close to the mouth or vent of the geyser, as she was anxious to take a snap shot with her camera. Suddenly the geyser opened operations and spurted forth boiling water, mud and stones. The falling stones and mud knocked the too venturesome young lady back into the boiling lake, and killed the guide who tried to save her. When the bodies were dragged out of this natural cauldron, they were boiled beyond recognition. The girl's own mother was standing close by and witnessed the whole catastrophy.

Mr. Taylor is of quick wit and apparently knows how to turn a compliment. A young lady during his recent travels asked him if he could speak Maori, the language of the native blacks there, and on being informed that he did, requested a sample of their talk. He strung together a lot of names of New Zealand lakes, rivers and mountains, which still retain their native nomenclature; the young lady being fully impressed with the idea that he had made her a connected speech, in Maroi, asked its meaning. He replied "All that I have would I give for a smile from you."

Mr. Taylor returns to Rice Lake today to pay another short visit to old friends, and will leave for his adopted home in a few weeks.

BIG DEFICIT FOR GOVERNMENT

Excess of Expenditures for Fiscal Year Reaches $30,118,000

Washington, May 3.—The excess of government expenditures over receipts for the present fiscal year today reached $30,118,434. Treasury officials now have no hope that this deficit will grow less in the present fiscal year, and it is thought it will reach at least $35,000,000. Meanwhile official junkets are going on at a rate never before known in the government's history.

A CHARTERED ACCOUNTANT

Mr. W. R. Morris to Open an Office for Expert Auditing, Etc.

Mr. W. R. Morris, of Smith's Falls, is about to open up business in this town as an expert accountant. He comes to Peterborough with very strong letters of recommendation from leading men in Windsor, Smith's Falls and other Canadian towns. Mr. Morris has recently been general auditor for The Frost & Wood Company, of Smith's Falls one of the largest manufacturing concerns making agricultural implements in Canada. He is at present making arrangements for an office in town and will, in the course of a few few days, announce, in the columns of this journal, the location of his permanent offices. Mr. Morris makes a specialty of auditing, systematizing and dealing with manufacturer's cost accounting. He is a member of the Ontario Chartered Accountants.

A BETTING CONSPIRACY

Alderman Douglas is the Complainant in a Case to be Tried at the London Assizes

Alderman Douglas, of London, Ont., lost $10,000 on a foot race at St. Louis, Mo., last November, and in his ire caused the arrest of William Boyd, Chatham, and John Stevenson, London, on a charge of conspiracy, the allegation being that the race was in sporting parlance, "thrown." Boyd was a competitor in the race, and was defeated by a man named Maxwell, of St. Louis. Alderman Douglas placed his bet with a "Millionaire's Club" of St. Louis, and one named Peck was the stakeholder. Stevenson, the other defendant, is said to have acted as agent for the alleged conspirators. Sixty thousand dollars were lost on the race by West Ontario people. The defendants were committed for trial by the Magistrate at London and released on bail till the spring assizes, when they will be tried by Chief Justice Meredith and a jury. T. C. Robinette, K. C., has been retained to defend the prisoners.

BANK CHANGES

Several Changes in the Ontario Bank Staff--Mr. Johnston will be Accountant.

The well merited promotion of Mr. A. A. Hollingshead from the position of accountant of the Ontario Bank to that of Manager of the Bank of Ottawa, here, has caused quite a shuffling in the local Ontario Bank staff. Mr. J. T. Johnston, formerly accountant at Lindsay, takes Mr. Hollingshead's place. Mr. Harry Rush will fill the position of assistant accountant, while Mr. Warren Dean succeeds Mr. Rush as receiving teller. Mr. G. L. McLennan will take Mr. Dean's place as savings teller.

ONE HUNDRED MILLION bottles of Painkiller used since Perry Davis made the first. Billions of stomach ills and other aches cured; what a record in 60 years. Have a bottle always handy—you will not regret it.

—Mr. and Mrs. G. W. Jones have returned from spending a day or two in Hamilton.

THE TOWN COUNCIL WILL STAND BY THEIR GUNS

And Not Rescind Their Measure Asking for Incorporation as a City---Opposition Petition Signed by 150 Citizens Presented Last Night

When the committee in charge of the "city" inauguration celebration met last night they were face to face with the question, Will the Council recede from their position, and withdraw their petition to the Legislature for a special act of incorporation of Peterborough as a city.

A petition in opposition to the present incorporation, signed by 150 citizens, was sent into the Mayor yesterday evening, in consequences of which he called a special meeting of the Council for eight o'clock. Accordingly the City Fathers considered their position in Committee of the Whole, in the Clerk's office, while the Celebration Committee in the chamber above awaited their decision. It will be interesting to note that before the meeting proper a few of the latter committee expressed themselves strongly in favor of a stay of proceedings, although subsequently, when the Council announced that they were a unit in their determination to let this measure take its course now the bill is before the House, the majority of the committee offered their hearty endorsement.

TO STAND BY THEIR GUNS.

In Committee of the Whole after receiving the petition above referred to, Ald. Adams pointed out that last December, Ald. Morrison had advocated submitting the question, "Shall special legislation be asked to incorporate Peterborough as a city," to the people at the January elections; but as so many questions were then to be voted on, it was thought wise, in the interests of all questions then pending, not to do so. This year the Council had duly advertised its intention to seek special incorporation, the matter had been thoroughly discussed, and widely circulated, and he thought this opposition came pretty late in the day for the Council to be expected to acquiescence in the petitioners' request.

Ald. Batten remarked that it would be in keeping with the Council's policy this year for them to rescind their action in this respect.

Mr. W. H. Moore advised the Council that having put their hands to the plow, and gone so far in this question of immediate incorporation as a city, it would be slaidish for them to withdraw that particular clause from their bill which comes up before the House next Friday. He contended that incorporation by special legislation now would mean a saving of $400 or $500 over the expenses of incorporation by natural growth, say two years hence when we should have to take a special census to convince the Government that the town had the required population of 15,000 to warrant its assuring city clothing naturally. He did not consider 150 petitioners of sufficient weight to justify a stay of proceedings, and the Council's receding from its position.

Ald. Mason.—"This is a different Council to the one you were a member of. We have power to change our minds."

Mr. Moore—"I wouldn't waste a moment's thought over letters published in the press over anonymous names. I am never ashamed to put my own name to any letters I publish."

The Council then decided to stand by their action in this matter, and adjourned upstairs to the Council Chamber, when Town Clerk Armstrong read to the Celebration Committee in waiting the names of the opposition petitioners, which included a great many business men.

His Worship next invited citizens present to give their views, when Mr. W. H. Moore reiterated his opinion as expressed downstairs, and added that the opposition petitioners did not represent one-twelfth of the ratepayers.

PRO AND CON.

Mr. Adam Dawson did not think there were any legitimate reasons for routing the town city wards. The name of a bogus city will never bring manufacturers here; they are looking for cheap taxes and shipping facilities. Had a vote been taken last January on the question, he believed it would have been voted down.

Rev. J. C. Davidson, although having signed the petition, said he was willing to support the majority. He offered that we do not want to promote booms, but rather to encourage a steady growth of our town. As to the petition that had only been circulated the last couple of days, and only a small number had had an opportunity to sign it.

"But, whatever happens," he said, "I am prepared to support the Council to the best of my ability." The general consensus of opinion will rule, and loyal citizens will support the authorities irrespective of their private opinions."

Mr. J. H. Larmouth, agreed with Mr. Moore, and thought the Council should stand by their guns and not back out at the eleventh hour.

Mr. R. E. Layfield agreed with this, although he thought the Council had been somewhat hasty in seeking incorporation.

Mr. Bourse contended this city incorporation would mean giving away to the control of commissioners certain matters at present very ably handled by the Council. He asserted that certain parties are very anxious for incorporation because thereby they will secure an increase of salary. Another big opposition petition is also now in circulation.

To Ald. Tovey, the Mayor replied that Peterborough being a city would not effect the selling of our debentures. It is merely a question of security in disposing of debentures, and Peterborough has always secured as favorable, and in most cases more advantageous financial terms than any town in Canada, our debentures have been sold at 3 per cent. par.

Ald. Adams contended that those opposed to the scheme should send a deputation to Toronto. The Council could not be expected to stultify itself now the matter has gone so far, the bill now being before the Private Bills Committee. He understood some time ago there was considerable opposition, but only from a class financially interested in the way of licenses. Had the petition been presented a month ago, when the matter was in its infancy, it might have had some effect.

Mr. Alex. Gibson in reply to Ald. Adam's insinuation that the opposition originated with the hotel keepers, said Dr. Rosebrugh headed the list, and the licensed victuallers' names were only added to-day.

Ald Mason remarked that if made a city the increase in expenditures would be tub small, the main item being that of $200 a year extra for the police magistrate.

Ald. Begley pointed out that when this matter was considered in Council, there was no official behind the movement looking for an increase in salary. He thought the Council should stand by their action in this respect, and added, "We already have a local reputation for rescinding our measures, and should we follow suit yet once again on this question, that reputation will become provincial."

Ald. Hicks remarked that while opposed to special incorporation last year, he had decided in this Council to join heartily with the majority in forming a unit on the question.

Ald. Johnston agreed with Ald. Hicks, and added that he had never changed mind one iota on any civic question, whether rescinded or not. While he would have preferred that the towns grow into a city naturally, still he urged the Council to stand by their guns.

Ald. Batten sarcastically remarked that one of the foremost names on the opposition petition was that of a man who first advocated the town's incorporation as a city two years ago.

Ald. Tovey said originally he was opposed to incorporation but after canvassing for election as alderman he changed his mind; he had thought the matter over carefully and intelligently, and was prepared to stand firmly by his colleagues on this question. He contended that public opinion was with the Council.

Ald. Hall said he was prepared to stand by the Council's action already taken. While a great many names on that petition were those of men he respected it is too late in the day for the town to recede from its position.

Continued in To-morrow's Issue.

PIGMIES OF AFRICA TAKE OSLER'S ADVICE

British Army Officer Tells of Race Whose Males Die at Age of Forty

London, May 3.—Colonel Harrison has just arrived at Khartoum, bringing to London six pigmies belonging to the tribe found in the Congo Free State. There are four men and two women, aged between 18 and 34, in height from 44 to 54 inches. Colonel Harrison says the pigmies are still numerous on the outskirts of the Ituri forest, but seldom penetrate the interior except for purposes of concealment.

The men are of warlike disposition, dwelling in small villages, each with an independent chief. None lives to be more than 40; some have hair on their breasts and legs, but the majority are free from it, while very little clothing is worn by men or women. They have thick lips and noses, sallow complexions, and appear quite intelligent, while one woman coming to London has a remarkably good figure.

May Canadian Magazine

Several military articles give a sort of military character to the May Canadian Magazine. "The Badges of the Canadian Militia," by Captain H. F. Wyatt; "The Militia Council," by the Editor; "The Personnel of the Council;" "Before the Militia Bill of 1868," by Benjamin Suite—all these articles are appropriately illustrated. The other features are equally attractive. R. E. Macnaughten describes the Canadian West in a three-page poem, with suitable illustrations. G. M. L. Brown, a Canadian journalist who is travelling in South America, contributes an interesting sketch of Venezuela which is accompanied by a number of informing photographs. Alfred Fitzpatrick tells the story of "The Neglected Citizen in the Campa," and what is being done to provide for his moral and educational advancement. Perhaps the most notable article in the issue is "Electoral Management," by H. B. Ames, M.P., who describes an ideal method for organizing a city constituency in such a way as to avoid political corruption. The stories are contributed by J. Gordon Smith, Eric Brown, Theodore Roberts and L. M. Montgomery. The poetry and the departments are excellent.

—In the results of the final year in Faculty of Theology at Victoria University, the name of H. H. Cragg appears as taking high standing in Theism, Greek, Exigesis and Church History. Peterborough friends will offer Mr. Cragg their congratulations on his success in his studies.

GET UP TIRED WEARY ALL DAY

Never Feel Refreshed — Always Played Out, Weak, Languid, Discontented.

FERROZONE

Will Infuse the Vim and Fire of Youth into Your Veins.

Quick permanent cure follows Ferrozone. It braces at once, makes you feel like new. You rejoice in new found strength, in vital energy, in power to act, to think, to do. No other medicine on earth so beneficial to the weak, the run-down and nervous.

Mr. George E. Mainsburg, of 179 Queen street, Toronto, was completely rebuilt by Ferrozone, and writes:

"I WAS subject to spells of dizziness and light feeling in the head, "I broke out in cold sweats. "My appetite was poor and I lived in perfect dread of a collapse. "I improved at once by using Ferrozone.

"It braced up my nerves, gave me a good appetite, strengthened my blood, and made me feel young again. I am now in the best of health, just because I used Ferrozone."

It's a shame to live in a half-dead condition. Ferrozone will vitalize you. It will give you reserve strength, self-control, surplus vigor. It's the most strengthening medicine made. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Kingston, Ont., and Hartford, Conn. U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock. The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 3 1905

WILL NOT OFFEND JAPAN

Sir Wilfrid Laurier has a full sense of the Imperial obligations resting upon him. No sooner was the anti-Japanese legislation of the British Columbia local assembly passed than he at once assured the chief consul of Japan at Ottawa that the law would be disallowed. It would be unfriendly and impolitic, indeed, to allow an act forbidding the immigration of Japanese into British Columbia, or any part of Canada, when Japan and Great Britain are sworn allies. It is a pity the British Columbians do not see this, or that they allow a party of agitators, who have it is alleged, their headquarters on this side of the line in Seattle and Denver, to dictate the policy of the legislature in this particular. A nation whose people show so many virtues as the Japanese should scarcely expect to see her emigrants rejected as unworthy of admittance into western lands

The Queen's Violets.

All the country knows by this time the beautiful story, first told by The Daily Chronicle, of the Queen and the workman's child. The little girl, whose name is Violet Victoria Velden, is suffering from consumption, and was taken to the Catholic Apostolic Church in Gamberwell to be blessed before entering the Brompton Hospital. In church the Princess' illness was announced, and prayers were offered for her recovery. On returning home the child wrote a little letter of sympathy to Her Royal Highness. The reply was unexpected. One evening a carriage drew up at the door. What followed is told most vividly by our contemporary in Mrs. Velden's words:

"Well, what should he do but knock at our door.

"'Does Mrs. Velden live here?' says he, taking off his hat.

"'Yes,' I said. For the life of me I couldn't make out what it meant.

"'Then the Queen's sent this.'

"And he handed me the basket of flowers you see standing in the window. For the moment I was too taken aback to understand.

"'The Queen?' says I.

"'Yes, Her Majesty has sent these flowers and this note to your little girl.'

"Before I knew where I was he had gone, leaving me with the flowers in one hand, and the note from the Queen and Princess in the other."

In a large white and gold-enameled basket was a perfect wealth of tulips, sweet-scented lilies of the valley, delicate ferns, and one perfect bunch of violets, the little invalid's name-flower. So, with the inclusion of Her Majesty's favorite lilies, an act gracious enough in barest outline was beautified into one of those delicately personal courtesies which have rooted the royal family deep in the hearts of the people. Mr. and Mrs. Velden have distributed the violets among their friends as keepsakes of their little girl and her Queen. —London Daily Chronicle.

Fire by Friction.

A recent writer gives the following description of the method by which a Kaffir produces fire by friction:

Two special sticks made of a light wood are taken. One is pointed, and in the centre of the other a conical hole is made. Placing the latter on the ground, the native holds it firmly with his feet. Then he puts the pointed stick in the conical hole and begins slowly twirling it with his hands, using a good deal of pressure, until the wood becomes powdered, lying round the revolving point in a little heap of dust. When he thinks he has made sufficient of this wood dust he twirls the stick very rapidly, and in a moment the powder bursts into flame, which he uses to set fire to some dried grass.

Wouldn't Wake Up.

Mrs. C. one morning last week thought she smelled gas. Bravery came to her mysteriously, and she crept downstairs to investigate. After smelling about for some minutes she rushed upstairs, called Mr. C., then shook him, and at last aroused him. Then this was hear:

"John, there's a lead in the gaspipe in the kitchen. We'll all die if it is not fixed."

Leaks had been heard of before, and Mr. C. sleepily asked:

"Is it a-leaking much now?"

"Not much," screamed his wife, and then, as Mr. C. turned over, this soothing advice was given:

"Put a bucket under it and come to bed."—Birmingham Post.

When the Horse Is Idle.

Feeding should not be suspended because the days have come when the work horses have less to do. Manage to give them some work every day or turn them in a yard or paddock to move about. Feed enough so they will not run down or get soft, as it will cost much more to get them in good condition again if allowed to fall off. They should have at least two feeds of grain each day. Corn and oats ground, from four to eight pounds, fed on cut hay, in two meals, is a good ration.—Farm Journal.

Starting the Lamb.

Don't forget that an injection of warm, soapy water will correct constipation in the lamb and set it to sucking.—Wool Markets and Sheep.

NOTICE

Take notice that the Municipal Council of the Corporation of the Town of Peterborough intends, after one month after the last publication of this notice, to undertake the construction of granolithic sidewalks on the following streets or parts of streets in the Town of Peterborough, as local improvements, under section 678 of the Consolidated Municipal Act, 1903, and the other provisions of the said Act, and the By-laws of the said town relating to local improvements and applicable thereto:

Hunter Street, both sides, from Bethune to Rubidge Street; Simcoe Street, both sides, from Bethune Street to Rubidge Street; London Street, north side, from Aylmer to Reid Street; Antrim Street, north side, from George Street to the Grand Trunk Railway; Reid Street, east side, from McDonnell to Hall Street; Brock Street, south side, from George to Water Street; Brock Street, north side, from Rubidge to Reid Street; Queen Street, west side, from Hunter to Simcoe Street; Murray Street, north side, from College to Dickson Street; Bethune Street, east side, from McDonnell to London Street; Simcoe Street, north side, from Water to Queen Street; Water Street, west side, Simcoe Street to the Market Square, McDonnell Street, north side, from Downie to Park Street; Argyle Street, south side, from Water to Sunnyside Street; Hunter Street East, south side, Mark to Rogers Street; Rogers Street, west side, Hunter to Robinson Street; Rogers Street, west side, lot 5, plan 17 to Haslitt Street; Smith Street, south side, Water to Harvey Street; Edinburgh Street, north side, from George Street to the Grand Trunk Railway; Edinburgh Street, south side, from George Street to Union Street; Smith Street, north side, from Reid to Downie Street; Downie Street, east side, from Smith Street, to Victoria Ave.; Sherbrooke Street, north side, from the junction of Park and Reid Street to the Monaghan Road, Harvey Street, west side, from Smith to Antrim Street, King Street, north side, from George to Aylmer Street, south side, from Aylmer Street east to the bridge over the creek; Scott Street, south side, from Rubidge Street to Reid Street; Bethune Street, west side, from Edinburgh to Antrim Street; Aylmer Street, east side, from McDonnell Street to half way between London and Dublin Street, where the culvert interferes.

And to assess the final cost thereof, less the cost of that part of the work which is incurred in respect of street intersections, and opposite exempted properties, and less forty per cent. of the remaining cost of the work, to be provided by the Municipality, under Section 678 of The Consolidated Municipal Act, 1903, upon the properties abutting thereon and to be benefitted thereby, and the number of annual special assessments therefor will be twenty.

Persons desiring to petition the said Council against undertaking any of the said proposed works must do so on or before the 17th day of June, 1905.

Dated the 1st day of May, 1905.

S. R. ARMSTRONG
Clerk.

NOTICE

Take notice that the Municipal Council of the Corporation of the Town of Peterborough intends, after one month after the last publication of this notice, to undertake the construction of sewers on the following streets or parts of streets in the Town of Peterborough, namely:

Park Street, from King Street to Sherbrooke Street, and west on Sherbrooke Street to Park Street, and south on Park Street to Rink Street; on Reid street, from Charlotte Street to King Street; on Aylmer Street, from Rink Street to Lake Street; on Lake Street, from Aylmer Street to Crescent Street, and on Barnardo Avenue, from George Street to Church Street.

And to assess upon the real property to be benefited by such sewers, such proportion of the cost thereof as may be just, in accordance with the provisions of sections 664 to 686 inclusive, of the Consolidated Municipal Act, 1903, or so much thereof as may be applicable thereto, and subject to the provisions of such by-law or by-laws of the said Corporation now or hereafter to be passed as shall be applicable to the same, and the number of annual special assessments therefor will be thirty.

Persons desiring to petition the said Council against undertaking any of the said proposed work must do so on or before the 17th day of June, 1905.

Dated the 1st day of May, 1905.

S. R. ARMSTRONG
Clerk.

Ayer's Hair Vigor.

Gives to gray hair all that soft, dark, rich color so natural to early life. Checks falling hair; keeps the hair soft and smooth, and prevents splitting at the ends.

MARCONI

How Great Fortunes Grow

On the American continent there is no more interesting example, of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay-- Buy To-day.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patents on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company, which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Brompton ville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Crombie, Esq., Kingsbury, Que., of Williamson & Crombie, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. N. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 16, Victoria Arcade Bldgs., Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WE INVITE YOU, MR. INVESTOR

To join with us in the development of our magnificent acreage in Clear Creek County, Colorado, and to share in the profits that will accrue from this great gold mining enterprise. We are now doing the most careful development work and any shot may open ore. By joining with us now you get stock in an honestly managed, legitimate mining company that has all the ear marks of a dividend payer.

TO HELP US OPEN ORE

And insure the early completion of the tunnel we offer a small block of full paid, non-assessable stock on the monthly payment plan, payable 10 per cent. with subscription, and 10 per cent. a month for 9 months, or for cash at prices that will yield handsome returns.

THIS IS NOT A PROSPECT, BUT A PROVEN MINE

We invite the most rigid investigation. Our capitalization is $1,000,000, par value of shares $1.00 each; $600,000 is treasury stock. The company owns outright, free from debt, 3 full fixed mining claims of 5 acres each, two mill sites of 5 acres each, the sunflower placer of 20 acres and the Ora tunnel site 2,000 feet long on Breckenridge mountain, in Upper Union Mining District, Clear Creek County, near the Town of Empire, in one of the richest sections of Colorado. The tunnel is now in a distance of 200 feet and rapid progress is being made under the direction of Mr. Charles H. Morris, a mining engineer of 30 years' standing in Colorado.

Send for engineer's report and free literature. We want you to investigate this enterprise. Address

Tonopah-Crow Mining Stock 18c.

The property of the Tonopah-Crow Company is at Crow Springs, near Tonopah, Nevada; six mining claims and one mill site, 125 acres, crossed by more than 100 ledges; average value of ore so far opened about $54 a ton; 500 feet of development added to the principal workings on this property would expose 10,000 tons of ore worth $500,000. Its mining and reduction would leave a profit of more than $200,000. A hoisting plant of 500 foot capacity will soon be installed. This will soon be one of the best dividend payers in the section. An absolutely safe investment; selling at 18c. a share. Par value of stock $1.00. Send in your order now.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

INVESTIGATE AND YOU WILL BUY

The Twentieth Century Mining & Power Co.

LIMITED

Owns a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 20 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY, CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share--Full Paid--Non-assessable

THE RUSSELL MINING COMPANY Was organized under the laws of Arizona with a capital stock of $500,000, divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado.

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was taken at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,200 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 450 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 oz. gold and 13.35 oz. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 0.9 oz. gold and 5.2 oz. silver, or a value of twenty-one ($21.80) dollars per ton. The average of eight assays over 25 feet in the west drift gave $45.52 per ton, and from over 40 feet in the east drift, nine assays averaged $183.77 per ton. It is proposed to sink the main shaft to the 500 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 151 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 1. The drift from the Old Town shaft, referrred to above, was run nearly 200 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,500 feet. Taking the 1,500 feet along the vein from the 600 to 1,500 foot levels with the average width of three feet for the vein, and we have a product of 337,343 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $5,-057,200.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 20 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russell Claim would be nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developments in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 2,000 feet by 50 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $100,000 per year for the past three years, and is now working at a depth of 1,500 feet and has just completed the installation of larger machinery preparatory to increasing its output this year. The Topeka, which has produced over $2,000,000, and the Wautoga, which has a production credited to it of over $1,500,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 130 feet of the drift, run at the 200 foot level, from the Old Town shaft, ranged in value from $2.64 to $276.53 per ton, the average being $50.73 per ton. The development of other mines in this district has shown the veins to be strong and persistent to great depths, the California mine near Central City is now producing from a depth of 2,200 feet.

TRANSPORTATION.

The Tram Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 200 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,000 to 2,200 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stoping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date. The progressors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best-paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Mining Company is therefore offering its stock to investors in order that they may participate in this enterprise which bids fair to become one of the best mining propositions in the West.

The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in this proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to complete payments of the original bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Rondeau Breakwaters," will be received at this office until Monday, May 29, 1905, inclusively, for the construction of two breakwaters at Rondeau, Kent County, Ont., according to a plan and specification to be seen at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto. J. G. Sing, Esq., Resident Engineer, London, Ont., on application to the Postmaster at Rondeau, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

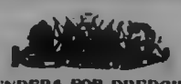
An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works
Ottawa, April 27, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.



TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Kloudyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1859 to 1895 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.3
4500 feet on Arapahoe dyke 22 feet wide	15.3
6000 feet on Kloudyke ore channel 80 to 100 feet wide	20.4
Kloudyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Kloudyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200 feet on Arapahoe, five hundred feet and Kloudike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Kloudike Tunnel driven eight hundred feet opening ore bodies on Monroe and Araphoe lodes estimated cost $15,000 00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $6,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Kloudyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000 00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.
No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	8
Number of tons concentrated per day	3

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 8 tons mill ore of value of $12.00 allowing 10 per cent loss in saving	88.00
Net value after deducting expense of mining and milling per day	80 00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	300.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	130 000 00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 1,100,000 shares in treasury reserve fund which draws no dividend	-
	$120,000 00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$50 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage of ore developed through the Kloudyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Address all communications to THOS. PATTERSON & CO., Fiscal Agents, Peterborough, Ontario.

BOULDER, COLORADO

Marconi Wireless

How Great Fortunes Grow

On the American continent there is no more interesting story of fabulous wealth, built up from small capital, than that presented by those who had the foresight to become interested in such successful inventions as the **Edison Electric Light, Bell Telephone, Westinghouse Air-Brake** and the allied gifts of our great inventors' brains.

A few thousand dollars, in one instance after another, has grown to millions; even the man with a few hundreds wisely invested during the early stages of those things which satisfy a public demand stands to-day with unlimited wealth to gratify his every need. The

Marconi Wireless Telegraph Co., Ltd., of Canada

is an exact parallel to those previous inventions which brought affluence and comfort to their promoters. Its future will see a corresponding enhancement of value. Now is the time to identify yourself with this prosperous and rapidly growing enterprise, and in future years you will, without further effort, reap abundant reward in the growth of your money.

The growing demand for this stock, which can now be bought at par, will carry it to higher and higher levels. Do not wait until the Company has developed to its utmost and the price of its stock has risen to its highest level. You can purchase any amount of stock from one share to two hundred shares at $5.00 per share. That price will advance in the early future to an amount equal to hundreds per cent. in dividends and you should make an immediate purchase in order to take advantage of that increase.

DON'T DELAY BUY TO-DAY

Address all communications and make all checks payable to

MUNROE & MUNROE

Managers for the Marconi Underwriters.

ADVERTISING IN THE TIMES PAYS

Deadly "La Grippe"

Or Epidemic Influenza is Caused by an Air Germ. The Most Scientific Remedy is Catarrhozone.

Two years ago, the medical journals commented widely on the marvellous success of Catarrhozone, which assisted very largely in stamping out the epidemic raging at that time. Cases that had resisted all other treatment were at once relieved and through the great healing powers of Catarrhozone further progress of the malady was arrested.

It is doubtful whether in the whole range of medicine a more lasting cure can be found. If a patient has any warning of the approach of La Grippe he has only to inhale the germ killing vapor of Catarrhozone a few times daily and escape entirely.

Even as a preventive of colds and catarrh it is a wise precaution, to always carry a Catarrhozone Inhaler in your pocket. At the first shiver or sneeze you can ward off an impending attack by merely inhaling a few breaths of Catarrhozone Fatal consequences can often be avoided in this way. The Inhaler is beautifully finished and made entirely of hard rubber. It can be conveniently carried in the vest pocket ready for use in church, at work, in the theatre, street car, anywhere, at any time. The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00, and is guaranteed to cure. Sold by all druggists or sent direct to your home by mail if the price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn. U.S.A.

TOWN AND COUNTY NEWS

GATHERED HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates 76 Lansdowne street, or address Box 876, Peterborough.

Who Lost His Potatoes?

The Chief has two bags of potatoes on hand since last Saturday. A farmer had sold them to some one on the market, and had lost the address after having been paid for them. The owner can have them by proving property.

Will Reside in Town.

Mr. R. J. McCollum of Messrs. McCollum Bros., the Water St. livery men, yesterday brought his mother, sister, and furniture from Orillia to town. They will occupy a house on the corner of Antrim and Bethune streets.

Dublin St. Sewer Delays Traffic.

Dublin street residents and drivers of vehicles from George to Aylmer streets, are making a vigorous kick over delay in completion of the Dublin street sewer. This is delayed by want of couplings to finish the job. Drivers, to get along this street have to take to the pavement.

A Norwood Sample of Generosity

The people of Norwood and vicinity have shown their sympathy for Mr. W. C. Harrison in his heavy loss by fire in a practical way. The movement took form on Monday when a few of the business men met and after a short conference a subscription list was opened. Mr. John Finlay, M. P., leading off with a subscription of $200. In a few hours about $600 was subscribed and the list is now approaching $1,000.

Railway and Telegraph Co's. Taxed

The Township of Otonabee is evidently out for the ducats that can possibly be raked in. Their clerk has corresponded with the railway and telegraph companies and the Provincial Secretary to ascertain the number of miles of telegraph wire in the township, with the following results:—C.P.R. 90 miles at $5 mile; the Great North Western operated on the G.T.R. 19 miles at $40 and 26 miles at $5; North American on the highway, 20 miles at $40, 2 miles at $5, 18 miles of telephone wires at $135 and 18 at $7.50.

—W.F.M.S. visitors to Peterborough can obtain a beautiful aluminium calender, containing photo of St. Andrew's church, and many excellent souvenirs of Peterborough, at the Times Bookstore, 348 George St.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Miss Jean Fraser of Norwood was in town yesterday.

—Mr. Lewis Thornton, Queen's College Kingston, is in town.

—Ven. Archdeacon Casey of Lindsay was in town on Monday.

—Mrs. W. Currie, of Port Perry, is the guest of Mrs. (Dr.) Burnham, Water St.

—Miss Edna Rogers, of the 5th Ward, has returned home after two weeks visiting with friends in Ida.

—Senator McHugh went to Ottawa yesterday morning, where he will stay for some time.

—Miss Ella White, of Toronto, is in town, the guest of Mrs. Frank Pakenham, 262 Rubidge street.

—Rev. Fred J. Sawers, curate of Christ church cathedral, Montreal, is spending a few days in town.

—Messrs. Swartz, of the Port Hope Brewery Co., and G. T. Holmes of Port Hope, were in town yesterday.

—Mrs. (Rev.) Abraham, and Mrs. D. Wilson, of Whitby, are the guests of Mrs. William Thompson, for the convention.

—Mrs. James White, Charlotte St. will leave to-day on a trip to England and Scotland. She will be absent several months.

—Mr. A. Followfield, of Waubaushene, was the guest of the Campbell family, 252 Charlotte street, over Sunday on his way to Nassau.

—The Lindsay Post says, Mr. J. W. Brightman, of Peterborough, buyer of pelts and furs, was in town to-day for a few hours.

—Mrs. (Rev.) J. H. Edmison, of Cheltenham, and Master Alex. are visiting with Mrs. Edmison's parents, Mr. and Mrs. Alex Fitzgerald, Fifth Ward.

—Mr. Charles Gilbert, Sherbrooke street who is a graduate of the drafting department of the C. G. E. works, left last night at midnight for Sidney, C.B., where he has been offered a position in the drafting department of the Dominion Coal Company.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 50 cents a share; no certificates issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigations of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

OUR POSITION

Why The Times is Opposed to Separate Schools.

In its opposition to Separate schools The Times is actuated only by honest convictions. This journal has a high regard for Roman Catholics, who are we believe, the chief sufferers in the dual system of education, such as exists in Ontario to-day.

Separate schools are either right or wrong. The Times holds that they are wrong; that they are damaging to the country that permits them; that they create a gulf between those of one faith, and those of all other faiths; that they create a co-partnership of church and state; that they are a violation of the principles of equal rights to all, and therefore unjust.

We believe that these opinions prevail generally, and are shared in by our two local contemporaries, who appear to be afraid to boldly say so.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—No Police Court yesterday.

—The 57th Regt. had a drill last night.

—The new Bell telephone to Bensfort station is now in active operation.

—Don't fail to see the lift lock souvenirs on sale at Times Bookstore.

—Rev. Prof. Clarke will preach at both services at St. Luke's church, on Sunday next.

—The new lodge of the Elks, will be organized to-night in the Foresters' Hall, Simcoe street.

—The local flour and feed merchants and drug stores report a large demand for lawn grass seed yesterday.

—The town steam roller has made its appearance and is working near the corner of George and Sherbrooke streets.

—While they last we will sell the balance of our imitation cut glass vases at ten cents each. Times Bookstore.

—The Inspector-general of the Canadian Infantry will be in town to-night when the regiment will parade.

—A meeting of the Lawn Bowling Club will be held to-night in the Ontario Bank chambers for the selection of rinks.

—The parks opened yesterday and the Commissioners wish to request that the various clubs and sporting organizations will not commence play too soon after the rain.

—Bro. John Matheson, of Otonabee Lodge, No. 13, I.O.O.F., was presented with a handsome veteran's jewel, at the Past Grand's meeting held in his lodge on Monday night.

—The first sale of cheese on the Peterborough Cheese Board will be held in the Ontario Bank Board Room to-day, at 10.30 o'clock sharp.

—Only about five hundred dog tags have been issued and the time expired on Monday. There will be a dog-gone lonely time for several people soon.

—The Health Inspector is on his annual tour of inspection of back yards and lanes. Citizens had better take warning and clean up their premises.

—Another sign that summer is not far off is in evidence. The ice water fountains near the police station and in Central Park are being prepared for service.

—The Sons of England will hold their annual church parade on Sunday evening, May 21st to George St. church. Rev. Dr. Crothers will deliver the sermon to the brethren.

—Prof. Davies is very kindly making his recital next week in aid of the Dormitory Furnishing Fund. The proceeds will be handed to the Ladies' Auxiliary to supplement the amount of their contributions. Friends of the association are asked to keep this in mind.

—W.F.M.S. delegates will find a large variety of souveniers at Times Bookstore. Views of St. Paul's, and St. Andrew's church, also views of all places of interest. These are mounted on useful and ornamental articles suitable for the mantle and dresser.

When you want a one-time Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography Work. Studio, 134 Brock street, Peterborough.

—The little play ground in the hollow above the George street school which is occupied by the children of the neighborhood, is being decorated with old tin cans and other junk, which renders it wholly unfit as a play ground for the children. It would be a good idea if the police would see that the regulations in regard to such places are put in force. If this place does not happen to be under the jurriediction of the police it would be well to appeal to the owners of the lot.

12 Minutes for Lunch.

That is the average time spent in a large city restaurant by three thousand luncheers. It takes three hours to digest a fresh egg soft boiled. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the hasty lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

$3,000 FORFEIT will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"I had stomach trouble from childhood and suffered with it more or less as I grew up," writes Mr. Willis Seaman, of Washingtonville, Orange Co., N. Y., "At the age of 36 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Everything I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of the 'Golden Medical Discovery' and two vials of Dr. Pierce's Pleasant Pellets. I then felt so well that I stopped taking medicine."

"Common Sense Medical Adviser," 1008 large pages in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Ottawa, May 4.—At 1.40 this morning, one of the most remarkable and important days in the history of the Canadian House of Commons came to an end by the carrying of the second reading of the bill to grant autonomy to the Province of Alberta, by a vote of 140 to 59, a majority of 81.

This followed the defeat of Mr. Borden's amendment just before midnight.

The vote was taken on the amendment, and the second reading was carried on this vote reversed on the suggestion of the Premier, no objection being offered.

A second suggestion from Sir Wilfrid Laurier that the second reading of the Saskatchewan bill be considered as carried on the same vote was strongly objected to by members of the Opposition, and he withdrew the motion, so that the Saskatchewan bill will have to be voted on again.

The interval between the two votes was taken up by Mr. W. F. Maclean who defended Ontario and Toronto against the charge of bigotry, and argued for national schools.

IF EMPIRE IS ATTACKED

THEN LET THE COLONIES COME TO THE RESCUE

And Each Portion Bear Its Share of the Cost of War--A Suggestion Made by the Military Correspondent of The London Times.

London May 5.—The military correspondent of The Times, writing on the future of modern wars, referring to the partial failure of colonial contributions and the unwillingness on the part of the colonies to promise definite aid in case of war, says: This unfortunate state of affairs is almost entirely due to the absence of any light or leading on the part of the British Government. It results in the situation: that there is practically no broad or any other view of colonial responsibility in relation to Imperial strategy, and that the work of education and reform has to be begun almost from the lowest foundations.

CALL COLONIES TO COUNCILS.

If we are wise we shall abandon contributions and make no effort to impose a fixed contingent upon populations whose sense of independence would be outraged by the suggestion, but whose good-will has been so lately so splendidly proved. But call them to our councils, explain to them the whole situation, both in relation to the present and the future, and leave the suggestions as to ways and means to come from them.

WHEN WE SHOULD CONTRIBUTE

We should also wish to make a definite proposal of practical character that it should be established as a central bond of kinship and as a universal system of Imperial insurance that in the event of the empire being plunged into a great war by reason of the aggression of a foreign power each and all of the component parts of the empire should agree to share its burdens in proportion to their wealth and population, and that the cost of the war and the reparation due to any ravaged province of the empire should be shared by one and all alike. In this manner all would become equally interested in a vigorous and prompt prosecution of hostilities and their conduct to a successful issue.

HATS OFF, PLEASE

Owen Sound Congregation Asks Ladies to Remove Their Hats

Owen Sound, May 5.—In a special sermon to young women on Sunday evening, Rev. G. R. Turk, pastor of Scrope street Methodist church, condemned the elaboration which marks the headgear worn by ladies of the present century.

"It must be embarrassing to a young lady to know that she is an obstruction," said Mr. Turk. "I feel sorry for the man of small stature sitting in the body of the church playing hide-and-go-seek around somebody's hat."

The reverend gentleman asked for a show of hands from all those who desired to have ladies remove their hats, whereupon almost every male member of the large congregation responded with upraised hand.

Mr. Harty's Alleged Threat

Kingston, Ont., May 5.—Hon. William Harty is angry over the proposed dismissal of Sheriff Dawson, and it is alleged threatens that two Conservatives in the Dominion employ will "have their head cut off" as every Liberal dismissed by the Whitney Government.

JAPANESE DESTROYERS

MIKADO IS INCREASING HIS TORPEDO FLOTILLA

Twenty-five New Ones Now Building in the Home Yards--Product of Japanese Brains and Labor--A Result of the Coming Engagement

Nagasaki, Japan, May 5. — While awaiting the coming of the Russian naval forces the Japanese Government is rushing the completion and armament of the new additions to her torpedo fleet. The Japanese realize the importance of defeating the assembling squadrons of the enemy's navy, and say that the result of the coming engagement will practically eliminate continental Europe as a factor in the far east, leaving Great Britain, the United States and Japan sole masters of the Pacific.

They acknowledge that the Russian fleet has a greater weight of metal in its battleships, number and tonnage alone being considered, but say Japan has condition, experience and nearness to base in her favor. The factor of personal bravery may be counted as equal, as it was in the Spanish-American encounters. Japan, however, depends on her greater number of cruisers, destroyers and torpedo boats to offset the difference in battleships, and is working night and day to complete twenty-five destroyers now building in her home yards. These little vessels are each of 300 tons displacement, and calculated to run at not less than twenty-nine knots (hai-ri). 33.4 miles an hour. They are of special Japanese type, called Kuchikutei, differing somewhat, it is said, from the Thornycroft on the one hand and the Yarrow on the other.

JAPANESE BRAINS DEVISED THEM.

These boats are being constructed entirely by Japanese brains and labor, with the exception of the two being constructed at the Osaka Iron Works under foreign supervision. They will carry fifty-five officers and sailors and about one hundred tons of coal, as well as an armament of one 75-millemetre (12-pounder) quick-firing Elswick gun aft, and five 57-millemetre (3-pounder) quick-firing guns of the same class forward. This arrangement is reversed from that of the British boats of the same general type, which have the heavier gun forward. The Japanese reason that the light guns will do against hostile torpedo boats, whose destroyal is the first mission of a destroyer, and the heavier gun aft will be better used against a superior enemy when compelled to retreat. The indicated horsepower of these boats will be nearly 6,000, and the length a little over 200 feet, with a beam of 20 feet and a draught of 8 to 9 feet. They will have two sets of engines, with the requisite boilers. In addition, they will be fitted with two 18-inch torpedo tubes. The Japanese destroyers now number twenty-five building, three just launched and fitting, and nineteen at sea or ready for service, a total of forty-seven.

QUITE A FLEET OF DESTROYERS.

Of torpedo boats (suirai-tei) Japan had some eighty-four at the outbreak of hostilities. Two of these have been reported as lost. Of the eighty-four there were listed thirty-eight of the first class (110 to 190 tons), thirty-five of the second class (50 to 90 tons), and eleven of the third class (under 50 tons), of which but four of the third class were regarded as efficient. Other experts have classified the efficient torpedo boats at but seventy-six, of which thirteen were counted as of the first class, thirty-six of the second class and twenty-seven of the third class, reckoning on use instead of displacement. These little vessels are slower than the destroyers by a few knots and have three torpedo tubes each, except the old Kataka, a Yarrow boat, built in 1886, and of but nineteen knots speed, which has six tubes. The last estimate has good authority. However, the torpedo boat has not come up to expectations against the battleship as yet, and it remains to be seen what the destroyer can do against the colliers and other lightly armed auxiliary vessels of the Russian squadrons.

OPPOSED BY J. J. HILL

American Magnate Opposes Erection of Dams on Salmon River

Quebec, May 5.—Mr. J. J. Hill, the American railway magnate, who pays $3,000 a year rental for the salmon fishing of the St. John river, on the north shore, is strongly opposing a bill now before the Private Bills Committee of the Legislature, promoted by H. M. Price, of Quebec, who asks permission to erect dams, piers and booms on the St. John and Magpie rivers for lumbering purposes. It is claimed that these works would ruin the salmon fishing. The matter is still under consideration. Mr. Fred. Meredith, K.C. Montreal, and Senator Choquette, appear for Mr. Hill, and also for the Labrador Company, which is also fighting the bill.

A MEXICAN LETTER

Dr. F. E. Yoakum, Well Known Here, Makes a Rich Find of Gold.

Mr. W. H. Robertson was yesterday in receipt of a personal letter from a gentleman with many other warm friends in Peterborough, Dr. F. E. Yoakum. It will be remembered that Dr. Yoakum took great interest in the cause of evangelizing here a few months ago, when he was the means of drawing many local people to the good cause, by his earnest eloquence and sincere addresses in the George street tabernacle. Mr. Yoakum is a consistent Christian and was considered here, by all who knew him as a man singularly devoid of hypocrisy and ostentation in his religious professions.

The doctor writes to say that he has discovered a rich gold bearing territory and has been fortunate enough to secure a valuable claim. In his letter he encloses a sample of the pure gold, dust, or rather in the form of minute scales, that he himself washed out of his own property. Out of the first pan of six pounds of dirt he washed out $1.14 of gold such as he sent. The doctor has secured 1 1-2 by 1-2 mile of the gold bearing territory, which in richness beats even the celebrated Salido mine of which he is the president. He says it will only take a few hundred dollars to make his property a dividend payer.

Dr. Yoakum is willing, if any Peterborough people will communicate with him, for a small consideration for his time and trouble, to share his permit in the property, over which he has control, with them.

The writer says that beans, peas, corn, and berries bear freely all year round in his district.

Anyone taking an interest in this promising mine can address Dr. F. E. Yoakum at Fuerte, Mexico.

WINNIPEG GETS IT.

Next Annual Meeting of the W.F.M.S. to be Held in the Prairie City.

Yesterday's session of the Woman's Foreign Missionary Society it was decided that, if satisfactory arrangements with the railways could be made, the next annual meeting will be held in Winnipeg Mrs. A. D. Mackay spoke in the interests of that city, claiming that great benefit would be done the missionary cause in the West, and that it would strengthen the ties existing between the East and West. In extending a cordial invitation from the Presbyterials of Winnipeg, Mrs. Mackay assured the convention that everything possible would be done for its success.

Mrs. Van Flett extended an invitation on behalf of the city of Brantford.

The motion in favor of Winnipeg was moved by Mrs. McLean of Guelph, and seconded by Mrs. McNeal ton of Cobourg. Among those who spoke in favor of it were Dr. Margaret O'Hara and Miss Jamieson.

A vote of thanks was tendered the Brantford delegates for their kind invitation.

Yesterday morning's session opened with a devotional service in St. Paul's church at which Mrs. McPherson, of Peterborough presided, and a number of returned missionaries participated.

Upon the President taking the chair the business session opened with praise. After the minutes had been read the consideration of invitations for the next convention was proceeded with and disposed of as above.

NEW OFFICERS.

The officers were appointed at the afternoon's meeting, as follows.

President — Mrs. Shortreed, of Toronto.

Vice-Presidents — Mrs. Maclaren, Mrs. Robinson, Mrs. Telfer and Mrs. Jeffrey.

Recording Secretary—Miss Smellie.

Corresponding Secretary—Miss Murtin, Toronto.

Home Secretary—Miss Jean Cayen, Toronto.

Foreign Secretary — Mrs. Bell, Toronto.

Secretary of Indian and Chinese Missions in N. W. and B. C. — Miss Craig.

Secretary of International Conference—Miss Thornton, Toronto.

Secretary-Treasurer of Tidings, General Literature and Life Membership certificates—Miss Parsons, Toronto.

Treasurer—Miss George, Toronto.

Editor of Tidings—Mrs. J. MacGillivray, B.A., Toronto.

The recommendation of the Board that the Treasurer of the W.F.M.S. be empowered to pay to the Foreign Mission Committee such sums as the Board may direct during the year was adopted.

FIRE HALL BY-LAW DEFEATED.

Peterborough Merchants Slumber Whilst a Plum is Dropping Near Their Mouths

Yesterday the Lotus Eaters who are doing business in this town seemingly slumbered whilst one of the best opportunities that have came their way in years passed them by. Whether one advocated better fire protection for Peterborough or not, one had to admit that the by-law voted down yesterday was almost wholly to confer great benefits on the central portion of the town, at the general expense.

In Ward Two there were only 64 votes cast, of which 27 were for the by-law, and 37 against it. The matter to one viewing it through casual spectacles seemed incomprehensible; still yesterday evening's summary of the votes cast showed a majority of 128 against the by-law in a total vote polled, of 370.

Many reasons were assigned last night for this snowfall that caught the by-law; by some it was thought that people were afraid to vote this $25,000 for fire purposes, lest the Collegiate Institute grant might be prejudiced; others said it was fault found in certain members of our present brigade; a thousand and one reasons were given, but, the fact is, that those most directly interested did not trouble to pick the fruit hanging within easy reach.

Let the result be what it was, something has to be done about our fire protection and brigade; we are, in the matter of fire, living in careless thoughtlessness on the edge of a volcano which may at any moment destroy our property. To say that our present fire appliances and system of running the brigade, is all right, because Peterborough has not had a serious fire as yet, is throwing a sop to the cerberus of common sense.

Our brigade do as well as we can or ought to expect a volunteer organization, composed of men engaged in their own various pursuits, to do. There is however a danger every moment threatening us, that might befall the town at any time, of a great portion of the town being wiped out by fire.

A summary of the vote cast yesterday is as follows:

No. 1 Ward

	For.	Agst.	Maj. For.	Maj. Agst.
Polling Sub-Div. 1	12	36	24	
Polling Sub-Div. 2	13	23	10	
No. 2 Ward.				
Polling Sub-Div. 3	14	15	1	
Polling Sub-Div. 4	13	22	9	
No. 3 Ward.				
Polling Sub-Div. 5	19	30	11	
Polling Sub-Div. 6	13	33	20	
No. 4 Ward.				
Polling Sub-Div. 7	22	42	20	
No. 5 Ward.				
Polling Sub-Div. 8	9	19	10	
Polling Sub-Div. 9	6	29	23	
Majority against	121	249	128	

BREATHING SPOTS

Parks Are Now Open for Season and Should be Kept Policed.

Jackson Park and East and West Nicholl's Park have been thrown open for the season and with the coming of fine weather will once more be thronged with pleasure seekers.

With the street car line running to Jackson Park there will be great need of police protection there to keep the rough element down.

The same difficulty was experienced when West Nicholls or Inverlea Park was opened. It was beginning to be frequented by rowdy characters, especially at night. However the appointment of a special constable and the subsequent fine of $5 inflicted on one man, made a lasting impression on those who used to cause trouble and since then everything has been serene at the park.

Sporting organizations are requested not to use the Oval too soon after the rain, as it will do much damage to the turf.

TO TEST ONTARIO.

Death of Minister of Public Works Probably Means a Fight in Two Ridings Which will Test the Feeling on the School Question.

The death of Hon. Jas. Sutherland will probably necessitate the holding of two bye-elections in Ontario, which will test the feeling on the school question. In the ordinary course of events the vacant portfolio of public works will go to Mr. Hyman, who has been discharging the duties of the office for a year and a half, but his seat is regarded as being a rather precarious one. At the last general election his majority was but 18, the vote being Hyman, Lib. 4,308, Gray, Con. 4,290.

Obituary.

The many friends of Mrs. Eliza Thompson, widow of the late well known lumberman, Mr. Eliza Thompson, will regret to hear that this highly respected lady passed away yesterday about 9.45 p.m. The lady has been ill for some time with symptoms resembling those of cancer. Several grown up children survive her.

Mr. T. W. S. Masson Dead.

The death occurred at the Nicholls Hospital, on Wednesday morning, of Mr. T. W. S. Masson, of Campbellford, aged 69 years. Deceased had been ill for some time with cancer. He was born in Scotland, but had lived in Campbellford for many years.

The late Mr. Masson was married twice, and his second wife survived him. Two daughters—Mrs. V. A. Coleman, of Port Hope; and Mrs. A. Donald, of Campbellford, are left to mourn his demise, as are four sons. Miss Helen and Miss Margaret Coleman of the Nicholls Hospital, are granddaughters of the deceased.

The funeral will take place in Campbellford to-day to Burn Brae cemetery.

Death of Miss M. C. Humphries.

The death occurred at five o'clock Wednesday morning in Otonabee, of Miss Margaret C. Humphries, at the residence of her brother, Robert, lot 18, concession 6.

The deceased lady, who was 51 years of age, has been a sufferer for years. The late Miss Humphries lived in Otonabee all her life. She leaves to mourn her loss, three brothers, Robert, on the homestead; Adam, in Asphodel township; Andrew, in Ouray, Colorado; John, of Acton, Ontario.

The deceased was a consistent adherent of the Presbyterian church, Keene.

The funeral will take place Friday at two p.m., from the residence of her brother, to the Fife cemetery, Otonabee.

Police Court

OFFICIALS

Chief of Police, G.I. Hurst
Magistrate, D.W. Dumble

Yesterday's court had a slim attendance, only those directly interested and press representatives being present.

The only one occupying his Worship's attention was that of Mr. J. Conroy, charged with an infraction of the liquor law; to wit, having allowed customers to enter his bar in prohibited hours. This case had been tried a week ago yesterday, and judgment reserved.

His Worship gave a lengthy decision, giving the reasons prompting his verdict of guilty. The informant had allowed, the Magistrate claimed, two men in the little drinking room that is only separated from the bar by a curtain and a partition not reaching the ceiling. His Worship contended that this room was practically part of the bar, and fined the defendant $40 with $5.15 costs. His Worship said he had no doubt about his decision in this matter or he would withhold judgement until he could consult with Mr. Haverson, Conroy's counsel, and a gentleman not only well posted on the liquor act, but of fair and impartial mind; it is understood the case will be appealed.

TRANSFER OF DAMS PROBABLE

Dr. Reaume Promises Peterborough Deputation to Consider the Waterways Transfer Question.

Messrs. Mayor Best, Ald. Hall, Ald. McIntyre, D. Hughes Charles, President of Board of Trade; Dr. Morrison, Wm. Irwin, R. M. Dennistoun, T. H. G. Deane, J. H. Larmonth, J. C. Stook, W. H. Moore, R. B. Rogers and A. McDonald, as a deputation from Peterborough, have had an audience with Dr. Reaume, Commissioner of Public Works, Toronto, and urged that the control of dams on the Trent Valley Canal be transferred to the Dominion Government.

The Minister gave no definite reply but left the impression that the Government would not transfer the control of the dams until at least such arrangements were made as will guarantee the rights of the lumbermen and holders of water powers, and the future maintainence of the dams.

Dr. Reaume promised, however, to go fully into the matter.

PRIVATE ARMY TO DEFEND FACTORY

Russia for the First Time Permits Individual to Use His Own Troops for Defence.

St. Petersburg, May 5.—The Government has granted permission to M. Terestchenko, a rich sugar refiner, of Kieff, whose property was greatly damaged by rioters in March, to organize a militia company of one hundred and fifty men to protect his factories and other property. This is the first time that the organization of private militia force has been authorized in Russia.

—Lord Aylmer, Inspector General of the militia of Canada, left yesterday at 11.35 for Ottawa. During the morning, in company with Lt.-Col. Miller and Major Stevenson, he visited the site for the new armories; also the lift lock and other attractions in the town.

—A deputation of sportsmen waited on Hon Dr. Reaume, on Wednesday in Toronto, asking that the open season for hunting hares be from October 15 to December 15, instead of September 15 to December 15, as at present. Consideration was promised.

WEATHER NOTES

Mild, with local thunder showers.

Typhoon Damages Rojestvensky's Fleet.

Storm God Said to Have Come to the Aid of Japanese for Third Time in History--Lighter Vessels Reported to be Scattered.

Amoy, China, May 5.—A typhoon which swept over the coast of South China this week is said to have damaged the Russian Second Pacific Squadron considerably. The lighter vessels are reported to have been scattered.

Shipping men expect further delay in the execution of Admiral Rojestvensky's plans as a result of the damage sustained by the squadron.

Not improbably, the damage, if any, done to the Rojestvensky's fleet will turn out to be inconsiderable, but nature would only be consistent if she came to the aid of the Japanese, for on two previous occasions at least Japan has had to thank the Storm God for vanquishing formidable armadas sent against her. Away back in 1274, Kublai, the victorious Mongol, who dominated China, Korea, and Contra Asia, sent 900 junks with 30,000 men to invade Japan, but a typhoon wrecked the fleet, and 13,500 men were drowned.

Employers Want the Troops Called Out.

Insist That the Police Are Not Able to Keep Order---Seventy-Five Were Injured Yesterday---Many Street Battles Occur.

Chicago, May 5.—With employers preparing to press a demand for troops, violence in the teamsters' strike showed no signs of cessation to-day. The very first outbreak resulted in a fatality. The riot took place near the barns of the Employers' Teaming Company. Charles Riesling, a white man, who resides in the vicinity, received a fractured skull, and is expected to die. He was standing in a crowd which jeered a non-union colored teamster who was guarded by five detectives. The negro suddenly picked up a stone and threw it into the crowd. Riesling was struck in the head, and sank to the ground unconscious. He was removed to an hospital.

A GENERAL FIGHT.

During a second disturbance at the stable of the Employers' Association; John Dansberry, a non-union colred teamster, was shot for trying to strike a boy who had shouted an offensive epithet. A number of strike sympathizers instantly made for the negro. Private detectives rushed to Dansberry's aid, and a general fight ensued, during which Dansberry received a bullet in the leg. Joseph Lang, barn boss for a large mercantile firm, was arrested, charged with the shooting.

ESCORTING WAGONS.

The police to-day announced that they were prepared to escort 300 wagons for the wholesale and retail strike-bound stores and 350 express wagons. This it was stated would be the greatest number of wagons moved in one day since the beginning of the strike.

Chicago, May 5.—Rioting in the streets yesterday was so prolonged and so fierce that a committee of members of the Employers' Association left for Springfield to request Governor Deneen to call out the State troops.

The mobs that filled the streets in the business quarter were larger and uglier in disposition than those of Tuesday. There was fighting in all parts of the down-town quarter throughout the day, and a dozen times policemen were compelled to use their clubs and wagon guards.

There were a number of instances were mobs boarded street cars and attacked people riding in them, giving as a reason later that they were strike-breakers. C. W. Jamieson and Edward Boswell, the latter a negro medical student, were two sufferers of this class.

Up to seven o'clock last night a score of men had been taken to hospitals with all sorts of injuries. Besides, there were fully two score who were injured in the various flurries of the day, and whose names could not be learned. The total injured is estimated at 75.

FOOD IS SCARCE.

There is practically no food to be had in Chicago. Produce commission men in Chicago are facing a loss amounting to hundreds of thousands of dollars. No express goods were received by the produce merchants yesterday. All the "green goods" and fruit they received came by freight, which meant a loss in perishable goods, because the fruit and vegetables decay in transit.

Each driver of the F. E. Scott Transfer and Teaming Company was accompanied by a man armed with a rifle. Two policemen followed each wagon.

"I am going to operate my wagons at any cost," said Mr. Scott. "If more rifles are required to protect my drivers, I have plenty in store."

Employes on wagons of the United States Express Company were revolvers in holsters at their sides.

Deputy sheriffs armed with rifles acted as escorts to fourteen delivery wagons of Siegel-Cooper and Company.

S. S. BOARD

Regular Meeting of the Separate School Board.

The regular meeting of the Separate School Board was held Wednesday evening, there being present Messrs. Murty, chairman; Carvett, Henry, Gaselin, Ball, Burns, Lane, Primeau, and Hickey. Rev. Father McGoll, superintendent, was also in attendance.

The reading of the minutes was postponed.

Accounts were received from A. H. Stratton, $16.26, also some small accounts, which were referred to the Finance Committe.

The reports of attendance at the schools for April were received, being as follows.

Lake St. School—On roll 200; average 180.

Murray St. School—On rool 218, average 204.

Convent—On roll 246; average 226.

Total on roll 665; average 510.

The matter of providing the necessary supplies to the several schools was referred to the Property Committee.

The auditors, Messrs. Duigan and Carvett, reported as having examined the books and vouchers of the Secretary Treasurer to the 31st of December, 1904, and finding same correct.

The Board adjourned.

MRS KENDRY'S ADDRESS

Interesting Address Given by Mrs. Jas. Kendry in Mark St. Church.

At the Mark street church, Wednesday evening a very interesting lecture was given on the subject of Woman's Missionary Work, by Mrs. Jas. Kendry. She gave a very convincing address, taking as the basis of her remarks, Acts 9; 6;—"Arise go into the city, and it shall be told thee what thou must do." If we want to be successful we shall also have to go into the city and we soon would find out what we had to do. There were three characteristics about Paul which made his work a success. First, unselfishness; second, ardent personal devotion to Christ; third, sense of Divine mission, which are very necessary elements in missionary work, and the speaker brought these truths out in a very forcible manner, giving one illustration of selfishness, which came under her own observation whilst staying in New York. At a certain fashionable hotel there, they gave a costly banquet, gold vessels only being used, and the cost per head of that banquet was $15,000, at the same time there were 70,000 children in that very city going breakfastless to school.

Mrs. (Rev.) Lewis gave a touching recitation, "Mark the Wall of Heathan Nations."

Mrs. Payne, Miss A. Davey, Mr. J. Miller and Mr. F. Ashton, rendered two quartettes in an excellent manner.

Rev. J. G. Lawis presided.

The Delineator For June

A striking cover design, a girl's head in pastel, by George Gibbs, introduces the reader of the June Delineator to a varied and interesting table of contents, supplemented by a complete summary of the season's styles. In the literary portion of the magazine, Weymer Jay Mills contributes the first of a series of "Romances of Summer Resorts," which promises much of interest, pictorially and otherwise. A noteworthy feature also is F. Berkeley Smith's description of "A Corner in Normandy," an enjoyable travel sketch that gives more than a passing glance at one of the most curious nooks in the Old World. For the benefit of those who have the collecting instinct, N. Hudson Moore writes on old glass, in "The Collector's Manual," and Dr. Murray discusses the care of the eyes and ears in a paper that will appeal particularly to young mothers and those who have the care of children. Newman's hymn, "Lead, Kindly Light," is the subject of a paper by Allan Sutherland in the series "Famous Hymns of the World." In the matter of fiction, Albert Bigelow Paine's serial, "The Lucky-Piece," proceeds along pleasing lines, and Helen Choate Prince contributes a short story of great strength and charm. Grace MacGowan Cooke adds a chapter in the amusing history of Sue Riley Rabbit, and L. Frank Baum gives an animal fairy tale, called "The Pea-Green Poodle," both of which will delight the little folks. In addition there are house plans and house-furnishing ideas, and many pages devoted to the particular interest of the home, including among other features, a paper on "The Practical Side of the Wedding," and a variety of suggestions for kitchen economy.

SANTAL-MIDY

ADVERTISE IN THE TIMES.

A Death From Heart Disease

Overtake Those Who Neglect Their Weak Heart and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head and palpitation and shortness of breath are noticeable, there's great cause for alarm.

A. F. Beattie, of the Allen Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to this;

THE SYMPTOMS;

Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says;

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for $2.50, at all dealers in medicine, or Poison & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 5 1905

PURCHASE OF HORSES IN CANADA FOR THE IMPERIAL ARMY

A great deal of misunderstanding having arisen concerning the objects of the Imperial Government in sending Officers to this country to purchase horses, or rather to see if horses suitable for the British Army can be purchased, the following short summary of the position should prove of value. This statement may be regarded as absolutely correct and authoritative.

First and foremost, the demands of the British Army in peace can be easily met within the four corners of the United Kingdom. That demand is not large, and may be taken as a normal one of 2,500 horses annually, rising in certain years to possibly 3,500 of all kinds and classes.

There is an idea abroad, and certain Ministers and statesmen in this country have brought it forward and may be considered responsible for it, that if the Imperial Government will purchase annually a fixed number of horses, say from 300 to 500, in Canada, a great stimulus will be given to horse breeding generally, and to breeding of the military type of horse in particular. Falling in with this idea, the Imperial authorities are anxious to put it to the test and, for reasons of their own, they fully recognise the advantage that will accrue to the Empire from the opening up of a large and limitless market that can be drawn upon to meet the immense demand that will be created in time of war. The real question then, that has now to be answered by the practical experiment during the next few months is, can suitable horses be procured, and at an average price that will, when the horses are landed in England, favorably compare with that paid for remounts throughout Great Britain and Ireland?

The average price paid in England is an open secret; it is £40, or say $200. The cost of freight and insurance will certainly not exceed another $50, leaving $150, or possibly slightly more, to be paid for the animals selected on the spot. A higher price can be paid for horses of special color and type, such as horses suitable for officer's chargers and Household Cavalry. It is therefore obvious that Canada is on its trial as to its ability to supply a suitable horse for Army purposes.

It is, further, of more importance to Canada than to anyone else that, as the horses purchased will be regarded in England as well as in this country, as typical, it will be in every way a great misfortune if those sent home are of a class and quality that will engender a belief that the Canadian horse is of an inferior type. Such a belief will probably do more harm to Canadian horse breeding and the reputation of Canadian horses than anything else.

Two classes of horses are to be bought: 1st. Riding horses, fit for heavy and light Cavalry, from say 15 to 15 3-4 hands. 2nd. Draught horses fit for being driven postillion, with Horse and Field Artillery. The former must not be less than 1,230 lbs., 15.2 to 15.3 1-2 hands in height, strong, active, and with good shoulders to enable them to move fast, and even to gallop, when required; the age should be from 4 off to 6 years. In all cases the British Government require horses with short backs, good shoulders, plenty of bone and distinctive evidence of quality.

In the case of riding horses, those with a near cross of the thoroughbred are most likely to take the eye of the Inspecting Officers.

The British remount Officers are in possession of detailed specifications, showing the exact type and qualifications of horses required.

JAPAN'S GREAT RESOURCES

Japan is not yet near exhaustion. Baron Suyematsu, the Japanese statesman, now in London, points out that Japan can educate a soldier in two months, and that, if need be, it would be an easy task to raise 500,000 or even 1,000,000 more men to fight for the Emperor and Nippon. As for the question of money, Baron Suyematsu says that there is no other country in the world where a war so little disorganizes the economic status, for the reason that nowhere else is there so much female labor. He further remarks: "Japan has today money enough to go on with the war till March, 1906, and then the Japanese people will make whatever further sacrifices are necessary to fight on until a lasting peace can be secured."

EDITORIAL COMMENT.

Everyone recognizes that education, valuable as it is, indispensable, indeed, if future citizens are to be worth while, is second to health. If you have any doubts on this subject, consider the worthlessness of learning to a child whose constitution is undermined, whose strength is unequal to the tasks of life, whose liability to serious disease has been increased. Those amongst us who complain of the increased outlay on school accommodations can be answered that if the increase is not seen so much in teachers salaries, something is gained if due regard is had to the health conditions under which the pupils pass their school hours. So far no complaint is heard on this point.

Vessels recently removed from the active list of the British navy number 122, and their original cost amounted to the total of $140,015,510, the list including sixteen the cost of which is not on record. Among these vessels are eleven battleships, ten armored cruisers, forty-three cruising vessels, thirty-six gun boats and torpedo boats, and twenty-two sloops and hulks. The oldest of the discarded vessels was built in 1871 and the newest was built in 1903.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $120,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigations of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. SINEWS OF WAR FOR STRIKERS

Income of $20,000 a Week From Sympathisers

Chicago, May 4.—Representatives of the striking teamsters have voted for a measure which promises more strength to the striking drivers. At a meeting of the Joint Council a fund of $35,000 was pledged by the treasurers of the different affiliated unions, and an assessment voted upon which if lived up to, will mean an income to the strikers of $20,000 a week.

The weekly assessment is to be furnished by the individual drivers throughout the city who at present are employed. Each man is to be assessed $1 a week, and the number of men still employed in in the neighborhood of 20,000.

No sympathetic strike will be called by the Coal Teamsters' Union.

All the teamsters of the Crerar-Clinch Company, which has coal contracts with many office buildings and firms, went on strike to-day. It was said the effect of this new addition to the strikers' ranks may be to leave many of the tallest buildings without fuel to run elevators.

Ayer's Sarsaparilla. Good for anything? Ask your parents, grandparents, neighbors, your own doctor. We will leave it to any of them. Best blood medicine. Best nerve tonic. J. C. Ayer Co., Lowell, Mass.

There was a continuance to-day of the assaults upon non-unionists by the strikers, and the scenes of yesterday were repeated.

SOME INCIDENTS.

Brutality on the strike to-day began with a fight and game in a crowded street car. Two men, mistaken for strike-breakers, were assaulted and so severely beaten that they had to be taken to a hospital. The affair occurred on a Twenty-sixth street car at Stewart avenue. The victims were Edward Boswell, a colored medical student, and W. Jameson, also colored. The men who committed the assault escaped.

Shooting occurred at Franklin and Madison streets, when a caravan manned by colored drivers and guards were attacked by a big crowd. The negroes opened fire at once. Harry Williams and Fred Smith, white men, seated on a paper-laden wagon, narrowly escaped death. A bullet passed through Williams' coat and another through Smith's hat. After the shooting the caravan proceeded on its stormy route.

While driving a wagon load of coal at Franklin and Madison streets, Joseph Scott, a non-union colored teamster, was shot in the right shoulder. He was taken to a police station, where his injuries were dressed.

MARCONI

How Great Fortunes Grow

On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To-day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Astor would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay-- Buy To-day.

HOMESTEAD REGULATIONS

Any even-numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the first of June, 1908.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

ADVERTISE IN THE TIMES

—THE—

Richmond & Drummond Fire Insurance Comp'y

Authorized Capital - - - $500,000

AMOUNT OF EACH SHARE $100.00

This Company has been incorporated under a Dominion charter, and will transact business throughout the Dominion of Canada, being operated in connection with the Richmond, Drummond & Yamaska Fire Insurance Company, which has been established over a quarter of a century.

The extraordinarily rapid growth of business along all lines, which we are witnessing in the Dominion, is producing each year the demand for greater insurance facilities, and at the present time it is unquestionable that there is both room and need for a new stock company. That fire business during the last few years has not been profitable in Canada has been due mainly to the inadequacy of the rates obtained. These have now been largely increased and put upon a footing promising, with efficient management, a good return upon the capital invested.

It is the intention in conducting the business to follow the system of writing moderate lines over a wide territory, thereby avoiding the risk of large conflagrations, a plan which has been proved by long experience to be the safest and most profitable in its results.

The Company will be under the same management as the "Richmond, Drummond & Yamaska Mutual," and will thereby be put in a position to organize and establish agencies at a minimum of expense, thus avoiding to a large extent the heavy preliminary expenses to be faced by new companies. It is anticipated that during the early years of the company's existence a large amount of business will be written, at an expense ratio no greater than that shown by established concerns.

The Board of Directors comprises the following gentlemen:—

C. C. Cleveland, Esq., Danville, Que., of J. L. Goodhue & Co., manufacturers leather belting, Director Royal Paper Mills Co.

E. W. Tobin, Esq., M.P., Bromptonville, Que., merchant and lumber dealer, Director Brompton Pulp & Paper Co.

S. W. Jenckes, Esq., Sherbrooke, Que., President of Jenckes Machine Co.

M. G. Cromble, Esq., Kingsbury, Que., of Williamson & Cromble, lumber exporters.

C. Blouin, Esq., M.L.A., Levis, Que., of J. B. Blouin & Son, boot and shoe manufacturers.

C. N. Lyster, Esq., Kirkdale, Que., farmer and live stock exporter.

S. McMorine, Esq., Richmond, Que., of McMorine Bros., dry goods merchants.

Hon. Wm. Mitchell, Drummondville, Que., Senator, President Drummond Lumber Company.

F. Prefontaine, Esq., South Durham, Que., President Richmond, Drummond & Yamaska Mutual Fire Insurance Company.

J. C. McCaig, Esq., Richmond, Que., Manager, Richmond.

It is intended to begin operations with a subscribed capital of $250,000, 25 per cent. paid up. A further call of 5 per cent. will be made annually for the next three years, making 40 per cent. in all, or $100,000 cash capital.

$150,000 of above amount is now offered for public subscription, as above, in any amount from 1 share up.

The Directors reserve the right to reduce any application of more than ten shares.

Prospectus, with full particulars, and forms of application for stock, may be obtained from any of the Directors, or from

J. C. McCAIG, ESQ., Richmond, Que. or RICHMOND & TEMPLETON, Room 16, Victoria Arcade Bldgs., Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet none there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During these six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensible adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a year.

GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph, of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a

STRICTURE CURED

YOU CAN PAY WHEN CURED.

NO NAMES USED WITHOUT WRITTEN CONSENT.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. I had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the result. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

ESTABLISHED 25 YEARS.

WHERE BANKERS, BUSINESS AND PROFESSIONAL MEN INVEST IT IS SAFE TO FOLLOW

INVESTIGATE AND YOU WILL BUY

The Twentieth Century Mining & Power Co.

LIMITED

Owns a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.50 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

Address **Thos. Patterson & Co.**, Agents, Peterborough, Ont.

THE TWENTIETH CENTURY MINING & POWER CO., LTD

CLEVELAND, OHIO

QUINCY GOLD MINING COMPANY

25 CENTS A SHARE

This company owns 30 claims at Crow Springs, near Tonopah, Nevada; 12 surveyed for patent; 16 sets of lessers at work, all producing shipping ore; company working small force and has shipped several car loads of ore, which average $230 a ton; Company has no indebtedness, and $7,500 in treasury; no treasury stock on the market and perhaps never will be at any figure; the 5,000 shares we are selling belongs to a private holder who must have some quick money; one of the safest investments in the United States to-day. This stock is actually worth at the present time from 75c to $1 00 a share, and will undoubtedly be worth considerably more than that within the next year. CONSERVATIVE INVESTORS

THE RUSSELL MINING COMPANY, CAPITAL $500,000

500,000 Shares, Par Value $1.00 Per Share—Full Paid—Non-assessable

THE RUSSELL MINING COMPANY Was organized under the laws of Arizona with a capital stock of $500,000, divided into 500,000 shares of the par value of One ($1.00) Dollar each, fully paid and non-assessable, and for the purpose of purchasing the Russell and West Pewabic Patented, Lode Mining Claims, located in Russell Gulch, Gilpin County, Colorado.

THE RUSSELL CLAIM

Is a full sized lode claim, 1,500 feet by 150 feet, with a bold outcropping the entire length of the claim, from which, in early days, a large amount of ore was mined at shallow depths, and until this company commenced operations, had not been prospected excepted for surface deposits.

Over 1,200 feet of sinking and drifting has already been done, and no drift has been run that did not find ore. On the Russell Claim, the main shaft, No. 1, is down now 450 feet and levels have been run at two and three hundred feet on both sides of the shaft. From the three hundred foot level ore was shipped, which showed a value of forty ($40) dollars per ton, and ore in the bottom of the east drift from this level showed assays of 4.67 ozs. gold and 14.35 ozs. silver, a value of over ninety ($90) dollars per ton. Ore in the bottom of the west drift showed 4.3 ozs. gold and 5.8 ozs. silver, or a value of twenty-one ($21.00) dollars per ton. The average of eight assays over 35 feet in the west drift gave $46.52 per ton, and from over 40 feet in the east drift, nine assays averaged $162.77 per ton. It is proposed to sink the main shaft to the 500 foot level and then drift east and west to catch the ore found in the three hundred foot level. Most of the mines in this section have commenced to ship ore at a depth of from 500 to 600 feet and it is expected that the Russell will soon be in the ranks of the steady shippers of the district. A second shaft is now at a depth of 161 feet and is being sunk to reach the drift run at the two hundred foot level from the Old Town shaft to a point under shaft No. 2. The drift from the Old Town shaft, referred to above, was run nearly 200 feet in length on the Russell ground and proved beyond doubt that the Russell is on the same vein that made the Old Town so profitable a producer and which they are now working, and insures the value of the property owned by this company, as it outcrops along the center of the claim for 1,500 feet in length and is known to be profitable to a depth of 1,500 feet. Taking the 1,500 feet along the vein from the 400 to 1,200 foot levels with the average width of three feet for the vein, and we have a product of 267,240 tons, which, estimated at the very low value of $15.00 per ton, gives a gross value of $6,-687,200.00. As this estimate of the average width is very low, the distance between the walls being from 2 1-2 to 30 feet in the ore bodies and the estimates of ore values is only about one-half the average value of milling ore in this section, and we have not taken into account the deposits of rich smelting ores which are often found and which run up to hundreds of dollars per ton, we think that a value of $10,000,000 within the mineral zone described on the Russell Claim would be nearer the actual product than the above estimate, yet we do not care to be considered "wild" in our estimate, and should the conservative estimate we have made to be produced from that area then we could confidently expect as much more to be produced from the next thousand feet in depth, it having been proven by actual developements in this district that the ore bodies are continuous and valuable beyond the depth of 2,000 feet. This estimate does not include values known to exist in other veins on this property.

THE WEST PEWABIC CLAIM

Is a patented claim, 1,500 feet by 50 feet and has the controlling apex of several valuable veins. Both claims adjoin the famous Old Town Mine, which has produced over $150,000 per year for the past three years, and is now working at a depth of 1,500 feet and has just completed the installation of larger machinary preparatory to increasing its output this year. The Topeka, which has produced over $3,000,000, and the Wautoga, which has a production credited to it of over $1,500,000, are close neighbors to the claims owned by this company.

Judging from the past record of the Old Town on the same vein, a body of ore is insured that can be worked for years at a profit to the company without becoming exhausted. The average of eleven assays taken over 100 feet of the drift, run at the 300 foot level, from the Old Town shaft, ranged in value from $9.64 to $270.53 per ton, the average being $50.78 per ton. The development of other mines in this district has shown the veins to be strong and persistent to great depths, the California mine near Central City is now producing from a depth of 2,200 feet.

TRANSPORTATION.

The Tram Railroad to Black Hawk and Central City crosses this property and affords transportation of fuel and supplies to the mines and ore to the mills.

IMPROVEMENTS.

There has been installed a steam hoist, two boilers, a steam drill, two steam pumps, capable of handling the water to a depth of one thousand feet, and full line of tools and supplies of all kinds necessary for successful operations, all housed in a commodious boiler and shaft house of ample proportions.

FUTURE DEVELOPMENTS.

At the present time both the Newhouse and Big Five tunnels are being pushed through the mountains from Idaho Springs towards Central City and Black Hawk. The Big Five tunnel would cut under the West Pewabic claim and pass within 300 feet of the end line of the Russell, and drifts from this tunnel would cut the veins on this property at a perpendicular depth of 1,750 feet, or on the dip of the vein about 2,000 to 2,200 feet, figuring at its present rate of dip. This tunnel when completed would give over 2,000 feet of stopping ground and afford drainage and cheap transportation for ore, and the assurance is given that the tunnel will be completed as rapidly as possible. Already miners are working other veins through it on the Idaho Springs side of the mountain and its completion will add greatly to the value of this property.

CONCLUSION.

Over forty-five thousand dollars has been expended on this property in development to this date. The predecessors of this company show their faith in the future of the property by taking stock for all money they have expended.

It is not capitalized at an excessive valuation and the treasury stock is ample for future development. The property is located in a section that has been noted for some of the best-paying mines in Gilpin county, and from the showing to date it is safe to say it will be able to pay large dividends on its stock within the near future. A man of ordinary means is not able to buy producing mines. Hence, companies must be formed to unite capital, and in this way each investor realizes in proportion to his contribution. The Russell Mining Company is therefore offering its stock to investors in order that they may participate in this enterprise which bids fair to become one of the best mining propositions in the West.

The majority of the largest fortunes in the country have been dug out of the ground and have been started by such opportunities as are offered in this proposition.

We expect to make our money by efficient, honest and economical management and development of the property and dividends for our stockholders.

Ores of low value, that ten years ago went over the dump, are worked today at a profit because of the reduced cost of material and supplies and improved metallurgical work.

We offer a limited amount of treasury stock for sale. The money received for such sales to be used to complete payments of the original bond and for future development of the property. The equipment is all paid for and the company has no floating debt. The company is now pushing development on the two shafts with all possible energy and believe they can make regular shipments within the next few months.

We have endeavored to give a clear statement of facts and conditions and we believe that in offering this stock we are offering an honest mining proposition and one that affords excellent chances for future increase in value and large returns to the stockholders.

THOS. PATTERSON & CO.,
Fiscal Agents, Peterboro.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado.

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company makes the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-gold belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1859 to 1903 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4500 feet on Arapahoe dyke 22 feet wide	15.3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20.4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost.....$15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store-houses, and boarding house, estimated value $6,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000.00
Treasury stock sales pledged	1000.00
Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.	
No bonds or mortgages, no preferred stock.	

ESTIMATED REVENUE FROM 50 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	8
Number of tons concentrated per day	8

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 8 tons mill ore of value of $12 00 allowing 10 per cent loss in saving	96.00
Net value after deducting expense of mining and milling per day	80.00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	180,000 00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 600,000 shares in treasury reserve fund which draws no dividend.....$120,000.00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$50 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore develo through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,
Secretary.

Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Lung, Throat and Catarrhal Troubles

Cold in the Head Cured Quickly if You Breathe Fragrant, Healing

Catarrhozone

The ordinary method of treating catarrh by the stomach is a very indirect way and, as experience has demonstrated, a very useless method to employ.

Fragrant, healing Catarrhozone, is breathed, the air, laden with minute particles of this healing balsamic liquid, spreads itself over the whole area of inflammation.

It reaches the very root of disease, instantly destroying by its antiseptic properties the germ life which excites and maintains the disease. Its soothing and healing action is at once apparent to the whole diseased surfaces. It cures quickly and it cures permanently.

We affirm that no proprietory medicine has ever brought forth from the people as many voluntary testimonials as Catarrhozone has received.

MRS. M. J. WHITNEY, Clay Street, Topeca, Kan., was cured of nasal catarrh, and say, "I owe Catarrhozone an immense debt of gratitude. It cured me of the most disagreeable catarrh after many doctors had pronounced my case incurable. I do not cough any more, my breath is sweet, and my respiration regular since using Catarrhozone."

MRS. JAMES TWEEDIE, of Jay Bridge, says; "For years my daughter doctored for catarrh. She had dropping in the throat, hawking, nausea, and could not sleep at night. The first days use of Catarrhozone benefited and it cured so the catarrh never returned."

MR. R. SHELDON, of Leamington, Ont., says; "For two years I unsuccessfully sought a remedy to cure my son of catarrh but permanent results were not attained until Catarrhozone was used. It cured my little boy like magic and he has been quite free from catarrh ever since."

REV. D. R. SMITH, of Whitehead, N.B., says; "Catarrhozone permanently cured me of chronic catarrh of the nose and throat from which I suffered for many years, I heartily recommend Catarrhozone."

MR. R. McCALLUM, of Spring Brook, Ont., says; "A sample of Catarrhozone benefitted me more than years of treatment with doctors, and by using the dollar outfit I was completely cured in a few weeks. I recommend Catarrhozone as the most satisfactory cure for catarrh on the market. Every word said for it is true."

MR. S. T. WRIGHT of Steeds Mills Ont., says; "I had a bad attack of sore throat, with inflamed tonsils and sore chest. I inhaled Catarrhozone and it cured my trouble. I greatly admire its pleasant and soothing effect."

MR. JAMES FERGUSON, of Perth, Ont., writes;—"I have used Catarrhozone for sore throat and cold in the head and find it a good remedy. I highly recommend it."

MISS CLARA B. COLBY, of London, Ont., writes;—"I had a continuous cold in the head for years, and never used anything giving such quick results as Catarrhozone. I am delighted at last to find a remedy that positively cures colds. I strongly advocate Catarrhozone; it cures every time."

Catarrhozone cures without drugs and disagreeable medicine. It is Nature's cure—soothing, healing and pleasant to use. You simply inhale the medicated vapor of Catarrhozone through a Catarrhozone Inhaler and get cured quickly. Two months treatment costs only one dollar. It can be sent by mail and used right at home any time during the night or day. Sold by druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

Bishops Attend Consecration

On Wednesday their Lordships, Bishop O'Connor and Bishop Scollard attended the consecration services in Montreal, of Mgr. Racicot as Bishop of Pogio, which attracted a large number of church dignitaries to the Canadian metropolis.

Young's Point Item.

Mr. Geo. Hickey is overhauling the steamer "Stony Lake" the past week and will soon have this fine boat ready for the coming season. The owner, Mr. P. P. Young, will have a dining room on his boat this summer and it will be a great convenience to passengers.

Peterborough Lady Takes Honors.

Miss Mary Violet Dover, B.A., of McGill University, Montreal, has taken a fellowship at Bryn Mawr College, Philadelphia. The young lady is a daughter of Mr. Fred Dover of town. She is an ex-student of the Peterborough Collegiate Institute. The Times would add its sincere congratulations to those of Miss Dover's many friends.

Seriously Injured

On Wednesday a lad named Willie Walsh, eleven years of age, met with a very serious accident in Hastings. In trying to stop a horse and rig containing two children, he was dragged across the swing bridge and knocked down. He received several severe wounds on the head, and his condition is very critical. Dr. McNutly was telephoned for, and went to Hastings.

Lindsay Alderman on Stony Ways.

Lindsay councillors are sitting on a thorny bush just now. They have to decide between being berated by taxpayers, who are assessed some 30 mills on the one hand, and retrenchment, by cutting down laborers' wages and popular grants on the other, which later choice would surely remove their electoral scalps on the other. Truly the way of the Lindsay aldermen is a stony one.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Dorenwend to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupee, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by those who adopt them are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Dorenwend's Art Goods can improve your looks? He will demonstrate this to every caller free of charge. Only one day, Friday, May 19.

THE INAUGURATION CELEBRATION

(To the Editor of The Times.)

Sir,—There is a great deal of talk about the celebration to be held when Peterborough becomes a city. I have heard several kinds of amusements and other ways of celebrating this event discussed, but would like to suggest one thing that I believe is usual in such celebrations.

I refer to the ringing of a chime of bells. True, we have no chime of bells in any of our local churches, but what is to prevent having this provided for before the celebration is due. I, for one, would be pleased to contribute my little financial aid towards what would be a pleasure and a lasting benefit to the town. Supposing, for instance, a chime of bells was added to St. John's church so that, from its elevation and central position, they would be audible everywhere in town would not the town be a gainer? Thanking you for your valuable space, I am sir.

Yours truly,
CELEBRATION.

Sent To Sleep By Coffee

"The fearful work coffee has done for me is difficult to describe.

"I had no idea how weakened one can become from the breaking down effect of Coffee on the nerves.

"When that has gone on long enough, most anything may set in. I had 3 attacks of pneumonia and became a chronic invalid. I had no idea that coffee had put me in my deplorable condition. Well I finally went to Colorado on advice, and found a nice place to board with a family. The man of the house had just returned from a sojourn in California whither he had gone for heart trouble but the doctors out there discovered his weak heart was caused by coffee, took it away and gave him Postum. His trouble was quickly dismissed and he came home a well man. He suggested that probably it was Coffee affected me. I laughed him to scorn, nevertheless I began gingerly on Postum and found it so rich and with a nice coffee aroma that I liked it immensely.

"From the beginning the Postum Coffee had a beneficial effect on me. I improved in every way, my sleep came back, healthy and refreshing, and in a few weeks I went home a well woman, as I am to this day. I still use Postum of course, and will never return to the old kind.

"Noting the good effects of Postum in my case, I wrote home urging that it be given to my 12 year old daughter, who was very delicate and frequently ill from a complication of diseases connected with the liver. Well, my people tried it, but were disgusted with it — they didn't make it right. They said it was impossible for them to drink it, and my daughter rebelled and cried for the old kind of coffee. When I came home I changed all that by making it right—allowing it to boil for 20 minutes after it first came to a boil, and served it with cream. The child relished it at once, and benefited from the first, strength came to her day by day and she began to develop and was enabled to go to school much more regularly.

"It was a year after I began to use Postum before my husband would use it. He preferred to carry a small bottle of pepsin, and every time he drank coffee would take a dose of pepsin to overcome the sour stomach produced by the coffee. He held out for a year, but of course got worse and finally got to feeling so badly that he grew desperate and tried Postum. After the third day he became a convert to Postum and the pepsin bottle went into the ash barrel. That was two years ago, and he still uses Postum and is entirely free from the old troubles." Name given by Postum Co. Battle Creek, Mich.

There's a reason.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Dr. Greer is confined to his room with a slight illness.

—Mr. John Carless left for Liverpool, England on Wednesday.

—Mr. William E. Wallace left yesterday for Glasgow, Scotland.

—Mr. John Dillon, of Cortland, N. Y., is in town visiting friends.

—Mr. B. F. Doxsee, of Hastings, is the guest of Mr. H. Newton, town.

—Mrs. Gould, of Uxbridge, is the guest of Mrs. T. H. G. Denne, Gilmour street.

—Rev. F. J. Scott is in Toronto, attending the closing exercises at McMaster University.

—Mr. J. J. Rose, C.P.R. travelling passenger agent Toronto, was in town on Wednesday on business.

—Dr. McClelland leaves in a few days to take a special course in Johns Hopkins University, Baltimore.

—A party composed of Mr. and Mrs. John E. Smith and Mr. and Mrs. D. C. Irwin, has left for Calgary, N. W.T.

—Rev. W. A. J. Martin, Brantford, has left for home. He was the guest of Mr. and Mrs. Hugh Waddell while here.

—Rev. Fred J. Sawyers left Toronto yesterday morning for Bassano, near Calgary, N.W.T., where he will engage in mission work.

—Mr. Stewart Fanning left Tuesday morning to join his wife at Pt. Levis, Quebec, and intends to make it his furture home.

—Rev. Dr. Gulick, of Japan, who was the guest of Mr. and Mrs. Hugh Waddell during his visit to the town, left yesterday for Indiana.

—Mr. J. Hess of Hastings, has received notice from the Ontario Government of his appointment to the office of fishery inspector, his territory including all waters between Rice Lake and Trent Bridge.

—Mr. W. H. Mulligan, of Montreal, who has been attending school there, arrived in town, Wednesday evening to take a position in the C.G.E. Works. He will be at Mr. Macfadden's 34 Elm street.

—The Lindsay Post says; Mrs. Lloyd of Peterborough, was in town to-day. Mrs. James Swanton, of Peterborough, is in town visiting Mrs. David Murray. She leaves for Toronto to-night.

—Mr. W. Wilson, Elm street, who lost one of his large toes while working in the William Hamilton Foundry, by having a large weight fall upon it, is progressing nicely under Dr. McClelland's care.

—Mrs. James White left on a three months' trip to the Old Country yesterday. She sails from Montreal on the steamer "Ionian" and expects to visit friends in England, Scotland and Ireland. Her many friends will wish her a safe voyage and happy return.

—Lakefield News; Mr. Fred LeFevre of China, has returned home on a visit to his father. Miss Louise LeFevre, who had been visiting her brother, Mr. Fred LeFevre, in China, returned home last week. Mr. James F. Moore, Fishery, Inspector, caught two young men with a spear and an eight pound maskinonge, which were confiscated and a fine imposed.

—Lindsay Post says; There have been a few changes in the Ontario Bank staff recently. Mr. J. F. Johnston, for a couple of years accountant here, has been transferred to Peterborough; Mr. Hall, of Sudbury, filling the vacancy. Mr. Johnston will be greatly missed by his fellow citizens. Two new juniors, who have recently taken positions on the bank staff are Messrs. Karl Hettgbar and Stanley Pogue.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Mayor Beat certainly has the courage of his convictions.

—There was a field hockey practice at the park near the Y.M.C.A. last night.

—The steamer Water Lily this morning leaves town, with a loaded cow of peas and mixed freight.

—Omemee hopes that the new line of the C.P.R. from Georgian Bay will pass through that hamlet.

—About time to remind your neighbor to get his lawn mower fixed. Never can tell when you may want to use it.

—Preparatory communion service will be held in St. Andrew's church to-night. Rev. Mr. Nellis, of Port Hope, will preach.

—People have been kicking about the cold weather. Just as we get a good May day comes yesterday's snow fall. "There's a reason!"

—A citizen has complained to The Times that there was quite a "freeze out" at the Elk's organization meeting Wednesday night. The Elks seem to be exclusive.

—The manager of the Norwood branch of the Union Bank of Canada, Mr. L. J. R. Richardson, will leave at an early date to take charge of the agency at Wiarton, Ont.

—Rev. R. M. Phalen, B.A., of Blackstock, has been invited to preach in the Presbyterian church, Centreville, on Sunday, May 7th and 14th. Mr. Phalen is a native of Nova Scotia.

—Visitors to the back lakes report having seen the whole mosquitoe family working over time with the family grindstone on their stabbers and practising an anthem entitled "What shall the harvest be."

—A special meeting of the Ladies' Auxiliary of the Y.M.C.A. will be held on Saturday afternoon at 3.30 o'clock to arrange the work of furnishing the new dormitories. A full attendence is requested.

—While shunting yesterday morning upon the siding between Mathers grain warehouse and the Grand Trunk Freight office, a car was derailed the truck beneath the car becoming disengaged from the car.

—At the drill Wednesday night the companies marched to the park under the command of their respective captains. It was a very brilliant scene, on account of the large number of men in uniform, and so many officers giving orders.

—The residence of Frank Birdsall, near Rice Lake, was recently broken into and the cellar ransacked. His boat house was then visited and a valuable canoe taken. The canoe was found later by Mr. Birdsall, upon the opposite shore of the lake.

People living on Simcoe street and to the west of it, remark on the changed conditions existing in front of the C.P.R. Hotel. The old nuisance of a perennial crowd of loafers in front of the hotel has been abated.

When you want a true-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—Mr. E. R. Wood, of Toronto, son of Mr. John Wood, Fifth Ward, will erect a handsome brick house at the corner of Hunter street and Homewood avenue, opposite the residence of former Mayor A. L. Davis. The new residence, for which Mr. Wm. Langford has the contract will cost $8,000.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to The Times Bookstore.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

It Scares People

Who come of a consumptive family when they begin to cough and the lungs are painful. But it is a fact beyond disproof that consumption is not and cannot be inherited. The microbe which breeds disease must absolutely be received by the individual before consumption can be developed.

Men and women who have been afflicted with obstinate coughs, bronchitis, bleeding of the lungs, emaciation and weakness, have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the cough, heals the lungs, and builds up the body with solid flesh.

$3000 FORFEIT

Will be paid by the World's Dispensary Medical Association, of Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"When I commenced taking your medicines, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sanderland, of Chaseyville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. *The doctor who attended me said I had lung trouble, and that I would never be well again.* Altogether I have taken eighteen bottles of 'Golden Medical Discovery' and five vials of 'Pellets.' I am now almost entirely well, and do all my work without any pain whatever, and can run with more ease than I could formerly walk."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to cover expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 106 — PETERBOROUGH ONTARIO, SATURDAY MAY 6 1905 — PRICE TWO CENTS

Montreal to Have a Million Dollar Hotel.

Montreal, May 6.—The shareholders of the Windsor Hotel Company at a meeting today ratified the decision of the directors to construct a new European hotel next to the present building. An outlay of $1,500,000 will be made to construct the new building.

THE FLEETS WILL EFFECT JUNCTION

Looks as Though Russian Squadrons Will Get Together

NO NEWS FROM TOGO

The British Naval Officers at Hong Kong Have Little Faith in Russian Chances

Singapore, May 6 — Nebogatoff's Third Baltic squadron was passed this morning about 200 miles northwest of this port. The Kwala and the Jugrah also sighted the squadron steaming at about nine knots, not far from Penang. The junction with Rojestvensky will apparently be made without molestation by the Japanese. No vestige of information regarding Togo's movements or intention can be obtained.

IS COMMITTING SUICIDE.

Hong Kong, May 6.—Naval men here are strongly of opinion that the Baltic fleet is committing mere suicide in seeking to face Togo in the seas about Formosa. Others say the Japanese are indignant at the increased activity at Saigon, where shells are being landed daily on the beach and conveyed in freighters to the Russian ships along the coast.

A ST. PETERSBURG VIEW.

St. Petersburg, May 6.—Prominent statesmen here ridicule the idea that Rojestvensky does not mean business, and is only making a demonstration for the purpose of obtaining favorable terms. "Peace is a question of cash," said an official to a press correspondent. "The expenses of the fleet during its stay at Madagascar amounted to 30,000,000 roubles ($15,000,000). The other French ports where the fleet has stopped have also received a shower of Russian gold. This may help to explain their willingness to connive at breaches of neutrality. Russia's future is bound up with the fate of Rojestvensky's ships. The wheels of State are stopped; the armies in Manchuria have suspended operations and all await the result of the impending naval battle—which will determine the course of history for Russia and Japan."

PASSED THROUGH TOWN

To Attend Funeral of Late Hon. Jas Sutherland.

Early this morning the following Ministers and members of Parliament passed through Peterborough on the C.P.R. for Woodstock, to attend the funeral of the late Hon. James Sutherland, Minister of Public Works, which takes place in that town this afternoon;

Members of the Cabinet—Sir Wilfrid Laurier, Sir Wm. Mulock, Hon. W. S Fielding, Hon. Mr. Emmerson, Hon Chas. S. Hyman, Hon. Mr. Templeman, Hon. Mr. Brodeur.

Ex-Minister—Hon. Clifford Sifton.

Members of Parliament—Mr. Speaker Sutherland, Dr. Johnston, Messrs Calvert, Crawford, Bole, Martin, Maclean (Lunenburg), Campbell, Sinclair, Finalyson, D. D. McKenzie, Duncan, Ross, Macpherson, Gallibar, McIsaac, Sloan, Cyr, Stewart, Alex. Johnston, A. F. MacLaren, K. M Macdonald.

Ex-members — Lieut.-Col. Thompson, J. W. Poupore.

Senators—Sir Mackenzie Bowell, Hon. Messrs. Domville, King, Gibson, McHugh, McGregor, McPherson, Ross, Tessier, Thompson, Watson, Young.

Government employees — Antoine Gobeil, Deputy Minister of Public Works; E. G. Lafleur, chief engineer; J. Hunter, formerly private secretary to Mr. Sutherland.

Citizens of Ottawa—Mr. James White, President of Ottawa Reform Association; Mr. H. B. McGiverin, Mr. J. W. Woods.

ONTARIO GOVERNMENT'S MONEY.

Lucky Individuals Who Were on the Patronage List at Toronto.

It may interest our readers to learn how West Peterborough is affected by the distribution of public funds of Ontario. We have compiled a hasty summary of the public monies that directly benefitted this riding, without comment on the reason of such expenditure; the public is able to judge this for themselves. In the matter of grants to hospitals and charitable institutions in Peterborough, it can be seen at a glance how the monies were placed.

Mr. Hatton Stands By Mayor Best.

(To the Editor of The Times)

Sir,—Referring to editorials in the evening papers of the fourth of May last, commenting on the action of the Mayor when before the Private Bills Committee.

The staff was evidently handed out by the town officials and promoters who appeared before the committee disgruntled and baffled in an attempt to obtain legislative powers they are not entitled to. Had the bill gone through with the clauses relating to incorporation expunged, the gentlemen referred to, would have had very little to say about the charter. I am strongly of the opinion that had the bill not been opposed on any point it would have had the same treatment. The chairman of the Private Bills Committee, Mr. Carscallen, before hearing me on behalf of my clients was evidently much displeased with the provisions other than those relating to incorporation. He stated it was a most dangerous bill, he pointed out to the members of the committee present if this bill in its entirety was passed it would be a most dangerous precedent to establish, and asked them if they, the members of the Private Bills Committee, wished to override or enlarge on the powers they now had by statute and in unison they replied, no. He then referred to the consideration of the first clauses of the bill, the ones providing for incorporation as a city, and asked to hear whoever was representing the opposition. It was pointed out then by me, that the Council at a meeting called for the express purpose of considering the petition for withdrawal of the incorporating clauses in the bill, the Council refused to assent to same. When Mr. Best was asked to give his views, he must necessarily give expression to them as a citizen and as representing the people. His views as head of the Council could be of no moment as he was bound officially by the action of the majority of the Council. In common with all who really understand the facts and the position he was placed in and compelled to accept, by the proper Bills Committee, I consider he acted in a fair, independent and manly way.

Their comment on the result of the adjournment "That the clauses relating to the fixed assessment of the Peterborough Cereal Company and the Shovel Company, are also hung up, and are in jeopardy of not being accepted as the people have not voted on them."

As the chairman of the Private Bills Committee said why do you come and ask this Legislature to grant you powers you are not legally entitled to, when you refrain from even asking your citizens, the people who pay the taxes, and, for whom the laws of the land are made and enforced, to endorse you!

The Examiner, doubtless after interviewing the said town officials and promoters and without consulting me, states "Mr. Best hadn't according to the rule adopted (I presume by the committee), any more standing before the committee, than Mr. Hatton who as solicitor represented it in said interests which would suffer in pocket, through city incorporation, increasing the fees for hotel licenses." Why the editor of that paper should assume that I represent the hotel keepers, and why he should not have had the ordinary courtesy of ascertaining that my clients were not the hotel keepers he probably knows best.

If a legal man representing people who suffer, has no standing before the committee, who has? And, if Mr. Best was on a par with him and had not the right to express himself because he suffered, what right had the officials and promoters who caused the suffering to be there. Had the hotel keepers instructed me to go and represent them I should have been very glad to.

I feel convinced that there is a strong feeling against the incorporation as a city, and it will appear in evidence very shortly. There are many reasons for this feeling, some of them I would not wish to discuss as there is no use in creating a feeling of rancor and bitterness between the town officials, some of the leading representative men, and the people at large. The people will not submit to being ignored.

I regret having trespassed to such a length on your space.

Yours very truly,

G. W. HATTON.

Naval Battle Expected In a Day or Two?

Rojestvensky's Plans, so Far, Have Worked Well, and They Are Rapidly Maturing in a Manner That Compels Admiration.

If the Japanese plan is to attack Nebogatoff's squadron before it can effect a junction with the stronger fleet under Rojestvensky, a naval engagement may take place within a few hundred miles of Singapore during the next day or two. In fact, news of a conflict might come to hand at any moment, for if Rojestvensky sailed to meet Nebogatoff on May 3, as is intimated, a junction should be effected on Sunday in the vicinity of the Natunas Islands, and the Japanese cruisers and torpedoes, if they strike at all, must strike ere then. A general naval engagement is not likely to occur for some weeks yet, but the weakness of Nebogatoff's squadron might well tempt an attack while it is isolated.

Rojestvensky's plans, so far, have worked well, and they are rapidly maturing in a manner that compels admiration. The reported departure of the armored cruiser Gromoboi from Vladivostock, whether true or untrue, is designed to distract the enemy and cause a division of his strength, but if the vessel has actually sailed she is liable to meet a sad fate before long. Having failed to induce Togo to leave his naval base and attack him, pending the arrival of reinforcements, Rojestvensky will now endeavor to combine his forces, and when his fleet is in good shape, will seek out Togo with the object of forcing a fight to a finish. But the next day or two are fruitful with possibilities.

A Popular Drummer.

Mr. John Everett Presented With Handsome Smoking Outfit.

Mr. John Everett, the popular travelling representative of Christie, Brown & Company, who has been visiting town in an official capacity for nearly twenty-five years, decided to take a pleasure trip to the Old Country. His friends in town invaded his room at the Oriental hotel last night and captured him by a surprise attack. Mr. F. J. R. Mitchell read an address and Mr. R. A. Dutton made the formal presentation to him of a very handsome pipe and complete smokers' outfit. The accompanying address, which was most complimentary was signed by Messrs. F. J. R. Mitchell, R. A. Dutton, T. H. Hooper, J. H. Savigny, W. H. Hamilton, P. Connal & Son.

Mr. Everett replied in feeling terms and a very pleasant hour was spent in chat and song and story.

Mr. and Mrs. Everett sail for the old country on the Tunisian on June 2nd and the former will make one more business trip to town before his voyage.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

LABRADOR MISSION WORK

DR. GRENFELL ADDRESSES A LARGE CROWD IN ASSOCIATION HALL

Many Fine Illustrations of Scenes on That Barren Coast Shown

There was a fair attendance at the illustrated lecture delivered by Dr. Wilfred T. Grenfell on mission work in Newfoundland and Labrador in the Y.M.C.A. Hall last night. The views presented were truly magnificent, and told the story so well that the doctor was not called upon to enter into any extended explanation. The coasts of Labrador and Newfoundland, as shown by the lecturer, appeared bleak and uninviting in the extreme, although there are many spots of rugged beauty where the rocks rear their heads three and four thousand feet above the level of the sea. Some magnificent views of icebergs were also shown, together with pictures of the several small villages along the coast. Several pictures of the Lend a Hand, the staunch little steamer presented to Dr. Grenfell for his missionary work by Lord Strathcona, were shown. By means of this steamer the doctor and his colleagues had been greatly facilitated in their work of relieving the distress of the needy fishermen, and ministering to the sick along the coast. Several hospitals had been erected and every year some 2,000 people were treated. It was by this practical means that they were endeavoring to instil in the hearts of the people of Labrador a knowledge of Jesus Christ. Ignorance and poverty were two of the great drawbacks towards the spread of Christianity in that land. These they were trying to overcome by the establishment of schools and the introduction of business methods in the conduct of affairs.

The chair was filled very acceptably by Mr. D. Hughes-Charles. At the conclusion of the lecture a hearty vote of thanks was tendered Dr. Grenfell.

After the lecture he was entertained at dinner by Mrs. D. Hughes-Charles.

—Mr. and Mrs. Mark Wilson have been spending a few days in Hamilton Mr. Wilson, when in the Ambitious City, had the pleasure of attending Rev. H. B. A. Ketchen's introductory service in the McNab street Presbyterian church, and stated that Mr. Ketchen created a most favorable impression.

WEATHER NOTES

Mild, with local thunder showers.

NO HOPE FOR CZAR'S PEACE

Slav Authorities Confess Admiral Rojestvensky's Chances of Success Against Togo in Anticipated Battle are Small.

Moscow, May 6.—According to well posted authorities, Rojestvensky's chances of success against Togo in the coming battle are almost hopeless. The Russian Gazette regards the prospects as entirely illusory.

"Although," says The Gazette, "Rojestvensky has two more battleships than Togo, other factors neutralize this seeming superiority, even for a decisive action. In the lighter forms of naval warfare the advantage is incomparably with the Japanese.

"Supposing the Russian Admiral seeks a decisive action, the chances may be thus estimated. At a six-mile range the Japanese ships throw ten tons more metal than the Russians per half hour, with 70,000 foot pounds greater velocity. At five miles the superiority is decidedly with the Russians, for they can throw thirty tons per half hour more than the Japanese, with 1,500,000 pounds greater velocity. But at four miles the Japanese are nearly twice as strong as the Russians, and at three miles the superiority of the enemy is overwhelming. At three miles the Russian ships throw less than half the metal of their opponents and at less than a third of the velocity.

"As the Russian fleet is estimated to be two knots slower than the Japanese, the choice of ranges remains with Togo. Therefore, the only chance for Rojestvensky is heavy artillery fire at from eight to five miles range, preventing Togo from coming nearer and bringing his lighter guns into play. Our hope is not in material advantage, but in the skill and pluck of Rojestvensky, the bravery of his crews and the accurate aim of his gunners."

C.P.R. EMIGRATION

Sir Thomas Shaughnessy's Big Scheme is About

London, May 6.—Before sailing yesterday on the Caronia for Canada, Sir Thos. Shaughnessy intimated that the Canadian Pacific Railway Company was contemplating a large emigration scheme, entirely independent of the Canadian Government. The C. P. R. is naturally anxious to secure the entire ocean and land transports of emigrants instead of a share only, as under Government emigration, and anxious also to settle emigrants in the districts tributary to the Canadian Pacific lines.

Mr. Shaughnessy probably refers to co-operation with the Salvation Army, in the scheme which Mr. Haggard is recommending to the British Government on the basis of his recent mission to the Salvation Army settlements in the United States. Mr. Haggart was much impressed with the Army colonization methods and found the Canadian Government ready to co-operate.

The Plumbing By-Law Passes the Committee

But the Council Can't Agree on Who Shall be the Inspector---F. Bartlett Secured the Vote But Was Rejected, Not Being a Practical Man.

The Council met in Committee of the Whole last night, and sat from 8 to 11.20.

There were present, Ald. Adams, Crowe, Scott, Begley, Johnston, Batten, Hall, Hicks, McIntyre, Tovey and Leary. In the absence of Mayor Best, Ald. Adams presided.

PLUMBING BY-LAW.

Ald. Mason's plumbing by-law was first taken up and considered. It is a creditable piece of work, providing for every sanitary condition necessary to the health of the town and first class plumbing work in every respect. It has the endorsation of Dr. Sheard of Toronto. Under its provisions any person carrying on a plumbing business shall pay a yearly license fee of $10, such license only to be granted after the plumbing inspector has satisfied himself that the licensee is capable of thoroughly living up to the requirements of the by-law. The applicant for a license shall file his application with the town clerk, and all licenses shall be kept in a conspicuous place in the plumber's place of business. Each licensee shall be responsible for the work of his employees. A fee of $5 will be charged by the town for the inspection of plumbing and sanitary work, to be paid by the party acquiring the permit for such work from the inspector.

Plans and specifications of plumbing and private sewer connections to be filed with the inspector before a permit is granted. Any infringement of the by-law will result in a cancellation of the plumber's license, and a fine of not less than $10, and not exceeding $50; in default of payment of said fine, imprisonment for not exceeding 21 days will be imposed. The remainder of the by-law dealt with mechanical regulations of interest mainly to the trade. The by-law was discussed in the presence of master plumbers Sutherland, McGregor, Best, Thompson, Reid and Sturgeon, whose approval it met with. It was but slightly amended from its original form, and was approved of by the committee.

PLUMBING INSPECTOR.

A communication was received from the Master Plumbers, advocating the necessity for adopting a plumbing by-law and the appointment of an inspector, the latter to be a practical plumber whose character and habits are above reproach.

Ald. Hall moved, seconded by Ald. Leary,—That the offices of Building and Plumbing Inspector be not combined—Carried.

It was decided that the duties of the Plumbing and Sanitary Inspector shall include the inspection of all sewers except those made by the contractors of main sewers.

Chairman Frank Adams then ruled that the appointment of the Plumbing and Sanitary Inspector be by ballot without nomination.

No names were laid before the committee, and the vote by ballot, resulted as follows;

F. Bartlett	6
R. G. Sturgeon	5

Ald. Tovey was not present when this ballot was taken.

It might be here mentioned that while the by-law calls for the Inspector to be a practical man, this vote gave a majority of one to Mr. Bartlett, who is not a plumber. This was pointed out by Ald. Mason, who claimed that Mr. Sturgeon being a plumber should have the appointment, his competitor being disqualified by the by-law previously approved of. Besides Mr. Sturgeon's services in advising him in drafting the by-law deserved some recognition.

Ald. Adams here asked, would it be fair to appoint Mr. Sturgeon when he is going to deal in plumbing supplies, and consequentlly supply plumbers with materials. Ald. Adams also asserted that Ald. Mason and Hall are directors of the new firm recently incorporated, of which Mr. Sturgeon is a member, and consequently should not support his application for the appointment.

Ald. Hall replied that if the firm were going to deal in plumbing supplies, he would withdraw his support of Mr. Sturgeon.

Ald. Mason said that under the act of incorporation, the firm do not intend to handle anything but boilers, while the solicitor as is customary in many such cases, took upon himself to include plumbing supplies in the bill he drafted asking for incorporation.

Ald. Johnston here strongly urged the appointment of Peter Thompson, a practical man, he said, whose selection would meet with the approval of a large majority of citizens.

Ald. Crowe did not care who got the appointment, providing he were fitted for the position. Above all things he must be a practical man. He did not think the Council capable of judging the competency of the men seeking the appointment.

Ald. Mason claimed that it would not be just to the master plumbers to appoint a man not a practical plumber—one who has in fact to learn the trade. An inspector's experience and knowledge will in the course of events be called upon to advise plumbers. The only way out of this difficulty is to have the applicants pass an examination before expert plumbing authorities in Toronto.

Ald. Leary—"We must appoint a practical man; to do otherwise would be an insult to Peterborough plumbers."

Ald. Mason—"I want it distinctly understood that the man appointed shall fill no other position whatever. He shall be an employe of the Town only."

Ald. Mason moved, seconded by Ald. Crowe,—That we have an examination for a plumbing inspector, the applicants to go to Toronto at their own expense.

Ald. Adams said he would move that Mr. Bartlett receive the appointment he having received the majority vote.

Ald. Adams said he was satisfied for the Council to pay Sturgeon for his services in assisting to draft Ald. Mason's by-law should he not receive the appointment.

Ald. Mason's motion was then voted on, and resulted in three for to four against, four not showing their hands.

Matters here came to a deadlock, and as no possibility of arriving at a decision was in sight, Ald. Hall moved, seconded by Ald. Hicks,—That the question be referred to a full meeting of the Council Board—Carried.

QUESTION OF WAGES.

Ald. Batten moved, seconded by Ald. Hall,—That Street Commissioner Evans have authority to issue certificates for such wages as he deems expedient for men engaged in granolithic walks—Carried.

TAKES HIS THIRD WIFE

GEORGE SCHMIDT, AT NINETY-FIVE, MARRIES ONCE MORE

Happy Bridegroom is Unusually Active, for He Has Never Smoked or Chewed Tobacco or Drunk Liquor --Was a Secret Wedding

Romantic Easter Day marriage was made public today. The bridegroom is George Schmidt, 95 years old, a retired Newark butcher, who is spending the season at Ocean Grove. His bride is Mrs. Ellen Day Schwartz, 57 years old, also of Newark. The ceremony was performed by the Rev. S. H. C. Smith of Ocean Grove.

The wedding was kept secret for family reasons. The happy bridegroom is unusually active for his age. He has never known a sick day. He has never smoked or chewed tobacco or drunk liquor. He has children, grandchildren and great-grandchildren. In his earlier life Mr. Schmidt was one of the managers of Washington Market, New York. This is the third matrimonial venture of the bride.

OUR GUESTS GONE

29th Annual Meeting of W. F. M. S. Has Ended.

Yesterday the town resumed its staid appearance, as far as strangers and fair faces was concerned. The hundreds of ladies who came here in the interests of our benighted fellow beings in India and foreign lands, have once more returned to the generally tum-drum home life.

They say that sometimes ladies are inclined to talk, but we hope so in the case of the W.F.M.S., who have been our guests for a few days. Peterborough will then get good notice throughout the country, as without exception, the visitors were pleased with both town and entertainers.

At Thursday's meetings, the following committees were appointed, viz.;

Executive Committee—The officers of the society, Mrs. Hamilton, Mrs. M. Reid, Miss Clarke, and Mrs. Donald, of Toronto.

Nominating Committee—Mrs. McMurrich, convenor, Toronto, Mrs. W. MacLaren, Toronto; Mrs. G. H. Robinson, Miss Smellie, Mrs. K. MacLean, Guelph; Mrs. Steele, Dundas; Mrs. Mackey, Winnipeg; Mrs. McEwan, Toronto.

At the closing meeting, Dr. Margaret O'Hara,—a lady missionary, who came direct to the convention from India, gave a very interesting address on the work in that country. She spoke very kindly of the assistance given her by the British officers in India. During 1900, the great Indian famine year the speaker spent £1,000 on relief work.

Mr. McGillivray, a returned missionary from Shanghai, China, followed in a very concise way of the good effected by the society in the Celestial Kingdom.

The singing of the hymn "Saviour, again to Thy dear name we raise," brought the 29th annual meeting of the Woman's Foreign Missionary Society to a close.

The "X" Rays and Cancer.

Berlin, May 6.—The International congress called to celebrate the tenth anniversary of the discovery of Roentgen Rays closed yesterday. The discussions turned largely upon cancer treatment. The final resolutions declared that the rays ought not to be employed except by thoroughly qualified practitioners.

ROYAL BAKING POWDER

ABSOLUTELY–PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder produces food remarkable both in fine flavor and wholesomeness.

Medicines Loaded With Alcohol

Think of it! The Danger You Run — Drink Habit is Easily Acquired, But Hard to Cure.

Careful analysis shows that many so-called tonics contain little else but whiskey—the rankest, poorest kind of whiskey.

You may unconsciously be using an alcoholic liquid remedy. Some member of your family may be doing so. Your duty is plain; stop it at once.

The test of a tonic is the permanency of its cure. To become strong, you must build up the blood—alcohol weakens it. You must increase your nerve force—alcohol steadily devours it.

Give up the liquid tonic, before you become its slave. The true medicine for the run-down, depressed and nervous is Ferrozone. It is nothing but concentrated cure in tablet form. It stimulates the appetite, aids digestion, fills the blood with iron, builds up in nature's way. Never known to fail.

Whether weak from worry, overwork, thin blood, or ill-nourished nerves, Ferrozone will quickly make you well. It is safe and harmless, undoubtedly the best tonic and rebuilding medicine made. We must recommend you to use Ferrozone if in poor health.

Ferrozone, known as the great food-tonic, costs 50c. per box, or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 6 1905

A PLEA FOR THE ABOLITION OF LEARNING

Educational reformers will find a delightfully thorough article in Blackwood's which comes professedly from an English merchant who was supplied with a Latin signature by "Mr Carnegie's nearest librarian." This gentleman not only has no use for the Greek of "Homer and Cicero," which, he is told, had no words for "telephone" and "syndicate," but opposes Latin on the ground that one dead language is as bad as another, and waves the higher mathematics aside with unmitigated contempt.

"I never heard," he says, "of a boy whose salary was raised because he had wasted years, which might have been profitably spent in some honest business, on Euclid and Algebra." What was Euclid but a childish picture book, and as for Algebra it is the "heathen name of some nigger in the East, who never saw the advantage of marking all goods in plain figures, and has made endless confusion with his Xs and Ys and Zs."

The author also records his regrets over "the misguided attempts made by the spurious friends of honest commerce to introduce what they are pleased to term 'modern' studies into the universities." History, he says, is of no value to anyone but the novelist, and "why should the business men, who are the backbone of the country, fill their heads with the silly gossip and intrigues of a hundred years ago, when commerce was in its infancy and the splendid markets of today were still undiscovered?" Geography, he adds, is even worse—for the age of Robinson Crusoe is past and nobody has to find his way about the world now. The bulk of business is done by correspondence, and if we are obliged to cross the ocean it is perfectly easy to buy a ticket, and the steamer knows the road.

Neither is there any reason for learning French or German, "two foolish tongues which are spelt one way and pronounced the other," when you can have a clerk who understands them both at fifty pounds a year. Then there is engineering, good enough in itself, but properly studied in the workshop instead of the universities, which should be made over into warehouses and factories. "When Oxford and Cambridge are converted to neat manufacturing towns, when the sky which looks down on these 'seats of learning' (save the mark) is changed from a foolish blue to a healthy, profitable black, we may even hope to rival Pittsburg itself."

This very radical treatise is entitled "A Plea for the Abolition of All Learning," and it does not seem to be wholly serious. But possibly there is basis enough for the satire to make it pertinent to some of the extremely utilitarian ideas that are advanced nowadays on the subject of education.

BRITAIN GIVES LIBERAL RULE

It is announced that a new constitution for the Transvaal has been signed in London, but that its terms will not be made known until after it comes up for discussion in Parliament. The fact that considerable additional powers of self government are to be given the citizens of the Transvaal (for the new constitution can mean nothing else) is but one more proof of the essential love of liberty which characterizes the British people. They desire freedom for themselves, and they are equally ready to concede all the freedom of self-government consistent with the safety of the state, even to such a semi-hostile province as the Transvaal. Britain's success as a colonizing power has been due to this readiness to recognize the wishes of her outlying peoples, and to aid the development of self-government among them. The comparative failure of France and Germany has been due to the opposite line of conduct with their overseas possessions. It is to be hoped that the new powers which may be given the Transvaal will indicate the growth of a happier feeling in this lately conquered province. Her people have doubtless realized that Britain has had no desire to hold the country by rude force of arms, but that when it has been necessary to rule through her own appointed officials it has been done with justice and kindness, and as soon as it becomes possible, she will restore to the citizens themselves a leading share in the government.

A CATTLE PLAGUE

Strange Disease Killing Many Cattle in This Country.

One of those dreaded epidemics that occasionally sweep over sections of the country unexpectedly, has unfortunately come to this county, in greater force than ever before.

The disease is commonly known as "Black Quarter" and is very contagious. The first symptoms is a stiffness of the limbs, generally in the hind quarters.

The first precaution to be taken is to take cattle from low lying pastures; when cattle are affected by Black Quarter, death ensues within from one to three or four days, and, once the disease has taken hold of an animal there is not any known specific cure.

Calves and young heifers and steers are particularly sensitive to the danger, and after death all carcases should immediately be burned. Sheds and barns frequented by animals that became affected should be thoroughly disinfected, and the other cattle isolated.

Dr. B. R. Poole, V.S., reports that he has encountered many cases in his practice recently.

Last week Dr. Poole vaccinated nine cattle belonging to Mr. Patrick Heffernan, and nine in the herd of Mr. R. Cleghorn, both in Otonabee. This system of vaccination is the only really sure preventative of Black Quarter, and is quite harmless otherwise in its results.

Mr. James Darling, of Smith, last Wednesday lost a steer valued at $50, and Mr. William Johnston, of Cavan, lost three valuable cattle by this same scourge within a week.

Black Quarter is a disease closely allied to Anthrax, being attributed to a well defined bacillus.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CHANDOS

A special meeting of Chandos Council was held at the Treasurer's house on May 1st, 1905, to inspect the Collector's roll and other business.

Members all present; Reeve in the chair.

Moved by Coun. Geo. Campbell, seconded by Coun. John Bullied, that this Council extend Collector's time till August 15th, 1905.—Carried.

Moved by Coun. G. A. Bullied, seconded by Coun. J. Trotter, that Geo. Campbell present Mr. S. D. Purdy with bill for 18,541 feet of lumber at $2.50 per M., that he took away from allowance road between lots 25 and 26 in 9 and 10 concessions.—Carried.

Moved by Coun. Geo. Campbell, seconded by Coun. J. Trotter, that Reeve and G. A. Bullied be a committee to examine damage done to S. Scott's meadow by public traffic while road was blocked with snow and to report next meeting.—Carried.

Moved by Coun. G. A. Bullied, seconded by Coun. J. Trotter, that the Treasurer be authorized to accept $20 in full for back taxes on lots 13 and 14 in 15 concession, and that Treasurer notify County Treasurer to remove same from his books.—Carried.

There being no other business, the Council adjourned to meet in Court of Revision on May 27, 1905, at Foster's school house.

MARCONI
How Great Fortunes Grow
On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Aster, invested gradually only $2,000,000 in real estate in what is now New York City. To day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,
is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

HOMESTEAD REGULATIONS
Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
ENTRY
Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the home-tender desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.
HOMESTEAD DUTIES
A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:
[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation
[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.
[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.
[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.
The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.
A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.
The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.
Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.
APPLICATION FOR PATENT
Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.
INFORMATION
Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.
W. W. CORY,
Deputy Minister of the Interior.
N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations nd private firms in Western Canada.

—ON—
Thursday, May 19th
This visit gives you a chance to consult PROF. DORENWEND about your Hair and to choose from the stock of Hair Goods, which he carries with him—just what you require You can try on any Switch, Bang, Pompadour, etc., and see just how it will look.
PROFESSOR DORENWEND can be depended upon to sell you only first quality Hair Goods. You are not forced to buy because you call to see and examine these goods.

Baldness . .
as all men know, disfigures and adds an aged expression to the face. Why remain Bald when Professor Dorenwend can fit you with a WIG or TOUPEE, which will hide all traces of Baldness and take the place of your own hair? Doctors recommend these Toupees as a preventative for colds in head, catarrh and neuralgia. PROFESSOR DORENWEND will fit you on the spot and show you just how you look afterwards.
LADIES--READ THIS!
You will never have a better opportunity to see for yourself the beautiful assortment of SWITCHES, BANGS, POMPADOURS, WAVES, WIGS, Etc., which Professor Dorenwend carries with him.
Remember the date and don't fail to call at the hotel and see PROFESSOR DORENWEND
If you cannot call write for Prof. Dorenwend's Catalogue—it's free

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Department.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

It has the endorsement of the Canadian Government, England and the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet [illegible] and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet since there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Don't you be other than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $600 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

A DYNAMITE OUTRAGE

An Attempt to Blow up Store-houses at Roche Percee Mines

Winnipeg, Man., May 5.—Word has reached the city of an attempted dynamite outrage at Roche Percee, Assa., on the Portal section of the Canadian Pacific, which had become noted for the development of coal mines. Last Wednesday night, William Sutherland, manager of Roche Percee Mining Company, on going outside the dwelling house of the company, about 10 o'clock, noticed a man stooping down beside one of the store houses of the company, in the act of lighting something. On Sutherland's appearance the man ran away and a rapid investigation showed that he had ignited a fuse about a yard long, which connected with an iron plated box.

The manager fearing an explosion, partially disconnected the fuse and ran away, when a frightful explosion followed, partially wrecking the building beside which it was placed.

Sergeant Flett, of the Mounted Police, is now making investigations. The reason for the outrage is not apparent, and it is believed that had the manager not partially disarranged the fuse the explosion would have wrought more serious damage. The fire which resulted was extinguished before it had done much damage.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

Immigrants are Detained by Ice

Montreal, May 5.—Most of the immigrants who sailed for Canada recently are still detained in the Gulf owing to the ice. The Ionian which got through to Quebec yesterday, had on board one thousand immigrants, and these reached the city last evening. There were two special trains at their disposal. Of this total, 250 went on to Toronto, 150 remained in Montreal, and the balance left almost immediately for the North-West. These immigrants were mainly from Great Britain, and contained many fine samples of manhood.

BETTER THAN GOLDFIELDS NEVADA

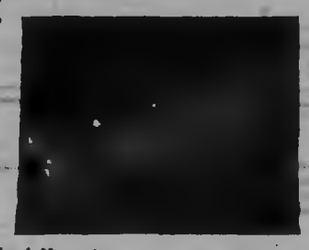
The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at mines; to install an electric power line; and install a large compressor and hoist capable of sinking the props at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.



CONCENTRATOR PURCHASED

We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st, 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encounter some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay—West of winze, intermediate drift	3685.60	1197.	$74,406.20
No. 2 Assay—Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.50

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885.38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577.60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944.00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000.00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 600 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.

With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Live Merchants Advertise in The Morning Times

Tubecuosis of The Lungs Cured

World's Greatest Physician Eulogo Catarrhozone, which killsall theGerm Heals the Membranes, Cures Th roughly.

That consumption is due to the presence of germs in the air passages is now admitted by all physicians. Before the disease can be cured of course these germs must be killed. Liquid medicine taken into the stomach can't possibly reach the air cells of the lungs, and is therefore useless.

Catarrhozone never fails to kill the bacilli of consumption for the following reasons, which are plain to every thinking person;

First—Each breath of medicated air you draw through Catarrhozone Inhaler is at once sent through every air cell and air passage in the throat, bronchial tubes and lungs; it is then sure to reach the nest of the consumption germs.

Being a powerful antiseptic Catarrhozone at once kills these germs and establishes such a healthy condition in the lungs that microbes can't live there. Once the cause of the disease is removed it is only a matter of time till you get well and strong again.

That Catharrhozone does permanently cure Tubercular Trouble can no longer be doubted. Ample evidence of its marvellous merit is witnessed every day. Thousands have been cured after all else has failed by this great germ destroyed, which is inhaled to the very source of the disease.

Mrs. G. P. McClaskly, writing from Salt Lake City, U.S., says; "My doctor ordered me to Colorado, where I first used Catarrhozone. I inhaled it probably twenty times a day. In one week it stopped my cough completely, and it was not very long in taking every bit of soreness and hoarseness out of my throat. The antiseptic vapor of Catarrhozone must certainly have killed all the germs of consumption in my lungs, for I came home in seven months cured. My doctor says Catarrhozone is a marvel. It is of the greatest assistance in lung trouble, and cured me permanently."

Not only consumption but every form of catarrh and throat trouble is easily cured by Catarrhozone. Two months treatment costs $1.00. At druggists or by mail from N. C. Poson & Co., Hartford, Conn., U.S.A., and Kingston, Ont. For a quick and certain cure use only Catarrhozone.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 78 Lansdowne street, or address Box 876, Peterborough.

Y. W. C. A.

On Sunday afternoon, at 4.15, Miss Alice Scott, late of Gleichen, Alberta, will speak in the Y.W.C.A., on her experiences in missionary work at the Indian Hospital there. Mrs. Rebill will sing. All young women are heartily welcome.

Restaurant for Sale.

Fred E. Darey offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darey has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Child Burned Badly by Lye

One afternoon last week, while the infant daughter of Thos. H. Thompson, of Campbellford, was playing around the house, she came across some lye, and child-like, put some of it in her mouth. Fortunately she was discovered before she swallowed any of it, but not before her mouth had been badly burned. The lye burned holes in her little cheeks, and caused great suffering. Although still very painful, the burns are healing nicely.

Park St Baptist Church

Special subjects for to-morrow; — Morning 11, "The Last Supper and What it Means;" Evening 7, "Natural Phenomena." The ordinance of Baptisms will be observed at every service.

Ordinance of Lord's Supper, afternoon sermon, when those recently baptized, will take First Communion, preceded by a reception service. Hymn books provided. Strangers made welcome.

Sunday school at three. With Pastor's Bible Class.

Rev. A. H. Brace, Pastor.

Havelock Church Vestry.

At the annual Easter Vestry meeting of St. John's church, Havelock, the wardens, Messrs. W. Webb, and Jas. Bryans presented a report of the finances of the church, showing them to be in excellent shape. Both wardens resigned and their resignations were received with great regret. The new officers for the ensuing year are—Incumbent's warden, I. Barlow; People's warden, Edw. Chapman; Vestry clerk, T. P. Lancaster.

No Confidence in Council.

The Globe's Peterborough correspondent says: One of the causes contributing to the defeat of the by-law was the fact that a great many of the ratepayers have no confidence in the Council carrying out the wishes of the electors. On January 16 a plebiscite to pay for granolithic sidewalks by a general tax was taken, but the Council ignored that vote, and the opinion is that this fact had a decided influence upon the vote on the fire hall by-law to-day.

Rev. H. B. Ketchen Inducted

Rev. Hugh Beverly Ketchen, the new pastor of Macnab street Presbyterian church, Hamilton, was ordained and inducted Thursday night. Rev. Dr. Fletcher, pastor of the church for thirty-three years, and now pastor emeritus, moderated. Rev. D. R. Drummond preached the sermon, Rev. Dr. Lyle addressed the new pastor, and Rev. J. W. McNamara, of Nelson, addressed the congregation. Rev. Mr. Ketchen was given a warm welcome by the church members after the service.

Campbellford Cheese Board Met.

The first meeting of Campbellford cheese board for this season was held on Tuesday, and was well attended. The cheese sold for 10 and 10 1-8c. All the old buyers were present except Mr. Russell—viz. Whitton, Kerr, Bird, Rollins, Cook and Gillespie, and in addition Mr. Morton, who appears for his first season as buyers. The following officers were elected:—President, Nelson Stone; Vice-President, Wm. Locke, Secretary, John Govan, Auditors, A. Hume and W. Milne.

Heavy Artillery of Salvation Army

Lt-Colonel and Mrs. Gaskins of Toronto, will conduct special meetings in the Army barracks on Saturday and Sunday next. The colonel is the General Secretary for Canada, and is one of the most able speakers in the army.

His subjects will be as follows:
Sunday, 11 a.m., Anglers.
3 p.m., The Captain's Mistake.
7 p.m., Different Characters.

Mrs. Gaskin will address the Sunday school in the afternoon. All are invited to attend these meetings.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Doremwend to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupes, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by those who adopt them, are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Doremwend's Art Goods can improve your looks? He will demonstrate this to every caller free of charge. Only one day, Friday, May 19.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Navigation on the Trent Valley Canal will be opened from Kirkfield to Hastings on May 15th.

—Many people in town are not sorry that the "City" clause was Beated in Toronto.

—Car No. 15, another addition to the street railway stock was in use on George street yesterday.

—Guy Brothers want to come to Peterborough on October 4th, and have written for the use of the rink.

—No police court yesterday. Folks too busy hunting excuses for the tornado that wiped out the fire by-law.

—This is the month of May, and all premises are supposed to be thoroughly cleaned up before the 15th inst.

—Dr. Grenfell, representing the National Mission to Deep Sea Fishermen, in Labrador, lectured last night at the Y.M.C.A.

—Every cab in Peterborough was in use Thursday afternoon. Nearly all the W.F.M.S. delegates enjoyed a drive around town. The lift lock and Jackson Park were favorite attractions.

—Mr. S. Stinson, County Councillor, of Smith, was in town yesterday, and visited the court house buildings to enquire from the county clerk as to the condition of his colleague, Councillor Deyell.

—Every man of the Y.M.C.A. track team is asked to be out on the oval this afternoon at three o'clock for work. The field hockey men are asked to bring their sticks along with them for practice.

—The funeral of the late Miss McKnight, mention of whose death was in The Times, took place at two o'clock from the residence of her father, Mr. John McKnight, 7th concession, Cavan, to St. Paul's cemetery, Cavan.

—Rev. Dr. Wild, of Toronto, says the millenium will take place in 1935. After that date he says there will be no more births and human life will be prolonged so long that a man 100 years old will be regarded as in the infancy of its existence.

—Havelock Council will take a vote at the next municipal elections on the advisability of buying 62 3-4 acres of land from Mr. Mathison for $2,200 to be used for park purposes. In the meantime the grounds will be leased for $100 per year.

—Dr. Ambrose Stanton, son of Mr. Thos. Stanton, Pontypool, has been again favored with good fortune. having been elected Senior House Surgeon to St. Patrick Manson, at Greenwich Hospital, which is one of the most sought after posts in London, Eng.

When you want a one-time Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrogragtic Work. Studio, 194 Brock street, Peterborough.

SOCIAL AND PERSONAL
SOCIETY EVENTS OF INTEREST

—Dr. W. T. Grenfell is the guest of Mrs. C. B. McAllister.

—Mr. and Mrs. Roland Johnston, of Lakefield, were in town yesterday.

—Ald. Hicks left yesterday for McLean township on a business trip.

—Mrs. Varley, Kew Beach, is the guest of Mrs. P. O. Elliot, McDonnel street.

—Mrs. Wright, of Kew Beach, is the guest of her sister, Mrs. Moore, Rubidge street.

—Rev. R. B. Nelles, of Port Hope, was in town yesterday and gave The Times a friendly call.

—Miss Eileen Farr, of Peterborough, spent Sunday a guest of her aunts, the Misses Farr.—Millbrook Reporter.

—Miss Beatrice Montgomery, of Peterborough, who has been the guest of the Misses Bryans since Easter, returns on Monday.—Havelock Standard.

—Mrs. J. H. Brandon, Mrs. (Rev.) Sinclair and Miss McArthur, Fenelon Falls, who have been attending the convention, the guests of Mrs. W. H. Robertson, at "The Locusts," returned home yesterday.

—Mr. Richard Purser, who has been a guest at the Munro House, left yesterday for South River, where he is engaged with a large lumber company. "Dick" looks nearly as young as he did when he pounded the drum in the old 57th Band, 30 years ago.

MOVE IS NOT POPULAR

A Proposal to Reduce the Governor-General's Foot Guards

Ottawa, May 6.—The Department of Militia is considering the advisability of reducing the Governor-General's Foot Guards from eight companies to four. The proposal is not popular among the officers, but it is said to be almost necessary in consequence of the difficulty in keeping up the strength. The Governor-General's Foot Guards Regiment was organized June, 1872, thirty-three years ago, and has an authorized establishment of 31 officers, 60 noncoms. and 280 privates; with instrumentalists a total of all ranks of 418. The regiment is commanded by Lt.-Col Roper and is one of the best known in Canada.

HE BROKE HIS NECK

Man Falls Down Stairs While Helping Family to Move

Montreal, May 5.—Francois Ricard, 60 years of age, was killed last night as the result of a moving accident. Ricard was helping the family of Mrs. Roolom, with whom he was boarding, to move into new quarters, at 98 Eleanor street, when he missed his footing and fell head first down a winding stairs, leading from the second to the third floor. When he was picked up it was thought that he was only stunned, and an ambulance was called from the Notre Dame Hospital, but when it arrived the physician, who accompanied it, said that Richard's neck was broken, and death must have been instaneous. The body was sent to the morgue.

MISS JUNKIN MARRIED

Pretty Wedding of Young Lady Well Known in Peterborough

The many friends of both Mr. Robt. Junkin, for years agent for the Manufacturers' Life Company, here, and of his sister, Miss Hattie R., will read with interest an account given by the Toronto Star of the latter's recent wedding;

At the home of the bride's parents there was celebrated this afternoon the marriage of Miss Hattie Roberta Junkin, daughter of Mr. and Mrs. Robert Junkin, assistant manager of the Manufacturers' Life Association, and Mr. Jack Offitt, of the firm of Ballie Bros. The bride was dressed in white silk crepe de Chine, over white silk, with bertha of duchess lace, with veil and orange blossoms, and carried a shower bouquet of roses.

The bridesmaid, Miss Emma Junkin, sister of the bride, wore a flowered chiffon organdie and carried a bouquet of sweet peas. The two little twin sisters of the bride, Miss Jessie and Miss Freda, acted as attendants and were dressed in white batiste, trimmed with valenciennes lace. Mr. Frank Wood was best man, and the ceremony was performed by the Rev. James Rankin of the Central Methodist church.

The bride's mother was gowned in black silk with garniture of black lace.

One unusual feature of the happy event was its being on the twenty-third anniversary of the marriage of the bride's parents, and there were present the bridesmaid and best man of that occasion, Mrs. M. C. Ellis and Mr. J. F. Junkin. The bride's going-away gown was a very handsome costume of brown broadcloth, with hat to match.

THE TRIUMPHS OF PE-RU-NA INCREASE.

Thousands of Unpublished Testimonials on File.

Thousands of Chronic Ailments of Women Cured Every Month.

Disguised Internal Catarrh the Enemy of Women.

Miss Della Stroebe, Rural Route No. 1, Appleton, Wis., writes: "For several years I was in a run-down condition, and I could find no relief from doctors nor medicines.

"I could not enjoy my meals and could not sleep at night. I had heavy dark circles about the eyes.

"My friends were much alarmed. I was advised to give Peruna a trial and to my joy I began to improve with the first bottle. After taking six bottles I felt completely cured. I cannot say too much for Peruna as a medicine for women in a run-down condition.—Della Stroebe.

MISS DELLA STROEBE,
Rural Route No 1, APPLETON WIS

Pe-ru-na, the Only Internal Systemic Catarrh Remedy Yet Devised.

Prominent Cases In Illustration.

Mrs. W. F. Hoffman, 601 North 6th street, Kansas City, Kans., writes: "For eight months I suffered with bearing down pains, dizziness, and wretched headaches. The doctors called it by different names, but all agreed that I had female trouble, which was really the cause of my illness.

"They prescribed for me, and I took their medicines, but kept getting worse, until a friend told me I would never get well until I took Peruna.

"Within a week after I started to take it I felt much better and I continued taking it for two months with almost marvelous results.

"I am without an ache or pain, feel ten years younger, and feel that I owe my life and happiness to Peruna.—Mrs. F. Hoffman.

MRS E. M. MERALD,

MRS. W. F. HOFFMAN,
601 North 6th St., KANSAS CITY, KANS.

Mrs. E. M. Merald, 128 W. 28th St., Indianapolis, Ind., member of A. D. Streight Circle of the Ladies of the G. A. R., writes: "I am to-day enjoying perfect health, thanks to Peruna. For nearly four years I suffered with ovarian troubles.

"The doctor insisted on an operation as the only chance to get well, but I had always dreaded an operation and strongly objected.

"My husband felt disheartened as well as I, and when a friendly druggist advised him to bring me a bottle of Peruna he did so, and I started to use it.

"In a short time my health began to increase, and my aches and pains diminished. Within eighteen weeks I was like another being, in splendid health.

"Words fail me when I try to tell you how glad and grateful I am."—E. M. Merald.

MRS. M. BRICKNER,
99 11th St., MILWAUKEE, WIS

Mrs. M. Brickner, 99 11th street, Milwaukee, Wis., writes: "I have strong faith in the efficacy of Peruna to cure the ills peculiar to women. A short time ago I found my condition very serious.

"I had headaches, pains in the back and frequent dizzy spells, which grew worse every month.

"I tried two remedies before Peruna, and was pretty discouraged when I took the first dose; but my courage soon returned as I could see that I was being benefited, and in less than two months my health was restored."—M. Brickner.

THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription."

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. L. Douglas, of Mooresville, Brome Co., Quebec. "During the first four months when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink anything. I heard of 'Favorite Prescription' and got a bottle of Golden Medical Discovery.' I got a bottle of each, and when I had taken about a few days, I felt much better, and when I had taken hardly three parts of each bottle, I felt well and could eat as well as any one, and could do my work without any trouble (I could not do anything before). I feel very thankful to Dr. Pierce for his medicine, and I tell all who talk me they are sick, to get these medicines, or write to Dr. Pierce."

These who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Oyama Ready to Fight Threatens Russ Left.

Linevitch May Soon Have to Defend His Record ---Japanese Heavy Columns Concentrate on Liao River---General Battle Impending.

Fenghuahsheng (or Muimaikai), Manchuria, May 7.—Field Marshall Oyama seems to be ready to assume the offensive on a large scale, and certainly has already compelled Linevitch's left. This may be the prelude to another general battle.

The Japanese have concentrated heavy columns on the Liao River and their advanced divisions have been in contact with the Russians who are holding the main road from Fukoman to Bashienchen.

On Thursday the Japanese cavalry suddenly attacked the Cossacks in overwhelming force, forcing the latter to retire. Then, supported by infantry, the Japanese advanced and drive the Russian infantry out of the village of Palitoun.

A Russian reconnitring party twent miles further west ran into an ambush, and all the party exept five were killed.

Fenghuahsheng is about half way between Tie Pass and Harbin.

The Mayor Justified.

Mayor H. Best Acts in Consistency with His Duties to the Town and His Outspoken Opinions, Throughout.

We notice that our local contemporaries on Thursday evening were very severe with the action taken by Mayor Best, in opposing the city manufacturing clause of the by-law now before the Private Bills Committee of the Ontario Legislature. With all due deference to the sentiments expressed by our esteemed local contemporaries, we cannot but think, with the exception of an empty matter of form neglected or forgotten by Mayor Best, at the meeting, the evening before he went to Toronto, that his action in the matter was perfectly consistent, not only with his publicly made and oft repeated sentiments on the subject of making Peterborough a bed-house town city, but with his duties to the town that appointed him Mayor, and to his private rights as a man.

Ever since the inception, in the minds of some of our councillors, of the making Peterborough a city by the forcing growth plan evolved out of act of Parliament, Mayor Best has openly and in plain language opposed the idea in Council and out of it. If he did make any error or omission, it was not going through the form of telling the Council, at the meeting preceding his visit to Toronto, that he would act in Toronto as he did, in this matter and had acted in Peterborough. Those who were present at that meeting, in the Council Chamber, either members of the Council or not, knew Mr. Best too well, and have had him on trial, as Mayor and councillor, too many years, to suspect, for one moment, that he would be a chameleon and turn his colors in 24 hours. To charge that Mr. Best went as spokesman for the Council is absurd; the Town Solicitor was, and is their mouthpiece in such matters. Mr. Best is elected to his office by the town, and for the town's interests, and if the mayor did, as was actually the case, pay his trip to Toronto out of his own pocket, he acted as he considered, and as a public vote on the city question would show, the people of Peterborough would act on this question.

When Mayor Best appeared before the Private Bills Committee, our member, Mr. T. E. Bradburn, made a suggestion to Mr. Morrison, a member of the committee, that the Mayor be heard on the subject. Mr. Morrison moved to this effect, and the chairman called upon Mr. Best. Mr. Best then had to choose between doing what he considered, and we think rightly, was expressing a majority of public sentiment or stultifying his whole action in the Council.

Whilst Mayor Best is too well able to defend his own course of procedure, and his past history in municipal matters has stamped him too decidedly as a man of honest intention, to require outside aid, we think it unfair to find fault with an official when he devotes time, money and energy towards what he considers right for his constituents' interests.

Yesterday a representative of this journal spent an hour trying to fathom the sentiments of such of our citizens as could easily and quickly be reached, to find their opinion on the matter on hand with the result that seven leading merchants on George street, complied with his request but asked that their names be withheld, as they did not wish to enter public controversy. In the case of these seven, five disapproved of making this town a city until its growth justified it, and were vehement in approval of Mayor Best's action; one was against the city formation idea, but thought Mr. Best did not act fairly to the Council, and one approved of our becoming a city at once, and thought Mr. Best was very wrong in opposing the bill. In the cases of the rest visited by the Times' man, as no request was made for suppression of their names, and our object was clearly explained, as it was in every case, we venture to publish the gist of their opinions as follows.

As it was about noon hour that The Times interviewed those whose opinions are noted, we unfortunately found some of the merchants out, thus the seeming shortage of our list.

Mr. R. A. Dutton

Thinks that the town should wait until its population justifies this being made a city, and thinks, as Mayor Best has always openly opposed the city abuse, he was consistent in his action and quite justified.

Mr. Martin McFadden

Thinks that Peterborough, trying to become a city prematurely, is like a small boy in knee-breeches crying for long pants before they will become him. Thinks the Mayor's action consistent with his whole course, not only in this matter, but in everything, where he has always looked after town interests and not led by the nose by Councillors or any one esle.

Mr. Geo. Schneider

The town should grow to a city and that Mayor Best "was not far astray in his Toronto action."

Mr. A. W. Cressman

Wants a city at once and strongly opposes the action of the Mayor.

Mr. R. Fair,

Would not like to do anything that would hurt the towns' progress, but thinks that when Peterborough is spoken of abroad as the best town in Canada it carries more weight than when a small city like Guelph or Woodstock is spoken of. Thinks Mayor Best was right in his action. He thinks the Council arrogate too much to themselves, and that that helped to defeat the fire bylaw. He does not like to see so much money go out of town, to Toronto, as a city would necessitate from license holders' increased fees.

Mr. Frank Bell,

That the town should grow into a city, not be legislated into it. Thinks that if the Mayor paid his way he had a right to express his opinion.

Mr. Rollie Denne,

Thinks it uncard to make a city out of a town that has neither population sufficient, a city hall, or other things usual in a city. Thinks Mayor Best justified in expressing his opinion when he paid his own way up, but that he would have been wise to notify the Council of what he was going to do. Thinks if a public vote were taken there would be a two-thirds majority against the city by legislation.

Mr. McF. Wilson,

Thinks it is right to go ahead with the city, and that Mayor Best should have told the Council he was going to oppose the clause.

Mr. V. Eastwood

Against the city until population warrants it. Is glad the Mayor took the position he did, as it showed courage of his convictions and honesty of purpose.

Mr. J. W. Butcher

Thinks that Mr. Best has been consistent all through, and if he went up at his own private expense, and considered he spoke for the town, he was right.

Mr. P. Connal

Says the town should grow into a city. When asked was the Mayor right in his action, answered "No doubt of it!"

Mr. Alex. Gibson,

Mr. Best was quite right. Better to remain a town until it grows into a city.

Mr. J. White,

We are all right as a town, and Mayor Best was consistent in his course from start to finish.

Mr. James Dolan

Thinks that Mayor Best acted as he did, rightly; that if a vote were taken on the city-making-law that a large majority of public opinion would be against making Peterborough a city.

Mr. M. L. Henry

Thinks that a good town is better than a half sized city. Thinks that Mayor Best was quite justified in his action. When he was on the road nine years ago, used to hear Peterborough spoken of as "The best town in Canada," whilst small cities like Guelph, Belleville and Kingston were sneered at.

THE INFLUX OF RUSSIAN JEWS

Baron de Hirsch Institute and the Scope of its Work

STATEMENT BY SECRETARY

Claims Organization Never Aids Immigrants to get Over into United States

Montreal, May 8.—Mr. A. M. Vineberg, the honorary secretary of the Baron de Hirsch Institute, in discussing the matter of the reception and disposal of Russian Jews coming to this country as immigrants, in an interview with The Star today, said:

"Our institution aids and assists immigrants to Canada, only those who desire to make Canada their future home and to become Canadian citizens. If, little by little they disappear, it is not because their whereabouts are unknown, but because the institute had obtained employment for them in different parts of Canada, or the institute had sent them to its Colonies in the North-West.

"It may occasionally happen that an immigrant has relatives in the United States, sometimes even his parents or brothers, and these naturally desire to become united with the other members of the family, but the institute never in any way assists them to evade the United States regulations.

"In the Fraleysburg case application was made to us for farm hands to work in Canada. That they were drafted to the other side was entirely without our knowledge and consent, and we presume the men themselves did not know they had been taken across the border. It entailed considerable cost to our society to bring them back to Montreal to pay their fares to other places.

"The representative of the United States Immigration Department here, came to the institute and we at once allowed him to see the correspondence, when the official left perfectly satisfied with our action in the matter.

"We think that we are entitled to make this explanation on behalf of a philanthropic institution which does so much to assist the persecuted residents of Russia and Roumania to settle in our free country, and to become useful, loyal and law-abiding Canadians. One great principle we always maintain, that our immigrants shall never in any way become a charge upon the country."

Obituary.

Particulars received of the death of Miss Annie May Ritchie, daughter of Mr. and Mrs George Ritchie, 256 McDonnell street, are to the effect that the young lady died very suddenly in Buffalo, on Thursday, of an acute attack of inflammation of the kidneys. She had just recovered from an attack of la grippe which left her very weak. She had never enjoyed very robust health, and the news of her death came as a shock to her many friends here. The funeral will take place this afternoon from the family residence, at three o'clock Mr. Ritchie who has been working for the Turner Lumber Company, near Blind River, Ont., will reach Peterborough this afternoon to attend the funeral.

MAXIMUM PRICE FOR GAS

Albany, N. Y., May 6. — Including the State commission measure all of the bills of the Stevens special gas investigation committee were passed by the Assembly yesterday without amendment, and with little or no opposition. The vote on the bill reducing the price of electric lighting current from 15 cents to 10 cents per kilowatt hour was unanimous, while but one vote was cast against the gas bill fixing the maximum price at 75 cents per thousand cubic feet.

FIRE HALL BY-LAW EXPLANATIONS.

Some More Opinions on the Result of the Fire-Hall By-Law Defeat.

Discussing the result of the vote on the Fire Hall By-law Ald. Adams expressed regret that the town was not to have better equipment. The Council could now only devote attention to the present hall. The people he thought had lost confidence in the Council, and this was his explanation of the vote.

Ald. Hicks, who left on Thursday for Methuen, expressed himself as surprised at the result of the vote. He had worked hard for the by-law, and says that while those who were opposed came out and voted, those in favor, were indifferent.

Chief Rutherford said on Saturday that he was very much disappointed at the vote and was sorry that the public had not manifested a greater interest in the by-law.

It would have placed, if carried, the department here on a thoroughly up-to-date basis and in his opinion a mistake had been made in defeating the measure. The present engine is thirty-four years old and couldd not be depended upon in case of emergency. He had worked hard for the passing of the by-law and was very much disappointed at the result.

GREGORY WANTED

A Horse Dealer Known in Peterborough Badly Wanted

There is a warrant out in Toronto for the arrest of Bertie F. Gregory a horse buyer on a small scale who has occasionally visited Peterborough in late years.

The special charge which places Gregory within the limits of the criminal code is the defrauding of George D. Swan of Stockbridge, Mass., of $2,000. Swan had been living in Costa Rica and saw an advertisement in the Field which attracted his attention. A man wanted a partner to join him in raising polo ponies, splendid opportunities, etc. B. F. Gregory was the man who was looking for partners. Swan went up against the advertisement and Gregory landed him for $2,000 on the strength of the letters he wrote.

Swan came to Toronto on Thursday of last week and was met at the depot by Gregory. Swan says that when he was met by Gregory his heart sank and he realized he had been done. He thought the matter over and concluded the easiest way out of his "ruralship" was the best way. He chummed around with Gregory and finally got a bill of sale out of him on some horses and other things. Unfortunately for Swan there was a chattel mortgage on this stuff, held by Mrs. Harper, of 33 Major street, who it is claimed, has advanced Gregory money on various occasions.

NEWS OF RAILROADS

Legislation in America Against Railways May Intimidate British Investors

OFFICIALS EXPRESS FEAR

Address Delivered by Mr. Hays on Transportation Has Strong Significance

In an address delivered Saturday night by Mr. C. M. Hays, second vice-president and general manager of the Grand Trunk, and president of the Grand Trunk Pacific Railroad, he spoke of the future of railroads in Canada, and said that legislation should not be framed which would take from the railways the privilege of earning fair returns on the vast sums of money invested in them. He also remarked that: "We must look to England for our additional facilities. Investors in Great Britain must view railroad possibilities in Canada with favor if we are to get further aid for the construction of new roads and branches."

It has since been learned that Mr. Hays implied more than even his words indicated in regard to the question of legislation affecting railways. Certain capitalists in Great Britain are becoming intimidated, it is understood, at the vigorous policy of the Interstate Commerce Commission in the United States, and by the legislation enacted in the Dominion for the lowering of rates and the raising of taxes on railroads. They are hesitating to invest money in proposed new roads in Canada, because they fear such legislation will prevent them from realizing profits on their money.

Mr. Hays states that "railroads, like all other commercial enterprises, must be allowed, in all countries, the privilege of earning a reasonable return on the money invested in them," and in this statement two thoughts were involved, according to what was learned yesterday at the head office of the company. An official, speaking of the matter, said:

"The Government of Ontario increased the taxation of the Grand Trunk in that province by $80,000 last year. The Railway Commission is lowering the company's rates in some instances. We think the commission is discharging its functions in the most capable and fair manner. We have no criticism whatever to offer, although we may not agree with the commissioners in all their findings regarding rates, but the point of the whole matter is: If legislation is passed increasing the taxation of railroads, and the rates are lowered so that the profits to be made are to be reduced to a small margin, the investors in England will hesitate to put their money in any new railway projects in the country. The bond issue for the Grand Trunk Pacific was over-subscribed, it is true, but branch lines will be built and new roads will be projected, if the railways are legislated against in too stringent a manner, the mind of the British public may be intimidated so that fair prices for future securities may not be easily obtainable.

It was also remarked that certain investors in England were looking with apprehension on the actions of the Interstate Commerce Commission, and have expressed a fear that the Railway Commission in Canada may also endeavor to practically control rates.

Mr. Hays said he would leave the subject to the consideration of all Canadians who take an interest in national affairs, for care had to be taken to so enact laws that the good will of the railway corporations, which gave a country great transportation facilities, and the good will also of investors, in order that additional capital may be obtained in the British market when required.

DR GRENFELL DINED

Dinner Party Given in Honor of the Labrador Philanthropist by Mr. Hughes Charles.

On conclusion of the excellent lecture given on Friday night by Dr. W. T. Grenfell, a detailed report of which appeared in our Saturday's issue, the Labrador philanthropist was entertained at a dinner party by Mr. and Mrs. D. Hughes-Charles. There were present Dr. and Mrs. Halliday, Rev. J. C. and Mrs. Davidson, Mr. and Mrs. P. Campbell, Mr. and Mrs. K. Eardley-Wilmot, Mrs. Wood, Mr. R. M. Denniston, Rev. E. A. Langfeldt, Rev. Dr. Torrance, Rev. J. G. Potter, Miss Archer, Miss Hatton, Mr. and Mrs. C. B. McAllister, Mr. J. H. Burnham, Mr. R. B. Rogers and Dr. J. M. McCulloch. Dr. Grenfell, who Saturday morning left for Ottawa, was the guest of Mr. and Mrs. C. B. McAllister during his brief stay in town.

Those who had the pleasure of meeting the doctor in social chat, describe him as a most entertaining conversationalist, full of anecdote and quick in repartee.

—The employes of the firm of Messrs. John Finlay & Son, Norwood, were thrown out of work on Thursday owing to the fly wheel breaking, which necessitated the closing down of the factory for repairs.

BURLEIGH WEDDING.

Miss Nellie McIlmoyl Married to Mr. Nelson McIlmoyl.

A very pleasant event took place on Wednesday last at the residence of Mr. and Mrs Thomas McIlmoyl, Burleigh, when their youngest daughter, Nellie, was united in marriage to Mr. Nelson McIlmoyl, of Smith. The ceremony was performed by Rev. T. W. Leggott, of Lakefield. To the strains of the wedding march played by Mrs. Wm. Lane, the bride, attired in white organdie trimmed with valenciennes lace, entered the room on the arm of her father. The bride was assisted by her sister, Miss Edna McIlmoyl who was also dressed in white, while Miss Ruby Hales, neice of the bride, made a pretty little maid of honor. Mr. Walter Hales acted as groomsman. After the wedding supper the happy couple drove to their future residence in Smith. They have the best wishes of a large number of friends for many years of happiness and prosperity.

CLERKS LOAD A SHIP

Acting Colonial Secretary of Bermuda Acts as 'Longshoreman

Bermuda, May 8.—The steamship Carribee is delayed in sailing for New York owing to the strike of the dock laborers. She is being loaded slowly by clerks from the business house, the acting colonial secretary and others assisting in loading. The troops at Prospect barracks are under arms in case of emergency, but at present the strikers are quiet.

THE LANCASTER TRAGEDY

Gardiner, Who is Under Arrest, Known in Maritime Provinces

Moncton, N.B., May 8.—An Ontario detective has been here making enquiries into the antecedents of Gardiner, under arrest at Lancaster in connection with the attempted bank robbery. He learned that Gardiner had worked in Robb's machine shop at Amherst last winter, and also in the Rhodes, Currie car works as painter's apprentice, and had left in February in company with another man for Montreal, saying they intended getting work with the Grand Trunk. It was learned that he was the son of a Baptist minister in Prince Edward Island, but had not worked at pipe fitting in Amherst as he stated.

T.A.S. LADIES' LIT.

Closing Meeting of Ladies' Literary Society of St. Peter's T.A.S.

The Ladies Literary Association of St. Peter's T.A.S., held its closing meeting on Friday evening when a splendid program was presented, and Miss O'Connell, president of the Ladies' Literary, read a report of the work for the season ending May 5th, 1905.

Miss Vivian Donoghue occupied the chair, during the evening and the following program assisted in making a delightful evening's entertainment.

Instrumental Solo — Miss Nora Coughlin.

Vocal duet—Misses Frankie Donoghue and Louise Potvin.

Recitation—Master Percy Young.

Miss O'Connell's report was a most satisfactory one and contained unqualified praise for the committee in charge. During the short space of time two hundred and ninety-five membership tickets were disposed of and the returns $147.50 from the sale of tickets made to the treasurer.

The association has contributed $211.50 towards the T.A.S. this season. Thankful sentiments towards Rev. O'Brien for his valuable assistance were freely expressed.

FARMER SHOT TO DEATH

Masked Robbers Force Wife to Give Signal for Husband's Death

Parkersburg, W. Va., May 8.—A posse of officers, accompanied by a large number of infuriated residents are searching Calhoun County for three masked robbers who, at an early hour yesterday morning, shot to death Charles Berkshire, a farmer, living near Brookaville, after inhumanly torturing his wife.

The family was aroused shortly after midnight by the robbers who, after binding the wife, led the husband to the centre of the room and ordered Mrs. Berkshire to count ten, threatening that if her husband did not tell them where his money was by the tenth count, they would kill him.

The couple insisted that they had no money but the robbers pinched and beat the woman and applied burning matches to her feet. Screaming in agony, Mrs. Berkshire finally consented to count ten and on the tenth count a shot rang out and her husband fell dead. The robbers fled. It was hours afterwards when neighbors found the woman in such a pitiable state of collapse that it is feared she will die.

LEG AMPUTATED

Mr. John Deyell, Reeve of Otonabee, Has His Leg Cut Off.

The many friends of Mr. John Deyell, county councillor for the Otonabee Division, and reeve of that township for twelve years, will regret exceedingly to learn that Saturday Doctors Houelter, Greer and Eastwood, after consultation, decided to amputate his left leg.

Mr. Deyell has been suffering for some time, and recently gangrene let it, and several of his toes were amputated in the hope of checking the progress of the disease, but it was found necessary to take off the leg.

Mr. Deyell is one of the most popular of the Peterborough county representatives, and his many friends hope that his recovery will be speedy.

Tarte Again in Cabinet

Will be Without Portfolio, But Knowing Ones Predict That It Means Early Retirement of Hon. Mr. Prefontaine and the Filling of His Shoes.

Ottawa, May 8.—Hon. J. Israel Tarte is again to have a seat in Parliament. Your correspondent is able to state from apparently authoritative sources that the ex-minister of public works is again to enter the Cabinet as minister without portfolio, and will sit for Levis, the constituency rendered vacant by the death of L. Demers.

The chief opposition to the inclusion of Mr. Tarte in the ministry, even in a comparatively subordinate position, is said to be coming from Hon. Raimond Prefontaine. The two men have long been at daggers drawn and the downfall of the Tarte star, in the autumn of 1902, permitted the Prefontaine comet to be seen in the political heavens.

Mr. Prefontaine is admittedly jealous of the political experience and pull of the ex-minister of public works, and it was only by the persuasion of the Premier, it is said, that Mr. Prefontaine was kept from bolting when he heard of the intended taking into favor of his rival.

The observer of things political has noticed the remarkable change of front of Mr. Tarte, for a short time prior to and after the last general elections. He has been ever at the Premier's elbow and has literally haunted room 16. The strong friendship that has existed always between Sir Wilfrid and Mr. Tarte is proverbial, and the political plum is about to fall.

THE RUSH INTO CANADA

Evidence of How Minnesota is Sending Population to Canada

Montreal, May 8.—The General Passenger Department of the Grand Trunk Railway System are in receipt of a letter from one of the leading daily Norwegian newspapers in the State of Minnesota, in which it is stated that as an indication of the way in which emigrants are moving into Canada their paper is now reaching 233 Canadian post offices, mostly in the North-West Provinces, as against 112 post offices a year ago, and practically none two years ago. The people served are Scandinavians, and subscribers of this particular paper, and it is an evidence that the Norwegians and Danes in the Western States are pulling up stakes and moving into Canada. The population of the State of Minnesota is 1,751,394, of which there are 568,835 Scandinavians, or almost one-third of the entire population. Of this number, 314,932 are Norwegians and Danes.

Police Court

OFFICIALS: Chief of Police, D.I. Reid; Magistrate, D.W. Dumble

At Saturday's police court there was little doing. Several complaints made by School Inspector Walker, and laid by Chief Reid, were aired by his Worship. In these cases the complaint was that the children named were under legal age for emancipation from their school duties, and that the children named had not been attending regularly.

As the holidays are so near and there were mitigating circumstances in most of the cases, his Worship took no action.

A lady appeared before the court who wanted her wayward daughter sent to a house of correction. It appears that the girl, just turned 16 years of age, was in domestic service. The mother charged that her daughter was very headstrong, would take a place and not only refuse to comply with her mistress' orders, but would leave suddenly without notice; that she was on the streets late at night, and that the girl had expressed her intention of running away to parts unknown.

His Worship told the unhappy mother that she herself was largely to blame for not properly discipling the girl when young. He also told the woman that the police would keep an eye on the girl, and if she was on the streets late at night, she would be placed in an institution where the dogs would not bite her, and keep her there till she learned to have some sense.

Friday at a session of the county police court at Lakefield, County Police Magistrate Edmison presiding, Benjamin Heard, of Young's Point, was charged with assaulting his wife on two separate occasions—once on April 15th, and again on April 23rd. He was adjudged guilty on both charges and for the first offence a fine of $5 and costs was imposed, and for the second a fine of $10 and costs.

The latter fine was paid by a relative, but the other fine is yet to be met.

TO-MORROW'S COM. MEETING.

A Hot Time Anticipated re Alleged Fire Brigade Irregularities

A meeting of the Fire, Water and Light Committee is called for to-morrow evening, when it is understood a deputation from the fire brigade will be present to ascertain from the committee the nature of the alleged irregularities in connection with the department.

The members of the brigade are indignant over the reports of misconduct in connection with that body, and it is altogether likely that Tuesday evening's meeting will be an important one.

It is now up to those who have, it seems, made charges against members of the brigade to stand to their guns like men or henceforth don't criticise a man openly when you are not prepared to substantiate your charges. The brigade whether deserving of criticism or not, stands in too close connection with, and in too essential need by, the community to allow irregularities to exist, if they do exist, without a full inspection by microscopic analysis of conduct by those dependent upon their aid.

—The new pastor of the McNab street, Presbyterian church, Hamilton, Rev. Hugh B. A. Ketchen, formerly assistant pastor of St. Paul's, was ordained and inducted on Thursday evening. Dr. Fletcher presided. Rev. D. R. Drummond preached the sermon. Rev. Dr. Lyle addressed the pastor, and Rev. J. W. McNamara, Nelson, the people.

TO MAKE HOMES as well as Bell rents. in a THE CANADI to

The Salvation Scheme to Send to Canada

TO ASK GOVERNMENT AID

To Give Financial Aid to Suitable Females Willing to Come out to Canada

Montreal, May 8.—Sound progress in the West depends on an increased number of a good class of women and girls, from among whom well-to-do farmers can choose wives for the establishment of homes. The Salvation Army, is evolving a scheme by which this and the domestic problems of the Dominion will be solved.

This is the substance of Brigadier Howell's views on immigration of women and girls into Canada, and he thinks that the Federal Government and possibly the Provincial Governments will be approached for financial help in this matter.

English girls and young women who would emigrate cannot do so through lack of sufficient money to pay for their transportation, and the financial help required is for the purpose of making advances which will be paid when the immigrants get employment.

A similar method has been in operation in the Salvation Army, and they have never lost any money through the dishonesty of those to whom assistance has been given.

WHAT THE BRIGADIER SAYS.

These are the Brigadier's views:

"If the Government would advance a portion of the passage money to a few thousand of these girls, I am sure there would be little difficulty in getting them to come out. The Army has helped a large number of both men and women in this way, and we have not lost any money in doing so. We have booking agents in Great Britain who learn what girls are suitable domestics before they book them and when these girls get into homes in Canada, they soon pay back the money advanced to them by the Army."

WILL BE HOME MAKERS.

"We receive more applications for domestic help, both male and female, than it is possible to fill, and in the West conditions are becoming such that sound progress there depends on an increased number of women and girls. I venture to say that the majority of girls who would come over and work in the North-West would have homes of their own in a short time after their arrival. There are scores of well-to-do farmers in the West who would be glad to take wives from among a good class of female immigrants. This argument has not been used in the British Isles, so far as I know, but if it were, it is quite probable more girls would be coming here than we now see. This is not a question that should be ignored. Homes must be established and what is the use of sending out thousands of men and boys to fill the West, if there are no women to create homes. For my part, I think some steps should be taken in the matter, and the Army as an organization is considering it now."

VERY SERIOUS ACCIDENT.

Mrs. Lorne Brooks Badly Injured by Falling on a Broken China Jug.

On Saturday morning, Mrs. Lorne Brooks, of Mark street, 5th Ward, nee Sarah McCann, sustained such a severe injury from a piece of broken china, penetrating her side, that, for some time, her condition was considered critical.

It appears that Mrs. Brooks was standing at the head of the stairs in her residence, holding a china jug in her hand; in some way she tripped and fell down stairs, breaking the jug in her fall. A sharp edged jagged piece of the broken china, upon which she fell, penetrated her side to a depth of two inches. On Saturday night she was still very low from the shock and loss of blood, but last night, we are pleased to say, she was reported as doing nicely, and her speedy recovery is confidently hoped for.

Said "Good-Bye" to His Family

Dying of Weakness—Given Up by Doctors as an Incurable and Hopeless Wreck

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 228 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the grippe.
"I was as weak as a child.
"I was no longer able to eat.
"My blood was thin. My cheeks were white and hollow.
"Doctor gave me all kinds of medicine, but none of them brought me strength.
"My friends said I was wasting away with some slow disease, and I bid them good-bye.
"Then I heard of the wonderful Ferrozone.
"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well today. I weigh fifteen pounds heavier than ever before, and feel like a new man.

Attorn (Signed) "H. A Thurston."
etc., etc. ret of growing strong is Ferrozone. It supplies vitalment. It brace you
And ir ples new energy, brings and fire of youth. 50c. per box, or six dealers in medicine, Hartford, Conn., U. on, Ont.

UNION LABEL

PETERBOROUGH, MAY 8 1905

THE CASH VALUE OF SOBRIETY

The Chicago & Alton Railroad Company, in rules recently issued for its employes, forbids men in its employ to visit saloons, race tracks, dance halls or any other resorts where liquor is sold or gambling permitted. The company makes no pretense of carrying on a moral crusade. It simply strives to live up to business principles which depend upon the competency and reliability of its men. Good men, it holds, depends upon steady habits, and both help to insure public safety.

"All the things which are prohibited," says General Passenger Agent Charlton, "either tend or might tend permanently or temporarily to impair a man's mental and physical powers."

This puts the question of temperance and steady habits upon a basis where even the most benighted morally can clearly understand it and see that there is but one practical side to it. With the value of reliability reduced to plain dollars and cents, even the dullest, who can't comprehend the simplest ethical principle, can easily grasp its meaning.

Lots of men can't be reasoned with through their heads at all, but must be appealed to through their stomachs. They must be taught, not by precept, but by starvation. The world owes more of its moral conduct and decency to hunger than most people suspect.

Time was in this country when its boundless natural resources offered unlimited employment to unskilled and irresponsible men. Then men might disable themselves by drink and unsteady habits, and still get on in a way. But times and conditions have changed marvelously.

Today competition is strong, and the fittest get to the front and the unfit fall to the rear. Big employers are forced to exercise great care in the selection of men for all grades of work above that of common labor. Success requires able and reliable employes, and drink is a disability. It is not a matter of sentiment. It is not a question of abstract morality. It is a matter of business.

PROGRESS IN THE TRANSVAAL

In a farewell speech at Pretoria the other day Lord Milner delivered a vigorous defence of his administration. He protested vehemently against the habit of perpetual fault-finding so common in the Transvaal, but had, he added, no personal grievance on this account. Often, indeed, complaints against his subordinates were accompanied by compliments to himself, but these he could not accept. With perfect sincerity he could say that he had been most loyally and ably served, and before the tribunal of posterity he and the administration officials would stand or fall together. What struck him most about his band of workers was the enormous mass of their achievement and the general solidity of their work. A great deal of it was rough and costly, but there had been no time for trimming. One always had to pay extra when going full steam ahead the whole time. When they took over the country it was, he said, a total wreck. Their task was to make it a going concern again as soon as possible. They could not stand fiddling over small economies while people starved. What had been accomplished? Profound peace reigned throughout the country. The statute book was no longer an unintelligible jumble, but had been reduced to reasonable proportions and orderly form. There was a steady and incorruptible administration of justice under the Supreme Court; and principal industry was returning to its old prosperity; new life had been infused into agriculture by the starting of experimental farms, the introduction of better stock and the planting of forests; they had municipal institutions as liberal as any in the world, and free schools containing twice as many children as had been educated in the state schools at any previous period. He then proceeded to enumerate the sums expended on railroads, high roads, schools, orphanages, hospitals, asylums, etc., amounting to many millions.

EDITORIAL COMMENT.

The Presbyterians have no place in Premier Whitney's Cabinet, but they console themselves with their recognition in other quarters. Admiral Togo is a member of the Presbyterian Church and Vice-Admiral Uriu is a Presbyterian elder. Field Marshal Oyama is an adherent of the Church and generous in its support, while his wife, a Vassar graduate, is a devout Christian worker. General Kuroki and General Oku are both members in full communion with the Presbyterian Church, as are others of Japan's leaders in the present struggle, in which the perseverance of the saints is finding illustration. Failing Ontario politics, the Shorter Catechism is coming to its own in the Orient.

REGIMENTAL NOTES

The following orders have been issued for guidance of the 57th Regiment:

Headquarters.
Peterborough, May 2, 1905.

Orders by Lieut.-Col. J. W. Miller, Commanding 57th Regiment, Peterborough Rangers.

No. 1.—Detail of duty for week ending May 9th, 1905:—Captain for the week, Capt. Clegg; next for duty, Capt Hounsell, Subaltern for the week, Lieut. Wilson; next for duty, Lieut. Clarke.

No. 2.—The following are taken on the strength of the regiment;—No. 2 Co.—May 2, 1905,—Ptes. T. J. Cole, W. Murray, D. Stone, G. Lightheart, No. 3 Co.—April 25th, 1905—Ptes. E. Moore N. Fowler, G. Newall, C. Stephens, H. J. Langton, H. Langton, R. Todd; May 2, 1905, J. Wiley, J. N. Graham, W. C. Garbutt, M. D. McGill, W. Harvey, W. Sadders. No. 5 Co.—May 2, 1905—Ptes. W. Hooper, E. White, J. Wright. No. 6—April 25, 1905—Ptes. J. Dundas, J. Brady, May 2, 1905, Ptes. W. Louska, N. Moore, R. Bowie, B. Carmichael, H. Rogers.

No. 3.—The regiment will parade at the armories at eight o'clock p.m., on Wednesday, May 3rd, 1905, for company and arm drill, when it is expected that the Inspector-General Lord Aylmer, will be present, to inform(?) inspect the regiment.

No. 4.—The Commanding Officer has been pleased to make the following promotions;—No. 1 Co., to be Sergeant, provisionally, Corporals F. Morrison and E. MacFarlane; No. 5 Co., to be Corporals, provisionally, Ptes. G. B. Jackson and A. Butzler; No. 6 Co., to be Sergeants, provisionally, Corporal Rogers, to be Corporals provisionally, Ptes. G. Greer, Hall, Watson, and Dundas. No. 7 Co., to be Color Sergeants, Sergeant, LeBar, Vice-Sergt. Craig, who reverts to rank of Sergeant, to be Corporals, provisionally Ptes. C. Gilbert, F. J. Forman, A. Chalmers, E. Elliott, H. B. Spencer and R. Walker.

A pleasing event took place Tuesday night when Col. Sergt. H. Hartley, of No. 6 Company, was presented by the officers, non-commissioned officers and men of the company, with a pipe on the eve of his departure from town for Cleveland, Ohio. The presentation was made by Lieut. Glover, on behalf of the company, and in making the presentation he expressed the deep regret which every member of the company felt at his departure. They joined in wishing him every success.

Mr. Hartley replied briefly, thanking his friends for the gift and for the words in which the presentation had been made. He regretted leaving the men of number eight company, and assured them that he would never forget his association with them.

Sergt. W. Cavanagh is his successor, as Col. Sergt., while Sergt. Poole has been transferred from staff to be Sergt. of No. 8 Company.

TRANSVAAL CONSTITUTION

Botha Declares That Principles of Justice Have Been Ignored

Pretoria, May 8.—Gen. Louis Botha, who was a noted soldier in the late war, has issued to the Boers a severe criticism of the new Transvaal constitution. He concludes by expressing the hope that it will be speedily changed, and that the British will realize that the prosperity of the Transvaal can only be advanced by trusting the people and maintaining the principles of justice and equity embodied in the British constitution, the essentials of which are ignored in the Transvaal constitution.

MARCONI

How Great Fortunes Grow

On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can pur hase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay-- Buy To-day.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

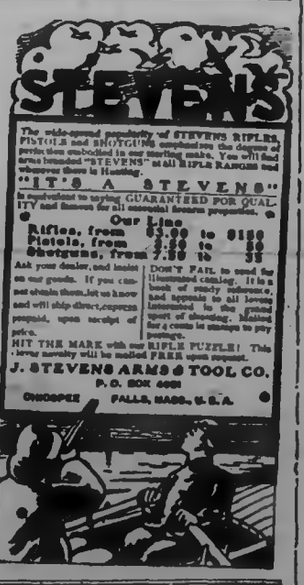
Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting also land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.



STEVENS

The wide-spread popularity of STEVENS RIFLES, PISTOLS and SHOTGUNS emphasizes the degree of merit these arms embodied in our sporting make. You will find arms branded "STEVENS" in all RIFLE RANGES and wherever there is Hunting.

"IT'S A STEVENS"

is equivalent to saying GUARANTEED FOR QUALITY and Famous for all essential features proposition.

Our Line
Rifles, from $3.00 to $100
Pistols, from 3.00 to 10
Shotguns, from 7.50 to 35

Ask your dealer, and insist on our goods. If you cannot obtain them, let us know and will ship direct, express prepaid, upon receipt of price.

DON'T FAIL to send for Illustrated catalog. It is a book of ready reference, and opposite to all lovers interested in the manly sport of shooting. Mailed for 4 cents in stamps to pay postage.

HIT THE MARK with our RIFLE PUZZLE! This clever novelty will be mailed FREE upon request.

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of work sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you find you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph,—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hope no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, ESK NO return of the disease. No experiment, no claim, but a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON — NO NAMES USED WITHOUT WRITTEN CONSENT. — W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Before Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety that especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the latest, I thought it best to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or be pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the sores in four weeks and in four months I was entirely cured. You, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

After Treatment

CURES GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

To Make a Fortune
The Ambitious Man's Dream

But did it ever occur to you to wake up and see if that dream can be made a reality.

Chas M. Schwab made $10,000,000 in the recent rise in stocks. He's not the only person allowed to take a pot of money out of stocks. Everybody in Montreal and all over the country made theirs. We mean at least everybody who was wise enough

To see a good thing and follow our advice when we told them to take profits and go short of the market

a few days ago all they had to do was to sell for a decline and make their profits over again

15 to 26 points profit in one move. All in a few days.

And when the proper time comes we will get everybody aboard for another turn. You should go in to double your money every day in a market like this.

The greatest market in record and it has only commenced

It makes no difference where you are situated.

The Montreal Stock Information Bureau

will look after your interests and give you the same chances to make the big profits as any successful speculator in the market.

Send $10 to-day for our daily letters of advice

For one month. And if you want to choose a responsible broker and trade for you send us your cheque for margin on not less than 10 shares. You can trade in 10 shares on a $30 margin. $50 is a fair margin on 10 shares. $250 is a fair margin on 50 shares

$250 can easily be made on a 10 point rise or decline in any stock by increasing the number of shares with the profit on previous trades.

Whether you buy for a rise or sell for a decline 1 point in the right direction is $10, and 10 points is $100. You can make 10 times that amount by following the fluctuations in prices.

Remember the more margin you deposit the safer is your trading

THE FLEETS WILL EFFECT JUNCTION

Looks as Though Russian Squadrons Will Get Together

NO NEWS FROM TOGO

The British Naval Officers at Hong Kong Have Little Faith in Russian Chances

Singapore, May 6. — Nebogatoff's Third Baltic squadron was passed this morning about 200 miles northwest of this port. The Kwala and the Jugrah also sighted the squadron steaming at about nine knots, not far from Penang. The junction with Rojestvensky will apparently be made without molestation by the Japanese. No vestige of information regarding Togo's movements or intention can be obtained.

IS COMMITTING SUICIDE.

Hong Kong, May 6.—Naval men here are strongly of opinion that the Baltic fleet is committing mere suicide in seeking to face Togo in the seas about Formosa. Others say the Japanese are indignant at the increased activity at Saigon, where stores are being landed daily on the beach and conveyed in freighters to the Russian ships along the coast.

A ST. PETERSBURG VIEW.

St. Petersburg, May 6.—Prominent statesmen here ridicule the idea that Rojestvensky does not mean business, and is only making a demonstration for the purpose of obtaining favorable terms. "Peace is a question of cash," said an official to a press correspondent. "The expenses of the fleet during its stay at Madagascar amounted to 30,000,000 roubles ($15,450,000). The other French ports where the fleet has stopped have also received a shower of Russian gold. This may help to explain their willingness to connive at breaches of neutrality. Russia's future is bound up with the fate of Rojestvensky's ships. The wheels of State are stopped; the armies in Manchuria have suspended operations and all await the result of the impending naval battle which will determine the course of history for Russia and Japan."

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One Hundred Dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 80,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

HE BROKE HIS NECK

Man Falls Down Stairs While Helping Family to Move

Montreal, May 5.—Francois Ricard, 60 years of age, was killed last night as the result of a moving accident. Ricard was helping the family of Mrs. Rochon, with whom he was boarding, to move into new quarters, at 93 Eleanor street, when he missed his footing and fell head first down a winding stairs, leading from the second to the third floor. When he was picked up it was thought that he was only stunned, and an ambulance was called from the Notre Dame Hospital, but when it arrived the physician, who accompanied it, said that Richard's neck was broken, and death must have been instaneous. The body was sent to the morgue.

MOVE IS NOT POPULAR

A Proposal to Reduce the Governor-General's Foot Guards

Ottawa, May 6.—The Department of Militia is considering the advisability of reducing the Governor-General's Foot Guards from eight companies to four. The proposal is not popular among the officers, but it is said to be almost necessary in consequence of the difficulty in keeping up the strength. The Governor-General's Foot Guards Regiment was organized June, 1872, thirty-three years ago, and has an authorized establishment of 31 officers, 60 noncoms, and 280 privates; with instrumentalists a total of all ranks of 418. The regiment is commanded by Lt.-Col. Roper and is one of the best known in Canada.

DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS.

SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary.
The Militia Council.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1860 to 1903 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4500 feet on Arapahoe dyke 22 feet wide	15.3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20.4
Klondyke Tunnel site claim	160.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost $15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $8,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1600 00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.
No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	5
Number of tons concentrated per day	5

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 5 tons mill ore of value of $12.00 allowing 10 per cent loss in saving	10.80
Net value after deducting expense of mining and milling per day	80.00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	120 000 00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 4 000 000 shares in treasury reserve fund which draws no dividend $120,000.00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$50 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage of ore develo through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Not Only Relief, but Lasting Cure

Is What You Get From Catarrhosone Which Eradicates Every Trace o Catarrh From the System.

Relief is a good thing, but we soon get tired of it and look for a remedy that will drive the seeds of Catarrh right out of the system. It is only a waste of time to trifle with internal dosing. You must treat Catarrh locally because it is a local disease.

The most sensible treatment is Catarrhosone which really does reach the diseased membranes in a most thorough way. Every case of catarrh can be cured if Catarrhosone is used. It unquestionably penetrates every air cell and air passage of the breathing organs. It completely destroys the catarrh germs and heals all the inflamed surfaces.

Every requirement of an ideal catarrh cure is embraced in Catarrhosone. Other treatments may have failed to even bring relief, but one trial is sufficient to prove merit in Catarrhosone not found in the ordinary snuff or wash that unscrupulous people sometimes recommend for catarrh.

If you are subject to colds, catarrh or throat trouble you will find quick relief and lasting cure in fragrant, healing Catarrhosone. Mrs E. P. Fairbanks, of Durham, was cured of chronic catarrh by this remedy and endorses it in the following letter, which speaks for itself;

"I suffered continually from catarrh which affected my throat. My nostrils were usually inflammed and I was greatly bothered with droppings in the throat which made me sick at my stomach. I had a bad taste in my breath, and felt a ringing in my ears. I read of Catarrhosone and commenced to use it. In a few days it helped me more than I ever expected. I used it four times daily and it two weeks most of the disagreeable symptoms disappeared. I continued the Catarrhosone treatment for six weeks and was perfectly cured. The catarrh has never returned."

Every complete outfit of Catarrhosone sufficient for two months' use is guaranteed to permanently cure; trial size 25c. Sold by druggists or by mail from N. C. Polson & Co. Hartford, Conn., U.S.A., or Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 76 Lansdowne street, or address Box 876, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

For Sale.

A good general delivery horse, quiet and reliable, price reasonable. Apply to P. V. Delaire, 268 London street.

Put That Spear Down Cellar.

The Department of Fisheries in Ontario have decided to grant no spearing privileges this year. This means no one will be allowed to spear suckers or any other fish this year and any one being found on any water with a spear is liable to a heavy fine.

Restaurant for Sale.

Fred E. Darey offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darey has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Rain Stops S. S. Picnic

On Saturday afternoon a picnic party that had been arranged to go by street car to Jackson Park by two teachers in St. John's church Sunday school, as a little treat to their scholars, was nipped in the bud, by the persistent downpour of rain. The little ones were hardly convinced that pleasure lies in anticipation, but a judicious mixture of promised fine weather next week, and hints of cakes and sweets galore, another day, worked miracles in changing long faces to smiles of content.

—Messrs. J. J. Turner & Sons have sold one dozen firemen's coats to the corporation of Campbellford.

Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

Rain Prevents Ball Game.

Toronto baseball players seem to strike wet weather here this season. Two clubs in one season, already prevented from playing by rain. This is hard luck for the local ball tossers who have to pay expenses without any gate receipts to recooup them. The fans should turn out well next game and help our boys out.

Chemong Cottagers Arriving.

Mr. Wolfe of Rochester has arrived in town with three large loads of furniture, which have been moved to his cottage at Chemong by McCollum Bros. Mr. Wolfe came over earlier this season than usual for the purpose of having his cottage painted and repaired. He will go back to Port Hope to-day to meet Mrs. Wolfe, after which they will remain at Chemong for the summer.

High School Examinations

Entrance examinations to High Schools will be held commencing on June 28th. The legal teaching days for 1905 are—Rural schools, 1st half year 122, 2nd half year 89; urban schools, 1st half year 122, 2nd half year 80. According to the circular sent out to teachers this year there will be no papers set for examination in any of the classes in literature, history, temperance and hygiene, nature study and writing.

Street Railway Park Rumor Denied

The rumor that has been current, round town recently, to the effect that the Street Railway Company had purchased or secured a plot of land in the vicinity of Jackson Park upon which they intended to conduct a pleasure park this season, was denied by the manager of the company on Saturday morning. He stated that while they had bought a small plot of ground at the end of the car line for a loop, no plans were in contemplation for a park.

Salvation Army Self-Denial.

The well known week of self-denial of the Salvation Army will be observed by that body from May 6th to 13th. Unusual activity has taken possession of the Army's energetic members in anticipation of this great event. The Army's beneficient operations are maintained purely by the free-will offerings of the people, the needs of its vast missionary labors among the heathen abroad and the down-fallen at home are chiefly met through the agency of self-denial.

Our Pleasure Park.

Mr. J. H. Ryan, the proprietor of the new park at the southern terminus of the street railway will hold the formal opening on May 24th, for which an elaborate program is being prepared. During the summer months there will be two performances daily—afternoon and evening. They will be held in a large tent with ample seating accommodation and an orchestra will furnish music. The resort will be known as "The Peterborough Pleasure Park." Mr. Ryan is now in town and is staying at the City Hotel.

Transferred to London.

Rev. E. B. Lanceley, Port Hope, who will return here to-morrow, has been transferred to the London Conference, where he has accepted a former charge. Many friends here deeply regret the removal of Rev. and Mrs. Lanceley from this district, where they have done faithful work, and made many friends outside as well as in their own congregation. Mrs. Lanceley is district organizer of the W.M.S. and is held in high esteem and regard throughout the district.

Young's Point Bridge.

In the Legislature on Friday Hon. Dr. Reaume informed Mr. Anderson, of East Peterborough, that the swing bridge across the Young's Point lock is in bad condition, and a sum has been placed in the estimates to repair it. The Government is considering the question of transferring the locks at Young's Point and the dams on the Trent Canal to the Dominion Government. It is not the intention of the Government to hand over to municipal council sums voted by the legislature for expenditure on roads where the township in which such moneys are to be expended has been organized into a municipality.

New Electric Suburban Connection.

There is afoot a project to connect twenty-four villages and towns with the city of Belleville, viz., Belleville, Cannington, Corbyville, Foxboro, Wallbridge, Frankford, Stockdale, Wooler, Newcombe Mills, Codrington, Norham, Warkworth, Roseneath, Alderville, Fenella, Harwood, Gore's Landing, Plainville, Hewdley, Baillieboro Centreville, Millbrook and Cavanville. The last place mentioned is on the C.P.R. about 15 miles west of Peterborough, and three or four miles north of Millbrook. The principal object in continuing from Millbrook to Cavanville would be for the purpose of getting C.P.R. connection which it is admitted is badly needed for Belleville.

Pencil Found

The Campbellford Herald says: Many of the school children will remember an accident which happened last November to Georgia Elcombe, a little seven-year-old daughter of Mr. E. W. Elcombe. The children were playing "crack the whip," when she fell, and a slate pencil which she held in her mouth, pierced her throat, and broke off, leaving a part of it concealed in the back of the neck. The little girl was unconscious for some time. Medical aid was secured, but no foreign substance could be located in the neck. Twice, since then, the child has suffered from abscesses. On Monday night last the little girl felt a choking sensation in her throat and putting her finger in her mouth, drew out a pencil one and three-quarter inches long. Instantly she felt relieved, and is now doing well. Mr. Elcombe is a former resident of Peterborough.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Dr. P. R. Johnston, Omeme, was in town Friday.

—Mr. W. J. Cairns of Lindsay, was in town Friday.

—Mrs. Allen of Moira, is the guest of friends in town.

—Mr. George McHugh is registered at the Snowden House.

—Mr. Isaac Richardson, of Millbrook, was in town on Saturday.

—Mr. T. W. McCamus of Baillieboro spent Saturday in town.

—Miss Maggie Hartnett, of Lindsay, was in town on Friday.

—Mr. E. M. Welsh, of Smith's Falls, was registered at the National on Saturday.

—Miss M. O'Malley, Victor, Colorado, was registered at the Oriental Saturday.

—Dr. H. P. H. Galloway, Toronto, was registered at the Snowden House on Saturday.

—Mr. W. Anderson, M.P.P., came down from Toronto Friday night to spend Sunday.

—Miss Roger's pupils will give a piano recital in the Conservatory of Music, May 13th.

—Messrs. T. M. Galbraith and Robert Gillies, of Port Hope, were in town on Saturday on business.

—Miss Ethel Caldwell, of Toronto, is visiting her sister, Mrs. F. J. Might, 603 Stewart street.

—Mrs. Thomas Sharpe and family, of Port Hope, have moved to Peterborough and will reside here.

—Miss M. Chambers, of The Times office staff, left Saturday night for a weeks visit with friends in Toronto.

—Mr. S. S. Moore, city editor of the Review, went to his home in St. Catharines on Saturday to spend a few days.

—Mr. George Tait, of Toronto, representing the Toronto Rubber and Gutta Percha Co., was in town on Saturday.

—The Millbrook Reporter says; Miss Eileen Farr, of Peterborough, spent Sunday a guest of her aunts, the Misses Farr.

—The Cobourg Sentinel-Star says; Mr. A. Bousfield has disposed of his store and dwelling and intends moving to Peterborough.

—Dr. McClelland leaves this morning for a few weeks' post graduate work at John Hopkin's University, Baltimore, giving special attention to surgery.

—Mr. T. W. Harper, who filled the position as junior on the staff of the Bank of Toronto here, has been transferred to Gananoque, to the branch of the bank there.

—We regret to state that Mrs. Thomas Hall, of Smith, sister-in-law of Mr. Adam Hall, is very seriously ill at her home. There is very little hope of her ultimate recovery.

—Miss Pearl Hamill and Miss Marjory Latimer, were in Toronto on Saturday, attending the annual convention of the Junior W.A., as delegates from All Saints W.A.

—Mrs. W. Lowe and Mrs. W. J. Gould, of Uxbridge, who have been the guests of Mrs. W. Kincaid, Stewart street, for the last few days, returned home on Friday.

—The Lindsay Post says; Mrs. A. M. Paton, town, is the guest of Mrs. J. R. Stratton, Peterborough. Messrs. A. Bradshaw, and George A. Nelson, of Peterborough, paid our town a business trip to-day.

—Mr. and Mrs. H. P. Kennedy have returned with their charming little son, Max, from Toronto, where they spent the winter, and have re-opened their handsome residence on Aylmer street.

—The engagement is announced of Miss Rose Edith, eldest daughter of Mr. and Mrs. John H. Neelands, Barrie, to Mr. J. Herbert Hunter, of Bracebridge. The marriage will take place early in June—Globe.

—Dr. T. H. Prust who went to Toronto early in the week to have an operation performed on his knee, writes that the operation was successful and that the trouble was not as serious as had first been feared.

—Mr. J. W. Hutchinson, the lessee of Idyl Wyld, was in town on Saturday making preparations to open this popular island summer resort for the season. He goes down this week by the steamer "Water Lily to get the house in readiness for guests.

—Mr. R. W. Grubbe, who was for years teller of the Toronto Bank here, but who some years ago, retired, has for the last few days, returned to the scenes and duties of his younger days, by helping the present staff of his old bank; the reason for this is that, owing to a change in the staff here, the Toronto Bank has been temporarily crippled.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Beginning on May 15th the Keene merchants will close their stores at 6 o'clock on Mondays, Wednesdays and Fridays.

—The sucker has made his appearance in the town creek, and the small boy can be seen hauling him up with avidity.

—The total assessment of the village of Stirling this year is over $250,000, a very large increase over that of last year.

—Another petition similar to that of a few days ago, and unfavorable to the town's incorporation as a city, was circulated on Saturday.

—The ladies of Peterborough support a cot in St. Anthony Hospital, Labrador, conducted by the Deep Sea Mission in the interests of which Dr. Grenfell lectured on Friday night.

—The county council has re-appointed for this year the caretakers for the bridges over the Otonabee river, the men who performed the duties last year.

—The annual meeting of the Peterborough District of the Bay of Quinte Conference of the Methodist Church will be held here on May 16th.

—Rev. W. R. Tandy, M.A., assistant rector of St. John's church, is confined to his bed with an illness which his friends hope will be of short duration.

—Rev. R. P. Nellis, of Port Hope, conducted a preparatory service in St. Andrew's church on Friday night. The sacrament of the Lord's Supper was dispensed Sunday morning.

—The Novel-ti Company have got their motor in position and working order, with belts attached to the sewing machines. It is likely that regular work will commence to-morrow or Wednesday.

—The John Burnham, residence property, in the Fifth Ward has been sold to Mr. C. B. McAllister's father-in-law. The purchaser, we understand will divide this large house into smaller houses and rent them separately. The property runs down to the river bank.

—The Lakefield News says; County Police Magistrate Edmison held court in the town hall on Thursday. Whitesides, of Peterborough, was charged with stealing $4 from John Larkin. He pleaded guilty and was fined $10 and costs, $5.80, to be paid by June 1st, or in default one month's imprisonment.

—Mr. John B. Williams, of Sherbrooke street, was the victim of a painful accident on last Wednesday while engaged at a machine at the C. G. E. Works, which rendered necessary the amputation of the fourth finger of the right hand. The operation was performed by Dr. Young.

When you want a fine-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The duel in the dark was a favorite with duelists. Two men were locked in a dark room and crawled stealthily from corner to corner, until some false step made one of them the target for bullet or blade.

Life is a duel in the dark with disease. One false step, one mistake, and the attack comes swift and sudden. The mistake which commonly opens the way for an attack by disease is neglect of the symptoms of stomach trouble. When eating is followed by undue fullness, belchings, sour or bitter risings, etc., disease is attacking the stomach.

The best way to frustrate such an attack is to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, and makes the body strong and healthy.

"I was suffering very much with my head and stomach," writes Mrs. W. C. Gill, of Weldon, Shelby Co., Ala., "head was so dizzy when I would raise up in bed would fall right back. Could eat but very little, in fact scarcely anything, there seemed to be a heavy weight in my stomach so I could not rest; I had to belch very often and would vomit up nearly everything I ate. I was in a bad condition. I took four bottles of Dr. Pierce's Golden Medical Discovery and five of his 'Favorite Prescription' and am now well and hearty. I feel like a new woman and give Dr. Pierce's medicines credit for it all. I had taken medicine from physicians without any benefit as I could see."

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 108 — PETERBOROUGH ONTARIO, TUESDAY MAY 9 1905. — PRICE TWO CENTS

THE GREAT SEA FIGHT A TEST

Theories of What Constitute Best Battleships may be Set at Rest.

London, May 9.—In the grand naval battle in the far East that the world has been expecting for three weeks, and which now seems to be sure to occur within a few days, the naval world will have its fair chance to judge the real efficiency of the battleship over the less powerful but faster and more versatile cruiser, and the dexterous torpedo-boat destroyer. That Vice-Admiral Rojestvensky's fleet, strengthened by Admiral Nebogatoff's squadron, now on the point of effecting a juncture with the main division, will be greatly superior in battleships to Admiral Togo's fleet, is conceded on all sides. Likewise, it is established that in fast, well-equipped cruisers and number and efficiency of smaller craft, Togo will have the advantage. A synopsis of the fighting strength of the two great fleets, together with a review of the careers of the two Admirals who will direct their movements in battle, afford a fair basis for comparison and conjecture.

The Japanese fleet, under Admirals Togo, Tewa and Kamimura, consists of the following;

BATTLESHIPS.

Name.	Years old.	Tons.	Speed.
Mikasa (flag)	5	15,200	18
Asahi	6	15,000	18
Shikishima	7	15,000	18

Idsumi...	22	3,000	18
Chiyoda...	15	2,439	19

About twenty torpedo-boat destroyers and about thirty-five torpedo boats are also at the disposal of Admiral Togo.

The Russian fleet to meet the Japanese sea power in the far East consists of the so-called Baltic fleet, three divisions of which are east of the Suez Canal, while a fourth is being equipped at Cronstadt.

The divisions on the way to the far East are the main fleet, under Rear Admirals Rojestvensky, Volkersam, and Enquist; the second squadron, commanded by Rear Admiral Nebogatoff, and the third squadron, under Rear Admiral Betrofsky.

Rear Admiral Rojestvensky's fleet consisted of the following vessels;

BATTLESHIPS.

TORPEDO CRAFT.

Destroyers — Blestyashtchy, Bezupretzatny, Bradovy, Bravi, Buestry, Buiny, Bodry, Revy, Porontsiteiny, Retivy, Reasiyi, Prosovliyy, Poslushny, Podvitsny.

Volunteer Cruisers—Yaroslav, Tamlov, Vladimir, Kieff, Voronez, Kion and Dnieper, (formerly the Petersburg and Smolensk.)

Transports and Colliers—The Kniaz Sortchakoff, Kifai, Jupiter, Merkar, and four and five more.

The hospital ship Orel.

The auxiliary vessel Tyrek.

ADMIRAL NEBOGATOFF'S SQUADRON.

Emperor Nicholas I. (battleship)—Admiral Ouchakoff, Admiral Senavine, Admiral Apraksin and Vladimir Monomachier.

Transports Xenia, Graf Troganoff, and Couronia, tug Sovria, German transport Orion, Dutch transport Heemskirk and Danish transport Cimbria.

REFUSE TO ARBITRATE

Local Printers Refuse to Submit Present Differences to Impartial Board of Arbitration

As most of our readers are aware, there exists at present in Peterborough, a misunderstanding between the printers employed by the local press, and their employers.

As this is a matter that at present simply concerns those directly interested, we would not, in fairness to both sides concerned, comment on the rights or wrongs of the demands made by the printers, as a simple statement of the conditions existing and a perusal of the actual facts, as given below, will enable the public to take an impartial view of matters. We would only state that the employers have made the following propositions, none of which have been looked on with any favor by the union, or at least not so much favor as to lead to acceptance. The employers offered—

1.—That a 10 per cent. increase be made to the minimum wage on the present scale, and that the eight hour day be abandoned.

2.—That the proposition of a 10 per cent. increase and the eight hour day, be decided by a board of three arbitrators, all local men. Decision to be final.

3.—That the 10 per cent. increase be paid and that the eight hour day be deferred until such time as Toronto gains an eight hour day. Toronto day, nine hours, for at least the next two years.

4.—That the present scale or paid until 1st September next, pending action by the parent, or International Union, looking to the placing of the date for an eight hour day, further in the future.

Each and all of these propositions have been rejected by the local Printers' Union.

That this labor trouble remains unsettled is distinctly traceable to the unfortunate fact that the Union is controlled by headquarters in a foreign country where Canadian affairs are neither understood nor fairly judged. We might venture an opinion, speaking generally and not in reference to any particular locality in Canada, that were this Union controlled by Canadians, for Canadians, that an amicable arrangement might more easily be attained, just to all involved.

ANOTHER WESTERN ROAD

"Soo" Line Will Push Second Branch Into Canada

Winnipeg, May 9.—Assiniboia will be enjoying important additional railway accommodations in the shape of a second "Soo" line branch within the year. The management has decided to push its Rhief River Falls branch, to be constructed this year, northward into Canadian territory.

The new branch will be a most valuable property. By this shrewd stroke the "Soo" Company intersects eight branches of the Great Northern, serving the richest districts in North Dakota, five of which branches run to the Canadian boundary. The "Soo" line, with a single big branch running east and west, and connecting the Winnipeg-St. Paul branch, expects to be able to divert a considerable percentage of the traffic handled by the Great Northern short branches.

To Make Pure

Biscuit, cake, rolls, muffins, dumplings, etc., a pure leavening-agent is indispensable.

While the Royal Baking Powder is reported absolutely pure and healthful, the official reports show most other baking powders, as well as the cream of tartar of the market depended upon by many housekeepers for raising biscuit and cake, to contain either alum, ammonia or sulphuric acid.

The Government Analyst of Ontario says:

"As a result of my investigation, I find the Royal Baking Powder far superior to the others. It is pure, contains none but wholesome ingredients, and is of greatest strength."

ROYAL BAKING POWDER CO., NEW YORK.

EX-ALDERMAN MUST PAY

Guelph City Wins Case--Involving an Expense Account

Guelph, May 9.—Judge Jamieson at noon today handed out judgment in the case of the City of Guelph v. ex-Ald. J. A. Scott. The defendant last year, when alderman, went with a deputation to Ottawa on municipal business. Before going he drew $225 out of the city treasury to pay expenses, and shortly after his return claims he paid $15 to the mayor for his expenses, and the balance of $40.45 to the treasurer. These payments ex-Mayor Hamilton and Treasurer Scroggie deny, and consequently the city brought suit. In his judgment Judge Jamieson finds that the ex-alderman failed to furnish sufficient proof, and that he must pay the amount claimed, with costs.

DISASTROUS FIRE AT BURLEIGH.

Burleigh Falls Hotel Completely Wiped Out by Fire on Sunday.

One of the most unfortunately timed fires that we have had in this district, of late, on Sunday, entirely destroyed the well known and popular Burleigh Falls Hotel.

About three o'clock Sunday afternoon, Mr. Thomas Darcy and his friends at the hotel noticed flames pouring from the roof of the main building. Fire fighting appliances, in such a remote locality were, of necessity, very limited, still vigorous efforts were made by a bucket brigade to control the conflagration. Unfortunately there was a stiff breeze blowing from the north, and to this is attributed, not only the impossibility of controlling the fire, but to it, is laid the cause of the trouble, it being thought the wind blew sparks from the rear kitchen chimney, the only place where there was any fire lighted that day, and that these sparks, alighting on the dry shingles, were favored by the brisk breeze into a fire.

As soon as Mr. Darcy and his assistants, found that the fire in the hotel was absolutely beyond their control, they turned attention to the large barn which contained many sleighs, buggies and other vehicles, besides horses and a large quantity of valuable furniture stored for safe keeping by cottagers.

Although several times the eaves and cornices of the barn caught fire, but by constant work and application of wet blankets, Mr. Darcy managed to save the barn and contents.

The hotel fire was a very fast and hot one, the wind that blew so strongly, making the long narrow corridors into so many bellows to fan the flames. As soon as the fire was discovered, immediately, before trying to fight it, Mr. Darcy rushed into the hotel to awaken a sleeping guest, who only just had time to get out safely.

Mrs. W. H. Darcy lost her valuable diamonds, jewellery and furs, in fact all the family living there lost their personal effects. The proprietor only had time to rush into the office, unlock the safe and get possession of his legal papers, money, etc.

All the post office supplies and effects together with the telephone were destroyed, as were the new gas and water works plants. Mr. Darcy's loss is estimated at between $10,000 and $12,000, only one-half insured; he however seems to have the right kind of pluck and faith in his location, as by early Monday morning, Mr. Darcy had lumber and supplies en route to Burleigh to rebuild a new hotel. The family and inmates of the hotel are temporarily located in one of the cottages. The Olympic Club were scheduled to go to Burleigh Falls on June 1st, and Mr. Darcy is going to have a pavilion hastily erected to provide for their requirements. As soon as Mr. Darcy saw that the barn was safe, he drove immediately to Lakefield, Sunday evening to procure cooking utensils and provisions for his family and early guests.

In the meantime, until the fine new brick hotel is completed, the bar will be temporarily located in the grocery store, which was lately used as a store house.

We sympathise with Mr. Darcy in his loss at such an unfortunate time, and congratulate him on the way in which he has met his trouble.

The hotel is too well known by townspeople for over 25 years to require description; many a big fish has been displayed on its verandah, and many a bigger lie told about a bigger fish, unloaded on to a credulous band of listeners.

PRIEST BURNS ON ALTAR

ASAN ATONEMENT FOR THE SINS OF HIS CONGREGATION

A Case of Religious Fanaticism Almost Unequalled--With Thousands Watching He Applied a Flaming Torch to His Vestments and Died.

Houston, Texas, May 9.—A despatch to The Chronicle from Guadalajara, Mexico, recounts a case of religious fanaticism almost unequalled. In atonement for the sins of his parishioners, Apolinio Osorio, the priest at Ouale, offered himself in sacrifice at the altar of his sanctuary.

After having summoned the members of his congregation to the cathedral he stood before them, and, with thousands watching, applied a flaming torch to his vestments, saturated with oil. Standing in a pillar of fire, he threatened with the wrath of God any who might approach, and finally sank to the stone flagging, where his body was burned to a heap of ashes. Even the bones crumbled, and, according to the details as given, the dust was dissipated in a sudden gust of wind that swept through the edifice.

—St. Paul's church Board of Managers will hold their regular monthly meeting in the Ontario Bank chambers to-night.

CZAR'S POLICY BRINGS HOPE

Russia's Internal Situation Seems to Improve

SALVATION OF THE REGIME

Sanctioning of Legislative Assemblies Will go Far to Pacifying the Unrest

London, May 9.—The lenient policy of the Czar in the past few days encourages considerable optimism in regard to the internal situation of Russia. The ukase granting religious liberty, especially to the Old Faith followers, is, of course, explained by the offer of great financial support to the Government by its wealthiest leaders.

The escape from serious violence during the Easter holidays save for the massacre in Poland is regarded on the whole in a favorable light. News of the imperial sanction granted for the creation of two national legislative assemblages in the coming autumn, one of which will be entirely representative, will if confirmed, arouse hopes for the salvation of the present regime which nothing else could effect.

There comes today also renewed reports of the tendency of the Russian authorities toward peace. These rumors find some credence in high financial circles in London, but it is impossible to trace them to an authoritative source. They suffered to check the downward tendency of the market soon after the opening but direct Russian advices contain no hint of a change in the announced determination to pursue the war to the bitter end.

There is no reason to believe that King Edward discussed peace possibilities in great detail with Foreign Minister Delcasse in Paris on Thursday. The King sent for Lord Lansdowne, the British Foreign Minister, as soon as he arrived in London, and there was a long consultation. It is no secret that His Majesty is desirous of seizing any opportunity to bring the war to an early conclusion.

ONTARIO LUMBER CULLERS.

Following Names of Cullers Appointed Appear in the Report of the Commissioner of Crown Lands.

In the report just issued by the Commissioner of Crown Lands, the following gentlemen's names appear as cullers;

PETERBOROUGH — Jas. Aylward, M. W. Brandon, John C. Bell, R. L. Brennan, Geo. Cochrane, G. W. Coons, G. J. Chalmers, Sam Clegg, A. M. Chalmers, Pat. Doris, John Doris, F. Farren, Jas. Goulais, Chas. Hartley, John C. Higgins, J. D. Lundgate, Geo. Lenton, Theodore Ludgate, W. Manvee, Jas. Murray, D. H. Moore, T. B. McGrath, Max. Theo. McWilliams, Alf. McDonald, John McGrath, J. B. McWilliams, Jas. McDonald, W. Quinn, Jas. Swanston, Wm. Watt.

CAMPBELLFORD—P. J. Anderson, T. Callaghan, jr., Dennis Callaghan, O. Emlaw, M. Lemyra, Owen McAvoy, Frank McEvoy, W. H. Rooney, W. Rooksby, Stewart Shea, W. J. Smith.

LAKEFIELD—J. A. E. Moore, H. R. Moore.

YOUNG'S POINT—W. Scollard, Pat. P. Young, Francis G. Young.

BOBCAYGEON—Thos. Bick, Nat Crowe, Egerton Crowe, J. P. Davis, J. I. Henderson, M. Lane, Jas. Power, W. Robinson, Thos. Chamberlain, Cecil Crowe, Leslie Crowe, W. A. Davis, T. Johnston, Wm. Moore, W. F. Robinson.

FENELON FALLS—W. Jones, W. McCarthy.

HALLS BRIDGE—W. Simpson.

HASTINGS—T. J. Barry.

MILLBROOK—D. A. Cooper.

HARWOOD—F. L. Blastorah.

VICTIM OF A PAINFUL ACCIDENT.

Mr. Archie Shook Hurt at the Dickson Company's Mill.

Yesterday, Mr. Archie Shooks, son of Mr. J. C. Shooks, manager of the Dickson Company, was the victim of a painful accident.

It appears that he was unloading a car of slabs, at the company's mill, and by an oversight some lower layers of the slabs were pulled out first, and the higher layers propped up by pieces of plank. Unfortunately the supporting plank slipped, causing the heavy slabs to fall on Mr. Shook's leg, near the ankle. Whilst the bone was not broken, he received a very painful blow which necessitated his being brought to his father's apartments at the Grand Central block, in a conveyance.

STRENUOUS LIVERY MEN.

Messrs. McCollum Bros. Add to Their Already Up-to-date Livery.

Messrs McCollum Bros., who purchased Mr. Leary's Water street livery business, seem not only to have found things coming their way in business, but to have faith in Peterborough's future prospects. Ever since taking possession they have been adding largely to their equipment and horses.

Now they have added three handsome equipages, which are being admired by many who have visited their stables.

They consist of a handsome rubber-tired brougham, or one-horse cab and a nickel plated rubber-tired bike, both vehicles being from Guy Bros. factory, Toronto.

The firm has also added a handsome rubber-tired Stanhope, manufactured by Tudhope, Orillia, McCollum Bros. are determined to keep abreast with the times.

GOOD ATTENDANCE

Salvation Army, Augmented by Lieut Col. Gaskin, Toronto, Draw Large Crowd.

Lieut.-Colonel and Mrs. Gaskin left town yesterday morning on the 7.12 train for their home in Toronto, after spending a very enjoyable and profitable week-end in Peterborough. On Saturday night, although stormy, a good crowd gathered to welcome the Lieut.-Colonel and his wife, and enjoyed the meeting very much. On Sunday morning the subject "Anchors" was handled in a very able manner. In the afternoon the Lieut.-Col. spoke for some time on the progress of the Army, in addition to giving an address on "Naaman, the Leper." At night the attendance was large. The Lieut-Colonel's remarks were on the publican's prayers, "God be merciful to me a sinner." In the prayer meeting that followed four came forward. Ensign Edwards, of Montreal, also assisted in the meeting. The Ensign remained in town until to-day when he will go to Port Hope with Adjt. Jennings to make arrangements for a meeting there to-morrow night to be led by Commissioner Coombs.

Police Court

OFFICIALS

Chief of Police. G.I. Reed.
Magistrate, D.W.Dumble

One of the saddest nights seen in many a day was witnessed in yesterday's police court when a woman, respectably connected, was arraigned on a charge of vagrancy and drink.

Several witnesses testified to the woman being an habitual and excessive drinker, and gave evidence showing that she had slept out in the parks several nights of late.

No good can be attained by presenting particulars either as to personality or evidence. His Worship committed her for one year to the Mercier Institute in Toronto.

Last night a resident of Reid street, was arrested on a warrant sworn over a watch deal. From the defendant's story, it seems that he lent a man three dollars some time ago, and took the party's watch as security.

Yesterday the man repaid him his money and had the ticker returned to him. The party on regaining possession of his watch claimed that his friend-in-need, who had loaned him the $3, had removed an important part of the watch's internal economy, to wit, the works.

The party arrested scouts the idea and will explain matters this morning in court.

After his arrest the defendant, who seems a very respectable man, produced his bank book, showing a substantial savings bank account, and tried to get bail, and he wanted to go home to feed his horse. However, it was too late at night to get matters adjusted with the Magistrate.

THE STEAMER SOVEREIGN.

Extensive Alterations Being Made on Steamer Sovereign Recently Sold.

Work on the alterations to the steamer Sovereign, which had been stopped on account of the seizure of the vessel by the workmen who were employed on her last season, has been resumed, consequent upon the claims of the workmen being settled by the former owners, the boat will be in shape to take up the work of towing in the near future.

The upper deck is being taken off and other changes being made, which will make the steamer into a first-class tug, after which she will be put into commission. Mr. Meldrum contemplates using the steamer in connection with his elevator and cereal mills, and it is probable that, if there is a demand for her services, she may be rented for towing purposes.

ST. JOHN'S VESTRY.

Adjourned Meeting Last Night--Rectory Site Selected--Reports of Societies--Sidesmen and Ushers Appointed.

The adjourned meeting of St. John's vestry was held in the school house last night, the rector, Rev. J. C. Davidson, presiding.

The following sidesmen were appointed; Messrs. R. M. Dennistoun, H. Fair, Dr. Boucher, Dr. Geo. Burnham, W. G. Howden, A. H. Stratton, D. Hughes Charles, P. Campbell, W. Conway, McFarlane Wilson, Chas. H. J. Mitchell, H. Rush, sr., F. D. Kerr, Col. H. C. Rogers, H. Long.

The following ushers were appointed; Messrs. J. Bell, C. Graham, J. Pattie, H. Rush, jr., Jos. Bell, Stanley Caniff, H. Sawers, J. Perry, H. Wilson, J. J. Cocks, W. Horace Walkey, J. Comstock, C. Reid, J. Johnston, S. R. Stone, E. A. Rowe.

REPORTS OF SOCIETIES.

Mrs. P. Campbell, Treasurer, and Miss Errett, secretary, of the Woman's Auxiliary, presented a highly satisfactory report of this commendable society's work for the past year. The financial statement showed a balance on hand of $48.82 This society has a membership of 74, with six life members.

Mrs. E. Brown's report of the work done by the Church Guild, which was heartily endorsed by all present.

Miss Ruby Burnham's report of the King's Daughters evidenced an appreciable energy in the important work which comes under the jurisdiction of this indefatigable society. Miss H. Hugels' financial statement showed the expenditure to have been $169.34, leaving a balance on hand of $41.19.

The annual report of the Mission Band, presented by Miss Daisy Mills was exceedingly gratifying, and demonstrated that the work undertaken by the little folk during the years is deserving of the highest commendation.

Mr. Chas. H. Reid, secretary of the Young Men's Guild, submitted this society's annual statements, showing the receipts for the year to have been $26.59, against an expenditure of $25.31, leaving a balance on hand of $1.28. The young men are doing good work, and are increasing in membership.

The rector, informed the vestry that next Sunday morning, instead of a sermon, he will give a report of the work of the parish during the past church year.

Miss E. Dawson, treasurer of the Girls' Guild, submitted the annual report of this meritorious and persistent organization. The receipts were $51.67, and the expenditure $51.03, leaving a balance of 64 cents.

Miss L. Pratt, treasurer of the Young Peoples' Society, submitted the first annual report, which showed the organization to be in a flourishing condition, and to have accomplished splendid work in banding young people together in social and intellectual intercourse.

FINANCIAL STANDING.

Mr. W. Harold Clinton, Peoples' Warden, in commenting on the satisfactory financial statement, submitted at the vestry's last meeting, contended that the Church had during the year 1904-5, made gratifying progress in every department of its work. He estimated that the Church's expenditure for the ensuing year at $3,570, against receipts in sight amounting to $3,174.23. While this would mean a deficit, still he had every confidence that the receipts from all sources would so far exceed the wardens' estimates as to allow them to meet the vestry next year with as large a surplus on hand as last night—$318.36.

THE RECTORY SITE.

Dr. Boucher, chairman of the Rectory Site Committee, reported the committee unanimous in recommending that 21 feet be taken, from the rear of the two corner houses fronting Brock street, and a portion of the church yard to be also utilized, on condition that the same be conveyed for rectory purposes free of charge to the church. The rectory to front west, and plans, and specifications be prepared to carry out this suggestion.

The above was adopted, and Messrs. Dr. Boucher, R. M. Dennistoun and H. Rush were reappointed a committee to arrange with the Synod for a conveyance of the site to the church, and to have plans and specifications prepared.

LAY DELEGATES.

Messrs. Dr. Boucher, R. M. Dennistoun and H. Rush were reappointed lay delegates.

The church wardens were empowered to act on the suggestion of contributing $25 to the Episcopal Endowment Fund.

The vestry then adjourned.

England May Have To Aid the Japs.

London Times Takes a Most Serious View of the Reported Breaches of Neutrality by France and Thinks Britain May Have to Enter Struggle.

London, May 9.—The London Times takes a most serious view of the reported breaches of neutrality by France, and declares that if the facts alleged by Japan are proven, England would have to respond to the call of Japan for aid. On this subject it says;

"No more deplorable error could be committed across the Channel than to suppose that the complaints of our ally on this subject can be treated with a light heart. They cannot be evaded; they cannot be ignored."

The article proceeds in a tone of the deepest gravity to insist that Japan cannot be expected to go beyond certain limits in her desire to confine the struggle between herself and Russia. After referring to the present friendliness between England and France, The Times says the latter "will understand that any action we take is inspired by the strongest wish to avert while there is yet time the possibility of an incident which might dissolve the entente so happily concluded, and even compel us to take opposite sides in a great international controversy."

The article concludes by saying that were the facts alleged by Japan established, and were its Government to call on Great Britain to fulfil her obligations under the alliance, France must remember that England would have no choice but to comply.

A Lively Row Coming.

Conservatives Claim Government Divided New Provinces in the Interests of Liberal Party ---May Adopt Obstructionist Tactics.

Ottawa, May 9.—In his speech Wednesday night, the leaders of the Opposition warned the Government that if Parliament kept in session longer than had been anticipated, Sir Wilfrid and his colleagues would have only themselves to blame for holding back the schedules the North-West Autonomy bills.

"I wish," he said, "to be entirely reasonable about it, but, at the same time, I do not propose that we should have our hands forcedd on this side of the House by the introduction of these schedules at a time when it would be impossible for us to investigate them. We may require five or six weeks to investigate them; we might have had them five or six weeks ago, but we could not get them."

The Opposition claims to have reliable information that the Government intends over-representation for the Liberal portion of the North-West at the expense of the Conservative districts further south. If this expectation is realized, Mr. Borden's following promises a lively row.

BACK UP MACLEAN.

Col. Sam Hughes is backing up W. F. Maclean in his threatened obstructions of the Government policy, and other Ontario Conservatives, including Geo. Taylor, the party whip, declare that they are prepared to sit here till the Government offers what they regard as a full explanation of the Autonomy policy. Most of the men who live at a distance, however, are anxious to get home, and make no secret of their feelings. Mr. Borden has laid his plans to leave for Halifax the middle of next month, to superintend the removal of his personal effects to Ottawa, where he is shortly to take up the practice of law.

TRANSFORMATION SCENE.

Chemong Hotel Turned Into a Grocery Store and Ice Cream Parlour

Owing to the recent "local option" vote in Smith, parties who visit Chemong Park or Lake during the coming summer will either have to forgo the flowing bowl or take a travellers' night cap in their hip pocket.

Mr. George Brown, proprietor of the Chemong Park hotel, is abolishing his bar-room altogether and is turning the room formerly used, into a grocery store and ice cream parlor. Mr. Brown will run a first-class ice cream apartment. He laid in a big stock of groceries during the past week.

Mr. and Mrs. Wolfe, of Buffalo, are the first of the summer residents to take up their abode at Chemong. They are having their handsome cottage put in most attractive shape.

TO-DAY WILL TELL

Petitions Concerning City Incorporation, Both Pro and Con, Will be Presented in Toronto.

When the city's bill comes before the Private Bills Committee in Toronto to-day a strong petition will be presented in favor of the passing of the measure, including the civic incorporation clause.

It is as follows,

To the Chairman and Members of the Private Bills Committee of the Ontario Legislature;

Your petitioners, citizens of the town of Peterborough, learning that there is some opposition to the legislation asked by the Council of the said town, which legislation is in the interest of Peterborough, humbly petition you to pass the said legislation as asked for by the Council.

And your petitioners will ever pray.

It is to be noted that a counter petition will also be presented, in which the signatures represent a large majority of the merchants and property owners in this town. Time and telephone will tell to-day.

DOCTOR'S FOOD

For His Family and Patients

A surgeon and physician of Readsville, Pa., has found Grape-Nuts so nourishing and strengthening that he uses it as a supporting medium after operations. He says:

"As a physician I take great pleasure in using Grape-Nuts in my family and also recommend it to my patients where a good strengthening food is required.

"I find it particularly valuable in convalescence from run down and depressed conditions. It also does well as a supporting medium after surgical operations.

"The fact that it is predigested makes it an ideal food for sufferers from indigestion and dyspeptic conditions. With the high quality of the food maintained, as has always been the case, I consider it an ideal food for most all conditions." Name given by Postum Co., Ltd., Battle Creek, Mich.

There's a reason.

Read "The Road to Wellville" in pkgs. of Grape-Nuts.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 108 PETERBOROUGH ONTARIO, TUESDAY MAY 9 1905. PRICE TWO CENTS

THE GREAT SEA FIGHT A TEST

Theories of What Constitute Best Battleships may be Set at Rest.

London, May 9.—In the grand naval battle in the far East that the world has been expecting for three weeks, and which now seems to be sure to occur within a few days, the naval world will have its fair chance to judge the real efficiency of the battleship over the less powerful but faster and more versatile cruiser and the dexterous torpedo-boat destroyer. That Vice-Admiral Rojestvensky's fleet, strengthened by Admiral Nebogatoff's squadron, now on the point of effecting a juncture with the main division, will be greatly superior in battleships to Admiral Togo's fleet, is conceded on all sides. Likewise, it is established that in fast, well-equipped cruisers and number and efficiency of smaller craft, Togo will have the advantage. A synopsis of the fighting strength of the two great fleets, together with a review of the careers of the two Admirals who will direct their movements in battle, afford a fair basis for comparison and conjecture.

The Japanese fleet, under Admirals Togo, Tewa and Kamimura, consists of the following;

BATTLESHIPS.

Name.	Years old.	Tons.	Speed.
Mikasa (flag)	5	15,200	18
Asahi	6	15,000	18
Shikishima	7	15,000	18

Akashi	8	2,700	20
Idzumi	22	3,000	18
Chiyoda	15	2,439	19

About twenty torpedo-boat destroyers and about thirty-five torpedo boats are also at the disposal of Admiral Togo.

The Russian fleet to meet the Japanese sea power in the far East consists of the so-called Baltic fleet, three divisions of which are east of the Suez Canal, while a fourth is being equipped at Cronstadt.

The divisions on the way to the far East are the main fleet, under Rear Admirals Rojestvensky, Volkersam, and Enquist; the second squadron, commanded by Rear Admiral Nebogatoff, and the third squadron, under Rear Admiral Betrofsky.

Rear Admiral Rojestvensky's fleet consisted of the following vessels;

BATTLESHIPS.

Name.	Years Old.	Tons.	Guns.
Alexander II.	2		
Bowdino	2		
Knez Suvaroff (flagship)	1	13,500	12 6-in.

Transports and Colliers—The Kniaz Sortchakoff, Kifai, Jupiter, Merkar, and four and five more.

The hospital ship Orel.

The auxiliary vessel Tevek.

ADMIRAL NEBOGATOFF'S SQUADRON.

Emperor Nicholas I. (battleship)—Admiral Oustakoff, Admiral Senavine, Admiral Apraksin and Vladimir Monomachier.

Transports Xenia, Graf Troganoff, and Couronia, tug Sovria, German transport Orion, Dutch transport Heenskirk and Danish transport Cimbria.

REFUSE TO ARBITRATE

Local Printers Refuse to Submit Present Differences to Impartial Board of Arbitration

As most of our readers are aware, there exists at present in Peterborough, a misunderstanding between the printers employed by the local press, and their employers.

As this is a matter that at present simply concerns those directly interested we would not, in fairness to both sides concerned, comment on the rights or wrongs of the demands made by the printers, as a simple statement of the conditions existing and a perusal of the actual facts, as given below, will enable the public to take an impartial view of matters. We would only state that the employers have made the following propositions, none of which have been looked on with any favor by the union, or at least not so much favor as to lead to acceptance. The employers offered—

1.—That a 10 per cent. increase be made to the minimum wage on the present scale, and that the eight hour day be abandoned.

2.—That the proposition of a 10 per cent. increase and the eight hour day, be decided by a board of three arbitrators, all local men. Decision to be final.

3.—That the 10 per cent. increase be paid and that the eight hour dday be deferred until such time as Toronto gains an eight hour day. Toronto day, nine hours, for at least the next two years.

4.—That the present scale be paid until 1st September next, pending action by the parent, or International Union, looking to the placing of the date for an eight hour day, further in the future.

Each and all of these propositions have been rejected by the local Printers' Union.

That this labor trouble remains unsettled is distinctly traceable to the unfortunate fact that the Union is controlled by headquarters in a foreign country where Canadian affairs are neither understood nor fairly judged. We might venture an opinion, speaking generally and not in reference to any particular locality in Canada, that were this Union controlled by Canadians, for Canadians, that an amicable arrangement might more easily be attained, just to all involved.

ANOTHER WESTERN ROAD

"Soo" Line Will Push Second Branch Into Canada

Winnipeg, May 9.—Assiniboia will be enjoying important additional railway accommodations in the shape of a second "Soo" line branch within the year. The management has decided to push its Rhief River Falls branch, to be constructed this year, northward into Canadian territory.

The new branch will be a most valuable property. By this shrewd stroke the "Soo" Company intersects eight branches of the Great Northern, serving the richest districts in North Dakota, five of which branches run to the Canadian boundary. The "Soo" line, with a single big branch, running east and west, and connecting the Winnipeg-St. Paul branch, expects to be able to divert a considerable percentage of the traffic handled by the Great Northern short branches.

To Make Pure

Biscuit, cake, rolls, muffins, dumplings, etc., a pure leavening agent is indispensable.

While the Royal Baking Powder is reported absolutely pure and healthful, the official reports show most other baking powders, as well as the cream of tartar of the market depended upon by many housekeepers for raising biscuit and cake, to contain either alum, ammonia or sulphuric acid.

The Government Analyst of Ontario says:

"As a result of my investigation, I find the Royal Baking Powder far superior to the others. It is pure, contains none but wholesome ingredients, and is of greatest strength."

ROYAL BAKING POWDER CO., NEW YORK.

EX-ALDERMAN MUST PAY

Guelph City Wins Case—Involving an Expense Account

Guelph, May 9.—Judge Jamieson at noon today handed out judgment in the case of the City of Guelph v. ex-Ald. J. A. Scott. The defendant, last year, when alderman, went with a deputation to Ottawa on municipal business. Before going he drew $225 out of the city treasury to pay expenses, and shortly after his return claims he paid $15 to the mayor for his expenses, and the balance of $40.45 to the treasurer. These payments ex-Mayor Hamilton and Treasurer Scroggie deny, and consequently the city brought suit. In his judgment Judge Jamieson finds that the ex-alderman failed to furnish sufficient proof, and that he must pay the amount claimed, with costs.

DISASTROUS FIRE AT BURLEIGH.

Burleigh Falls Hotel Completely Wiped Out by Fire on Sunday.

One of the most unfortunately timed fires that we have had in this district, of late, on Sunday, entirely destroyed the well known and popular Burleigh Falls Hotel.

About three o'clock Sunday afternoon, Mr. Thomas Darcy and his friends at the hotel noticed flames pouring from the roof of the main building. Fire fighting appliances, in such a remote locality were, of necessity, very limited, still vigorous efforts were made by a bucket brigade to control the conflagration. Unfortunately there was a stiff breeze blowing from the north, and to this is attributed, not only the impossibility of controlling the fire, but to it, is laid the cause of the trouble, it being thought the wind blew sparks from the rear kitchen chimney, the only place where there was any fire lighted that day, and that these sparks, alighting on the dry shingles, were fanned by the brisk breeze into a fire.

As soon as Mr. Darcy and his assistants, found that the fire in the hotel was absolutely beyond their control, they turned attention to the large barn which contained many sleighs, buggies and other vehicles, besides horses and a large quantity of valuable furniture stored for safe keeping by cottagers.

Although several times the eaves and cornices of the barn caught fire, but by constant work and application of wet blankets, Mr. Darcy managed to save the barn and contents.

The hotel fire was a very fast and hot one, the wind that blew so strongly, making the long narrow corridors into so many bellows to fan the flames. As soon as the fire was discovered, immediately, before trying to fight it, Mr. Darcy rushed into the hotel to awaken a sleeping guest, who only just had time to get out safely.

Mrs. W H Darcy lost her valuable diamonds, jewellery and furs, in fact all the family living there lost their personal effects. The proprietor only had time to rush into the office, unlock the safe and get possession of his legal papers, money, etc.

All the post office supplies and effects together with the telephone were destroyed, as were the new gas and water works plants. Mr. Darcy's loss is estimated at between $10,000 and $12,000, only one-half insured, he however seems to have the right kind of pluck and faith in his location, as by early Monday morning, Mr. Darcy had lumber and supplies en route to Burleigh to rebuild a new hotel. The family and inmates of the hotel are temporarily located in one of the cottages. The Olympic Club were scheduled to go to Burleigh Falls on June 1st, and Mr. Darcy is going to have a pavilion hastily erected to provide for their requirements. As soon as Mr. Darcy saw that the barn was safe, he drove immediately to Lakefield, Sunday evening to procure cooking utensils and provisions for his family and early guests.

In the meantime, until the fine new brick hotel is completed, the bar will be temporarily located in the grocery store, which was lately used as a store house.

We sympathise with Mr. Darcy in his loss at such an unfortunate time, and congratulate him on the way in which he has met his trouble.

The hotel is too well known by townspeople for over 25 years to require description, many a big fish has been displayed on its verandah, and many a bigger lie told about a bigger fish, unloaded on to a credulous band of listeners.

PRIEST BURNS ON ALTAR

AS AN ATONEMENT FOR THE SINS OF HIS CONGREGATION

A Case of Religious Fanaticism Almost Unequalled--With Thousands Watching He Applied a Flaming Torch to His Vestments and Died.

Houston, Texas, May 9.—A despatch to The Chronicle from Guadalajara, Mexico, recounts a case of religious fanaticism almost unequalled. In atonement for the sins of his parishioners, Apolinio Osorio, the priest at Ocuale, offered himself in sacrifice at the altar of his sanctuary.

After having summoned the members of his congregation to the cathedral he stood before them, and, with thousands watching, applied a flaming torch to his vestments, saturated with oil. Standing in a pillar of fire, he threatened with the wrath of God any who might approach, and finally sank to the stone flagging, where his body was burned to a heap of ashes. Even the bones crumbled, and, according to the details as given, the dust was dissipated in a sudden gust of wind that swept through the edifice.

—St. Paul's church Board of Managers will hold their regular monthly meeting in the Ontario Bank chambers to-night.

CZAR'S POLICY BRINGS HOPE

Russia's Internal Situation Seems to Improve

SALVATION OF THE REGIME

Sanctioning of Legislative Assemblies Will go Far to Pacifying the Unrest

London, May 9.—The lenient policy of the Czar in the past few days encourages considerable optimism in regard to the internal situation of Russia. The ukase granting religious liberty, especially to the Old Faith followers, is, of course, explained by the offer of great financial support to the Government by its wealthiest leaders.

The escape from serious violence during the Easter holidays save for the massacre in Poland is regarded on the whole in a favorable light. News of the imperial sanction granted for the creation of two national legislative assemblages in the coming autumn, one of which will be entirely representative, will if confirmed, arouse hopes for the salvation of the present regime which nothing else could effect.

There comes today also renewed reports of the tendency of the Russian authorities toward peace. These rumors find some credence in high financial circles in London, but it is impossible to trace them to an authoritative source. They suffered to check the downward tendency of the market soon after the opening but direct Russian advices contain no hint of a change in the announced determination to pursue the war to the bitter end.

There is no reason to believe that King Edward discussed peace possibilities in great detail with Foreign Minister Delcasse in Paris on Thursday. The King sent for Lord Lansdowne, the British Foreign Minister, as soon as he arrived in London, and there was a long consultation. It is no secret that His Majesty is desirous of seizing any opportunity to bring the war to an early conclusion.

ONTARIO LUMBER CULLERS.

Following Names of Cullers Appointed Appear in the Report of the Commissioner of Crown Lands.

In the report just issued by the Commissioner of Crown Lands, the following gentlemen's names appear as cullers;

PETERBOROUGH — Jas. Aylward, M W Brandon, John C. Bell, R. L. Brennan, Geo. Cochrane, G. W. Coons, G. J. Chalmers, Sam Clegg, A. M. Chalmers, Pat. Doris, John Doris, F. Fairen, Jas. Goulais, Chas. Hartley, John C. Higgins, Jas. Ludgate, Geo. Loucks, Theodore Ludgate, W. Manece, Jas. Murray, D. H. Moore, T. B. McGrath, Max. Theo. McWilliams, Alf. McDonald, John McGrath, J. B. McWilliams, Jas. McDonald, W. Quinn, Jas. Swanston, Wm. Watt.

CAMPBELLFORD—P. J. Anderson, T. Callaghan, jr., Dennis Callaghan, O. Emlaw, M Lemyra, Owen McAvoy Frank McEvoy, W. H Rooney, W. Rooksby, Stewart Shaw, W. J Smith

LAKEFIELD—J. A. E. Moore, H R. Moore.

YOUNG'S POINT—W. Scollard, Pat P. Young, Francis G. Young.

BOBCAYGEON—Thos. Bick, Nat Crowe, Egerton Crowe, J. P. Davis, J. J Henderson, M. Line, Jas. Power, W. Robinson, Thos. Chamberlain, Cecil Crowe, Leslie Crowe, W. A Davis, T. Johnston, Wm. Moore, W. F. Robinson

FENELON FALLS—W Jones, W. McCurtlie.

HALLS BRIDGE—W. Simpson

HASTINGS—T J Barry.

MILLBROOK—D. A Cooper.

HARWOOD—F. L. Blatorak.

VICTIM OF A PAINFUL ACCIDENT.

Mr. Archie Shook Hurt at the Dickson Company's Mill.

Yesterday, Mr. Archie Shooks, son of Mr. J. C. Shooks, manager of the Dickson Company, was the victim of a painful accident.

It appears that he was unloading a car of slabs, at the company's mill, and by an oversight some lower layers of the slabs were pulled out first, and the higher layers propped up by pieces of plank. Unfortunately the supporting plank slipped, causing the heavy slabs to fall on Mr. Shook's leg, near the ankle. Whilst the bone was not broken, he received a very painful blow which necessitated his being brought to his father's apartments at the Grand Central block, in a conveyance.

STRENUOUS LIVERY MEN.

Messrs. McCollum Bros. Add to Their Already Up-to-date Livery.

Messrs McCollum Bros., who purchased Mr. Leary's Water street livery business, seem not only to have found things coming their way in business, but to have faith in Peterborough's future prospects. Ever since taking possession they have been adding largely to their equipment and horses.

Now they have added three handsome equipages, which are being admired by many who have visited their stables.

They consist of a handsome rubber-tired brougham, or one-horse cab and a nickel plated rubber-tired bike, both vehicles being from Guy Bros. factory, Toronto.

The firm has also added a handsome rubber-tired Stanhope, manufactured by Tudhope, Orillia, McCollum Bros, are determined to keep abreast with the times.

GOOD ATTENDANCE

Salvation Army, Augmented by Lieut Col. Gaskin, Toronto, Draw Large Crowd.

Lieut.-Colonel and Mrs. Gaskin left town yesterday morning on the 7.12 train for their home in Toronto, after spending a very enjoyable and profitable week-end in Peterborough. On Saturday night, although stormy, a good crowd gathered to welcome the Lieut.-Colonel and his wife, and enjoyed the meeting very much. On Sunday morning the subject "Anchors" was handled in a very able manner. In the afternoon the Lieut.-Col. spoke for some time on the progress of the Army, in addition to giving an address on "Saaman, the Leper." At night the attendance was large. The Lieut.-Colonel's remarks were on the publican's prayers, "God be merciful to me a sinner." In the prayer meeting that followed four came forward. Ensign Edwards, of Montreal, also assisted in the meeting. The Ensign remained in town until to-day when he will go to Port Hope with Adjt. Jennings to make arrangements for a meeting there to-morrow night to be led by Commissioner Coombs.

Police Court

OFFICIALS

Chief of Police, G.I. Hazel
Magistrate, D.W.Dumble

One of the saddest sights seen in many a day was witnessed in yesterday's police court when a woman, respectably connected, was arraigned on a charge of vagrancy and drink.

Several witnesses testified to the woman being an habitual and excessive drinker, and gave evidence showing that she had slept out in the parks several nights of late.

No good can be attained by presenting particulars either as to personality or evidence. His Worship committed her for one year to the Mercier Institute in Toronto.

Last night a resident of Reid street, was arrested on a warrant sworn over a watch deal. From the defendant's story, it seems that he lent a man three dollars some time ago, and took the party's watch as security.

Yesterday the man repaid him his money and had the ticker returned to him. The party on regaining possession of his watch claimed that his friend-in-need, who had loaned him the $3, had removed an important part of the watch's internal economy, to wit, the works.

The party arrested scouts the idea and will explain matters this morning in court.

After his arrest the defendant, who seems a very respectable man, produced his bank book, showing a substantial savings bank account, and tried to get bail, and he wanted to go home to feed his horse. However, it was too late at night to get matters adjusted with the Magistrate.

THE STEAMER SOVEREIGN.

Extensive Alterations Being Made on Steamer Sovereign Recently Sold.

Work on the alterations to the steamer Sovereign, which had been stopped on account of the seizure of the vessel by the workmen who were employed on her last season, has been resumed, consequent upon the claims of the workmen being settled by the former owners, the boat will be in shape to take up the work of towing in the near future.

The upper deck is being taken off and other changes being made, which will make the steamer into a first-class tug, after which she will be put into commission. Mr. Meldrum contemplates using the steamer in connection with his elevator and cereal mills, and it is probable that, if there is a demand for her services, she may be rented for towing purposes.

ST. JOHN'S VESTRY.

Adjourned Meeting Last Night--Rectory Site Selected--Reports of Societies--Sidesmen and Ushers Appointed.

The adjourned meeting of St. John's vestry was held in the school house last night, the rector, Rev. J C. Davidson, presiding.

The following sidesmen were appointed; Messrs. R M. Dennistoun, R. Fair, Dr. Boucher, Dr Geo Burnham, W. G. Howden, A. H. Stratton, D. Hughes Charles, P. Campbell, W. Conway, McFarlane Wilson, Chas. H. J. Mitchell, H. Rush, sr., F. D Kerr, Col. H. C. Rogers, H. Long.

The following ushers were appointed; Messrs. J Bell, C. Graham, J. Pattie, H. Rush, jr., Jos. Bell, Stanley Caniff, R. Sawers, J Perry, H. Wilson, J. J Cocks, W. Horace Walkey, J. Comstock, C. Reid, J. Johnston, S. R. Stone, E. A Rowe.

REPORTS OF SOCIETIES.

Mrs. P. Campbell, Treasurer, and Miss Errett, secretary, of the Woman's Auxiliary, presented a highly satisfactory report of this commendable society's work for the past year. The financial statement showed a balance on hand of $48.82 This society has a membership of 74, with six life members.

Mrs. E. Brown's report of the work done by the Church Guild, which was heartily endorsed by all present.

Miss Ruby Burnham's report of the King's Daughters evidenced an appreciable energy in the important work which comes under the jurisdiction of this indefatigable society. Miss H. Hugels' financial statement showed the expenditure to have been $169.34, leaving a balance on hand of $41.19.

The annual report of the Mission Band, presented by Miss Daisy Mills, was exceedingly gratifying, and demonstrated that the work undertaken by the little folk during the years is deserving of the highest commendation.

Mr. Chas. H. Reid, secretary of the Young Men's Guild, submitted this society's annual statements, showing the receipts for the year to have been $26.59, against an expenditure of $25.31, leaving a balance on hand of $1.28. The young men are doing good work, and are increasing in membership.

The rector, informed the vestry that next Sunday morning, instead of a sermon, he will give a report of the work of the parish during the past church year.

Miss E. Dawson, treasurer of the Girls' Guild, submitted the annual report of this meritorious and persistent organization. The receipts were $51.67, and the expenditure $51.03, leaving a balance of 64 cents.

Miss L. Pratt, treasurer of the Young Peoples' Society, submitted the first annual report, which showed the organization to be in a flourishing condition, and to have accomplished splendid work in banding young people together in social and intellectual intercourse.

FINANCIAL STANDING.

Mr. W. Harold Cluxton, Peoples' Warden, in commenting on the satisfactory financial statement, submitted at the vestry's last meeting, contended that the Church had during the year 1904-5, made gratifying progress in every department of its work. He estimated that the Church's expenditure for the ensuing year at $3,570, against receipts in sight amounting to $3,174.23 While this would mean a deficit, still he had every confidence that the receipts from all sources would so far exceed the wardens' estimates as to allow them to meet the vestry next year with as large a surplus on hand as last night.—$318.36

THE RECTORY SITE.

Dr. Boucher, chairman of the Rectory Site Committee, reported the committee unanimous in recommending that 21 feet be taken, from the rear of the two corner houses fronting Brock street, and a portion of the church yard to be also utilized, on condition that the same be conveyed for rectory purposes free of charge to the church. The rectory to front west, and plans, and specifications be prepared to carry out this suggestion.

The above was adopted, and Messrs. Dr. Boucher, R M. Dennistoun and H. Rush were reappointed a committee to arrange with the Synod for a conveyance of the site to the church, and to have plans and specifications prepared.

LAY DELEGATES.

Messrs. Dr. Boucher, R. M Dennistoun and H. Rush were reappointed lay delegates.

The church wardens were empowered to act on the suggestion of contributing $25 to the Episcopal Endowment Fund.

The vestry then adjourned.

England May Have To Aid the Japs.

London Times Takes a Most Serious View of the Reported Breaches of Neutrality by France and Thinks Britain May Have to Enter Struggle.

London, May 9.—The London Times takes a most serious view of the reported breaches of neutrality by France, and declares that if the facts alleged by Japan are proven, England would have to respond to the call of Japan for aid. On this subject it says;

"No more deplorable error could be committed across the Channel than to suppose that the complaints of our ally on this subject can be treated with a light heart. They cannot be evaded, they cannot be ignored."

The article proceeds in a tone of the deepest gravity to insist that Japan cannot be expected to go beyond certain limits in her desire to confine the struggle between herself and Russia. After referring to the present friendliness between England and France, The Times says the latter "will understand that any action we take is inspired by the strongest wish to avert while there is yet time the possibility of an incident which might dissolve the entente so happily concluded, and even compel us to take opposite sides in a great international controversy."

The article concludes by saying that were the facts alleged by Japan established, and were its Government to call on Great Britain to fulfil her obligations under the alliance, France must remember that England would have no choice but to comply.

A Lively Row Coming.

Conservatives Claim Government Divided New Provinces in the Interests of Liberal Party ---May Adopt Obstructionist Tactics.

Ottawa, May 9.—In his speech Wednesday night, the leaders of the Opposition warned the Government that if Parliament kept in session longer than had been anticipated, Sir Wilfrid and his colleagues would have only themselves to blame for holding back the schedules the North-West Autonomy bills.

"I wish," he said, "to be entirely reasonable about it, but, at the same time, I do not propose that we should have our hands forcedd on this side of the House by the introduction of these schedules at a time when it would be impossible for us to investigate them. We may require five or six weeks to investigate them; we might have had them five or six weeks ago, but we could not get them."

The Opposition claims to have reliable information that the Government intends over-representation for the Liberal portion of the North-West at the expense of the Conservative districts further south. If this expectation is realized, Mr. Borden's following promises a lively row.

BACK UP MACLEAN.

Col. Sam Hughes is backing up W. F. Maclean in his threatened obstruction of the Government policy, and other Ontario Conservatives, including Geo. Taylor, the party whip, declare that they are prepared to sit here till the Government offers what they regard as a full explanation of the Autonomy policy. Most of the men would live at a distance, however, are anxious to get home, and make no secret of their feelings. Mr. Borden has laid his plans to leave for Halifax the middle of next month, to superintend the removal of his personal effects to Ottawa, where he is shortly to take up the practice of law.

TRANSFORMATION SCENE.

Chemong Hotel Turned Into a Grocery Store and Ice Cream Parlour

Owing to the recent "local option" vote in Smith, parties who visit Chemong Park or Lake during the coming summer will either have to forgo the flowing bowl or take a travellers' night cap in their hip pocket.

Mr. George Brown, proprietor of the Chemong Park hotel, is abolishing his bar-room altogether and is turning the room formerly used, into a grocery store and ice cream parlor. Mr. Brown will run a first-class ice cream apartment. He laid in a big stock of groceries during the past week.

Mr. and Mrs. Wolfe, of Buffalo, are the first of the summer residents to take up their abode at Chemong. They are having their handsome cottage put in most attractive shape.

TO-DAY WILL TELL

Petitions Concerning City Incorporation, Both Pro and Con, Will be Presented in Toronto.

When the city's bill comes before the Private Bills Committee in Toronto to-day a strong petition will be presented in favor of the passing of the measure, including the civic incorporation clause.

It is as follows;

To the Chairman and Members of the Private Bills Committee of the Ontario Legislature;

Your petitioners, citizens of the town of Peterborough, learning that there is some opposition to the legislation asked by the Council of the said town, which legislation is in the interest of Peterborough, humbly petition you to pass the said legislation as asked for by the Council.

And your petitioners will ever pray.

It is to be noted that a counter petition will also be presented, in which the signatures represent a large majority of the merchants and property owners in this town. Time and telephone will tell to-day.

DOCTOR'S FOOD

For His Family and Patients

A surgeon and physician of Reedsville, Pa., has found Grape-Nuts so nourishing and strengthening that he uses it as a supporting medium after operations. He says:

"As a physician I take great pleasure in using Grape-Nuts in my family and also recommend it to my patients where a good strengthening food is required.

"I find it particularly valuable in convalescence from run down and depressed conditions. It also does well as a supporting medium after surgical operations.

"The fact that it is predigested makes it an ideal food for sufferers from indigestion and dyspeptic conditions. With the high quality of the food maintained, as has always been the case, I consider it an ideal food for most all conditions." Name given by Postum Co., Ltd., Battle Creek, Mich.

There's a reason.

Read "The Road to Wellville" in pkgs. of Grape-Nuts.

LOTS OF VIGOR, NERVE, VITALITY

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit sick people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case symptoms from which she has suffered herself.

AMONG HER TROUBLES WERE:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells,	Poor Appetite.

HER STATEMENT.

"I was stricken with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of men and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 9 1905

LABOUR'S ARROGANCE

Montgomery Ward & Co., of Chicago, had a quarrel with their tailors, who struck. In aid of these tailors the firm's teamsters went out. That was a sympathetic strike.

The others firms that are now tied up by the teamsters' strike had nothing to do with the quarrel in its original or in its sympathetic stage. They merely went on about their business making deliveries to their customers. Their teamsters refused to carry goods to Montgomery Ward or to any other firm that tried to send goods to that firm. Secondary strikes resulted, and then a whole chain of strikes in the third, fourth and fifth degrees.

These were not sympathetic strikes. They were arbitrary, tyrannical, malicious, irrational and useless strikes.

In substance the teamsters of Chicago said to the city's wholesale dry goods dealers and other merchants: "We have boycotted Montgomery Ward & Co. You must join with us and be our assistants in this boycott. If you don't we will strike against you and we will boycott you. What is more, we will make other merchants boycott you or we will boycott them too."

The boycott in the first degree was a moral wrong, and more than that, a crime against the laws of State. The boycott in the second, third and higher degrees is in the same measure a crime, but as an interference with parties alien to the the quarrel it is even more irrational, pestiferous and intolerable wrong.

The strike—excepting in Montgomery Ward & Co.'s case—is a strike not against firms which were taking sides against any union labor, but against firms which were remaining strictly neutral, which merely refused to take sides with the teamsters in their boycott against their opponent.

The grocers, dry goods dealers and other merchants involved in this strike should not be looked upon as though they were direct participants in it, but rather as a part of the innocent public which is suffering by it.

No war measures which have been taken by either side since the strike began can alter this fact.

terly indifferent as to what kind of tension of the strike by the teamsters against third parties who are in no manner whatever involved in the quarrel must be pronounced unreasonable beyond all possibility of tolerance in any trading community.

THE LABRADOR MISSION

Of all the missions to which Canada generously contribute none is more worthy than the Labrador Hospital service, presided over by Dr. [illegible] who has just visited Peterborough on the Christian Guardian testimony of the value of this work, having spent a week with Dr. Grenfell on the Strathcona visiting the hospitals at Battle Harbor and Indian Harbor, and seeing that at St. Anthony in course of erection.

The work, says this writer, appeals to every one. "It is entirely unsectarian. Dr. Grenfell is an Episcopalian, but as he truly said the other day in Toronto, he is utterly indifferent as to what kind of an 'alien' any man or woman is to whom he or his colleagues can bring the agencies of the healing art, or to whose need, whether temporal or spiritual, he or they can minister. He has had Presbyterian and Methodist doctors on his staff, and the whole work of the mission, though devoutly and earnestly Christian in spirit, and, indeed, because such in its character, is carried on among the fishermen without any regard to race or creed. Is any one suffering, is any one in dire poverty, is there anything that can be done to relieve or cure? These are the questions that concern the doctors of the Labrador mission. The noble institution he represents—the Royal National Mission to Deep Sea Fishermen—was originated to work among those very fishermen in the North Sea so distressed by Admiral Rojestvensky's fatal raid upon their fleet last autumn. The Labrador work is another and later branch of the same mission.

"From twenty to thirty thousand fishermen, some from Canada, but most from Newfoundland, visit the Labrador coast every summer in their schooners to fish in its dangerous but prolific waters. There are besides some four or five thousand 'liviers,' or permanent dwellers on the bleak coast scattered among the rocky harbors which indent it, and eking out a lonely and precarious existence by fishing in summer and furring in winter. That is 'Dr. Grenfell's Parish,' a thousand miles of uncharted coast, with a summer population of thirty thousand, and a population of four or five thousand. It is a big parish and a needy one. And Dr. Grenfell is always glad of and grateful for help."

CANADA'S OLDEST MAN

Wonderful Record of a Montreal Citizen

Montreal, May 7.—Looking forward to an automobile ride this week and attendance at the "Babes in Toyland" next week, a thoroughly up-to-date centenarian who lives on Chomedy street is looking out on life with more pleasurable anticipation than most men of half his age.

In August this wonderful old man, Timothy Collins, will be 108 years old. At 100 he was out tobogganing with his grandchildren on one of Westmount's steepest streets. Endowed with every faculty but perfect hearing, still cheery and strong and bright, with a clear, strong voice, and quaintly boyish smile, this old man at 108 is "a blessing about the home," his relatives say. Every morning last year he was able to walk down to mass, but this year some trouble with a knee—"not rheumatism yet," he says cheerily—prevents his going except on Sunday.

Born in Cork, in 1797, the young Irishman came to Montreal in 1815, when the city was still very much in embryo. He was at first employed with the Allan Steamship Company. After a time he took up farm land at St. Columban, Que., and through decades worked hard on his farm, living plainly but comfortably. He rarely tasted liquor, but he smoked his pipe frequently every day. The question of diet has never concerned him, and even yet he eats whatever his fancy prompts.

SEPARATE SCHOOLS CONDEMNED

Opinion of an Eminent English Baptist Pastor Well Expressed

Anent sectarian schools, hear what the Rev. Dr. John Clifford, the London, England, Baptist leader, says:—"We must offer a patient and invincible antagonism to these statutes; we can do no other. We seek the total separation of churches as churches, and clerics, as clerics, from all State education, elementary, secondary, and university. The functions of Church and State must be kept apart, in control, in cost, and in every way. Let the churches do their own work at their own cost, and as they will; and the citizens do theirs in their way, and at their cost, and without the interference of the churches. That is the one and only way to educational efficiency, social harmony, and national progress."

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalised for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegrapI in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever. YOUNG OR MIDDLE-AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" illustrated, on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

THE INFLUX OF RUSSIAN JEWS

Baron de Hirsch Institute and the Scope of its Work

STATEMENT BY SECRETARY

Claims Organization Never Aids Immigrants to get Over into United States

Montreal, May 8.—Mr. A. M. Vineberg, the honorary secretary of the Baron de Hirsch Institute, in discussing the matter of the reception and disposal of Russian Jews coming to this country as immigrants, in an interview with The Star today, said:

"Our institution aids and assists immigrants to Canada, only those who desire to make Canada their future home and to become Canadian citizens. If, little by little they disappear, it is not because their whereabouts are unknown, but because the institute had obtained employment for them in different parts of Canada, or the institute had sent them to its Colonies in the North-West.

"It may occasionally happen that an immigrant has relatives in the United States, sometimes even his parents or brothers, and these naturally desire to become united with the other members of the family, but the institute never in any way assists them to evade the United States regulations.

"In the Fraleysburg case application was made to us for farm hands to work in Canada. That they were drafted to the other side was entirely without our knowledge and consent, and we presume the men themselves did not know they had been taken across the border. It entailed considerable cost to our society to bring them back to Montreal to pay their fares to other places.

"The representative of the United States Immigration Department here, came to the institute and we at once allowed him to see the correspondence, when the official left perfectly satisfied with our action in the matter.

"We think that we are entitled to make this explanation on behalf of a philanthropic institution which does so much to assist the persecuted residents of Russia and Roumania to settle in our free country, and to become useful, loyal and law-abiding Canadians. One great principle we always maintain, that our immigrants shall never in any way become a charge upon the country."

CLERKS LOAD A SHIP

Acting Colonial Secretary of Bermuda Acts as 'Longshoreman

Bermuda, May 8.—The steamship Carribre is delayed in sailing for New York owing to the strike of the dock laborers. She is being loaded slowly by clerks from the business house, the acting colonial secretary and others assisting in loading. The troops at Prospect barracks are under arms in case of emergency, but at present the strikers are quiet.

ADVERTISE IN THE TIMES

FARMER SHOT TO DEATH

Masked Robbers Force Wife to Give Signal for Husband's Death

Parkersburg, W. Va., May 8.—A posse of officers, accompanied by a large number of infuriated residents are searching Calhoun County for three masked robbers who, at an early hour yesterday morning, shot to death Charles Berkshire, a farmer, living near Brookville, after inhumanly torturing his wife.

The family was aroused shortly after midnight by the robbers who, after binding the wife, led the husband to the centre of the room and ordered Mrs. Berkshire to count ten, threatening that if her husband did not tell them where his money was by the tenth count, they would kill him.

The couple insisted that they had no money, but the robbers pinioned and beat the woman and applied burning matches to her feet. Screaming in agony, Mrs. Berkshire finally consented to count ten and on the tenth count a shot rang out and her husband fell dead. The robbers fled. It was hours afterwards when neighbors found the woman in such a pitiable state of collapse that it is feared she will die.

THE LANCASTER TRAGEDY

Gardiner, Who is Under Arrest, Known in Maritime Provinces

Moncton, N.B., May 8.—An Ontario detective has been here making enquiries into the antecedents of Gardiner, under arrest at Lancaster in connection with the attempted bank robbery. He learned that Gardiner had worked in Robb's machine shop at Amherst last winter, and also in the Rhodes, Currie car works as painter's apprentice, and had left in February in company with another man for Montreal, saying they intended getting work with the Grand Trunk. It was learned that he was the son of a Baptist minister in Prince Edward Island, but had not worked at pipe fitting in Amherst as he stated.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copp Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 90 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

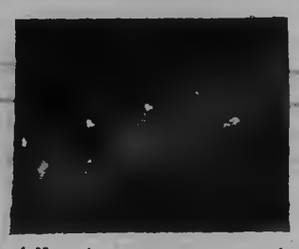
OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at mines; to install an electric power line; and install a large compressor and hoist capable of sinking the 700 at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.

CONCENTRATOR PURCHASED



We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th. Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st, 1905, these mines produced $1,300,896 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay—West of winze, intermediate drift	3685.60	1197.	$74,466.20
No. 2 Assay—Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.80

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885 38 oz. gold and 254.58 oz. silver, with a gold scales caught on screen worth $577 60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944 00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000.00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 500 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.

With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Air Carries Healing Medicine

THAT CURES COLDS, CATARRH AND DISEASES OF THE THROAT LUNGS AND BRONCHIAL TUBES

About the healing power of the air of the pine woods everybody knows, but to supply it in the form of medicine seemed almost beyond realization. After many years of careful study a scientific remedy now known as Catarrhosone has been produced which enables the sufferer to breathe into his lungs all the healing properties of the balsamic pine woods air. This marvellous remedy has conquered catarrh. It unquestionably does cure it permanently.

You cannot fail to be cured by Catarrhosone, because it reaches and destroys the cause of the disease. You simply inhale the antiseptic vapor. It instantly spreads to every part of the breathing organs. The microorganisms infecting the diseased tissues of your nose, throat and lungs die instantly. There is nothing left to cause inflammation. Any spots that are raw and sore are quickly healed by Catarrhosone and you are soon completely cured.

It is impossible to breathe through a Catarrhosone inhaler without at once feeling better. Your head is cleared of mucous discharge, your nostrils are cleansed of all putrid matter, the phlegm is removed from your throat. Every trace of catarrh is searched out of the system by Catarrhosone, which thoroughly disinfects and purifies every organ of the body.

Catarrhosone is the only natural remedy for catarrh. It cures by cleansing and purifying all diseased tissues, not by deadening the stomach by drugs. It is a clean, simple and satisfactory remedy that is endorsed by the clergy, and universally prescribed by the medical profession because it is scientific and absolutely certain to effect lasting cures.

Don't be misled into accepting a substitute for Catarrhosone, which alone can cure thoroughly. It is so powerfully healing that colds disappear in an hour, coughs in two hours and even chronic catarrh in a comparatively short time. Two months' treatment $1, sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 16 Lansdowne street, or address box 876, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

For Sale.

A good general delivery horse, quiet and reliable, price reasonable. Apply to P. V. Delaire, 268 London street.

His Initial Sermon.

The Mail and Empire's Hamilton correspondent says: "Rev. H. B. Ketchum, the new pastor of MacNab Street Presbyterian church, preached his inaugural sermon to-night."

Restaurant for Sale.

Fred E. Darcy offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darcy has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Glue Factories Need Not Apply

We must congratulate ourselves in not getting the glue factory that some weeks ago was suggested for Peterborough. This factory tried to locate in Guelph, but the people of that little city have turned down the proposition. The factory is now to be established in Brantford. We are anxious to encourage the importation of new industries, but a glue factory comes high at any price. One breath of the western wind blowing past a glue factory neutralizes every effort made by all perfumes in the world.

—Mr. J. Bogue left this morning for Alliston, where he has secured a position with the Ontario Bank.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

J. T. O'Connell Buys Choate Property

The handsome brick residence of Mrs. Arthur P. Choate, situated at the corner of Stewart street and the Clonmore road, has been purchased by Mr. J. T. O'Connell, the well-known real estate dealer. The property consists of five and a half acres, and it is understood, will be sold by Mr. O'Connell, either in whole or in part. Mr. Choate will remove to New York, where he will in future reside.

Dante Lectures Finished.

The series of lectures on Dante and his works closed at the Y.M.C.A. on Saturday night, when Rev. Prof. Clark delivered the final one of the week's course on "The Paradise." Rev. E. A. Langfeldt presided, and there was a good attendance. At the close of the lecture a hearty vote of thanks was tendered. The resolution was moved by Inspector D. Walker, seconded by Lt.-Col. Edwards, and unanimously carried.

New Books.

The following new books have been placed upon the shelves of the Public Library:

Where Does the Sky Begin?—Gladden.

The Harvest of the Sea—Dr. Grenfell.

Robert Browning—Herford.

Sandy—Hegan.

The Fugitive Blacksmith—Stewart.

Trixy—Phelps.

Medical Annual, 1905.

A Pretty Wedding

An interesting ceremony took place at 79 Grenville street, Toronto, a few days ago, uniting in the holy bonds of wedlock Walter Leonard Orde, of Winnipeg, and Miss Pauline Marion, youngest daughter of the late Walter Boswell Rubidge, of Peterborough, Ontario. The former is a well known dealer in real-estate in Manitoba, and is an uncle of Mr. Geo. F. Orde, Cashier Northern Trust Co., Chicago, formerly of Peterborough.

Redemptorist Fathers to Hold Mission.

At the different masses in St. Peter's cathedral Sunday, Rev. Father Galvin announced that a mission, to be conducted by the Redemptorist Fathers, would begin in the cathedral, commencing on May 21st, and would last two weeks. The first week would be for the women of the congregation, and the second for the men. This will be a renewal of the successful mission held in St. Peter's Cathedral last May.

Dickson Co. Drives.

Mr. Wm. Cresswell, superintendent of the Dickson Company, arrived in town Saturday from the company's limits in Anstruther and Chandos. In conversation yesterday, Mr. Cresswell stated the past season had been a most successful one, as far as the operations on the limits were concerned. The company has six drives well under way, and if the elements permit, little trouble will be experienced in bringing the season's cut to its destination. It is expected the first drive will reach the Ottawa by the first week in June.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Capt. Young, Toronto, is at the Snowden House.

—Mr. J. K. Findlay, of Carleton Place, is in town.

—Mr. Frank Young, of Young's Point, was in town yesterday.

—Mr. John J. Holland, Chicago, is registered at the National.

—Ald. Hicks has returned from a business trip to Methuen township.

—Mrs. (Rev.) C. E. Cragg, Manilla, is visiting with her father, Mr. W. Might.

—The Raffia class will meet in the Y.W.C.A. to-night in the new building.

—Miss Orr, of Peterborough, was a guest of Miss M. Morrison in Omemee last week.

—Mr. and Mrs. Peter Larmonth, of Ottawa, are visiting their son, Mr. J. H. Larmonth.

—Mr. A. R. Taylor, of the Heintzman Piano Company, Toronto, is in town on business.

—Mr. James Eadie, of Toronto, secretary of the Retail Grocers' Association, is at the National.

—Miss Isabel MacBeth, daughter of Colonel MacBeth, London, Ont., is visiting Mrs. Collins, McDonnell St.

—Mr. W. Caldwell, of Bowmanville, who has been the guest of his brother, Mr. T. Caldwell, returned home yesterday.

—Mr. and Mrs. W. B. McAllister, of Ottawa, who have been visiting their son, Mr. C. B. McAllister, have returned home.

—Mr. D. Hughes-Charles will leave for Montreal to-morrow, where he will act as one of the judges of the spring horse show.

—Mr. Wm. Prendergast, of Toronto one of the Provincial Separate School Inspectors, is in town on official business.

—Mrs. W. E. Wasson will receive at 376 Stewart street for the first time since her marriage on Wednesday afternoon and evening.

—Mr. J. J. McBain to-day started the excavation for a new brick house on Water street, near the corner of London street.

—Mrs. W. A. Fobert, Buffalo, who has been visiting his parents, Mr. and Mrs. L. G. Fobert, Bridgenorth, for a week, has returned home.

—Mrs. Campbell and Miss McKay, who were here for the convention last week, and were staying at Mr. Aaron Comstock's, returned to Chatham yesterday.

—Miss Katie Hazlett, a graduate of the Peterborough Business College left yesterday for Havelock, where she has accepted a situation as bookkeeper.

—Mrs. Van Fleet and Miss Turner, of Brantford, who have been the guests of Mrs. R. A. Dutton for the past ten days, returned to their homes yesterday.

—Mr. Miles Hamilton and son, Robert, spent Sunday in Hamilton, and will be accompanied, on his return, by his son, Beresford, who has been visiting friends there since Easter.

—Miss E. Stephens left yesterday for Toronto, where she will join Mrs. A. L. Davis, going to Clifton Springs for three weeks. During her absence Miss Charlotte English will take the organ at St. John's church.

—We are pleased to learn that Mrs. Lorne Brooks, of Mark street, who, as noted in yesterday's issue, was seriously injured last Saturday, by a piece of broken china entering her side, is rapidly recovering.

—Mr. F. W. Stubbs, who has just completed a course at S.P.S., Toronto, has accepted a position with the Goldie & McCullough Co., Galt, and will leave town to enter upon his duties in the course of a few days.

—Mr. John Johnston, formerly owner of the Millbrook Electric Light Plant, has moved with his family to Holland Center. He has gone back to his former business, that of milling, and has purchased a large mill.

—Rev. R. M. Phalen, B.A., of Blackstock, preached in the Centerville Presbyterian church on Sunday. He is likely to receive a call to the pastorate of the church. He is a Nova Scotian by birth and a graduate of Queen's University, Kingston.

—The Synod of Toronto and Kingston will hold its annual meeting in Toronto to-day, Wednesday and Thursday of this week. Among those who will attend are Rev. Dr. Torrance and Mr. J. Coyle Brown, of St. Paul's church; Rev. J. G. Potter and Mr. William Fowler of St. Andrew's church and Rev. William Bennett.

—Mr. Danny Costello of Rochester, N.Y., is in town for a week's holidays, during which he is renewing old acquaintances, who are pleased to hear of his success across the line. Mr. Costello, who is at present engaged with the Rochester Democrat and Chronicle, is an old Peterborough boy, and was for several years connected with our esteemed evening contemporary the Examiner.

Obituary.

Mr. John Doyell, County Councillor, Ex-Reeve of Otonabee Died Yesterday.

In our issue of yesterday's date we noted that Mr. John Doyell, of Otonabee, county councillor, and ex-Reeve of Otonabee, had on Saturday morning undergone a serious operation, and was in a critical state. We regret to state that this well known, and universally respected gentleman passed away, at the age of 69, yesterday afternoon at three o'clock, as a result of attack following the operation, at his residence in Otonabee just below the Locks Bridge, on the River Road.

Mr. Doyell was one of the best known and most generally liked men in this district; he resigned the position of Reeve of Otonabee, when elected county councillor this year.

Mr. Doyell leaves to mourn his loss his sons Ernest, Herbert, John and Roy, two daughters, one married and one still at home, and his brother Samuel and Robert.

The funeral, from his residence, will take place to-morrow at 2.30 p.m.

Sad Death of Mrs. Frank Dixon

A very sad and comparatively sudden death took place yesterday afternoon at the Nicholls Hospital.

Mrs. Frank Dixon, of Oakwa, came here about two weeks ago to visit her father, Mr. John Tighe, of Smith street, she having with her an infant child, and not feeling in robust health. She was taken to the hospital last Thursday, as her condition was far from satisfactory, and yesterday afternoon died there aged 25 years. She leaves to mourn her loss, among other friends and relatives, her husband, and an infant child.

The funeral will take place on Wednesday to Ray's cemetery, near Lake field.

Good Lecture in Council Chamber

The general public is cordially invited, as well as all members of the Board of Trade, to the address which will be delivered in the Town Council chamber this evening by Mr. J. D. Allan, President of the Toronto Board of Trade. Mr. Allan will speak on "The Growth and Expansion of Business Enterprises in Russia," and is well worth going to hear. Mr. Allan by his frequent visits to Russia and his large business relations with that country has a thorough grasp of the subject.

HOW TO AVOID GERM DISEASES

Strengthen the Stomach and Digestion, and You Will Keep Well

When there is an epidemic of germ disease, and most diseases are caused by germs, it is the person with a weak stomach who succumbs first.

People with healthy digestion are ordinarily not subject to sickness, and can throw off readily any disease germs that enter the system.

Strengthen the stomach and digestive organs with a Mi-o-na tablet before each meal, and every atom of food taken into the stomach will be digested and assimilated, and the whole digestive system made so healthy, clean and sweet that there will be no chance for disease germs to breed.

If you suffer with pains or distress after eating, headache, belching of gases, sour food, a bad taste in the mouth, dizziness, pains in the heart, specks before the eyes, and a general feeling of despondency and weakness, you should get well at once by strengthening the stomach with Mi-o-na. Just one small tablet out of a fifty cent box before eating, and your digestive system will become so strong that you will be the embodiment of good health and spirits, and need fear no germ diseases.

Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na; it costs nothing unless it cures.

When a woman is nervous her imagination gives fantastic and threatening shapes to the most familiar objects. By day she starts in fear at every sudden or unfamiliar sound. By night the furniture of her room takes on affrighting forms of ghost or goblin. You can't reason with the nerves. Neither logic nor love can quiet them. They must be nourished and then the outcry of the nerves will cease as naturally as a hungry child ceases to cry when fed.

For nervous women there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It cures the diseases which produce nervousness in women, irregularity, debilitating drains, inflammation, ulceration and female weakness. It tranquillizes the nerves, encourages the appetite, and induces refreshing sleep.

"When I began taking your medicine I was not able to stand on my feet ten minutes at a time," writes Mrs. Hattie Borradaile, of 123 Spring Street, Nashville, Tenn. "Had a falling of uterus, and kidney and liver disease, and was so weak and nervous I could not keep still. Would take nervous spells and almost die at times. I had several different doctors attending, but they could not do me any good. The last one I had said I would never get well again. Told him that I was taking your 'Favorite Prescription' and 'Golden Medical Discovery,' and he said, 'Might just as well take that much water each day.' But I thought I would give the medicine a fair trial. Before I had finished the first two bottles I was able to get outside the house and walk around the yard. I kept on taking the medicines and they cured me."

Dr. Pierce's Pellets cure biliousness.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Board of Works will meet on Thursday night.

—The W.A., of St. Luke's will meet on Thursday at 2.30 p.m.

—A meeting of the Fire, Water and Light Committee will be held to-night.

—The annual entertainment of the Grace church, Sunday school will be held on Friday night.

—A meeting of the Men's Guild of St. Luke's was held last night in the Guild room.

—Dr. W. W. McKinley, of Port Hope, has been appointed Coroner for Durham and Northumberland.

—The horticultural Society are ready to distribute bulbs to members. They can be had at office of Mr. Dumble.

—An Ottawa despatch publishes the list of men chosen for the Bisley team and Col. Serg. W. H. Moore is one of the list.

—The medical health officer states that there are no contagious diseases in town, and that the general health is good.

—Mr. Walter Stocker is erecting two brick houses on Perry street, at the corner of Benthune. They will be neat, substantial dwellings.

—Miss Margaret Bryce, of Keene, the new soprano leader of St. Andrew's church choir, will begin her duties on Sunday next.

The Great Sea Battle Has Been Delayed

Junction of Nebogatoff's and Rojestvensky's Squadrons Makes It Improbable That a Big Naval Engagement will Take Place South of Formosa.

The junction of Nebogatoff's and Rojestvensky's squadrons makes it improbable that a big naval engagement will take place south of Formosa, while it is possible no general sea fight will occur before the Russian fleet attempts to pass the Korean Straits. If it had been the intention of Admiral Togo to attack Rojestvensky in the China Sea, he would surely have attacked soon after the Russian fleet first arrived at Kamranh, with the ships' coal and food supplies about exhausted, their bottoms in foul condition, and their crews wearied with their long uninterrupted voyage from Madagascar; or again, he would have attacked before a junction with Nebogatoff was possible. Having failed to do so, it is almost safe to assume that the Japanese Admiral has decided not to be beguiled away from his base, but to make the enemy fight him on his own ground. As Nebogatoff's warships are greatly in need of re-provisioning, and Rojestvensky is still 1,000 miles from Formosa and nearly 2,000 miles from the Straits of Korea, this means that a decisive naval battle is not likely to take place inside of the next two weeks.

GETTING READY FOR HIS DEFEAT

Czar and Grand Dukes Are Putting Favorites at Military Posts

FIERCE THE WARSAW RIOTS

The Czar Was Kept in Total Ignorance of the Killing

St. Petersburg, May 10. — Fearing revolution will follow should Rojestvensky be defeated the Czar and Grand Dukes are seeking to get favorites on whom they can rely appointed to important military posts. The opposition is divided into autocratic constitutionalists. The bureaucracy is supporting Shipoff, the leader of the autocratists, who acted on Boulligan's commission. Revolutionists, manufacturers, professional men and all the non-Russians including Poles, Jews and Finns support the constitutional party.

While women and children were being shot at Warsaw the Czar was reviewing the troops at Tsarske Selo. Nicholas was deliberately left in ignorance of what was happening. The government's explanation that the riots were due to Jewish dissatisfaction because the committee on ministers tabled the Jewish question is not true. The non-Jewish centers are more violent.

As in St. Petersburg, the Warsaw police permitted the people to assemble. The troops then surrounded the crowds and fired into them. The official number killed is 60. The situation in Warsaw hourly becomes more grave. The soldiers are Russians, while the population consists of Poles and Jews. Hence race hatred enters into the struggle.

Rioting is taking place in Riga, Odessa and Tiflis. A parade was held today at the Isaac cathedral in honor of the Czarina's birthday. While the function was proceeding M. Boulligan, Minister of the Interior, detected an officer whose appearance and actions seemed suspicious. He was searched and in a Kodak camera box, which he carried, was found a number of bombs.

NO PLOT AGAINST BRAZIL

Hotely Recruiting for the Republic of Cunani

Madrid, May 9.—Sarrion de Herrera, ex-King-at-Arms at the Royal Palace, who was arrested on the charge of conspiring against the Brazilian Government, was arraigned before an examining magistrate today. He declared that the independence of the South American Republic of Cunani, the interests of which he represented, had been recognized since 1872. He was in Madrid in the capacity of Minister of Cunani to Spain, Morocco and the holy see. He maintained that recruiting in Great Britain, France and Spain for an army for Cunani was legal. He denied that there was any plot against Brazil, whose diplomatic relations with Cunani were most cordial.

WILL ROBLIN GO TO COUNTRY

Persistent Rumors Rife in Winnipeg

A PROPITIOUS CHANCE

Voters Lists Entirely Favorable and Conditions Suit the Government Exactly

Toronto, May 10.—A special from Winnipeg says: "In various quarters, which should be well informed, there are circulating statements that it is the intention of the Roblin Government to hold a general election this summer.

"The friends of the Conservative party figure out that the revision of the lists to be held on June 1st will give them an overwhelming party advantage—an advantage that cannot possibly recur at any time during the life of the Roblin government. The lists as at present constituted are enormously in favor of the government, and no possible effort on the part of the Liberals can hope to give them anything like an even chance for an appeal to the electorate in the seven and a half hours that is all the time allowed for registration.

"Friends of the government have asserted that this is an off year, that the revision is merely to have legal lists in the event of a bye-election through the death or resignation of a member.

"Reliable information goes to show that this attempted justification of thousands of voters is a mere pretence to quiet public opinion until the local government can reap to the full all the advantages derivable from the lists loaded against Liberals.

"The intention is to ask for a dissolution late in July or early in August. Whether the Lieut.-Governor complies with the request is of small moment to the government. If he complies, well and good. If he refuses the government will resign and their resignation will compel a general election, the result of which on the incomplete lists will, they are confident, be a foregone conclusion, returning Mr. Roblin and his colleagues triumphantly for another term."

ALL SAINTS' CHURCH

Will Construct an Extension to South of Present Edifice.

The adjourned meeting of All Saints' vestry was held on Monday evening in the school room, and was well attended.

Rev. W. Major, the rector, presided. The different reports presented showed a remarkable growth in the work of the church, and the year just closed has been the most successful in the history of All Saints.'

Messrs. Bell and Hooper presented their report, which showed a most encouraging financial aspect. The total income from all courses during the year amounted to nearly $4,200.

Mrs. Gilbert, treasurer of the Women's Auxiliary presented the report from that branch, which was adopted. This organization has had a most successful year.

The report of the Junior W. A. presented by Mrs. Rhoin, was also of a highly satisfactory nature, as was also the report of the Chancel Guild presented by Mrs. Gilbert.

Messrs. W. H. Dayman, was elected as rector's warden, and F. Wise as people's warden.

As a mark of appreciation of the services rendered the congregation by the esteemed pastor, Rev. Mr. Major, and as an evidence of the high regard in which he is held, a substantial increase was made in the year stipend.

The congregation presented Mr. Edgar as a token of appreciation of services rendered, with a very handsomely bound prayer book.

A resolution was passed in favor of the adoption of a general hymnal for the whole church.

ENLARGING CHURCH.

A discussion then followed on the proposed plans for the enlarging of the present church or building a new edifice, and the popular vote taken showed that a majority was in favor of an extension of the present building along the lines submitted by Mr. J. E. Belcher, architect.

The Advisory Board was authorized to proceed with the necessary steps in order to have the specifications drawn up at once, and the extension proceeded with at the earliest possible date.

The proposed extension will be erected on Rubidge street immediately south of the building.

ST. MARK'S CHURCH

Satisfactory Financial Report Made to Annual Vestry Meeting

The adjourned vestry meeting of St. Mark's church was held on Monday, May 8, Rev. E. A. Langfeldt appointed Mr. Abner Collins, rector's warden, and the people elected Mr. Robert Scollie, people's warden. Dr. H. C. Burritt and Mr. Robert Parker, of Toronto, and Mr. Barlow Cumberland, of Port Hope, were elected lay delegates to the Synod. The finances of the church are in a satisfactory condition, a total expenditure of $352.12 being fully met by the givings of the people. $53.00 of this amount was given to the cause of missions. A vote of thanks was passed to the organist, Mrs. R. Scollie, and a sum of money was voted her as a mark of appreciation. It was decided to paint the interior of the church, and the wardens were authorized to take the necessary steps. A subscription list was circulated, which resulted in $33 being subscribed at the meeting. A vote of thanks was passed to St. Luke's choir and organist for the excellent music rendered at last Sunday's service at St. Mark's. The meeting then adjourned. Rev. E. A. Langfeldt pronouncing the benediction.

Much sympathy is felt by the congregation of St. Mark's with Mrs. James Thorne, whose father, Mr. John Deyell, died last Monday.

SPLENDID PARK PROGRAMME.

Mr. Ryan, Proprietor of the New Park at the South End, Announces His Intentions.

As noted in yesterday's issue, arrangements have been under consideration by Mr. J. H. Ryan, proprietor of the new park at the south end. Mr. Ryan is now in town and has announced the attractions that will be presented.

The opening on May 24th will be of a gigantic nature. A number of high class attractions have been booked especially for this occasion. Among these will be Irwin's Troupe of Trained Dogs, one of which does a leap of 50 feet from a tower. Another will be the Beasleys, acrobatic and musical artists. A number of amusing competitions for prizes will also be presented.

Throughout the summer the park, which will be known as the Peterborough Pleasure Park, will remain constantly open, with vaudeville performances twice daily, afternoon and evening, at which the attractions will, of course, be of a varied character. An orchestra has also been provided for. These will be held in a large tent, 50x100 feet, with good seating accommodation. Another tent, 30x40 feet in size, will contain electric slot machines of various kinds, as well as candy floss machines. All legitimate amusements such as ball throwing, etc., a gypsy camps and other novelties, will also be installed, space for these being now rented. A Ferris wheel and a miniature railway will also be placed in position before the season is over in all probability.

The attractions in short, Mr. Ryan claims will be as complete as those to be found at any park of the kind in America. It will be open for use free to excursions and picnic parties, though a moderate charge will of course be made to witness the performances.

SOME REAL ESTATE CHANGES

Sale of Peterborough Property Made by Messrs. J. T. O'Connell & Co. This Year.

Never perhaps in the history of this town has there been a more brisk demand for, and exchange of, real estate in Peterborough, in five months.

C. Chambo, lot Rubidge street, to Walker Stocker.

W. Davidson, lot Concession street, 5th ward, to David Flynn.

J. T. O'Connell, lot Reid street, to J. McCullough, Toronto.

THE BILL PASSED YESTERDAY.

Private Bills Committee Decided to Recommend Our Incorporation as a City.

Yesterday's decision by the Private Bills Committee was anxiously awaited by thousands of those opposing the idea of our being a city by act of our Council, and by hundreds of those advocating the same.

Quite a large delegation went up to Toronto to help enforce their opinions, but only Messrs. E. H. D. Hall and R. M. Dennistoun for the affirmative, and G. W. Hatton and Jas. Kendry for the opposition were heard.

Among those in attendance, were; Mayor Best, Ald. Hicks, Adams, Hall, Mason and Leary; Town Solicitor E. H. D Hall, Mr. R M. Dennistoun, Mr. T. F. Matthews, Mr. James Kendry, Mr. G. W. Hatton, and others.

Mr. H. Carscallon, the chairman, said at the beginning that all the clauses of the bill had been agreed upon by the committee except the incorporation clauses. Addresses in favor of the bill were made by E. H.D. Hall and R. M. Dennistoun, who appeared for the school board. Mr. G. W. Hatton and Mr. James Kendry were heard in opposition to the incorporation clause. They argued that the people were not in favor of incorporation and that the project had been nursed secretly by the Council and "sprung upon the people." Incorporation would increase the expenses of the town in many ways and Mr. Hatton specified licenses as one thing that would be increased. In answer to a question he said he did not represent the license-holders. The committee, when the chairman asked "Shall we check Peterborough," said "No," and when he put the formal motion to report the bill respecting Peterborough including the incorporation clause there was an unanimous vote in favor of reporting the bill to the House this afternoon.

Whilst we have consistently opposed this idea, since it first leaked out in public, believing that a sweeping majority of the ratepayers and citizens of the town would have overwhelmed the proposition, had the Council consulted them, we think, should the incorporation be forced upon us by the Legislature, that we ought all to stifle private resentment and regret and pitch in to keep the young City of Peterborough to the front as well as was the "Best town in Canada," ever patriotically endorsed and assisted by every one of her citizens.

AT HOME WITH THE RUSSIANS.

Mr. J. D. Allan, President Toronto Board of Trade, Lectures on Russia.

Last night a very meagre audience, far out of keeping, in size, with the unusual interest of the address, gathered in the Council chamber to hear Mr. J. D. Allan, deliver a lecture on Russian business methods. Doubtless, many persons, outside of merchants and Board of Trade members, would gladly have availed themselves of this unique pleasure had they known, that the eloquent speaker was to touch on matters of general interest rather more than on the comparatively line of business methods and comparisons, as viewed by the public. Mr. Allan's lecture however, was one that would have been of interest to even a child of intelligence, so broad was the field of his subjects. Among other subjects of general interest, he touched upon the written language of Russia, in which there are 38 letters, each of which has no connection, as ours have, with the others, and stated that, contrary to general belief, their language is not ecclesiastical. He also gave a very interesting account of Russia's postal growth and importance. The speaker among other matters gave a most interesting account of Russia's wonderful industrial progress, and explained their system of village factions, which 200 working days of the year, furnished work for the peasantry, and how the government advanced money to communities that had not sufficient capital to get raw material. Mr Allan amused the audience by describing how doctors were paid by patients, that a doctor there never rendered a bill, but was paid by his patient as the patient considered he could or would afford. The lecture throughout bristled with interesting points, sometimes illustrated by well told anecdotes, in an eloquent manner. In short the few present, thoroughly enjoyed the evening, and the many absent, although cordially invited by our local Board of Trade, missed an enjoyable literary and descriptive treat. The chamber was not one-quarter filled.

Among those present were noticed; Messrs. Hughes Charles in the chair, Edwards, Fair, LeBrun, A. H Stratton, Dr. Eastwood, R. R. Rogers, Mc. F. Wilson, Quartermaine, Roger, Eardley-Wilmot, Matthews, Edmonson, Leary and Davidson.

Police Court

OFFICIALS

Chief of Police, O.I. Rorel
Magistrate, D.W.Dumble

Yesterday morning's court witnessed one of the most complex and complicated cases heard here lately. The case was that of a charge laid by one McElvela, who charged a man named Ferguson, of 281 Reid street, with having changed, or in the vernacular "switched," a good Waltham movement in his (McElvela's) watch to a cheap grade movement worth $2.50, if anything. It appeared by the evidence of complainant, in part corroborated by that of defendant, that McElvela had borrowed $4.50 from Ferguson, last March, and had given his watch, as security.

The complainant said that he lives in Warsaw. During the last week March he had been on a spree in Peterborough, and wanted to raise the wherewithal to still worship at the shrine of Bacchus. He met Ferguson, the defendant, on the street and asked him for $5; defendant only had $3.50 about him and let him have this, accepting the watch as security. Next day, as complainant had run through the $3.50 received, he went, after visiting several hotels, to the Y.W.C.A., where defendant was working, and got $1 more on the watch. No particular time had been fixed for repayment of the loan. Here complainant, consulting a note-book in his pocket, gave the numbers of the case and movement of his watch. Said he gave $30 for the watch to a peddler on the North Shore, and that the watch had a "Crescent City" Waltham movement, and filled case. The defendant had not charged him anything for the accommodation. On Saturday evening, after getting the $1 additional from defendant he went to the Munro House and went to bed. On arising Sunday morning, he discovered that his watch had not gained any from the time he had set it the preceding evening, so investigated its interior: he then claimed to have noticed that his Waltham movement had been removed and a cheap movement subscribed for it, so laid information.

Under cross examination by Mr. Kerr, defendant's counsel, the complainant got literally tied up in a knot in his evidence. To get head or tail out of his meaning would be like taking half a mile of twine mixed up in three quarts of fish hooks and a pound or two of bent wire and trying to unravel the combination.

Two local jewellers gave evidence which showed that the complainant had tried to borrow money on or sell them the watch previous to his giving it as security to defendant for the loan. They both identified the case of the watch produced in court as the one McElvela had had in the respective places of business, but both concurred in saying that the cheap movement was not that which was in complainant's watch when he tried to pawn it with them.

The defendant practically corroborated the story told by complainant about the watch loan transaction, but denied having "switched" the movement. He said he had, shortly after receiving the watch as security, taken it to one of the jewellers who had previously testified, and ascertained its value, but had then put it away in his trunk, and had not seen it since, until he returned it on getting his money back on Monday last.

He further said neither his room door nor trunk were kept locked, so that others might possibly have had access to the watch whilst in his possession.

His Worship in summing up the case, said as defendant had told such a straight story, and his financial affairs did not necessitate his trying to steal the movement, and as he was not a man likely to know the fine distinctions between the various watch movement values, he discharged him without anything against his name in honor, in fact an honorable discharge.

He then gave the complaintant a 'dressing down," commenting on the trouble that his "nasty drinking habits" had caused both to defendant, and regretting the expense this case had been to the town.

There is an old saying, "Don't swap horses whilst crossing a stream," which might be modernized to "Don't loan money, on a watch to a man or a spree," or vice versa.

RECEIVES PAINFUL INJURIES.

Mr. Frank White, a Foreman in the Cereal Works, Meets with a Painful Accident.

Yesterday a very serious accident occurred in the elevator of the American Cereal Company's mill, when Mr. Francis White, a foreman in the employ of the company received painful injuries by being caught in a belt. His left arm was broken in two places just above the wrist, and was also badly crushed. Mr. White was also injured about the head.

It seems that Mr. White was working at the top of the elevator. One of the bearings of the machinery ran dry, and Mr. White had attempted to oil it, his coat sleeve becoming entangled in the conveyor belt, and he sustained the above mentioned injuries before the machinery could be stopped. He received the cut on his head by being thrown forward on the apparatus, part of which had to be removed before the unfortunate man could be released. Mr. White bore the intense pain he was suffering very bravely while this was being done.

He was at once removed to his home and his injuries were attended to by Drs. Morgan and Eastwood. He is doing as well as can be expected, and a speedy recovery is looked forward to by his many friends.

Senator Cox's Investment in Montreal.

Montreal, May 10.—It was officially announced to-day by the National Trust Company that they had purchased the property on the corner of St. Catherine and Peel streets, from the Royal Land Company for Hon Geo. A. Cox of Toronto, and that the purchase had been made for investment, and no decision had been reached by the Senator as to how it would be used. The two buildings, which cost in the neighborhood of $360,000, are well rented, and are situated in the best corner in the retail section of the city.

Mr. A. B. Aylesworth May Enter Cabinet.

Ottawa, May 10.—It is well known that Sir Wilfrid Laurier has been most anxious for several years to enlist the services of Mr. A. B. Aylesworth, K.C., the eminent Toronto lawyer, for his Cabinet, and there is a very general impression that the present vacancy in the Government gives the Premier the opportunity of adding Mr. Aylesworth's recognized ability and probity to the Cabinet Councils. The hope is very generally expressed that Mr. Aylesworth may be induced to enter the Administration, and, although no one is able to speak with authority on the subject, a good many think that Mr. Aylesworth called either to the vacant Department of Public Works or by a re-arrangement of portfolios to the Department of Justice.

Fire Water and Light Com. Lay no Charges Against Fire Brigade

Chief Rutherford and His Executive Appeared Before the Committee Last Night and Demanded Either Proof or Retraction--Neither the Chief or the Committee Had Any Man to Report for Misconduct.

The Fire, Water and Light Committee met last night, when there were present; Aldermen Johnston, chairman; and Aldermen, Tovey, McIntyre Crowe, Hicks and Hall.

The Executive of the Fire Brigade, consisting of Chief Rutherford, Assistant Chief C. W. Turner, Secretary Jas. Metheral and Treasurer W. Adamson appeared before the committee in answer to alleged charges made in Committee of the Whole Council and demanded an explanation.

Chief Thos. Rutherford complained that he understood that strong charges had been made by certain aldermen against the brigade in Committee of the Whole Council, and the brigade demanded that those aldermen either prove in open Council their allegations on retract. The names of the aldermen concerned were expressed, hence the brigade were not in a position to proceed against them openly After having been Chief of the Fire Brigade for 25 years or more, he objected to his men being charged with drunkenness, gambling, or something even worse be understood, without those charges being substantiated. This is a question which effects the private character of a body of men who are on the whole as good and respectable a class of citizens as any in Peterborough. Many of these men have served from 20 to 25 years on the brigade literally for nothing, and by their united efforts have placed the town on as good a footing with the underwriters as any town in Canada. And the brigade is as efficient as any in the country.

Mr. C. W. Turner concurred in the remarks of his chief, and urged that the charges must be withdrawn for they certainly cannot be proven.

Mr. Jas. Metheral said the press notices of the committee meeting in question claimed that one alderman had characterized some firemen as drones, and the brigade demanded that allegation either withdrawn or substantiated.

Mr. W. Adamson agreed with his colleagues, and offered that the alderman or aldermen making any charge against the brigade should name the alleged offenders.

Ald. Hicks was of the opinion that matters were not taking the right course. The charges were made in Committee of the Whole Council, and while certain questions were referred to the Fire, Water and Light Committee, he was not aware that any member of that committee had passed any derogratory remarks concerning the Fire Brigade. The Committee of the Whole should deal with this question.

Chief Rutherford—"I appeared before the Council and they referred me to this committee."

Ald. Hall thought the Fire, Water and Light Committee the proper board to investigate the matter. I have no doubt strong remarks were made in Committee of the Whole, and I said we have men on our brigade the equal of any in Canada. It certainly is not fair to brand the whole brigade for the alleged irregularities of one or two who may not at present be connected with the institution. This committee knows nothing of the personality of the brigade. If the Chief reports any irregularity then it is our duty to act. The Council relies on the advice of the Chief.

Chief Rutherford replied that the Council has nothing to do with the brigade, which is a volunteer one under control of the Chief, who reports his actions to the Civic Board. In ten or fifteen years, I have only had occasion to release seven members and for reasons not to their discredit; and in only one instance have I had occasion to discharge a man for not attending to his duty. It was unfair to lay charges against one or two firemen without naming them. I keep a watchful eye over the men, and I have as good a brigade as could be picked up in Peterborough. We want the men named whom the Council think guilty of misdemeanor if proven guilty they will be discharged.

Ald. Crowe—"A report was sent in by the Chief of a man who didnot attend to his duty, and the Fire, Water and Light Committee acted on it. Was that not satisfactory?"

Ald. Crowe referred to the discharge of Montgomery.

Chief Rutherford—"I did not send in any charge against him at that time. I think the committee acted on their own responsibility."

Ald. Crowe—"I am the man who moved that he be discharged, and anything I have said I won't retract." Ald. Crowe then went on to say that during 25 years observation of things in general around the fire hall he had seen things not altogether regular, although on the whole he could not say that the brigade is worse than any other body of men. He supposed that men will occasionally abuse privileges. There were some three or four years ago men guilty of actions not altogether creditable, but he did not know whether they were members of the brigade now or not.

Ald. Hicks—"We are wasting time. This committee has made no charge against the brigade."

Chief Rutherford—"I would like this committee to understand that neither I nor the Council have any control of the men when off duty; we have nothing to do with their individual character. I encourage the men to assemble at the hall and join in social games; by this means they are at hand when wanted."

Ald. Hall—"You are the man, Chief responsible. If there was anything irregular you would report to us."

Chief Rutherford—"We have rules in our by-laws governing the conduct of the men, and they are fined for any violation of them."

Mr. Jas. Metheral pointed out that the brigade by-laws prohibited the use of liquor in the hall.

The Town Clerk straightened matters by reading from the minutes that the motion authorized the Fire, water and Light Committee to investigate any irregularities of the employes of the Fire Department. No mention was made of the brigade.

Ald. Hicks—"This committee has no charge against the brigade."

Chief Rutherford—"And I have no man to report.

Ald. Tovey thought that some of the Council were letting back at the Fire, Water and Light Committee because they stood by their action in discharging Montgomery. He himself, had quashed two resolutions referring that question back to the committee. "We told you five until charges are made against you."

This ended the investigation, and the firemen left.

HYDRANTS AND LIGHT.

The committee decided to recommend the placing of a hydrant at the corner of Stewart and Perry streets; also one at the corner of Union and Edinburg streets, and another at the corner of Reid and Downie streets; all three subject to the approval of the water commissioners.

PARNELL ENGAGED.

The committee decided to recommend the regular engagement of R. Parnell as driver in the fire department at a salary of $450 a year.

The committee then adjourned.

SMALLEST STATIONERY ENGINE IN THE WORLD

It Runs by Steam, Rests on a Five-Cent Piece and is the Invention of an Indiana Man

Muncie, Ind., May 10.—The smallest stationary engine in the world, as far as its maker can learn, rests entirely on a 5-cent piece. It is owned and was made by John H. Cunningham, a jeweler, of Eaton, which is a small town ten miles north of Muncie. Cunningham has a fad for making miniature machinery.

The little engine operates at a remarkable rate of speed under a pound of steam. So small are some of the parts that a magnifying glass is necessary to make a proper examination of them. The screws that hold the parts together are made from needles, the threads being so fine as to defy the naked eye. The screws are a faction of a millimeter in diameter. The flywheel measures about three-eighths of an inch in diameter. It was turned from steel by Cunningham, who says it is the largest wheel that the engine will turn.

KING'S LATEST PRANK

Alfonso Orders Band to Play, Each Man a Different Tune

Madrid, May 10.—The Royal Palace was thrown into consternation last night by one of the King's new pranks. He disturbed everybody in the palace by forcing the band to play, each member attempting a different tune. The Queen mother's were sent to learn the cause of the disturbance, but were unable to prevent it.

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down.

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite?—I simply didn't have any.

"Sleepless?—Yes, nervous and unhappy too.

"I braced up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong. I eat heartily, I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 1 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

RADIUM, CANCER AND CONSUMPTION

So many experiments with radium as a cure for cancer have recently been made in this country and Europe that hopes of what the remedy will accomplish have suddenly become high. In a Stuttgart hospital a number of cases of lupus have been cured by the use of the radium solution, with which the diseased flesh has been coated, and several interesting experiments are now being made in New York, as well as in other cities.

The X-ray was the predecessor of radium in such experiments, and good results seem to be possible from it. When radium was discovered and it was learned that of the three kinds of rays given off by the new metal one was very closely akin to, if not identical with, the X-rays, the use of radium naturally suggested itself, especially as it could be so much more readily handled.

At first the radium was inclosed in a small glass tube, but it was found that the glass cut off some of the rays, and so an aluminium or platinum tube was used instead. Of late a solution of radium salt has been used to coat a rod, disk, or open tube, and a coat of collodion has been painted over it to protect it. The rod can be brought into contact with cancerous growths, as, for instance, those in the throat, with comparative ease. Surface growths can be painted with the solution directly.

The suggestion was made several years ago that radium might be useful in the treatment of consumption for the destruction of the bacilli. No good experiments on this line have been reported, but Dr. Lieber, of New York, has prepared an apparatus by which a current of air can be driven through a tube coated with radium and thence into the lungs. It is hoped that the emanations of the radium will be deposited on the diseased surface in such a way that their curative powers can be tested.

It will doubtless take some years before the best methods of using the rays are devised, and the value of the treatment is ascertained, but certainly there is every reason to believe that the labor that is being expended on the experiments is well worth while.

THE TERMS OF PEACE

Adachi Kinnosuke discusses in the May number of the North American Review, the "Probable Japanese Terms of Peace." At the head of his article, the writer quotes the second section of the Shimonoseki treaty, providing for the cession of Port Arthur to the Japanese after the war between China and Japan, the section which Japan was compelled to revise by the combined pressure of Russia, France and Germany. The reassertion of the provisions of this section of the treaty, Mr. Kinnosuke thinks, will be the first item in the peace terms.

The object which Japan keeps steadily in view, in the prosecution of the war with Russia, is the establishment of such conditions in the far East as will absolutely guarantee her national existence and safety and the peace terms she will make, if she succeeds, will involve concession which will secure this object.

Mr. Kinnosuke suggests that Japan will claim the Russian war vessels now dismantled in neutral waters, as well as the vessels of the Vladivostok fleet, and that she will require the Czar to agree that he will not send any more war vessels to the Pacific.

The restoration to Japan of the Island of Saghalien must also be demanded. Manchuria will be restored to China by Japan, under a guarantee from Great Britain, the United States and Japan herself that the Province will never again be leased or ceded to a foreign power; and, in return, China will be asked to open to the commerce of the world a number of her provinces and ports which are now closed.

THE LATEST ILLUMINANT

A new portable lamp, as compact and light as an ordinary oil lamp, fed by cheap wood alcohol, is now used in France and Germany in place of the oil lamp. It is said that this lamp is more easily operated and apparently safer than the best lamps in common use for the burning of petroleum. The alcohol flame, of course, gives little or no light of itself, but by the use of a mantle, the alcohol flame produces a brilliant incandescent light of the highest order.

In Germany and other countries of the continent of Europe alcohol is manufactured for the mechanical arts in prodigious quantities and at a very low cost. A large part of the immense potato crop of Germany is devoted to the making of alcohol. It is claimed that in a very large part of Europe the burning of wood alcohol in a lamp with an incandescent mantle will furnish industry at least equal to that can be obtained from any oil lamp now in use.

The suggestion is made that the vast forests of Canada are favorable to the development of a wood alcohol industry at least equal to that of continental Europe in the bulk of the product and its low cost. If wood alcohol can be produced on a great scale and marketed on terms which will cut under the cost of oil lamps, it needs no prophetic eye to foresee a new and most interesting rival in the field long practically monopolized by the richest and most successful of the industrial trusts.

NOTICE

Take notice that the Municipal Council of the Corporation of the Town of Peterborough intends, after one month after the last publication of this notice, to undertake the construction of granolithic sidewalks on the following streets or parts of streets in the Town of Peterborough, as local improvements, under section 678 on the Consolidated Municipal Act, 1903, and the other provisions of the said Act, and the By-laws of the said town relating to local improvements and applicable thereto:

Hunter Street, both sides, from Bethune to Rubidge Street; Simcoe Street, both sides, from Bethune Street to Rubidge Street; London Street, north side, from Aylmer to Reid Street; Antrim Street, north side, from George Street to the Grand Trunk Railway; Reid Street, east side, from McDonnell to Hall Street; Brock Street, south side, from George to Water Street; Brock Street, north side, from Rubidge to Reid Street; Queen Street, west side, from Hunter to Simcoe Street; Murray Street, north side, from College to Dickson Street; Bethune Street, east side, from McDonnell to London Street; Simcoe Street, north side, from Water to Queen Street; Water Street, west side, Simcoe Street to the Market Square; McDonnell Street, north side, from Downie to Park Street; Argyle Street, south side, from Water to Sunnyside Street; Hunter Street East, south side, Mark to Rogers Street; Rogers Street, west side, Hunter to Robinson Street; Rogers Street, west side, lot 5, plan 17 to Hazlitt Street; Smith Street, south side, Water to Harvey Street; Edinburgh Street, north side, from George Street to the Grand Trunk Railway; Edinburgh Street, south side, from George Street to Union Street; Smith Street, north side, from Reid to Downie Street; Downie Street, east side, from Smith Street, to Victoria Ave.; Sherbrooke Street, north side, from the junction of Park and Reid Street to the Monaghan Road; Harvey Street, west side, from Smith to Antrim Street; King Street, north side, from George to Aylmer Street, except at the bridge; King Street, south side, from Aylmer Street east to the bridge over the creek; Scott Street, south side, from Rubidge Street to Reid Street; Bethune Street, west side, from Edinburgh to Antrim Street; Aylmer Street, east side, from McDonnell Street to half way between London and Dublin Street, where the culvert interferes.

And to assess the final cost thereof, less the cost of that part of the work which is incurred in respect of street intersections, and opposite exempted properties, and less forty per cent. of the remaining cost of the work, to be provided by the Municipality, under Section 678 of The Consolidated Municipal Act, 1903, upon the properties abutting thereon and to be benefitted thereby, and the number of annual special assessments therefor will be twenty.

Persons desiring to petition the said Council against undertaking any of the said proposed works must do so on or before the 17th day of June, 1905.

Dated this 1st day of May, 1905.

MARCONI

How Great Fortunes Grow

On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To-day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay-- Buy To-day.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

The Twentieth Century Mining & Power Co.

LIMITED

Own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 30 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all kind telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph, of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

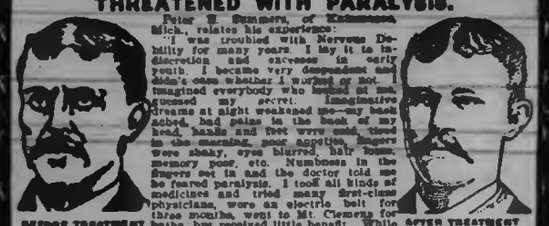
NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. *Under its influence* the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; *all drains cease*—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.



Peter E. Summers, of Kinmount, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I married or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for Sulphur baths, but received little benefit. While AFTER TREATMENT at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor coming through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

BEFORE TREATMENT

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN.

149 SHELBY STREET, DETROIT, MICH.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 900 feet in length with a depth of 500 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The base values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3 40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a basis of 61 cents per ton, the average rate being $9 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $265.00.

With an average value of $80 00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 875 000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

BIG CHANGE ON C. P. R.

Maintenance of the Roadbed by Private Contract

Winnipeg, May 9.—A strong rumor is prevalent in well-informed railway circles that the C. P. R. are contemplating most radical changes in the system of operating their western lines. The change is nothing less than the handing over of the work of maintenance of ways department to private contractors.

A week ago several prominent contractors from the east and from the United States were in the city, and it is learned that they were in consultation with the C. P. R. officials with regard to the contract of taking over the maintenance of way of the central division. At the present time the maintenance of 5,900 miles western lines entails an annual expenditure of approximately $4,000,000 and if the contractors are able to see their way clear to do the work at a satisfactory figure it is thought that the C. P. R. will accept the best bid.

LOST RINGS IN PULLMAN

London Woman Missed Three—Passengers and Employes Searched

London, Ont., May 9.—Mrs. Charles Ward, wife of a London jeweler, was returning from Chicago this morning, and when passing Sarnia Tunnel missed three diamond rings valued at $900. The rings had been contained in a satchel which Mrs. Ward left in her berth while it was being made up. The passengers of the Pullman car submitted to being searched, as did also the conductor and porter, after a protest, but the rings were not found.

TARTE DENIES REPORT

Will not Run for Levis and Reenter the Cabinet

Ottawa, May 9.—With reference to the report that Mr. Tarte will run for Levis and enter the Cabinet without portfolio, your correspondent has the personal assurance of the ex-Minister of Public Works there is not a scintilla of truth in the statement "I am happy and prospering," he said, "in my own legitimate newspaper line. I am free to write and do what my conscience and brain dictate, and the salary of the Governor-General would not tempt me to again shoulder the burden of a Federal portfolio."

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS.

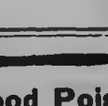
SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary.
The Militia Council.
Department of Militia and Defence.
Ottawa, May 1, 1905.



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Stanley Breakwaters," will be received at this office until Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Elgin County, Ontario, according to a plan and specification to be seen on application to the Postmaster at Port Stanley, Ont. at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto. J. G. Sing, Esq., Resident Engineer, London, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.
Department of Public Works,
Ottawa, May 5, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ADVERTISE IN THE TIMES.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1859 to 1900 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 10-feet-wide	10.2
4800 feet on Arapahoe dyke 21 feet wide	15 3
6000 feet on Klondyke ore channel 80 to 100 feet wide	20 4
Klondyke Tunnel site claim	160.
Three Jacks Placer	160.
Total Acreage	309.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost $15,000 00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $6,600 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1800 00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.
No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	6
Number of tons concentrated per day	9

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 6 tons mill ore of value of $12 00 allowing 10 per cent loss in saving	60.00
Net value after deducting expense of mining and milling per day	30 00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	78 000.00
Proceeds smelting ore per annum estimated at $8000 per month	90,000.00
Minimum net revenue per annum from ore treated and shipped	120,000 00

DIVIDEND

5 per cent. on 2 400,000 shares estimated as issued and entitled to dividends estimated 1 00 000 shares in treasury reserve fund which draws no dividend $120,000.00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$50 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

CATARRH

RUINS HEALTH AND BEAUTY CAUSES THE WEAK TO DIE Y UNG INVARIABLY LEADS TO CONSUMPTION.

Thousands Annualy Cured by Catarrhozone

MR. ARCHIBALD BASS, of, New Harbor, writes; "Catarrhozone proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucous dropped back into my stomach, upset my digestion and kept me sick all the time. Catarrhozone relieved in a short time and cured perfectly."

MRS. W. F. BREACH, of Chapman, writes; "I have used a great many catarrh remedies but none of them ever helped like Catarrhozone. It cleared out my nose and throat and stopped a ringing noise in my ears. Catarrhozone is very pleasant and simple to use and many times better than any other catarrh remedy."

MR. LAWRENCE KENNEDY, of New West Annan, says; "For three years I tried doctors but my catarrh grew worse and worse. I got no relief till I used Catarrhozone. It was not very long in curing me so perfectly that the disease has never returned."

MR. JOSEPH De ROCHE, one of the most prominent and highly respected citizens of Loggieville, N.B., says; "I used Catarrhozone for a sore throat, cold in the head and head ache. I always felt relief immediately. It cured the discharge from my nose and restored my sense of smell lost through the effects of catarrh."

Catarrhozone is simple, convenient and pleasant. It is warranted to instantly relieve and permanently cure.

Complete outfit consists of a beautiful nickeled hard rubber inhaler and sufficient liquid for recharging to last two months. Costs $1.00 or sample size 25c. Sold by all druggists, or sent by mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford Conn., U.S.

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 98 Lansdowne street, or address Box 876, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

For Sale.

A good general delivery horse, quiet and reliable, price reasonable. Apply to P. V. Delaire, 268 London street.

Lock Works Tenders Extended

Monday was the day set for the tenders to be received for the additions to the Peterborough Lock Company's works. A meeting of the directors was held and these were considered. It was decided to extend the time for one week.

Restaurant for Sale.

Fred E. Darey offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darey has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Park Street Church Fully Alive.

Nine persons were received into the Park street church on Sunday last, including one entire household. The ordinance of the Lord's Supper was observed in the morning when the church was very fully represented. The ordinance of baptism was observed in the evening, being the fourth Sunday in succession. A deep interest has been aroused.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

Dredge Accident at Young's Point

Young's Point, May 9th. — Mr. I. Beck, foreman on the steam dredge met with a very painful accident on Wednesday. He was taking up the slack of the large chain with the crowbar, when the wheel came back the crowbar striking him on the forehead, and also on one of his hands. He is able to be about again, but the accident might easily have been fatal.

Another Summer Resort on the Lakes

Mr. W. E. Brooks, of 'Young's Point, has leased the beautiful premises of Major Billiaas at the foot of Clear Lake, known as 'Orchard Beach, and is having them fitted up as a summer resort. All the most modern improvements are being installed in the house, and Mr. Brooks expects to have his house in readiness to receive guests by June 1st.

Meat Market Shuffles Ownership.

Mr. W. G. Howden, who has conducted successfully a prosperous meat market on George street near Hunter, has sold the good will and business to Mr. M. W. Porter, who has been in the employ of Mr. Howden as salesman for some time. Mr. Porter took over the business on Monday, and will doubtless make a success of it, since he is a thoroughly practical man. Mr. Howden will assist Mr. Porter on Saturday in future.

C.O.F. Organizer in Town

Mr. Robert Copeland, organizer for the Canadian Order of Foresters, is now in town, and is staying at the Munroe House. He will remain in town for a couple of weeks working in the interests of the Order. A special meeting of Court Peterborough, No. 29, will be held on Friday evening, May 12th, and a large attendance of the members and also members of sister courts are asked to be present. Mr. Copeland will address the meeting.

Interesting Paper Read by Miss E. Hill

An interesting meeting of George street Epworth League was held on Monday evening in the Sunday school room, Mr. A. O. Kidd was in the chair, and there was a large attendance, who thoroughly enjoyed the service. The feature of the evening was a paper on the awakening of Japan between 1873 and 1883, read by Miss Edna Hill, who dealt with her subject in a comprehensive manner. The address proved most interesting and the members paid close attention.

G.O.F.O. of Ottawa Still at Odds

Those of the 57th Regiment who are acquainted with members of the Governor-General's Foot Guard, will regret to learn that the trouble does not seem to have been quited by the intention of Lieut.-Col. Roper to withdraw his application for a reduction in the number of companies in the regiment. The action in regard ed as an arbitrary one, and it is thought must either result in the retirement of the commanding officer or the practical disbandment of the regiment.

Y.M.C.A. Dormitories

The management of the young men's fund are anxious to get the same closed by the end of the present week as the dormitories will be opened next week. Man having books are asked to have them filled up. Secure another book if needed, and do the same, and be ready to report on Saturday to Mr. Galley, the treasurer. The boys' section had a good rally last night and report $15 secured. They are going out to try and secure $45 more this week. Their prizes will be on view in Schneider's window to-day, and for the rest of the week.

Obituary.

Word has been received in town of the death of Mrs. William Ainslie, which sad event took place in Galt on Monday. The deceased had been ill for some weeks and was an inmate of the Galt hospital at the time of her death. Mr. and Mrs. Ainslie resided in Peterborough for many years removing to Galt in 1890. The deceased lady, who was born in Smith township, was a daughter of Mr. George Hunter, now residing in Philadelphia. A brother, Geo. Hunter, also resides there. Besides her husband, she leaves one son, aged eight years. Mrs. Hunter was a sister of Mrs. Kemp, wife of Mr. Peter Kempt of the Auburn Woollen Mills. She was a lady who had a wide circle of friends and her death will be learned with great regret. The remains will be interred at Galt.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PROSPECTS BRIGHT.

The Erection of a New Opera House Dependent on List Now Being Circulated.

There is a good reason to believe that a crying need of Peterborough is now within reasonably certain grasp of being filled. There is now in circulation, throughout the town, a guarantee list for signatures for the opening night of the proposed new opera house, and should there be sufficient endorsement of this list, work on the new opera house will be started at once.

Persons who desire to see this enterprise undertaken should leave their names with Mr. Stocker at once as the time is now short to begin operations and have the new opera house in readiness for next season's attractions of which a large number have already been booked.

WEATHER NOTES

Not much change in temperature.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Dr. Victor McWilliams, of Keene, was in town yesterday.

—Mr. G. E. Burrows, of Campbellford was in town yesterday.

—Mr. Herbert Wood, B.A., son of Mr. R. E. Wood, left yesterday morning for North Bay. From there he will go many miles north in New Ontario and will be engaged with a location party in connection with the Grand Trunk Pacific survey. He will be employed on section "D" and will be absent several months.

When you want a me-ium Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography. Work. Studio, 134 Brock street, Peterborough.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Board of Works will meet to-morrow night.

—Oats are selling at 40 cents. Very few are offered.

—A social will be held in Grace Methodist church on Friday night next.

—The Trustee Board of George street church will meet to-morrow night.

—The C.P.R. track at the station is being ballasted and put in good shape.

—The 57th Battalion held its regular weekly parade yesterday evening.

—Rev. E. B. Lancely, of Port Hope, lectured in George street church last night on "The Man on the Street."

—No one is now heard to complain about the absence of rain or the presence of too much warm weather.

—The annual meeting of George street Sunday school for the election of officers will be held to-morrow night.

—The fire brigade was called out shortly before three o'clock yesterday to a blaze in rear of Merrell and Meredith's store. No damage was done.

—One of our "City Fathers" is about to resign his share in shaping the town's destinies, giving as his reason, Mayor Beat's action over the "City" misunderstanding.

—Peterborough's Council, elected by the people of Peterborough, carry the day in Toronto over a sweeping majority of public sentiment to the contrary.

—The Peterborough Opal Company's mill on Simcoe Street, is getting out 125 barrels a day. The new motor, which has kept them back somewhat will be installed in a few days, when their widely advertised cereals will be immediately placed on the foreign and domestic markets.

CALCUTT LINE READY.

Our Popular Local Line of Steamers Now Prepared for Business

Great activity prevails in the 5th Ward, in preparation for the season's work on the Otonabee and Trent waters.

The steamer Water Lily, which has undergone considerable repairs has had a new fore and aft compound condensing engine installed by Petrie Company, Toronto, and this trim craft made its initial trip to Rice Lake ports on Saturday, with Capt. Cooperwaithe at the wheel.

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled.. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swarts, of Sub Station C, Columbus, O., Box 103, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints at once, the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had grown up to die, thinking that I could not be cured. Then one of my neighbors said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles in about six weeks, I was weighed, and found I had gained twenty-seven (27) pounds. I am as stout and healthy to-day, I think, as I ever was."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

The City of Peterborough is now ready, and will make her first excursion on May 24, when the entire Calcutt fleet has been chartered by the 57th Regiment Band for an outing to Jubilee. The City of Peterborough will this season be in charge of Capt. Breen.

TO VISIT KING OF ITALY

Paris, May 10.—The Journal says that Francis Joseph, Emperor of Austria, will visit Rome in October to repay King Victor Emmanuel's visit. Signor Tittoni, the Italian Foreign Minister, and Count Goluchowski, the Austrian Chancellor, arranged the details of the visit during the recent meeting at Venice. It is stated the Emperor will also visit the pope.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 110 PETERBOROUGH ONTARIO, THURSDAY MAY 11 1905. PRICE TWO CENTS

The Two Russian Fleets are United.

Paris Despatches Says the Report of Junction is Probably Official---French Admits That Rojestvensky Had His Supplies in French Territory.

Paris, May 11.—The Marquis De Barthelemy, who, with Count De Pourtales, operates the French concession at Kamranh Bay, Annam, in the course of an interview to-day, denies that he furnished coal or provisions to the Russian Pacific squadron. He said,

"The maximum of our coaling facilities is 700 tons. A small coaling depot exists on the Mekong River, not far from Saigon. At the outset of the war the Russians bought a large tract of land there, erected sheds, and accumulated supplies, particularly coal, which was bought originally from Japan. It is to this depot that Admiral Rojestvensky sent his colliers, but no warships approached the depot. The was Russian coal, placed upon Russian land, and loaded upon Russian transports. This was not a violation of neutrality. France could not prevent the Russians from taking their own coal on their own land. If the natives were at fault in selling the coal to the Russians the Japanese would not have waited fifteen months before protesting."

A NEW QUESTION.

Although the Marquis D Barthelemy gives the foregoing as refutation of the charges, the statement concerning the Russian coal depot on the Mekong may open a new phase of the question.

Admiral De Jonquieres, the french naval commander at Saigon, confirms the announcement of the departure of the Russian squadron from off Vanfong Bay.

The report of the junction of Rear-Admiral Nebogatoff's division with the main Russian squadron under Admiral Rojestvensky, outside of French waters, is also considered to be official.

Premier Rouvier conferred with Foreign Minister Delcasse to-day concerning the pending situation, but it is said that their conversation related mainly to internal affairs.

COME TO MARRY

Score of Girls on Their Way to Canada to be Wedded

London, May 11.—The Secretary of Strangeways' Refuges at Manchester says that during the last eighteen years the committee of boys and girls' refuges had sent a large number of children to Ontario, and the system of visitation in the Dominion was very thorough and complete. Rev. Robert Wallace, agent in Canada, and his staff of inspectors regularly visit every child in their foster homes, and a full report is periodically sent to the society in Manchester.

HYMEN IN LUCK.

Twenty-six girls leave for Canada next week to marry there.

The eldest daughter and Colonel Crosse, Secretary of the National Rifle Association, on the occasion of her marriage yesterday to Mr. Arthur Bates, was the recipient of numerous handsome presents from friends in Canada.

COST OF SIGHTS.

In the House of Commons Arnold Foster, replying to C. Devlin, M.P., said he estimated the cost of sights to be affixed to the new rifle and modified Enfield, whether on the new or the converted arm, fitted to the long rifle at seven shillings and sixpence leilfpenny; aperture of the sight, sixpence; dial sight, ninepence halfpenny; adjustable barleycorn from sight, fourpence halfpenny.

PETERBOROUGH REPRESENTED.

A Complete List of Those Comprising the Bisley Team For 1905

We append a list of those Canadians who will compete for prizes at Bisley this year. Peterborough is represented by only one member, Col.-Sergt. Moore. To hear the tales told by returned deer hunters of supernatural shots, made up north, we would naturally seek more. The list comprises:

Commandant—Lieut.-Col. A. G. Hesslein, commanding 1st Regiment Canadian Artillery, Halifax, N.S.

Adjutant—Major W. H. Davidson, 8th Regiment, Royal Rifles, Quebec.

The following have accepted places as members;—

1—Capt. W. H. Forrest, 6th Regiment, D.C.O.R., Vancouver, B.C.

2—Sergt. W. Kelly, 10th Regiment, Royal Grenadiers, Toronto.

3—Capt. J. M. Jones, 82nd Regiment, Pownal, P.E.I.

4.—Pte. C. L. Morrice, 1st Regiment P.W.F., Montreal.

5—Capt. A. Elliott, 12th Regiment York Rangers, Toronto.

6.—Capt. J. Duff Stuart, 6th Regiment, D.C.O.R., Vancouver, B.C.

7—Pte. W. M. Eastcott, 43rd Regiment, D.C.O.R., Ottawa.

8.—Sergt. G. W. Russell, the G. G. Foot Guards, Ottawa.

9.—Band Sergt. William Pugh, R.C.G.A., Quebec.

10—Lieut. G. A. Boult, 6th Regiment, D.C.O.R., Vancouver, B.C.

11.—Color-Sergt. W. H. Moore, 57th Regiment, Peterborough.

12.—Sergt. F. Richardson, 5th Regiment, Canadian Artillery, Victoria, B.C.

13.—Corp. A. Brayshaw, 5th Regiment, Canadian Artillery, Victoria B.C.

14.—Sergt. J. H. Simpson, 10th Regiment, Royal Grenadiers, Toronto.

15.—Staff-Sergt. H. Kerr, 48th Highlanders, Toronto.

16.—Orderly-Sergt. J. Phelps, 10th Regiment, Royal Grenadiers, Toronto.

17.—Capt. W. A. McCrimmon, 7th Regiment, Fusiliers, London, Ont.

18—Staff-Sergt. C. R. Crowe, 30th Regiment, Wellington Rifles, Guelph.

19.—Pte. A. Wilson, 43rd Regiment, D.C.O.R., Ottawa.

20—Pte. S. G. McConnell, 43rd Regiment, D.C.O.R., Ottawa.

The waiting men are;—

1.—Lieut. Durand, 90th Regiment, Winnipeg Rifles, Winnipeg, Man.

2.—Sergt. G. S. Carr, 5th Regiment, Canadian Artillery, Victoria, B.C.

3.—Major H. Flowers, 1st Regiment, Canadian Artillery, Halifax, N.S.

MR. DEYELL'S OBSEQUIES.

Large Attendance at Last Sad Rites When Mr. J. Deyell was Entombed.

Yesterday there was tangible evidence of the popularity of and esteem for, the late Mr. John Deyell, county councillor, and ex-reeve of Otonabee.

The large attendance and evident regret, plainly to be seen on the faces of all present at his funeral testified to this.

The coffin in which the remains lay was covered with floral offerings from the friends of the deceased, the county council sending a large wreath, while the Coldsprings Sunday school also sent a wreath. A large floral pillow was from the members of the family.

The following members of the county council attended the funeral —Warden Buck, and Councillors R. Shaw, Harvey; H. C. Garbutt, Smith; T. J. Johnston, Otonabee; J. Andrews, Asphodel; D. Moloney, Warsaw; S. Stinson, Smith.

Among those present at the funeral from outside places were; —Isaac and John Deyell, cousins, and Wm. Deyell, brother, Lindsay; Sergt.-Major and Mrs. J. Martin, Lindsay; Charles Needler, Millbrook. In addition there were present a large number from South Monaghan Cavan, Smith and Douro, all the members of the family of the deceased, except those living in the North-West being at the funeral.

The services at the house and graveside in the Little Lake Cemetery were performed by Rev. J. G. Lewis, of Murch street church, where the deceased attended.

The pall-bearers who were all old friends of the late Mr. Deyell, were Messrs. T. J. Johnston, county councillor; J. Hanbidge, W. McAllister, Ed. Lynch, A. Stewart, Otonabee, and Wm. Stewart, of town.

—F. H. Clergue states that the Algoma Central will be built 100 miles further to connect with the Grand Trunk Pacific, and into the Manitoulin district.

THINK FRANCE SHOWS BADLY

Gravity of the Situation Fully Recognised

BRITISH PRESS COMMENTS

Loyalty to Japanese Not Clouded by the Claims of the New Entente With France

London, May 10.—The gravity of the situation arising from the revelations made by correspondents in China is fully recognized by the press here. While the editorials are restrained and refrain from any language impugning the honor of the French Government, there is an undisguised expression of opinion in a majority of the papers that France shows badly and that loyalty to the Japanese as Great Britain's allies is not clouded by the claims of the entente with France.

The Morning Post says that France is either neutral or belligerent. There is no middle category. So long as she is neutral Great Britain is also neutral. So soon as she passes the line of neutrality Great Britain is compelled to cease her neutrality. Accordingly, the only condition on which the entente can be maintained is that, while Great Britain abstains from assisting her ally France must also abstain from assisting hers. The people of England will not tolerate any ambiguity on the point of loyalty to the Japanese alliance.

The Telegraph says it does not doubt that there is serious anxiety in diplomatic circles. It hopes that an interchange of views between Tokio and Paris will lead to a satisfactory issue, but it declares that the British will not shirk in letter or spirit any obligations they have voluntarily assumed.

The Standard, recognizing that the junction of Admiral Rojestvensky's fleet and Rear-Admiral Nebogatoff's squadron was rendered possible only by French hospitality, says it does not wonder that Japan is aggrieved, but it appeals to the Japanese to refrain from any semblance of dictation or menace, and, in defence of France, points out that the rules of neutrality do not rest on any authoritative international agreement.

A CONDUCTOR'S MISTAKE

Barnardo Home Boy Carried Through to Peterborough by Forgetfulness of an Official.

Yesterday when the 11.35 C. P. R. train arrived in town, a boy emerged from one of the passenger coaches and, stepping to the platform, looked wistfully about for a familiar face among the crowd of passengers.

It appears that Toronto branch of Dr. Barnardo's Homes, had consigned one of their boys to a farmer living near Bobcaygeon. The conductor of the train was supposed to notify the lad when Burketon was reached, so that he could disembark there and proceed to his destination via the C.P.R. new line. The conductor omitted to notify the boy, so he came through to Peterborough.

He was soon looking anxiously about, by some kind hearted citizens, who, hearing of his mishap, took the lad in charge and gave him his dinner.

When the local C. P. R. agent learned of the case, he immediately wired Bobcaygeon, so that the expectant farmer would know what became of his charge.

The lad was sent on by the 5.10 train to Burketon and would have arrived at Bobcaygeon about 8.30 or 6 hours late.

HAVE COMMENCED OPERATIONS.

Novel-Ti Company, on Water Street, Have Begun to Manufacture Goods.

The recent addition to our manufacturing industries, the Novel-ti Co., who occupy the upper flat of the building on Water street, opposite the Mechanics' Institute, have had their motor and sewing machines finally adjusted, and are now turning out samples of their work. This company does not, as most factories are in the custom of doing, manufactured stock; they send out their travellers with samples, which they are now making, and on receipt of orders, make up the goods. This is necessary as styles in neckwear change so frequently and quickly, that otherwise they would get loaded up with unsaleable goods.

Some of their travellers are now on the road, and the others will leave on Saturday.

The samples the company are now putting up comprise every style, from the most expensive silk goods to cotton string washable ties. This spring four-in-hand ties are in great demand and cotton goods will be good sellers for a time. The company express every satisfaction with both their prospects and location in Peterborough.

The Russian Army In Excellent Shape

The Soldiers Have Quite Recovered Spirits After Their Last Terrible Defeat---General Linevitch very Active.

Gunshu Pass, May 8, Correspondence of the Associated Press.—Day after day, since his assumption of the command, General Linevitch goes steadily about the inspection of his troops, both those on the positions and the units arriving from European Russia. Mounted on a small sorrel horse, wearing an old overcoat devoid of embroidery and trappings, and with only the simplest indication of rank, Linevitch, accompanied by his adjutant, two orderlies, and the chiefs of the reviewed troops, but almost without further suite, rides along company after company, battery after battery, finding something to say to each, sometimes a jest, sometimes a reproof, recognizing here and there veterans not only of the Chinese expedition, but also of the Turkestan campaign. This simplicity and the faith the soldiers have in the fighting ability of "Papa" Linevitch make a most inspiring impression on the troops.

A SOLDIER'S LANGUAGE.

Regularly at the termination of the reviews, General Linevitch gathers about him the chiefs of the various sub-divisions, and in brief, incisive, and oft-times quaint words, sets forth his opinion of the situation of affairs, the conditions of the troops, and his demands, orders, and suggestions for improvement.

OFFICERS APPOINTED

Committees Appointed by Peterborough Board of Trade

In yesterday's issue the committees nominated at the last session of the Board of Trade, held on Tuesday night, were unfortunately crowded out. They are as follows;

We have struck the Standing Committees for the ensuing year;

COUNCIL.

Messrs. B. F. Ackerman, Vice-President, Chairman.
D. W. Dumble.
T. E. Bradburn.
K. Eardley-Wilmot.
T. A. S. Hay.
R. E. Wood.
E. G. Patterson.
A. H. Stratton.
P. Campbell.
J. H. Larmonth.

MANUFACTURERS' COMMITTEE.

Messrs. E. G. Patterson, Chairman.
H. O. Rogers.
T. A. S. Hay.
B. F. Ackerman.
Thos. Barrie.
Alex. Elliott.

MERCANTILE COMMITTEE.

Messrs. John Nugent, Chairman.
A. W. Cressman.
W. H. Bradburn.
Wm. Might.
R. Fair.
W. E. Conway.
F. J. Might.

MUNICIPAL COMMITTEE.

Messrs. M. A. Morrison, Chairman.
C. Fessenden.
M. L. Henry.
John Crane.
F. H. Dobbin.
Daniel O'Connell.
Wm. Ruddick.
A. H. Stratton.
F. D. Kerr.

RAILWAYS AND CANALS.

Messrs. D. W. Dumble, Chairman.
T. E. Bradburn.
John Carnegie.
R. M. Dennistoun.
J. H. Larmonth.
W. H. Meldrum.
D. H. Moore.
D. Walker.
Arthur Stevenson.
J. H. McClellan.
E. A. Peck.
R. E. Wood.

ARBITRATION COMMITTEE.

Messrs. E. B. Edwards, Chairman.
H. LeBrun.
P. Campbell.
W. E. Conway.
C. Fessenden.
F. D. Kerr.
A. E. Dixon.

All of which is respectfully submitted.

(Signed)
D. HUGHES CHARLES.
K. EARDLEY-WILMOT.
R. E. WOOD.

THE INCORPORATION BILL

Private Bills Committee Evidently Had Peterborough's Incorporation Pre-arranged.

In an interview with Mr. C. W. Hatton yesterday, the subject of the Private Bills Committee's action regarding incorporation of Peterborough as a city was discussed by a Times representative.

Now, as Mr. Hatton happened to belong to, and be one of the speakers for, a delegation that went from here to Toronto to oppose the incorporation clause, it might be suggested that his views were biased; allowing for this, there can be no doubt, from an analysis of Mr. Hatton's remarks, that the Private Bills Committee had been primed and loaded with the views of the Council or their representatives in Toronto.

With the exception of Messrs. Hatton and Kendry, none of those opposing the clause were asked to speak although prepared to; even Lieut.-Col. Miller, a defeated candidate for the Legislature, who by courtesy due to one who has carried the Conservative banner during an election campaign, was entitled to an expression of opinion, was not asked to express his views.

This whole action taken by the committee showed, only too plainly, that pressure had been brought to bear upon its members. A petition that contained the names of so many hundreds of our most representative citizens was practically ignored.

In to-morrow's issue we will publish a list of those signatures appended to the petitions against the incorporation clause, and our citizens will then be able to judge whether this opposition springs, as has been suggested, from the twenty odd license holders, or whether a majority of our merchants, clergy, manufacturers, mechanics, professional men and property owners, the men most affected, and with the greatest stake in Peterborough's prosperity, are in favor of this town being legislated into a city, or whether the Council, led by the town officials, represent popular sentiment.

HOTEL CHANGE.

Mr. F. E. Darcy Assumes Control of the Brooks Hotel, Youngs Point

Yesterday Mr. Fred E. Darcy completed arrangements whereby he will, on the 15th May, become proprietor of that old established summer resort, at Young's Point, known, of late years, as the Brooks Hotel, confronting the Locks.

Mr. Darcy intends managing the hotel on strictly temperance principles, and will supply meals, lodging, boats, supplies of all sorts, and good stable accommodation to excursionists, tourists and travellers to and from Burleigh and other points.

Mr. Thos. H. Darcy, proprietor of the Burleigh Falls Hotel, will, in conjunction with the hotel recently burned, and now being rebuilt, manage both hotels.

Mr. F. Darcy, intends building a small pavilion or stand near the Young's Point Locks, where excursionists and passengers on the boats will be able to procure refreshments, soft drinks, sandwiches, etc.

It is thought that many people who run out to the lakes for Sunday, in the season, will find this a handy and respectable place to put up for a day or two.

COST TWO MILLIONS

Labour Strike in Chicago Entails Great Loss

Chicago, May 11.—The teamsters' strike cost the interests affected nearly $2,500,000 last week in shrinkage in business, extraordinary expenses, and losses. Here are the figures for the week.

Dead, 3; dangerously injured, 50; injured, 300.

Shrinkage in business for the week: State street stores, $750,000; South Water street merchants, $450,000; railroads, $360,000; wholesale grocers and dry goods merchants, $300,000; express companies, $220,000; Montgomery Ward & Co., $60,000; hotels, $10,000; theatres, $3,000; wages lost to striking teamsters, $51,000; assessments on employed union teamsters, $27,000; wages to non-union teamsters, $24,000; meals and lodging non-union teamsters, $9,000; cost to city, $8,750; cost to county, $3,040.

TIMELY CONCURRENCE

Farmers Institute of Peterborough will be in Guelph During Horse Show.

Mr. Wm. Collins, secretary of the West Peterborough Farmers' Institute has received a letter from the president of the Guelph Agricultural College stating that the Horse Show will be held in that city on the dates selected by the Institutes of East and West Peterborough and Durham for the annual excursion. There will doubtless be a much larger number than usual patronize the excursion on account of this fact. Following is the letter;

William Collings, Esq.
Peterborough, Ont.

Dear Sir,—They say it is better to be born lucky than rich. Now, it turns out that the Guelph people are going to hold their Horse Show on the 7th, 8th, and 9th of June; so your people will have a chance of seeing a good horse show. Please make a note of it on your bills and oblige.

Very truly yours,
G. C. CREELMAN.

WEATHER NOTES.

Thunderstorms.

—Dr. R. W. Bell, medical inspector for the Ontario Board of Health, was in the city yesterday on his way to Port Stanley to inspect the wells there, to ascertain if they are polluted with typhoid germs or not. He covers the entire province investigating infectious diseases.—St. Thomas Times.

NEWS FOR INVESTORS

A Sound Proposition in Gold Mine Stocks Offered by the Clinton Mining Company.

In these days of multitudinous gold mine propositions put before a credulous public, it is well to thoroughly study any such before investment.

In the offer and inducements made by the Clinton Mining Company, of Colorado, there is every appearance of inducements well worth a careful inspection.

This company owns outright three claims, comprising 30 acres in the Monarch Mining district, Chaffee Co., Colorado, and 20 acres in Teller Co. This does not seem one of the many schemes for obtaining money for investigation and trial purposes, but this company has already undertaken extensive development work, having 2,000 feet of shafts, tunnels, cross-cuts and winzes, to a depth of 600 feet.

Their principal vein varies in width from four to over 20 feet, and carries a good vein in gold and silver. Copper and iron are also present in paying quantities. The ore already smelted shows over $50 a ton, as demonstrated by the official settlement sheets, on file.

The actual hauling charges from mine to smelter is at present only $7.40 a ton, and this on further development will be reduced.

With the amount of manganese present in their ore, the cost of treatment is reduced to a minimum. The net value of their ore, with the disadvantageous cost under initial development work has netted $37.60 per ton.

The company is capitalized at 1,500,000 shares at $1 each, par value, fully paid and non-assessable, of which they have retained 375,000 shares in treasury, which they are now offering as per adv. in another column, for sale for further development work. As no salaries have been paid to officials the company seems to be conservatively managed, and offer investors a good opportunity.

Those interested can address the Company's President, Mr. W. F. Morphy, 223 Board of Trade, Omaha, Neb.

REFUSE TO STRIKE

Grand Trunk Machinists Won't Obey Union

The strike of the Grand Trunk machinists, which has been declared, has the appearance so far of a fizzle. No important developments occurred yesterday, and, according to the statement of the company's officials, less than 100 men, from a total of 2,000, are out on the whole system.

At the Toronto round house one of the apprentices, who walked out, again reported for work. The locomotive foreman engaged three new fitters, and at the machine shops two new men were employed. At the latter place an additional machinist was absent. It is reported from Stratford that four of the strikers there had returned to work.

Mr. W. Kennedy, mechanical superintendent, stated that at Windsor, Fort Erie, Palmerston, Niagara Falls and Sarnia not one man had obeyed the mandate to strike. Three Scotch machinists, who were employed in Toronto, were sent up to London to replace the strikers.

ABSTAINER LIVES TO 114

Son of Poland Dies in Michigan After Century of Abstinence

Detroit, Mich., May 10. — Piotr Kazmerowsak, who was born in Poland 114 years ago, is dead at his home here.

He was a life-long abstainer from tobacco and liquor and spent most of his life in the open air.

TWO LUCKY CANADIANS

One Inherits a Castle, and Another Much Money

London, Ont., May 11.—Mr. Watts, foreman for the Greenswift Manufacturing Company, of this city, has received word that he is joint heir with four others to property in New York worth fourteen million dollars, including land on which the Waldorf-Astoria Hotel now stands. The land it is said was owned by an ancestor of his, who died without leaving a will, and as his heirs could not be found, the New York City Council appropriated the land.

FRENCH HAVE PULL

British Arrivals at Quebec Have to be Examined in Nearly all Cases by French-Canadians

Quebec, May 11.—One hundred thousand immigrants are expected to arrive at the port of Quebec during the present season of navigation to settle in the Canadian West and North-West. They have commenced to arrive with a rush, and it is said that no less than twelve thousand will have arrived from Saturday last up to today. The immigration officials at this port are taxed to their utmost strength by the rush, especially the medical inspectors, who are called upon to examine every passenger, who must hold a certificate of good health before he or she is allowed to proceed to their destination. The medical inspection is not as good as it was last year. The most efficient physician, Dr. Howe, is missing, and his place has been taken by a French-Canadian, Dr. Nadeau. Strange to say, the whole staff of officials, with two or three exceptions, are French-Canadians who are called upon to handle immigrants, and some of them have little or no knowledge of the English language. This state of affairs has been criticised very generally during recent years to no purpose. The English-speaking citizen of Quebec is tolerated, but not wanted, and they are gradually being worked out of the public service.

BALKAN TROUBLE.

Fighting Occurs Between Revolutionists and Turkish Troops--Several Men were Killed and Wounded.

Constantinople, May 11.—The Ambassadors of six of the powers to-day presented to the Porte a collective note approving of the financial scheme of administering the three Macedonian Vilayets—Saonica, Monastir, and Uskub—conditional on Turkey agreeing to the appointment of four financial representatives of the powers, who, with the Austro-Russian civil agents, will constitute a commission to deal with the Provincial budgets.

Troubles are recommencing in Armenia. Advices from Bitlis say there have been encounters between revolutionists and Turkish troops in the neighborhood of Mush, during which a number of men were killed or wounded. In addition to the Armenian bands already reported to have crossed the Persian frontier, other bands are said to be preparing to invade the Ottoman territory.

DECLINES A CHAIR

Rev. J. L. Gilmour, B.D., Refuses the Offer of a Chair in McMaster University.

The Rev. J. L. Gilmour, an old Peterborough boy, and who has relatives living here, does not consider his work in Montreal complete, and for this reason has declined the offer from McMaster University to fill its chair of Systematic Theology.

The re-organization of the curriculum and the vacancies on the staff caused by the resignation of Chancellor Wallace and Professor Goodspeed, from McMaster University, are now engaging the most serious attention of the University authorities. Their offer to Mr. Gilmour was made on Tuesday last.

Said Mr. Gilmour when interviewed; "The chair of Systematic Theology was offered me and I felt compelled to decline it. My work in Montreal is not yet finished, and I donot feel that it will be right for me to leave it as it is."

OTTAWA FOOT GUARDS TROUBLE

Subordinate Officers Resign on Account of Reduction of Regiment.

An Ottawa despatch says; The internal dissension among the Executive of the Governor-General's Foot Guards, caused by the action of the commanding officer in endeavoring to effect a re-establishment of the corps on the basis of reduction in the number of companies, has resulted in the withdrawal of almost all the subordinate officers of the regiment.

While none of the non-commissioned element in the corps have as yet plied for their discharges, it is reasonably certain that the "backbone" of the regiment will inevitably assume an attitude similar to that of their commissioned confreres.

When seen this morning, Lieut.-Col Roper, appeared unwilling to in any way, commit himself respecting the resignations. Asked if he would object to giving the names of the officers who have resigned, he said; "That is something of which I must not speak at present, the answer of your question involving a serious breach of military etiquette."

MR. E. B. STONE GETS DAMAGES

Mr. E. B. Stone, a Former Peterborough Lawyer, Wins His Suit at Osgoode Hall

The following in the Osgoode Hall reports in the Toronto papers, refers to Mr. E. B. Stone, of London, a former well known Peterborough lawyer.

Stone vs. Jaffray.—Judgment C. in appeal by defendant from judgment of Teetzel J., upon the findings of a jury in an action for libel tried at London, in favor of plaintiff for $2,500. The publication complained of was alleged to be defamatory of plaintiff, in reference to his conduct in two matters, one in connection with a flotation of a binder twine company and the other as to his connection with the attempted formation of an hotel company in Toronto. The words upon which the jury found for plaintiff were;—"It is reported that one Stone a recent arrival in London, who has failed to float some hotel scheme in the city, had allied himself with the promoters who have decided to work the farmers into this gigantic flotation," viz., "the binder twine scheme. Held, that these words were capable of a defamatory meaning, and the case was properly left to the jury and the damages not so large as to warrant a new trial, G. C. Gibbons, K.C., for defendant, J. P. Mabee, K.C., for plaintiff.

A SLICK BRITISHER

Merchants Had Better Get Their Shot Guns Ready.

The Chief yesterday received a "pointer" as to the confidence game being played by a smooth Young Englishman in near by towns. Barrie has been the scene of his latest operations and now the detective department is at work on the case. The Englishman first goes to a dealer in gents' furnishings and makes out that he wants employment, and in the course of negotiations manages to become acquainted with the merchant. He then goes to another store upon a similar quest, and finally, pretending himself to be the proprietor, telephones to party number two stating that

Baby's Birth a Trying Time

Made Easy if the Mother Prepares Her System With a Bracing Treatment of

FERROZONE

A Womanly Tonic that Uplifts, Vitalizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form, 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 4 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 11 1905

CANADA IN THE FLEET

If Cape Colony can give a battleship to the British fleet, why not the great Dominion of Canada? This country shares in the protection of the fleet to a far greater extent than Cape Colony. Our ships ply on seven seas, our commerce spreads throughout the civilized globe, yet ships and men enjoy the benefits of the Imperial consular service and sail in safety under the aegis of the Imperial flag, and never a dollar does this country give to these invaluable services.

The Daughters of the Empire are setting on foot an agitation for the presentation of a fully-armed battleship by Canada to the British Government. This agitation could not be in better hands. It is, perhaps, the Montreal Star remarks, a matter for consideration whether this is the best manner in which Canada can take up her share of the naval burden of the Empire; and it may, too, be argued that it is forcing the pace a trifle to raise this question now just when Canadian garrisons are about to take over the defense of Halifax and Esquimalt.

But that Canada must eventually accept the logical consequence of living under the shelter of the British fleet, is plain to every thoughtful person. We will be compelled in self-respect to contribute to a fund out of which we draw too much. And it is equally apparent that when we do contribute to the navy, it will have to be by direct gift to the British Admiralty, and not by setting up a separate fleet of our own. In this day of steam and concentration, the fleet must be "one and indivisible."

JAPAN'S WAR TAXES

A letter from Tokio states that the war taxes in Japan have been so arranged that the burden principally falls upon the persons who ought to bear it. Take the new inheritance tax, for example; it will affect the wealthy class mostly. To an outsider it would appear as if a heavy burden had suddenly been placed upon the shoulders of the people by these special taxes, but it is not so, as special provisions has been made to lighten the local taxes for municipal expenses, and notices have been sent all over the country to the local officials to lessen their expenditure, and by this reduction the average in taxation is not much increased. The following figures will explain this position. In 1904 the total of the imperial taxes showed an increase of 38,400,000 yen, but the prefectural taxes were 16,800,000, and the town and village taxes 2,200,000 yen less, so that compared with the year before, the net increases in taxation was only 15,000,000 yen.

The amount for imperial and local taxes in 1904 was 25.7 yen per household. This was 1.76 yen more than the year before. Per person, it was 4.96, or an increase of 32 yen, compared with the year before. With regard to 1905, the increase will be 6 yen per house, or, 1.80 per individual. This, compared with the taxation of other countries, is very light; and then, again, a good deal of the money collected in taxes goes back to the people who are furnishing supplies for the war, and the profits from these transactions help the people to meet the increased taxation.

EDITORIAL COMMENT.

A Berlin correspondent of a London paper, discussing the probable motive of the German Emperor in asserting himself in Morocco, says that many persons believe that he would be very glad to see France engaged in a Moroccan campaign, which would probably prove a heavy drain upon her resources for many years. Nothing, of course, he says, would be more likely to make French military intervention impossible than German encouragement to the Emperor of Morocco in resisting all propositions of reform. The Kreuz Zeitung says frankly that Germany's policy must be influenced solely by German interests.

KEENE.

A very large number of suckers have been captured during the past week.

Fighting dogs are becoming numerous. Their howls can be heard at all hours.

Owing to the wet weather very little gardening has yet been done in this vicinity.

Frogs are a thing of the past in this place. Not a note has been heard this season.

The water in Keene river was never known to be as low at this season of the year.

The English sparrows are so numerous around here that it is almost impossible to drive through them.

There are prospects of several new buildings being erected in our village in the near future. We trust that Keene may some time become a town.

If current reports are true the Keene river is to be favored with the Government dredge some time next week. We have so often heard this report that we will credit it when we see it at work.

The Keene Improvement Society turned out on Tuesday and cleaned all rubbage off the streets. Great credit is due to the citizens of Keene for the interest which they take in beautifying our little village.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

STOPS HER ANNUITY

King of Saxony Closes His Purse to Former Crown Princess

Dresden, May 10.—All negotiations with the ex-Crown Princess of Saxony have failed because she refused to surrender her youngest child to the Saxon court and therefore for the present her annuity has been stopped.

The whole affair is to be brought before the Saxon supreme court for definite decision and meanwhile the Countess has to depend for financial support on private friends.

In it the Crown Princess waives all claim to her dowry in favor of an annual payment of 60,000 marks for the rest of her life. She gives up all right to the rank, title and privileges of Crown Princess and Duchess of Saxony. She promises to make her permanent abode outside the German Empire and undertake not to do anything that might be calculated to cause public annoyance to the Saxon court and Saxon people. It is on the basis of this latter clause that the King has stopped payment of his wife's annuity.

Saxon lawyers hold that the conduct and life of the Countess Montigromo in Italy caused public annoyance to the King, but the courts will have to decide as to the King's justification for withholding the Countess' own money, for the greater part of the annuity is interest on her marriage portion.

QUEBEC'S GREAT BRIDGE

40,000 Tons of Steel and Largest Steel Span in World

Montreal, May 10. — The Phoenix Bridge Company of Phoenixville, Pa., is now completing the plans for the construction of the largest steel span bridge in the world, which is to be erected over the St. Lawrence River near Quebec. The cost of the structure will be $3,000,000. The actual work of construction will be commenced this summer, and the bridge is to be open for traffic the first day of 1909. The bridge will be 2,800 feet long between centres of anchorage piers, and its superstructure weighs 40,000 tons. There are two 500-feet anchor arm spans and one 1,800-foot cantilever span over the channel. The latter is composed of two 562 1-2 cantilever arms connected by a 675-foot centre suspended span. The weights of the anchor and cantilever arms and the suspended span are 12,500,000, 15,000,000 and 8,000,000 pounds, respectively, exclusive of the floor system, which weighs 5,000,000 pounds.

MARCONI
How Great Fortunes Grow

On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To-day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay--Buy To-day.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Rose, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 3 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 500 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringering through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Other improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and these effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $6 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $305.00.

With an average value of $60.00 and transportation and treatment expenses of $18.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and open on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 870,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of [illegible] proceedings.

THE INDIAN EARTHQUAKE

One of the Severest on Record Covered an Area of 150,000 Square Miles--Noted in England and Elsewhere

London, May 10.—Later details of the recent Indian earthquake indicate that the disturbance was one of the severest on record.

The region within which serious damage to the buildings occurred is about 320 miles in length; and if, as seems probable, Dharmsala was nearly the centre, its width cannot be less than 460 miles, so that the total area of destruction was about 150,000 square miles—considerably more than the area of the United Kingdom.

The boundary of the region in question is roughly oval and elongated in the direction of the Himalayan axes, and the origin of the earthquake ascribed to one of the great movements to which the formation of these still growing mountains is due. If the strength of an earthquake is indicated by the extent of the area disturbed by it, this one has rarely been excelled. The great Indian earthquake of 1897, it is estimated, was felt over an area of 1 3-4 millions of square miles; but, if it be true, as reported, that the shock of April 4 was felt at Bombay and Calcutta, which are about 980 and 1,020 miles from Dharmsala, then the area over which it was perceptible would be about twice as large, and not much less than the area of all Europe.

There were few parts of all the earth's surface at which the earth waves were insensible to seismographs. An exceedingly detailed record of the disturbance was given by a horizontal pendulum at Birmingham.

REWARD GOES TO ARMY

Eva Booth Gets $1,000 for Finding Lost Boy

New York, May 10.—Leo Fleischmann, 16 years old, son of Mr. and Mrs. Alois Fleischmann, who has for eight months been missing from his home, has been found, and a reward of $1,000 offered for the discovery will go to Miss Eva Booth, and into the coffers of the Salvation Army.

The boy's mother and father left for Norfolk, Va., where the lad is held a prisoner on the charge of desertion from the United States navy.

TO CANADIAN INVESTORS

The Moss Patterson Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One Hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 50 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS.

SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary.
The Militia Council.
Department of Militia and Defence.
Ottawa, May 1. 1905.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Stanley Breakwaters," will be received at this office until Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Elgin County, Ontario, according to a plan and specification to be seen on application to the Postmaster at Port Stanley, Ont. at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto. J. G. Sing, Esq., Resident Engineer, London, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, May 5, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Peterboro Light & Power Co

BETTER THAN GOLDFIELDS NEVADA

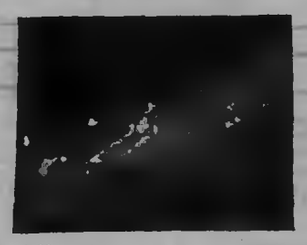
The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at mines; to install an electric power line; and install a large compressor and hoist capable of sinking the props at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.



CONCENTRATOR PURCHASED

We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st. 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay--West of winze, intermediate drift	3685.60	1197.	$74,406.20
No. 2 Assay--Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.50

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885.38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577.60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944 00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $750,000 00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 500 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.

With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Live Merchants Advertise in The Morning Times

Catarrh Cannot be Cured by Dosing

IT IS A LOCAL DISEASE AND IF CURED MUST BE LOCALLY TREATED.

Seven people out of ten suffer from catarrh. There is no lack of medicines, and if dosing would cure, very few cases of catarrh would be found.

You probably have it yourself. How much benefit have you obtained so far from medicine-taking? A little relief is all that you have derived. You have spent lots of money and yet the catarrh is growing worse all the time.

Has it ever occurred to you how desirable and how successful a treatment would be that you could breathe to where the disease existed. Perhaps you have thought about this form of cure but you have been unable to find a remedy that could be pleasantly and safely used.

Try Catarrhosone, it can be broken up by the air and carried in a mass drops to every part of the breathing organism. It touches the catarrh with healing, that is why it cures.

This healing—balsamic, vegetable substance is so volatile that the air greedily takes up from the inhaler, so antiseptic that it instantly destroys the microbes which produce disease of the breathing organs, and so soothing that it relieves congestion subdues inflammation, and stops mucous discharge.

Plainly Catarrhosone is an ideal remedy for diseases of the throat, lungs and nasal passages. If you have catarrh, bronchitis or asthma all are equally curable by Catarrhosone. You have been told why this is so. These diseases are all modifications of an inflammatory condition of the lining membranes of the throat and nasal passages.

Now, bear in mind, you breathe Catarrhosone. Do you not think this is a rational treatment—a certain way of reaching the diseased surfaces which lie so far in the cavity of the body or in the head that they can be reached in no other way.

You cannot possibly fail to obtain quick cure from any of these maladies if you use Catarrhosone.

All dealers in medicine sell Catarrhosone. Trial, 25c., complete outfit, $1.00, which will last two months and is guaranteed to cure permanently. Sent postpaid to any address by N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 98 Lansdowne street, or address Box 576, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

For Sale.

A good general delivery horse, quiet and reliable, price reasonable. Apply to P. V. Delaire, 268 London street.

Remains of Late Mr. A. McNeil Found

The remains of the late Andrew McNeil, who was drowned in Rochester, N.Y., some time ago, have been found, and will be brought home for burial. They are now on their way here, and the funeral will take place from the station, though the time has not yet been announced.

Y. M. C. Entertainment

There was an unusually large attendance at Sunday night's meeting of the Young Men's Guild of the Charlotte street Methodist church, fully 150 people being present. The chair was occupied by Dr. Morrison, who, in a few opening remarks introduced the speaker of the evening, Mr. R. M. Denniston, who gave an address on "Jean Valjean." A vocal number, "The Yeoman's Wedding Song," was rendered with fine effect by Mr. R. Norman Jolliffe, and was enthusiastically received.

DUTTON'S MARKET.

Pineapples for preserving $1.25 to $2.25 per dozen.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

Rev. J. G. Lewis to Remain Here

At a meeting of the Quarterly Official Board of Mark street Methodist church recently, the pastor, Rev. J. G. Lewis, was extended a unanimous invitation to remain a third year. Rev. J. G. Lewis has expressed himself as appreciating the very kindly expression on the part of his congregation, and the invitation to remain a third year.

Restaurant for Sale.

Fred E. Darcy offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darcy has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Brokers Fail.

Messrs. Haight & Freese, the stock brokers, who recently had a branch office here, have failed in Toronto. A gentleman in good position to be "in the know" on such matters, yesterday told a Times' representative that this firm took $100,000 out of Peterborough. Some time ago we put up this fortune. Verily, if you buck the tiger, someone will wear diamonds, and manage to keep an automobile.

Boat House at South End.

Parties are negotiating for the purchase of sufficient property near the river terminus of the street railway upon which to erect a large boat house. It is understood that Mr. Harold Rye is considering plans for the erection and equipment of such a building. A good service would be appreciated and would prove profitable during the summer. This will be a great convenience for those keeping canoes and other river craft.

Local Industry Sold.

Mr. George E. Rawlings, who has been employed at the Peterborough pottery for many years, has bought out the business, which was formerly conducted by Mr. J. A. Allin. Mr. Rawlings, will manufacture double glazed flint and stone enamelled ware, flower pots, etc. He will also deal in Rockingham ware. Mr. Rawlings is a progressive and experienced man, and will doubtless meet with success in his management of the Peterborough pottery, which is located on Crescent street, opposite Little Lake.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Dorenwend to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupee, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by those who adopt them are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Dorenwend's Art Goods can improve your looks? He will demonstrate this to every caller free of charge.—Only one day, Friday, May 19.

Burnham Property Sells Quickly.

Yesterday afternoon, at about 3 o'clock, the long advertised sale of property, owned by the late Mr. Elias Burnham, was begun. In half an hour the four lots with a frontage on Park street, were disposed of, that on the corner of Park and Charlotte streets, with a frontage of 51 feet, being withdrawn on a bid of $900, which was not up to the reserved price. Lots 6, 5 and 4 on the plan, each of 47 feet frontage on Park street, were sold at the following prices—Lots 6 and 7 to A. Brown & Co., at $720 each. Lot 4 to W. Freeburn at $715.

Local Incidents

BY THE TIMES MAN-ON THE STREET.

—Up to three o'clock yesterday, 662 dog tags had been sold.

—The annual inspection of the 57th Regiment will take place on June 7.

—The adjourned vestry meeting of St. Luke's church was held last night at 8 o'clock.

—Haight and Friese, brokers, of Toronto, who formerly conducted a business here, have failed.

—Mr. R. A. Dutton has purchased the residence on London street occupied by Mr. Harry Foote.

—The date of the formal opening of the Y.M.C.A. Dormitories has been fixed for Thursday evening, May 18th.

—The Celebration Committee will meet in the course of a few days to take up the mattter of celebration.

—St. John's choir will practise on Friday evening of this week instead of the evening. Full attendance is requested.

—Now is the appointed time to take special care with fires in back yards. All rubbish has become dry, and much of it inflamable.

—The work of demolishing the T. A. S. grandstand was commenced yesterday morning. It will be re-erected at the Riverside Park.

—Mr. W. H. Moore has become established in his new office on the north side of Hunter, reached by first stairs west of post office.

—Mr. William Cahill has joined the staff of the local branch of the Bank of Toronto, and entered upon his duties yesterday morning.

—Mr. Will D. Campbell has purchased the Reynolds terrace on the north-east corner of George and London streets. The price was $6,600.

—Material is on the ground for the commencement of the new $60,000 armouries, which will be erected on Tecumseh Park, Chatham, by the Dominion Government.

—The initiatory meeting of the Benevolent and Protective Order of Elks was held yesterday evening in Forster's Hall, Simcoe street. A degree team from Toronto attended.

—There were a great many loads of logs weighed yesterday on the market scales, from the small soprano voiced porkers to the deep bass of the venerable 500 pounders.

—Mr. W. H. Hunter of New Bedford, is conducting special services in the Gospel Hall, corner of George and Brock streets, each evening to which the public is cordially invited.

—Workmen began yesterday morning to place a plate glass window in the store which will be occupied by Mr. P. Simons, the George street tailor, who is moving out for the Bank of Ottawa.

—Among the contributions received by Miss Greenshields, of 2 Elmsley place, Toronto, to the Labrador Medical Mission, are $1.15 from Miss Halliday, and $3 per Dr. Grenfell, from Peterborough.

—The Ladies' Aid Society of St. Andrew's church will meet at the residence of Mrs. T. C. Elliot, 112 McDonnell street, this afternoon at 2 o'clock for the purpose of forming a sewing circle. A full attendance is requested.

—The Lakefield Cement Co., have again their full force at work. The railway tracks at Lily Lake are in good repairs, and the marl can now be readily obtained. For some time back there was difficulty in obtaining a sufficient supply of marl.

—Mr. Nelson King was the victim of a painful though not serious accident yesterday about 12 o'clock. He in some way was precipitated from the top of a box car and sprained his ankle quite severely. He worked in the afternoon though his sore ankle caused quite a limp.

—On Friday evening, May 12th, a rally meeting of all the members of the Canadian Order of Foresters of the town will be held in the Foresters' Hall, Simcoe street, at which Organizer Copeland will give an address. All members of the Order are invited to be present.

—The Lindsay Post says; "Every young married woman should know how to make bread," said a writer on economics. "Yes, and every young man should know how to furnish the dough." Further, the young man will be wise not to loaf about or get crusty less he be considered ill-bred.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. J. D. Brandon of Fenelon Falls is in town on business.

—Mr. D Pettigrew of Norwood, was a visitor here yesterday.

—Mr. F. Spicer of New York, is registered at the Oriental Hotel.

—Mr. E. Schlichotts of Waterloo, is registered at the Snowden House.

—Dr. Hassard, of Millbrook, left on Tuesday on a trip to Winnipeg.

—Mr. G. A. Anderson, St. Thomas, is registered at the Hotel National.

—Mr. George Edmison, County Magistrate, was in Toronto yesterday.

—The Lindsay Post says; Mr. H. J. Byers, of Peterborough, was in town to-day.

—Mr. F. A. Kilburn and Mr. Roland Johnston, of Lakefield, were in town yesterday.

—Mr. and Mrs. T. C. Elliott, were in Toronto yesterday visiting the wholesale markets.

—Miss Maggie Brown, of Toronto, is in town on a visit to her friend, Miss Annie Engel.

—Mr. George Gow, Smith township, left yesterday for Vancouver where he has obtained a situation.

—Mrs. J. A. Black, of Chatham, returned home yesterday after a three weeks' visit with her parents at the Baptist parsonage, Park street.

—Mr. William Miller, Mayor of Niagara, is in town, the guest of his father, Col. Miller, and accompanied by his little daughter, who will remain in town while her father visits Ottawa on civic business.

—Mr. Morton Chambers, who has been confined to St. Michael's Hospital, Toronto, for the past eight weeks, is in town with his sister, Miss Chambers, 340 1-2 Water street, for a few weeks, before leaving for his home in Munvers to recuperate.

—Mrs. W. H. Brownscombe and daughter, Miss Edith, of Port Hope, were in town yesterday on their way to their new home in Uxbridge. They were joined here by Miss Jennie Brownscombe, who has been the guest of Miss Effie McWhinnie, for the past week.

—Among those who attended the funeral of the late Councillor Dejell yesterday afternoon were Warden Buck and members of the county council, Mr. E. A. Peck, county solicitor, Mr. Geo. E. Elliott, county treasurer, Mr. Geo. E. Fitzgerald, Mr. W. R. G. Higgins and others.

—Mr. F. W. Taylor, well known in Peterborough, as at one time manager of the local branch of the Bank of Montreal, and later assistant inspector, and for the past two months manager of the Chicago branch, has been placed temporarily in charge of the London, Eng., branch, vice Mr. Alex. Laird.

—Mr. and Mrs. L. D. Oakley returned on Tuesday from Grimsby, where Mr. Oakley was called suddenly on Thursday last by the death of his mother, who passed away unexpectedly from a paralytic stroke. The deceased had, however been in poor health for some time previous to her demise. The funeral took place on Sunday.

—Rev. Wm. Tighe, who with Mrs. Tighe was on his way from Winnipeg, when he received the sad intelligence of the death of his sister, Mrs. Frank Dixon, is in town for the funeral, and will spend several weeks here before returning. Mrs. Tighe will spend the summer with relatives in Toronto.

All Should Bury the Hatchet.

A local contemporary commenting on the Private Bills Committee supporting the incorporation of this town as a city says that there should be no jealousy, etc., and that "The will of the majority should prevail." Whilst we agree, should the bill pass the Legislature, that every one, opponent or not, should unite for Peterborough's advancement, in the name of common sense, when did the majority of our citizens get an opportunity of expressing their will?

A Desirable Change

Gentlemen Who Are Bald.—A great many think it is impossible to replace their former growth; these thoughts would be at once expelled from their minds should they investigate the Art Hair Coverings manufactured by Prof. Dorenwend, whose skill in this line is world-renowned. Over 36,000 wear his Art Productions. They are feather-weight, securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance. He is at the Oriental Hotel, Peterborough, on Friday, May 19th. Don't miss seeing his goods.

When you want a one-time Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—Many expressions of regret were heard throughout the town yesterday when it was announced that the Incorporation Bill was advanced a stage.

Just within her grasp is safety—but she does not see it; she is looking the wrong way. There's many a woman struggling in a sea of disease who is doing the same thing—looking the wrong way—snatching at medicinal straws when the life buoy, Dr. Pierce's Favorite Prescription is within her reach.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE—The "Favorite Prescription" stands alone, as the one and only remedy for these distressingly common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing, and binding themselves to forfeit, as the proprietors of that wonderful remedy hereby do, to pay the sum of $500 in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

ADVERTISE IN THE TIMES.

A NEW GERM THEORY

Explains Cause of Much of the Sickness in Peterborough

It is well known that everyone swallows countless germs every day, many of them being positive disease germs which under right conditions result in serious sickness.

Dame Nature kills most of these germs when they reach the stomach and digestive organs with the natural juices secreted by the healthy stomach. As a usual thing it is only the person with a weak stomach and poor digestion who should fear the germs of disease.

The most recent theory of scientists is that the bodily health depends upon the natural action of the stomach. This explains why those who use Mi-o-na tablets are rarely ill. Taken before each meal, Mi-o-na strengthens the stomach so that disease germs are either neutralized or else driven from the system. You can eat what you want and all you want without fear of indigestion. If you take a Mi-o-na tablet before each meal.

Thousands of people are wasting away, thinking that they have heart disease, liver complaint, or some kidney disorder, and that the resulting headache, dizziness, heartburn, and general despondency and weakness is a sign of serious illness. when in reality there is nothing the matter with them but a weak stomach, which a fifty cent box of Mi-o-na tablets will restore to health and strength.

Mi-o-na is a guaranteed cure for all diseases of the stomach, excepting cancer. Ask Wm. Mindill to show you the guarantee he gives with every package.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 111 PETERBOROUGH ONTARIO, FRIDAY MAY 12 1905. PRICE TWO CENTS

Hundreds Swept from Time to Eternity.

Death-Dealing Tornado Almost Wipes Out of Existence the Thriving Town of Snyder in Oklahoma Territory. U. S.

Guthrie, O.T., May 12.—News has been received from the Frisco Station agent at Mountain Park, Kiowa County, a neighboring town of Snyder, to the effect that the town of Snyder is only partially destroyed, but that the list of dead will total somethings between three and four hundred. This agent made a personal visit to Snyder, where he observed the details of the calamity.

Relief trains sent out from Hobart have not as yet reported, or returned. It is the intention to send out another train from that place. Chickasha has so far no intelligence of the relief trains sent from that town.

NO OTHERS DESTROYED.

Rumors to the effect that other towns in south-western Oklahoma were destroyed are declared by the telephone exchanges to be incorrect. Snyder is a town of about 2,500 inhabitants in Kiowa County, Oklahoma, in the Kiowa and Commanche Indian country, opened to white settlement in 1901. The town was laid out largely by the St. Louis and San Francisco Railway, at the junction of two of its lines, and the company erected important buildings there. It is the division point for the Quanah division of the road. The town is named for Bryan Snyder, passenger traffic manager of the system.

BUILDINGS DEMOLISHED.

The tornado struck Snyder from the south-west, travelling north until within about 100 yards from the tracks of the Oklahoma City and Western Railway. There it took a north-easterly course through the business portion of the town. North of the track not a building was left standing. Coming as it did while most of the inhabitants of Snyder were asleep, but few had any warning of their danger.

PETITION AGAINST INCORPORATION

List of Citizens Who Oppose a City by Legislation

Can Ontario Parliament Turn a Deaf Ear to This List?

As there seems to be some misunderstanding about town concerning the signatures attached to the petitions against the incorporation of Peterborough as a city, we append below a complete list so that our readers can see the futility of such childish argument. A glance will show that the list includes the names of most of our more prominent citizens. Will our Toronto representative pay no attention to this list?

To the Honorable the Members of the Legislative Assembly of the Province of Ontario:

We the undersigned ratepayers of the Town of Peterborough humbly petition your Honorable Body;

That you will cause to be expunged from Bill number 29 and intituled "Bill Respecting the Town of Peterborough" section numbered 1 to 11, both inclusive, and being sections providing for the incorporation of the Town of Peterborough as a City on the following, amongst other grounds;

That a petition, addressed to the Mayor and Aldermen of the Town of Peterborough, signed by a number of representative citizens, including all classes, was duly presented at a meeting called for the purpose; which petition was in words as follows:—

"We, the undersigned business men and rate payers of the Town of Peterborough, humbly petition your Honorable Body that you will instruct your solicitor to withdraw the Petition for incorporation of this Town as a City.

We are of the opinion that incorporation is being asked prematurely. We wish to have our population increased before asking the officials and representative men of other towns and cities to join with us in celebrating its incorporation. Many public edifices and improvements, which will materially add to the appearance and status of the Town, are now about to be built. We claim that nothing is to be gained by being incorporated as a City. Before petition for rights that we are not entitled to, otherwise than by permission of the Legislature, we prefer to be entitled as of right to a City Charter.

And your petitioners will ever pray."

And had the following signatures attached thereto:

R. P. Boucher, M.D.,	J. D. Craig,
John Haggart,	John E. Belcher,

We assert that from letters in the local public press and from expressions of dissent from our public men, the Council had due notice of the fact that public opinion was decidedly against the proposed bill, in so far as it provided for the granting of the city charter.

We claim that the Council before asking for a city charter should have given the citizens an opportunity of expressing their opinion, this they did not do.

Your petitioners regret to say that the members of the Town Council refused to grant the prayer of said petitioners, their opinion being as is reported in the daily press, that the requests of those opposed to incorporation should be made to the Provincial Legislature in whose hands the matter now rests.

And your petitioners, as in duty bound, will ever pray.

We, the undersigned, are opposed to the incorporation of the Town of Peterborough as a City, and request to have this sheet attached to a formal memorial to the Legislature:

J. Payton,	E. J. McCarthy,
M. T. Butchery,	Thos. J. Moore,
John Cronin,	Archie Weir,

ANOTHER REAL ESTATE OFFICE

Mr. George Rickeby & Co. the Latest Addition to Our Real Estate Brokers.

Mr. George Rickerby, who in partnership with his brothers, recently purchased the C.P.R. Hotel, on Simcoe street, has completed arrangements to open a large real estate business in Peterborough. Two or three gentlemen will be associated with Mr. Rickerby in his new venture, among them being Mr. Paul Neuman of the Toronto World, whose services have been finally secured. The new firm are now looking for suitable office accommodations, and when such, as suit, are procured, over the door will appear the legend "G. T. Rickerby & Co., Real Estate and Contractors."

This firm will handle both local and foreign real estate and fire insurance, and will, from time to time, establish branch offices in other cities and towns.

OIL KING HAS BROKEN HEART

Attacks May Drive Rockefeller to the Grave

SAYS THE REV. DR. MORRIS

Strong Plea for the Man of Greatest Wealth on Earth

Washington, May 11. — "The best thing ever said about Mr. Rockefeller, was said in the public journals yesterday, when they stated that the severe things recently said about him have hurt him to the heart.

"Should the world decide that his money is tainted and cannot be accepted for use in doing good, the condemnation will be more than any normal man can bear. It will break his heart, it will hurry him to his grave."

Thus spoke Rev. Dr. George K. Morris, pastor of the Euclid avenue Methodist Episcopal church, Sunday morning in his sermon on "Christian Commercialism."

DOESN'T PLAY GOLF.

"Mr. Rockefeller has lost his interest in his favorite game of golf, and has abandoned the field," continued Rev. Dr. Morris. "He has become sad, and has aged five years in as many weeks. There is infinite pathos in this situation. He has many millions; is perhaps the richest man in America, yet his uncounted gold cannot sustain him under the real or supposed scorn of his fellow man. It is not for me to say that his accusers are right or wrong. What concerns us just here is the fact that in itself money is impotent to give happiness under human condemnation.

"The lowest place in the scale of humanity is occupied by those who never think of giving at all. Savages are they. A little higher men give to their own family. This is limited altruism.

MAKE GIFTS WITHOUT COST.

"Still higher men when urged part with something out of their abundance, at no real cost to themselves. A yet more highly developed man will on principle voluntarily give, at some cost in sacrifice, to strangers. Finally the very highest live to bless others by giving. They make money only that they may be able to give it away and so do great good. It is their extreme delight to give to the limit.

"The advantage in Christian commercialism is incidental; the good of others is the mainspring of action. In business investments personal gain is the primary purpose of the transaction, and any good that may result to another is incidental. Both are right. But in giving the most unselfish of men may have pleasure in knowing that he shall, in a higher sense, be benefited by his sacrifice.

MEASURE OF VALUE.

"Men value money because of the pleasure they can get out of its use.

The simple fact is that the largest measures of pleasure is secured by the use of it in doing good. To the right thinking man there is pleasure in the fact that his giving is noted above. There is further satisfaction in the assurance that God secures to each a magnificent return for all good done, according to the measure of the sacrifice he has made in order to benefit another. It is not the largest givers who shall enjoy the largest return of their munificence, but those whose giving costs the most."

—On account of the lack of pig iron the moulding department of the Sylvester Company, Lindsay, is shut down and the men are taking a rest.

HITS AT WINNIPEG SOCIETY

Says So-Called Respectable Ladies, and Particularly the Married Women, are Responsible for Decaying Virtue

Winnipeg, May 10.—Rev. C. W. Gordon, the famous novelist, known as "Ralph Connor," author of "Black Rock" and other notable works, made some extraordinary statements in his pulpit at St. Stephen's church, Presbyterian, last night.

He said people were heartily sick of sermons to young men. It was the young woman that needed speaking to. His deliverance on Winnipeg society, created a tremendous sensation. Speaking of the lust that threatens Winnipeg, the preacher said;

"It seems a strange thing that the growth of wealth may have a great deal to do in weakening the relations of the sexes. You have a growth of those things which constitute an attack on virtue, and you invite things that make for shame and lust, and this is true in Winnipeg society. Blame must be laid on the married woman of society. It is said that young men are to blame who are found dangling after married women as lovers. No man would dare by any act to suggest what is improper to a married woman unless she gives the invitation. Is it not time we separated the clean from the unclean? Is the time not come, or must we go farther and sacrifice more of our homes and livest Or is the pure and keep their hearts for their husbands? Is the time coming when some will differentiate among those who constitute society, and refuse to associate with those who pander to the lustfulness of vice, and the most depraved of heart who sacrifice on the burning altars of their own lusts the purity of young men and women. I am hoping the day is coming when sufficient of our society leaders will say, 'We will not have any woman in our home whose life is not spotless and absolutely without taint.' Then they will have to go to their own set and depart to their own places.

THOSE TO BLAME.

"If I had stronger words, I should attack them deliberately to the names of women in this city who rank in the 'first' sets of society. I will attack blame to them. They are responsible, not our slums, saloons, and brothels. Those so-called respectable ladies are responsible for the decay of virtue and the alarming growth of lust in our fair city."

SIX BRAVE GIRLS

Contribute Part of Their Skin to Save the Life of a Child Friend

Hamilton, May 12.—In an attempt to save the life of little Olive Clegg, six girl friends, members of the Girls' Friendly Society of St. George's Church, went to St. Joseph's Hospital a few days ago, and one after another submitted to being placed on operating tables to have pieces of cuticle removed from their bodies to be placed on the head of the little sufferer. The child was adjusting a belt in Miss Connor's tailoring shop when her hair caught in the machinery, and in an instant her scalp was torn completely off.

She hovered between life and death for days, and Dr. McNichol decided the girl's only chance for life rested on a skin-grafting operation. The first to volunteer were the two brothers of the lady in whose place the child met with the accident, James and Thos. Connor, who reside on York street, near the Dundurn. In all 27 pieces of skin were taken from their bodies, but this was not sufficient, and Dr. McNichol found it necessary to ask for more. The six young ladies of the Girls' Friendly Society, of which Olive was a member, then volunteered. Their names are Jessie Williams, Edith Smith, E. Gardner, Emma Gillies, Marion Marshall and Rose Bowden. They are all getting along nicely.

THE MAGISTRATE IS AROUSED

Mr. D. W. Dumble Advises Council to Check Irregularities by Scavengers Through Licenses.

Yesterday morning, on adjournment of the police court, in which had just been tried a flagrant case of obtaining money under false pretences, by a scavenger, a full report of which appears under police news in another column, his Worship called the press representatives to his desk and gave his views on allowing unlicensed scavengers to do business. Mr. Dumble speaking from experience on the bench and at the bar (of justice), said that these petty extortions and small swindles by scavengers, in Peterborough, were too common, and on the increase.

He said that the Council are largely to blame for the existing troubles, because they do not impose proper restrictions, coupled with a license fee, on men engaged in such work. A fear that his license might be cancelled, would be a great deterrent to a man engaged in this work. A scavenger should, in his opinion, be under some sort of municipal control and supervision.

ST. LUKE'S CHURCH

Adjourned Vestry Meeting Held, When Favorable Reports were Presented.

A large audience was present Wednesday night to receive the reports from the rector, wardens, and secretaries of the various organizations in connection with St. Luke's church. The rector, Rev. E. A. Langfeldt, was in the chair, and opened the meeting with reading of Scriptures and prayer.

After the opening exercises the rector presented his annual report to his congregation, which was one to put courage and strenuous effort into every member of the congregation.

There were 111 Sunday services, held during the year with a total attendance of 11,400. The Holy Eucharist was celebrated 59 times, with an average attendance of 56, and in private by the sick it was celebrated 19 times. 28 children and two adults were baptized; 10 couples were married, and 24 people were buried during the year. The rector paid 836 visits, preached 127 sermons and gave 94 addresses. Four hundred and ninety-six adults and 247 children are on the parish register.

The rector spoke feelingly of the aid he had received from his church wardens, and duly thanked them; he also tendered his thanks to Messrs. J. J. Turner, jr., and R. A. Sutcliffe.

The different societies in affiliation with the church, all showed a good return, as did the missions, guilds and auxilliaries.

The total givings from all sources amounted to $3,003.36.

The meeting closed with the benediction.

All Britain's Unemployed Can Find Work in Canada

Sir Thomas Shaughnessy, President of the C. P. R., Talks of Canada's Great Possibilities

More Intercourse With the Mother Land Wanted by the People of the Dominion.

London, May 12.—Sir Thomas Shaughnessy, President of the Canadian Pacific Railway, in an interview, said;

"From our standpoint no man need be out of work."

As he spoke, Sir Thomas was gazing out of a high window in the company's London offices, over Trafalgar square. It was there, he recalled, that London's unemployed had recently been demonstrating, and the recollection suggested the remark.

"There is no necessity," he added, "for these men being unemployed."

"Do you mean," it was suggested, "that there is plenty of work for them in Canada, or is it not the case that you want only suitable men, the pick of immigrants, in fact?"

"Of course," said Sir Thomas, "we don't want unsuitable immigrants; but they would soon get 'broken in,' if I may put it that way."

But the unemployed problem cannot be discussed at any length without raising social, and even political, questions, which, however greatly they may interest the president of a Canadian railway, are somewhat out of his sphere for public discussion.

While, however, Sir Thomas Shaughnessy preferred not to enter into any political disputations, he was enthusiastic on the industrial possibilities of Canada and its value to Great Britain.

"There is one point," he said, "which I always impress on my friends on this side, and that is the deplorable ignorance of the people of Great Britain about the resources and the vast possibilities of Canada, and its value to the Empire. That is a sort of knowledge which can be acquired only by more frequent intercourse.

"People on this side don't go to Canada; they don't know what they have got on the other side of the Atlantic.

"Their attention has been directed so long to other parts of the Empire that they have not yet fully realized the worth of Canada. Australia, though so much further away, has always attracted more attention; India as a possession, has been more greatly prized, and Africa, especially since the war, seems to have monopolized interest."

MORE INTERCOURSE WANTED.

"How is this ignorance of Canada to be overcome?" "Only by more frequent intercourse. People should visit Canada instead of going to Monte Carlo, Vienna, Rome, the Rivieras. If they would occasionally turn their attention in another direction and visit what is, after all, a part of their own country, and should be recognized as such, quite as much as Scotland or Ireland, some good might result. They can get there more cheaply than to some parts of the Continent; they would have an ideal sea-trip, and they would learn something of their own people across there that would enlighten their minds."

"But if Canada has few visitors, she has plenty of immigrants. There is cheap land in Canada, and population," said Sir Thomas Shaughnessy, will flock to the land. "But," he added, "a larger part of our population ought to come from Great Britain. Our immigration from the United States during the past two years has, I think, been much greater than from Britain. We have, of course, immigrants from Continental Europe, but not in such numbers as to the United States, and we are glad to receive them."

It has been frequently suggested that the immigrants into Canada from across the border might constitute a political danger by creating an element of hostility to the relations of the Dominion with the Mother Country. Sir Thomas Shaughnessy was emphatic in his repudiation of such a possibility.

"The people," he said, "who come from the United States into Canada become good British subjects in a very short time."

FLOURISHING INDUSTRIES.

Of Canada's industrial development Sir Thomas spoke most encouragingly. "We are getting along very well," he said, "and developments are taking place in every direction. The most marked progress has been in the iron industry at Sydney, Nova Scotia, and Sault Ste. Marie, or "The Soo," as it is commonly known. Our shipping industries also are expanding in their scope and the value of their business. As to railway enterprise, the Canadian Pacific is always building. Our system is over 12,000 miles long in Canada and the United States, and this spring we shall be at work on 600 miles of new railway.

"We are tapping agricultural areas in the North-Western districts, which we have not hitherto touched, and there will be one or two short lines for the assistance of the mining territories in British Columbia. We have a fleet of fourteen steamships on the Atlantic Ocean trading between British ports and Canada, and we are having built on the Clyde two fast passengers boats, which we hope will make the trip from land to land in quicker time than any vessels afloat."

With this, and with a parting injunction that, although poetic license might be allowed to describe Canada as "Our Lady of the Snows," yet the Dominion enjoys "good, healthy, inspiring weather," Sir Thomas Shaughnessy turned to the consideration of matters more immediately affecting the railway concern over whose destines he presides.

SIR THOMAS SHAUGHNESSY,
President of the Canadian Pacific Railway.

Obituary.

Miss Eargaret Cronin Passes Away

The death occurred Wednesday afternoon of Miss Margaret Cronin, aged 75 years, at the residence of her sister, Mrs. Doucett, 165 Sherbrook street. The body was taken to Toronto this morning on the 7.12 train and the funeral will take place this morning at 9.00 a.m., to the place of interment. Deceased came to Peterborough about six months ago in poor health, but with hopes of recovery. She did not regain her health, however, and death overtook her yesterday.

Death of Mrs. Thos. Hall, Smith

On Wednesday morning at her late residence, lot 18, concession 4, of Smith, the death of Jane Harrison, the wife of Mr. Thomas Hall, occurred, after an illness of about duration. Although Mrs. Hall had been ailing for about a year it was only recently that her illness took a serious turn.

Deceased was 57 years of age, and has been a resident of Smith since her marriage with her now sorrowing husband. She leaves one son, Adam, and one daughter, Margaret both being at home. Her mother, four brothers and two sisters, also survive, her father having died about a year ago.

The brothers are: Joseph Harrison, of Cavan; Robert, of Peterborough; John, of Asphodel; and William C. of Norwood; and two sisters, Mrs. Finlay, of Lucknow, and Miss Maggie at home.

The funeral services will take place to-morrow afternoon at two o'clock, the cortege leaving at 2.30 for Little Lake cemetery, where interment will take place.

The Censure Removed

Legislature Revokes Condemnation of R. R. Gamey---Member for Manitoulin Says The People Have Found for Him.

Toronto, May 12.—The vote of censure passed under the late Government upon Mr. R. R. Gamey, the member for Manitoulin, in connection with the famous charges against Hon. J. R. Stratton, was expunged by the Ontario Legislature yesterday afternoon on a vote of 60 to 21. All the galleries of the House were crowded in anticipation of the motion by Mr. Gamey. The hon member, who at times spoke with some feeling, presented his case with considerable force and skill, and although the ex-Premier was in his place, he delegated to Mr. Harcourt the task of replying to Mr. Gamey. Mr. Whitney made a vigorous speech, and the session was notable for the first division, which only served the purpose of ascertaining the strength of the Government, whose majority was 39.

Russ Ships Fool Japanese.

Tokio, May 12.—It is reported that two Russian warships, from Vladivostock were off Aomori, in the north of Houdon, the main island of Japan, Tuesday.

A subsequent report stated that it was two of the Second Russian Pacific squadron that were seen off Aomori, in the Straits of Tsugaru, on Tuesday, May 9.

Rojestvensky has evidently scored again. The above reports, seemingly contradictory, indicate that two fast cruisers, detached from the Russian Admiral's fleet a month ago, have succeeded in passing the Tsugaru, Straits, and unless stopped by a Japanese blockading squadron, should reach Vladivostock to-day or to-morrow.

COFFEE HEART

Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience, as follows;

"I became satisfied some months ago that I owed the palpitation of the heart, from which I suffered almost daily, to the use of coffee. (I had been a coffee drinker for 30 years) but I found it very hard to give up the beverage.

"I realized that I must give up the harmful indulgence in coffee, but I felt the necessity for a hot table drink, and as tea is not to my liking, I was at a loss for awhile, what to do.

"One day I ran across a very sensible and straightforward presentation of the claims of Postum Food Coffee, and was so impressed thereby that I concluded to give it a trial. My experience with it was unsatisfactory till I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was no trouble. Postum Food Coffee proved to be a most palatable and satisfactory hot beverage, and I have used it ever since.

"The effect on my health has been most salutary. It has completely cured the heart palpitation from which I used to suffer so much, particularly after breakfast, and I never have a return of it except when I dine or lunch away from home and am compelled to drink the old kind of coffee because Postum is not served. I find that Postum Food Coffee cheers and invigorates while it produces no harmful stimulation." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Ten days' trial proves an eye opener to many.

Get the little book "The Road to Wellville," in each pkg.

Thin-Blooded, Tired Nervous, Unhappy

I Was Sick, Broken Down, No Strength, Couldn't Sleep, No Appetite

FERROZONE

Gave Me Energy, Force, Vim, Comfort Made Me Well.

Because Ferrozone gives instant effect and steadily builds up new flesh it is used by thousands in poor health.

No other tonic in the world is like Ferrozone. No other medicine accomplishes such marvelous results.

Its wonderful merit in building up and strengthening is acknowledged by every physician.

It makes you feel better at once like Mrs. Chalres Benny, of Cloyne, Ont.

HER STATEMENT:

"I was sick.

"I was broken down, had no strength, couldn't eat, I was sleepless.

"My nerves were irritable. I was thin-blooded and continually unhappy.

"I tried Ferrozone.

"It gave me new energy, force, vim. It brought me comfort, strength —it made me well."

To get new vital energy, renewed youth, use Ferrozone. It makes the blood rich and red, fortifies the system with reserve strength, puts new life into all that use it. Greatest tonic and rebuilder known. 50c. per box or six boxes for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

CURING CANCER WITH RADIUM

The country is justly excited over the probable cure of President Harper's, of Chicago, intestinal cancer by the use of radium. Every cancer sufferer exchanges stolid despair for lively hope of cure for himself. The larger number who dread the disease from congenital or other predisposition rejoice hardly less. There are few people of mature age in the United States who have not come into contact, one way or another, with this horrid disease and who will not welcome a remedy as a personal blessing for themselves or friends.

The case of Dr. Harper is conspicuous because he is widely known, but obscure from the nature and location of the affection. Public interest in this has brought to notice a large number of cases successfully treated in the same hospital, which are more easily understood and give more hope to the generality of sufferers.

Dr. Harper's cancer cannot be reached directly. He takes the X-ray treatment daily for about fifteen minutes and wears a vial of radium bromide on his body for one to three hours at a time at irregular intervals, governed by the effect. The X-rays and the various emanations from the radium have power to burn all flesh, but attack the malignant germs in morbid tissue more powerfully. The problem of using them seems to be like that of burning out a wart with acid, to destroy the unsound without attacking the sound flesh.

In Dr. Harper's case this treatment is reported to have reduced the cancerous area more than half. The doctors who are attending him describe several cases of persons less known where the results are still near surprising. When the cancer is external it is directly treated with radium, sometimes enclosed in glass tubes, sometimes painted in solution on celluloid pencils. The latter are more powerful because glass cuts off part of the rays. The glass tubes seem to be used when there is fear of burning sound flesh. In small cancers the glass tubes are simply applied. A person with cancer of the tongue kept one in the mouth like a nurse's thermometer an hour and a half a day for two weeks. The cancer then fell off and the wound healed.

Large cancers and tumors are treated by injecting either tubes or pencils according to conditions. A large tumor was destroyed by injecting it with tubes and leaving them in forty-eight hours at a time. A soft cancer on the foot received two insertions of radium pencil of forty-eight hours each and fell off. Cancers so hard that the sticks cannot be forced into them are softened by external application of radium of half an hour each, after which the celluloid stick is inserted. One case of this kind is approaching apparent cure and the surgeons are hopefully beginning another.

The radium method is still in its infancy; but these cases, reported to the New York papers by the physicians who are treating Dr. Harper, seem full of hope for sufferers all over the country.

THE FATE OF TURKEY

Amidst the thunders of the Japanese war, that which is going on in Arabia is little noticed. It seems however, that the forces of the Sultan have there met with utter defeat, and that there is hope of the escape of the Province from Turkish rule. The loss would be not only material, but moral. Arabia being the cradle of Islam and the sovereignty of the Holy Places being regarded as a talisman of empire. We may hope, therefore, that the despotism of the Ottoman, after prolonging its baneful and, blighting influence over some of the fairest and once most prosperous regions of the earth for four centuries and a half, is now gradually yielding to its doom. It is painful to think that for the last half century British policy has been its main support, and that Great Britain is holding Cyprus as her fee.

APSLEY

It is to be hoped that the new Ontario Government will make some alterations in the free grant act as regards Peterborough County. There is supposed to be free grant land in Burleigh and Anstruther: but, when a would-be settler applies for location at Toronto the first thing done is for the commission to notify some timber license holder, who sends a wood ranger up to investigate, and who invarably reports land unfit for cultivation, no matter how good the lot may be. A good way to settle up the country, is it not? There is plenty of good land here yet that would make homes for many settlers. Let our member for East Peterborough stir the matter up. You may hear more about this another time.

MARCONI

How Great Fortunes Grow

Of the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To-day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay-- Buy To-day.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the sale, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

STEVENS

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the country. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time. Will accept orders for blocks of 1000 shares or more at 45 cents a share.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share, yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensible adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

Address all communications and make all checks payable to

K&K — NOT A DOLLAR NEED BE PAID — K&K

ESTABLISHED 25 YEARS.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 25 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

Drs. KENNEDY & KERGAN,
148 SHELBY STREET, DETROIT, MICH.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Loet Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 300 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quantity formation lying interjacent. The base values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3 40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese. It is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $750.00 per ton and for gold $288.00.

With an average value of $60.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $47.60 a ton. The cost of mining has been on a undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 975,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

SALVATION SHIP REACHES PORT

Army's Emigrant Vessel Arrives at Quebec--They Had Good Trip

Quebec, May 12.—Three thousand four hundred new settlers were landed at this port this morning. The Allan steamer Pretorian arrived late last night with over 400, principally foreigners; the C.P.R. steamer Montrose eighteen; the C.P.R. steamer Montrose arrived this morning with 785; the Dominion steamer Vancouver with 1,006, and the C.P.R. steamer Lake Champlain this afternoon with 1,200.

The Vancouver, with the Salvation Army immigrants, steamed up the harbor at 10 o'clock, and half an hour later was moored to the breakwater. The local contingent of the Army, under Staff-Captain Patterson and Ensign Hannah, were on the dock to greet Col. Jacobs and other officers of the Salvation Army in charge of the new arrivals. Eight hundred of the number who came out as steerage were landed at Quebec, the other two hundred, who came out as second cabin, will continue on to Montreal with the ship. There are 140 uniformed members of the Army with the aggregation, which is, without exception, the finest looking lot of settlers who ever arrived here. They come from all parts of England, Scotland and Ireland, especially from the vicinity of Cork.

ALL ARE PROVIDED FOR.

Col. Jacobs, General Secretary of the Salvation Army in Canada, with headquarters at Toronto, said that every man and girl on the ship were already provided with positions, to which they would go direct. He added that there were many men of means in the number who had been in business in Britain, and the greater part of these would proceed to the Northwest Territories to invest their capital. But in no sense would any considerable number of the arrivals be located in any one center. They would be scattered in one hundred and fifty places throughout Ontario, Manitoba and the Northwest, and from his personal observations of the personnel they were not only a most desirable lot of citizens for Canada, but respectable and intelligent people, who would make their mark. None of the passengers who came on board on the ship, said Col. Jacobs, knew of their point of destination; but before they left the ship every man and woman knew where they were going to. "We held meetings and gave lectures on Canada all the way across the ocean, and told every person their destination in a personal interview I had with them."

TO CANADIAN INVESTORS

Thomas Patterson Gives a Fine Copper Proposition.

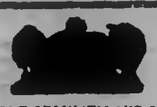
Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $150,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 50 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

THE HOMESTEAD ENTRIES

Ottawa, May 10.—The homestead entries for the month of April show how rapidly the West is being filled up. The number of homestead entries for the month was 1,463 greater than for April last year. There were 3,791 entries for the past month and 2,328 for April, 1904.

Regina leads the list with 1,111 or nearly double that of April last year. Battleford comes next with 560 entries compared with 146 for April, 1904. Yorkton is third with 510, an increase of over 200. Edmonton has got 318, an increase of 135. Red Deer 220, an increase of 97. Prince Albert 230, an increase of 100. Calgary 247, a decrease of 147. Lethbridge 213, a decrease of 38. Alameda 144, an increase of 53. Dauphin 50, an increase of 32. Winnipeg 43, an increase of 3. Brandon 18, a decrease of 15. Minnedosa 12, an increase of 9. There were 13 at Kamloops, and 3 at New Westminster.



DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS.

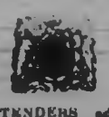
SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

R. F. JARVIS,
Secretary.
The Militia Council.
Department of Militia and Defence.
Ottawa, May 1, 1905.



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Stanley Breakwaters," will be received at this office until Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Elgin County, Ontario, according to a plan and specification to be seen on application to the Postmaster at Port Stanley, Ont., at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto, J. G. Sing, Esq., Resident Engineer, London, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.
Department of Public Works,
Ottawa, May 5, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents.

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1890 to 1898 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4500 feet on Arapahoe dyke 21 feet wide	15.3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20.4
Klondyke Tunnel site claim	100.
Three Jacks Placer	150.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 800 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost $15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $6,000.00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000.00
Treasury stock sales pledged	1000.00

Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.
No bonds or mortgages, no preferred stock.

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Tons
Average number of tons mill ore concentrates in on ton	6
Number of tons concentrated per day	3

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 6 tons mill ore of value of $72.00 showing 10 per cent loss in saving	60.00
Net value after deducting expense of mining and milling per day	60.00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	180.00
Net revenue per month, estimated	5 000.00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $8000 per month	96,000.00
Minimum net revenue per annum from ore treated and shipped	120,000.00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 600,000 shares in treasury reserve fund which draws no dividend $120,000.00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	250 00
5 per cent dividends returns on investment per annum	33⅓
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905 energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore deve through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Address all communications to THOS. PATTERSON & CO., Fiscal Agents, Peterborough, Ontario.

The Catarrhozone Dry Air Treatment

THE ONLY RATIONAL, SURE CURE FOR CATARRH AND DISEASES OF THE NOSE, THROAT AND LUNGS.

This only natural cure for catarrh is the dry air treatment which affects startling cures without resorting to drugs, dangerous snuff and cocaine mixtures.

Catarrhozone kills the catarrh germs, soothes and heals the sore mucous membrane, clears the air passages of the nose and throat, cures chronic catarrh that has resisted all other treatments.

The reason why Catarrhozone cures is because it really gets at the cause of the disease. No matter how remote or long standing your catarrh may be you can place perfect faith in Catrozone. It is Nature's Cure composed of the most healing balsamic antiseptics known to medical science. Read the following:

MR. L. MURPHY, well known in West Medford, Mass., writes; "Catarrhozone cured my catarrh, after a score of doctors failed. I used to hawk and spit, my nose was continually stuffed up, and often I was sick at my stomach. Catarrhozone has removed every trace of catarrh from my system."

MISS EMMA PETERS, Highland Grove, N.S., writes; "I am more than pleased with the results from Catarrhozone. It cured me of the worst kind of nose and throat catarrh. Other friends using Catarrhozone are greatly pleased with it and agree that it is the only sure remedy for catarrh they ever used."

Mr. LAWRENCE KENNEDY, of West New Annan, says; "For three years I suffered from catarrh and throat trouble. I tried many remedies but they were of no avail. I got no relief till I tried Catarrhozone. Too much cannot be said of so valuable a medicine. I shall always recommend Catarrhozone to anyone troubled with catarrh; it is a positive cure."

MR. W. W. BEACH, of Chipman, Ont., who suffered for years from "systematic catarrh says; "Catarrhozone is the best remedy I have ever used for catarrh and I have used a lot of them. Catarrhozone was exactly suited to my case."

No intelligent person can doubt the merit of Catarrhozone which receives more praise from Medical Journals, doctors and the public than any other remedy; it is certain to cure every type of catarrh, lung and throat trouble. Two months' treatment, $1.00; sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S., and Kingston, Ont. Refuse a substitute for Catarrhozone.

Restaurant for Sale.

Fred E. Darey offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darey has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Mrs. A. L. Davis Gives Y.W.C.A. Books

The library furnished by Mrs. A. L. Davis, comprising 215 volumes of the most recent and interesting literature is now ready for the use of themembers. With the exception of a few which are to remain on the table, any book may be taken out by a member for one week at a time, upon application to the general secretary. This library is a new and very special feature of the Y.W.C.A. Association, and will no doubt be a great attraction to the members.

Building Trades' Alliance Proposed.

A well attended meeting of the Trades and Labor Council was held Wednesday night in the Labor Hall, George street. A meeting was called for the 31st, of the building trades —carpenters, masons, sheet metal workers and painters for the purpose of forming a Building Trades' Alliance in connection with the council. The next regular meeting of the council was postponed till June 14th, when the matter of the form in which Labor Day will be observed, will come up for discussion.

Large Audience See the Barlow Folk.

A crowded audience last night assembled in St. John's Sunday school, to see and hear a clever comedietta "The Barlow Folk," in which the characters are adapted from Eugene Field's ever popular poems. The entertainment was under the auspices of the Mission Band, and was fully appreciated by all present.

The children in particular were much taken by the pretty ideas, and the thoroughly dramatic way in which they were sustained.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The next sitting of the Division Court will be May 26th.

—Anyone wanting gardeners may find them on application to Adjutant Jennings of the S. A. Two men accustomed to this work arrived here from England last night.

—A carrier pigeon arrived at the Snowden House yesterday morning from Gold Lake with a message containing the words "the butter-milk tank is empty."

—Mrs. Thomas Hall, of Smith, died yesterday morning. She was a sister-in-law of Mr. Adam Hall and was a life-long member of St. Paul's church. She had been ill for some time.

—Mr. Nelson King, who, it was noticed yesterday met with a sprain ad ankle is much worse to-day, and is not able to work. He is conductor on the shunter in the G. T. R. yards here.

—There are now 669 dogs which have a right to live, their owners having paid their taxes, and about 400 who are in daily danger of encountering pistol practice at the hands of the police.

—The employees of the Canadian Cordage and Manufacturing Company will hold their fourth annual excursion to Jubilee Park on June 13. The event promises to be a big success.

—The ranks of the medical profession in Norwood will be strengthened in the near future by the addition of Dr. Jackson, of Ottawa, who will open an office in the Peirce Block. Dr. Jackson is a young practitioner, who has had, however, considerable practice in hospital work in Ottawa.

—The Charity Festival given in aid of the Ottawa City Hospitals in Russell theatre, Ottawa, on Wednesday night under the auspices of the Ottawa lodge Canadian Order of Kilts was in every sense an artistic, financial and social success.

—A rally meeting of all the members of the Canadian Order of Foresters of the town will be held inthe Foresters' Hall, Simcoe street, tonight at which Organizer Copeland will give an address. All members of the Order are invited.

—The Cigars Makers' Official Journal, published in Chicago, in the April number, gives some interesting figures of the amounts paid out in benefits by the Cigarmakers' International Union since the union was reorganized in November, 1879. The sum expended in benefits last year was $435,969.20 and the grand total outlay since 1879 is $6,416,520.78.

When you want a true-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography Work. Studio, 134 Brock street, Peterborough.

DEAD YET ALIVE.

Unique Experience of Lieut. C.E. Fry Cousin to Mr. G. Stevens, in S. A. War.

A veteran of the South African war, in the person of Lieut. C. E. Fry, is visiting with his brother-in-law, Mr. George Stevens, of the 5th ward.

The Lieutenant, who lives in Belleville, has passed through an experience that seldom falls to the lot of man; that of reading his own obituary in the newspapers, and finding out from the eulogies contained therein what a fine soldier and admirable citizen he had been before quitting this mundane sphere.

He was engaged in four of the most important engagements in the Boer war, and after a burial party had completed their sad task, he was reported by them as being among the slain. This mistake arose from his number being attached to the tag on a soldier who was buried.

Six months after his supposed death had been reported to the War Office, and thence to the Canadian newspapers, Lieut. Fry happened to get a package of Belleville newspapers, sent to him in South Africa, and in these he was amused to see that he was not only deadbut buried. Yesterday afternoon Lieut. Fry, accompanied his brother-in-law, to the mines in which Mr. Stevens is interested on a tour of inspection.

SOCIAL AND PERSONAL
SOCIETY EVENTS OF INTEREST

—Mrs. Stewart, of Bobcaygeon, is in town.

—Mr. H. W. Kincaid is in town for a day or so.

—Mr. J. C. Irwin of Lindsay, was in town yesterday.

—Mr. H. C. Thompson of Orillia, was in town yesterday on business.

—Mr. K. Seybold of Ottawa, was in town yesterday on business.

—Mrs. Frank Young, of Young's Point, was in town yesterday.

—Mr. S. Robertson, wife and child, Belleville, are at the Snowden House.

—Mr. H. J. Darrell, wife and children of Toronto, are visiting in town.

—Messrs. M. Ivan Dow and H. U. Burke, Boston, Mass., are registered at the Oriental hotel.

—Mr. J. J. Grafton of the firm of Grafton & Co., clothing manufacturers, was in town yesterday.

—Mrs. John Crane is settled in her new home, 303 Brock street, and will receive this afternoon.

—Mr. and Mrs. S. Robertson and child of Belleville, were visiting in town yesterday on business.

—Mr. Geo. H. Watson, K.C., of Toronto, is in town in connection with the action of Bogue vs. American Cereal Company.

—Mrs. E. Rolleston Tate, Lakefield, is in Toronto, attending the annual meeting of the Daughters of the Empire.

—Mr. Ernie Fry, of Belleville, is the guest of Mr. and Mrs. George Stephens, 5th ward. Mr. Fry is here on a business trip.

—Mr. R. S. Piggott, who is coming to town to-day to take part in Miss Belleghem's recital, will be the guest of Dr. and Mrs. Bradd.

—Mrs. Lorne Brooks, who recently met with a very severe injury, is quite well again. She has been out walking and is in quite good health.

—Mr. F. D. Kerr, of Dennistoun, Peck, Kerr and Stevenson, has purchased a very fine saddle and driving horse from Mr. R. H. Leary.

—Mrs. William Hudson of Rubidge street, town, left yesterday morning for Toronto, being called to that city by the sudden death of her sister, Mrs. D. Landel.

—Mr. W. J. Morrow, who was a few years ago, well known here as a grocer in a large business, but now with a large mercantile concern in Edmonton, is in town for a few days renewing acquaintances with old friends. Mr. Morrow has recently been through to the Coast, and speaks bigly of the western country.

A GOOD PROGRAM.

Prof. Davies' Pupils Present an Excellent Entertainment.

The recital given in the Y.M.C.A. Hall on Tuesday night, by the pupils of Prof. Davies, assisted by Miss Helen Davies, was most enjoyable, and fully appreciated by all present.

Miss Kate Graham gave three numbers, the Sonata in F minor by Beethoven; Nocturne No. 2 in E flat by Chopin and Waltz by Wachs. Miss Gladys Crane gave Chopin's Nocturne in G minor; Chopin's Waltz No. 2 in C minor and the Witches Dance by MacDowell. Miss Hazel Sanderson's selection was "Consolation" by Dusek. Miss Katharine Burnett, a talented little lassie, played "Six variations on 'Nel cor piu,'" by Beethoven, "Madrilena," by Wachs and Blue Bells by Smith. Miss Alice Hunter's numbers were "Polacca" by Weber and Godard's "Valse Chromatique." Miss Stella Kelly gave Chopin's "Polonaise" and an especially enjoyable effort was that of Miss Ida Mullholland, who played the Rhapsodie Hongroise No. 2 by Liszt and "Flatterer" by Chaminade. Miss Addie Doris played two movements of Beethoven's great Sonata "Pathetique."

The vocal numbers given by Miss Davies were, as usual, very pleasing and left nothing to be desired. Her selections were "Adoration" by Telma, "When Roses Bloom," by Pelissier, "Orpheus with his Lute" by Sullivan and "Enchantment" by Maschieroni. It is to be regretted that more did not take advantage of the opportunity of hearing the excellent program which was prepared for the evening. The proceeds go to the dormitory fund of the Y.M.C.A.

Chief of Police, G.I. Revell
Magistrate, D.W. Dumble

Yesterday's court began with a case of obtaining money under false pretences.

Samuel Steel, a carter and scavenger, was charged with having illegally, and under false pretences, taken the sum of $1.75 from Mrs. R. P. Biggs, 348 Stewart street, on the 10th May.

It seems that Steel had applied to Mrs. Biggs for the job of cleaning her yard and premises; the lady had told him to call again; and after having consulted her husband, said she would give him an answer. In the meantime, F. Drake had been engaged by Mr. Biggs, and had done the work, for which he had charged $2. Steel, of the ominous cognomen, returned, searching for the job, after it had been completed by Drake; Mrs. Bigg, taking him, by mistake, for the man who had removed last winter's ashes, tomato cans, and such like bric-a-brac, asked him "Are you the man who cleaned our yard?" and, on being answered in the affirmative, asked further "It was $1.75 you were to be paid, was it not?" Again Steel said yes. Mrs. Biggs thereupon paid him the money, which Steel stole.

Several witnesses were heard, whose evidence occurred in sustaining the above history of the case. Steel was defended by Mr. R. F. McWilliams, and Mrs. Steel, and without meaning any insinuation against the good defence, Mr. McWilliams put up, we might say, particularly defended by Mrs. Steel.

The lady made a brave and unqualified defence for the erring husband, neither dignity of the court, nor bashfulness of her sex restrained her. For the dauntless, Mr. McWilliams put Mrs. Steel in the witness box, when she swore that her husband was very hard of hearing, particularly with strangers, to show that Steel might have misunderstood the situation when he was paid the money.

County Crown Attorney R. E. Wood acted for the Crown.

His Worship gave Steel a lecture on his trying to take the money that he had not earned, and gave him an order on Castle Nesbitt good for one month. By that time Steel will have been saved all anxiety over the incorporation or Separate school bills.

The next case was a charge against James Innes of Simcoe street, of not sending his boy to school as required by law.

Chief Revell testified that he had told Mrs. Innes or her husband to be present at 9 o'clock in the court, but neither were present.

Inspector Walker swore that Howard Innes was on the school list as being 11 years of age. Out of the 86 school days, since Jan. 1st, the boy had only been present 21 days, and 10 half days in school. The boy was in the junior 2nd class, but should be in the 3rd. The boy had been irregular in his attendance during the past two or three years. A similar charge had been laid against this boy's father last June. He told the Magistrate that the maximum penalty was $20 fine.

His Worship tried to impress $2.60 worth upon Mr. Jas. Innes the necessity of sending his boy to get an education, said $2.60, to be paid within 10 days.

A prisoner spent last night in one of the police cells. It is the condemned cell he occupies too. He has four legs and a tail and is a fine large Newfoundland, with a good open face and pleasing manner. His owner brought him last night to be shot. The dog seems kindly and affectionate. Anyone wanting such a dog would do well to hasten to the station before the execution begins, and pay the poor fellow's tax. It seems wrong that such a dog should die for the sake of $1, when the woods are full of yellow curs not worth a pinch of sawdust, using the streets without paying poll tax, or dog tax.

A lady with more years than discretion was before His Worship's eagle eye yesterday morning, charged with having trespassed in a house on Bethune street.

STILL ANOTHER INDUSTRY?

Representative of Huge English Concern May Recommend Peterborough.

That Peterborough is fast becoming the eyesore of the industrial world was exemplified yesterday, when a representative of a vast English corporation, thoroughly investigated the outlook of this town for a possible location of their proposed immense Canadian branch of industry.

Yesterday afternoon in company with the Mayor, Ald. Hicks, chairman of the manufacturers' committee, and Mr. Armstrong, the town clerk, the gentleman took a drive around the town visiting some of the available sites for manufactories. A large plot of ground is needed and the Howden estate, where the sugar factory was started, and the Hilliard farm in the north end of the town were visited.

The representative of this huge concern, has visited other towns and cities in Canada, including Hamilton and Toronto, and he is making a thorough investigation of the advantages offered by the different towns, the result of which will no doubt determine the location of the plant which the company will place in this country.

The visitor, who was an engineer, was pleased with what he saw here, and there is reason to hope that the result of his visit may be the establishment of his concern in Peterborough.

For obvious reasons, and at his request, the name of this gentleman is withheld for the present at least, but it is probable that something may be heard of this later.

Changes in C. P. R. Officials

Montreal, May 11.—The C. P. R. makes the following announcements regarding officials in its Baggage Department. John Sparks, assistant general baggage agent, Winnipeg, will have charge of the baggage department on western lines; Mr. F. E. Quinn, the district baggage agent, Vancouver, will have charge of the baggage department on the Pacific division; Mr. A. Hasketh, the travelling baggage agent, will have his office at Calgary.

ADVERTISE IN THE TIMES.

It's Impure Blood.

"What is it?" asks the mother as she notices the smooth skin of her child marred by a red or pimply eruption. It is impure blood, and the child needs at once to begin the use of Dr. Pierce's Golden Medical Discovery, the best and surest remedy for impurity of the blood. It entirely eradicates the poisons which corrupt the blood and cause disease. It cures scrofula, boils, pimples, eczema, salt rheum and other eruptive diseases which are the direct result of impure blood. It enriches as well as purifies the blood.

"Dr. Pierce's medicine has not only benefited me greatly, but it has done wonders for my two sons," writes Mrs. M. Hartrick, of Dermster, Oswego Co., N. Y. "Both had scrofula. I have lost two daughters in less than five years with consumption and scrofula. My eldest son was taken two or three years ago with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery, and has not had a hemorrhage in over a year. My younger son had scrofulous sores on his neck; had five tumors, but has not had any since he commenced to take your medicine."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

A 1008 page book, free for the asking. You can get the People's Common Sense Medical Adviser, the best medical book ever published, *free* by sending stamps to pay expense of customs and mailing *only*. Lord Kitchener and His Position in India

A Leading Soldier Says it is Anomalous and Intolerable---Is Thwarted by the Paralyzing Influence of Bureaucracy.

London, May 13.—The revelations made concerning the friction between Lord Kitchener and Sir Edmond Elles, military member of the Viceroy's Council, have excited deep interest in military circles here.

Sympathy is entirely with Lord Kitchener. Among high military authorities at home it is felt that his position is a wholly intolerable and anomalous one.

It is also felt very keenly that his resignation would be a great calamity to India, and that every possible means should be taken to avert it.

A distinguished general now in London was interviewed on the subject of Lord Kitchener's position by The Express military correspondent yesterday.

It is obviously impossible to mention names, but it may be said without breach of confidence that the name this officer bears is one which his splendid services have made famous in two continents.

"Lord Kitchener's position," he said, "is very simple. As Commander-in-Chief he has devised a scheme for the reorganizations of the Indian army which has met with the enthusiastic approval of every military expert.

"Every Commander-in-Chief in India of late years has had the fact emphatically borne in upon him that reorganization is absolutely necessary if India is of be retained for the Empire.

THE STRONG MAN.

"Lord Kitchener is the strong man who has put that reorganization scheme into force after minutely testing every detail of his plan, and after obtaining for it the sanction of the Imperial Government.

"What happens?" continued the general. "The military member of the Viceroy's Council—a brave soldier, I admit, and a good fellow, but without a thousandth part of the administrative ability which has made Kitchener what he is—steps in and vetoes one of the commander-in-chief's proposals because he does not think it necessary, and another because he cannot see the drift of it, and so on.

"But he is not required to see the drift of it. All Lord Kitchener's proposals are interdependent. If, because you cannot see the full scope of the scheme, you lop off a change here or a movement there, you imperil the whole project.

"Back of the whole business lies the paralyzing influence of the Indian bureaucracy. The fear in the Secretariat is that if Lord Kitchener is permitted to carry through his scheme in its entirety, he will have more power than the Viceroy.

"That, of course, is rubbish—sheer, unadulterated rubbish. Lord Kitchener is the Commander-in-Chief, and as such, it is his duty to safeguard India by every means in his power.

"If this kind of interference is to be permitted, not only will Lord Kitchener's great scheme be wrecked, but India will lose the best Commander-in-Chief she has ever had.

"Lord Kitchener's position is, frankly, intolerable. If he is Commander-in-Chief, let him be Commander-in-Chief. As things are going now, the military administration of India is being shipwrecked, and Kitchener reduced to the position of a mere routine officer.

ANOMALOUS POSITION.

"Take an analogous case. Suppose Sir John Fisher's work at the Admiralty were to be thwarted by a junior officer. Do you imagine he would take it lying down, as the phrase goes? No one who knows Sir John would imagine it for a moment.

"Now, Lord Kitchener is doing even more for India that Sir John Fisher is doing for the navy—more, because India needs it more. And the military member of the Viceroy's Council steps in and puts a sprag in his wheel.

"Nobody—I least of all, because I know him very well—desires to say a word against Sir Edmond Elles. But in a matter of this kind it is only fair to contrast the services of the two men. Look them up in the army list, and then see which of the two should lead in a matter of such paramount importance to the future of India.

"The fact is, it is an anomaly to have a military member on the Viceroy's Council at all if he is to possess these powers of veto. If the Commander-in-Chief is to be trusted at all, he must be trusted wholly.

"It is said in the service clubs here that Mr. Brodrick is at the back of the obstruction, which takes concrete form in the shape of the military member of the Council. I do not believe it. He was one of the first to declare that Lord Kitchener should have a free hand, and if he is consistent he will step in now and avert such a calamity as is threatened by Lord Kitchener's resignation.

"Lord Kitchener claims, and he has every right to claim, to be responsible direct to the Viceroy without any interference on the part of a member of the Council who is able, as matters now stand, to gravely imperil the Indian army scheme without even letting the Viceroy know what he has done.

"The Secretary of State for India should see that Lord Kitchener is put right in the matter before it is too late; and if I know anything of Mr. Brodrick, he will lose no time in taking that step."

POPE MAY BREAK THE PRECEDENT

May Leave Vatican and Take Drive Through Streets

IT WOULD BE IMPORTANT

His New Automobiles to Arrive Soon —A Progressive Pontiff

Rome, May 13. — In leaving the Vatican, which has been the practical prison of his predecessors for more than 30 years, and in which he himself has been confined nearly two years, Pius X. knows that the moment he takes a drive out in the streets of Rome the whole question of temporal power and of his relations with the Italian Government will be solved at once. For this reason he has been reluctant in cutting the Gordian knot by a sudden action, and, although at times he has expressed his determination to do so some time or another, he has so far abstained from giving a practical execution to his wishes in the matter.

Indications, however, point out that Pius X. is still determined to take this decisive step. Only a few days ago, on learning that the municipality of Castelgando, where the papal villa is situated on the Alban Hills, had erected an electric light plant, promptly gave orders that the papal villa be made ready for connection with the municipal lighting service. These preparations he has practically extended to the second floor, on which the exclusively private papal apartments are located, and it is possible he has done this in order to make his intended vacation at the villa longer than it would have been without this important improvement.

In a few days the two automobiles ordered by Pius X. will arrive at the Vatican, and much speculation is indulged in regarding the possibility that the limited drives of the Vatican gardens will not prove sufficient to suit the activity of the pope and that he may at last consent to come out of the Vatican grounds.

An anonymous pamphlet, just published here under the title, "May Peace Be Made I" which is claimed as the work of a personage intimately connected with the pope's entourage, foreshadows the possibility of Pius X. taking such a step in the near future, as the author says: "The present pope having decided to restore all things in Christ, may at some future date feel that Christ's voice has been heard calling on him to abandon the traditions of the past, and then, perhaps, he would be justified in terminating a policy which, although strictly followed for years, without some disadvantages to the church and its pontiff."

Finer Cake

and biscuit are made with Royal Baking Powder than in the old-fashioned way, with cream of tartar and soda, or saleratus and sour milk. The ingredients of Royal Baking Powder are most highly refined and absolutely pure. Royal is always uniform in strength, making the food evenly good and wholesome. No spoiled or wasted materials where it is used.

ROYAL BAKING POWDER CO., NEW YORK.

GOOD NEWS

Dr. Bingham, M. H. O. Says Peterborough Healthy Is Good

(To the Editor of The Times)

Dear Sir,—Will you kindly permit a few words of explanation in reference to an article which appeared in the local press a few days ago, reflecting on the health authorities of the town, and on the sanitary condition of the town at present. I am in a position to state that the town was never in a healthier condition and was never more free from infectious diseases than at the present time. There is not a card up in the corporation, and only a few have been needed since the first of January last. It is only fair to add that the sanitary inspector and health officer investigate and remedy if possible, every unsanitary condition brought to their notice. They could do no more if the Board should meet every day. It is well to bear in mind too that at the close of winter every year, all back yards and lanes are in an untidy condition, and this state of things cannot be remedied before the early part of May, when the ice under heaps of rubbish has disappeared.

During the present week a police officer is out every day serving a paper on every householder in town with instructions to clean up and to put their premises in the very best sanitary condition without unnecessary delay.

It may be noticed that a scavenger is paid for removing dead dogs and cats found any any place in the town, and that officer seldom neglects his duty. The deceased dog on Charlotte street was kicked under a crossing. The professor was unable to locate him, and he might have remained there until the crack of doom, if the local press had not turned their X rays on him. Strangers from all parts are flocking in here every day and they can rest assured that Peterborough is the healthiest town in Canada.

Thanking you in advance, I remain,
Yours truly,
J. BINGHAM,
M. H. O.

ORGANIZATION IS COMPLETE.

Mr. Jas. Eadie, Provincial Organizer of Retail Merchants Association, Quits Town.

Mr. James Eadie,—Provincial Organizer, for Eastern Ontario, for the Retail Merchants' Association, has completed his labors among the mercantile fraternity of Peterborough, and has now returned to Toronto, his headquarters. Mr. Eadie reports that the utmost success has crowned his efforts in Peterborough, all the merchants, with a few trifling exceptions, having not only joined the Association, but have expressed their most hearty approval of the objects and and power to be yielded by this combination for protecting their interests.

The Association is proving to be a very powerful body, composed, as it is, of men who are of intelligence and large supporters of their various municipalities, a rate-payers and property-owners. The yearly fee is the nominal sum of $2, which includes a year's subscription to an admirable trade journal, "The Retail Merchants' Journal."

There are many abuses, some due to legislative neglect or oversight, and some to municipal lack of protection to the mercantile community, which so strong a combination of interests cannot but help regulating.

Among the bills now being brought before the Legislative Assembly, by the Association, include the Peddlers' and Hawkers' License Act; Transient Traders' Act; A bill to amend the Trading Stamp Act, so that the giving of coupons, exchange tickets, etc., are to be prohibited; To amend the Division Court Act to simplify the collection of small debts, and to reduce the fees.

The Retail Merchants of the Dominion are now carrying $150,000,000 worth of goods on their shelves, so with such vast interests at stake, there is no wonder that the mercantile community are awakening to a sense of their need of protection and combined self-protection.

The Association also has a petition before the Minister of Inland Revenue, asking his Department to abolish the fees for inspection of weights and measures, and that the Government assume the charges.

A VERY SUCCESSFUL SALE.

14 Lots of the Burnham Property Sell At Good Prices.

The sale of the Burnham property corner of Park and Charlotte Sts., was concluded Wednesday evening. Fourteen lots were disposed of as follows.

No. 4—W. G. Freeburn, $715.
No. 5—Andrew Broom, $720.
No. 6—Andrew Broom, $720.
No. 13—J. H. Larmonth, $400.
No. 14—J. J. Turner & Son, $400.
No. 15—C. H. Huffman, $356.
No. 19—C. H. Huffman, $325.
No. 23—F. W. Miller, $200.
No. 26—A. Brown, $290.
No. 27—John Giles, $400.
No. 32—Jas. Bogue, $135.
No. 34—Rock Gordon, $145.
No. 36—J. C. Stenson, $210.
No. 37—J. H. Larmonth, $300

Whilst, at first sight, some of these lots must appear to have brought fairly good prices, it must be taken o consideration, that they will, in the near future, all be built upon, thus greatly advancing not only their collective, but their individual values.

THE TEAMSTERS GET INCREASE.

Board of Works Do Business--Crown Inn Awarded $125.

At the meeting of the Board of Works held Thursday night, there were present, Ald. Adams, chairman, Ald. Batten, Hall, Johnston, Tovey, Hicks and the Mayor, and considerable business of importance was transacted.

Permission was given the Street Railway, and Peterborough Light and Power Company, to erect poles on certain specified streets.

Mr. A. P. Poussette addressed the Board with reference to the claims of Mrs. R. H. Jackson, because of the lowering of the level of the pavement on Hunter street, in front of the Crown Inn. Mr. Poussette stated that his client had agreed to accept without prejudice, $200.

Considerable discussion ensued, and Ald. Batten moved, seconded by Ald. Tovey, that $125 be paid to Mrs. Jackson in full settlement of her claim. This was carried.

Mr. E. H. D. Hall called the attention of the Board to the fact that some trees on Rubidge street were in the way of sidewalk construction. The matter was left with Ald. Hall to deal with.

Mayor Best moved, seconded by Ald. Tovey, that the Board recommends that the teamsters be paid $3.25 per day, they to draw a minimum load of 1 1-2 yards, and that those who draw 1 3-4 yards be paid $3.50 per day.

An account of Chief Rutherford, for 103 yards of gravel at 20c was ordered to be paid.

On motion of Ald. Johnston, seconded by Ald. Tovey, it was decided to pay the street commissioners $3.25 per day while engaged in superintending the construction of granolithic walks.

From Sing Lung, asking permission to place a sign over the sidewalk.

IMMIGRANTS ARRIVE.

18 Salvation Army Immigrants Arrive in Town via C.P.R.

Four coaches of English immigrants, sent out by the Salvation Army, passed through town for the west, on Thursday. Eighteen more arrived from Belleville yesterday. Of these all but two, with their wives and children, have gone to take positions, secured in advance, in the country. The two men who remained in town are gardeners and will work at their trade here. One of the men, Mr. Richardson, left a position to come to Canada. He was in one place eight years, and after that was eleven years in another place. About a year ago his "governor" died and although he has been working since, he decided that he would try his fortunes in Canada.

All of those who came to Peterborough are well dressed and are quite respectable, and, from their appearance, should make good citizens. The two men interviewed yesterday morning came from Tunbridge, Wells, in Kent county, 35 miles from London. It is a city of 40,000 people, and the new-comers were struck with the difference in the appearance of the streets in Peterborough, and those in the city they had left.

MRS. N. WINTERS COMMITS SUICIDE

After a Quarrel with Her Husband She Takes Her Own Life.

Mrs. Jennie Ethel Winters, wife of Mr. Nathan Winters, a photograph enlarger living at 486 Bowney street, and daughter, of Mr. Thos. Oldham, an employe of the Wm. Hamilton, Mfg. Co., yesterday morning, at about 8.30, committed suicide, by taking carbolic acid.

She arose yesterday morning about the usual hour, at 6.30 o'clock. It appears that some slight altercation occurred with her husband, just previous to the latter's departure to go to work. About 7.30 o'clock the deceased lady left the house, being absent about twenty minutes, during which time she visited Nugent's drug store, where the fatal dose was purchased from Mr. Fowler, to whom she stated that it was for Mr. Winters of Downie street.

No suspicion attached to her request for a poison so commonly purchased for domestic use.

It was evident from subsequent occurrence of events, that the rash act was actually set in motion previous to her return to her residence, as she immediately ran up stairs as soon as entering the house. Her mother heard her, very shortly after the young woman had run up to her room, crying in pain; she rushed up stairs and found Mrs. Winters curled up on the bed, groaning with agony.

Her father was immediately summoned from the nearby foundry, and, he, at once rushed for medical assistance. Dr. Marshall came to the house forthwith, and tried by every means to save the mis-guided woman's life. the stomach pump was called into requisition, and although the greater part of the poison was removed, the violent irritant had done its deadly work too far.

The deceased, who was twenty-four years of age, was born in Picton, and was married to Mr. Winters in Toronto four years ago, removing here a few months ago.

A coroner's jury was empanelled by Dr. Gray, and viewed the remains at the house at two o'clock, after which the inquest was adjourned till Monday evening at 8 o'clock.

Following are the members of the Coroner's jury:—C. N. Brown, foreman; Wm. Outram, D. F. Drummond, W. H. Hamilton, Wm. Battisby, J. F. Squires, P. Alexander, J. B. Pentland, H. E. Stinson, Fred Clark, S. A. Oke, F. C. Elliott, John Crane, W. H. Meredith, Robert McWhinnie.

PERSONALLY CONDUCTED TOUR.

To California and Lewis and Clarke Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $166.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowley, General Agent and Conductor, Room 368, Union Station, Toronto.

EARLY CLOSING.

Prominent Grocers will Close at 6.30 Dating from May 15.

Commencing on May 15th, and continuing untill October 1st, a number of the grocery stores will close at 6.30 p.m., on every night, except Friday, Saturday, and the evenings before holidays. Those who have signed the petition to close are;

Peter Connal & Son.
White & Gillespie.
F. J. R. Mitchell.
A. Rountree.
James R. Bell.
W. C. Forman.
E. G. Mackenzie.
G. O'Brien.
M. L. Henry.
W. H. Dayman, Mgr.
E. F. Mason & Co.
R. H. Hunter.

SUCCESS OF PETERBORO' BOY.

Mr. Geo. F. Orde Appointed Cashier of 1st National Bank of Minneapolis.

Many of our elder citizens and particularly, those of them who have in recent years, visited Chicago, will remember George F. Orde, who was raised in this town. It will be remembered that Mr. Orde was eldest son of Mrs. Bartram Orde, who recently removed to Toronto to reside, and who for many years occupied the house, corner of Aylmer and Dalhousie, now the home of Mr. D. J. Lundy. The last issue of the Chicago British American, says of him:

Mr. George F Orde, who leaves the Northern Trust Company, to accept the position of Cashier of the First National Bank of Minneapolis, was born in Peterborough, Ontario, and entered the Bank of Commerce in his native town in 1883. He came to Chicago in 1886, and took a position with the American Exchange National Bank. In 1895 he accepted the position of assistant cashier in the Northern Trust Co., and one year later was made cashier, a position he held continuously up till May 1st, when he was appointed cashier of the First National Bank of Minneapolis.

Mr Orde made himself one of the best liked and most popular of all the bankers in Chicago, always genial and kindly, with a frankness towards the general public that endeared him to alll who entered his presence. It would be better if others, no matter in what line of business adopted his kindly inclinations towards their fellow men and life all round would be much more pleasant. President Byron L. Smith, when interviewed the other day, by our reporter said, "We regret Mr. Orde's leaving our bank, and as he has concluded arrangements with the First National Bank of Minneapolis, our best wishes go with him for his future success. He is a first-class banker and very popular.

Mr. Orde was treasurer of the Union League Club for three years, a leading officer of the American Bankers' Institute, and was connected with many institutions of prominence here, who join with hundreds of others in regrets for his departure, but with an earnest hope for his success in his new home.

THE ANNUAL MEETING HELD.

George Street Sunday School Elect Officers and Transact Other Business.

The annual meeting of the George street Sunday school took place on Thursday night. The minutes of the last meeting were read and confirmed.

Mr. Robinson, the secretary, then gave his report, which was most encouraging. It was decided to elect officers for Grace church at the present meeting.

Mr. G. W. Powell, superintendent of Grace church Sunday school, then gave his report. He said that they had a good school there but it was not growing much. They had a good Primary Class, however; what they needed very badly, was a teacher for the Bible class.

Mr. W Dredge, the secretary, read his report, which showed a very successful year.

The secretary of the George street Sunday school then read his report, which showed some most interesting items. These reports will be published later, as they have not yet been audited.

The election of officers then took place as follows;

Supt.—T. W. Robinson.
1st Asst. Supt.—A. O. Kidd.
2nd. Asst. Supt.—J. S. Knapman.
Secretary—A. E. Dixon.
Treasurer—J. S. Knapman.
Supt. of Home Department — A. W. Crossman.
Librarian—F. H. Dobbin.
Asst. Librarians — Messrs. Madill and Pearson.

J. J Hartley was elected Assistant Superintendent for Grace Sunday school.

The meeting adjourned, Rev. Dr. Crothers pronouncing the benediction.

Police Court

OFFICIALS
Chief of Police, G.I. Ward
Magistrate, D.W. Dumble

Very little doing at yesterday's court. The only case tried was the pro forma one of providing for a poor old broken down wreck of humanity, who is known as Tim Fobart.

Tim is well acquainted with all the fascinations and culinary excellence of Castle Nesbitt, having made this Rest Cure his home for months past. He was only discharged a few days ago, and finding the dissipations of outside life in the giddy whirl of Peterborough society jar on his sedentary habits acquired on the hill, asked for, and obtained, a renewal for six months.

The poor old man was so weak, the police had to take him back in a cab. The old gentleman evidently with all his age and infirmities, knows how to provide for commissariat contingencies, as he went back provided with sundry packets of sugar, tobacco, etc.

The Kaiser to Tackle The Yellow Peril?

Emperor Says the Russian Army at Mukden Was Enervated by Immorality and Alcholism---Defeat Unexplainable.

Berlin, May 13.—The following remarks were made by the Kaiser at the recent review at Strasburg, and published;—

"The Russian army which fought at Mukden was enervated by immorality and alcholism. Otherwise its defeat is unexplainable.—Now that Russia has shown itself too weak to resist the yellow peril, the task to check this peril may fall on Germany. The officers and men of the German army ought to use all their time well, lest their thoughts turn to immorality and debauchery. The energies of the privates must be taxed to the utmost in order that they may have no time to think of such things."

Education Essential To Progress.

Peterborough Must Devise Immediate Means of Furnishing More Adequate School Accomodation.

With all the diversity of opinion existing in Peterborough, as to advisability of increasing the grant of $50,000, already voted, towards erection of a new and needed Collegiate Institute commensurate with the town's progress and crying needs, there seems to be almost a unanimity of sentiment that some improvement must be effected in this branch of our scholastic system.

Of the majority of our citizens who approve a better institute, a large number are quite content with the already voted $50,000 being invested in a new building with required fittings and appliances; others who approve this expenditure seek to appropriate an equal amount additional to this sum to erect a building that will be an honor to the town and surpresent School Board. It is beyond reason, judging from experience of every man or corporation, particularly the latter, to expect to fully complete a building on the original sum appropriated, as unforseen expenses invariably crop up; this is exemplified in this very instance.

The Times has every desire to see a Collegiate Institute erected that will be an ornament to the town, and a means of raising the standard of our Collegiate Institute scholars, but would have the expenditure limited to the requirements of educational utility coupled with the idea of possessing a building the town need not blush to show.

A matter well worthy of weighty consideration, in this connection, is the inopportune time just now, to proceed with such extensive building operations; as every one knows, and especially those having building operations in progress or immediate contemplation, the price of building this year is higher than it ever has been in Peterborough, material of all kinds are more in evidence as to demand than supply, artisans are all employed in excess of supply, labor is not only high but hard to procure. All our mechanics, bricklayers and kindred trades are busily employed and enough work is in actual sight to ensure this condition being maintained throughout the summer. Would it be advisable to proceed now with a building that must of necessity be erected within the next few years, and which will, at its commencement supply much work for Peterborough labor, at a time that results of the present building activity, may render the demand for labor less keen, and which would then step in to help supply work for labor that might otherwise be slack?

Is it advisable to forestall this creation of work at a future date, by having to import labor, that on completion of the building, would help render the possible reaction, caused by the present building operations going on, still worse for local labor, by increasing the competition?

Why not fit up the present Separate school, which will soon be vacant, as a Collegiate Institute for such time as building is not so expensive, and after a year or two, have the building proceeded with so as to supply work for men who may then be looking eagerly for it? With the building that will, as a consequence of the recent Burnham property sales, inevitably increase the demand for local labor to a point when the demand will exceed local supply, and which, may, by the addition to the new houses now in process of construction, produce sufficient residences for all local wants for some time to come, a time may come when local labor will be stagnant; then is the time to go ahead with this expensive building, and thus help find work that otherwise may be scarce. Of course this one building would not supply work sufficient for a good many hands, but in slack time, that may, in this particular branch of industry, follow, as a result of production equalling local demand; this supply of work would be hailed with greater satisfaction, than now, when all trades are busy to the limit. It is not advisable to import temporary labor to do work that Peterborough hands may possibly be glad to accomplish before long. As far as contractors are concerned, they are all as one as proper attention to work on hand would justify.

Could not this Separate school at comparitively small cost, be fitted to cope with immediate necessities?

Anniversary Services at St. Andrews

At the anniversary services to-morrow at St. Andrew's church, the praise services will be as follows;—Morning—Anthem, "Christian, the Morn' Breaks Sweetly O'er Thee," Shelley; quartette, and solo, "Hosanna," Grainger. Evening—Anthems, "Sun of My Soul," Holden, and "Hark, Hark, My Soul," Buck. Miss Bryce will sing Buck's "My Redeemer and My Lord." The choir has made special preparations, and in addition to Miss Margaret Bryce, the new leading soprano, there will be several other good voices to help Mr. Wilson. The choir have also some good numbers in preparation for Monday night's reunion.

—Rev. A. L. Geggie, of Dunn Ave., Presbyterian church, Toronto, will preach in St. Andrew's in the morning and St. Paul's in the evening, and Rev. Alf. Gandier, D.D., of St. James square Presbyterian church at St. Paul's morning, and St. Andrew's in the evening.

THE ANNUAL CHURCH MEETING

Satisfactory Reports From Various Branches of Park St. Baptist Church.

The annual church meeting of the Park street Baptist church, was held on Thursday night.

Pastor Rev. A. H. Brace, in the chair. The meeting was opened by reading the Scripture and prayer.

Church Clerk David Holt read the minutes of the year.

This was followed by reports of the various church activities.

Sunday school by H. L. Brace, secretary. The Dorcas Society was reported by Mrs. Wright, and the Ladies Mission Circle by Mrs. Jewett, Mission Band by Miss Nelly Hudson. The B.Y.P.U. report was read by Miss Edith Gillespie. The reports showed a very healthy state of things.

The pastor completes his second year the end of this month.

The total additions to the church during that time is One hundred and two.

Officers to fill the diferent church offices were elected;

All reports and returns show that this live church and its affiliated bodies are in a most remarkable state of efficiency. Average Sunday collections were $17.7. Rev. Mr. Brace enters upon his third year, 1st June with increased salary. The church trustees appointed are, Messrs. Kemp, Buntin, Holt, Hunt, Reid and Gillespie.

FIRST GAME THIS SEASON

Progressives of Toronto and Local Fildand League Nine to Play on T.A.S. Grounds.

A great game is on the boards for this afternoon, weather permitting. It is up to the local fans to turn out and give the boys a big gate. Manager McEwan has met with hard luck in the way of getting games on, as he has been up against the weather man twice, which means a heap of expense.

• • • •

The Progressives of Toronto, will place a fast nine on the diamond.

Douglas and Cadman will be the battery for the locals, with an Infield composed of Pilling 1b, Sheridan 2b, Shay ss, and Stayne 3b, Connors, Simpson, Warram and Fitzpatrick will play the outfield. The Progressives are bringing down their strongest team, and the game should be a fine exhibition. The game will be played on the T.A.S. grounds and will be called at two o'clock sharp to allow the visitors to make train connection.

• • • •

Toronto defeated Buffalo yesterday by 5—4.

A Desirable Change

Gentlemen Who Are Bald.—A great many think it is impossible to replace their former growth; these thoughts would be at once expelled from their minds should they investigate the Art Hair Coverings manufactured by Prof. Doreenwend, whose skill in this line is world-renowned. Over 30,000 wear his Art Productions. They are feather-weight, securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance. He is at the Oriental Hotel, Peterborough, on Friday, May 19th. Don't miss seeing his goods.

WEATHER NOTES.

Fair and a little warmer.

—Miss Hazlitt, of Peterborough, has been engaged as book-keeper by J. R. Craig, succeeding Mrs. Wunsch, who returned to her home in Brantford last week.—Havelock Standard.

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY

should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

Sullen, Discontented, Morose, Low Spirited

Brace Up—Vitalize Nerves and Blood With

FERROZONE

The Effect is Instant + Makes You Snap and Dance With Vitality

Your appetite is gone.
What little you eat brings no satisfaction.
You're getting blue and melancholy—you can't rest or sleep.
Nervous prostration is staring you in the face.
Your unstrung nerves can only be nourished back to health by a nerve tonic like Ferrozone. It cures weakness of the inner nerves, gives vitality and strength to the blood and nervous system, makes all the organs work in harmony.
The following experience of Mrs. D. P. Courtland, of Myrtle, proves the prompt action of Ferrozone.
"I had no nerve strength.
"My appetite was poor and my system was out of order.
"I felt weak and dispirited, was tired out the whole day long.
"Did Ferrozone help me?
"It gave me strong nervous system, a good appetite, and abundance of health."
Ferrozone contains concentrated nourishment you can't get in any other way. No other medicine benefits so quickly. 50c. per box or six boxes for $2.50, at all dealers in Medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.
Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.
The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.
The Times will be sent to subscribers in this district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

Peterborough, Ontario.

UNION LABEL

PETERBOROUGH, MAY 13 1905

THE CHICAGO STRIKE

No real cause exists for the strike that is now on in Chicago. Early in the year the garment workers went out on a strike which failed, and gradually all of the strikers went back to work. The teamsters, to help the garment workers, got up a sympathetic strike and insisted that about a dozen men whom the employers would not take back should be reinstated. The garment workers gave notice to the teamsters that they could settle their own difficulties without the aid of any third party, and then made peace with their employers. The twelve men who were not taken back in the whole bone of contention, and to show the power of organized labor some 30,000 teamsters are now out of a job and fighting and maiming and killing other teamsters who are anxious to work. The teamsters have no grievance of their own to settle, and there being no dispute about wages or hours, and the employers did not object to their men belonging to the union. It is one of the most uncalled for strikes, and has not a single feature that would appeal to the public at large. It is now a fight to the bitter end, and when peace comes again the union teamsters will have lost all the advantages that unionism gave them. Sympathetic strikes never succeed. Every trade organization must stand on the merits of its own grievances, and then there is a chance to arbitrate differences.

EDITORIAL COMMENT.

In the German schools there is a growing feeling in favor of shortening the hours of study, abolishing the afternoon session, and allowing short recesses in a morning session of five hours. An investigation comprising 16,000 school children showed 50 per cent. more illness among 56 per cent. more illness both morning and afternoon. On the basis of this and similar investigations, Dr. Dornbluth, of Frankfort, favors a morning session of five hours, with a rest of fifteen minutes at the end of each hour. He holds that the afternoon sessions are exhausting and, from a medical standpoint, bad for the children. Regarding the suggestion, apparently as frequent in Germany as in other lands, that the children must be taken off the hands of the poorer parents for the whole day, he says: "The selfish motives of many parents in not wishing the children at home because they are bothersome and require supervision; should not avail against a reform which is necessary and beneficial for the little ones."

In a recent lecture at St. Petersburg, the eminent Russian economist pointed out that for the purpose of the present war, Russia had already borrowed 981 million rubles. This war had already cost Russia over 1,000 million rubles, and, in order that the gold reserve should not melt away, she was compelled continually to contract new loans, for taxation had reached its outside limits. From the latest increase of taxation only 18 million rubles were expected. Notes in circulation to the amount of 970 million rubles were covered by the gold reserve of 890 million rubles and 102 million rubles in gold abroad. A further issue of notes to the amount of about 300 million rubles might still be made under the existing laws. But if that were done, payment in gold would soon have to be suspended, with consequent fluctuations in the value of the ruble. Then the only resource would be to heap new debts upon the old ones.

Japan is losing some of her citizens in these days, but, according to the Kobe Chronicle, the population of Japan is increasing rapidly, making it necessary for the people to emigrate largely. In 1893 the population was 41,388,313; in 1903 it was 480,000. If the population of Formosa be added the total of the Mikado's dominions is nearly 50,000,000. The density of population in Japan proper varies from 6,618 per square ri (5.9o square miles) in the Kinai district to 138 in Hokkaido. The Kinai district contains several cities. The urban population in 1903 was 9,248,616 or about 20 per cent.

Joseph H. Martin, a resident of the ceded Sioux lands in Western Dakota, is eighty-one years old, but is the champion foot racer and pedestrian of his part of the state. He has a standing challenge to run against any and all comers over seventy-five years of age, any distance they choose from one mile up to ten miles. He says he prefers ten miles, as he gets "just nicely warmed up" in that distance. He has backers who are willing to wager there isn't a man in South Dakota over sixty years of age who can beat him in a foot race.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

WESTWOOD

Spring seeding is progressing rapidly.
The milk drawers are making their usual calls again.
Mr. John Eason has recovered from his recent illness, and is buying eggs again.
Mr. J. Humphries is home again from the hospital in Peterborough, where he has been doctoring for the past few months.
Messrs. Breckenridge and Sons have a large quantity of fine lumber sawed. This year's timber harvest has been a heavy one.
The Football Club has been organized again and any outside team wishing to arrange a game with the boys should send their challenge to A. Comstock, captain.
One of the Caughnawaga high-steppers was in the village recently, but, stepping short, he went well onto a charge of tanglefoot and wanted to fight his way out. He was taken in hands and his heels flew around so swiftly, taking tanglefoot and all, that he was nearly whirled into the middle of next week. If this is the sort of fellows they keep up there we do not care to see them again; but, they are the kind preferred at Castle Nesbitt when the wheel-barrows are needing motion or the bush-saw becomes rusty.

DOURO

Telephone line nearly completed.
Mr. B. Condon is building a new residence.
Mr. Jeremiah Dwyer has engaged for another season's milk drawing.
—Farmers are busy completing their spring work.
Mr. Daniel O'Brien has been engaged with Mr. Dennis McMahon during the past week.
—The best entertainment of the season will be held in St. Patrick's Hall, Douro, on Tuesday night, next, in aid of the new Telephone line, which is being built from Peterborough, and which will be completed in about a week. A large attendance is expected from Peterborough, Lakefield, Keene, Warsaw and the surrounding country.
—The Times is growing more popular each week in this vicinity. Mr. Levi Sullivan, while delivering a lecture to the Sons of Husbandry, declared that he had read and re-read The Times with great interest during the past fifteen years, and has come to the conclusion that any farmer who does not read it is at least fifty years behind the times.

MARCONI
How Great Fortunes Grow
On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To-day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.
The Marconi Wireless Telegraph Company of Canada, Ltd.,
is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices. Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.
Don't Delay--
Buy To-day.

HOMESTEAD REGULATIONS
Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
ENTRY
Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.
HOMESTEAD DUTIES
A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:
[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.
[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.
[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.
[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.
The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.
A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.
The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.
Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.
APPLICATION FOR PATENT
Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.
INFORMATION
Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.
W. W. CORY,
Deputy Minister of the Interior.
N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

STEVENS

It's a Habit when using STEVENS ARMS—hitting Bull's-Eyes and bringing down your game. All requisite firearm virtues are embodied in our famous line of RIFLES, PISTOLS and SHOTGUNS. How can you help hitting the mark when shooting a STEVENS? Ask your dealer and insist on our products. If you cannot obtain the STEVENS, we ship direct, express prepaid upon receipt of price. Send 4 cents Postage for new 140 page Illustrated STEVENS book; describes entire output, all additions, hints on shooting, ammunition, etc. Handsome cover design by A. B. Frost.
"IT CAN BE DONE"—that new and attractive puzzle of ours, but will keep you guessing until you solve it. Try your luck these evenings. It's free. Send for it.

You have heard of
Professor Dorenwend

America's Greatest Hair Goods Artist---He Is
COMING TO
Oriental Hotel, Peterboro
—ON—
Thursday, May 18th
This visit gives you a chance to consult PROF. DORENWEND about your Hair and I choose from the stock of Hair Goods, which he carries with him—just what you require You can try on any Switch, Bang, Pompadour, etc., and see just how it will look.
PROFESSOR DORENWEND can be depended upon to sell you only first quality Hair Goods, You are not forced to buy because you call to see and examine these goods.

Baldness . .
as all men know, disfigures and adds an aged expression to the face. Why remain Bald when Professor Dorenwend can fit you with a WIG or TOUPEE, which will hide all traces of Baldness and take the place of your own hair? Doctors recommend these Toupees as a preventative for colds in head, catarrh and neuralgia. PROFESSOR DORENWEND will fit you on the spot and show you just how you look afterwards.
LADIES--READ THIS!
You will never have a better opportunity to see for yourself the beautiful assortment of SWITCHES, BANGS, POMPADOURS, WAVES, WIGS, Etc., which Professor Dorenwend carries with him.
Remember the date and don't fail to call at the hotel and see PROFESSOR DORENWEND
If you cannot call write for Prof. Dorenwend's Catalogue—it's free

More About the Jura-Trias
Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the country. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time. Will accept orders for blocks of 1000 shares or more at 45 cents a share.
The Stubbs Investment Company
Incorporated New Mexico

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1. Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's etimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensible adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents., the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

WE NO NAMES USED WITHOUT WRITTEN CONSENT.

Before Treatment.

After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men. Sealed Book on "Diseases of Women" Free.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of treatment FREE.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 600 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $20 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $2.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $285.60.

With an average value of $60.00 and transportation and treatment expenses of $13.60 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 276,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

ORDER OF ELKS

Peterborough Lodge, No. 14, Organized on Wednesday Evening—Officers Elected

Another Order has been added, to the already large number of social and fraternal bodies in Peterborough. On Wednesday night, Peterborough Lodge, No. 14, of the Benevolent and Protective Order of Elks, was organized in the Foresters' Hall, Simcoe street, by Mr. W. R. Colby, Organizer of the Order, who was assisted by Mr. H. J. Barret, of Toronto. The initiatory ceremonies proved of considerable interest and everything points to this town having a large and popular Lodge of Elks. The officers elected were—

Past Exalted Ruler—Bro. T. Barrie.
Exalted Ruler—Bro. W. H. Denham.
Exalted Lecturing Knight—Bro. W. McIlroy.
Chaplain—Bro. M. J. Hutchinson.
Secretary—Bro. S. S. Moore.
Treasurer—Bro. R. J. Munroe.
Exalted Leading Knight—Bro. R. J. Matchett.
Watchman—Bro. E. M. Best.
Guide—Bro. R. R. Heideman.
Aide—Bro. W. Lytle.
Assistants—Bro. A. A. Fowler and Bro. J. McClung.
Esquire—Bro. Homer Heard.
Musician—Bro. Jos. Legg.
Trustees—Bro. John M. White, Bro. W. Bunton, and Bro. Geo. W. Fitzgerald.

The officers were installed by Organizer Colby, and an enjoyable banquet, for which Mr. W. J. McCallum catered, was afterwards served.

HONORS FOR OUR SONS

Peterborough Boys Secure Coveted Honors at the S. P. S., Toronto

Mr. C. E. Sisson, a graduate of the Peterborough Collegiate Institute, and a native born Peterborough county boy, whose achievements in the past have been the subject of complimentary reference, has again distinguished himself, and this year won the first prize in electrical engineering, donated by Noel Marshall.

In mechanical and electrical engineering, Mr. E. H. Doidge, also a Peterborough boy, passed with honors, while in third year Messrs. C. E. Simons and W. F. Stubbs also passed with honors, and G. R. Munro was also a successful candidate in second year civil engineering. Mr. C. H. Rogers, a son of Mr. R. B. Rogers, superintending engineer of the Trent Valley Canal, passed, doing himself credit.

All these young men have done credit to their county, and heartiest congratulations are due them.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 90 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS

SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary.
The Militia Council.
Department of Militia and Defence.
Ottawa, May 1, 1905.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Stanley Breakwaters," will be received at this office until Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Elgin County, Ontario, according to a plan and specification to be seen on application to the Postmaster at Port Stanley, Ont., at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto, J. G. Sing, Esq., Resident Engineer, London, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, May 5, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

MONEY TO LOAN ON STOCK

and Debentures on convenient terms
Interest Allowed on Deposits
The Home Savings and Loan Co., Ltd
10 & 12 North Street, Toronto Ontario

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

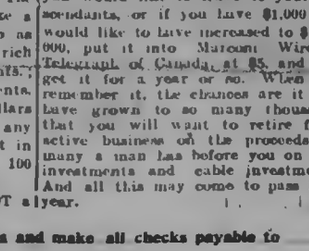
OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at mines; to install an electric power line; and install a large compressor and hoist capable of sinking the props at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.

CONCENTRATOR PURCHASED



We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th. Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st, 1905, these mines produced $1,300,898.93, leaving a net profit of $570,346.85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay—West of winze, intermediate drift	3685.60	1197.	$74,406.20
No. 2 Assay—Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.80

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885.38 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577.60 per ton, making a total valuation of this ore worth $17,551.74 per ton. This 112 pounds brought us $944.00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000.00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $160,000, and a block of ground in the mine, 600 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.

With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Catarrh Leads to Consumption

he Experience of a Lady in Sydne Who was Cured of Consumption by Inhaling Catarrhozone — This Case Should Warn Others.

"The beginning of my trouble was cold, just a single cold," writes Mrs. A. V. Thorburn, of Sydney. "I neglected this cold and then I got catarrh. When it became troublesome I took some medicine but it didn't help me. I began to cough a great deal and then consulted a doctor. I was horrified to find I must have had tubercular irritation in my lungs for a year or more. A friend strongly urged me to use Catarrhozone. I conferred with my doctor and he said that lots of fresh air and the frequent use of Catarrhozone would be the proper treatment. I used to cough for at least half an hour in the morning but after using Catarrhozone a few days my cough was much easier. The irritation gradually left my throat and I commenced to get better. I kept up the Catarrhozone treatment and inhaled the medicated air five minutes every hour. I believe this was the means of staying my disease, for I got quite well again in a few months. I have since advised other sufferers from catarrh and lung trouble to use Catarrhozone, and in each case good results were obtained. I attribute my recovery entirely to Catarrhozone, which I can honestly recommend in the strongest way."

The foregoing experience should convince everybody of the evil of allowing colds to develop. To neglect catarrh is even worse. Carry a Catarrhozone inhaler in your pocket and use it occasionally. It prevents colds, permanently cures every type of catarrh, and is known to be the only remedy that actually kills the germs of consumption.

Catarrhozone is used by all intelligent physicians and is endorsed by thousands of doctors, because it can be relied upon to absolutely cure catarrh, bronchitis, throat and lung trouble. Catarrhozone is simplest, surest and best remedy. Two months' treatment guaranteed to cure. Price $1.00, trial size 25c., at druggists or N. C. Polson & Co., Kingston, Ont., U.S.A., and Kingston, Ont. Refuse a substitute for Catarrhozone and insist on getting it when you ask for Catarrhozone.

A good general delivery horse, quiet and reliable, price reasonable. Apply to P. V. Delaire, 268 London street.

Y.W.C.A. Notes.

Sunday afternoon at 4.15, Rev. W. M. McKay will speak on "The One Thing Needful." Miss M. Rush will sing. All young ladies are welcome.

Obituary.

We regret to have to chronicle the death of Mrs. Dalhousie Landell, who died in Toronto on Wednesday. Mrs. Landell was a daughter of Mr. Alex. McNeil, one of Peterborough's oldest and most respected citizens. The funeral took place yesterday afternoon, from the family residence, 210 Robert street, Toronto.

One Fruit of Local Option.

Our hotel sheds are locked up tighter than Port Arthur ever was, and people wanting accommodation for themselves or beasts don't know what to do. It is reported that several called upon our prohibition enthusiasts for accommodation, but weren't received as hospitably as they hoped for.—Orono News, where they have local option in Clarke.

DUTTON'S MARKET,

Pineapples for preserving 81.25 to 82.25 per dozen.

R. A. DUTTON

Phone 304. 418-420 George street.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

Miss Amy Beal Has Serious Accident

Miss Amy Beal, the little daughter of Mr. Harry Beal, met with a very painful accident on Thursday. While playing the child fell violently with her left arm under her. The result was a fracture of both bones of the limb below the elbow. Dr. Young was called in attendance.

Restaurant for Sale.

Fred E. Darcy offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darcy has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Six Specials.

You can't do better than choose a book from the following six for your Sunday reading—Marble Fawn, Cousin Maud, Homestead on the Hillside, English Orphans, Ten Nights in the Bar Room, Tour of the World in Forty Days. These books are particularly well bound, and new in on Friday. All marked to sell at twenty-five cents. See them. Times Bookstore.

Bicyclists in Head on Collision

Yesterday noon, as W. McAuliffe was returning to work in the Cereal Company's mill, he collided with another wheelman, just in front of McAllister's mill. McAuliffe was somewhat hurt but able to go to work; the other man sustained more severe injuries, being stunned, and having his jaw badly cut. The latter's wheel was knocked hors de combat, and willl have to go into St. Bicycle's Hospital.

Additional Tunnels for Detroit River

The tunnel under the Detroit River between Windsor and Detroit is to be built by the Michigan Central Railway. The plans provide for two single-track tubes, the tops of which will be ten feet below the bed of the river. The tunnel will probably be finished in two and one-half years, work to begin at once on the Canadian side, and all trains passing through it are to be operated by electricity.

Park St. Baptist Church.

Special subjects for to-morrow; Morning 11 a.m.—"A Natural Phenominon."

Evening 7 p.m.—"A Tear Drop; What is it? Whence Does it Come?"

Sunday school and pastor's Bible class at three. The ordinance of Baptism will be observed at the evening service.

B.Y.P.U. on Monday night, and public service on Wednesday.

Short, hearty services, stranger made welcome. Hymn books provided. Rev. A. H. Brace, pastor.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Dorenwend to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupes, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by others who adopt them are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Dorenwend's Art Goods can improve your looks? He will demonstrate this to every caller free of charge. Only one day, Friday, May 19.

SOCIAL AND PERSONAL

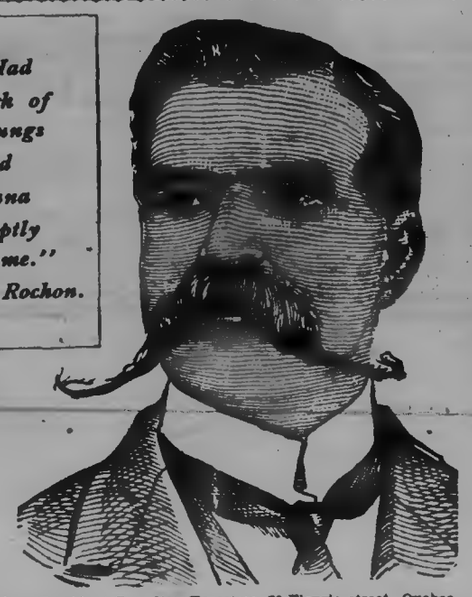
SEVERE CANADIAN WINTERS DEPRIVED OF THEIR DANGER.

Colds and Their After-Effects Conquered By the Use of Pe-ru-na.

"I Had Catarrh of the Lungs and Peruna Promptly Cured me." —Alfred Rochon.



Hon. Alfred Rochon, President Canadian Foresters, 76 Fleurie street, Quebec, Canada, writes:

"I am pleased to add my testimonial to the many I see to the efficacy of Peruna. I suffered for some time with chronic catarrh of the lungs and really thought that I was not to get any relief, as I had used so many remedies and my condition remained about the same.

"Finally I decided on Peruna and that was a lucky day for me, for it proved to be the remedy which cured me. My lungs are perfectly sound now and I have not had the slightest trouble with them since, and at the slightest indications of a cold now I take a few doses and it will always ward off any bad effects." —Alfred Rochon.

Catarrh of the lungs is, ordinarily, known as consumption. In these cases the catarrh has usually found its way into the lungs by the gradual extension of the disease from the throat through the bronchial tubes. Consumption is the natural termination of all cases of neglected chronic catarrh. Every one who is afflicted with chronic catarrh is liable to be attacked with consumption at any time. In the first stages of the disease Peruna is a sure cure.

NEGLECTED COLDS PROVE DISASTROUS.

A cough, which, without a vestige of doubt, would soon disappear with the use of Peruna, becomes chronic bronchitis, which requires a persistent use of Peruna for some time. There are a great many cases of consumption every year due directly to a cold.

A COUGH IS NATURE'S WARNING.

Peruna is for sale by all first class drug stores at $1 per bottle.

Send to The Peruna Medicine Company, Columbus, O., for Dr. Hartman's free book, entitled, "Chronic Catarrh."

The 8 Hour Day

Which the working man has fought for and succeeded in obtaining is something the wife has no share in. Her day begins before his and ends long after it, as a rule, and many a night her rest is broken by the baby's fretfulness. The healthiest woman must wear out under such a strain. What can be expected then of those women who are weakened by womanly diseases?

Women who are weak, worn-out and run-down will find new life and new strength in the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

$500 REWARD! FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I suffered with female weakness about eight years—tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription," writes Mrs. John Greene, of Pleasant Hill, Cass Co., Ky. "This medicine was recommended to me by other ladies. I have taken six bottles and I feel like another person."

Refuse all substitutes.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" when over a laxative is required.

WORK ON G.T.P. TO START SOON

Sir Charles Rivers-Wilson Makes Important Announcement Regarding Steamship Line

Montreal, May 15.—Sir Charles Rivers-Wilson, the president of the Grand Trunk Railway, has arrived in the city, accompanied by Mr. Charles M. Hays, the president of the Grand Trunk Pacific, who, after attending the International Railway Congress at Washington, awaited the arrival of the former in New York City. Sir Charles accorded an interview.

For the most part, when dealing with matters that appertain to the future, Sir Charles was very guarded in all he said respecting the Grand Trunk Pacific. The western terminus is not definitely settled, though, the company was still not prepared to give any information on the subject. He would not even say when an announcement might be expected.

As far as the actual construction of the line is concerned, Sir Charles said that the money for this undertaking, both the Lake Superior branch and the Prairie section, had been subscribed in a very gratifying manner and upon most advantageous terms. Work might consequently be expected to commence within a couple of months at the outside. The first section to be built would be the Lake Superior branch. Next would follow the prairie section from Winnipeg westward. Sir Charles, when pressed to say whether the company would do anything toward the construction at the outset from the Pacific eastward was unprepared to afford any additional information.

"The project is in a very nebulous state as yet," he observed.

"Have you decided upon any scheme for settling the country as the railway progresses westward?" asked the reporter.

"We have at the moment no definite plan," replied Sir Charles. "I should say, however, that population will follow the railway. Even if we do not ever into a scheme of immigration on our own account, we shall always be glad to co-operate with the Government in bringing settlers to the country and in assisting them to locate to the utmost advantage."

"Will the Grand Trunk go into the steamship business similar to the C. P. R.?"

"You are speaking, of course, of the Grand Trunk Pacific?" queried Sir Charles, and having received a reply in the affirmative, he added: "You must not ask me to talk too much about the future. We will have to get the wheat and other products out of the country in some way, and it is reasonable to suppose that we will provide the means ourselves if no other advantageous plan offers. But these are considerations which we may well leave to the future."

LIQUOR LEGISLATION

The Liquor Laws to be Amended and Made More Stringent

Toronto, May 13.—In reply to a question by Mr. Harcourt in the Legislature yesterday, the Provincial Secretary gave an outline of his proposed amendments to the Liquor License Act.

Mr. Hanna said it was proposed to absolutely prohibit the sale of liquor to minors. As the law stands a minor may go to a hotel with an order from parent or guiardian. The licensed victuallers recently expressed themselves against this practice, in fact, asked to be protected against it. If the amendment proposed did nothing more it would carry out their wishes.

The second amendment refers to the cost of transfer of licenses, and will increase it to one-half the cost of the license. The present cost in Toronto is $50, $25 in other cities and $10 in rural municipalities.

To a deputation from the Synod of Toronto and Kingston, Hon. W. J. Hanna said yesterday that no additional liquor licenses would be granted in New Ontario, and that steps would be taken to stop the illicit sale of liquor in that section of the Province. The Government was also opposed, he said, to increasing licenses in older Ontario.

SHOULD BURY THE HATCHET

Peterborough will be a City--Our Toronto Representative Advocates Incorporation.

The Times has consistently and persistently opposed the view of Peterborough's incorporation as a city, in the knowledge that a vast majority of our citizens of all classes oppose it, and in the belief that such incorporation, under forced growth of parliamentary assistance, rather than the requisite population, is unwise.

It now seems that the Council who inaugurated the idea, for reasons best known to themselves and our civic officials have managed their plan of campaign better than the public majority. Mr. Bradburn, M.L.A., in an interview with The Times on Saturday stated that he had never seen the huge petition against incorporation; that when Mayor Best went to Toronto to oppose the bill he did not take him into his confidence or tell him about the great opposition existing in town against incorporation until they met before the committee, that not even a copy of the petition or names was ever submitted to him. In other words, the opponents of the bill mismanaged the matter.

The petition, with its formidable list of names, including, as it does, our leading merchants, mechanics, professional men, clergy, and all classes of the community, over 600, should have been given to our representative in the Legislature, to hand to the Private Bills Committee; had this been done, it is almost a certainty that Peterborough would, until designation, have remained "The best town in Canada."

Now that the blunder has been made, and Peterborough comes in at the tail end of Canada's little cities, let us not fret over the petty ambition of the gentlemen who control our destinies, and carp at their management, but let us rather forgive and forget. Let us back the Council up as far as is possible; and look forward to the day that we shall advance from our coming place as the junior city to a distinction that "The best town in Canada," would have warranted.

Peterborough is just now at a critical period of its history, approximating what might be called the "boom" stage; we have either to advance or retrograde; with an intelligent Council backed up loyally by the citizens there could be nothing to prevent our progress, and it is our duty to see that this condition exists.

Let us all, whether we want town or city, to appear, on our letter heads, do all we can, and use every effort to forward the new city.

Now that the second reading of the bill is an accomplished fact, owing mainly to the true facts of the contention not being represented to our M.L.A., in time, we soon can all doff our hats and salute the City of Peterborough

FLEET ENDED PEACE EFFORTS

Russia Took Fresh Hope on War Fleet

NATION STAKES ITS ALL

On Rojestvensky's Ability to Win at Sea

London, May 15.—The Tokio correspondent of The Telegraph says: "I know for an absolute fact from official sources that after the battle of Mukden peace was nearly concluded, but the coming of the Baltic fleet revived Russia's hopes. Even the St. Petersburg Government never contemplated the possibility of the arrival of Admiral Rojestvensky in the Chinese seas. Nobody here has any doubt that peace is coming. President Roosevelt has ascertained that Russia desires to end the war, and the St. Petersburg Government has acquainted him with its hopes that Japan will dispense with an indemnity so as to enable Russia to save her face. The cession of territories is regarded as merely a loss to China and not actually to Russia. Much is hoped from secret negotiations, and secret clauses to the peace treaty. Meanwhile the Minister of Foreign Affairs here learns that President Roosevelt has ascertained the terms that would be agreeable to the neutral powers, and the matter thus depends on the support of the world, which must have tremendous influence. Japanese statesmen have realized that the changed strategic position has rendered the alliance with England virtually ineffective. Owing also to the fact that notice of renewal of alliance must be given this year, councils have been held to consider whether the clauses relating of the integrity of Corea and Manchuria should remain in force, the extension of the sphere of Japan's part of the treaty to India, the attitude of the British public, and the ability of a future Liberal Government to enforce the promises made, and Great Britain's quid pro quo for a new alliance which is no longer urgently necessary to arrest Russia's policy in the East." The principle of renewal happily has been settled. The terms will invole in a new and definite policy in regard to the future of Manchuria and Corea.

VISIT TORONTO MAY 20TH.

Turf Club Has Arranged Cheap Trip to Toronto for Next Saturday

With the energy that characterizes their way of doing business, the Peterborough Turf Club, have made final arrangements for a cheap trip to Toronto for next Saturday, tickets good until May 22nd.

Peterborough always sends up a good representation to see the annual Queen's Plate, running race competed for, and this spring it is anticipated that a larger number than ever will see this, the best, running race in Canadian turf meetings.

Tickets from Peterborough are good leaving on a special train at 8.10 a.m., and for return, until the evening of the 22nd. Excursions, under the same management, will also be run from Lindsay, and all intervening places.

Now is the time to take a cheap run up to Toronto, and visit Parliament while in session, not to mention the great Queen's Plate race.

Mr. Darcy Grateful

Those Who Assisted at the Late Burleigh Falls Fire Publicly Thanked.

Mr. T. H. Darcy, proprietor of the Burleigh Falls Hotel, recently burned down, but now redevivus, was in town on Saturday, hastening supplies to Burleigh for his new hotel, now being constructed, and gave The Times a friendly call.

He desired us to publicly thank Mr. W. H. Hill and Messrs. Davis Thompson & Co., for the prompt settlement they made on insurance policies issued by their companies on his hotel recently destroyed. He also desires us to thank friends and neighbors for their noble and heroic labor in saving the surrounding outbuildings.

In the cottages surrounding the hotel, there are 27 furnished bed and other living rooms, so that until the hotel, now in course of erection, is completed, visitors to Burleigh Falls can be accommodated. Every effort, without regard to expense, is being made to push work at the new hotel.

Judgment Confirmed.

Talbot vs. Hall and Delaire vs. Hall Win Their Cases--No Non-Suit.

The following judgments were delivered Friday at Osgoode Hall, Toronto, in cases heard at the Assizes, here,

Talbot v. Hall; Delaire v. Hall.—Judgment (H) in actions tried with a jury at Peterborough. Action for damages for injuries sustained by plaintiff in the fall of an elevator in a building of which defendants were tenants. Plaintiffs were employees of defendants, and were when injured upon the elevator at the invitation or with the knowledge and approval of their employers. Held, that the question, whether the non-discovery of the defects, if any, in the adjustment of the safety devices were attributable to neglect of duty on the part of defendants in regard to inspection, was necessarily left to the jury. Motions for non-suits dismissed, and judgment to be entered for each plaintiff for the damages awarded by the jury. D. O'Connell (Peterborough), for plaintiffs. G. H. Watson, K. C, and L. M. Hayes (Peterborough), for defendants.

Keough v. Brady.—E. E. Wallace, for defendant, appealed from orders made by local Master at Peterborough, dated 13th and 14th April respectively. D. O'Connell, (Peterborough), for plaintiff, contra. Order that commission issue, be amended so as to provide for examing defendant in Buffalo. Second order not interfered with. Additional costs occasioned by amendment of first order, and commission and costs of appeal, to be costs to plaintiffs in any event.

A NEW BALLOT-BOX

Device by Which Fraudulent Manipulation is Prevented

Ottawa, May 15.—The day of the fraudulent ballot-box is gone by the invention of what is known as the Nelson ballot-box, which was patented at the Department of Agriculture last week. It is a simple device, but absolutely effective in preventing the use of any box with a fraudulent compartment, of any mechanism by which ballots can be switched or manipulated. This is accomplished by a series of apertures on both sides of the box, but in no way is the efficiency or secrecy of the ballot-box impaired. A voter can see his ballot dropping into the box, but even should it become unrolled or unfolded after being deposited, it is impossible to read it.

IS IT SUICIDE?

Grave Fears Excited Over Disappearance of Mr. Robt. Hamilton

Yesterday the village of Lakefield was agog over the seeming disappearance of a man well known there, and what might be corroboratory of the suspicion of suicide.

On Saturday, Mr. Robert Hamilton, brother of Mr. Alex Hamilton, who recently purchased a farm near dam No. 4, on the Trent Valley Canal was absent all day, and towards evening, near the Lakefield Cement Company's dam, his coat and vest were found, with a weight holding them in place. It was rumored last night that a letter was also found pointing towards a rash intention, this however The Times has not yet been able to accurately corroborate.

Yesterday excitement was intense, all sorts of rumors and surmises filling the air, large crowds of people thronged the banks of the canal, and search was made for the possible remains. Mr. J. Harris McClelland, Superintendent of the canal, was communicated with, and a request was made that the water be let out of this section, so that a better examination and search could be made. Mr. McClelland in view of the gravity of possibilities of the case gave instructions to this effect. Up to going to press, no further intelligence is attainable.

MR. W. DREDGE HONORED.

By His Brother Typos--Presented with Valuable Tokens of Regard.

On Saturday evening about 45 members of Peterborough Typographical Union No. 248, gathered in the Y.M.C.A. to wish bon voyage to a departing brother.

Mr. Walter Dredge, who is, in a few days leaving to accept a lucrative position in Edmonton, and who is President of the local Union, has for some several years held a responsible position on The Times staff, being foreman in the press room. His brother typos, as a tangible token of their regret over his departure, met Saturday night with Alderman Begley, Vice President of the Union in the chair, and, by Mr. J. J. Perry, on behalf of all present, presented Mr. Dredge with a valuable Forrester's pin and a travelling case. Mr. Dredge expressed in fitting terms his regret at leaving old friends, and thanked his donors for their kindness.

TWO HUNDRED CANDIDATES

C.O.F. will Initiate Two Hundred Candidates In Near Future

The Canadian Order of Foresters in Peterborough are a strong body and ambitious. It is understood that edge goat is getting double rations of corn preparatory for coming events.

A rally of the members of Courts Peterborough, Langton and Littlejohn, was held Friday evening. All three lodges were well represented and great interest centered in an address by Mr. R. Copeland, Organizer, who is in town preparing for a grand initiation of two hundred candidates. He gave an address upon the objects of the Order, its benefits and insurance. Mr. Copeland expressed himself as pleased with the healthy condition of the Order in Peterborough, there being a total membership in town of over six hundred.

Court Langton will have a meeting to-night, and Court Littlejohn to-morrow night. Preparations are being made for a membership campaign.

A SATURDAY NIGHT BURGLARY

A Burglar Shares His Spoils with the Man Robbed.

Peterborough seems to be a good field for operations of petty burglars. On Saturday night the residence of Mr. Geo. Pratley, 150 River road, was invited by these gentry.

A drop-door leading to his cellar was opened and a thief or thieves entered the premises and lightened his larder considerably.

The thief either thought he would share up the plunder with the man

More Amendments To Autonomy Bill

There is Every Indication of a Complete Back down on the Part of the Government in Regard to Coercive Legislation.

Ottawa, May 15.—There is something sensational looming up on the political horizon. Your correspondent is able to say on most reliable information that further amendments to the school clauses will be introduced, and there is every indication of a complete backdown on the part of the Government in regard to coercive legislation.

Mr. Fitzpatrick was in consultation with Sir Wilfrid Laurier on Saturday, and there is a well-grounded rumor that when he gives his long expected explanation to the House to-day there will be certain drastic changes made in the wording of the famous amended clause 16 that will practically mean the recognition of the rights of the new provinces to legislate their educational system.

In any event the behavior of the Minister of Justice lends color to the opinion that he is not satisfied with either the amended or the original clause 16. The torrent of dissent that has poured into Government channels, not only from Ontario but from the Northwest itself, has shown the Minister of Justice how impossible it is to infringe on the old Liberal policy of provincial rights.

providing it, or could not manage to carry more.

His selection was a roast of beef, half the pork chops in sight, half the pies resting within the cellar cupboard, half the cake he could have taken and, as near as he could judge, half the half barrel of apples not yet made up into pies.

The police have the matter in hand so quick developments are anticipated.

Obituary.

Mr. Robert Armstrong, of 4th Line, Cavan, Dies at His Residence.

Yesterday after a painful illness, Mr. Robert Armstrong, of the 4th line of Cavan passed away at his residence. Mr. Armstrong was a gentleman with a large circle of friends, and was universally respected. He was 69 years of age, and unmarried.

Mr. Armstrong leaves to mourn his loss, his brothers William, residing on Wellor street, John, living at Bailleboro, Joseph, of town, and a sister at home. Up to going to press we are unable to ascertain particulars as to date of burial which will appear to-morrow.

MR. DEYELL'S SUCCESSOR

Names of Probable Candidates for Otonabee Division of County Council.

It is expected that the election to fill the vacancy in the Otonabee division of the County Council caused by the death of John Deyell, will take place in a few days. The warrant for the contest will be issued in a few days. So far very little is heard about who are likely candidates. The only two names talked of on the street are John Moore, of Keene, a former member of Otonabee township Council, and Councillor Carey who resided in the Villiers division, but now lives in the Hewson division of the township. There appears to be a general impression that a successor to Mr. Deyell will be elected by acclamation.

Police Court

OFFICIALS
Chief of Police, G.I. Read
Magistrate, D.W. Dumble

Saturday's session of the police court was a very short one, but enough to convince bicyclists that it does not pay to ride on the sidewalks.

Pat Maher, of Lansdowne street, was assessed $2 for leaving this regular beaten road track and riding on the sidewalks. It may be smoother, but it comes high.

Saturday afternoon, the Chief was in receipt of a telegram from Chief Grassette, of Toronto, informing him that Henry Ultman was under arrest in that city, and asking that an officer be sent after him; P. C. Stewart left by the evening train and arrived with his man at midnight.

Ultman is wanted on a charge of stealing two photographs from Ellis A. Hall in February last. Ultman is a photograph enlarger and will appear for trial this morning.

Father of Twenty-Seven Children

New York, May 15.—Joseph Lewis, 104 years of age, is dead at his home here. He served with two wives throughout the Civil War. Lewis was the father of 27 children.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

Opening Game of the Season.

There was a small crowd in attendance at the opening game of the baseball season here on Saturday afternoon between the crack Progressives of Toronto, and Manager McEwan's bunch of ball tossers.

The game was called at two o'clock, in order that the visitors could catch the evening train for Toronto. Long before play commenced the surrounding fence was packed with the usual rail-birds who have perched there for several seasons, in order to save admission fee, these "Do Johns," were reinforced by about 100 additional songsters or cheap sports on Saturday. It would be well for the management to have a snap shot of these "Ikeys" reproduced in the local papers. There is some excuse for the small boy but not for grown "men."

The locals deserved better support from the local fans than that meted out to them Saturday, fully three times the number should have been present. But the victory over the Progressives and the sample of ball served up paves the way to much larger crowds for the remainder of the season, as it looks as though Peterborough has a winning team. Manager McEwan has got together a good bunch, and the players handled themselves well for the first game making a good impression on the local fans. The weak point in previous seasons has been strengthened greatly by new men who are all goodwith the stick as was evidenced on Saturday, Douglas, Shea and Cadan batted well and helped to put nerve into the other members of the team who showed much improvement.

The work in the field was good considering it being the opening game. Douglas, who did the twirling, pitched good ball, and Cadan behind the bat did splendid work. Shea at short stop played a cool and steady game and looks like a good one. Pilling played first bag in good style, but the men on 2nd and 3rd, were a little off color at times. Connors at center field took in a number of high ones. Simpson had little to do in right field, while Teddy Pilling was kept busy in the left.

For the visitors, Hearne who did the twirling, had good control and pitched a steady game, Durly, who held down second bag, played a very snappy game, and was good with the timber; Spencer at first and Neil in right field, held down their positions well. The third baseman, Hurst, was off color, and made some costly errors.

In the first innings the visitors got away to a good start and things looked bad for the locals. Hearne was first up and fanned; Hurst drove one to left field and got second on a wide throw of Cadan's to first. Nicholls fanned, and Hurst came home on Sharpe's two-bagger to left field. Fleurist drove one to left field, bringing in Sharpe; Pilling took in Walker's fly and retired the side. The visitors added another in the second but from this on were shut out.

The locals did not get going until the 3rd, when Shea got over the plate on a hit of Cadan's to left field. In the fifth Peterborough added another Sheridan coming in on Cadan's hit. In the eighth Douglas retired the visitors in one, two, three order only pitching seven balls. Peterborough came up bound to win, Shea got to first on a grounder to left field, Cadan came up with a nice liner to Hurst on 3rd, which passed him, Shea going to 3rd, and getting home on a wild throw; Pilling slammed one to left field bringing in Cadan, and this winning run; J. Pilling fanned, and Neil took in Callahan's fly, Simpson fanning and retiring the side. The visitors failed to do anything in the ninth, the locals winning out by 4—3.

Following are the players;—

Peterborough—Sheridan 2b, Douglas p, Shea ss, Cadan c, T. Pilling lf, J. Pilling lb, J. Callahan 3b, Simpson 2b, Connors cf.

Progressives—Hearne p, Hurst 3b, Nicholls cf, Sharpe lf, Fleurist c, Walker ss, Neil rf, Spencer lb, Durly 2b.

Umpire—C. Earl.

The Progressives are a gentlemanly lot of ball players and as a result things worked very harmoniously.

London Election May 31st.

Ottawa, May 16.—Polling day in London will be May 31. Mr. Hyman will be sworn on Monday next. The plans of the Government for the swearing to-day having been upset by the unexpected absence of the governor-general.

The writ will be issued on Monday, and will reach London the same day. The law requires that eight clear days elapse before nominations.

This will mean the 24th of May before nominations are received.

Enquiry at Rideau Hall by the World correspondent elicited the information that his excellency would not be back in the capital until Sunday night.

INVESTIGATION SOLICITED

Rare Chance for Investment in Conservative Nickle and Copper Property.

In these days of innumerable propositions offered the public in which they may take long chances on all sorts and descriptions of gold and silver mines, many of them used as a bait to eaten the credulous, it is a relief to investigate thoroughly what has the trade-mark of a sound and conservative mining proposition.

This is strictly an industrial age and one of the most promising metals now entering into the steel industry is nickel. Copper has its established world-wide use, and the supply hardly reaches demand, but with nickel, the possibilities are beyond conception. For combination with steel in armor plate, bullets, bicycles, and a thousand other articles, nickel is the coming metal of the world. Nickel steel stands pre-eminently first in tests over all other steels. Nickel-steel has many times the strength with more of the brittleness of high carbon steel. Its use, although in such general demand, is only in its infancy, but its future possibilities are beyond human power to guess.

The International Nickel and Copper Co., Ltd., of Boston, are now offering a few thousand shares of Treasury Stock at the low price of $1 per share, payable cash, with a regain of 5 per cent., or 10 per cent. down and 10 per cent. monthly for nine months. Fifteen months from this date, a conservative estimate would place these shares at from $5 to $20 each. In such a staple and widly used metals as nickle and copper, it is no exaggeration to prophesy such a raise, as soon as the mines are producing in paying quantities.

The International Nickel and Copper Company own nearly three thousand acres of land which actual tests have been proved to be rich in nickel and copper ores.

Their properties are located under the British flag, in Notre Dame Bay, Newfoundland, where shipping facilities could not be excelled, the water, within one hundred feet of the properties, being deep enough for sea-going vessels, and is navigable eight months in a year. An expert assay of the ores show 49.95 per cent. of copper, and 3.48 per cent. of nickel worth from $22.45 to $30 per ton.

Persons wishing to avail themselves of this opportunity for gilt-edged investment would do well to communicate with W. K. HALL, Fiscal Agent, Peterborough, Ontario. (See advertisement in another column).

A BIG FAMILY

Man is Penetanguishene Father of 26

Penetanguishene Herald: A couple of weeks ago we complimented Alex. Beaudoin upon the safe arrival of his fourth pair of twins, making the even dozen in his family of small children.

At that time we thought that this was "about the limit," but we knew not the prolific resources of the town we live in and the inhabitants thereof. Last Friday, Mr. Savoy Lalonde, a West End resident, dropped into the office of the local Registrar of births, deaths and marriages, to record the advent of a new baby boy, and incidentally remarked that that was his twenty-sixth. After the Registrar revived sufficiently to speak he learned that Lalonde had been married twice—the first wife being a Beauchamp, and number two a Vasseur. By each of his wives he has had a baker's dozen. Mr. Lalonde seems quite proud of his achievement, and until some one can make a better showing we shall regard this as a record. We may mention that three pairs of twins and twenty singles account for the full twenty-six.

Rat Portage Has New Name Now

Toronto, May 15.—An Order-in-Council has been passed changing the name of Rat Portage to Kenora, which is a combination of the names Kenwatin, Norman and Rat Portage, which are expected soon to amalgamate.

SCOTCH GIRLS FOR CANADA

Party Will Instruct Canadians in the Curing of Herring

Ottawa, May 15.—Mr. J. J. Cowie, the Scottish fishing expert, who conducted a series of demonstrations in the curing of herring at Canso, N.S., last year, left Glasgow yesterday with a number of Scotch girls, who are experienced herring cleaners, to continue similar experiments. From Canso they will give demonstrations in Mr. Fielding's constituency, Queens-Shelburne. Later in the season the party will proceed to the Pacific Coast to show the fishermen there how to clean and pack herring.

KINGSTON AND GRAND TRUNK

Limestone City is Counting on Getting Railway Shops

Kingston, May 15.—The statement comes from reliable sources that the Grand Trunk Railway shops, now in Brockville and Belleville, will be centralized in Kingston as soon as the junction is abolished and the railway runs directly through the city, instead of along the limit. Some time ago the city offered to give the Grand Trunk Company the present exhibition grounds if it would change the railway course, making it run further in. Recently a survey was made by the line between here and Kingston mills in regard to the troublesome grade just east of here. By running the line into the city, this difficulty would be overcome.

OUR LIQUOR LAWS

A Suggestion That the Law be Changed

The Weekly Sun, of Toronto, suggests what it thinks to be an improvement in the liquor laws. It says:

Instead of commissioners for each electoral district, it might be well to have a board for each county—the board to consist of the warden, the county judge, and one member appointed by the government. Such a commission would be representative, two of its members at least would have personal knowledge of the requirements of each part of the district dealt with, and the board would be non-partisan. Instead of having, as now, an inspector for each riding, giving a small portion of his time to his duties, it would be well to have one for a group of counties, giving his whole time to this work. An active officer covering a large area, free of local sympathies, with no local business entanglements, and giving his entire time to the work, would bring about a more efficient administration of the license law than is possible under the present system.

FRANCE'S DEFENSE

Semi-Official Statement Regarding Neutrality

Paris, May 15. — A semi-official statement from high sources was published, giving France's position in reply to Japan's charges of breaches of neutrality. One of the headings is:

"Japan has done in the Philippines and Dutch East Indies the same as she accuses France of doing in Indo-China."

The conclusions are set forth as being:

First—The French neutrality regulations were not established for the present war, but existed previously without protest from Japan.

Second—France has exercised her sovereignty to fulfil the regulations not only to the full letter, but has also adopted special measures to maintain absolute impartiality.

Third—The only direct purchases of coal by the Russians were at Algiers, where the quantity was insignificant. The main stock of coal was purchased in Germany and England without protest.

Fourth—Any advantages which the Russian second Pacific squadron obtained by anchoring off the French coast were equally open to the Japanese if they had taken the offensive instead of awaiting the Russians.

500 VISITORS COMING HERE.

New Market Agricultural Society will Run Excursion to Peterborough June 15.

A committee consisting of Messrs. N. A. Eves, J. H. Proctor and A. E. Coombs, representing the Agricultural Society of Newmarket, was in town Saturday, and concluded arrangements with Mr. W. Bunton, G.T.R. ticket agent, for the running of a mammoth excursion from that place on June 15th.

The representatives were looked after during their stay in town by Mr. R. Leary of the Civic Reception Committee, who accompanied them upon a drive about town, during which they visited the Lift Lock, the various parks and other points of interest, with which they expressed themselves as delighted.

The committee concluded the arrangements for a special train with Mr. Bunton, and it is expected that 500 people will accompany the excursion.

Arrangements have also been made for lacrosse and baseball matches upon the day of the excursion, as well as with the Calcutt Line of steamers for a trip over the lift lock. The hotels were also visited with a view of securing the necessary accommodation for the visitors.

The committee, which returned home on the 5.30 train, expressed themselves as highly pleased with the attractions and facilities afforded in Peterborough for making the affair an enjoyable trip

—Master Carlye Potter, son of Rev. J. G. Potter, who suffered the fracture of a leg a few weeks ago, was able to return to his home from Nicholls Hospital.

Limbs Ached With Weakness

Cheeks Were Sunken and Pale—Appetite Poor—Sleep Hard to Obtain

FERROZONE

Made a New Woman of Mrs. Clarenc Agustus of Walkerville

When you want to get over weakness and sleeplessness without stopping work, use Ferrozone. It is the one sure remedy that brings bracing health at once.

Try Ferrozone and notice how much better you will feel. Mrs. Clarence Augustus, of Windsor, writes:

"My weakness was chronic.

"It seemed to invade every organ of my body.

"My cheeks were sunken and pale.

"I had no appetite, and slept very poorly.

"Since using Ferrozone I am like a new being. I am strong, have no more aches or weak spells.

"Ferrozone is indeed a grand tonic."

It's the nourishment in Ferrozone that makes you feel good. It puts life into the blood, energy into the nerves, makes you dance and snap with new found health; try Ferrozone, 50c. per box, or six boxes for $2.50; ...At all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 15 1905

CANADIAN RAILWAYS

The annual report of the Minister of Railways for the past year contains interesting statistics of the progress of railway building and earnings. There were up to last year 19,431 miles of road in operation, the addition during the year being 449 miles. The period of most active building in Canada was between 1874 and 1894. In the former year the length of operated railway was 4,331 miles, representing the construction work of thirty-eight years. By 1884 there had been added 5,942 miles, and the record was 16,273 miles. This was increased by 1894 to 15,627 miles, or by 9,354 miles.

The gross earnings of Canadian railways for the past year were $160,210,834, of which $64,678,319 came from freight traffic, $28,001,251 from passengers, $1,031,062 from carriage of mails and express, and $14,612,022 from other sources.

The operating expenses amounted to $74,563,161, divided as follows:—General and operating charges, $20,-154,064; cost of motive power, $20,-870,269; maintenance of way and buildings, $15,009,060; maintenance of cars, $6,960,676, the balance being made up in other expenditures.

The net earnings were $25,6s6,274. This sum was available for meeting interest charges on the $449,114,035 of bonded indebtedness and the $145,-5s9,412 of preference and $347,158,-117 of ordinary stock.

Much, at least, of the capital, it is plain, brings the investor no return. Three are eighteen roads which did not earn their running expenses, and are thus put in the same category as the Intercolonial, the Government road.

THE WAR SITUATION

The deeper the investigation into the conditions which have made it possible for Russia to use Saigon as an advanced base, the more outspoken becomes the Japanese indignation and the more insistent is also that valid assurances be immediately given that a new state of things is to be inaugurated. France has, so far, been not only pasific but complaisant, assuring Japan and the civilized world in general that, while not accepting the British definition of neutrality as binding on any one but Great Britain, steps had been taken to see that Rojestvensky's fleet dallied no longer in the hospitable bays and harbors of Annam. Simultaneously with the last and most definite of her assurances, reliable information reached Tokio that as late as yesterday, two days after the despatch of France's communication, six of the Russian fleet were still safely ensconced in Hankon Bay. It is probable that Japan's present protests are aimed less at what has been done during the past month in the case of Rojestvensky than what may be done in the next few weeks to refit Nebogatoff. Naval critics estimate that his squadron will gain from twenty to thirty per cent. in efficiency if it can be repaired and refitted after its long voyage, and the odds are quite heavy enough against Japan without the increase in the Russian chances.

THE NEW ASSESSMENT ACT

Income tax in all times and places have been deemed inquisitorial. But, equitably imposed, it is probably the fairest of all ways of raising money for public purposes. The new Ontario law is more inquisitorial than anything of the kind put in force in Canada hitherto; but is so with the aim of attaining equity. In place of leaving the amount of taxable income pretty much to the guess-work of the assessor, it requires a detailed sworn statement of income from or regarding each person or estate, supposed to be subject to income tax. This is irritating in its evasion of private finance, and in its certainty of making most income-taxpayers shell out more than they have been doing to the civic treasury; but it will surely result in a more equitable distribution of that sort of taxation. The big objection is that there may be promotion of perjury.

If the word "income" as used in the returns to which an income-taxpayer must swear indicated gross income, the law would unquestionably be unjust. But the law defines the word income as used in the act to mean the annual profit or gain made from business or investments—not the gross return (which is often subject to heavy counter charges) but the profit.

INCONSISTENCY

Every Quebec member but one, and every Catholic but one, voted for the Separate school legislation, and Le Nationaliste is grieved by these exceptions. The Quebec exception, it appears, is, says The News, an Ulster bigot, and the Catholic, who voted against coercion is unfaithful to his race and creed. Race and creed must not be mentioned except for the purpose of whipping the coercionists into line. A solid Protestant or Ontario vote would rend our fair Dominion asunder, and introduce a bloody race and religious war, but a solid Catholic and Quebec vote is the cement that will hold the Dominion together. Attacks on Quebec are narrow or wicked, but attacks on Ontario are evidences of culture, generosity, and broad patriotism. Bearing these few things in mind, any young man can learn the language of statesmanship without the drudgery incident to the old methods. A short and pleasant course of swearing at Toronto limbers up the tongue wonderfully, and prepares the young patriot for higher flights of oratory.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Hall's Family Pills are the best.

PERSONALLY CONDUCTED TOUR.

To California and Lewis and Clarke Exposition, Portland, Oregon.

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.00 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. O. Bowler, General Agent and Conductor, Room, 368, Union Station, Toronto.

Illicit Fishing.

County Police Magistrate Edmison held court in the Lakefield town hall Thursday afternoon and disposed of several cases. Ed. Watson and John Bettes of Lakefield were charged by Mr. F. J. Moore with angling for fish in Lake Katchawanooka on April 27, other than by hook and line. It appears the men were out in a float spearing maskinonge, when the inspector hove in sight. The men immediately threw a fish back in the water and by an ingenious device unscrewed the spear points from their poles and substituted pike hooks instead. The overseer, however, found a spear point and also the fish that had been killed and they were produced as evidence against the offenders who were each assessed $10 and costs.

Ayer's Hair Vigor.

A splendid dressing for the hair. Keeps the hair soft and smooth, and prevents splitting at the ends. Quickly checks falling hair and cures all dandruff.

J. C. Ayer Co., Lowell, Mass.

No Breakfast Table complete without

EPPS'S COCOA

An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. It is a valuable diet for children.

The Most Nutritious and Economical.

MARCONI

How Great Fortunes Grow

On the American continent there is no more interesting example of fabulous wealth built up from small capital than is presented by the present huge fortune of the Astor family. The founder of the fortune, John Jacob Astor, invested gradually only $2,000,000 in real estate in what is now New York City. To-day that sum of money has grown to the tremendous amount of $450,000,000. The first and the succeeding Astors never bought improved real estate. They bought only untilled soil without a street through it and, in countless cases, they sold land after it had been built upon, and put the proceeds back into undeveloped land. Contrast the result of their methods with that of those who bought from them, for the latter have but little to show for their investments.

The Marconi Wireless Telegraph Company of Canada, Ltd.,

is an exact parallel to the undeveloped soil which the Astors have bought. Its future will see a corresponding increase in value. Now, therefore, is the time to become interested in it, for, like the Astors, you can sit back and watch your money multiply without any labor on your part. The future demand for what you can buy at bottom prices will carry the price to the higher and higher levels. You may desire detailed information in regard to what this great corporation has done and is to do. If so, write to us for the information. But do not wait until it has reached higher prices Do not be a buyer when an Asto would be a seller. You can purchase any amount of stock from one share to two hundred shares, at $5 per share. The price will advance in the early future, and you should make an immediate purchase in order to take advantage of that increase.

Don't Delay-- Buy To-day.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the county. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time. Will accept orders for blocks of 1000 shares or more at 45 cents a share.

The Stubbs Investment Company
Albuquerque, New Mexico

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalised for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents. The poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. Wright.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely sleep over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained fifteen pounds in weight."

C. E. WRIGHT, Lansing.

ESTABLISHED 25 YEARS.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Tuller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying later mesitate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $2.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $335.00.

With an average value of $80.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 270,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

LOST 300 MEN IN SHARP SKIRMISH

Russians Defeated in an Attack on Jap Positions--Japs had Fifty Wounded

Tokio, May 14.—The following telegram from army headquarters in Manchuria was officially given out to-day.

"On the morning of May 10 the enemy, consisting of two regiments of infantry, five sotnias of cavalry, and one battery of artillery, made an attack in the vicinity of Yinchengtsu, which is fifteen miles east of Yincheng.

"At two o'clock in the afternoon the enemy made a resolute attack. Under the cover of artillery, the infantry advanced to within 100 metres of our lines, whereupon our garrison assumed the offensive, attacked, and dispersed the enemy.

"The enemy left sixty killed and 150 wounded on the field. Besides these soldiers dressed in Chinese clothing carried away many killed and wounded. The enemy's losses are estimated at 300.

"Our casualties were one killed and fifty wounded."

ADMIRALTY WON'T TALK.

St. Petersburg, May 14.—The Admiralty declines to divulge any information which it has about the ships of the Vladivostock division, which are reported to be off the coast of Japan, but the impression prevails in naval circles that, acting under the instructions of Vice-Admiral Rojestvensky, they have passed through Tsugaru Straits into the Pacific on a reconnaissance to ascertain if the passage is free of mines, and feasible for Rojestvensky's squadron, and also to threatened Japanese commerce. All the Russian naval division now in the Far East are acting under Rojestvensky's orders.

TRUST IN ROJY.

M. Vronsky, the military expert of the Novoe Vremya, explains that the failure of Field Marshal Oyama to undertake an advance, as well as the failure of the Japanese to send an expedition to the island of Sakhalin, are due to the appearance of Rojestvensky's squadron in Chinese waters.

"In his hands now is the destiny of the Far East," the paper says, "may God grant him success."

The Slovo reproaches the Imperial Guard for not going to the front, saying, "Its place is on the battlefield. In all Russia's wars the Guards has won glory. It is composed of the picked men of the Empire and should show the world what Russia can do."

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Rich Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Butte and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $100,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 20,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

Town Property to be Improved.

The property committee met on Thursday night in the clerk's office, when Messrs. Batten, Leary, Scott and Crowe were present. It was decided on motion of Ald. Leary and Crowe to recommend that the chairman be authorized to have a new linoleum placed on the floor of the committee room in the town building and also to have a new rail placed around the market scales, to have a new carpet laid on two of the firemen's bedrooms and the ceiling of one room papered. In response to a letter from a coal company in a city in the United States, the clerk was instructed to write them that he town's policy is not to purchase coal from firms outside of the country.

DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS

SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary,
The Militia Council.

Department of Militia and Defence.
Ottawa, May 1, 1905.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Stanley Breakwaters," will be received at this office until Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Elgin County, Ontario, according to a plan and specification to be seen on application to the Postmaster at Port Stanley, Ont. at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto. J. G. Sing, Esq., Resident Engineer, London, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, May 5, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado.

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share for cash.

For the information of investors the Company make the following statement of what a certificate of its stock represents

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1859 to 1905 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4800 feet on Arapahoe dyke 22 feet wide	15.3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20.4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 1000 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost.....$15,000.00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $6,000.00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1600.00
Treasury stock sales pledged	1000.00
Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.	
No bonds or mortgages, no preferred stock.	

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Tons
Average number of tons mill ore concentrates in on ton	5
Number of tons concentrated per day	5

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 5 tons mill ore of value of $12.00 allowing 10 per cent loss in saving	50.00
Net value after deducting expense of mining and milling per day	90.00
Net revenue per day from 5 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6 000.00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	120,000.00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 600 000 shares in treasury reserve fund which draws no dividend.....$120,000.00

RETURN ON PRINCIPAL

Purchaser of 1000 shares at 15 cents pays.....$150.00
Dividend of 5 per cent per annum on 1000 shares returns $50.00
5 per cent dividends returns on investment per annum. 33⅓%
10 per cent dividends returns on investment per annum. 66⅔%

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company, that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905, the energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

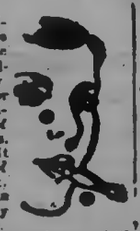
CATARRH

Don't Drug the Stomach — Breathe Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.



Catarrhozone always cures because it reaches the source of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't work in a round about way through the stomach.

This antiseptic in Catarrhozone kills the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents droppings in the throat, allays inflammation. Catarrhozone now.

Be certain in Catarrhozone to remove and cure that doctorse, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure even the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes, "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No home should be without Catarrhozone."

Why not use Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Ormation heals sore spots and running at the nose.

Fences.

Try A. Reid for fencing or gates. 96 Lansdowne street, or address Box 576, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

For Sale.

A good general delivery horse, quiet and reliable, price reasonable. Apply to P. V. Delaire, 268 London street.

Injured Working on Railroad.

An Italian named Gingi Ciallernaldo, was brought to Peterborough by C.P.R. Friday, and placed in Nicholl's hospital. He has a badly lacerated leg, the result of an accident of which he was a victim while working on the railroad. It seems that the man was struck by a hand car and the wheels passed over his right limb. Dr. Young is attending to him, and he is reported to be resting easily.

Peterborough Lodge Gets the $50

Peterborough Circle of the Canadian Order of Home Circles is progressive. At the meeting Friday evening, it was announced that the prize of $50 given [illegible] Circle for the largest increase in membership during the year had been received. The local circle has experienced a great degree of prosperity since its resuscitation one year ago, and there are now about one hundred and fifty members in good standing.

Restaurant for Sale.

Fred E. Darcy offers for immediate sale that well established restaurant on Simcoe street known as the "White Kitchen." Mr. Darcy has to sacrifice this well paying business as he is compelled by other important matters, requiring his immediate attention. For particulars apply at the White Kitchen. tf

Lakefield Cement Co Buy Engine

The Lakefield Portland Cement Company, have purchased a new locomotive which arrived in the village on Friday last. It is a twenty-eight ton Sandie Tank locomotive made in Canada by the Montreal Locomotive Company, and is used for the purpose of hauling marl from Buckley's Lake to the works. This makes three locomotives used by this company in connection with their work.

Celebrates His 10th Anniversary.

The anniversary services in St. Andrew's church yesterday had particular significance, apart from the fact that it was the 60th birthday of the church. Sixteen years ago Rev. J. C. Potter was ordained to the ministry, and the services yesterday were therefore of special interest to the congregation. Rev. Mr. Potter has been a most faithful pastor, and during his incumbency the church has experienced great progress in all of its departments.

1,500 Bulbs Distributed by P.H.S.

Every stranger in town, during the summer time, remarks on the beauty and artistic arrangement of our parks. This is, in great part, due to the philanthropic work done by the Peterborough Horticultural Society. This society is enjoying a season of progress and now has nearly one hundred and thirty members. Some 1,500 bulbs have already been distributed to the citizens. They consist of 400 bulbs of tuberous begonias and 1,000 gladiolus. About 500 more bulbs of the latter will be distributed.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Borenwend to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupes, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by those who adopt them, are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Borenwend's Art Goods can improve your looks? He will demonstrate this to every caller free of charge. Only one day, Friday, May 19.

Craig House Annex.

Mr. Isaac Eastwood, who has purchased the Craig House at Lakefield, has in view the construction of a modern annex to the building there, which will render it one of the finest up-to-date summer hotels in the Province. The plans now being prepared by Mr. E. W. Argus, architect, provide for a frame structure containing 25 rooms, with spacious halls and sitting rooms. The central interior arrangement will be of the balcony style. The new annex will in itself have the proportions and appointments of a large hotel. Mr. Eastwood is to be congratulated upon his enterprise.

Boys in Red

The inspection of the different companies of the 57th Regiment will take place on Wednesday and Thursday, June 7th, and 8th. On the afternoon of Friday, June 9th, the inspection of the regiment as a whole will be made. It is likely the corps will make an attack on some strategical point, Col. Gordon, D.O.C., of Kingston, the successor of Col. Buchan, now of Quebec, will be the inspecting officer. The regiment will be in splendid shape in a couple of more weeks. By that time the recruits will be proficient in the drill and it is expected that on the occasion of the D.O.C.'s visit the officers and men will acquit themselves in a creditable manner.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. Rupert Gliddon is ill from a severe attack of quinsy.

—The Millbrook Reporter says: Miss McKee, of Peterborough, is visiting Miss Mae O'Brien.

—Mr. B. H. Jackson, of the Crown Inn, expects to leave for Eel's Creek, Stoney Lake, early this week, to make further arrangements for the construction of a new summer hotel.

—Friends will be pleased to learn that Mr. D. M. Somerville, formerly of town, has been successful in his examinations at the dental department of the Northwestern University. The commencement exercises were held on Thursday, May 4th.

Cobourg World:—Miss Emma Stephens, of Peterborough, visited her mother, Mrs. G. J. Stephens, this week. Miss Butler, of Peterborough, visited her friend, Miss Minnie Downes, several days this week. She left yesterday on a visit to her brother in Denver, Colorado.

—The Lakefield News says: Mrs. Geo. Manning of Peterborough, is visiting in the village, the guest of her father, Mr. John English. Mr. and Mrs. C. B. McAllister, Mrs. A. A. Cox and Miss Margaret Cox of Peterborough, and Mr. Johns of Cleveland, Ohio, were the guests of Mr. and Mrs. E. A. Tanner on Tuesday.

—Pension Falls Star — Lightning struck the house of Mr. Jos. McGee in Verulam during the storm on Wednesday of last week. After passing down the chimney it passed through the lower part of the house in all directions, demolishing nearly everything in its path. Some of the family had very narrow escapes, the lightning passing under the lounge on which a boy was sleeping, and going through the partition, killed a dog lying on the floor. Considerable damage was done to the house.

A Desirable Change

Gentlemen Who Are Bald.—A great many think it is impossible to replace their former growth; these thoughts would be at once expelled from their minds should they investigate the Art Hair Coverings manufactured by Prof. Borenwend, whose skill in this line is world-renowned. Over 30,000 wear his Art Productions. They are feather-weight, securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance. He is at the Oriental Hotel, Peterborough, on Friday, May 19th. Don't miss seeing his goods.

CHURCH DEBT WIPED OUT.

Anniversary Services in St. Paul's Church Yesterday Resulted in in Raising $4,000

Yesterday was a red letter dday with the large congregation of St. Paul's church.

At both services, which were of especial interest, from the fact they were the anniversary services and from the presence of two visiting eloquent divines from Toronto, the Rev. Messrs. Gandier and Geggie, the attendance was even larger than usual.

At the morning service Rev. Mr. Gandier gave an impressive address, holding the attention of his audience most keenly, and, in the course of his remarks, made an eloquent appeal for financial aid towards Queen's University, which, seat of Presbyterian learning he explained, had in view the intention of trying to raise the sum of $500,000. The reverend gentleman asked that Peterborough would do its share in assisting so laudable a cause. There is no doubt but what his appeal to so large and wealthy a congregation will bear good fruit.

Rev. Dr. Torrance had reason to feel proud of his flock and gratified at the tangible manner in which his efforts for the church's good were recognized yesterday; he referred to the fact that 20 years ago the improvements to St. Paul's church had cost $34,000, and that, on the mission church, $6,000 had been expended, making a total of $39,000. This large sum had been reduced to an indebtedness, on the church's part, of $4,000.

At the morning anniversary service yesterday, the congregation of St. Paul's contributed the handsome sum of $1,425, and by yesterday evening sufficient had been subscribed, to make up the balance of the $4,000, thus leaving St. Paul's church free from all debt. Verily a good deed done on a good day.

At the evening service, Rev. Mr. Geggie preached an eloquent sermon.

The music at yesterday's services was remarkably good, the solo parts being admirably taken by the Misses Helen Davies and Moore, and by Mr. McIlmoyle.

In St. Andrew's church, Rev. Mr. Geggie preached an able sermon at the morning service.

I. O. O. F.

New I. O. F. Lodge to be Instituted at Lakefield.

A new lodge of the Independent Order of Oddfellows, will be instituted in Lakefield on Wednesday night next by Bro. Fry, D.D.G.M., of Norwood Lodge and the members of the district committee assisted by members of Peterborough and Otonabee lodges. At the meeting of the latter lodge to-night, a full attendance of the brethern of Peterborough lodge is requested in order to complete arrangements for the visit and putting on the various degrees. The local Oddfellows will go to Lakefield on Wednesday night by special train.

West Durham Conservative Officers

At the annual meeting of the West Durham Liberal Conservative Association, held in Bowmanville yesterday, the following officers were re-elected:—President, E. H. McLean, Newcastle; Vice-President, Thomas Powers, Kirby; Secretary, Dr. G. C. Bonnycastle, Bowmanville; Treasurer, J. K. Allen, Newcastle; Auditors, Messrs. W. J. Jones and W. C. King.

IGNORANCE

Blows out the gas and furnishes the newspapers with a jest and an obituary notice. "Didn't know it was loaded" may be an honest plea, but it never brought a victim back to life. Those who let a cough run on, in ignorance of the danger, find no escape from the consequences when the cough develops into lung trouble.

The best time to cure a cough is when it starts. Ordinarily, a few doses of Dr. Pierce's Golden Medical Discovery will cure a cough at the beginning. But even when the cough is deep-seated, the lungs bleed and the body is wasted by emaciation, Dr. Pierce's Golden Medical Discovery will in ninety-eight cases out of every hundred effect a perfect and permanent cure.

$3,000 FORFEIT will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman of No. 459 29th Place, Chicago, Ill. "He had such terrible coughing spells we not only grew much alarmed but looked for the bursting of a blood vessel or a hemorrhage at most any time. My husband's recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around, and in two more days he went to work. Two bottles cured him."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent *free* on receipt of 21 one-cent stamps, to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 114 PETERBOROUGH ONTARIO, TUESDAY MAY 16 1905. PRICE TWO CENTS

Japanese Reinforced By 80,000 Troops.

Oyama's Force Confronting Linevitch Greatly Strengthened and Ready for Battle--Rojestvensky Again Defying French Neutrality.

Gunshu Pass, Manchuria, May 16.—Skirmishing continues in the Olouri Mountain region on the Russian left, but the fighting is not serious. Calm continues on the right. The Chinese, however, report that Field Marshal Oyama is directing large masses of troops from Fukoman toward Tounjiakou, where a concentration is proceeding, and the river is being bridged by pontoons. The Liao River is full of junks, which bring up stores and provisions.

About 80,000 Japanese reinforcements have arrived at the front. The Japanese cavalry in particular has been considerably strengthened. Prisoners say that the Japanese armies are ready to advance when the word is given.

During a recent terrible dust storm, which raged three days, the soldiers' tents and entrenchments suffered severely.

ROJY IS DEFIANT.

Tokio, May 16,—It is definitely known that Rear-Admiral Rojestvensky, after temporarily leaving Honkong Bay on May 8, re-entered the bay and continues at anchor there.

PREMIER HAULTAIN STANDS BY GUNS

Reiterates His Opposition to the Autonomy Proposals

HOME RULE IS DEMANDED

Territorial Premier Will Return to Ottawa to Aid Fighting the Bills in Committee

Regina, May 16.—A press representative called upon Premier Haultain at his Department, where he was busily engaged attending to business that had accumulated during his absence at Ottawa.

After a brief informal conversation the newspaper representative addressing the Premier asked if he had any reply to make to the criticisms of a member of the Local Legislature who urged that he should return from Ottawa and call the Assembly to discuss the Autonomy Bill now before the Parliament of Canada? Mr. Haultain naturally inquired who the member was, and was informed that the member for Moosomin had stated in an interview that he would have more confidence in the Premier's attitude if Mr. Haultain would meet the House to get the opinions of the members, or hold the bye-elections in the vacant constituencies and ascertain the sentiment of the people on the issues before the country. Mr. Smith also stated that he could not understand why the Premier remained in Ottawa when the bill was before the House unless it were to aid the political schemes of the Opposition.

THE LEGISLATURE UNANIMOUS.

Mr. Haultain replied that the member for Moosomin had supported the draft bill which passed the Assembly unanimously, and on two other occasions Mr. Smith had voted with the House in favor of his autonomy policy. If the members were to again go on record on that issue they could do nothing more than they had already done by their votes in the Assembly.

The Premier does not look for another session of the Legislature, and if bye-elections were held, the only result would be an expression of opinion, and the country has expressed itself before in favor of his autonomy scheme.

CONSTITUTIONAL RIGHTS.

Mr. Haultain contended that there were many good features to the present bill, and the objection he is taking to the educational clause is based on our constitutional rights, and if the bill does pass the House without the clause being amended to give us the liberty in respect to education which we should enjoy, the Act of the Dominion Parliament will not necessarily be final in the matter. His duty to the West and the constitutional rights of the people would be very clear to him if he were called upon to legislate in either of the new Provinces, for the Premier regarded the educational clause of the Autonomy Bill as an invasion of Provincial rights that can never be ultimately sustained.

WHY HE REMAINED IN OTTAWA.

Regarding his stay in Ottawa, Mr. Haultain stated that he went there at the request of the Government, and he was detained at the solicitation of the Minister of Justice, who asked for his assistance in drafting the business features of the bill, which entails a large amount of work and which will not be completed for some time. The Premier and the Territorial Treasurer had opened a bureau of information, where the records, statistics and data concerning the Territories were kept, and the Government monopolized the most of the time of the North-West Ministers.

Mr. Haultain ignored the charge of partisanship, and he cited his own record for consistency as compared with those who had enunciated in Parliament and out of Parliament certain principles which they now repudiate for the sake of political expediency. The Premier has stood out clearly for Provincial rights, and the educational clause of the Autonomy Bill is an invasion of those rights which he could not under any circumstances submit to. He did not attack the principle of Separate schools or discuss their merits or demerits, but he claimed that the amended educational clause placed no more limitation on Separate schools than the provisions of the original clause, upon which Mr. Sifton left the Cabinet, and the members who cheered Sir Wilfrid when he glorified the Separate school system and vilified the National school system cheered as loudly for Mr. Sifton when he vilified the Separate school system and expressed his glorification of National schools.

Asked as to whether his draft bill provided for the perpetuation of the present system of education or the establishment of Separate schools, Mr. Haultain replied that the draft measure referred to provided for absolute Provincial control of education.

As the Minister of Justice had intimated on the return of the North-West Ministers after the Easter holidays, Mr. Reid left last week for Ottawa to be followed in a few days by Premier Haultain, who will have to be consulted on the different features of the Autonomy Bill when it comes up in committee, where the big fight over the measure will really take place.

WHEN A CITY

Some of the Practical Changes our Evolution Will Make

Among the extra expenses involved in our incorporation as a city, is an additional $200 to the salary of the Police Magistrate; and another is the constitution of the Court of Revision. At present this court is composed of members of the Council, to whom a salary is not paid, but in the case of a city the Court of Revision consists of three persons, not members of the Council, one appointed by the Mayor, a second by the Council, and a third to be the official arbiter, when there is one, or in case there is none, the Sheriff. The salaries paid in cities for members of the Court of Revision range from $25 to $50 each, per year, so that in any case the expense on this account will only be from $75 to $150 per year.

Tavern licenses are increased by $60 in cities.

QUALIFICATIONS OF ELECTORS.

The only change which will affect electors personally is raising the qualification for voters from $300 to $400. An increase will also be made in the qualifications for aldermen. The freehold qualifications will be increased from $600 to $1,000, and leasehold from $1,000 to $2,000.

At present the police department here is under the control of the Council, while in cities a board of police commissioners has charge of this department, and also has the licensing and regulation of junk stores and livery stables, and also fixes the area of livery stables.

The police commissioners will be the Mayor, the County Judge and the Police Magistrate.

ACCOUNTS.

The city accounts may be audited by the city auditor before being paid.

City councils have the power to ask the county registrars to give a list of all conveyances made, giving the name of each purchaser, and the price paid, each instrument to cost five cents. This provision is for assessment purposes.

Aldermen in cities have the power of Justices of the Peace, while in towns only the Mayor has this authority.

In cities the treasurer is not bound to have the financial statement prepared by December 15th, as is necessary in towns.

Cities may spend a limited sum for the purpose of entertaining distinguished guests, and for travelling expenses of the members in transacting municipal business.

Cities have the power to imprison for six months offenders against city by-laws for non-payment of fines, while in towns the limit is 21 days.

Cities may spend a limited sum for the purpose of rebuilding bridges, without submitting a by-law to the ratepayers authorizing the expenditure of the money.

CHEAP EXCURSION TO TORONTO

A Good Opportunity to Visit Toronto and See Queen's Plate Race for $2.05 Return.

Everyone, sooner or later, takes a run up to Toronto; an excellent opportunity to indulge in this outing is now afforded by the cheap tickets offered for Saturday next, $2.05 Toronto and return.

The Peterborough Turf Club have completed arrangements for an excursion to Toronto on May 20th, to enable those interested in the ponies to see the Queen's Plate race at the Woodbine. A special train will leave the C.P.R. station, Peterborough on Saturday morning next at 8.10 p.m., and the fare is only $2.05, which is less than single fare.

Tickets from Peterborough, Cavanville, Manvers and Pontypool are good going on special train only, and will be good to return on any regular train, May 20, 21, or 22, or onspecial train leaving Toronto at 11.15 p.m., Saturday May 20.

Tickets are on sale at the C.P.R. ticket offices and stations and the Peterborough City Ticket office will be open until 11 p.m., on the evening of the 19th. The train which will leave Peterborough at 8.10 a.m., will take up passengers at more important intervening station, from which correspondingly cheap rates are offered. There is also a cheap excursion run from Lindsay the same day by the Turf Club. This is a chance not to be missed by those having business or pleasure in Toronto.

Thousands Duped.

Victims of Peterborough Agency of Haight and Freeze's Bucket Shop were Swindled.

It is currently reported round town that those slick operators, Messrs. Haight & Freeze, through their Peterborough agency, managed to gather in $100,000 of the good money of this town.

This town is not the only place victimized, there were scores of "brokerage" houses, controlled by this firm, throughout Canada and the United States, according to affidavits filed in court in applications for the appointment of receivers for the company. Judge Lacombe in the United States Circuit Court today named Walter D. Edmunds, of New York, and James D. Colt, receivers, and many of the corporation's offices have been closed.

Application for the appointment of receivers was made by counsel for Wrigway Bowker, of Camden, N.J. Mr. Bowker swears that the firm, whose dealing with customers were enormous, bought and sold no stocks whatsoever, and made up fictious accounts of supposititious stock transactions, which were given to its customers. The firm had, the affidavit declares, more than 5,000 customers, whose claims amounted to more than $1,000,000.

Arthur M. Johnson, formerly an employe of the company, filed an affidavit in which he swears that no stocks were bought and sold on margin by the company, as said to have been represented to its customers. He explained at length the method he declares was employed by the firm's managers in making up the accounts said to be fictitious, so that each customer would be a loser. John N. Warwick, another employe, also made an affidavit, supporting those of Bowker and Johnson.

Mr. Bowker declares he deposited $5,000 with the firm's principal officers, and alleges he was induced by Geo. W. Turner to permit a man named Daniels to manipulate his account. He alleges his account was closed out without warning.

The receivers for the company are unable to give any estimate of the firm's assets and liabilities.

Whilst the seemingly swindling means adopted by Haight and Freeze, have lured hundreds of thousands of good dollars out of the public's pockets, there is no discredit personally attaching to their local representative, such local representative being only an agent and presumably unacquainted with the methods of his or their principals. People "bucking the tiger" in bucket shops take long chances and must abide by the results. Experience generally shows which way the cat will jump if you tarry with the bucket shops.

Inquest Private

Press Excluded From Inquest Held on Late Mrs. Winters, who Took Carbolic Acid.

Last night Coroner Grey, the jury and some twelve or fifteen witnesses in the case, held a secret session in the Council Chamber. Before commencing proceedings in the inquest held on the late Mrs. Winters, who committed suicide a few days ago, by taking two ounces of carbolic acid, the Coroner stated that the relatives of the parties concerned, desired to hold the inquest in private.

Without expressing any comment as to the legality or not of a secret inquest concerning suicide, we might say that the press of Peterborough have not the name of publishing sensationalism or putting into print anything unnecessarily hurtful to feelings of any one.

While the press were excluded from this meeting there is nothing to indicate that anything more sensational than a pitiful unveiling of private matters was under examination.

WILL LEAVE FOR TORONTO.

Mr. R. N. Jolliffe to Take Course of Vocal Studies in Toronto.

An announcement which will be received with regret by the musically appreciative in Peterborough, is that Mr. R. Norman Jolliffe, is shortly to leave for Toronto. This will render him no longer available to the audiences whom he has delighted on so many occasions in Peterborough, but it is in order to further pursue his musical studies that Mr. Jolliffe is leaving. He will remain in residence with Herr Auguste Wilhelmj, at 245 Sherbourne St., and under his direct instruction, the intention being to take up Grand Opera work in the fall with other advanced pupils of Herr Wilhelmj's. Friends here will always be interested in the career of a vocalist of such promise as Mr. Joliffe. He expects to leave next Tuesday.

The departure of Mr. Jolliffe and Mr. Jones from the Charlotte street choir will prove a great loss to that organization. A farewell concert is to be given in the church on Monday evening next.

THE GREAT SUIT DECIDED

Marconi Wireless Telegraph Company Given Verdict by U. S. Circuit Court.

The public in general, and thousands of share holders in the Marconi Wireless Telegraphic Company, in particular will be interested to learn that the United States Circuit Court, of New York, has handed down its decision in the great lawsuit, of the Marconi Company vs. De Forest Wireless Telegraph Company.

The Times was yesterday in receipt of the official full text of Judge Townsend's opinion, and of the interlocutary decree entered May 4th.

This decision endorses every essential detail in Marconi's contention, and prohibits others from using the more important apparatus and details patened by Marconi; such details include the elevated conductors with ground connections, as well as apparatus absolutely essential to intelligent transmission and reception of wireless messages. This brings to mind the well known past experience of attempts to infringe on patents controlled by the Bell Telephone Company. This decision now removes the last ray of doubt as to ultimate and absolute success of the Marconi Wireless Telegraph Co., of Canada.

With this one stumbling block now definitely removed from its path to success and wealth, the Marconi Company's stock, still at the low price of $5 a share, a raise from its older quotation of $3, presents the opportunity of a lifetime for conservative investment in a corporation, whose success is proven by deeds accomplished, and now returning good revenue, and whose future does not resemble the rainbow gold of promises.

With this legal decision so sweepingly in its favor the Marconi Company's stock must, in common sense, and as an enormous business proposition already proven to be successful, advance by leaps and bounds in price.

The opportunities for world-wide connection by this system point to even greater advances in price of stock than are known to have characterized the history of Bell Telephone stock. It does not take a gifted prophet to foretell, basing his judgment on deeds accomplished and on a thoughtful forecast of results that must reward the genius of the inventor, and the opportunities thirsting to be grasped, that investment in a few or many shares of the Marconi Wireless Telegraph Company's stock at $5 a share, will, in very few years, mean a competency to their owners.

For full particulars, intending investors may communicate with Messrs. Munroe & Munroe, Broad Exchange Building, New York.

OCTOGENARIAN PASSES AWAY.

Death of Mr. William Batten, Father of Ald. Joseph Batten at Venerable Age of 81

At the ripe old age of 81 years, on Sunday night, one of our oldest residents, died, in the person of Mr. William Batten, father of Alderman Joseph Batten, at the residence of his son, 351 McDonnell street.

The late Mr. Batten retired as usual about half-past nine Sunday evening, and when he failed to come to breakfast yesterday morning, a member of the household went to his room and discovered that death had come during the night. Mr. Batten had made no outcry whatever, and must have expired without pain or struggle. Dr. Bradd was called by Ald. Batten, in order that the actual cause of death might be ascertained. It is thought that an affection of the heart brought on the end.

The late Mr. Batten, was born in Cornwall, Eng., removing to Canada in 1830 at the age of six years. After his arrival here, he engaged in farming operations in North Dummer, where he was married to his first wife, Sarah Payne, who died fourteen years ago. Mr. Batten removed from Dummer to Lakefield, where he resided for about fifteen years, and thence to Paisley, where he was married to Mary Rawley, who pre-deceased him by about a year. Mr. Batten removed from Paisley to Peterborough, where he has since resided.

Surviving him are six daughters and two sons;—Mrs. Wm. Harding, Warsaw; Mrs. Herbert Meyers, of Orillia; Mrs. Robert Fowlers, of California; Mrs. Wm. Dunford, of Warsaw; Mrs. John Quinlan, of Orillia; Mrs. Wm. Hewitt, of Rochester, Ald. Jos. Batten, of town, and Mr. J. Batten, of Port Carling. One son, George, died in Rochester on February last. One sister, Mrs. Ernest Graham, and one brother, Richard, of Dummer, also survive him. The deceased was a Methodist in religion, and was by trade a carpenter.

The funeral will take place this afternoon at three o'clock from the residence of his son, 351 McDonnell street, to Lakefield cemetery, where the remains of deceased's mother were interred.

NO TRACE OF MISSING MAN.

Robert Hamilton Has Left No Tangible Trace of Whereabouts.

The disappearance of Mr. Robert Hamilton, of which details were in yesterday's issue, is causing much uneasiness and discussion. His brother, Mr. Alex. Hamilton telephoned yesterday to the effect that a letter had been found in Mr. Robert Hamilton's pocket indicating that he had gone to Warren, Ont. Friends in that place are being communicated with, but up to going to press, no news that could be depended upon had been received of or from the missing man.

Grave fears are expressed that the rumors current as to his suicide are only too well founded.

A LIVE COMPANY

Peterborough Street Railway Co. will Build Loop Line at Jackson Park.

The Electric Railway Company will on Monday begin laying a loop line at Jackson Park, the company recently having acquired some property at the end of the terminus. The loop line will be about 180 feet in diameter and will be completed within a few days. This will enable the cars to turn around without delay. The trolley will not have to be reversed, nor the motorman change his position, thus saving much valuable time. The new summer time table will go into effect in a few days. The company are certainly keeping their obligations to the public, and trying to give a good service.

BIG FIGHT WILL BE IN NORTH OXFORD.

Woodstock, May 16.—The present indications are that so far as Ontario is concerned the fight against the Autonomy Bills will be made in North Oxford rather than in London. It is felt that a victory or a reduction of the Government vote that would be equivalent to a victory in a place like North Oxford, where the Liberal vote is so strong, would be more impressive than a victory where the forces are more evenly divided.

Assistance has been offered from Toronto for a vigorous campaign against coercion and the probability is that there will be some important developments in a few days. The feeling is that if North Oxford were permitted to speak on the school question, free from other entanglements, the verdict would be such that the Government could not afford to disregard it.

The probability is that there will be at least one candidate who will make coercion the issue, and it may be that, apart together from the party contest, there will be a campaign carried on directly against the Autonomy Bills. The indications are that the campaign against coercion may open at once, and that it will be the most vigorous North Oxford has ever seen.

The Liberal convention to select a candidate has been called for Tuesday, May 30.

THE DREADED PLAGUE IN SCOTLAND

Ottawa, May 16.—The State Department has received a cable from the Colonial Secretary, stating that there are three cases of plague at Leith, Scotland.

ROYAL
Baking Powder
Makes Clean Bread

With Royal Baking Powder there is no mixing with the hands, no sweat of the brow. Perfect cleanliness, greatest facility, sweet, clean, healthful food.

ROYAL BAKING POWDER CO., NEW YORK.

A New Grain Line By C.P.R. In Ontario

Elevators at Victoria Harbor and a Railway Across Country North of Lake Couchiching To Sharbot Lake.

Toronto, May 16.—The Canadian Pacific Railroad Company will be unusually active in Ontario this summer.

Next week tenders for the construction of the Sudbury-Toronto line from the Magnetawan River to Toronto, will be opened. The water route from the Magnetawan to Sudbury has just been completed.

Survey parties have just completed work on a line from Flesherton to Walkerton, and construction will commence almost right away. This line will go by way of Priceville, Durham, and Hanover, to Walkerton.

In two weeks' time surveying parties will be sent out to lay out a new line from Victoria Harbor across the north of Lake Couchiching to Sarbot Lake. This is the C.P.R.'s new grain route from the west to the seaboard. Big elevators will be erected at Victoria Harbor, and the grain shipments will unload there, and transhipped for rail transportation direct to Montreal. The water journey from the head of Lake Superior to Victoria Harbor is a trifle less than from the same point to Owen Sound, and the new route will cut off 150 miles of haulage, an immense saving in time, to say nothing of the elimination of the inconvenience of bringing the grain south to Toronto, and handling it over the congested Ontario and Quebec division. The new line, too, opens up back townships that are rich in timber and minerals.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

BASEBALL.

St. John's Guild team will hold a practice every night now and all the boys are requested to turn out.

• • • •

There promises to be a record attendance at the opening game in the Midland League here on the 24th, between Peterborough and Lindsay. The Cereal Works, Canadian General Electric, and a number of other large Peterborough industries, will be well represented. A large bunch of rooters will be on hand and a hot game is expected. Turn out to hard practice boys till next week.—Lindsay Post.

• • • •

The Auburn City League baseball team will hold a practice to-night at the Oval. All players are requested to be in uniform.

• • • •

The Sherbourne of Toronto, who are members of the same League as the Progressives, will play an exhibition game with Manager McEwan's bunch on Saturday.

• • • •

Yebbie Lost the First.

Before 1,000 people at Brantford on Saturday the home team defeated Galt by 12 runs to 6. The batteries for Galt were Flaherty and Marshall, and for Brantford, Brophy and Elliot.

• • • •

FOOTBALL.

On Wednesday night at 7 o'clock, the O.C.W. team will play a practice game with the Peterborough Business College.

• • • •

Next Saturday the Wanderers will go to Bridgenorth to play that team. The ball will be kicked off at 6.45.

• • • •

LACROSSE.

The mighty Shamrocks threaten to quit the N.A.L.U., if at ot-morrow night's meeting in Montreal, it is decided to rescind the rule preventing players from changing clubs every year if they so desire. All the other clubs are in favor of the change. They are all greedy after the Shamrock players.—Toronto Star.

• • • •

Reddy McMillan, who played hockey last year with Calumet, Mich., will come to Toronto this week from Cornwall to play with the Tecumsehs.—Toronto Star.

• • • •

CHINA TO KEEP MANCHURIA

Will Station 50,000 Troops There When Peace is Restored

Victoria, B. C. May 16.—Mail advices from Japan include an epitome of opinions of Chinese statesmen wired from Peking to the Tokio Asahi to the effect that Chinese officials would not consider it a wise step on the part of Japan to insist on the opening of Manchuria. The officials state it to be the intention of China to station 50,000 troops in Manchuria when peace is restored. They say China will not seek the intervention of a third power to settle the Manchurian question, but fear that the powers may intervene with disadvantage to both.

Pensioner of War of 1812

Watertown, N.Y., May 15.—Hiram Cronk, the only pensioner of the war of 1812, is seriously ill at his home at Dunn Brook, and little hope is entertained for his recovery. Cronk recently celebrated his 106th birthday.

GREAT CHANGE

From Change in Food.

The brain depends much more on the stomach than we are apt to suppose until we take thought in the matter. Feed the stomach on proper food easy to digest and containing the proper amount of phosphates and the healthy brain will respond to all demands. A notable housewife in Buffalo writes:

"The doctor diagnosed my trouble as a 'nervous affection of the stomach.' I was actually so nervous that I could not sit still for five minutes to read the newspaper, and to attend to my household duties was simply impossible. I doctored all the time with remedies, but medicine did me no good.

"My physician put me on all sorts of diet, and I tried many kinds of cereal foods, but none of them agreed with me. I was almost discouraged, and when I tried Grape-Nuts I did so with many misgivings—I had no faith that it would succeed where everything else had failed.

"But it did succeed, and you don't know how glad I am that I tried it. I feel like a new person, I have gained in weight and I don't have that terrible burning sensation in my stomach any more. I feel so strong again that I am surprised at myself. The street noises that used to irriate me so, I never notice now, and my mind is so clear that my household duties are a real pleasure."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Now why was this great change made this woman?

The stomach and the brain had not been supplied with the right kind of food to rebuild and strenghten the nerve centres in these organs. It is absolute folly to try to do this with medicine. There is but one sure way and that is to quit the old food that has failed and take on Grape-Nuts food which is more than half digested in the process of manufacture and is rich in the phosphate of potash contained in the natural grain, which unites with albumen and water—the only three substances that will make up the soft gray filling in the thousands of delicate nerve centres in the brain and body. Grape-Nuts food is a sure road back to health in all such cases.

DEWEY'S TIP IS TOGO

Admiral, While Refusing to be Quoted, Said to Expect Japanese Victory

Washington, May 16. — Admiral Dewey declares he never said that in his opinion the Russians were going to whip the Japanese in the naval engagement which is soon expected. As a matter of fact, the Admiral's private opinion, as gathered from his associates, is quite to the contrary, and that Admiral Togo is pretty sure to smash Rojestvensky whenever the Russian commander gets near enough Japanese bases to warrant such an attack in force. But Admiral Dewey, mindful of the proprieties of the situation, has been carefull not to express an opinion of the result of the coming battle for publication. He is not so backward among his friends, but his friends have no right to quote him one way or another. The notion that Admiral Dewey pinned his faith to the Russians grew out of his well-known advocacy of battleships as the chief and most effective part of a fighting navy. As the statement was sent broadcast Admiral Dewey was represented as believing the Russians would win on account of their superiority in battleships. That would, indeed, be in line with his theory as to the relative value of that sort of fighting craft. But the Admiral, in discussing the outlook with his friends, always has been careful to put in the qualification that, "other things bein equal or approximately equal, superiority in battleships should give victory." In the present case there is a dintinction with a very wide difference. Other things are not equal. No one knows better than George Dewey the enormous value of superior personnel, gunnery and seamanship. Admiral Dewey is not violating naval etiquetet by rushing into print with his opinions as to the outcome of the coming naval battle or series of battles. But privately his opinion coincides with that of ninety-nine out of a hundred American naval officers, to wit: That all the chances are in Togo's favor.

Off for Panama.

Mr. Edward Tighe, an old Peterborough boy, who has for some time resided in Hamilton, is in town for a brief visit with his mother, previous to his departure for Colon, Isthmus of Panama. Mr. Tighe has been connected for the past eighteen months with the Westinghouse Company, in Hamilton, but has accepted a lucrative position in the engineering department of the Isthmian Canal Commission. He will sail from New York for Colon by the Panama Railway Company's steamer "Finance," on Wednesday, May 31st, to enter upon his new duties, which will include those of steam and air drill workman.

DOES IT STAND TO REASON that Perry Davis' Painkiller could have held public confidence for 60 years unless it really did cure diarrhoea, cholera morbus and all similar troubles so common and so dangerous in hot weather.

Awful Palpitation, Dizzy, Faint, Weak

You Have a Weak Heart and Poor Nerves — Instant Death May Overtake You.

With weak heart and exhausted nerves, you are living in the very shadow of death.

Think what it would mean to your family if you were to be taken today! You can't afford to risk it any longer. Get Ferrozone at once and make your heart strong and well.

Ferrozone has helped many a man to live a strong, useful life, and will do likewise for you.

Mrs. E. J. Brooks, of Berlin, says: "My nerves were weak and I was irritable and cross.

"My heart palpitated like an engine and everything faded away.

"I was subject to dizziness and fainting.

"After using Ferrozone I gained strength. My appetite improved. I slept well. The heart trouble disappeared.

"Ferrozone made me well."

You will never know what real good health means until you take Ferrozone. It gives strength, endurance and energy to every organ of the body; try Ferrozone, 50 cents per box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

CHINA'S CANAL SYSTEM

The Chinese are not yet much on railroads, but they know how to use canals. China is practically covered by a network of canals. From this Grand Canal lead smaller canals, and from these ramify still smaller ones, so that there is scarcely a single forty-acre tract of land not in touch with this magnificent system. It is by this means that the Chinese raise their immense rice crops. During the rice-growing season, the fields are flooded, thus furnishing at the same time batcheries for the fish, which, teeming in the canals, furnish the Chinese fishermen with abundant hauls. This dual service of the canals is of inestimable value to the country. The method of gathering the muck from the canal beds is similar to that of our oystermen, dredging by hand. From the muck enough shellfish is obtained to pay the farmer for his work, and the fertilising muck is, therefore, clear profit. It is largely used around the mulberry trees, those used around the mulberry trees, industry. The fertilizer, being rich in nitrogen, potash and humus elements, is of great value. Another of the mutually beneficient features is that this much dredging has kept the canals open for centuries.

The Chinese farmers also keep the canals purified by gathering all floating weeds, grass, etc. The reeds are used for weaving baskets and for fuel. Thus not a bit of plant life about the canals goes to waste. The adjoining swamp ground is used for raising lotus roots, from which commercial swamproot is largely obtained.

Where the canals widen, the extra water surface is used for raising water nuts, or, rather, bulbs. These are rich in arrowroot. The annual profit from an acre of shallow water thus employed is greater than that of an acre of grain or similar crops on cultivated land. Another use to which the utilitarian Chinese apply these canals is the raising of ducks. These duck farms are profitable.

A WINDFALL FOR THE PROVINCIAL GOVERNMENT

By the death of Geo. Gooderham, of Toronto, who is stated to have left an estate of at least $20,000,000, it is estimated that the Ontario Provincial treasury will come in for an inheritance tax of something like $1,000,000.

We don't suppose that many people will feel that those to whom Mr. Gooderham's estate goes will feel seriously the loss of one million dollars; and, of course, Mr. Gooderham doesn't. The inheritance tax is one which assuredly does not hurt the man who made the money—and those who didn't make it have little cause to growl if they do not get more than nineteen-twentieths of wealth which they did not earn.

One weak feature of the inheritance tax is that the law specifies that the money shall be used for purposes of public charitable institutions. This is a bad feature of the law for two reasons. One is, at least we have heard so, that it is not observed; that the money practically goes into the ordinary provincial revenue. The other reason is that many well-to-do people are stated to bequeath less to charitable purposes than they otherwise would, fancying that the inheritance tax is sufficient for a contribution to that purpose. The absurd limitation of the tax in the way specified was merely a farce to smooth the way of the law through the Legislature. It should be dropped.

JAPAN'S BIG STICK

Japan may not intend to be a "world-power," but she evidently does intend to be able to take care herself. In the armament of the battleship Kashima, just launched at Elswich, the Japanese made a significant use of their very up-to-date experience of naval warfare. The Kashima, a vessel of 16,400 tons, carries for twelve-inch guns, four ten-inch guns, twelve six-inch guns and twenty-one smaller guns. She is a floating fortress of stupendous power, strong in weight and range, as well as the frequency of her fire. She is armed on the theory that the best battleship will knock her adversary to pieces before the latter can get close enough to use smaller guns effectively. The twelve-inch guns will throw shot weighing 850-pounds with such force as to pierce at a distance of two and one-half miles the armor of any ship afloat. The British navy has a number of vessels carrying twelve-inch guns, and one carrying thirteen-inch guns, and they are smaller than the Kashima and have weaker secondary armaments. The same is to be said of the American navy, which has some vessels with twelve and thirteen-inch guns, but the vessels are smaller and their secondary armament weaker.

A Desirable Change

Gentlemen Who Are Bald.—A great many think it is impossible to replace their former growth; these thoughts would be at once expelled from their minds should they investigate the Art Hair Coverings manufactured by Prof. Dorenwend, whose skill in this line is world-renowned. Over 30,000 wear his Art Productions. They are feather-weight, securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance. He is at the Oriental Hotel, Peterborough, on Friday, May 19th. Don't miss seeing his goods.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HOUSE-CLEANING TIME

And now we have our introduction
to a season of destruction,
And of riot and of ruction we
shall have our fullest share,
For the housewife now goes prying
in the corners she is spying
All the dust and dirt, and, sighing,
she ties towels on her hair.

Then she gleefully goes tripping and
from room to room goes skipping,
And there is a sound of ripping
as the carpets leave the floor,
While the furniture is jumbled and
the house completely tumbled,
And the husband he is humbled at
the tumult and the roar.

And with vigor she is scrubbing and
the carpets she is drubbing,
While the dust and dirt she is
grubbing, and she never stops
at all,
As she daily grows more nervy than
the scrubbing brush grows
curvy,
And the house is topsy-turvy from
the garret to the hall.

And there is no time for quiet—night
and the day there is a riot—
And the family must diet, for
there is no time to eat,
For it is no idle fable that there is
no stove or table,
And to cook no one is able, less
it be out in the street.

Now there is an overhauling and in
tubs there is a sprawling,
As the husbands blindly crawling,
creep back home again each
night,
And their heads they're always
thumping and their shins with
pain are jumping,
As in darkness they are bumping
through the wreckage minus
light.

And now we have an introduction to
a season of destruction,
And we meet with grim obstruction
here and there and everywhere,
And the days are full of madness,
full of gloom and grouch and
sadness,
And our hearts are full of badness
as we walk in our despair.

HOMESTEAD REGULATIONS
Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
ENTRY
Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.
HOMESTEAD DUTIES
A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:
[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.
[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.
[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.
[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.
The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.
A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.
The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.
Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.
APPLICATION FOR PATENT
Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.
INFORMATION
Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.
W. W. CORY,
Deputy Minister of the Interior.
N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

STEVENS
The wide-spread popularity of STEVENS RIFLES, PISTOLS and SHOTGUNS emphasizes the degree of purity that embodied in our sporting arms. You will find arms bearing "STEVENS" or all RIFLE RANGES and wherever there is Hunting.

St. Lawrence Extra Granulated Sugar
is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest proposition in the county. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time. Will accept orders for blocks of 1000 shares or more at 45 cents a share

The Stubbs Investment Company
Albuquerque, New Mexico

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-offices, the Admiralty, the lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During these six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensible adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

DRS. KENNEDY & KERGAN

148 Shelby Street, - DETROIT, MICH.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONARCH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Loss Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Custer County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, crosscuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringering through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $20 per ton, per ore settlements sheets on file. At the present price of silver these shipments would have averaged $30 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charges on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $760.00 per ton and for gold $326.00.

With an average value of $60.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 275,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

A CHANGE OF GOVERNMENT

President of Grand Trunk Says Balfour Will Fall

Montreal, May 15.—Sir Charles Rivers-Wilson, who is at present in this city, in conversation with a press representative, said: "There is some unrest in business circles as a result of the war in the far east, but, barring that, financial affairs are in the very best possible shape," answered Sir Charles. "There is now, however, very little likelihood of Great Britain becoming embroiled in the conflict, and consequently the money market is running in much its accustomed groove. At the next general elections the probabilities are that there will be a change of Government, but that change, if it comes, will not affect the foreign policy of the nation, which has always been fairly continuous, no matter which party is in power."

ONE HUNDRED AND SEVEN

Addison Smith of Shrewsbury, Ont. Still Hale and Active

Chatham, May 15.—This is the one hundred and seventh anniversary of the birth of Addison Smith, of Shrewsbury, Rond Eau Bay. Mr. Smith enjoys the distinction of having lived in the eighteenth, nineteenth and twentieth centuries. He is the father of 29 children, is blessed with second eyesight, and is still active in body and mind.

Local Option By-law Upheld

Toronto, May 15.—The Division Court handed down an oral judgment in the appeal of the hotelkeepers, Dillon and Mahoney, of the village of Cardinal, against the decision of Justice Magee, upholding the validity of the local option by-law passed there in the spring. The three judges agreed that no improper practices had existed to an extent sufficient to justify the voiding of the vote.

Pensioner of War of 1812

Watertown, N.Y., May 15.—Hiram Cronk, the only pensioner of the war of 1812, is seriously ill at his home at Dana Brook, and little hope is entertained for his recovery. Cronk recently celebrated his 104th birthday.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Reference: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

DEPARTMENT OF MILITIA AND DEFENCE

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS

SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary.
The Militia Council.
Department of Militia and Defence.
Ottawa, May 1, 1905.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Stanley Breakwaters," will be received at this office until Monday, June 5, 1905, inclusively, for the construction of two breakwaters at Port Stanley, Elgin County, Ontario, according to a plan and specification to be seen on application to the Postmaster at Port Stanley, Ont., at the offices of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto, J. G. Sing, Esq., Resident Engineer, London, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twelve thousand dollars ($12,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.
Department of Public Works,
Ottawa, May 5, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Big Fire Insurance Losses

New York, May 16.—The members of the National Board of Fire Underwriters, who met in annual convention here, were told by President John H. Washburn, of the organization, that the tremendous losses sustained by the insurance companies last year, and in the first four months of the present year had brought about a situation which "may well cause all interested in fire insurance to stop and consider what they should do to save themselves from destruction." Last year's losses aggregate $229,198,050, and were greater than in any other year on record. In the first four months of this year there have been seven conflagrations, with loss in each one running from $500,000 to $3,000,000.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

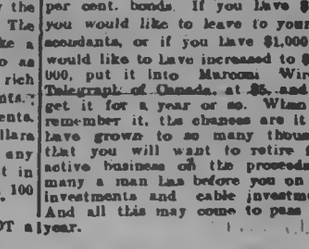
OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at mines; to install an electric power line; and install a large compressor and hoist capable of sinking the props at least one thousand feet deeper. When these improvements and betterments are made the cost of operating the mine will be reduced one-half, and good dividends be continuous and certain.

CONCENTRATOR PURCHASED



We have just purchased a concentrator, and we will begin erecting same immediately, and expect to start same by May 10th. Dividends will commence about the first of July.

We are much gratified at the number of orders we have received in the last two weeks from letters we have sent to different parties throughout the country, and from present indications all of our first issue of stock will be subscribed for inside of thirty days.

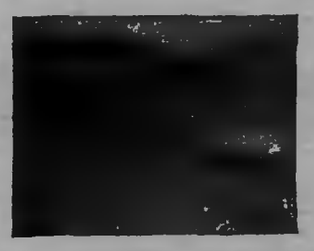
The mines are located twenty miles east of Helena, Montana, and have been worked for a number of years, but after closing down for two years were started up again July, 1904. Up to March 1st, 1905, these mines produced $1,300,898 93, leaving a net profit of $570,346 85. In the month of November, 1904, we encountered some very high grade ore below the lowest level, which assays as follows:—

	Gold ounces.	Silver ounces.	Value.
No. 1 Assay—West of winze, intermediate drift	3685.60	1197.	$74,466.20
No. 2 Assay—Immediate below No. 4 Tunnel	3851.20	1388.80	77,829.80

In January we pulverized 112 pounds of rich ore, which gave us an average taken from four assays of 885.36 oz. gold and 254.38 oz. silver, with a gold scales caught on screen worth $577 60 per ton, making a total valuation of this ore worth $17,351 74 per ton. This 112 pounds brought us $944.00.

ORE RESERVES

Consist of over 23,000 tons of second class concentrating ore mined and placed upon the different dumps with a gross valuation of $250,000.00 according to measurement, and concentrating and assay tests. Besides there is in the old stopes of the mine over 10,000 tons of concentrating ore with a value of $100,000, and a block of ground in the mine, 500 feet by 134 feet, averaging from six inches to three feet in width, worth over $150,000, and new ore is being placed in sight daily.



With these facts and figures it is asked why any of the stock of this company should be offered for sale at any price. The reason is this: The company desires to spend $75,000 without interfering with the workings of this mine to install improved machinery and develop the mine to a further depth of 1500 feet.

Now is your time to invest in a good paying proposition that will last from ten to fifteen years and pay from two to five cents per share per month during that time. We ask everyone who reads this advertisement to come and visit the property, or make any investigation that they desire. The officers of the company are R. A. Bell, Mining Operator, fifteen years, President; A. L. Smith, Vice-President National Bank of Montana, Treasurer, Wm. H. Dickinson, Cashier National Bank of Montana, Secretary. References: Dunn, Bradstreet, or any bank or business house in Helena.

Fine Weather Gives Relief from Catarrh

But Never Cures it Because the Germs are Still Alive Though Inactive. First Kill the Germs Then You'll be Really Cured.

Catarrh germs are carried into the throat and lungs by the air we breathe. In the same way the remedy must be applied. To be effectual the cure must be breathed, for otherwise it can't get where the germs really are.

Mix your germ-killing medicine with air, breathe it right into all the little air cells where the catarrh really is, then you'll get cured quickly. This is exactly the way Catarrhozone acts. You inhale its medicated vapor to the very source of the disease. It destroys the cause of the inflammation, kills all the microbes that develop when the lining membranes become diseased. Besides this Catarrhozone is a wonderful healer. Every sore spot is rebuilt with new healthy tissue. All the poisonous secretions that have been putrifying the system are driven out. No trace of catarrh remains after Catarrhozone has been used.

Why don't you use Catarrhozone? Its the simplest thing in the world to use—and so sure to cure promptly that you really can't afford to be without it.

MISS E. M. PETERS is known by every resident in the pretty town of Highland Grove. She was cured by Catarrhozone of systematic catarrh and says; "For three years before I commenced using Catarrhozone I was continually bothered by a congested condition of my nose and throat. I was sneezing and coughing all the time and really never felt well. I perservered with Catarrhozone and was rewarded by being entirely cured. My recovery prompted others in this locality to use Catarrhozone, and many of them have had remarkable cures from using it."

MISS LOUISE MURPHY a well known society belle residing at 22 Monument St., Medford, writes; "Kindly forward me three outfits of Catarrhozone which I have found most valuable for catarrhal affections of the nose and throat. Catarrhozone cured me of weak lungs and really saved me from consumption. I am recommending Catarrhozone above all other treatments, knowing what great curative powers it possesses. I know others who have also benefited by Catarrhozone."

Catarrhozone is perfectly harmless and may be used with perfect safety by the most delicate infant. Instead of deadening the stomach with drugs, it sends the healing vapor along with the air you breathe into every air cell and passage of the nose, throat, lungs and bronchial tubes. Catarrhozone can't fail, it's sure to cure. If not satisfied you can have your money back for the asking. Two months' treatment, hard rubber inhaler and extra bottle of inhalant costs $1.00, sample size 25c. By mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont., Can.
